SOME people are certainly hard to satisfy. Before us lies a paper, the *Evening Wisconsin*, which in the same breath declares that the "Engineering bureau" of the War Department would be a good thing to abolish, because it recommended $30,000,000 for river and harbor improvements which Congress easily saw how to cut down to $3,000,000; and then goes on to upbraid Congress for the pitiful appropriation assigned Milwaukee harbor by that body, despite the recommendations for $300,000, which Captain MARSHALL considered could be usefully and wisely expended. Apparently, the *Wisconsin* thinks the Engineer Corps justified in asking $300,000 for Milwaukee, but holds that it should be ashamed of itself for suggesting proportionate appropriations for the rest of the United States. The same inconsistency prevails elsewhere: if we bring together the statements concerning the improvements of local water ways, which appear in the newspapers of the vicinage, we shall have the most elaborate demonstration of the necessity for the expenditure of every dollar provided for in the estimates for rivers and harbors—and more. Taking the discussions in the same papers on the river and harbor bill as a whole, we shall find equally conclusive evidence that the expenditure it calls for is a waste of public money. For some reason, which we could never quite understand, this bill is made in newspaper offices to serve the purpose for which the papacy was reserved by the old fashioned hard shell preachers of our pioneer days: when other themes fail, it is a safe object upon which to expend attack. Articles on the river and harbor bill seem to be kept in pickle to be brought out on each recurring anniversary of its passage. As there is no attempt to introduce into them either argument or citation of fact, they are as good one year as another, and might be, if they are not, stereotyped as a measure of economy.

PERSONAL ITEMS.

CAPTAIN J. S. MCNAUGHT, 20th U. S. Inf., is at Madison, Wis

MAJOR B. F. POPE, Surgeon, U. S. A., lately on duty in Washington, goes to San Antonio, Texas.

CAPTAIN H. P. PERRINE, 6th U. S. Cav., lately visiting at Trenton, N. J., will remain East until March.

LIEUTENANT E. S. FARROW, 21st U. S. Inf., visited in New York City this week, quartering at the Grand Hotel.

LIEUTENANT EUGENE CUSHMAN, 16th Inf., on leave from San Antonio, is visiting at 378 Gates Avenue, Brooklyn.

GENERAL N. A. MILES, U. S. A., and family, were expected in San Francisco this week, en route to Los Angeles.

LIEUTENANT J. W. DUNCAN, 21st U. S. Inf., son of the late General Thos. Duncan, U. S. A., has arrived in Washington.

LIEUTENANT CHARLES F. ROE, 2d Cav., with his family, left New York, Jan. 15, to join his regiment, via San Francisco.

LIEUTENANT J. D. MANN, 7th U. S. Cav., on sick leave from Fort Meade, has been spending a portion of it at San Francisco.

LIEUTENANT J. M. CARSON, Jr., 5th U. S. Cavalry, is visiting his father, Major Carson, at 1332 Vermont avenue, Washington, D. C.

LIEUTENANT W. W. FLYNN, 8th Cav., lately visiting at Woodstock, Conn., was expected to rejoin this week at Fort Clark, Tex.

CAPTAIN C. E. HARGOUS, 5th U. S. Infantry, on leave from Fort Keogh, Mont., has been spending a portion of it in New York City.

ASSISTANT SURGEON VICTOR BIART, U. S. A., who has been on sick leave from Fort Sisseton since April, 1884, is at Fort Sisseton, Dakota.

CAPTAIN J. S. POWELL, Signal Corps, U. S. A., is still confined to his quarters at Omaha from the effects of a recent fall which broke his left leg.

COLONEL DE LANCY FLOYD JONES, U. S. A., and Mrs. Floyd-Jones are spending a few weeks in Washington, being domiciled at the Arlington.

ASSISTANT SURGEON H. O. PERLEY, U. S. A., on leave from Fort Pembina, has been visiting at Detroit, Mich. He will rejoin his station in March.

INSPECTOR-GENERAL ABSALOM BAIRD, U. S. A., arrived at Fort Du Chesne, Utah, this week, and commenced his investigation of affairs at that post.

LIEUTENANT J. B. ALESHIRE, 3d U. S. Cavalry, who has been visiting at Gallipolis, Ohio, since November last, is expected shortly to rejoin at Fort Custer, Mont.

LIEUTENANT J. T. THOMPSON, 2d U. S. Artillery, rejoined at Little Rock Barracks, Ark., the latter part of this week from a five weeks' visit to relatives at Newport, Ky.

CAPTAIN RICHARDS BARNETT, Assistant Surgeon, U. S. A., who has been on the sick list for some time past at Washington, D. C., has received a six months' extension of his sick leave.

THE engagement is announced of the Hon. Ira Davenport to Miss Sharpe, sister of Captain H. G. Sharpe, U. S. A., on duty at West Point, and daughter of Gen. Geo. H. Sharpe.

COLONEL J. C. BAILY, Assistant Medical Purveyor, U. S. A., left Fort Monroe, Va., this week, for New York City, to assume charge of the Medical Purveying Depot in Wooster street.

MAJOR W. H. GARDNER, Surgeon, U. S. A., who has been a guest for some time past at the Clarendon, Washington, D. C., took charge this week of medical matters at Fort McHenry, Md.

MAJOR THOMAS H. BRADLEY, Captain 21st U. S. Infantry, on leave from Fort Bridger, Wyo., is, with Mrs. Bradley, at 620 11th street, Washington, and will remain there for some time to come.

CAPTAIN JOHN H. WEEKS will, at the request of the Board of Managers, relate at the United Service Club, Philadelphia, on Wednesday, Jan. 19, at 8 P. M., "Humphrey's Division at Fredericksburg."

GENERAL E. B. ALEXANDER, U. S. A., who is spending the winter at Washington with Col. G. N. Lieber, Acting Judge-Advocate General, U. S. A., his son in-law, is reported to be in delicate health.

LIEUTENANT C. P. TERRETT, 8th U. S. Infantry, on account of ill health, has relinquished duty at David's Island, N. Y. H., and will spend a few months on sick leave before joining his regiment.

LIEUTENANT S. R. H. TOMPKINS, 7th U. S. Cavalry, recently visiting his father, Gen. C. H. Tompkins, U. S. A., at Governor's Island, returned to Fort Meade, Dakota, this week and resumed duty with his troop.

COLONEL H. M. BLACK, 23d Infantry, and the other members of the General Court sitting at Washington Barracks last week, for the trial of 1st Lieut. Chas. Humphreys, 3d U. S. Art., left early in the week for their several stations. The result of the trial has not yet been made public.

THE Veteran Association of the Fifth New York Volunteer Veteran Association, or Duryea Zouaves, propose on Memorial Day to visit the grave of Maj.-Gen. G. K. Warren, U. S. A., at Newport, R. I., for the purpose of paying a tribute to his memory and unveiling a monument over his grave.

MISS ANDREWS, the Ohio heiress, who is to marry John A. Logan, Jr., is spoken of enthusiastically by all who know her as a young woman of even temper, fine education and accomplished as well as beautiful. She is 22 years of age and has always enjoyed perfect health. She is a blonde of medium height. Her father's wealth gave her the best advantages of education and travel, and she is the favorite of young and old, both at home and elsewhere. She spent some time in New York last winter as the guest of her father's brother.

CAPTAIN M. C. FOOTE, 9th U. S. Inf., is visiting in Washington.

CAPTAIN R. G. ARMSTRONG, 1st U. S. Inf., has taken charge of recruiting matters at Fort McDermit, Nevada.

INSPECTOR-GENERAL H. J. FARNSWORTH, U. S. A., visited New York this week, registering at the Gilsey House.

LIEUTENANT J. K. WARING, 2d U. S. Inf., lately on a trip to Fort Leavenworth, has returned to David's Island, N. Y. H.

ASSISTANT SURGEON H. I. RAYMOND, U. S. A., lately at Fort Gaston, has changed base to the Presidio of San Francisco.

LIEUTENANT J. C. SANFORD, Corps of Engineers, U. S. A., on duty in New York City, goes abroad on a three months' vacation.

CAPTAIN S. W. GROESBECK, U. S. A., Judge-Advocate, Department of Dakota, has returned to St. Paul from a few weeks visit East.

LIEUTENANT R. J. C. IRVINE, Adjutant, 11th U. S Inf., and Mrs. Irvine, are at Augusta, Ga., and will remain there for the balance of the winter.

LIEUTENANT E. C. BROOKS, 8th U. S. Cavalry, will leave San Antonio in a few days for Chicago, where his marriage to Miss Gray is soon to take place.

GENERAL ABSALOM BAIRD, U. S. A., on his way to Fort Duchesne, Utah, paid a short visit to St. Louis to see his son, Lieut. Wm. Baird, 6th Cav., who is on duty at Jefferson Barracks.

AN officer of the 18th Inf. stationed at a post along the Union Pacific Railway is to be married at an early date, says the Kansas City *Times*, to one of Leavenworth's handsome and accomplished young ladies.

MAJOR JOHN BROOKE, Surgeon, U. S. A., after a short but pleasant tour of duty at Fort McHenry, d., goes to Fort Monroe, Va., for duty as post surgeon in place of Col. J. C. Baily, recently ordered to New York.

FOR the first time in many years a Patriarchs' ball came off last week without the presence of the indefatigable Mr. Ward McAllister, who, owing to the death of his brother, Col. Julian McAllister, U. S. A., is now in mourning.

GENERAL ALFRED PLEASANTON, says a Washington despatch, is one of the most historical characters of the capital. Every night he appears at Willard's Hotel and generally is surrounded by a crowd of admiring listeners. His hair is almost white and the long, curling moustache which sweeps down over the square cut jaw is frosted with the advance of years.

AT a banquet given at Paris, Jan. 15, to celebrate the anniversary of the capture of Yorktown, Gen. Boulanger toasted President Cleveland and Minister McLane. He also proposed the toast "The Union of the Two Peoples," a union which, he said, had been cemented by the Statue of Liberty. Our Minister, Mr. McLane, responded and afterwards proposed "The French Army."

CHAPLAIN WINFIELD SCOTT, of Angel Island, was installed, Jan. 4, as Chaplain of Geo. H. Thomas Post, No. 2, G. A. R., of San Francisco. This post numbers upwards of six hundred members, and is the largest and strongest post on the Pacific Coast. Chaplain Scott is also chaplain of the Pacific Coast Commandery of the Loyal Legion, which has over five hundred members. He holds services at Angel Island every Sunday morning, and at Gen. Howard's Headquarters, Fort Mason, in the evening.

JOHN S. MOSBY is outraged by the discovery in the archives of the War Department of a letter from Gen. A. Pleasanton, June 12, 1863, asking how much he might be allowed to pay Mosby as a bribe for his services, stating that there was a chance to get them. Gen. Rufus Ingalls, to whom the letter was addressed, replied the same day: "If you think your scheme can succeed in regard to Mosby, do not hesitate as to the matter of money. Use your own judgment and do precisely what you think best for the public interests." Mosby, who has no disposition to join Benedict Arnold in history, says that no proposition, either directly or indirectly, ever came to him from Pleasanton, or any one else, to betray the cause, and at no period of his military career was he more active, or caused more damage to the Union cause than in the months of June and July, 1863.

ALTHOUGH Quartermaster-General S. B. Holabird, U. S. A., will not be retired for age until June 26, 1890, already there is some speculation as to his successor. Upon this point a Washington correspondent of the St. Louis *Globe-Democrat* says: "It may be stated as quite well settled that Gen. Charles H. Tompkins, now next in rank to Gen. Holabird, will receive the nomination on the latter's retirement. Gen. Tompkins is not only next in rank to Gen. Holabird, but he is a Democrat and has a good record. He has also adhered to the principle of succession and promotion according to rank, and on these grounds earnestly supported the nomination of Gen. Holabird. There are several officers looking after their prospects. But unless circumstances materially change there will be no hope for any one but Gen. Tompkins." A good deal may happen in three years.

A MAN, representing himself to be Captain C. E. Dutton, Ordnance Corps, U. S. A., on duty with the Geological Survey, was recently arrested in Springfield, Mass., on suspicion of theft. Capt. Butler, of the Ordnance Corps, U. S. A., stationed at the National Armory, being sent for, lost no time in accusing the alleged Capt. Dutton of being a fraud. The latter replied: "Oh, perhaps you expect to see Clarence; I'm his brother Charles." But even this smooth statement did not change Capt. Butler's opinion. When taken to the station house "Dutton" proved to be as smart as he was smooth. He insisted that he had done nothing which would justify an arrest and finally acknowledged that he was travelling under an assumed name. "I am a geologist, however," said he, "and have worked under Capt. Dutton, but there are circumstances that might prevent my getting a living if I went under my own name." He was allowed to depart.

MAJOR AMOS KIMBALL, General Miles's chief quartermaster, has arrived at Los Angeles from San Francisco.

LIEUTENANT F. B. MCCOY, 3d U. S. Inf., visiting at Augusta, Ga., will leave this week to rejoin his company at Fort Shaw, Montana.

COLONEL A. R. BUFFINGTON, U. S. A., has returned to Springfield, Mass., from a visit to his mother in Virginia, who was quite ill, but is now better.

MAJOR J. M. BELGER, U. S. Army, who has been residing for some time past at Hot Springs, Ark., has entered the General Hospital there for treatment.

MRS. GENERAL LOGAN contributes to the *Chautauquan* for February an article on "Official Etiquette at Washington," her first contribution to magazine literature.

LIEUTENANT E. S. DUDLEY, 2d U. S. Artillery, read some interesting "Notes on the Early Military History of Nebraska," before the State Historical Society at Lincoln, Jan. 12.

CAPTAIN F. A. KENDALL, U. S. A., and Mrs. Kendall, were passengers on an express train which was wrecked Jan. 16 near Westminster, Mass. Fortunately they were not injured.

THE Compte de Paris contributes to the "New Princeton Review," for January an eulogistic estimate of Gen. McClellan's ability as a commander, and some valuable personal reminiscences.

THE New Haven *Union* says of the Soldiers' Home in Connecticut: "The men hardly know that they belong to a Home, or belong anywhere. They come and depart like tramps; they look like tramps, and are treated exactly like tramps."

"THE death of Col. Julian McAllister, U. S. Army," says the San Francisco *News-Letter*, "has been heard of here with sincere regret, but, as it will probably return to us the young ladies of his family, who have always been great favorites in society here, in this case the cloud may be said to have a silver lining indeed."

MRS. GRANT has donated to the Grant Monument Fund the sum of $120 paid her as the "widow of Gen. U. S. Grant, deceased, late 1st Lieutenant and Regimental Quartermaster in Co. —, 4th Regiment of U. S. Infantry, Mexican War," and the sum of $862.70 "arrears of pay due Gen. Grant from July 1, 1885, when last paid, to July 23, 1885, the date of his death."

AN effort is being made by some of the officers of the 18th Infantry, to get Capt. Cass Durham before a retiring board so as to secure the promotion of 1st Lieut. Michael Leahy, the senior lieutenant of infantry, who, on Jan. 7, completed 20 years' service as a 1st lieutenant. As Capt. Durham has been on the sick list a good deal for the past three or four years it is probable that a board will shortly be convened for his examination and if found permanently incapacitated he will probably be retired immediately.—*Kansas City Times.*

WE are glad to learn that the condition of Major D. M. Vance, 13th Inf., is much less unfavorable than has been reported. From St. Augustine, Fla., Jan. 15. Mrs. Vance writes us of her husband: "Ill, critically ill he has been, and I fear he is even now not out of all danger with a nervous disorder that threatened his life and for the time being his reason. But insane he is not and has not been. In my constant attendance upon my sick husband, I do not find time to reply to the many letters of sympathy received from Army friends, and while they have been misinformed, these letters of tender sympathy have touched me deeply, and from my heart I thank them."

COLONEL W. P. CRAIGHILL, Corps of Engineers U. S. A., has many friends in Baltimore, and the *Sun* of that city, alluding to his recent promotion, says: "Nowhere will it give more pleasure than in Baltimore, where he has spent many years of his life, and where his splendid engineering attainments have been advantageously employed on the channel which bears his name, by which vessels of the greatest carrying capacity find safe entrance to our wharves. It is a coincidence that Colonel Craighill's son, Lieutenant William E. Craighill, went up to West Point from the same school house in West Virginia which his father attended, and that like his father he graduated No. 2 at West Point, and entered the Engineer Corps. He is now stationed at Willet's Point, N. Y., and gives promise of winning distinction as an engineer."

THE citizens of Chicago having contributed $13,000 to a fund for the payment of incumbrances resting upon the home of Mrs. Logan in Washington, Col. M. M. Parker, called on her on Monday and, obtaining from her a check on Riggs and Co., paid off the notes. Later in the day he presented to Mrs. Logan the cancelled notes, and she now own the house known as Calumet Place, on Columbi Heights, free from all incumbrances. Mrs. Logan's gratitude was expressed in a letter to William P. Nixon, of Chicago. On Monday also the children and heirs of Gen. Logan—his son, John A. Logan, Jr., and his daughter, Mrs. Tucker, with her husband, Major Tucker, U. S. Army—united in a deed conveying all their right and interest as heirs in the house to Mrs. Logan, so that the house is her property solely. As General Logan died intestate, this action on the part of the heirs was, of course, entirely voluntary.

THE *Pall Mall Gazette*, in reviewing the "Memoirs of General Robert E. Lee, his Military and Personal History," which has just appeared in London, refers to Lee's character in a tone of lofty adulation. "No biographer," it says, "ever had a nobler subject. Robert Lee had a character all but flawless; he was a real king of men, spotless in his high-souled integrity, born to command and yet to be loved, unspoiled by good fortune, as grandly calm in adversity; the shining figure, in a word, of the stupendous struggle that evoked the full development of his special genius." In closing the notice it adds: "He fought out the good fight, and then, with a noble dignity of resignation, went out into a retirement which he never would break. His death was as beautiful as had been his life, and his name will endure while grandeur of soul, purity of character, devoted patriotism, and chivalry of the finest type are virtues valued by mankind."

CHAPLAIN O. J. NAVE, U. S. Army, is visiting at Delaware, Ohio.

ADJUTANT A. B. DYER, 4th U. S. Art., left Fort Adams, R. I., on Wednesday, on a short leave.

LIEUTENANT J. B. BELLINGER, 5th U. S. Cav., is visiting friends at 941 Madison Avenue, New York City.

GENERAL W. D. WHIPPLE, U. S. A., is spending a portion of his month's leave at Lake Charon, Orange Co., Fla.

MAJOR JAMES GILLIS, U. S. A., on leave from Fort Leavenworth, visited relatives in Washington, D.C., this week.

GENERAL C. G. SAWTELLE, U. S. A., has been elected President of the United Service Club at Washington.

COLONEL R. S. LAMOTTE, 13th U. S. Inf., at present on leave, will start for Fort Wingate, N. M., early in February.

LIEUTENANT H. J. SLOCUM, 7th Cav., of Fort Meade, goes to Jefferson Barracks, Mo., for a tour of recruiting duty.

COLONEL A. M. RANDOL, U. S. A., lately arrived in San Francisco, has left there again on a few months' leave for the benefit of his health.

CAPTAIN L. A. MATILE, 11th U. S. Infantry, who is stopping at the Woodmont, Washington, D. C., has received a month's extension of leave.

CAPTAIN LEONARD HAY, 9th U. S Inf., is still at Fort Verde, A. T., the movement of his Company (K) to Whipple Barracks having been suspended.

MAJOR C. A. WIKOFF, 14th Inf., visiting at Easton, Pa., will report to Gen. Gibbon at Vancouver Barracks for assignment to a post when his leave is up.

COLONEL GEO. H. MENDELL, Corps of Engineers, U. S. A., has been elected President of the Technical Society of the Pacific Coast, headquarters at San Francisco.

GENERAL RUFUS INGALLS, U. S. Army, is in Washington to remain until the adjournment of Congress. He was sought for by newspaper men regarding the Mosby bribery despatches, but refuses to talk of it.

GENERAL THIBAUDIN, who broke his parole during the Franco-Prussian war, has been appointed to command of the Paris commandants being now chosen for the various French fortresses or strong places.

CAPTAIN EDWARD FIELD, 4th U. S. Artillery, played "Captain O'Scuttle" in "Poor Pillicoddy" on Friday of this week at the third of series of plays to be presented by amateurs at Odd Fellows' Hall, Newport, R. I.

MRS. BAIRD, wife of Lieut. Baird, 6th Cavalry, returned last week to Jefferson Barracks from a visit East. Gen. Baird, who accompanied her from Washington, is a very proud man as the grandfather of "the prize baby of the Army."

MAJOR-GENERAL D. E. SICKLES, U. S. A., is to make his first appearance at the bar for many years as counsel for Louis Bieral, who shot Surveyor Beattie some time ago in New York. Bieral served under Gen. Sickles during the war.

MAJOR C. I. WILSON, paymaster, U. S. A., has returned to Omaha from several months leave. It will be good news to his many friends to learn that his wife's health is rapidly improving under skilful medical treatment in New York City.

THE second assembly of the Army and Navy Club of Washington, took place on Monday evening, and was very successful. Mrs. Macfeely received the guests, Major Goodloe made the introductions, and Lieut. Barrette, 3d Art., led the german.

COL. W. S. KING, of Minneapolis, the plaintiff in the King-Remington suit, states that his suit and that of his wife had been settled by the payment of $2,000,000. This ends the case. Col. King paid John Van Voorhis, of Rochester, his principal counsel, a fee of $50.000. The fees of the remaining counsel are in proportion.

WE publish in full this week the order retiring Col. C. E. Blunt, Corps of Engineers, U. S. A., which, from some cause, did not reach us in customary season after date of issue. Col. Blunt was retired, at his own request, under the act of June 30, 1882, having served more than forty years as an officer of the Army, and not for age as generally stated. Col. Blunt is a recent guest at The Langham, New York City.

A. G. A. R. POST in San Bernardino, Cal., has sent to Col. Wm. H. Long, of Boston, a very handsome 6th Army Corps badge, made of metals mined in San Bernadino County. Among the members of the post are several old 6th Corps men who served under Col. Long during the war, one of whom owes his life to the Colonel, who brought him off the field when badly wounded during the second battle of Fredericksburg, he having been left by his comrades as they crossed the river.

MARSHAL MACMAHON'S daughter has just been married, and the ex-President seems to have received letters of congratulation from most of the crowned heads of Europe. The Marshal, who is now 78 years of age, and who has never been confined to bed except from wounds, is still hale and hearty. He may live to be the last French marshal, for there are only two other marshals living—Canrobert and Lebœuf, the health of the former being most unsatisfactory.

LIEUTENANT SCHWATKA, and his party of twelve, left Mammoth Hot Springs, Wyo., Jan. 8, and were kindly furnished by Lieut. H. E. Tutherly, 1st Cav., Post Quartermaster, at Camp Sheridan, with a three span mule team to help in making the ascent of the Limestone mountain by the way of Golden Gate. Although the weather has been very severe the party is in no way discouraged. A despatch, however, of Jan. 19, from Fort Keogh, says: Lieutenant Schwatka has abandoned his tour on account of illness, and has returned to Hot Springs. The high altitude and frosty atmosphere affected his lungs, and he was taken with a hemorrhage at Grand Cañon.

COLONEL G. L. FEBIGER, U. S. Army, retired, is located at 251 Church St., New Haven, Conn.

CAPT. H. C. EGBERT, 12th U. S. Inf., of Sackett's Harbor, N. Y., visited friends in New York on Thursday.

PRINCE LOUIS NAPOLEON, son of Prince Jerome Napoleon, will finish his military education in the Italian Army.

LIEUTENANT BENSON, U. S. A., was in Omaha last week, visiting his brother, en route to his station on the Pacific slope.

GENERAL WAGER SWAYNE, U. S. A., presided at the dinner of the Ohio Society, at Morrelli's, New York City, on Monday evening.

LIEUTENANT J. E. MAXFIELD, Signal Corps, U. S. Army, arrived in San Francisco, Jan. 11, and relieved Lieut. Glassford, who goes to Prescott.

ANNOUNCEMENT is made of the engagement of Captain S. W. Groesbeck, U. S. A., Judge Advocate, Dept. of Dakota, to Miss Alice W. Thomas, of Norwalk, Conn.

COLONEL T. F. BARR, Judge Advocate's Department, is visiting his brother in Washington. Col. Barr will return to Chicago in a few days to resume his duties on Gen. Terry's staff

COL. H. M. BLACK, Major G. M. Randall, and Capt. J. T. Haskell, 23d U. S Inf., en route to Fort Wayne, Mich., from the Humphreys's trial at Washington Barracks, visited New York on Wednesday, quartering at the Rossmore Hotel.

A CORRESPONDENT at Zellwood, Fla., writes: "This is now a driving little place, churches school, stores of all description, mechanics, railroad depot, telegraph office, etc., etc. There are quite a number of new officers of the Army located here and near here, Col. Clendenin, Capt. Lee, retired, Lieut. Lemly, 3d Art., etc. The two former are living here now."

AMONG those who will be benefited by the Mexican pension, which now becomes a law, are Messrs. Morrison, Forney, Viele and Negley, members of the House, and Mr. John Rome, the doorkeeper at the main entrance of the House, who was a drummer boy and lost his arm. Senator Maxey is now the only Senator who was an officer during that war. The late Senator Logan was Mr. Maxey a comrade in arms in the Mexican campaign.

THE annual Charity Ball at Omaha, Friday, Jan. 14, was a very handsome affair, and a great success financially, the gross receipts being $3,900, and the expenses only $600. The officers in the city and at Fort Omaha joined hands with the citizens and assisted materially in the preparations of the Exposition Building, in decorations, etc. In opening the ball the managers showed very good taste in having at the head of the grand march the Hon. J. E. Boyd, Mayor of the city, escorting Mrs. Frank Wheaton, of Fort Omaha, and Gen. Wheaton with Mrs. Boyd.

THE trial of Lieut. R. D. Walshe, Signal Corps, U. S. A., was proceeded with at Washington Barracks this week. The charge upon which he is being tried is that as indications officer on Jan. 5, he ordered "up signals" at 11.30 P. M., but owing to a great amount of work to be done before the order was filed it did not reach the telegraph room until 12 minutes past midnight. Lieut. H. H. C. Dunwoody and Sergt. Robinson of the Signal Corps, testified on Tuesday and then the court adjourned until Thursday to enable the members to attend the funeral of Gen. Hazen on Wednesday.

THE Omaha *World*, of Jan. 11th, referring to the trial of Major F. W. Benteen at Fort Du Chesne, says: "The Major has a record as a gallant officer, and made many friends, who are working hard for him. Last week a long interview with a discharged cavalryman from Fort Du Chesne was published in the Kansas City *Times*, in which the ex-soldier is made to criticize severely Gen. Crook for the location of the post, and Inspector General Hall for an alleged failure to relieve hardships caused by blunders in forwarding supplies. As a matter of fact, Major Benteen was given authority to re-locate the post if its site proved unfavorable, but did not do so. As since the mistakes and grievances complained of arose, charges have been preferred against the commandant, it seems possible that the court martial may develop that some person or persons other than Gen. Crook and Col. Hall were at fault."

COLONEL H. M. BLACK, 23d U. S. Infantry, says the Washington *Critic*, is being urged by his friends for the position of Chief Signal Officer, U. S. Army. The New York *Graphic* says: "No more popular or worthy appointment could be made. Colonel Black served for many years as Commandant of Cadets at West Point, and won the affection as well as the respect of all who knew him. An excellent soldier and disciplinarian, strict, industrious, just and genial, he enjoys an enviable repute as an able organizer, and a popular and honorable soldier His promotion would please the Army, and would be a good thing for the Signal Service." It would be hard to find a better officer for any service falling within the line of military duty, but our suspicion is that what is now known as the "Signal Service will be transformed into a Weather Bureau under civil administration.

GENERAL W. T. SHERMAN, U. S. A., who presided at the banquet of the Territorial California Pioneers at Martinelli's, New York, on Tuesday evening, told stories about his experiences in California when he was a lieutenant in the artillery service. "In those days," he said, "no soldier could wear a mustache. Then the Mexican war started, and the officers began to let their side whiskers creep down their faces, but they dared not let them go a hair beyond a straight line drawn from the bottom of the ear to the upper lip. I remember Kearny, the best soldier under whom I ever served, one day wanted me to send some provisions to a party of dragoons. I had let my beard grow. 'And, Lieutenant,' said Kearny, as he walked with me toward the door, 'I have a fine pair of razors which you may have after Captain so-and-so gets through with them.' 'Thank you, General,' said I, 'but I have a very nice pair of razors myself.' Then I shaved my whiskers up to a straight line from lip to ear. That was the last time I ever shaved."

COMMANDER P. H. COOPER, U. S. N., visited New York city this week from Norfolk, Va.

CHIEF ENGINEER J. LOWE, U. S. N., lately relieved from duty on the *Dolphin*, is in Washington.

LIEUTENANT W. H. EMORY, U. S. N., registered at the St. James Hotel, New York, on Monday.

ASSISTANT SURGEON F. S. NASH, U. S. N., is to be married in February to Miss Carrie Ryan, of Charleston, S. C.

PAYMASTER GEO. H. READ, U. S. N., returned to the New York Navy-yard this week from a trip to Washington.

LIEUTENANT-COMMANDER R. E. IMPER, U. S. N., lately on duty at the Washington Navy-yard, goes abroad on a year's leave.

LIEUTENANT J. H. BULL, U. S. N., was to sail from San Francisco on Saturday of this week to join his ship on the Asiatic Station.

LIEUTENANT C. A. GOVE, U. S. N., who recently reported for duty in the Hydrographic Office, is located at 1922 Sunderland Place, Washington, D. C.

ASSISTANT ENGINEER FRANK W. BARTLETT, U. S. N., arrived last week at the Michigan Military Academy, Orchard Lake, and took charge of the Manual Training Department.

ON Saturday evening, Jan. 8th, a party of officers attended a candy pull, given at the residence of Captain Brown, Commandant of the Norfolk Navy-yard, dancing following.

THE friends of Lieut. Albert J. Dabney, U. S. N., retired, will be glad to learn he has greatly improved in health and is now Commandant of Cadets at South Kentucky College, Hopkinsville, Ky.

COMMANDER A. S. CROWNINSHIELD, U. S. N., responded for "Our Navy" on Monday evening at the celebration of the 117th anniversary of the New York Marine Society. Gen. G. W. Wingate, who was present, spoke on "Our Harbor and its Fortifications.

THE following officers registered at the Navy Department this week: P. A. Paymaster C. W. Littlefield, Ensign A. N. Wood, Comdr. E. M. Shepard, Lieuts. Lucien Young, J. J. Hunker, and R. Mason Lisle, Chief Engineer A. J. Kiersted, Paymr. G. A. Lyon, and Surgeon B. H. Kidder.

1ST LIEUTENANT W. F. SPICER, U. S. M. C., is making hosts of friends in Brooklyn, where the long-delayed departure of his ship has enabled him to extend largely an already wide circle of hearty well-wishers. It is just to add that he is no less a favorite with the members of his own mess.

THE orders of Lieut. C. S. Richman, to the *Independence* secures once more for Vallejo and the Mare Island yard the presence of a family well known at that station, and as well liked as known. Mrs. Richmond (*née* Tolson) is a sister of Mrs. Vreeland, whose husband, Lieut. Chas. E. Vreeland, was recently detached from the flagship *Hartford*.

CHIEF ENGINEER JOHN B. CARPENTER, U. S. N., retired, who was taken ill last November at his home, Eldora, on the Hillsborough River, Florida, with dengue fever and taken to Jacksonville for treatment, has recently had a severe attack of dysentery which brought him at one time to a critical condition. He is now convalescent, however, and hopes soon to be able to return to his home.

THE New York *Times* says: "Commodore W. S. Schley in a conversation about the Signal Service, said: 'I sincerely hope that Capt. Greely will be made Chief Signal Officer. He is really a capable man, and I have no doubt would so reorganize the Weather Bureau that it would become very popular. Its unpopularity in the past was due in a large degree to its chief. It is hardly advisable to transfer the weather service to civic control because he was unpopular.'"

THE New York Navy-yard marines and their fellow enlisted men from on board vessels now at this station enjoyed their fifth annual complimentary ball at the City Assembly Rooms, Brooklyn, Jan. 5. Their officers and others of like rank from neighboring stations and headquarters were guests of the gallant Naval soldiers. Among them were Col. Heywood, Commo. Gherardi, Capt. Bunce, of the *Atlanta*; Lieut. Cowles, of the *Dispatch*; Lieut. Robinson, Pay Insp. Stevenson, Capt. McLane Tilton, Capt. Meeker, Lieuts Golder, Karmany, and Berryman. The dancing began at about 10 o'clock and continued till very near daylight.

OF the assignment of Lieut. W. H. Emory to the command of the *Thetis*, the New York *Sun* says: "When Lieut. Emory was put in command of one of the vessels of the Greely Relief Expedition a great many persons here laughed at the idea of his being sent on such service. He had been regarded as especially if not exclusively qualified to shine as an ornament in society circles. Nobody now smiles at his assignment to important stations, while it has been universally felt that the command of the *Despatch*, which is looked upon as a sort of pleasure yacht, was not the place for an officer who showed such marked ability and energy in the performance of hazardous and trying duty in the frozen seas."

"CAPTAIN W. U. STEEL, U. S. N., an officer long in the Service," who has been swindling agents of vessels lying at Boston and at Perth Amboy and other points in this port, has made his appearance among the New York agencies. He is to all appearances a substantial and prosperous gentleman. Short of stature, and stout and dark, he dresses in the height of style, and talks with a superior air. The only blot on his appearance is a bad scar on his left ear. It looks as though it was left by the teeth of some animal. Representing himself as an agent of the Hydrographic Office, he asked the captain of a vessel for a list of the nautical instruments he needed. They were jotted down at the top of a page of his note book. At the bottom he got the captain to sign his name. This done it was easy to write an order for money above the signature and tear the leaf from the book, thus securing an order perfectly fit to deceive. He is said to have gathered $5,000 in this way in Boston. His attempt in New York resulted in his arrest and commitment.

CAPTAIN W. A. KIRKLAND, U. S. N., is suffering from his old enemy, the gout.

COMMANDER E. M. SHEPARD, U. S. N., lately of the *St. Mary's*, is visiting in Washington.

LIEUTENANT J. J. HUNKER, U. S. N., of the New York Navy-yard, visited friends in Washington this week.

LIEUTENANT LUCIEN YOUNG, U. S. N., is visiting in Washington for a few weeks before going abroad on leave.

AN assessment to cover the death of Ensign Chas. McClain was called by the Navy Mutual Aid Association, Jan. 19.

LIEUTENANT-COMMANDER SAMUEL BELDEN, U. S. Navy, has been ordered to duty in connection with with the new cruisers.

MED. INSPECTOR DAVID KINDLEBERGER and Surg. B. H. Kidder, U. S. N., passed their examination for promotion on Wednesday. They will be promoted on Jan. 30 to fill the vacancies consequent upon the retirement of Medical Director Dungan on Jan. 29.

THE old saw to the effect that republics are the reverse of generous, received a striking confirmation in the tabling in the House of Representatives of the bill for the relief of the officers and men of the ill-fated *Ashuelot*, who lost their clothing and other effects in the line of duty when that vessel was lost.

A WIDE circle of friends in the Service will learn with regret of the continued illness of Chief Engr. R. L. Harris, U. S. N. It had been the intention to assign Mr. Harris to duty in connection with one of the new vessels now under contract, but up to the present time the state of his health has been such as to preclude the idea of such duty.

NOTWITHSTANDING the persistent agitation on the part of the passed assistant surgeons for the revocation of Secretary Hunt's General Order No. 282, embracing the opinion of the Attorney General, the Supreme Court of the District has sustained the Department of the Navy, and it is probable that the subject will not be again revived.

THE family of Lieut. Comdr. C. H. Stockton, U. S. N., was pleasantly augmented on Dec. 28, 1886, by the safe advent of a daughter. The happy father has received many congratulations on the event. Lieut. Comdr. Stockton, who is serving a tour of shore duty in the Bureau of Yards and Docks, occupies a pleasant residence at 1828 I street, Washington.

AMONG the recent orders of the Navy Department is one detaching Comdr. R. D. Evans from duty as lighthouse inspector, and assigning him to special duty in connection with the new cruisers. The attention which Comdr. Evans is known to have given to naval architecture in recent years fits him in an eminent degree for the new field of duty where he reports on Jan. 31.

FROM what can be learned at the Navy Department and elsewhere, it is not at all probable that the Secretary will authorize any composition short of trial by a court-martial in the case of the late pay clerk of the *Iroquois*, Meyers. The Judge Advocate General is not disposed to recommend the condoning of any offence against the Regulations. The published interview with Mr. Meyers in a recent paper is largely an imaginary sketch by a quick-witted reporter.

ENSIGN C. S. MCCLAIN, U. S. N., who died in Brooklyn, N. Y., on Jan. 11 was a member of the Navy Mutual Aid Association, and his beneficiary received immediately the sum of $3,668.40. One of the great merits of this association lies in the promptitude with which its beneficiaries receive the amounts due, official notice of death received at the Navy Department being the evidence required for payment. The number of members now in good standing is 781.

LIEUT. COMDR. Z. L. Tanner and officers of the Fish Commission steamer *Albatross* are engaged in completing the necessary details and arrangements looking to a scientific cruise to the Pacific during the year. The *Albatross* is to be supplied with new boilers previous to her departure, which are now under contract in Baltimore. They will be of the best charcoal iron, will be fitted with iron tubes, and are expected to give a new and long lease of life to this very valuable and efficient craft.

CAPT. ROBIE, Chief Engineer, lately in charge of the Steam Engineering Department at the Navy Yard, sailed with his family, Tuesday afternoon, on Clyde's steamer *Delaware* for Fernandina. He had obtained four months' leave of absence on account of bronchitis, and will spend that time at Mount Dora, Orange Co., Fla. He was one of the most popular officers in the yard, and has numerous friends throughout the city.—*Brooklyn Eagle.*

REAR-ADMIRAL DANIEL AMMEN, U. S. N., is probably to-day one of the busiest men to be found in Washington, for upon his shoulders rests the full weight of the immediate future of the Nicaragua Maritime Canal. There is no doubt but that it has been due to the Admiral's well known persistency and weight, joined, of course, to the real merits of the scheme, that the present status of the idea has been achieved. Of course the canal is a long way from its genesis, but it will behoove its would-be promoters to move quickly, strongly, and to the point, for every month of delay is being improved by the "wily Frenchman," who, having dug one canal in face of the opposition of all Europe, (in the beginning) has now but to contend with the inactive and desultory adverse pressure of a single nation.

THE following Army officers are registered at the War Department: 1st Lieut. A. R. Paxton, 15th Inf.; Capt. M. C. Foote, 9th Inf.; Capt. Chas. E. L. B. Davis, Engr. Corps; 2d Lieut. John M. Carson, 5th Cav.; 1st Lieut. J. W. Duncan, 21st Inf.; Gen. Rufus Ingalls, retired; 1st Lieut. John McClellan, 5th Cav.; Major James Gilliss, Q. M. Dept.; 1st Lieut. John Bannister, retired; Capt. W. Stanton, 6th Cav.; 2d Lieuts. Leon S. Roudiez and Ed. Lloyd, 15th Inf.; 1st Lieut. Geo. R. Burnett, 9th Cav.; 2d Lieuts. A. Hasbrouck and H. C. Cabell, and 1st Lieut. Frank Taylor, 14th Inf.

THE FORTY-NINTH CONGRESS.

The Senate Military Committee at its meeting on Tuesday, adopted favorable reports on the bills S. No. 2971, granting right of way for railroad purposes through the Fort Meade Military Reservation, and H. R. 1171, amending the Act of June 3, 1884, providing for muster and pay of certain officers and enlisted men of the volunteer forces. The latter bill was subsequently passed by the Senate. The pending nominations were not acted upon.

The bill reported from the Senate Library Committee for the erection of a monument to the negro soldiers and sailors appropriates $100,000 for the purpose, which is to be expended under the direction of a commission consisting of the Secretaries of War and Navy and the Chairman of the Joint Committee on Library. The monument is to be erected in the District of Columbia.

The House Committee on Public Buildings and Grounds has made a favorable report on the bill providing for the construction of a building for the use of the office of the Chief Signal Officer of the Army.

Five thousand copies of the valuable report of the Board of Visitors to the Military Academy, prepared by General Viele, have been ordered printed and bound by the House.

The following resolution was presented in the House by Mr. Peters on Wednesday:

Whereas it is charged that on the 13th day of January, 1887, a squad of soldiers, said to belong to Co. I, Fifth United States Cavalry, fired upon certain persons, residents of Sumner County, Kansas, who were temporarily in the Indian Territory, but not to exceed 10 miles from their homes: Therefore,

Be it enacted, That the Secretary of War be requested to inform the House whether such troops did on or about the date aforesaid fire upon any person or persons in said Territory; and, if so, report the facts connected therewith, and whether said troops acted under orders.

BILLS INTRODUCED.

Following is the text of the two bills, referred to elsewhere, as reported by the Military Committee of the House on Wednesday. The first section of 1490 remains as it came from the Senate; all the rest is new:

S. 1490. That the 103d of the Rules and Articles of War be, and the same is hereby, amended by adding thereto the following words:

"No person shall be tried or punished by a Court-martial for desertion in time of peace, and not in the face of an enemy, committed more than two years before the arraignment of such person for such offence, unless he may meanwhile have absented himself from the United States, in which case the time of his absence shall be excluded in computing the period of the limitation: *Provided*, That said limitation shall not begin until the end of the term for which said person enlisted."

Sec. 2. No Judge-Advocate, or officer acting as such, before any Court-martial shall hold any communication with the court or with any member of the court concerning any question, matter or thing involved in or having any relation or bearing, directly or indirectly, upon the case upon trial after the court shall be sworn and before judgment is pronounced, except in the hearing and presence of the accused on trial and of his counsel, if he shall have appeared with counsel, and then such communication shall be entered upon and made part of the record of the case.

Sec. 3. That any sentence of a Court-martial dismissing an officer from the Service shall be inoperative until the President shall approve the same in person; but the order promulgating the sentence and judgment after such approval shall be "by order of the President," and signed by the Secretary of War.

Sec. 4. If any person, being a civilian not subject to military law, having been duly summoned to testify under the laws of the United States shall refuse or neglect to appear before either Court-martial or a Court of Inquiry, at the time or place mentioned in the process, or if upon his appearance he shall refuse to testify, he shall be liable to the same penalties as would be incurred for a civil offence on the trial of a suit in the district court of the U. S., and the same power to punish for contempt and to the same extent is hereby conferred upon Courts-martial and Courts of Inquiry as is conferred upon courts by the provision of Section 725 of the R. S. of the U. S.: *Provided, however*, That no witness shall be required to make any disclosure or discovery which shall tend to criminate him either under the laws of which the U. S. or the laws of any State or Territory or the laws of any foreign State.

Sec. 5. Hereafter in time of peace all offenders in the Army charged with offences now punishable by a regimental or garrison Court-martial shall be brought before a summary court, which shall consist of the commissioned officer of the line, who shall hear and determine the offence and adjudge the punishment that shall be inflicted, and shall also make a record of his proceedings, with a statement of the evidence, and submit the same to his post commander, who shall endorse thereon his action of approval or disapproval and forward the same to the Department commander for examination and action, and to be filed in the office of the Judge Advocate of the Department, and upon the approval of the same by the Department commander, such post commander shall order the execution of the sentence: *Provided*, That the punishment in such cases shall be limited to that now authorized to be inflicted by a regimental or garrison Court-martial. The President may make such rules and regulations governing such courts as to the offences and punishment as he may deem just and proper, not inconsistent herewith.

Sec. 6. In all trials and proceedings before any military tribunal the party accused, or whose action or evidence is under investigation, may at his option be sworn and testify in his own behalf, the same as any other witness.

Sec. 7. In addition to the qualifications now required by law, no person shall be appointed a chaplain in the Army who is not of good constitution and in sound bodily health, and who is more than forty years of age; and hereafter it shall be a part of the duty of post chaplains to have the charge of and act as instructors in post schools.

Sec. 8. The pay of officers upon the retired list shall be 75 per centum of the full pay the officer was entitled to receive when retired and no more.

Sec. 9. The pay of an enlisted man upon the retired list shall be 75 per centum of his pay at the time of his retirement and $8 per month in lieu of allowances.

Sec. 10. That the Army ration be increased by the addition of one-quarter of a pound of Irish potatoes a man per day, or its equivalent in dried or dessicated potatoes when the issue of fresh ones is impracticable.

Sec. 11. Where there is no land available or suitable upon a military reservation for company or post gardens the Quartermaster's Department shall whenever it is practicable, under the direction of the post commanders, rent suitable land for that purpose that is attainable most convenient to the post, at the rate of two acres per company for each company desiring to cultivate a garden for its use, and procure from the Department of Agriculture the necessary supply of seeds for the same.

Sec. 12. Captains of companies may re-enlist in their respective companies, to serve one, two, and three, four or five years, in their discretion, any men discharged therefrom, of good moral and military character: *Provided*, Such enlistment is made in ten days from date of their discharge: *And provided further*, That hereafter no man who has been convicted of desertion, or who has been discharged for disability, shall ever be re-enlisted in the service of the United States: *And provided further*, That whenever an enlisted man shall be convicted of the crime of desertion from the military service of the United States he shall, in addition to any other punishment that may be inflicted, be indelibly tattooed with India ink with the letter "D" an inch long upon his back, between the lower points of his shoulder blades.

Sec. 13. Hereafter, in addition to the inspection now required by law of the Pay Department, and the accounts and business of its officers, there shall be inspections made by officers of that Department, detailed by the Secretary of War, whenever in his judgment the interest of the public service will be promoted thereby.

Sec. 14. All acts and parts of acts in so far as they controvene or are repugnant to the provisions of this act are hereby repealed.

S. 1119. The Hospital Corps of the U. S. Army shall consist of hospital stewards, acting hospital stewards and privates, and all necessary hospital services in garrison, camp or field (including ambulance service) shall be performed by the members thereof, who shall be regularly enlisted in the military service; said corps shall be permanently attached to the Medical Department, and shall not be included in the effective strength of the Army, nor counted as a part of the enlisted force provided by law.

Sec. 2. The Secretary of War is empowered to appoint as many hospital stewards as in his judgment the Service may require, but not more than one hospital steward shall be stationed at any post or place without special authority of the Secretary of War.

Sec. 3. The pay of hospital stewards shall be $50 per month with the increase on account of length of service as is now, or may hereafter be allowed by law to other enlisted men. They shall have rank with ordnance sergeants, and be entitled to all the allowances appertaining to that grade.

Sec. 4. No person shall be appointed a hospital steward unless he shall have passed a satisfactory examination before a board of one or more medical officers as to his qualifications for the position, and demonstrated his fitness therefor by service of not less than twelve months as acting hospital steward, and no person shall be designated for such examination except by written authority of the Surgeon General.

Sec. 5. The Secretary of War is empowered to enlist, or cause to be enlisted, as many privates of the Hospital Corps as the Service may require, and to limit or fix the number and make such regulations for their government as may be necessary; and any enlisted men in the Army shall be eligible for transfer to the Hospital Corps as a private. They shall perform duty as ward masters, cooks, nurses and attendants in hospitals, and as stretcher bearers, litter bearers and ambulance attendants in the field, and such other duties as may by proper authority be required of them.

Sec. 6. The pay of privates of the Hospital Corps shall be $15 per month with the increase on account of length of service as is now, or may hereafter be, allowed by law, to other enlisted men; they shall be entitled to the same allowances as a corporal of the arm of service with which on duty.

Sec. 7. Privates of the Hospital Corps may be detailed as acting hospital stewards by the Secretary of War, upon the recommendation of the Surgeon-General, whenever the necessities of the service require it, and while so detailed their pay shall be $25 per month, with increase as above stated. Acting hospital stewards when educated in the duties of the position may be eligible for examination for appointment as hospital stewards as above provided.

Sec. 8. All acts and parts of acts in so far as they contravene the provision of this act are hereby repealed.

S. 3167, Manderson. That an act approved July 29, 1876, in regard to leaves of absence of Army officers, be, and the same is hereby, so amended that all officers on duty shall be allowed, in the discretion of the Secretary of War, five months' leave of absence without deduction of pay or allowances: *Provided*, That the same be taken once in five years: *And provided further*, That the leave of absence may be extended to six months if taken only once in six years, or seven months if taken only once in seven years, eight months if taken only once in eight years, nine months if taken only once in nine years, ten months if taken only once in ten years, eleven months if taken only once in eleven years, or twelve months if taken only once in twelve years: *And provided further*, That in carrying out the foregoing provisions, the credit for leaves of absence now standing in favor of an officer shall be taken into account. This act shall take effect from and after its passage.

S. 3126, Sewell. That the Adjutant General's Department of the Army shall consist of one Adjutant-General, with the rank, pay and emoluments of brigadier-general; four assistant adjutants-general, with the rank, pay and emoluments of colonel; six assistant adjutants-general, with the rank, pay and emoluments of lieutenant-colonel; and six assistant adjutants-general, with the rank, pay and emoluments of major: *Provided*, That the vacancies in the grade of colonel and lieutenant-colonel created by this act shall be filled by the promotion by seniority of the officers now in the Adjutant-General's Department.

S. 3175, Beck. That the Secretary of the Interior be, and he is hereby, authorized and directed to place on the pension roll the name of Sallie R. Alexander, widow of Lieut.-Col. Thomas L. Alexander, U. S. A., at the rate of one hundred dollars per month, for and during her natural life, in lieu of the pension of thirty dollars per month now paid to her.

H. R. 10482, Morrill. That any person who is now receiving, or may hereafter receive, a pension under a special act of Congress, and who shall elect to surrender his or her certificate, shall be entitled to receive in lieu thereof a certificate for any pension to which he or she may have been entitled had not the surrendered certificate been issued: *Provided*, That all payments previously made for any period covered by the new certificate shall be deducted from the amount allowed by said certificate.

H. R. 10760, Ballentine. Appropriates $2,500,000 for the construction of a first-class steam cruising vessel of war, upon designs, plans and specifications to be furnished by Charles G. Lundborg, of New York, and under his supervision and direction, he to receive a salary of $10,000 for a period of two years while it is building.

Sec. 2. That said vessel shall be constructed of steel, and shall have a displacement of not less than 6,000 nor more than 7,000 tons on the load water-line, when fully equipped for service, having a draught not exceeding 23 feet. The said vessel shall be capable of attaining a speed of 20 knots (in moderate weather and sea), and shall have sail power sufficient to cruise at ordinary speed under canvas alone; and her endurance, when fully equipped for service, shall be adequate to keep the sea, and steam at fair speed a distance of not less than 6,000 nautical miles; and said vessel shall have a protective steel deck and an armament of four 10-in. steel-rifled breechloaders, or other guns of corresponding weight, and an appropriate secondary battery of revolving-cannon and rapid-firing guns, together with a full complement of torpedoes, the armament not to be included in this appropriation.

Sec. 3. That whenever the said vessel shall have been completed and reported by the contractor as ready for trial, a board consisting of two Naval Constructors and one marine engineer shall be selected as follows: One member by the Secretary of the Navy, one member by the said Lundborg, and these two members shall select a third member, who together shall constitute a board, which board shall inspect the said vessel and witness her trial trips, and report in writing the result thereof to the Secretary of the Navy.

Sec. 5. That the trial trips of the said vessel shall be made on the measured mile, in the manner usual in such cases, with the vessel loaded to her load water-line, not exceeding 23 feet draught, a royalty to be paid Lundborg if successful; that for the construction of the said vessel the Secretary of the Navy shall invite proposals from all American shipbuilders and constructors of marine engines, machinery and boilers.

SECOND LIEUTENANT JOHN M. CARSON, JR., 5th Cav., is in Washington on an extended visit to his father, Colonel Carson, the well-known correspondent of the *Public Ledger*, Philadelphia.

McCLELLAN AND LEE.

To the Editor of the Army and Navy Journal:

YOUR reviewer of "McClellan and Lee" in the Jan. 1 number, tried to be fair and doubtless would have been if the autobiographies of these Generals had been his subject: but he gives full credit to General Long's work while he has less confidence in that of Mr. Prime. In much he is justifiable, since Gen. Long writes from his standpoint, with military exactness, whilst Mr. Prime stumbles in mixing his own views with those he could not appreciate to reproduce and winnow out of Gen. McClellan. Gen. Long naturally falls into the Confederate idea that we had a large preponderance of men and means, which ought to have been so, but was not. Your reviewer seems to accept this idea and causes a grave error. The old saying that nothing lies like figures is fatally exemplified here. The reviewer says that "no mention of strength at this period is made in McClellan's Memoirs," but cites as an example the fact that on July 10, 1862, after the Seven Days' battles, his total present for duty was 89,542, without accounting for reinforcements at Harrison's Landing and overlooking McClellan's statement in the Memoirs of the troops engaged on both sides in the Seven Days' battles. In his summing up the General says: "During the Seven Days' battles the Army of the Potomac consisted of 143 regiments Infantry, 55 batteries, and less than 8 regiments Cavalry. The Confederate Army consisted of 187 regiments Infantry, 79 batteries, and 14 regiments Cavalry. Now as to figures of numbers on the rolls compared with those in the ranks for battle, none but military men can know the fallacy.

[We have made no comparison of paper forces: the figures we gave in comparison with Lee's 81,000 were those of McClellan's force *present for duty* on June 20, 1862 (not Jan. 20, as the types made us say.) The force on the rolls at that date—just before the Seven Days' was 156,838. This would give McClellan on his own estimate of 60 per cent. of effectives out of those on the rolls 93,103 men to Lee's 81,000, and he was fighting a defensive battle. Whatever this may show it does not show any failure on the part of the Administration to furnish McClellan with the troops needed to outnumber the *actual* forces against which he was obliged to contend.—EDITOR JOURNAL.]

The Confederates were defending their Capital and, as they believed, their homes. Every man was in the ranks and many civilians would take their places behind the works of circumvallation, around the Capital, if attacked. As it was, nearly their whole army concentrated on the point of attack, our lines covering an extent of 15 miles, (the rule of war is three to one to invest a fortified place,) whilst Jackson's *separate* army passed McDowell's position at Fredericksburg and marched behind our right rear to our base, without warning from McDowell. This was the trap set, which your reviewer ignores. Secretary Stanton had visited McDowell's Headquarters to answer McDowell's protest at not being permitted to lead into Richmond, as promised. He said that Stanton told him he was green as an apple to suppose that it was the policy to take Richmond then. McDowell was sent North and Jackson dodged him to march by and to our base at White House, making our position untenable. So much for numbers.

Now, as to the difference of good taste in the authors and the characters of Generals McClellan and Lee, respecting the governments. It is well known that the two Generals had much the same characters. Gen. Lee was the favorite of President Davis, and much of the friction between the latter and Beauregard and Johnston, arose from supposed favoritism. Lee was fully supported from first to last, as the mainstay of the Confederacy. Mr. Lincoln had personally full confidence in McClellan, when present; this was why McClellan was disheartened when thwarted from the rear; he was in alternate hope and fear, which rendered him uncertain, cautious, if not suspicious, regarding support at the moment of trial. Even after the war he could not believe that Mr. Lincoln was not his friend, and it was only on the understanding that it was not the policy of the Government to close the war prematurely, that he was induced to admit that Mr. Lincoln purposely thwarted him for what your reviewer admits when he says: "The contest was one which involved other problems than the strictly military, and those to whom these were committed were in the best position to judge as to their proper solution, and to them and them alone the judgment has been committed under the Constitution." These were also Gen. McClellan's views. For when, at Harper's Ferry, Feb. 24, 1862, he told me that he was ordered to open the B. and O. railway against his most earnest protest to Mr. Lincoln that it would ruin his plan, because it would induce Joe Johnston to retreat from Manassas, where he wanted him, until he could quietly drop down the Potomac to a point which would give him the shorter line to Richmond, and enable him to beat Johnston in a race, or strike his flank in retreat. I suggested a tender of his command as a military man overruled by a civilian, for a civil purpose—thus endangering future military success. He shrugged his shoulders and replied: "I have sworn to obey the Constitution and its Commander-in-Chief—he is responsible." But I quote from Gen. McClellan after the war:

ORANGE, June 1, 1880.

MY DEAR BURNS: I shall keep the copy of your article for the "Field Glass" "(Why was McClellan relieved at Warrenton—published.)" Far from seeing any objection to its publication, I thank you sincerely for writing it; nor can I thank you enough for the constant and energetic friendship you have so long shown for me and which I heartily appreciate and return. I have no doubt that a double motive influenced the surroundings of Mr. Lincoln: first, apprehension in, by, and to my supposed Presidential aspirations; and, second, the desire or intention to prevent any marked success of our Army until the Emancipation Proclamation could be issued and go into effect. . . . Many thanks for your letter and inclosure.

I am, always, sincerely yours,
GEO. B. MCCLELLAN.

From the interview Feb. 24, 1862, I made notes of the interferences until the day of my order to cross my division over Sedgeman's Creek to the attack on Longstreet at Culpepper, and its countermand on notice that McClellan was relieved from command, Nov. 9, 1862. Gen. Long makes a queer deduction from Gen. Lee's opinion of McClellan, which is noteworthy: "When asked which, in his opinion, was the ablest of the Union Generals, he answered, bringing his hand down on the table with emphatic energy, 'McClellan by all odds.'" Gen. Long concludes that "this opinion could not have referred to his skill as a tactician, as it is unquestionable that Lee availed himself of McClellan's over caution, and essayed perilous movements which he could not have safely ventured in the presence of a more active opponent." It doubtless was all in Gen. Lee's mind, as he was not apt to make emphatic statements, and was better able to judge the grounds for "over caution," when a "more active" course would not be supported by the Government. This he often premised. It is honorable to all concerned to conclude that these high functionaries did their duty, as they saw it, with great ability, and that Mr. Lincoln was fighting Mr. Davis, while Gen. McClellan was fighting Gen. Lee—Mr. Lincoln to abolish the cause of strife; Mr. Davis to retain it, to wit, slave labor. Gen. McClellan was no politician; neither was Gen. Lee. Mr. Lincoln could not publicly announce his policy in the face of an unamended Constitution and a resolution of Congress, nor commit it to the Army Commander, that he must fight and run away to live and fight another day, on the principle of Festina Lente.

That this will be found the sober second thought of history should be the wish of all lovers of justice and the fair fame of our great men.

Very respectfully, WM. W. BURNS.
GOVERNOR'S ISLAND, Jan. 5, 1887.

OWL TALKS ON COAST DEFENCE.

SLEET and snow could not intimidate the doughty Twilighters, fifty-one of whom gathered at Martenelli's on the occasion of their 115th dinner, Dec. 30, 1886, to discuss "Shall we build more Forts and a big 'Navee?'" The chairman, Gen. Geo. W. Wingate, stated some of the general arguments in favor of increased means of national defence. Thos. G. Shearman opposed such outlay as part of a deep scheme to waste the public money, and to perpetuate an unjust protective system; he deplored the development of the military spirit, or any incitement to a "vigorous foreign policy."

Wm C. Church, of the ARMY AND NAVY JOURNAL, being asked to reply, said that if he were in search of a legal opinion he would go to Mr. Shearman, but when he was in need of information on the subject of coast defence he preferred to seek it elsewhere. If he inquired of Mr. Shearman as to the law, he should expect that he would honestly state what he found the law to be; was it not fair to ask that Mr. S. should accord the same honesty of opinion to men of other professions, our officers of Engineers included, and not charge them, as he had, with being parties to conspiracy to overtax the country for their own benefit? He characterized Mr. Shearman's statements to the effect that New York harbor could be prepared for defence "in three weeks," and the like, as a string of wild assertions, not one of which was susceptible of proof, as every one who understood the subject would assure him. It was impossible to deal with them seriously. It was the fools, he continued, who provoked war, and until the fools were all dead it was the part of wise men to take measures to provide against the outbreaks which were inevitable until the fool element was eliminated.

The speaker having suggested that if the Indians had understood the art of coast defence the Puritans could not have made a landing in Plymouth harbor, Col. Robert G. Ingersoll exclaimed, "I wish to God they had!" To this Colonel Church responded that if the Puritans had been kept out Col. Ingersoll would have lost his occupation, there being no religious opinions for him to combat. Col. Ingersoll, following, said: The fools will ever incite wars; the wise should therefore prepare for them; individuals are civilized, but nations are savage and ever seek to avenge their wrongs by violence; theological teaching had not lessened strife; we should have a big enough navy to preserve our moral standing; we are too big for others to pick a quarrel with; a just policy, especially to our weaker brethren, and international arbitration for disputes, would abolish war; England, our only possible antagonist, was under bonds to keep the peace, from her vast commerce; the man who owns the turnpike is never going to smash the toll-gate; if a foreign army landed on our shores we could mass enough men to cook and eat them; if we treated our Indians fairly, and gave them more ploughs and less rum and religion, our Regular Army would suffice; so also with mobs; the blood of every citizen shot by soldiers would breed hundreds of others.

D. G. Croly said the great European cities were mostly inland, ours were seaboard and exposed to any attack: Admiral Porter has shown that we are defenceless; we must abandon our past pusillanimous policy, and take our true place among the nations of the world; we are living in a fools' paradise; Tom Thumb, with modern arms, could destroy a dozen Sullivans.

Abner C. Thomas asked why imitate Chinese policy, and lose our national spirit; we should demonstrate our power, and not leave it to inference.

Ernest Dichman (late U. S. Navy) asked how could a big "navee" better the status of Americans abroad? most of our disputes with other countries had been due to the blunders of our Government; any foreign ironclad approaching New York would be intimidated by the Elephant at Coney Island, or, by the use of powerful magnets, to which all the dynamos in the city might be attached, it could be caught at the bar and disabled. This learned and ingenious argument ended the discussion.

LIEUT. FRANK TAYLOR, 14th Inf., who recently brought Capt. James Kennington, same regiment, to Washington for admission to the Insane Asylum, has started on his return journey to Vancouver Barracks.

THE following named persons have been designated for examination for admission to the U. S. Military Academy: Andrew J. Anderson (alt.). Mount Pleasant, Tenn.; James L. Sowell, Monroeville, Ala.; Thomas G. Maghee, Rawlins, Wyo. Ter.; Paul Bailey (alt.), Cheyenne, Wyo. Ter.; Jonathan E. Timken, Albany, Vt.; George Gordon Crawford, Atlanta, Ga.; Perry Filkin, Lansingburgh, N. Y.; Lutz Wahl, Milwaukee, Wis.

THE ARMY.

ARMY CONFIRMATIONS BY THE SENATE.

January 13, 1887.

2d Cavalry—2d Lieut. Frederick D. Holton to be 1st Lieut., Dec. 12, 1886.

14th Infantry—2d Lieut. Frederic S. Calhoun to be 1st Lieut., Dec, 3, 1886.

22d Infantry—2d Lieut. Robert N. Getty to be 1st Lieut., Dec. 17, 1886.

19th Infantry—1st Lieut. Charles A. Vernou to be Capt., Dec. 18, 1886.

2d Lieut. Edward B. Ives to be 1st Lieut., Dec. 18, 1886.

2d Lieut. Charles N. Clinch, 24th Inf., to be 2d Lieut., 3d Cav., Jan. 4, 1887, with rank in the cavalry arm of the service from June 15, 1884.

2d Lieut. Wendell L. Simpson, 3d Cav., to be 2d Lieut., 24th Inf., Jan 4, 1887, with rank in the infantry arm of the service from June 15, 1884.

Corps of Engineers—Lieut. Col. Wm. P. Craighill to be Colonel, Jan. 10, 1887.

Major Charles R. Suter to be Lieut. Col., Jan. 10, 1887.

NOMINATIONS TO THE SENATE.

January 17, 1887.

Corps of Engineers—Capt. Henry M. Adams to be Major, Jan. 10, 1887, vice Suter, promoted.

1st Lieut. Wm. M. Black to be Captain, Dec. 31, 1886, vice Greene, retired.

2d Lieut. Hiram M. Chittenden to be 1st Lieut., Dec. 31, 1886, vice Black, promoted.

Additional 2d Lieut. Thomas H. Rees to be 2d Lieut., Dec. 31, 1886, vice Chittenden, promoted.

G. O. 6, H. Q. A., Jan. 17, 1887.

The following order has been received from the War Department:

It is with regret that the Secretary of War announces to the Army the death of Brigadier General Wm. B. Hazen, Chief Signal Officer, and brevet major general, U. S. Army, who died at Washington, District of Columbia, at 8 o'clock, Sunday evening, January 16, 1887.

General Hazen entered the military service as a cadet at West Point in 1851, and soon after his graduation and assignment to a regiment in 1855 distinguished himself in an encounter with Indians in Texas, thus giving evidence in his youth of the possession of those military traits which enabled him to do valuable service for his country in the late war, when he earned the gratitude of his countrymen. As a recognition of these services he was rapidly promoted to be a colonel in the permanent establishment, and finally to be Chief Signal Officer of the Army, the duties of which he conscientiously discharged.

The officers of his corps will wear the usual badge of mourning for the period of sixty days.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

CIR. 2, DEPT. OF THE MISSOURI, Jan. 10, 1887.

Publishes tables exhibiting the figure and order of merit in target practice of troops and posts for the target year of 1886, and the names of all sharpshooters and marksmen who have completed their qualification during the last month of the practice season.

CIR., DEPT. OF CALIFORNIA, Dec. 30, 1886.

Publishes results of the classification in marksmanship for the target season of 1886.

The figure of merit of the Department is as follows:

Sharpshooters	35x200—	7,000
Marksmen	400x100—	40,000
First class	145x 60—	8,700
Second class	47x 30—	1,410
Third class	38x 10—	380
Present, not firing	3x 0—	00
	678	57,490

Skirmish Firing—Number of shots fired, 8180; number of hits, 1313; per cent. of possible score, 16.05.

General figure of merit, 1885	62.15
Individual figure of merit, 1886	86.06
General figure of merit, 1886	51.05

G. O. 1, DIV. OF THE ATLANTIC, Jan. 17, 1887.

The periods selected to constitute the practice season for the current year, are announced as follows, viz.:

Forts Wayne and Porter, May 15 to August 15.
Forts Niagara, Adams and Trumbull, June to August.
Fort Hamilton, May to July.
Fort Wadsworth, June to August.
Fort Columbus, N. Y. H., May to July.
Fort Schuyler, June to August.
Fort Mackinac, May, June and September.
Forts Brady, Ontario, Madison Barracks, Plattsburg Barracks, Preble and Warren, June to August.
Fort McHenry, Md., May, June and September.
Washington Barracks, D. C., April to June.
Fort Monroe, Va., June to August.
Jackson Barracks, La., May, June and October.
Little Rock Barracks, Ark., April to June.
St. Francis Barracks, Fla., March 15 to April 15, and September 1 to October 31.
Fort Barrancas, March to May.
Mount Vernon Barracks, March to May.

Commanding officers will cause their commands to be thoroughly instructed in the preliminary sighting, position, and aiming drills, and in gallery practice, before the commencement of the practice season. Estimating distance drill must be attended to as required by chapters 1, 2 and 3, part 7.

In consequence of the many damages to the rifles, usually arising from the use of re-loading ammunition, it is enjoined upon battery and company commanders to see that the instructions for re-loading, especially the part relating to re-sizing, are carefully attended to.

As the re-sizing die becomes too much enlarged steps should be immediately taken to get it exchanged.

The troops should be thoroughly instructed in the use of the headless shell extractor. If intelligently handled no accident to the piece should occur from its use.

G. O. 1, DEPT. OF CALIFORNIA, Jan. 3, 1887.

Announces the target season for 1887.

(We do not publish the order in full for the reason that the new regulation, reducing the practice season to three months, will necessitate another order from the Headquarters, Dept. of California.—ED. JOURNAL.)

CIR. 1, DEPT. OF THE COLUMBIA, Jan. 6, 1887.

The following form of endorsement is enjoined on all post commanders in this Department forwarding charges to these Headquarters, recommending trial thereon by General Court-Martial.

"I have personally examined the evidence on which these charges are based. I am of opinion that the charges can be sustained, and that the case should be brought to trial before a General Court-Martial. This man was confined on ....., 18.. His term of enlistment will expire, ... 18 .."

By command of Brig. Gen. Gibbon:
WM. J. VOLKMAR, Asst. Adjt.-Gen.

STAFF CORPS AND DEPARTMENTS.

General Officers.

Brig. Gen. George Crook, commanding the Dept., will proceed to Fort Sidney, Neb., on public business (S. O. 4, Jan. 10, D. Platte).

Adjutant and Inspector Generals.

Lieut. Col. E. M. Heyl, I. G., will proceed to Forts Hancock and Davis, Camp Pena Colorado, Camp at Langtry and Camp Del Rio, Texas, on public business (S. O. 3, Jan. 7, D. Texas).

Quartermasters and Subsistence Departments.

Major G. B. Dandy, Q. M., Chief Q. M., Dept. of the Platte, will proceed to Fort Sidney, Neb., on public business (S. O. 4, Jan. 10, D. Platte)

Leave for eighteen days is granted Major James Gilliss, Chief Q. M. (S. O. 5, Jan. 11, Dept. Mo.)

Pay Department.

The quarterly station list of officers of the Pay Department, dated January 15, reaches us this week. It is a handy document, giving duty, stations, etc.

The Q. M. D. will forward, by express, to the chief paymaster, Dept. of the Platte, ten thousand dollars, as ordered transferred to that officer, from Major W. H. Eckels, paymaster, St. Paul (S. O. 3, Jan. 8, D. Dakota).

Major De Witt C. Poole, Paymr., will proceed on public business to Portland, Ore. (S. O. 5, Jan. 7, D. Columbia.)

Medical Department.

Leave of absence for one month, with permission to apply for an extension of twenty-three days, to take effect on the return of Major Daniel G. Caldwell, surgeon, from leave of absence, is granted 1st Lieut. Francis J. Ives, asst. surg., Fort D. A. Russell, Wyo. (S. O. 1, Jan. 3, D. Platte.)

Major Wm. H. Forwood, surgeon, will proceed to Fort Meade, D. T., for duty (S. O. 5, Jan. 14, D. Dakota).

Major Benjamin F. Pope, surgeon, will proceed to San Antonio, and report for assignment to duty (S. O., Jan. 14, H. Q. A.)

Leave for eight days, to take effect about Jan. 25, is granted Asst. Surg. Henry S. Turrill, Fort Spokane (S. O. 4, Jan. 6, D. Columbia).

Major Benjamin F. Pope, surgeon, now awaiting orders, will proceed to Fort Clark, Tex., for duty (S. O., Jan. 19, H. Q. A.)

The Comdg. Gen., Dept. of Texas, will grant a furlough for six months to Hospl. Steward Alfred Whittaker, Fort Hancock (S. O., Jan. 18, H. Q. A.)

Engineers and Ordnance Departments.

Leave for three months, with permission to go beyond sea, is granted 1st Lieut. James C. Sanford, C. E. (S. O., Jan. 15, H. Q. A.)

Col. Chas. E. Blunt, C. E., having served more than forty years as an officer of the Army, is, at his own request, by direction of the President, retired from active service, Jan. 10, 1887, in conformity with the provisions of the act of Congress, approved June 30, 1882 (S. O., Jan. 10, H. Q. A.)

A board of officers to consist of Cols. Wm. E. Merrill and Peter C. Hains, and Major Wm. R. King, with Lieut. Irving Hale, C. E., as Recorder, will assemble in Washington, D. C., Jan. 20, to consider a project for the reconstruction of the Aqueduct Bridge across the Potomac River (S. O. 11, C. E., Jan. 19.)

Capt. Joseph H. Willard, C. E., will proceed to Shreveport, La., Garland and Eulton, Ark., on duty connected with works under his charge (S. O. 10, C. E., Jan. 18.)

Major Alexander Mackenzie. C. E., will proceed to St. Paul, Minn., and Keokuk, Iowa, on duty connected with works under his charge (S. O. 9, C. E., Jan. 17.)

Capt. Henry S. Taber, C. E., will proceed to Fort Smith, Ark., on duty connected with works under his charge (S. O. 9, C. E , Jan. 17.)

Lieut. Col. John W. Barlow, C. E., will proceed to the Mussel Shoals of the Tennessee River, on duty connected with works under his charge (S. O. 8, C. E., Jan. 4.)

Lieut.-Col. Wm. E. Merrill, C. E., will proceed to Washington, D. C., on duty connected with works under his charge (S. O. 7, C. E., Jan. 13.)

The C. O., Fort Columbus, N. Y. H., will send a sergeant to Fort at Sandy Hook, N. J., for duty as acting ordnance sergeant during the illness of Ord. Sergt. Matthew Duggan, admitted to the post hospital, Fort Columbus (S. O. 11, Jan. 17, Div. Atlantic).

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., B, D, E, G, and K, Ft. Custer, Mont.; A and C, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; F, H, and L, Ft. Assiniboine, Mont.; M, Camp Sheridan, Wyo.

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex.; G, Camp at Eagle Pass, Tex.; E, Camp Rice, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott, Tex.

The leave for one month granted 1st Lieut. James O. Mackay is extended one month (S. O. 7, Jan. 13, Div. M.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, F, H, and K, Ft. Huachuca, Ariz.; A and E, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; L, Ft. Stanton, N. M.; M, Ft. McDowell, Ariz.

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

A furlough for four months is granted Sergt. Charles M. Hildreth, Troop A (S. O. 7, Jan. 13, Div. M.)

1st Lieut. W. P. Hall, R. Q. M.; Q. M. Sergt. C. Madsen, 1st Sergt. Wm. Cullen, H, and Sergt. C. Gregory, Blacksmith G. A. Brown, Pvts. J. E. Canning, H. L. Corp, and J. Daly, Lieut. R. London, Sergt. J. Fagan, and Pvt. B. E. Wandel, of Troop L, have qualified as sharpshooters.

7th Cavalry, Colonel James W. Forsyth.

Hdqrs. B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

1st Lieut. Herbert J. Slocum will report at Jefferson Barracks, Mo., for duty at that post (S. O., Jan. 18, H. Q. A.)

A neat "Roster of Non commissioned Officers, 7th U. S. Cavalry," reaches us this week, made official by Sergt.-Major Henry McDonald. The list numbers 118, with three vacancies for sergeants and five for corporals.

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; 1, Ft. Ringgold, Tex.; D, Camp Del Rio, Tex.; E, F, G, K, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

Sergt. William Hammond, Troop A, is detailed for duty in the recruiting office at San Antonio (S. O. 3, Jan. 7, D. Tex.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T.; D, San Carlos, A. T.; A and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B, C, and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.
* Light battery.

In Orders 38, of Dec. 14 last, Lieut.-Col. Alex. Piper, commanding, announces to the regiment the death of Capt. Franck E. Taylor, recapitulates his military career, and says: "Since the close of the war, Capt. Taylor has served continuously with the regiment at its various stations, and in 1876 commanded a battalion of four companies of the regiment which was selected for duty in the Indian Territory. The Regimental Commander is only giving voice to the silent testimony of the records of the regiment for more than twenty-five years, when he speaks of Capt. Taylor as brave in war, soldierly in peace, ever courteous, generous and fearless, beloved by his comrades, and respected by all."

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Atlanta, Ga.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.
* Light battery.

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, H, and M, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Omaha, Neb.; E, Ft. Schuyler, N. Y.; K, Ft. Wood, N. Y. H.
* Light battery.

The furlough granted Sergt. Murtha Hennessey, Bat. K, is extended to include Jan. 14 (S. O. 11, Jan. 17, Div. A.)

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, F, I, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal.; B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.

The following are relieved as recruiting officers: Capt. Robert G. Armstrong, Fort Halleck, Nev.; Capt. Matthew Markland, San Diego Barracks, Cal., and 1st Lieut. Louis H. Strother, Fort McDermit, Nev. (S. O. 1, Jan. 4, D. Cal.)

Capt. Robert G. Armstrong is detailed as recruiting officer at Fort McDermit, Nev. (S. O. 1, Jan. 4, D. Cal.)

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., A, B, C, D, E, F, G, H, I, and K, Ft. Omaha, Neb.

2d Lieut. Abner Pickering, Fort Omaha, Neb., is detailed to inspect about 175 horses, forty cows, and a variety of building material to be delivered under contract at the Santee and Ponca Indian Agencies, Neb. (S. O. 5, Jan. 15, D. Platte.)

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

With the compliments of Adjutant Fayette Roe comes this week the "Annual Roster of Officers, 3d Infantry," dated Jan. 1, 1887, which is a model of typographical excellence and reflects much credit upon the regimental press at Fort Shaw.

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Cœur d'Alene, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

1st Lieut. Charles B. Thompson, R. Q. M., is relieved from duty as a member of the G. C.-M. instituted by par. 4, S. O. 123, series of 1886, D. Dak., and 1st Lieut. Samuel W. Miller is detailed as an additional member of said court (S. O. 5, Jan. 14, D. Dak.)

Leave for three months and ten days, to take effect March 10, is granted 2d Lieut. Edward S. Avis (S. O., Jan. 18, H. Q. A.)

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, D, E, F, and G, Ft. Douglas, Utah; K, Salt Lake City, Utah.

Leave for twenty-five days, to take effect about Feb. 1, 1887, is granted Capt. William Badger, Fort Douglas, Utah (S. O. 4, Jan. 10, D. Platte.)

The C. O. Fort Leavenworth will grant a furlough for thirty days to Sergt. Charles M. Davis, Co. I (S. O. 5, Jan. 11, Dept. M.)

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C and I, Ft. Robinson, Neb.; D and K, Ft. Bridger, Wyo.

Leave for one month is granted Lieut.-Col. Montgomery Bryant, Fort Niobrara, Neb. (S. O. 1, Jan. 3, D. Platte.)

9th Infantry, Colonel John S. Mason.

Hdqrs., F, H, I, and K, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; E, San Diego Bks., Cal.; A and G, Ft. Apache, A. T., C, Ft. Mojave, A. T.

The leave granted Capt. Samuel Munson is extended fourteen days (S. O., Jan. 15, H. Q. A.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, and I, Ft. Union, N. M.; F and H, Ft. Bliss, Tex.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

1st Sergt. H. Przykalla, H, and Corpl. L. S. Vandewalker and Pvt. C. Schussler, K, have qualified as sharpshooters.

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

2d Lieut. Bertram T. Clayton, A. C. S. Fort Bennett, D. T., will send, by express, to the nearest depository, all subsistence funds (S. O. 2, Jan. 7, D. Dak.)

The C. O. Fort Sully, D. T., will grant a furlough for one month to 1st Sergt. Louis Bermehiem, Co. D (S. O. 2, Jan. 7, D. Dak.)

The leave granted Capt. Leon A. Matile is extended one month (S. O. 8, Jan. 18, Div. M.)

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., A, B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.

Leave for ten days is granted 1st Lieut. Millard F. Waltz, Plattsburg Barracks, N. Y. (S. O. 12, Jan. 18, Div. A.)

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

Col. Robert S. La Motte will, upon the expiration of his present leave, proceed to Fort Wingate, N. M., and report for assignment to duty with his regiment (S. O., Jan. 18, H. Q. A.)

The extension of leave on Surgeon's certificate granted 1st Lieut. William W. Tyler is still further extended one month on Surgeon's certificate (S. O., Jan. 18, H. Q. A.)

Leave for two months is granted Capt. Arthur McArthur, Jr., Fort Leavenworth (S. O. 8, Jan. 18, Div. M.)

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T. A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

1st Lieut. Frank Taylor, Vancouver Bks., will return from Washington to that station (S. O., Jan. 19, H. Q. A.)

Major Charles A. Wikoff will report in person, at the expiration of his present leave, to the Comdg. Gen. Dept. of Columbia for assignment to a station (S. O., Jan. 18, H. Q. A.)

1st Lieut. George T. T. Patterson will proceed from Vancouver Barracks to Fort Townsend, the station of his company (S. O. 2, Jan. 4, D. Columbia.)

A furlough for one month is granted Sergt. Louis Mebring, Co. G, Vancouver Barracks (S. O. 1, Jan. 3, D. Columbia.)

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

Sergt. George F. Miller, Co. C, is relieved from further duty in connection with the Dept. Rifle Competition, and will proceed to Fort Randall, D. T. (S. O. 2, Jan. 7, D. Dak.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, C, F, and H, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

Lieut. W. H. Johnston, Jr., has qualified as a sharpshooter.

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; B, Camp Medicine Butte, Wyo.; H, Ft. Bridger, Wyo.

Private Leon Bichon, Co. B, now at Camp Medicine Butte, Wyo., is detailed as acting hospital steward at that post (S. O. 4, Jan. 10, D. Platte.)

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Kas.

Capt. E. R. Kellogg and Sergt. G. Ohrenberg, A, have qualified as sharpshooters.

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

Sergt. B. Brown, C, has qualified as a sharpshooter.

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, January 15, 1887.

PROMOTIONS.

Lieutenant-Colonel Rodney Smith, Deputy Paymaster-General, to be Assistant Paymaster-General with the rank of Colonel, December 8, 1886, vice Febiger, retired from active service.

Major William R. Gibson, Paymaster, to be Deputy Paymaster-General with the rank of Lieutenant-Colonel, December 8, 1886, vice Smith, promoted.

Lieutenant-Colonel Robert S. La Motte, 12th Infantry, to be Colonel 13th Infantry, December 8, 1886, vice Bradley, retired from active service.

Major William F. Drum, 14th Infantry, to be Lieutenant-Colonel 12th Infantry, December 8, 1886, vice La Motte, promoted.

Captain Charles A. Wikoff, 11th Infantry, to be Major 14th Infantry, December 8, 1886, vice Drum, promoted.

1st Lieutenant Albert L. Myer, 11th Infantry, to be Captain, December 8, 1886, vice Wikoff, promoted.

2d Lieutenant Jonas A. Emery, 11th Infantry, to be 1st Lieutenant, December 8, 1886, vice Myer, promoted.

RETIREMENT.

Colonel Charles E. Blunt, Corps of Engineers, January 10, 1887 (act June 30, 1882).

CASUALTY.

Colonel William H. Wood (retired), died January 1, 1887, at Pass Christian, Mississippi.

Retired Officers.

Authority is granted for the admission of Major James Belger, retired, to the Army and Navy General Hospital, Hot Springs, Ark., for treatment (S. O., Jan. 14, H. Q. A.)

Courts-martial.

The following courts have been ordered:

At the Post of San Antonio, Tex., Jan. 13. Detail: Capt. James B. Burbank, 3d Art.; Capts. Edward E. Wood and Richard A. Williams and 1st Lieut. Joseph A. Gaston, 8th Cav.; 2d Lieuts. Elias Chandler and James T. Anderson, 16th Inf.; 2d Lieut. Edward C. Brooks, 8th Cav., and 1st Lieut. Charles R. Tyler, 16th Inf., J.-A. (S. O. 5, Jan. 11, D. Tex.)

At Madison Barracks, N. Y., Jan. 21. Detail: Capts. Alex. B. MacGowan, John M. Norvell, and James Halloran, 1st Lieut. Frederick Von Schrader, 2d Lieuts. Charles W. Abbot,

Jr., David J. Baker, Jr., Benjamin A. Poore, Walter H. Gordon, and George J. Godfrey, 12th Inf., and 1st Lieut. A. G. Tassin, 12th Inf., J.-A. (S. O. 12, Jan. 18, Div. A.)

At Fort Sidney, Neb., Jan. 13. Detail: Capts. George M. Downey, William H. Boyle, James A. Haughey, and Frederick H. E. Ebstein, 1st Lieuts. Daniel Cornman, Adjt., Charles H. Bonesteel, Francis J. Patten, and Solomon E. Sparrow, 2d Lieuts. Edward H. Brooke, Frederick L. Palmer, and Almon L. Parmerter, 21st Inf., and 1st Lieut. John S. Parke, Jr., J.-A. (S. O. 2, Jan. 7, D. Platte.)

At Fort Du Chesne, Utah, Feb. 7. Detail: Col. August V. Kautz, 8th Inf.; Col. Henry C. Merriam, 7th Inf.; Lieut.-Col. Nathan W. Osborne, 6th Inf.; Lieut.-Col. Robert H. Offley, 17th Inf.; Lieut.-Col. Joshua S. Fletcher, Jr., 2d Inf.; Major Andrew S. Burt, 8th Inf.; Major Alfred T. Smith, 7th Inf.; Major James S. Casey, 17th Inf.; Major Edmond Butler, 2d Inf.; Major John N. Andrews, 21st Inf.; Major William J. Lyster, 6th Inf., and Capt. Allan H. Jackson, 7th Inf., J.-A. (S. O. 2, Jan. 7, D. Platte.)

Army Boards.

The C. O. Fort McIntosh having reported that the granary is completed, a Board of Officers will convene, Jan. 10, to inspect the building. Detail: Major R. F. Bernard, Capt. A. B. Wells, and 2d Lieut. Farrand Sayre, 8th Cav. (S. O. 3, Jan. 7, D. Tex.)

A Board of Survey will meet at Vancouver Barracks Ordnance Depot, Jan. 7, to determine the responsibility for damage to five rifles. Detail: Capt. William E. Birkhimer, A. J.-A.; 1st Lieut. James N. Allison, 2d Cav., I. R. P., and 1st Lieut. William C. Langfitt, C. E., Engr. Officer (S. O. 4, Jan. 6, D. Columbia)

A Board of Survey, to consist of 1st Lieut. Thomas M. Woodruff, A. S. O., and 2d Lieuts. Frank Greene and Benjamin M. Purssell, Signal Corps, will assemble, Jan. 13, 1887, to fix the responsibility for the loss of signal property (S. O. 2, Jan. 6, Sig. Office.)

A Board, to consist of 1st Lieut. Richard E. Thompson, A. S. O., and 2d Lieuts. William D. Wright and Frank W. Ellis, Signal Corps, will assemble, Jan. 15, to recommend disposition of public property at Sloop Point, N. C. (S. O. 4, Jan. 12, Sig. Office.)

A Board of Officers, to consist of Col. Charles H. Tompkins, A. Q. M. G., and Capts. Wallace F. Randolph and Charles Morris, 5th Art., will assemble at Governor's Island, N. Y. H., Jan. 17, to investigate as to the circumstances of, and fix the responsibility for, the collision which occurred Jan. 1, 1887, between the chartered Government steamer *James Bowen* and the Union Ferry Company's steamer *Atlantic* (S. O. 10, Jan. 14, Div. A.)

Capt. Chandler P. Eakin, 1st Art., is detailed to act in conjunction with Capt. Charles F. Powell, C. E., and Mr. J. Cabell Breckinridge, Surveyor-General of Washington Territory, for the purpose of considering the questions of boundary lines, jurisdiction, etc., which have been raised between the military and light-house authorities respecting the control of a portion of the military reservation of Fort Canby, and to adjust the lines, so that the part occupied by the light-house establishment may not interfere with that occupied by the War Department for fortifications, magazines, and other buildings which are now located on the land that is claimed as a part of the light-house reserve (S. O., Jan. 18, H. Q. A.)

A Board of Survey, to consist of Lieut.-Col. Amos Beckwith, A. C. G. S.; Major Charles W. Foster, Q. M., and 1st Lieut. Thomas S. Mumford, 13th Inf., will assemble at St. Louis, Mo., Jan. 24, to fix the responsibility for deficiencies in knit undershirts and bed sheets (S. O., Jan. 18, H. Q. A.)

Retirements of Enlisted Men.

Sergt. Patrick Clancy, Light Bat. E, 1st Art., Jan. 14, 1887.

DEPARTMENT NEWS.

Dept. of Texas.—Brig. Gen. D. S. Stanley.

The El Paso *Times*, referring to the removal of the headquarters 10th U. S. Infantry from Fort Bliss to Fort Union, N. M., and to its efforts to prevent it, candidly says: "We have been working for the retention of a big brass band and a few regimental officers who have made themselves dear to us. We will always have lots of troops, and we will keep the band yet awhile."

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

The ration of bread has been increased to twenty ounces at Fort Yates, D. T.

The *Pioneer Press*, referring to the removal of Department Headquarters to St. Paul, and to the bill pending in Congress to set aside a portion of the Fort Snelling reservation for a Soldiers' Home, says: "Anent the scheme, the expression of Colonel Hicks before the G. A. R. committee, that 'after $200,000 had been expended the Army officers thought it pleasanter to live in a city and have commutation of quarters,' has caused a mild sort of a kick among the officers referred to. The truth is, they were not consulted in the matter at all, and not more than two of the whole number were in favor of the removal to St. Paul. Socially, of course, they are the gainers, but the amount of the commutation is so disproportionate to the rental that must be paid for a suitable house, that it makes quite a difference in their bank accounts. The difference is that at Fort Snelling the officer got fine quarters from the Government and no commutation, while in St. Paul he pays all his commutation and a neat little sum in addition every month to the landlord for quarters much less commodious than those at the fort."

Division of the Atlantic.—Maj.-Gen. Schofield.

The *Gazette* says: "The bill appropriating an additional $50,000 for a regimental headquarters in Newport, Ky., is almost an assured success. Secretary Endicott has approved it, as has also the Committee of the House on Military Affairs. Speaker Carlisle and Senators Beck and Blackburn will make a strong effort to have it passed at the present term. The bill includes the sale of the present barracks at the mouth of the Licking, the proceeds to be turned over for the purchase of a new site, and for the appointment of a military commission under the Secretary of War for the selection of such a site."

The Cincinnati *Gazette* says: "Since the effort to secure an appropriation for the purpose of removing the barracks from the present site, at the conjunction of the Ohio and Licking Rivers, Newport, Ky., to a higher and more suitable location, the heirs of the late Col. James Taylor have been publicly claiming that the property on which the barracks now stand will revert back to the estate, as it was given to the U. S. for the above purpose only, with the understanding that no other use be made of it. Col. Samuel Bigstaff, the well-known real estate man of Newport, has found the original deeds to the property, which shows that the United States purchased the same, and can do with it as they please, and that the Taylor heirs have no claim upon it whatever."

Dept. of the Missouri.—Brig. Gen. O. B. Willcox.

Reports from Camp J. P. Martin, I. T., near Arkansas City, indicate that the troops in that vicinity are having quite a lively time. A day or two since a party of wood thieves were found by a detachment on the Chickeska River, but refused to surrender. The sergeant in charge of the detachment ordered the party to halt, notifying them that if the order was disobeyed they would be fired upon. The outlaws then levelled their guns on the bearer of the order. The troops at once fired, and with the loss of one of their horses in the leading team and one man shot through the hand, they surrendered, and were brought to the main camp to await the action of the U. S. Commissioners. The party arrested numbered ten, while the detachment of troops consisted of only five men.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Jan. 19, 1887.

AS MARK TWAIN said, we have had an abundant stock of weather for a week—rain, slush, snow, sleet, and yesterday a sudden drop of the mercury to zero, which has delighted the hearts of the tobogganers. The slide is in splendid condition. Yesterday afternoon there was a large turnout, both of participants and lookers-on. Prof. Bass and Capt. Metcalfe present a very picturesque appearance in their new suits. The wind was blowing from the north at a forty mile rate, and was icy cold; as the slides go as fast it must have seemed fearfully cold, but still all appeared to enjoy it.

The Adjutant of the Military Academy has just had printed a Roster of the Corps of Cadets. It is on a sheet of 11 by 15 inches; one side contains a list of the classes arranged alphabetically, with the standing in each study as determined at the examination just over, and also having the general standing of all the cadets. This side also has a list of cadet officers and non-commissioned officers with figures denoting the relative rank. The other side of the sheet contains the battalion organization of the Corps, each company having a captain, four lieutenants, five sergeants and five corporals. Co. A has 49 privates, B, 48; C, 51 (one being absent); and D, 49. The Corps is now quite small, numbering only 261. If all vacancies are filled there will be 149 candidates for next June.

Cadets Houze and Anderson were appointed Sergeants to succeed Easley and Lucas, discharged. The former was assigned to Co. D and the latter to Co. A.

The cadets had a hop last Saturday evening in Room No. 1, Academic Building. It was very slimly attended, there being only about a dozen couples on the floor.

It is not yet known what form the customary "Hundredth Night" celebration will take. Last year there was a german in the afternoon and an entertainment in the evening. The time for whatever happens will be Saturday, Feb. 19.

A shocking accident occurred last Saturday afternoon. A large mass of ice had collected on a hill overhanging the track of the West Shore Road near the foot of Crow Nest Ravine. A laborer named John Dunderberg was engaged in chopping it off. In order to keep his elevated place, he had tied a rope to a small tree and was holding on to it. One end of the rope had been left lying on the track. A freight train came along, caught the rope and jerked the man down and tore him into pieces, strewing them along the track.

THE INFANTRY AND CAVALRY SCHOOL.

THE semi-annual examination commenced on Monday, Jan. 17, and continues daily, Saturdays and Sundays excepted, until finished.

The staff, Lieut.-Col. A. K. Arnold and Major Geo. B. Sanford, 1st Cav.; Major H. S. Hawkins, 10th Inf.; Capt. Jacob Kline, 18th Inf., and Capt. W. M. Wherry, 6th Inf., conduct the examinations, which, as to classes and subjects, are in order as follows: 1. First Class in Military Art; 2. Second Class in Minor Operations of War; 3. First Class in Law; 4. Second Class in Law; 5. First Class in Infantry Tactics; 6. Second Class in Infantry Tactics; 7. First Class in Cavalry Tactics; 8. Second Class in Cavalry Tactics; 9. First Class in Military Topography; 10. Second Class in Military Topography; 11. First and Second Classes in Veterinary Science.

THE ARTILLERY SCHOOL.

IN G. O. 1, of Jan. 17, Gen. J. C. Tidball directs instruction in photography to commence Jan. 18 under Major A. C. M. Pennington, 3d Art., instructor; and instruction in telegraphy, using the American Morse Code, to commence Jan. 18, under Capt. J. M. Ingalls, 1st Art., and 2d Lieut. B. W. Dunn, 3d Art., as assistant.

In G. O. 2, of Jan. 18, he announces the allotment of time to the different departments of instruction at the school, as follows: First Year.—Engineering, Sept. 10 to Dec. 21; Jan. 6 to Feb. 15—144 days. Ballistics, including Electricity, Feb. 16 to March 31—44 days. Artillery, including Chemistry, April 1 to June 30—91 days. Second Year.—Artillery, Sept. 1 to Oct. 15—45 days. Military Art, Oct. 16 to Dec. 21; Jan. 6 to March 15—136 days. Law, March 16 to June 19—96 days. All dates inclusive.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

JANUARY 8.

Gen. Stanley left on Wednesday on a hunting trip, and, I understand, has bagged quite a lot of game. Mrs. Stanley received on New Year's Day, assisted by her charming daughter and Mrs. Lieut. Millar, and in the evening the ladies of headquarters and post received at the hop room.

Lieut. E. C. Brooks, 8th Cav., an 1886 graduate, soon leaves for Chicago to follow the example of so many of his co-graduates—get married. The lady is a Miss Gray, a favorite in society circles in Chicago.

The weather since New Year's has been damp and raw, and the thermometer has actually been down to 18 degrees above zero. I am sure I agree with Gen. Stanley (how that must gratify him) as expressed in his last annual report, that "more frequent change to a northern climate would benefit the troops." I know it would benefit me, but, alas! my change, small or big, is very infrequent, and a seven days' leave, once a year, is about all I can afford. I fully concur also with the General that the climate here is, "for nine months in the year, one of the finest in the world," and I endorse heartily the further opinion that "long continuous residence without change enervates the system." My system is so enervated that I haven't the strength to look the paymaster in the face when he makes his periodical call, and it does seem to me that if this thing goes on much longer I won't have strength even to sign the usual pay roll, a condition of things unprecedented in military annals. PUNK.

(Correspondence of the Army and Navy Journal.)

FORT SHAW, M. T.

THE holidays have slipped away very pleasantly at our pretty little post, leaving a host of agreeable memories in their train. On Christmas eve the festivities were begun by a very charming german given by Gen. and Mrs. Brooke, and most capitally led by Lieut. McCann. The favors for the first figure were dainty sprays of holly leaves and berries; for the last, satin ribbons bearing the golden legend, "A Merry Christmas," and the music was Meipler's beautiful valse, "Dream Faces." There were five other favor figures.

Every one was in the best of spirits (including the punch bowl); the ladies were fair to look upon, and their gowns (I beg pardon, frocks) ravishing; our little hop room in gala dress of flags and evergreens; the floor most satisfactorily slippery, and the music inspiring.

We adjourned to the General's quarters for supper, and after the "inner man" (and woman) had been thoroughly cared for we marched into one of the front rooms, where we found a pyramidal heap on the floor, masked with white drapery and evergreens and capped by the campaign hat of our commandant. Our host passed the chapeau around, and after each of us had taken therefrom one of the twenty-four numbered slips that it contained, unmasked the pyramid and drew box after box from the pile. With much happy laughter, each opened his or her cadeau and displayed its contents.

On Christmas Day Capt. and Mrs. Stouch gave a dinner party, followed by an enjoyable evening at cards.

On Thursday evening Lieut. and Mrs. Roe had a Napoleon party, a most agreeable affair.

New Year's eve a little party gathered at the quarters of Lieut. and Mrs. French and played "vingt-un" until

"... the very witching time of night,
When churchyards yawn"—

when, with brimming glasses they drank the old year out and the new year in.

At noon on New Year's the officers of the garrison, in full uniform, presented themselves at the commandant's house and paid the compliments of the day to General and Mrs. Brooke. The string band discoursed sweet melody from an adjoining room, and a bounteous and tempting feast was spread in the dining room.

At Capt. Hale's, Mrs. Hale received, assisted by Mrs. Avery. In Capt. Stouch's quarters we found Mrs. and Miss Stouch receiving. We were graciously welcomed by Mrs. Moale. It is much to be regretted that the regiment will lose Col. and Mrs. Moale by the former's promotion in February. Mrs. Roe received, assisted by Mrs. French.

Lieut. and Mrs. French are the proud parents of a baby boy. The ladies and officers of the garrison assembled at the "French quarter" to drink the health of the young recruit. Two or three dinner parties were given early in the week, one at Col. Moale's being a particularly handsome affair. LU TENANT.

(Correspondence of the Army and Navy Journal.)

DAVID'S ISLAND, N. Y. H.

JANUARY 11, 1887.

THE german given by Col. and Mrs. O'Beirne in honor of their niece, Miss Kerrigan, was a most delightful affair. The new mess hall was very handsomely draped with flags and evergreens. The favors were very odd and beautiful. The german began at eight and lasted until twelve, when supper was served. All at the island were present. Those who took part in the german were Miss Kerrigan and Lieut. Pitcher, Miss Hargous, Lieut. Price, Miss McNulty, Lieut. Terrett, Miss Schofield, Mr. Burrill, Miss Daisy Kerrigan, Mr. Scofield, Miss Trotter, Mr. Morgan, Miss Kerrigan, Lieut. Sibert, Miss Hewett, Lieut. Reagan, Captain Cook, Miss Thompson, Mrs. Cowles, Lieut. Kirby, Miss Ogden, Lieut. Andrews, Miss Happersette, Mr. Cowles, Miss Irwin, Lieut. Brown, Miss Waring and Lieut. Craighill. Everybody enjoyed themselves very much. Many thanks to their kind host and hostess. O.

(Correspondence of the Army and Navy Journal.)

FORT CONCHO, TEXAS.

JANUARY —, 1887.

THE day of all days in the year, was most charming, though we have had no rain for months. It was more quiet, than formerly, but very enjoyable.

Col. and Mrs. Blunt returned from New York City in time to attend to Santa Claus. They gave the officers's children the handsome and artistic juvenile books of this winter and some of the pretty tricks in the new devices of decorative art. Bundles and boxes came pouring in through the mails from dear children and friends far away, and from the old, old homes of "other days." And so the week went by with its happy surprises and New Year stepped in with her lavish hopes and promises and hypocritical airs.

The ladies who received were Mrs. Col. Rose and daughter; Mrs. Lieut. Allen; Mrs. Lieut. George and Mrs. Palmer. Col. Hale gave his annual luncheon at 12.30. There was no reception at Headquarters, Col. Blunt being quite ill, the effects of a severe cold. The Colonel is himself again and at work.

A stiff breeze from the East end of the "line" blew up a move, but was kept at bay until the rejoicings were over, when Dr. Gandy politely requested No. 9, where he is now established, to stay; Lieut. Wright going into the desirable house which terminates the vista from the West Gate, and Lieut. Allen, availing himself of the quarters vacated by Dr. Lauderdale, thought he would possibly enjoy a hall of his own for a short time.

There was a good deal of excitement here over the report that the 16th would go to the "Dept. of the Lakes" when spring came. I have great fear that this may come to pass, for I believe that should such an order appear, some bright morning every other man and woman, at least, of us, would become insane. What, to see the dew sparkle on the grass and inhale a whiff of the rose on its native bush. Why, the very thought of a potato-patch in bloom "awakes within me thoughts too deep for tears." E. J. P.

(Correspondence of the Army and Navy Journal.)

LOGAN BARRACKS.

WHEN the land offered for a post near Chicago is accepted by Congress we would suggest to the War Department the above name for the station. It would be very appropriate for the Army to erect a monument there to General Logan, and if the ARMY AND NAVY JOURNAL will take the matter up and receive subscriptions there will be a generous response from both officers and men. WAR HAT.

(Correspondence of the Army and Navy Journal.)

FORT LYON, COLO.

THE New Year began quite pleasantly for us and up to the present we have had but one disagreeable day, if cold weather be considered not disagreeable. Last Saturday night the thermometer went down to —19 degs. and Sunday night to —17 degs. at the hospital. It is reported that the thermometer at the Signal Office in Las Animas went down to —26 degs. last Saturday night.

Our energetic Post Quartermaster, Lieut. Burbank, 10th Inf., is taking advantage of the weather to fill the ice house for the coming summer.

Most of the bathrooms which have recently been added to each set of officers' quarters are now completed, and are working very satisfactorily.

The company barracks are being refloored and otherwise repaired as fast as possible and many other improvements are being made at the post under the supervision of the Post Quartermaster.

Lt. C. C. Cusick, 22d Inf., who was detailed on recruiting

service to complete the unexpired tour of Lt. Campbell, (deceased), left here Dec. 28 for New York City. Lieut. Cusick entered the Volunteer Service as a 2d Lieut. of the 152d New York Infantry in 1862, serving through the war, and was commissioned a 2d Lieut. in the Regular Army in 1866, since which time he has always been with his company, excepting one year that he spent at the Artillery School. For some twelve or fourteen years Lieut. Cusick performed the duties of company commander, and a great part of the time was without the help of a 2d lieutenant. This is his first experience of a "soft berth" on staff duty or detached service of any kind, and it came to him as a surprise, but was quite acceptable. Lieut. Cusick has a record of which he may well be proud and which will compare favorably for his length of service with any one. In all the hard service of the 31st and 22d Infantries since the war Lieut. Cusick has always been to the front.

The officers have had a series of hops every two weeks during the winter, and the men have given a number of hops and entertainments which have contributed toward making life more pleasant here.

Last Friday evening after the hop Capt. and Mrs. Ward entertained the young folks at their house.

The Post Commander received the officers of the post at his quarters New Year's Day, after which they divided into parties of two and three and called upon the ladies, most of whom received and provided refreshments.

Col. and Mrs. Lincoln entertained the young folks at their house last Thursday evening.

Miss Mamie Ward, daughter of Capt. Ward, who has been spending the holidays here with her parents, has returned to school in Denver.

About seventy-five new books have recently been added to the Post Library, which is now becoming entitled to the name of library.

This is the model garrison of the Army; for several weeks there was but one prisoner in the guard house. Not a man so far forgot himself either Christmas or New Year's as to necessitate his being confined.

Major Sharpe, Paymaster, arrived this morning and now we are all happy, except perhaps a few enlisted men whose clothing accounts do not balance. MAMALUS.

(Correspondence of the Army and Navy Journal.)

COLUMBUS BARRACKS, O.

JANUARY 18, 1887.

PREPARATIONS for the consolidated mess at this depot are being energetically carried forward, and it is expected to be in operation by Feb. 1, the contract for furnishing the apparatus having been let to the celebrated firm of Army range builders, the John Van Range Company, of Cincinnati, Ohio. It has not been found necessary to build for this purpose, there being ample room in the immense main building at the post.

Capt. C. Hobart left on the 15th inst. for Fort Leavenworth, having in charge five general prisoners, and a number of specially assigned men. Lieut. Cusick, 22d Inf., has reported for a tour of duty at this depot.

A very good minstrel show was given in the Library Hall last Wednesday evening, which was well attended, the officers and ladies of the post taking especial interest in the same. A small blaze in the adjutant's office caused the boys to scramble out very hurriedly at 3 o'clock A. M., the 11th inst., but comparatively little damage was done. Sergeant-Major Christopher O'Brien, 10th Inf., has made application to be transferred to this depot, for the purpose of educating his children.

FORT OMAHA, NEB.

THE *Excelsior* of Jan. 15 says:

Lieut. Kennon returned Monday from Madison, Wis., where he delivered a lecture before the officers of the Wisconsin National Guard on military tactics ... The Court-martial ordered at Fort Du Chesne has excited much interest in Army circles here.... Lieut. Wm. Moffat has gone to Kansas City, where his wife and family are visiting... Lieut. H. B. Sarson has been on the sick report with inflammation of the eyes the past few weeks.... Mrs. Turner, with her interesting family, has joined her husband, Lieut. W. J. Turner, 2d Inf., after a pleasant visit East.... Lieut. Luther S. Ames, 2d Inf., returned Saturday from leave spent with his family in the State of New York. He is looking as jovial and hearty as ever.... The officers and ladies of the garrison came together Tuesday evening for one of those enjoyable informal hops which tend as much as anything else to enliven military posts... Miss Margaret Wilson, of Fort Leavenworth, who has been visiting here, has returned home.

FORT SIDNEY, NEB.

THE *Excelsior* of Jan. 15 says:

The Fort Sidney Social Club dances Jan. 24 ... Lieut. Farrow, absent on leave, is spending it in Washington and New York.... Mrs. George Downey and Miss McClintock returned to Omaha Thursday.... The Fort Sidney Literary Society gave their regular semi-monthly entertainment at the Post Theatre Tuesday ... The following ladies received calls on New Year's: At the garrison, Mrs. Major Downey, assisted by Mrs. Capt. Ebstein; Miss McClintock and Miss Haugney received at the residence of Major Downey. At Maj. Boyle's, Mrs. Boyle, Mrs. Bonesteel, Mrs. Sparrow, and Mrs. Williams received. At Lieut. Cornman's, Mrs. Cornman and Mrs. Duncan received. Mrs. Morrow received informally.

FORT DAVIS, TEX.

THE Presidio County *News*, of Jan. 14, says:

Col. E. M. Heyl, Inspector-General, is expected this week. ....Capt. J. F. Simpson, 3d Cav., has gone on leave for six months on certificate of disability.... The Lodge of Good Templars is to be organized in the post Friday.... Capt. J. C. Thompson is steadily improving, and his recovery is confidently hoped for. He and family are expecting friends to visit them from St. Louis.

FORT YATES, DAKOTA.

A CORRESPONDENT of the Winona *Times*, referring to the rumor that the 7th Cavalry may soon relieve the 8th in Texas, drops into poetry thus:

When the snow-plumed angel of the north
Has dropped his icy axes;
And the mossy earth again looks forth
The Seventh is going to Texas.

Once installed in that sunny land
At the forts along the river,
They'll patrol the banks of the Rio Grande,
Suppressing outlawry forever.

GEN. W. T. SHERMAN, Major Gen. J. M. Schofield, Major J. P. Sanger, and Lieuts. J. E. Sawyer and W. W. Galbraith, U. S. A., attended the Charity Ball at the Metropolitan Opera House, New York city, on Thursday evening. Among the floor managers were Capt. Warren C. Beach and Capt. W. H. Wheeler, U. S. A. In the opening march Gen. Schofield escorted Mrs. Levi P. Morton, and Gen. Sherman Mrs. Hicks-Lord.

THE following Mexican War Claims were allowed by the Second Comptroller this week: John H. Gove, Captain, 4th Infantry, $99.30; John D. Clarke, 1st Lieut. and R. Q. M., 8th Infantry, $120; James R. Harrell, Private, Co. G, Mounted Rifles, $6.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Sailed Jan. 11 for a cruise in the West Indies, and arrived at St. Thomas Jan. 18.

Left Cape Henry, Va., Jan. 11th, for Bermuda. A correspondent, writing from off Cape Henry, Va., Jan. 11th, says: On Jan. 6th the *Galena* steamed to Fortress Monroe, and on Jan. 7th and 8th the ship was inspected by the board of officers detailed for that purpose. On Jan. 7th the ship was headed for Chesapeake Bay, where the steaming and manœuvering tests took place. Only nine of the ten boilers were used, orders having been issued to run along as in ordinary cruising. Under these circumstances the speed developed was 10¾ knots, but with full power 11½ or 12 knots could easily have been reached. In all trials the engines worked beautifully—reversing from full speed ahead to full speed astern in twelve seconds.

On Saturday, Jan. 8, the crew was inspected at all general exercises except sail and spar drills, which were omitted on account of the extremely cold weather and the ice on the spars and rigging. The inspecting officers expressed themselves as very well satisfied with the condition and discipline of the ship, and immediately afterwards we steamed back to the Norfolk Navy-yard, to again fill up with coal.

The officers now attached to the ship are: Commander Colby M. Chester, commanding; Lieut. W. H. Reeder, executive officer; Lieut. W. O. Sharrer, navigator; Lieut. Richard Wainwright, Lieut. C. McR. Winslow, Lieut. C. C. Rogers, Lieut. T. D. Griffin, watch officers; Ensign, J. Gibson; Ensign, G. W. Street; naval cadet, B. M. Lombard; surgeon, F. L. DuBois; assistant surgeon, A. R. Wentworth; paymaster, H. T. Skelding; chief engineer, G. H. White; passed assistant engineer, W. N. Little; assistant engineer, T. F. Carter; assistant engineer, Harry Hall; first lieutenant, B. R. Russell, U. S. M. C.

The prospective cruise is given as follows: Bermuda, Martinique, St. Lucia, Barbadoes, Trinidad, Curacoa, Cartagena, Aspinwall, Port Cortez, Ceinfuegos, Kingston, Santiago, Nipa, Neuvitas, Matanzas, Havana, Key West, returning to Fortress Monroe about May 1. All mail must be addressed to the *Galena*, care of Navy Pay Office, 29 State St., N. Y. During this cruise deep-sea soundings are to be taken at intervals between ports, and charts of harbors and channels are to be verified.

RICHMOND, 3d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd.

THE *Tennessee* was put out of commission Jan. 20 and the steamer *Richmond*, the new flag ship, hoisted her colors for the first time. Shortly after 2 o'clock Capt. Robert Boyd and officers of the *Tennessee* boarded the new flagship, and at the word from Capt. Boyd the Stars and Stripes were simultaneously hauled down on the *Tennessee* and hoisted on the *Richmond*. The pennant of Capt. Boyd was broken out and the band played "The Star Spangled Banner." Officers and men uncovered during the ceremony and watched with regret the signal of the abandonment of the old *Tennessee*. The *Richmond* will fly the flag of Rear Admiral S. B. Luce, commander-in-chief of the home station. Capt. Boyd and the other officers, together with the crew of the *Tennessee*, were transferred to the *Richmond*. Capt. Boyd will also hold the position of chief of staff of the North Atlantic Squadron. Lieut.-Comdr. T. A. Lyons is executive officer and Lieut. A. B. H. Lillie navigator. The *Richmond* carries fourteen guns and has a complement of 350 officers and men.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived January 16, at Key West, Fla. A despatch from the latter place states that on Jan. 16, while off Sand Key, fire broke out in her coal bunkers. Volumes of smoke enveloped the ship and considerable anxiety was manifested, but the fire was eventually subdued. The dysentery and malarial fever prevail among the crew, one of whom died at Aspinwall. Others were left in hospital there and several have been placed in hospital here. The *Yantic* will probably remain here a week before returning to the West Indies to complete her cruise.

S. Atlantic Station—A. R. Admi. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Reported by cable to have arrived at Port Said Jan 10.

Comdr. Charles McGregor, of the *Alliance*, writes under date of Valletta, Malta, Jan. 1, 1877: The *Alliance* arrived at Valetta Dec. 26. The British Mediterranean Fleet was in port. After the official calls had been made and returned, both his excellency the Governor and H. R. H., Admi., the Duke of Edinburgh, placed their boxes at the opera at the disposal of the officers of the *Alliance*. They were also invited to a ball by Admiral Ward, the superintendent of the Dock, at which the Governor and Duke of Edinburgh were present. While there the fleet had a landing, which culminated in a sham fight and the capture of the fort. There are some slight repairs required in the engines of the *Allianee*, and a fresh supply of provisions for the men were laid in at Malta. The weather has been very bad, and in consequence there has been an increase in the number of sick. All are doing well, however.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Sailed from Montevideo for Maldonado Dec. 11. All well. Intended to sail for ports on South coast of South America and the Faulkland Islands, and to reach Rio about June 1, 1887.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. Arrived at Montevideo Nov. 9.

European Station—R.-Admi. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. Arrived at Alexandria, Egpt, Dec. 11, after five days passage from Malta.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Reported by cable to have arrived at Gaboon, West Coast of Africa, Jan. 4, 1887.

Pacific Station—Capt. J. H. Gillis (in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham, went into commission at Mare Island, Cal., Jan. 15, where she was when last heard from.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 14.

HARTFORD, 2d rate, 16 guns ——— At Mare Island, Cal. Went out of commission Jan. 14.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Montevideo Nov. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Reported by cable to have arrived at Valparaiso, Chili, Dec. 16.

MONONGAHELA, 2d rate, 9 guns, Comdr S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Arrived at Valparaiso, Chili, Jan. 14.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. At Sitka, where she will winter. Address care of Navy Pay Agent, San Francisco, Cal.

THETIS, 4th rate, Lieutenant W. H. Emory. Commissioned at Navy-yard, New York, Jan. 15, 1887. It has not been decided when she will be ordered to sail for the Pacific Coast.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Valparaiso, Chili, Dec. 16.

Asiatic Station—Rear-Admi. Ralph Chandler.

Vessel with (†), address, Mail, General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Bombay, Dec. 6.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Arrived at Hong Kong Jan. 17.

MARION, † 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Dec. 10.

MONOCACY, † 3d rate, 6 guns, Comdr. Henry Glass. Was at Hong Kong, Dec. 29.

OMAHA, † 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL to have arrived at Yokohama, Japan, Dec. 26.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Has been ordered to return to New York by the middle of February, 1887. Reported by cable to have arrived at Gibraltar, Spain, Jan 14, 1887, and sailed Jan. 15 for New York.

PALOS, † 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. At Tientsin, China, Dec. 29.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent as follows: Up to Feb. 10, by Brazil Co.'s steamer, leaving New York about that date. Address care of U. S. Consul, Bridgetown, Barbadoes, between Feb. 10 and March 1. Address care U. S. Consul, Basse-Terre, St. Kitts. After March 1, per U. S., and including Brazil Co.'s steamer, leaving New York about March 24. Care U. S. Consul, at St. Thomas, W. I. After March 24, address Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived at Bridgetown, Barbadoes, Jan. 18.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Arrived at Bridgetown, Barbadoes, Jan. 18.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Arrived at Bridgetown, Barbadoes, Jan. 18.

On Special Service.

DESPATCH, 4th rate, Lieut. W. S. Cowles. At New York Navy-yard

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. Sailed from Norfolk Navy-yard Jan. 19 or Newport, R. I., to adjust her compasses. The *Dolphin* is to be assigned to the duty of deep sea soundings and surveying among the islands of the West Indies.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. At San Diego, Cal., Jan. 3.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

VARIOUS NAVAL ITEMS.

SINCE the appearance of Secretary Whitney's advertisement rumors have been afloat in England of a circular issued to the Admiralty and dockard officials threatening dismissal and disgrace to any one guilty of breaches of official confidence.

THE special committee appointed by the councils of Norfolk and Portsmouth, Va., to visit Washington regarding work at the Norfolk Navy-yard, had a long interview on Friday of last week with the Secretary of the Navy. The committee, through Hon. Geo. E. Bowden, Representative-elect from that district, stated the value and extent of the plant at the Norfolk Yard, and claimed that the recent order of Secretary Whitney in ignoring the facilities there for building and repairing vessels is an injustice to the Service.

ON her steam trial the English torpedo-cruiser, *Cossack*, registered 4,000 h. p., and a speed by patent log of 17.8 knots.

THE annual Navy Register has not yet left the hands of its compiler, Dr. McNairy. He expects to hand it to the Public Printer next week and have the first proofs early in February.

NAVAL officers on duty in the Hydrographic Office have been given to understand that the vessels of the North Atlantic Squadron will make experiments with the use of oil at sea during stormy weather.

AT the request of Commander Schley the order transferring the *Tennessee* to the training squadron was revoked on Thursday. The vessel will eventually replace the *Minnesota*, but it is considered impracticable to make the change just at present.

THE Board of Naval Officers to superintend the construction of a plant in the Washington Navy-yard for the manufacture of naval ordnance have visited Stamford and Hartford to examine heavy cranes for handling metal, and will go to several Pennsylvania iron centres.

THE Bureau of Steam Engineering has all its force in the draughting room busily at work perfecting the details of the triple expansion engines, recently designed by the Bureau, of 400 I. H. P. The work is pretty well in hand, and will probably be far ahead of the ship for which they are designed.

SIR GEORGE ELLIOT has addressed an appeal to the London *Morning Post* against the total abandonment of sail-power in seagoing vessels, than which, he says, nothing is more repellent to the practical experience of old seamen. "I fear," he says, "that the sailor element is being too much sacrificed to the development of mechanical science in modern ships of war."

THE German Naval List for 1887 shows a total personnel of 13,892 against 5,744 in 1870, and of officers a total of 523 against 464 in 1885, 453 in 1884, 406 in 1883, and 408 in 1882. The German Navy consists at the present time of 100 vessels of all classes, against 98 in 1885 and 96 in 1884. These numbers do not include the torpedo-boats, of which Germany ought to have now about 150.

THE slow progress of the legislative mill in connection with the consolidation of bureaus scheme, while it has not a little cheered the opponents of the measure, has apparently stiffened the wills of its friends in the House of Representatives, and it is claimed by its advocates that the Senate will make short work of passing the measure in the shape it left the House.

BY slow degrees the Washington Yard is being transformed into a gun factory, and as time goes on one tool after another is being put to work on ordnance material. One of the earliest extensive improvements in the shops will be the erection of overhead travelling cranes for the speedy and safe transportation of heavy weights. These devices will add materially to the efficiency of the existing plant, at the same time their presence will not interfere with the introduction and erection of the new machinery to be procured.

THE *Army and Navy Gazette* says that in spite of the great studies made by submarine navigation in the last two years, a practical solution of the problem is not forthcoming. In America, Professor Tuck with the *Peacemaker*, and Lieut. Zalinski with the *Nautilus*, are working hard. Messrs. Wadding ton, Campbell, and Nordenfeldt, in England, are keeping pace with their Transatlantic brethren. There are also rumors afloat of a French boat—possibly an improvement of the *bateau-poisson*—which is said to have been doing wonders.

PHILADELPHIA is making earnest efforts to secure a school-ship. The original appropriation for the school-ship was $30,000, which was to be used in refitting and repairing any vessel designated by the Secretary of the Navy for the purpose. The Secretary found a few of the vessels too good and a large proportion too bad to warrant the repairs, and finally suggested that the whole object would be much better accomplished by the introduction of a new bill appropriating money for the building of a vessel expressly for training purposes.

THE Secretary of the Navy has received a satisfactory number of applications for the position of Superintendent of the Ordnance Foundry at the Washington Navy-yard, from all parts of the country, at which he is much pleased. The Secretary will, however, hold the matter open until the 1st of February in order to receive other applications for the position. The matter of salary is left open in order to secure the services of a thoroughly competent person. It is desired to have as many applications for the place as possible before making the selection. It is stated that the responses that were expected from metal experts have not been obtained. The twisted employees of steel works receive from $5,000 to $10,000 a year, and though no salary is mentioned it is not probable that our munificent Government can allow more than one-half the smaller sum.

A NUMBER of delegates from various naval veteran associations throughout the United States met on Thursday of last week at the Morton House, New York City, for the purpose of organizing a National Veteran Association. The name of the new organization is the National Association of Naval Veterans, and it will be the effort of its members to perfect an organization throughout the country which will stand related to those who fought during the war in the Navy, Marine Corps, or Revenue Marine as the Grand Army of the Republic does to those who fought in the Army. The election of officers resulted as follows: Commodore—C. W. Adams, of Chicago; Commander—Charles A. Stillman, of Hartford; Secretary—William Simmons, of Philadelphia; Paymaster—F. H. Grove, of New York; Surgeon J. D. Murray, of New York. The second annual convention will be held in Philadelphia, Jan. 13, 1888.

Engineering says: "Secretary Whitney, who has now been at the head of the United States Naval Department for nearly two years, confesses in his new annual report, that he has been able thus far to do little more than discover the magnitude of the task confronting the man who essays to put the American Navy on a satisfactory basis. Although there is an apparent effort to make the tone of the document hopeful—not to say cheerful—it is difficult to select any phase of the report's statements or conclusions which warrants anything but depression. It would seem by the disclosures of the Secretary that we by no means have a monopoly of the 'How Not to Do It' system of administration. The story of the bungling, the confusion and the waste which he finds running through the various irresponsible bureaus, reads very like the familiar recitals from Woolwich and Portsmouth."

THE contract to furnish bottles for the use of the Naval Laboratory at New York, has been awarded to Hagerty, Bros., and Co., of New York. Jos. J. Lawlor and Co., of Norfolk, have been awarded the contract to change the system of drainage for the Norfolk Naval Hospital by conducting it to tide water without the intervention of cesspools.

THE *America*, of the National Line of steamers, has been sold to the Italian Government, to be ttansformed into a cruisee. She registers 6,000 tons gross, and is one of the most magnificently appointed passenger steamers that ever entered this port. She measures 480 feet in length, 51½ feet beam and has a depth of hold of 33 feet. She is brig rigged and averages a little over fifteen knots an hour, though she can make eighteen knots.

THE Boston *Sunday Record* has a long article protesting against the orders concerning the Boston Navy-yard. Why, it asks, "should the Secretary see fit to dismantle the Charlestown yard? Why does he see fit to transfer almost the entire navy (for this will be the ultimate effect of his order) to New York? These are the questions not only competent naval officers but all interested in the welfare of Boston would like to have answered satisfactorily. The Secretary's connection with the *Dolphin* affair has not been forgotten.

THE *Dolphin* will in a few days be in condition to go to sea. During the remaining months of cold weather she will be assigned to a very important duty. The Hydrographic Office has received numerous complaints from mariners plying their trade in the Spanish main to the effect that the charts for those waters are very imperfect. The Hydrographic Office have for some time been anxious to secure a suitable vessel to send to the Spanish main to make a resurvey and prepare new charts. The Navy Department has concluded to order the *Dolphin* to proceed to that locality as soon as her repairs are finished and make the required surveys.

NAVY GAZETTE.

Ordered.

JAN. 13.—Commander Yates Stirling, to command the Dale Jan. 31.

Commander C. D. Sigsbee, as member of Pneumatic Gun Carriage Board, of which Captain Farquhar is senior member.

Lieutenant C. K. Curtis, to the receiving ship St. Louis.

Lieutenant C. W. Ruschenberger, to the St. Louis.

Medical Inspector David Kindleberger, to examination for promotion.

Surgeon B. H. Kidder, to examination for promotion.

Chaplain W. H. Stewart, to the Richmond.

Boatswain John C. Thompson, to duty at Navy-yard, League Island.

JAN. 15.—Medical Inspector S. Robinson, to the naval rendezvous at San Francisco Jan. 29.

Naval Cadet R. B. Howell, to Annapolis by June 1 for final examination.

Passed Assistant Surgeon Ernest Norfleet, to the Naval Hospital, Mare Island, Cal.

Detached.

JAN. 13.—Chaplain Donald McLaren, from the Richmond and placed on waiting orders.

JAN. 15.—Assistant Surgeon F. A. Hesler, from the Richmond and ordered to the Naval Hospital, New York.

Assistant Surgeon I. W. Kite, from the Naval Hospital, New York, and ordered to the Richmond.

JAN. 20.—Captain James H. Gillis, from the command of the Hartford to member of the Board of Inspection at San Francisco, Cal.

Lieutenant J. H. C. Coffin, from the Franklin to special duty.

Sailmaker G. D. Macy, from the Minnesota and placed on waiting orders.

Nominations.

JAN. 20.—Albion S. Keith, of Massachusetts, to be an ensign in the Navy on the retired list.

Confirmations.

JAN. 6.—Commodore Walter W. Queen, to be a rear admiral from Aug. 28, 1886.

Commodore Ralph Chandler, to be a rear admiral from Oct. 7, 1886.

Captain Aaron W. Weaver, to be a commodore from Oct. 7, 1886.

Commander Cornelius M. Schoonmaker, to be a captain from Oct. 7, 1886.

Lieutenant Commander George W. Pigman, to be a commander from Oct. 7, 1886.

Lieutenant Henry N. Manney, to be a lieutenant commander from Oct. 7, 1886, suqject to the examinations required by law.

Lieutenant Ten Eyck De Witt Veeder (junior grade), to be a lieutenant from Oct. 7, 1886.

Ensign Wm. F. Fullam, to be a lieutenant (junior grade) from Oct. 7, 1886.

Lieutenant Charles B. T. Moore (junior grade), to be a lieutenant from Aug. 5, 1886.

Ensign Wm. S. Hogg, to be a lieutenant (junior grade) from Aug. 5, 1886.

JAN. 13.—Passed Assistant Surgeon Henry P. Harvey, to be a surgeon.

Frederick Wilkinson Olcott, to be an assistant surgeon.

Assistant Engineer Edward R. Freeman, to be a passed assistant engineer.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending January 20, 1887:

Charles Lindsay, beneficiary, died Jon. 9 at the Naval Hospital, Philadelphia.

Wm. Clarke, boatswain's mate, on U. S. S. Yantic, died Jan. 8 at Colon, N. S. C.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Jan. 17, 1887.

THE lecture room of the chemistry building was crowded on Friday evening with persons anxious to hear the first of a series of lectures to be given under the supervision of that department. Prof. Remsen, of Johns Hopkin's University, was the lecturer. His subject, "Alchemy and Alchemists," was ably handled and very interesting. At the close of the lecture, the audience, which included cadets of the first and second class, gave Prof. Remsen a vote of thanks on motion of Capt. Sampson.

The usual officers' hop was replaced on Saturday evening by the first of a series of theatricals, to be given during the winter. As the matter had been kept a secret great interest was awakened, and the gymnasium was filled long before 8 o'clock, the time set for rising of the curtain. The orchestra, under the direction of Mr. Schaff, was in fine trim and rendered their selections in a better manner than usual. Their rendition of the "Scotch Medley" between the first two acts was especially good, and brought forth well-merited applause. The stage was rigged at the side of the gymnasium, opposite the entrance and dressing rooms, and was a genuine surprise. The scenery used was painted by Prof. Blauvelt, and added greatly to the mounting of the play. Programmes issued just before 8 o'clock first revealed the title of the burlesque, "The Shakspeare Water Cure."

It is a general opinion that the company were unfortunate in their selection of a play; still each member of the company carried his or her part with the ease of a professional. The acting reflected great credit on the director and stage manager of the company, Mr. Mercer of the Marine Corps. One of the features of the evening was the singing; songs by Messrs. Mitchell, Lloyd and Knapp, consisting of original verses set to popular airs. These were well rendered, and found special favor with their hearers. The numerous jokes and puns were mostly of a local character, and as the audience was thoroughly conversant with their meaning they were welcome additions to a poor plot. As a whole the first of the theatricals was a decided success. The cast was as follows: Ophelia, Mrs. Bartlett; Portia, Mrs. J. T. Smith; Lady Macbeth, Miss Harrington; Juliet, Miss Sampson; Macbeth, Mr. Knapp; Romeo, Mr. Gibbons; Othello, Mr. Lloyd; Hamlet, Mr. Mitchell; Shylock, Mr. Mahan; The Ghost, Paymaster Loomis.

Aside from these entertainments the yard is very quiet—enjoying the usual lull before the semi-annual storm.

Annapolis has lost many of its inhabitants during the winter from diphtheria, and it has been long feared that the disease would make its appearance in the yard; consequently, when it was announced that the child of Lieut. C. R. Miles had the diphtheria, some excitement prevailed throughout the Academy. Lieut. and Mrs. Barnett, with their children, vacated their quarters, which were above those occupied by Lieut. Miles. These quarters were placed in strict quarantine, and every precaution was taken to prevent further contagion. At present the child is out of danger, and is improving rapidly.

Cadet C. B. Morgan of the second class has a slight attack of the chicken pox.

It is announced that the second class will give a german to the officers and other cadets on Friday evening, Jan. 28.

REVENUE MARINE.

CONFIRMATIONS JANUARY 20, 1887.—Cyrus B. Fergan and James H. Brown, to be Third Lieutenants.

NOMINATIONS, JAN. 18, 1887.—2d Assistant Engineer James Fitzpatrick, of Va., to be a 1st Assistant Engineer, vice Engineer Charles A. Laws, deceased; James J. Brereton, of the District of Columbia, to be 2d Assistant Engineer, vice 2d Assistant Engineer Fitzpatrick, promoted.

ASSIGNMENTS.—1st Asst. Engr. D. McC. French, to temporary duty on the Rev. Str. *Washington*, at New York; 2d Asst. Engr. C. F. Nash, to temporary duty on the Rev. Str. *Gallatin*, at Boston.

SOME OPINIONS ON NAVAL MATTERS.

THE New York *Sun* reports a conversation with a naval officer on the subject of the proposition to admit naval apprentices to the Naval Academy and to open promotion in the Marine Corps to civilians and N. C. officers. This officer is quoted as saying:

The true objection to the proposition of the Secretary of the Navy is contained in the brief phrase naval aristocracy, and it is that which would be demoralized, not the training system, the Navy or the Marine Corps. It is the cry of this exclusive class that "it will not do; it has been tried and failed." Of course it won't do, for it would break up their aristocracy. Their social superiority would fall to zero. It would introduce the odious mustang again. Of course it failed when tried in the sixties, for it had been predestined to failure by this class. They determined it should fail, and immediately set on foot a "freezing out" process that was as subtle and killing as the frost itself. Ask any one who does not wear the Naval Academy grace-hoop halo about his noble brow about the mustangs and their daily life socially and professionally, and the reply will open the eyes of an interested public in no small degree, and resolve the question into one of social ethics simply.

The New York *Herald* says:

The order of Secretary Whitney concentrating the purchase and care of supplies at the various yards and stations in the hands of the staff of the Bureau of Provisions and Clothing has naturally provoked resistance on the part of officers not belonging to the Pay Corps, who find their importance, patronage and employment cut down in consequence of the change. A particularly flagrant case of underground obstruction by an old and highly placed functionary at New York having come to the Secretary's attention, the malcontent was invited to a personal conference with the Secretary, who sent his auditor back to his station with a somewhat distinct impression that he was a part of the old order of things sadly in need of reformation. It is expected that as the news of this interview percolates through the customary channels of unwritten information the disposition to make things unpleasant for the new supply officers sent to the different yards will materially lessen.

URGING COAST DEFENCE.

THE Executive Committee of the Coast Defence Association of the coast cities of the South have issued a circular in which they state that they regard with alarm the unprotected condition of our cities and show that it is imperative that our ports be placed in a state of defence which would alone have a tendency to avert war, and recommend that a convention be held at De Funiak Springs, Fla., a central and convenient point to convene, Feb. 8, 1887, to counsel as to the best method of securing protection for our coast, based upon modern requirements. They recommend that his Excellency, President Cleveland, the Honorable Secretaries of War and Navy, both the Committees of Congress on Military and Naval Affairs, Gen. Gillmore and Capt. Green, of the United States Army; Gen. Newton, the Hon. S. S. Cox, of New York, and others be invited to attend. Also the Governors of North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, and Texas, with four delegates at large and one from each Congressional district appointed by the Governors of the above States, and delegates from the cities of the coast States. The circular is signed by prominent citizens of all the Southern coast cities.

BLACK STARR & FROST

SUCCESSORS TO

BALL, BLACK & CO.,

Fifth Avenue, Cor. 28th Street.

DIAMONDS, AMERICAN AND FOREIGN, WATCHES, JEWELRY, STERLING SILVER AND PLATED WARE, FRENCH CLOCKS, BRONZES AND FANCY GOODS.

CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

U. S. ARMY AND NAVY JOURNAL.
PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, JANUARY 22, 1887.

Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

ARMYNAVY.

THE MATERIAL FOR STEEL GUNS.

THE discussion upon the question of the most suitable material for steel guns, which was begun in the JOURNAL last October by the eminent engineer Mr. EDWARD BATES DORSEY, has been carried formally before the Naval Institute in a paper prepared by him on "Steel for Heavy Guns." It is worthy of the lively interest which it excited in the members of the Institute, and in the remarkable body of visitors, the most experienced makers of steel in America, who heard the essay. The time and the occasion of this reopening of an old and much talked of subject are both extremely well chosen. The growth of our iron manufacture in all its forms has gone on until its colossal proportions appear amazing when it is remembered that all this is done for one people and not for foreign trade. Our own needs, as the truest representatives in the world of the Age of Steel, called for the production of 5,600,000 tons of pig iron, 2,000,000 tons of Bessemer steel ingots, 1,500,000 tons of steel rails, and 200,000 tons of open hearth steel in 1886. The product of the current year will exceed these quantities by very large amounts. There is great activity in the business of those firms whose occupation is to build working plants for other people to operate. There are several houses in this trade who will supply to order any establishment desired, from a blast furnace to make 250 or 300 tons of iron a day, to a Bessemer steel works capable of turning out 1,000 tons a day. Anything from a tuyere at $50 to a complete plant at two millions can be contracted for with a day's notice, and these concerns are crowded with orders. Everything points to the probability, or even the certainty, that we are in the midst of one of those marked expansions of manufacturing facilities, which come periodically. Pig iron has risen about $3 a ton, and Bessemer rails about $5 during the year.

The occasion which Mr. DORSEY has seized for challenging attention is the entrance of this country upon the manufacture of *modern* ordnance and armor on a scale which, as a beginning, is suited to the greatness of our necessities. First of all we have the money in the Treasury to pay for all that we want, without incurring a debt and without curtailing even one cent of expenditure in other directions. We have some makers building mills for the manufacture of armor plate, and others for the production of heavy steel cannon. We have some contracts awarded by the Navy Department, and though their value is regarded only as a beginning and a promise of future work, they have been sufficient to encourage the investment of large sums of money in the determined effort to have every part of those ships made in this country. The investments which manufacturers are making to meet this opportunity will amount to a large proportion of, or may even equal the whole sum of these contracts.

Amid all these evidences of substantial and rapid advancement in the manufacture of military material, Mr. DORSEY brings us back at one step to the consideration of the fundamental question: What shall be the material of steel guns? The form in which we express the subject of his paper is not absurd. We cannot answer that question by saying that the proper material for steel guns is—*steel!*

Steel is a substance that is restricted within very narrow bounds as to its composition, but is almost unlimited as to the effects of slight changes in that composition. A steel that contains 98½ per cent. of iron may be soft, while the same material reduced to 98 per cent. of iron is hard. Carbon, manganese, sulphur and phosphorus in very small proportions exert a controlling influence upon the qualities of iron which, by itself, is a metal that can be cut with a penknife, about as pewter is cut, but by the addition of two per cent. of these substances is hardened to the unimpressible metal of the knife blade. In former times it was supposed that these delicate differences could not be produced with certainty except in the small way in crucibles, but the advances of modern industry are such that blast furnaces making 300 tons and steel works 1,000 tons a day can control both the composition and the physical qualities of their product with the greatest nicety. We published last February the record of 134 heats, producing 600 tons of steel in which there were only seventeen deviations from the standard.

This table is an excellent study for those who wish to understand the paper of Mr. DORSEY and the discussion that followed it. In former days steel was sometimes contracted for by composition, but now it is more usual to require only a certain physical standard, for it has been discovered that the effects of the alloying substances we have mentioned are about the same in kind, though not in degree, and that carbon, phosphorus and manganese are interchangeable to some extent as steel makers. The standard in the case given was:

Tensile strength per square inch, minimum	69,000 lbs.
Tensile strength per square inch, maximum	75,000 lbs.
Elastic limit	40,000 lbs.
Elongation in 8 inches	18 per cent.
Reduction of area due to this elongation	40 per cent.

Five failures were due only to an excess of tensile strength, varying from 174 pounds to 3,883 pounds over the maximum. These five blows were within the standard in all the other qualities. Two others were above the maximum in tensile strength and below it in elongation and reduction of area. One failed in reduction of area in addition to an excess of tensile strength, and one which was within the standard in all other respects was below it only in reduction of area. Only one fell below the requirement in tensile strength, and this was 1,374 lbs. short of the minimum.

We repeat these tests as an additional explanation of the ideas which Mr. DORSEY took as the basis of his essay. It is well established that when the tensile strength rises to a marked extent, as it does in hard steel, the elongation and reduction of area in breaking are lessened. That is to say, hard steel breaks with a certain suddenness, the degree of which is found to depend on the amount of increase in tensile strength. When the latter was 81,525 lbs., in our table, the elongation fell off to 12 per cent., and the reduction of area to 10.64 per cent., the average of the accepted heats being about 24 per cent. elongation and about 43 per cent. reduction.

Soft steel, on the contrary, stretches slowly out as the strain on it rises until its area may be reduced 40 per cent. and its length increased 20 or 25 per cent. The value of such qualities in an armor bolt are apparent at once.

Hard steel will bear a greater strain than soft, but this statement needs one explanation. When the reduced area of the test piece just before it

breaks is compared with the breaking strain the latter does not differ so much in the two steels. A hard steel, breaking at 100,000 lbs., with a reduction of 10 per cent. in area, and a soft steel breaking at 75,000 lbs., with its section reduced by 33 per cent., have about the same strength just as they break. The real difference is that hard steel has the virtue of holding itself together nearly in its original form until the breaking strain is reached, while soft steel has the virtue of drawing out slowly as the strain on it increases. These two qualities are not compatible with each other, but both are good. At present the practice of gun makers is to choose a rather hard steel. The Ordnance Office specifications for gun hoops quoted by Mr. DORSEY, require a minimum tensile strength of 100,000 lbs. per square inch, and the elongation sinks perforce to 12 per cent., though this is in 6 inch lengths instead of 8 inches, as in the tests quoted above. The Ordnance steel will resist wear better but fail more suddenly than softer steel. Cracks will spread through it more readily, and it is probable that the injury from external shocks will be more serious, but on the other hand a blow might deform a soft steel gun locally that would not affect one of hard steel at all, its force being entirely within the superior resilience of the hard metal.

For years past the problem of what steel of a given kind will do under different conditions, and what the best steel for various kinds of service is, has been studied with great care both for Ordnance and railroad purposes. A great variety of important facts have been observed, but there is no real agreement as to the meaning of these facts. On the one hand there are good investigations which show that a soft steel rail will wear longer than a hard one, and by *wear* we do not mean merely the total resistance to all destructive agencies, but in particular the resistance to the abrading effects of wheels. On the other hand, there are excellent examples of hard steel rods standing up under the shocks of bridge traffic, where soft steel gave way; and of hard steel piston rods for steam hammers resisting the peculiar and strenuous shocks natural to the use of those powerful machines much better than soft steel ones. Our valued correspondent, Mr. WILLIAM METCALF, has made the world acquainted with many of these remarkable experiences. He has stood as the defender of hard steel against the attacks of less well informed observers, and his opinion has a value that is not exceeded by the opinion of any other man in the world.

It is not for us, and we believe that Mr. METCALF, with his great experience of all varieties of steel, would not hesitate to join us in saying, that it is not for any man to prejudge this question, nor to urge on the Government the immediate choice of one material to the final exclusion of the other in making guns. Our factories can produce either kind of steel, practically at the same cost and in unlimited quantity. The Government has only to determine which is the better material, and therefore we sustain warmly Mr. DORSEY'S conclusion that guns of similar make should be ordered in both materials and subjected to crucial tests. There need be no delay awaiting the results of these tests, for the wishes of the Ordnance Office can be carried out with the certainty of having a material that is good in itself, and the discovery of a better would not condemn any stock we might have on hand.

There is no doubt that Mr. DORSEY has advanced a view of the problem of ordnance material which is consonant with the tendency of conviction and experience in the use of steel for bridges, roofs, and other engineering constructions. We believe that a successful contest of his views must take its stand on the peculiar requirements of ordnance service. The scoring effects of gas, the abrasion of the rifling, the bounding of shot in the tube, and even the possibility of attaining a gas pressure sufficient to cause flow in the soft metal, all these are to be considered as elements of the problem. Hard steel by its great elasticity will return to its original shape after an attack that the soft steel cannot meet without permanent deformation, but soft steel has its excellences, too. Hard steel, undoubtedly, has the field at present, but when one regards the behavior of some of our neighbors over the water, who pay $100,000 for a new gun and then act as if they were afraid to fire it, the suspicion cannot fail to arise that the experience with this costly material has not been reassuring. It is not probable that the history of European steel guns will ever be known correctly. If it could be discovered a comparison between the life of the Parrott guns and these high priced steel weapons would be interesting, and might not be unfavorable to the Parrott!

Mr. DORSEY speaks of mild steel as being cheaper than hard steel. The only difference is that soft or mild steel is the daily product of our great Bessemer and open hearth steel works. Practice makes perfect, and they produce what they want with a uniformity and freedom from failure that insure cheapness. But practice will make them equally perfect in turning out hard steel, and orders of any magnitude for hard steel would probably be taken without change of price.

In introducing the question of price into the problem we think Mr. DORSEY has shown judgment. While an "unburstable" gun is a desideration it is not practically attainable, and since we have to put up with guns for which a certain percentage of failures is to be predicated, it is undoubtedly well to make them of a material that allows of cheap renewals. While other governments have put their trust in high priced crucible steel ours has not lifted its eyes higher than steel from the Bessemer converter or open hearth furnace; those marvellous producers of cheap steel. Fortunately this limitation does not exclude us from any composition of gun material that may be desired. Both of these methods can make any grade of steel from razor blades down.

Ordnance steel with its higher carbon will cast with more certainty of freedom from bubbles than softer steel, but we are far from saying that our manufacturers cannot make perfectly sound castings of the softest metal desired. On the contrary, we believe that not only gun hoops but entire guns will be cast with perfect success in American works within two years—of any metal desired.

In the discussion of Mr. DORSEY'S paper, the Ordnance officers who spoke, and many of the gentlemen connected with steel works, opposed the essayist's argument. A few advocated his view, and it is hoped that he will reply to some of the criticisms advanced against him. His paper was learned and vigorous, and his subject worthy of the most thorough discussion.

It is now in order for one of our ordnance officers to state the argument for hard steel guns with equal clearness and force to those which Mr. DORSEY has shown. The discussion will be valuable, but it cannot supersede actual experiment nor lessen the force of his suggestion that the qualities of mild steel as a gun material should be tested thoroughly and by actual use.

THE RESPONSIBLE PARTIES.

AN article on the subject of Our Coast Defence recently appeared in the New York *Star*, edited by the Hon. WM. DORSHEIMER, whose able speech in Congress on this subject will be remembered. The excellent point is made that Congress, having exercised its power to tax is bound under its constitutional obligation to apply that tax to the objects and purposes for which alone it could be imposed. The constitutional provision, as interpreted by Judge STORY, provides that "the Congress shall have power to lay and collect taxes, duties, imports and excises (*in order*) to pay the debts and provide for the common defence and general welfare," etc. In other words, the right to tax is given to enable Congress to pay the debts and provide for the defence of the country. The debt is provided for, and yet, having imposed and collected a tax far in excess of this, Congress not only refuses to stay the hand of the tax gatherer, but neglects and refuses to apply the gathered and accumulating surplus to the "common defence," in defiance of the Constitution and in violation of its recorded oath to support, maintain and obey that Constitution. And yet the country is wholly and entirely defenceless. The *Star* says:

Cumulative evidence of the utterly defenceless condition of the country might be cited to fill a volume, but of what avail? Congress knows it. The country knows it. Foreign powers know it. The shameful truth is that our power to preserve the peace is measured only by our capacity to apologize, to explain, to beg and to pay. Who, then, is responsible for this humiliating and dangerous condition? But the leaders of the Democratic party in the lower branch of Congress are the responsible parties. We mean Mr. Speaker Carlisle. We mean Mr. William R. Morrison. We mean especially Mr. William S. Holman, and above and beyond all, because his position in Congress gave him the power to remedy this great evil, we mean Mr. Samuel J. Randall. He it is who has baffled every effort, thwarted every plan, fought every measure, that looked to fortifying our defenceless seaboard. Without any plan or idea of his own, he has fought the ideas of everybody else. Densely ignorant of the whole question of defences, he has refused to receive light and instruction from any quarter, and has blindly fought every suggestion for armament, no matter how patriotically urged or wisely conceived.

This language is as plain as it is truthful and has additional force, coming as it does from a representative democratic paper. Mr. RANDALL'S favorite method of staving off public action by referring the subject to board after board is fully explained, and the *Star* says: "Hon. SAMUEL RANDALL is now looking about to see how he can organize another board to find what to do and thus dupe and deceive the country a year longer. If Mr. RANDALL'S ignorance is genuine, and we concede that it is, then he never will learn what to do. If he has the capacity for information, knowledge, full and fresh, is all about him. There is no use of waiting for Mr. RANDALL to be informed. Let other men take the reports of the Gun Foundry Board and the Fortification Board and read them and they will know enough to go forward intelligently." The article concludes with a commendation of the Timby system of harbor defence.

THE Washington *Star*, referring to the recent trial of 1st Lieutenant CHAS. HUMPHREYS, 3d U. S. Artillery, at Washington Barracks, says:

There is considerable comment among Army officers upon the Court-martial. They are of the opinion that the question whether Lieutenant Humphreys's children should or should not have been permitted to skate on a pond in the grounds is a rather trivial one to have warranted a Court-martial. At first there was a general impression that there was something of importance back of the insignificant matter which has been made public that would come out in the trial, but as yet nothing of the kind has appeared. The members of the court are ignorant of anything of another character to be considered. Army officers are surprised that General Schofield should have treated the matter as serious enough to require a Court martial; but some are of the opinion that petty jealousies and domestic quarrels, which are apt to arise among families at Army posts, are at the bottom of the trouble.

Be this as it may, the question before the officer whose duty it was to convene the court was a plain one, so far as we understand it. The charge against the Lieutenant was a serious one—positive disobedience of orders plainly communicated—and we do not see what other course a Department Commander could well take with such premises. Strict obedience to the lawful orders of superiors is required of all in the Army from the highest to the lowest, and though in this particular case the specification to the charge may seem trivial, there can be but one opinion among Army men as to the gravity of the charge. It is for the court to determine the measure of guilt, and possibly it was the fear that there *might* be "petty jealousies and domestic quarrels at the bottom of the trouble," to quote the *Star*, which determined the Department Commander to bring officers of rank and experience from a distance whose judgments would of necessity be untrammelled by local surroundings. The expense arising from the detail has also been grossly exaggerated, but this is an unimportant question compared with the vital one at issue: "Were the lawful orders of a superior officer, plainly enunciated, wilfully disobeyed?" The Army cannot afford to have such a question disregarded, neither on the score of expense, nor the natural wish to conceal "domestic quarrels" from the public gaze.

PETITIONS from non-commissioned officers and enlisted men praying for legislation making the necessary service for retirement 25 years instead of 30, continue to pour into both houses of Congress. A large batch of them, which were forwarded to Senator LOGAN just previous to his death, were presented in the Senate by Mr. CULLOM on Thursday. Beyond the presentation of these petitions there has really been nothing done toward bringing about the legislation asked for, and there is, of course, no probability of action being taken during the remainder of the short session.

THE provision in the Army appropriation bill allowing mileage on land grant railroads and requiring officers to procure their transportation, where practicable, from the Quartermaster's Department, passed the Senate in the same form as it came from the House, so that this provision, which is as follows, is sure to become a law:

Provided, That in disbursing this amount the maximum sum to be allowed and paid to an officer shall be four cents

per mile, distance to be computed over the shortest usually travelled routes, and, in addition thereto, upon the officer's certificate that it was not practicable to obtain transportation from the Quartermaster's Department, the cost of the transportation actually paid by the officer over said route or routes, exclusive of sleeping or parlor car fare and transfers: *And provided further*, That when any officer so travelling shall travel in whole or in part on any railroad on which the troops and supplies of the U. S. are entitled to be transported free of charge, he shall be allowed for himself only four cents per mile as a subsistence fund for every mile necessarily travelled over any such last named railroad.

There is a question still in dispute, however, as to whether officers travelling with troops will be allowed mileage, the Senate having added to the bill an amendment allowing mileage to officers travelling on duty "without troops."

UNLESS an unusually large number of casualties occur in the Army between now and the 30th of June next, at least a dozen of the West Point graduates of this year will find themselves commissioned as "additionals" when the time comes for their assignment to regiments. At this writing there are eighteen vacancies in the grade of second lieutenant actually existing, one in the Engineer Corps, two in the cavalry, four in the artillery, and eleven in the infantry. Five more are assured, three of them by vacancies now existing on the disability retired list, and two by retirements on account of age, which will take place between now and June next. The graduating class numbers 65. Forty-two vacancies from unforeseen casualties must, therefore, occur within the next five months in order to give full second lieutenancies to the entire class—a number that can hardly be looked for.

NAVY legislation is at a standstill this week. The reorganization bill remains in the same unfinished state; but little progress has been made by the House Naval Committee on the Naval appropriation bill, and in the Senate not a single measure of interest to the Navy has been introduced, reported or otherwise acted upon.

LIEUTENANT T. J. CLAY, 10th U. S. Infantry, inspector of rifle practice, Department of Arizona, makes in a recent report some interesting statements, under the heads of Figure of Merit, Practice, Mounted Pistol Practice, Positions and Ranges, and closes with the following "Recommendations:" That the sight known as the "Rocky Mountain Buck-horn," be issued for trial; that there be an increased allowance of rifle, carbine and pistol ammunition (fixed); that the self-registering target be tried; that at the annual competitions additional matches, with prizes, be established for the officers and soldiers on the "distinguished list," and pistol matches, with prizes, for mounted troopers; that no preliminary practice be held over the skirmish range, as it thus becomes firing at known distances; that one-half the qualifying scores at 200 yards for sharpshooter and marksman, be made with the elbow away from the body—at 300 yards, half the scores to be made in the kneeling position, and half at the long ranges in the prone position; that those officers and soldiers on the "distinguished list" be excused from *compulsory* practice and re-qualifying, their previous scores being used in computing the company figure of merit, and that *all officers* having once qualified as sharpshooters, or who have won the marksman's pin, be allowed to retain their standing without being required to re-qualify each year. Lieutenant R. F. Bates, A. D. C., inspector of rifle practice in the Department of Dakota, in his excellent annual report recommends:

1. That in all competitions the number of runs for skirmishers be increased from two to four, and the result divided by two, which result shall be credited to the skirmisher in his total for that class of firing.
2. That hereafter instead of issuing, annually, to every sharpshooter and marksman certificates as such, the certificate first issued be endorsed by the respective post commander where renewed qualification is made, giving the score made; and that certificates only be issued for first qualification.
3. That the necessary legislation be asked for to secure to all enlisted men participating in competitions, commutation of rations at the rates prescribed for soldiers travelling on duty.
4. The issue of a six seconds sand glass, for skirmishing.
5. That a suitable silver medal be given to the competitor in the Department competition making the highest aggregate score in the two days known distance firing.
6. That distinguished marksmen be given a suitable medal, badge or ribbon, to be worn by them on occasions of ceremony. At present the Army contains several of this distinguished class who have nothing to show for the many years of patient study and labor they have given to this subject.

THE total number of letters transported last year in all quarters of the globe was 5,849,000,000, to which may be added about 1,077,000,000 post cards, 4,610,000,000 articles of printed matter, and about 104,000,000 samples, making in all 11,640,000,000 pieces of mail matter handled by the 489,000 officers and employees in the 154,000 post offices of the world. Total pieces mailed in Europe, 7,249,300,000; America, 3,819,000,000; Asia, 389,600,000; Australia, 151,400,000; Africa, 30,700,000.

IN presenting from the Senate Committee on Naval Affairs the bill (H. R. 1085) to place Albion S. Keith on the retired list of the Navy, which the Senate passed last week, Mr. Dawes said:

This cadet graduated in 1883 among the very first cadets in his class, a very promising young man in every respect, of whom the Academy according to the letter of the superintendent, had great expectations. I was one of the visitors that year, and my special attention was called by the faculty to the promise of this young man. He was put to sea under the regulation which requires two years' service at sea, and when abroad was taken with inflammatory rheumatism. His quarters were in a very exposed position in the ship. He lay there and the surgeon of the ship did not seem to be aware of the perilous condition he was in, and, without reflecting upon the surgeon, he was wofully neglected. He tried to get permission to be sent to a hospital in the foreign port, but for reasons that were satisfactory to the surgeon, the surgeon insisted upon keeping him on board the ship. He was kept under a promise that when they got to a better port he would be put in a foreign hospital, but at that time when the surgeon of the vessel came to examine him he found him, to his utter astonishment, a perfect wreck. He was brought out of the vessel and sent home by a special steamer, and is now the most perfect wreck that ever one saw in the world. He came home and on his bed was examined at the end of the two years, and then passed, under those circumstances, the twelfth in a class of forty-three. But they have been obliged to discharge him from the Service because of his utter wreck. He is upon crutches and has to be helped from door to door, and there is no prospect of his ever being better, and he probably will not live more than a very brief time. All of the departments recommend that he should be an ensign retired. Technically under the law which was passed that very year those who graduate in the four years' course must serve two years at sea before they get a commission. That is the reason why he is not put upon the retired list without action of Congress. The Secretary of the Navy, the Superintendent of the Academy, the surgeon, the commander of the ship, and all join in saying that justice requires that he be put where he would have been if he had had the commission of ensign.

THERE is no end of new magazine guns. The *Horse Guards Gazette* thinks it has found an English repeater "in comparison with which neither the Schuloff nor any other foreign type has the smallest claim to be considered the infantry arm of the future." The Paris *Matin* reports on two new systems of repeating rifles. One, invented by Captain Pralou, of the artillery, has great penetration combined with rapidity of fire; and at a distance of 600 to 800 metres great accuracy is obtained. The second rifle constructed by Masin, the inventor of the well-known electric lamp, is said to fire more quickly than any other hitherto invented, since all cartridges in the magazine can be used up without taking the rifle from the shoulder for a single moment. The *United Service Gazette* says: "It is reported that the British Government has decided to adopt Herr Schuloff's gun, and to this end the inventor has arrived in England to explain the nature of his weapon, and doubtless his views on magazine guns will be of especial value to the Small Arms Committee now sitting at the War Office."

THE machine gun has been for the first time recognized as part of the regular equipment of the British Army, by the organization at Mandalay, Burmah, of a battery of Gardiner guns. In an article on the employment of these guns, the Bombay *Gazette*, says: "The machine guns in Burmah would be far more effective under infantry control, for the commander of any important system of posts, having to send out numerous flying expeditions, could attach a gun to any column he thought might require strengthening; whereas, with a battery at headquarters, the guns will be under the control of the central authority only, and will be sent out by him for use on particular expeditions. The utility of these guns in the defence of stockades or redoubts of the description used in Burmah can hardly be over-estimated. A single gun would enable half-a-dozen men to be as powerful for defence as a company of infantry, and as these jungle forts generally only have one open approach the concentrated fire would be employed in the most effective way."

ACCORDING to the Cheyenne *Leader*, Mexico has a very effective way of recruiting. A colonel, being short of men, sent fifty troopers into a Sonora town and ran down thirty or forty citizens, locked them up on a bogus charge of drunkenness, and had them "sentenced" to serve in the army for one year. All this took less than half a day, but there was more or less fun while it lasted.

GENERAL BRAGG is opposed to the Senate amendment to the Army appropriation bill allowing Gen. Sherman the service of a general service clerk. He considers, however, that he should have a clerk and will offer an amendment to the legislative bill for the purpose, but he will endeavor to have the amendment to the Army bill stricken out on the ground that the corps of Army clerks is already too large.

CAPTAIN R. H. PRATT, U. S. A., Superintendent of the Indian Industrial School at Carlisle, Penn., has secured the Academy of Music, New York City, for Friday evening, Feb. 4, for the purpose of illustrating his system of instruction. One hundred and twenty-five Indian students will give examples of the various industries, together with speeches and songs, and a debate on the question: "*Resolved*, That the Indian be exterminated." Music will be furnished by the school band and choir.

"ORDNANCE EXPERT" sends to the New York *Herald* an argument in favor of the use of cast iron in place of steel for heavy guns, citing a variety of instances to show the unreliability of steel and setting against these a similar number of citations from the record of cast iron guns, one of which, an 8-in. rifle, was, in 1871, "fired more than one thousand rounds and was repeatedly under pressure of more than forty tons to the square inch." He adds: "Within the past two years a 12-inch smooth bore Rodman gun of 25 tons weight has been fired more than 300 rounds, with 130 pound charges, and is in good condition. Since 1886 a 12-inch breechloading rifle, entirely of cast iron, has been fired 137 rounds with charges producing 15,000 to 19,000 foot tons energy, and is still serviceable. A 100-ton cast iron gun, made for the Italian Government, of 17.72 bore, carrying a 2,200 pound ball and fired by a charge of 485 pounds of Fossano slow burning powder, has been fired 400 times, while no steel gun of over 12 inches has ever been fired over 135 times."

THE Omaha *Herald* says: "No bloody Apache who ever wandered red-handed in the Chiricahuas with scalps at his belt was ever hideous as the foe that now, in the person of the anarchist, menaces the welfare of the country. Armed with deadly weapons, equipped with an unreasoning hatred, influenced by fancied wrongs, the frothing monomaniac assaults all that is pure and good. The leaders, secure in jail, have nothing further to dread. They have lost their fear without losing influence, and others with tongues as malignant and hearts as pitiless have risen up to give voice to their fiendish theories. There is one remedy. The remedy applied to vermin and disease. Extermination."

THE Army and Navy will be delighted to hear that General "Joe" Hawley is to be sent to represent the good State of Connecticut for another six years in the Senate of the U. S. It would be a misfortune if a man so honest, able, and everyway capable, should be deprived of an office for which experience has fitted him because of divisions of sentiment in his own party. It is bad enough when the changes in political control deprive the country of the services of such men. The place of General Logan in the Senate is to be filled by Chas. B. Farwell, who has served his State in the lower House of Congress for several terms since his first election to that body in 1870.

BREVET CAPTAIN JAMES W. DIXON, late 1st Lieut. 4th Artillery, has published a little volume entitled "The Rank and File of the United States Army." Many facts are found in it that are of value to the soldier or to him who contemplates enlisting. The life of the soldier has been carefully summarized, and the subject of Post Schools is treated at length. It will be interesting to many soldiers, as well as to those civilians who are interested in military affairs. It may be had (price 25 cents) by addressing the author at Flushing, L. I.

THE Congressional Centennial Celebration Committee has decided in reference to the centennial of the adoption of the Constitution that there shall be an address and some kind of civic and military display to be agreed upon in detail hereafter. As to the 400th anniversary of the discovery of America by Columbus, it was determined to refer everything to a joint committee of the two Houses of Congress.

THE San Francisco *Report*, ever mindful of details, says: Gen. Miles's headquarters are to be in the old St. Vincent's College, Los Angeles; a large building, with an area of 8,000 square feet. Gen. Miles will bring with him eleven staff officers and forty clerks and attaches. Eight thousand square feet will give to each of these fifty-two gentlemen 154 square feet; or, in other words, a space of 14x11 feet.

THE Board of Army Officers, Major James Biddle, 6th Cavalry, President, auditing the War claims of certain States and Territories, are slowly but surely advancing with the work. They finished with the claims of the State of Nevada this week and are now engaged on the Texas claims. Several other States and Territories, with their thousands of claims, are yet to be gone through with. It is estimated that at least three years will be required to complete the work.

A MEETING of the Executive Council of the Military Service Institution will be held at Governor's Island Wednesday next, Jan. 26, to elect five vice-presidents, a secretary, a treasurer, an assistant secretary and a vice-treasurer.

THE American Society of Civil Engineers held its annual meeting in New York this week, and discussed many interesting scientific matters.

THE decision of the Supreme Court in the Navy longevity case of Woodward, is still in the hands of Justice Harlan

THE New York *Herald* publishes a letter from Mr. J. R. Haskell and accompanies it with a fierce editorial attack upon Gen. Benét for nullifying an act of Congress by refusing to manufacture a multicharge gun, for which Congress made a special appropriation. The question as to the merits of the gun, the *Herald* contends, does not enter into the controversy. Under no circumstances should Gen. Benét assume to set aside the will of the legislative body. It publishes in this connection the following letter sent to it by Mr. Haskell and written by "a very distinguished officer, a veteran of the two wars:"

MY DEAR SIR: I have from the outset felt an interest in the success of the multicharge gun of which you are the inventor, and I have read with indignation the evidence of malicious intent to prevent you from succeeding in the effort to establish a new weapon of warfare.

The ingenuity and deviltry resorted to by our public servants in the departments at Washington to defeat and destroy the efforts of the lawmakers for the people can never be realized except by those who have gone through a sickening experience such as you are passing through.

Your case is so one sided and the treatment accorded to you so grievously unjust that feelings of wonder and astonishment are aroused because the author is not brought to judgment.

The Ordnance Department is an anomaly not found in any other country apart from other staff departments. Ever since its organization, in 1838 (a personal matter at that time), it has always maintained the "softest" stations, the most liberal pay, and the most exclusive, clannish character in the Army. Excepting a few officers, such as Benton and Laidley and others, the history of the ordnance officers is a history of war with native inventive talent and obstructors of American ingenuity.

It has always maintained its "ring" character and claimed the power of nominating who should be examined in the line of the Army for transfer to its list.

In the paper sent me you have fully established your claim for attention and services, and I sincerely hope justice may be speedily awarded to you.

THE Senate on Thursday ratified the treaty with Hawaii, extending the reciprocity convention for seven years, with the following important addition: Article II. His Majesty the King of the Hawaiian Islands grants to the Government of the United States the exclusive right to enter the harbor of Pearl River in the Island of Oahu, and to establish and maintain there a coaling and repair station for the use of vessels of the United States, and to that end the United States may improve the entrance to said harbor, and do all other things needful to the purpose aforesaid. The adoption of this addition was opposed by the Senators from California, on the ground that it would jeopardize the acceptance of the treaty by Hawaii.

A ROYAL warrant which took effect on January 1, establishes the following rates of pay for British Army officers on the retired list, according to length of service: Lieutenants, $750 to $1,000; Captains, $600 to $1,000; Majors, $600 to $1,500; Lieutenant-Colonels and Colonels, $1,250 to $2,250; Maj.-General, $3,000 to $3,500; Lieut.-General, $3,750 to $4,250; General, $4,500 to $5,000. Among the new provisions as to compulsory retirement is one directing that a 2d Lieutenant, a Lieutenant, and a Captain shall, subject to certain conditions, retire from the army on the retired pay on attaining the age of 45, or after being unemployed for five years continuously, whichever may first happen. A Major is to retire on retired pay on attaining the age of 48, or after being unemployed for five years continuously. A Colonel who, on attaining the age of 55 (or of 58 in certain cases), may hold the temporary rank of Major-General, is to retire on ceasing to hold such temporary rank, or on attaining the age of 62, whichever may first happen. After 10 years have elapsed from the date of an officer (other than an officer of Royal Engineers) being seconded or lent to hold a colonial military situation, if he does not rejoin his regiment, he is permanently to retire from the army. An officer placed on retired pay, whose service has been in all respects satisfactory, may be granted honorary promotion to the rank next higher than that held by him, provided he has completed 20 years' full-pay service, and have served on full pay in that rank. Honorary promotion may also be granted as above in a special case, where an officer has been compulsorily retired on account of age or non-employment, and has been prevented from completing 20 years' full-pay service. Officers may be promoted without regard to vacancies after completing the following terms of full-pay service: 2d Lieutenants, three years; Lieutenants, eleven years; Captains, twenty years; Majors, seven years; Lieutenant-Colonels four years. A Colonel will be eligible for promotion to a vacancy on the establishment of Major-Generals up to the age of 55. If on attaining that age, he will, while holding such temporary rank, be eligible for promotion up to the age of 62. A Colonel who held the rank of Lieutenant-Colonel before Oct. 1, 1877, will be eligible for promotion to Major-General up to the age of 58, and if, on attaining that age, he shall hold the temporary rank of Major-General, he will be eligible for promotion up to the age of 62. There are no material changes affecting general officers. The establishment of effective general officers is reduced by the following, one-third of the vacancies to be absorbed until the reduction is completed: Generals, 10; Lieutenant-Generals, 35; Major-Generals, 95; total 140. Added to these are 3 Generals, 8 Lieutenant-Generals, and 22 Major-Generals in the Indian Staff Corps. There are provisions for the amalgamation of the general officers of the Royal Artillery and Engineers on the Indian lists with those on the British lists.

THE New York *Herald* has an hysterical article on the proposed new barracks at Chicago, in which a few facts and still fewer ideas are elaborated into a sensational article of four columns. All the information we are able to gather from it is that the land offered by the Commercial Club cost $250 an acre. The bluff rises nearly eighty feet above the level of the lake for the entire mile and a half of the lake front of the land. The tract is thus on an elevated plateau, broken by six picturesque ravines, where mineral springs pour forth enough water to make delightful little rills. Three of the ravines converge at the shore of the lake, where there is a shelving beach. This is on the northern end nearest Lake Forest. Messrs. Holabird and Roche have prepared plans for building, which contemplate about seventy-five structures, including officers' quarters, headquarters, soldiers' barracks, storehouses, stables and gun sheds. These structures will be mostly two stories high, in the English manor house style of architecture, with sloping roofs and peaked gables. The headquarters alone will be three stories high. All the structures for the officers will be built of stone, with slate roofs. The soldiers' barracks will be a series of plain buildings with dormitories, each to accommodate 100 men. The parade ground will be magnificent. The Highwood review would equal the Easter manœuvres at Aldershot. The *Herald* gives what purports to be a list of the members of the Commercial Club and says: "Chicago has at least sixty well scared rich men. They want a garrison of Regular soldiers commanded by West Pointers. Their confidence in the State militia is nil. The Chicago millionnaire wants twelve companies, and he believes a company ought to contain a thousand men at least. Do these people represent the true sentiment of the city?" Of which we may say that if they don't represent public sentiment they will before many years have passed over our heads. A correspondent of the JOURNAL makes the happy suggestion that the new post be named after General Logan. This is so obviously proper that we expect to see the suggestion adopted without discussion when the proper time for christening arrives.

THE mileage fund for the Army for the current year is running pretty low, and the probabilities are that a deficiency appropriation will have to be asked for to carry the Department through until the end of the fiscal year. The total amount appropriated for the purpose was $130,000; considerably over half that sum has already been expended. The fact that the amount is running low is not an indication that more money has been expended for mileage this year than previous years. The Pay Department has been compelled to pay for both mileage and transportation from the fund, whereas under the old eight-cent mileage law officers frequently took transportation instead of mileage, which was formerly furnished by the Quartermaster's Department.

THE Burlington *Free Press* publishes a long letter from Gen. W. F. Smith, dated College Point, L. I., July 30, 1864, addressed to Senator Foote of Vermont. In it Smith asserts that his removal from command of the 18th Army Corps by Gen. Grant at Bermuda Hundred was due to the fact that Grant obtained whiskey by surreptitious methods and drank too much of it; that Gen. Butler discovered the fact and went to Gen. Grant and threatened to expose his intoxication unless the order removing him instead of Smith was revoked. Of this the *Free Press* says:

It will strike many persons as curious that, if the commander of all the United States armies wanted whiskey for his own use he should be driven to any "surreptitious" methods to obtain it, when his subordinate generals appear to have been able to supply themselves abundantly. To some, doubtless, the question will occur how far it becomes a host to disclose and criticize the drinking of a guest to whom he supplies liquor. Gen. Grant was at this time superintending the movements of three or four armies with an ability not consistent with the belief that he was in any besotted condition of mind or body. On the whole it will be admitted that this letter, now for the first time printed in full, affords remarkable confirmation of the statement of Gen. Grant's reasons for relieving Gen. Smith, given six years ago by Gen. Badeau, in his Military Life of Gen. Grant, a volume, the manuscript of which it has been understood passed under Gen. Grant's eye before it was printed. The characteristic of extreme captiousness, thus depicted in Gen. Smith's character, was undoubtedly a very great hindrance to his highest success. Without it, the war would perhaps have closed on few records more brilliant than his.

THE first train over the railroad connecting Prescott, A. T., with the Atlantic and Pacific R. R., and establishing communication between Prescott and the rest of the world was run on the 1st of January.

A RESOLUTION was offered in the Senate on Wednesday by Mr. Manderson and referred to the Committee on Printing, authorizing the printing of Lieut. Henry T. Allen's report of his explorations in Alaska.

AN interesting and important hearing was held on Wednesday on the subject of coast defences by the House Sub-Committee on Fortifications. Gentlemen representing the New York Chamber of Commerce and Board of Trade and Transportation, and delegates from New Haven to the National Board of Trade, were present, who all urged the necessity of the Government's taking action in the construction of coast defences, and recommended the adoption of rams and torpedoes and mortar batteries, because they could be provided with rapidity and were very effective. They held that it would take too long to construct the vessels and guns, and that the same results could be secured in rams, torpedoes and mortars. The steel guns, etc., would take five years to produce, while the other defences could be provided in a year. They thought ten rams should be provided for New York harbor, while five would be sufficient for the harbors of other cities. The rams would cost about $250,000 each. Mortars could, by the use of the charts of the city and harbor, be placed in a well, if need be, and by connecting its position by telegraph with an elevation in the distance, the operator of the mortar could throw a shell within a space of fifty feet, and no sight would be required, as with a gun, and everything would depend on the smoke or fog or darkness. Mr. Webb, an old shipbuilder, believed that oak hulks were as good as steel in warfare, as the modern guns would crush the thickest steel armors when the vessel was moving at a higher speed, and the oak hulls were capable of greater speed than armored ones.

THE Assistant Adjutants-General of the Army are energetically engaged in interesting Senators and Representatives in the bill introduced last week for the reorganization of the Adjutant-General's Department. They have encountered no opposition thus far, and although the session is pretty well advanced, they are quite hopeful of bringing the measure to a successful issue before March 4th.

THE House Military Committee has reported with favorable recommendations the bills authorizing the President to return the "Twiggs's swords," captured by Gen. B. F. Butler, to the rightful owner thereof at the time of capture, and appropriating $300 for the purchase of Gen. Price's portrait of Gen. Geo. H. Thomas.

LATE ARMY ORDERS.

Lieut. A. R. Paxton, 15th Inf., will report to the superintendent of the recruiting service for temporary duty at David's Island (S. O., Jan. 24, H. Q. A.)

The leaves granted Lieut. John Carland, 6th Inf., and Major A. M. Randol, 1st Art., are extended two months on surgeon's certificates (S. O., Jan. 21, H. Q. A.)

A. G. C.-M. will meet at Fort Columbus, Jan. 24, Detail: Capts. Wm. B. Beck, 5th Art., and Henry P. Birmingham, Asst. Surg.; 1st Lieut. Anthony W. Vogdes, Wm. R. Hamilton and Samuel E. Allen; 2d Lieuts. Harvey C. Carbaugh and Avery D. Andrews, and 2d Lieut. W. P. Newcomb, 5th Art., J.-A. (S. O. 13, Div. A., Jan. 20.)

Leave for 15 days, to commence on or about Feb. 1, is granted Capt. Henry P. Birmingham, Asst. Surg., Fort Columbus (S. O. 14, Div. A., Jan. 21.)

The leave of Capt. G. F. Wilson, 12th Inf., is extended one month, and that of Lieut. J. W. Duncan, 21st Inf., two months (S. O., Jan. 22, H. Q. A.)

COURT OF CLAIMS.

IN the U. S. Court of Claims on Wednesday were argued and submitted for opinion three claims involving the right of an officer to mileage when travelling to a new post of duty at the expiration of a leave of absence. The cases are those of 1st Lieut. Thomas G. Townsend, 6th Inf.; 2d Lieut. Wm. English, 17th Inf., and 1st Lieut. C. G. Ayres, 10th Cav. These three officers were in Washington on leaves of absence when they received orders to their stations. They were refused mileage under Par. 2427, Army Regulations, as follows:

"When the station of an officer, either serving with or without troops, is changed while he is on leave of absence, he will be entitled on joining his new station to mileage for the *excess only* of distance from the place of receipt of his order to his new station over the distance to his old station."

The counsel for the claimants contend that the following regulation, Par. 2433, conflicts with the regulation above referred to, and also with the law, and therefore maintain that neither can have effect:

"When an officer on leave of absence is ordered to rejoin the station or troops he left, he will not be entitled to transportation or mileage unless the public service requires the performance of a duty en route, in which case the order shall specify the particular duty, the necessity therefor, and the point at which the duty will commence and end."

COLONEL JOHN HAMILTON, U. S. A.; Col. Heywood; U. S. M. C.; Lieut. E. L. Zalinski, U. S. A.; General T. F. Rodenbough, Gen. R. H. Jaekson, U. S. A., Majors J. P. Sanger and Wallace F. Randolph, U. S. Army, were among those attending the silver reception of the 23d N. G., S. N. Y., in Brooklyn on Thursday evening.

THE nomination of Major Wm. P. Chambliss has been returned from the Senate to the President for correction, to read as follows: "Wm. P. Chambliss, late Major, 4th Cavalry, to be Major of Cavalry." The Military Committee object to the words "to rank as such from March 30, 1864."

CAPTAIN G. E. OVERTON and family are at the "Woodmount," Iowa Circle, Washington, for the winter.

THE colonel, a man of a few words, is not apt to brook any discussion from his subordinates at the meetings of the staff officers, but Major Brummer, who always has opinions, offers some, when the colonel brusquely interrupts: "Your opinion, my dear major, we would prefer best to see among your posthumous papers."—*Tableau.*

THE STATE TROOPS.

CONDITION OF THE NEW YORK GUARD.

THE annual reports presented to the Governor of New York at the opening of the New York Legislature show an aggregate of 650,000 men in the State subject to military duty under the requirements of the Constitution of 1792. The organized force numbers 12,425, subdivided as follows: General and staff, 48; artillery, 461; infantry, 11,916. The following is a summary by Brigades:

Brigade.	Present.	Absent.	Agg.
First	4,253	1,132	5,385
Second	2,515	393	2,937
Third	1,842	366	2,208
Fourth	1,553	324	1,877
Totals	10,163	2,214	12,377

The total strength at the muster of 1885 was 12,276. This force is considered sufficient and the numerous applications to form new separate companies are not favorably considered. Indeed it is recommended that for the good of the service the 4th Battery, of Troy; the 9th Separate Company, of Whitehall; the 29th Separate Company, of Oswego, and the 39th Separate Company, of Mohawk, be disbanded. Otherwise the separate companies of the State, generally, are in very excellent condition, and it is suggested that an energetic, competent officer be detailed to make a tour of all these companies at least twice a year, and give them the benefit of his experience and knowledge.

Col. McGrath, Asst. Inspector-General, recommended the disbandment of the 8th New York, but the Inspector-General does not concur in this suggestion. He says:

The 2d Brigade, of Brooklyn, has been provided by the county of Kings with an ample and fine parade ground. The organizations of this brigade should be directed on every occasion of inspection and muster to use this ground, where the inspecting officer would be able to see the drill, and judge of the efficiency of the officers and guides. No one is a stronger advocate of day inspection than myself, but until proper provision can be made, and so long as the choice of locality is left with regimental commanders, I consider the evening, and in the armory, as very much preferable to the afternoon, and the street. I think that in regiments and battalions, field music should be no part of company organizations, but that they should be enlisted by the commanding officer of the regiment or battalion.

The reports of the Assistant Inspector-General on the last annual inspection, show that to a very large extent such proper discipline and military courtesy as should does not exist throughout the National Guard. It seems to me that this is the very foundation on which to build up a truly efficient and reliable body of State troops. It has frequently been suggested that moral suasion is all-sufficient to accomplish discipline in the National Guard. Nothing should be left undone that can tend to arouse the pride and enthusiasm on the part of the men. I suggest the following as not only reasonable, but absolutely necessary for success:

Prompt and regular attendance at drills, or a sufficient explanation in case of absence.

Attention and prompt obedience to all orders prescribed by the Code or Regulations, and such as emanate from other superior authority, written or expressed.

Saluting of all officers whenever and wherever met, while on duty or within the enclosure of their armories.

Personal neatness as regards dress, and cleanliness of equipments.

That a more perfect control does not exist is solely due to the absolute incompetency of commanding officers, more particularly of companies.

The State service uniform does not, in my opinion, meet the requirements of a service dress. I consider the coat as unsightly and cumbersome, being a sort of a nondescript, neither handsome, dress or fatigue. What I think experience has fully proven to be requisite, is a neat-fitting, substantial five-button cloth blouse, similar to that now worn by the 22d Regiment as fatigue, instead of the present garment, and that, together with this, should be issued a fatigue cap, and canvas helmet without ornament or spike. For mounted men, instead of a blouse, a close-fitting jacket. This uniform, with the blue overcoat, will, I think, be acceptable to all, and I am sure will be more sightly and serviceable. While the style and color of uniforms for all organizations should be alike some distinctive mark should be given to each.

The issuance of new and improved arms will be continued during the year.

A great obstacle to advancement in proficiency, particularly in regiments, is the positive incompetency or inefficiency of company commanders. Some have appeared absolutely ignorant of their duties, others, while possibly able to pass the required examination, are quite as unfitted as their ignorant brethren.

With reference to this statement, the Adjutant-General says:

It is principally due the opportunities for practical instruction presented at the Peekskill camp that it can be said without exaggeration that the State now has a force which as a whole is well drilled, well disciplined, and can be safely relied on for prompt and efficient service whenever called upon. It is true, as is shown by the Inspector-General's report, that there are some marked exceptions to be made in this statement, but at the same time it must be remembered that there are many notable instances of organizations that have attained a very high standard of military qualifications.

Gen. Porter reports that the material of which the Guard is composed is admirable, and, as a general rule, well represents the industry, prosperity, and integrity of the State. Thanks to the State camp, a great improvement has been made in the condition of the force. Regarding equipment, the Adjutant-General says that the only serious objection to the Remington rifle is that it does not correspond in calibre with the arms issued by the General Government, and there is no doubt but that a magazine gun will eventually be adopted for the Army. In relation to uniforms he recommends that new overcoats of the cloth and pattern prescribed by the regulations should be procured without delay. A blouse also is a part of the regulation uniform, and is what the troops actually require. It is suggested that the purchase of overcoats and blouses be made the subject of a special appropriation. On the subject of armories, the General says: "As a rule all the organizations are quartered in suitable armories, except in New York City." The remarks upon the several regiments and batteries are as follows:

7th, New York.—Per cent. present, 93.69.

The inspection and muster of this regiment resulted in adding another to the many evidences of thrift, zeal and organization pride already achieved. 966 officers and men present from an aggregate of 1,037 is a grand showing. This in addition to the fact that this was the largest number in both present and aggregate in the history of the regiment, is an event of which they may feel justly proud. In all respects it is a complete organization: presenting a fine military appearance, thoroughly disciplined and efficiently officered. They should at once be furnished with new equipments to make their outfit complete.

8th, New York.—Per cent. present, 46.50.

Anyone interested in the National Guard could not have witnessed this inspection without deep feelings of sympathy and regret. To have seen an organization, once justly so proud of its existence, present such a pitiable appearance, was in the extreme sad. While it is not my custom, nor do I believe in extolling officers for the performance of *duties;* I consider that it would be unjust to pass on the condition of this regiment without making mention of the devoted efforts of Col. George D. Scott, whose courage and spirit, through years of adversity, deserve special mention. It is my judgment that the 8th Regt., in its present condition, is of no value to the State, and unless immediate assurances can be given of its possible recuperation, it should be disbanded for the good of the Service.

9th, New York.—Per cent. present, 72.74. General appearance, condition of arms, etc., very good, and discipline vastly improved, as compared with past inspections. Dead wood should be eradicated and more particular attention given to methods of recruiting in the future.

11th, New York.—Per cent. present, 76.48. Shows marked and satisfactory progress, but much work remains. Incompetent officers should be got rid of, including the officer commanding Co. B, who "should either resign or be ordered before a State Examining Board to prove his ability." More attention should be paid to personal neatness and setting up, and particular attention should be directed to par. 16, School of the Soldier, at the opening of every company drill.

12th, New York.—Per cent. present, 87.34. "Great absence of uniformity in adjustment of equipments, and in some companies no apparent attempt to present themselves in a neat, soldierly manner. The regiment is otherwise in a healthy, prosperous condition; in excellent hands, and must continue to improve."

13th, Brooklyn.—Present, 81.58 per cent. "Notwithstanding the very serious disturbances existing in this regiment, the result of the inspection was creditable. The men seemed to have made special effort to present themselves properly, and with few exceptions were fully rewarded for their efforts. The regiment is a good one, and should rate among the best of the National Guard organizations. But its proper position will never be attained until officers and men thoroughly comprehend the true meaning and understanding of the word 'discipline,' and they become in fact, as well as in name, soldiers. The regiment is well equipped; uniforms and accoutrements in very good condition."

14th, Brooklyn.—Present, 84.64 per cent. "With very little more care on the part of some of the company officers this regiment would have made a very clean inspection. Carelessness on the part of company commanders in not properly overlooking the men prior to coming to the ground was the cause of destroying what might have been an excellent appearance. The regiment is efficient and reliable, ably commanded, and with proper response on the part of company officers should prosper."

22d, New York.—Per cent. present, 85.31. Presented a very neat, soldierly appearance in their fatigue uniform. Men steady and attentive, giving appearance of thorough discipline. Equipments new and carefully adjusted. No defects worthy of note were observed, it being apparent that all companies were combined to honor the regiment. The inspection was creditable to all concerned.

23d, Brooklyn.—Present 97.12 per cent. "The very elegant inspection of this regiment demonstrates most thoroughly how a well organized and well disciplined regiment can appear in the State uniform. The very neat appearance, perfect adjustment of equipments and soldierly bearing of all are facts of which the regiment may feel justly proud. While the percentage present is grand as a matter of record, and so far unexcelled by any regiment or battalion, it seems to me that the very commendable zeal exercised to obtain a full attendance was overdone in bringing men to the armory for muster who should have been at home in their beds. Laudable deeds should not be carried to extremes."

32d, Brooklyn.—Present 74.60 per cent. "The condition of the regiment has changed, but little during the past year, either in numbers or other evident improvement. What is noted in many other organizations is apparent here, that is, the apparent remissness of company commanders in properly supervising the dress and equipment of their commands. All deficiencies and errors are properly chargeable to them and no one else. Until an improvement is made in this quarter, approach to perfection will never be attained. It is hoped that the prospects of soon occupying a new and commodious drill hall will be an incentive to a better condition of affairs in the 32d. Cos. B, C, F, G, I and K are below the minimum."

47th, Brooklyn.—Present 89.08 per cent. "For a regiment which has been housed for a year in so magnificent an armory, and only recently furnished by the State with new equipments, the 47th did not present as neat and soldierly appearance as it should have. It seems almost as if in some of the companies the neglect to properly equip the men and carelessness in dress was purposely to invite adverse criticism. Discipline for the most part is very poor, giving evidence of either incapacity or carelessness on the part of commanding officers of companies, which should be looked to. A regiment composed of such good material, so comfortably quartered, and with an efficient field, would have made a much better showing if company officers had evinced a proper pride of appreciation."

65th, Buffalo.—Present 71.91 per cent.

Condition deplorable; the companies (with the exception of F, which made a very creditable appearance) having paid no attention to the order for inspection. Appearance of the men slovenly, and everything giving proof of lack of discipline. "Attention to military courtesy seems to have been entirely ignored. Officers were met and passed by enlisted men, as if beneath their notice. The commanding officer exceeds his proper limit in assuming to dictate to company commanders in regard to the internal affairs of the company, thus lessening the respect of their men. The battalion drill was in strong contrast with the appearance and demeanor of the regiment during the ceremony of inspection. All movements were promptly and correctly performed; the instruction of guides particularly reflecting credit."

69th, New York.—Per cent. present, 75.17. Material can be developed into one of the most effective organizations in the State. Discipline, poor; company commanders failing to properly govern their men and the companies making a poor appearance when under their supervision, though the regiment in review, under command of the colonel, was very steady and presented a soldierly appearance. A regiment with so valiant a record should make a better showing, which it will never do until the company officers attend to their business.

71st, New York.—Per cent. present, 73.74.

The very decided improvement in the general appearance and discipline is in the extreme gratifying. While it is a fact that this inspection was the best, as compared with several past years, taking the regiment as a whole, it is a matter of regret that its further approach to perfection is restrained by Cos. B and F. How commanding officers can receive and retain commissions with so little apparent knowledge of their duties is a wonder to me. In all other respects the organization is to be congratulated for its prosperity.

74th, Buffalo.—Present, 87.04 per cent. Inspection gratifying and a decided improvement. General appearance good. Military courtesy deficient, and schools of instruction required in drill, some of the officers becoming demoralized at battalion drill.

Batteries.—1st—Per cent. present, 99.52. With ranks full of zeal and desirous of doing better. Marked improvement shown over last year. Drill very creditable and mechanical manœuvres prompt and accurate. 2d—Present, 91.46 per cent. Most creditable inspection for years. "All movements were executed with promptness and precision, the mechanical manœuvres reflecting credit, and the entire exhibition being in the highest degree commendable." 3d—Per cent. present, 95.16. "General military appearance excellent; condition of guns, uniforms, harness and equipments very good. While the drill may be rated as very good, it seems to lack that spirit and promptness which have marked many previous exhibitions, and for which the organization had become noted. The battery is thoroughly reliable and efficient." 4th—Present, 84.05 per cent. Inefficient and of no value; should be disbanded. 5th—Present, 81.70 per cent. Maintains its reputation as one of the best in the State. It is in good condition and well commanded. Ceremony of inspection and muster very handsomely gone through with; men steady and well disciplined. The drill was marked with life and snap throughout. Harness in good condition. 6th—Present, 84.50 per cent. Provided with four 3-in. guns; harness 25 years old. Has rifles, and makes a very presentable showing as infantry. Instruction in standing gun drill thorough, all movements being exercised with spirit and snap creditable to both officers and men.

THE BELKNAP TROPHY.

A CORRESPONDENT writes: "I rise to a point of order, refer to the Belknap trophy, which is now thrown open to competition of the newly formed 1st Brigade. Can a trophy which was originally open to competition of companies of the old 1st Brigade only, and which was won one year by Co. F, 12th Regt., and the next year by Co. B, 22d Regt., who now hold it, be offered for competition to regiments other than those which formed the 1st Brigade at the time the said trophy was offered. It seems to me that Capt. Murphy, Co. F, 12th Regt., and Capt. King, Co. B, 22d Regt., should have been consulted upon the subject of altering the terms and conditions upon which the trophy was originally offered. What is your opinion?"

If the trophy was offered in competition to the regiments of the 1st Brigade a change in the organization of the brigade will not take the question outside the terms of the original offer. Otherwise it might be held that a change in the *personnel* of some of the regiments and companies would have a similar effect.

THE NATIONAL DRILL.

THE Secretary of War referred to General Sheridan the application of the National Drill Committee for permission to hold the proposed national drill next May on the Monument Lot and White Lot. The application had been approved by Colonel J. M. Wilson, Commissioner of Public Buildings and Grounds, with the proviso that the committee shall designate one of their number to be held responsible for all damages, and to give bonds to remove all materials and put the grounds in as good order as when they were transferred to the committee. General Sheridan concurs with the views of Colonel Wilson as to the conditions that should be exacted before the use of the grounds is permitted, and permission will be given to the Drill Committee to use the grounds as desired, with necessary restrictions.

The Boston *Sunday Herald* says: "The national militia encampment to be held in Washington this spring will not be attended by any companies of the militia of this State. The men composing the Massachusetts fighting force have all they can do to attend to their civic business, and one or two nights in each week meet to study practical military work. Fancy evolutions, fancy uniforms and fancy ideas as to military duty have dropped out of sight in this State."

Eighth New York.—Col. Geo. D. Scott.

AN impromptu battalion drill at the armory of the 8th New York, held on the evening of Jan. 18, afforded a relief from the everlasting monotony of the company drill, and was, for this reason, more thoroughly enjoyed. Cos. D and E were there for their weekly drill, one had 20 and the other 24 men, and Maj. Henry L. Chauncey, who happened to be at the armory accidentally, thought his opportunity had arrived. He organized the two companies into three commands of 8 files front, appointed an adjutant for the occasion, and the companies formed for battalion drill in rapid style. The drill had not been regularly ordered, and for this reason the proceeding may be regarded as somewhat irregular, but the end justified the means. We believe the major has never commanded at a battalion drill before, but the sequel showed that he has studied up the subject well. He gave his commands promptly and correctly, and had a quick eye for mistakes. The men, although rusty, were evidently eager to do what was right, and the affair deserves to be called a success.

Twenty-second New York—Col. John T. Camp.

THE first of the series of the recently ordered instruction classes for officers and non-commissioned officers met on Friday evening, Jan. 14, under the supervision of Col. Camp and Lieut. Col. Harding, respectively. Both were well attended and considerable interest was shown.

The 22d has given another proof of its enterprise and sound military principles by making an application to the Adjutant General for permission to march to the State camp ground when its next tour for duty arrives, which will be during the coming camp season, provided no unforeseen obstacles arise. There is no reason to anticipate any objection on the part of Gen. Porter, who is well known to favor exercises of this kind. The practicability of such a march was demonstrated in a most successful manner last year by Co. B, 22d Regiment, Capt. W. V. King. The plan, if carried out, will not simply result beneficially to the regiment in point of instruction, but will also be a saving to the State in transportation.

Second Battery.—Captain F. P. Earle.

THE exhibition drill of the Gatling platoon of the 2d Battery on Tuesday evening, Jan. 11, at the drill hall of the 12th N. Y., surpassed the most sanguine expectations in every respect. A better exhibition of proficiency and skill in manipulating and manœuvring the piece has never been witnessed in a volunteer organization. The drill was witnessed by an exceptionally large and interested audience which included Brig.-Gen. Louis Fitzgerald, and his Adjt.-General, Col. Barber, Major J. P. Sanger, of the Army, Col. F. B. Rand, of the 9th New York, and his brother, George W. Rand, Adjutant of the 7th, and officers of nearly every New York organization. 1st Lt. Dave Wilson had command of the drill and gave his commands with a rapidity and decision which showed that he had thoroughly mastered the subject, while the men acted promptly—without the slightest hesitation in any instance. The drill consisted of a number of manœuvres by hand, a series of firings, mounting and dismounting the piece, carriage and limber, changing of wheels, and a few manœuvres by detachment. The sections developed astonishing speed, particularly in the dismounting and mounting of pieces, carriages, and limbers and coming into action in various ways, and the applause which followed their performance was well deserved. Several rounds of firing with blank cartridges closed the drill. The little by play of simulating dead soldiers, etc., gave the exhibition a slight flavor of a Buffalo Bill performance, but it did no harm and only made the exhibition more interesting to those spectators who were not experts.

When the drill was concluded the hall was transformed in a twinkling into a brilliant ballroom, while the guests of the occasion were entertained by Capt. Earle and his officers to a handsome lunch.

Twenty-third New York.—Col. Chas. L. Fincke.

THIS regiment celebrated its twenty-fifth anniversary on the evening of Jan. 20 by a silver reception at the Academy of Music, Brooklyn. The main floor was carpeted and the whole interior handsomely decorated with flags and plants. At 10.30 the grand march took place, after which dancing commenced and continued until an early hour in the morning. The Army and Navy and Marine Corps were well represented, as was also the National Guard of New York and Brooklyn. Every detail was attended to in the best possible manner, for which this regiment is noted. The building was crowded with Brooklyn's fair women and brave men, and the affair was pronounced a success, for which the following committees deserve credit: Reception Committee—Colonel Chas. L. Fincke, Lieut.-Col. A. S. Bacon, Major C. E. Waters Capt. Alexis C. Smith, Capt. Ezra De Forest, Captain W. L. Candee, Lieut. J. S. Shepherd, Lieut. G. W. Middleton, Jr., Adjutant E. W. Burd, Lieut. A. A. Thompson, Capt. W. H. Greenland, Chaplain G. R. Vandewater, Lieut. H. C. Everdell, Lieut. T. W. Silcocks, Lieut. C. R. Silkman, Lieut. G. F Hamlin, General Rodney C. Ward, General Alfred C. Barnes

Colonel John N. Partridge, Major Darius Ferry, Captain Harris K. Smith. Floor Committee—Captain Darwin R. Aldridge, Chairmain, Lieut. W. S. Banta, Lieut. G. A. Williams, and four members from each company.

MILITIA ITEMS.

A commendable entertainment is in prospect for the benefit of the "Manhattan Hospital." An independent military company is to be organized, but recruits are only to be accepted from the good-looking female population who reside above 59th St., where, as is claimed by many, the prettiest girls are to be found. The company is to be uniformed in Martha Washington style and, although versed in tactics somewhat now, will receive a few additional points from "Upton." Lieut.-Col. H. Dowd, of the 12th Regiment, it is said, is to be the fortunate commander and instructor of this attractive company

The Ackerman Court held another executive session Jan. 14 and finished up their work and forwarded the papers.

The court for the trial of 1st Lieut. Russell Benedict, of Co. H, 13th Regt., met again Jan. 14 at the 14th Regt. Armory, and adjourned until Friday, Jan. 28. The Judge-Advocate said he received a letter from Counsellor Stickney, stating he could not now appear for Lieut. Benedict. He then wrote to the Lieutenant asking him to arrange as to counsel. Lieut. Benedict responded by deciding not to attend that evening for reasons sufficient to himself and satisfactory to the Judge-Advocate.

1st Lieut. John Hepburn, of the 17th Separate Company, N. G. S. N. Y., of Flushing, L. I., tendered his resignation on Tuesday of this week. Lieut. Hepburn has served as a commissioned officer in this organization for upwards of eight years and his resignation causes general regret in the company, where he was highly esteemed as an officer and a gentleman.

The 4th N. J. will parade in State service uniform (white gloves.) on Wednesday, Jan. 26, for official visit by Brig.-Gen. Willoughby Weston, Insp.-General of New Jersey. Presentation of marksmen's badges for 1886, by Brig.-Gen. Bird W. Spencer, Insp.-General of rifle practice, New Jersey and battalion drill. A regimental class for recruits is established in this command, under the direction of 1st Lieut. Berrian, as instructor.

After May 1 the headquarters of the 1st N. Y. Brigade will be in the Equitable Building, where Gen. Fitzgerald is about to remove his business office. Capt. Johnston will have a spacious apartment, and many improvements are to be introduced. In fifteen minutes, by means of the telephone to be put in, the general commanding will be able to call the roll of the colonels in his brigade, and hold direct conversation with each. It is proposed also to connect each armory with the headquarters office, and to place at each station-house a set of orders for such Guardsmen as shall reside in the precinct. An order from Police Headquarters would at once set thirty odd sets of police distributors at work, and every Guardsman would have a notice left at his residence and place of business within a few moments, and an hour would see the brigade under arms. Electricity is to be liberally employed in throttling the riot of the future.

During the past week the handsome new uniforms were distributed among the different companies in the 23d Regiment. The uniform is composed of a cadet gray frock coat with black slashing, and gold and black braid trimmings, gilt buttons, epaulets with black tops on white frames; an embroidered neck-piece of gold braid and a white aiguillette. The trousers are of the same material as the coat and have a double black stripe running down the sides, with a white cord in centre. At the silver reception of the regiment on Jan. 20 the new uniforms will be worn for the first time.

The following delegates to the State Convention of the National Guard have been elected by the Council of Officers, 14th N. Y.: Col. Harry Michell, Lieut.-Col. S. C. Clobridge, Major John McNeil and Capt. Barlow.

The commissioned officers of the 9th, N. Y., will assemble at the armory in fatigue uniform, Saturday, Jan. 22, at 8 o'clock, P. M., for instruction by the General Inspector of Rifle Practice.

During the year 1886 Co. A, 47th regt., collected $1,500 and disbursed $1,200 for furnishing their room.

Company G, of the 7th N. Y., gave an entertainment at Mazzetti's, 6th Avenue and 49th street, Monday evening, Jan. 17, in honor of the fact that the commissioned officers, of the company had completed ten years of service in their respective grades. A large number of invited guests, including the members of Co. G, of the 23d of Brooklyn, were present. The entertainment followed a drill at the armory.

The right wing of the 47th N. Y., Companies B, I, F, and K, will assemble at the armory, in fatigue uniform (forage caps), for drill and instruction, on Tuesday, Jan. 18, and Tuesday, Jan. 25, and the left wing, Companies A, D, E, and G, on Friday, Jan. 21 and Friday, Jan. 28; by regiment, Friday, Feb. 4.

The 13th regiment veteran organization deserve credit for revising their constitution so as to drop all titles. This should be followed by other organizations of the same kind.

Alfred H. Weston, formerly assistant secretary of the National Rifle Association, is now a lecturer, reader, and recitationist, and has made quite a hit in his new undertaking.

After the annual meeting of the 7th, N. Y., board of officers, the officers proceeded to the residence of the Hon. J. J. O'Donohue, No. 5 East 69th street, New York, to receive a handsome bronze figure, presented by him as a permanent company trophy, to be awarded annually to the company making the best score in skirmish and volley firing. The marksmen's badges will be presented in February, and the cross of honor in March.

There are some twenty applications for the muster of separate companies now on file at Albany, including some colored organizations.

The New York *Herald* quotes Gen. Porter as saying that there is no truth in the story that the Brigadier-Generals are to confer with him for the purpose of choosing a Major-General to command the New York State forces; that "the appointment of a Major-General is a matter entirely in the hands of the Governor, and it would be a piece of impertinence on the part of general officers to meet for any such purpose; that the appointment of a Major-General is not contemplated, and that the present system of government of the Guard is likely to remain." He says: "It is working very satisfactorily indeed, and to put another headquarters between the Commander-in-Chief and the organizations would accomplish nothing whatever but delay in the transaction of business. There is no military reason whatever for the existence of another military headquarters under the present circumstances."

The delegates to the National Guard convention from the 9th Regt. are Col. Seward and Capts. Witthaus, Lorigan and Gibson; alternates, Major Bartlett and Capts. Clough, Marks and Swift.

The 22d N. Y. is directed to assemble in fatigue uniform for battalion drill as follows: C, H. G. E and F, Wednesdays Feb. 9, 16 and 23; B, I, D, A and K, Fridays, Feb. 11, 18 and 25. It is possible that the regiment may march up to the State camp this year.

The 69th N. Y. is in receipt of an invitation from the mayor and other prominent citizens of Boston to visit that city next summer. The matter is under consideration.

Col. W. Seward, Jr., 9th New York, orders the revision of the address list of his command and the rolls of non-commissioned officers, Capt. Kasson C. Gibson, I. R. P., is directed to take the necessary steps to have the arms of the regiment put in order. Commissions of Capt. K. C. Gibson, I. R. P., and 1st Lieuts. Chas. E. Kohlberger and Dana B. Pratt, and resignation of Capt. E. A. Reed, chaplain. 1st Lieut. J. K. Imlay and 2d Lieuts. W. H. Remsen and Franklin T. Morgan are announced.

The Examining Board recently appointed by Adjt.-Gen. Porter held its first session at Albany on Monday, Jan. 17, but had an easy time of it, because the only officer ordered before it did not make his appearance. The board returned to their homes by a late train the same day.

At an election for a captain of Co. B, 71st Regiment, ex-Capt. Samuel G. Blakely, of Co. G, became the choice. Capt. Blakely resigned from the command of Co. G about a year ago. He first entered the regiment Dec. 21, 1875, and was twice before elected captain—once in 1880 and the second time June 16, 1885.

Co. I, 12th New York, Capt. Harry C. Aspinwall, gave a very successful entertainment at the armory on Thursday evening, Jan. 13. The company executed a short, snappy drill in the school of the company, and then devoted the rest of the evening to the entertainment of Co. I of the 15th New York and the large number of civilian guests who attended the affair.

The prospects of the 12th N. Y. occupying the new armory are still so indefinite that no date for the movement there has been fixed. Col. Jones, who has recently returned from the West, at the last meeting of the Board of Officers declined to take any measures to determine upon a date for occupation.

The instruction of the newly-established 7th Regiment Artillery Corps, under Lieut. J. E. Schermerhorn, is progressing favorably, and the affairs can be put into serviceable shape in a very short time.

The subject of the acquirement of a rifle range on Staten Island in place of Creedmoor seems to assume tangible shape. Lt. Zalinski appears to be very sanguine about it, and says that the ground he has in view on Staten Island is suitable in every respect, although its shape is such that the light will be less favorable than at Creedmoor. This objection the lieutenant very cleverly neutralizes by the statement that in active service it would be impossible to have the sun always in the desired quarter, and that it is best to teach men to fire under all circumstances. It is reported that a responsible party is willing to advance a large portion of the purchase money, and that the balance necessary can easily be disposed of by mortgages.

The dinner tendered by the 7th Regiment to Col. Emmons Clark upon the completion of his thirty years of service will be given at Delmonico's Saturday evening. Most elaborate preparations have been made for the celebration. Gen. Louis Fitzgerald will preside, and among the invited guests who will speak are Senator Hawley, Chauncey M. Depew, Gen. Horace Porter and Judge Brady.

2d Lieut. Harold Christensen, of Co. A, has been elected 1st Lieutenant Co. K, 11th N. Y. Mr. Coudert, recently a member of Co. F, 7th Regiment, was elected 2d Lieutenant of Co. A, 11th N. Y., in his place.

The following will be the delegates from the 11th N. Y. to the National Guard Convention: Col. A. P. Stewart, Lieut.-Col. W. P. Walton, Major Frank P. Jones and Asst. Surg. G. W. Collins.

The 9th New York has been granted the permission recently asked for to have certain battles in which the regiment participated inscribed on its colors.

2d Lieut. Stephen Heiniger, 8th New York, has resigned.

Co. B, 11th New York, on Tuesday evening, Jan. 21, elected 2d Lieut. Mason, of Co. B, to the position of 1st Lieutenant.

STATE OF ILLINOIS.

THE Forsyth badge in general appearance patterns after the Robertson badges, made by Pederson, and annually presented during Division of Missouri competitions and Department of Dakota competitions. Unlike the Robertson badge, it has a diamond set in it. It cost $150. The terms and conditions regulating its ownership are to be regulated by the present or future company commanders of Cos. C, D and E, 1st Regiment, Ill. N. G. (Col. E. B. Knox's), and the present Genl. Insp. Rifle Practice, State of Ill. (Col. J. A. Shaffer), the present Brigade Inspector Rifle Practice, 1st Brigade, I. N. G. (Lieut.-Col. Thos. C. Clark), and the Regt. I. R. P., 1st Regiment, I. N. G. (Capt. H. T. Lockwood).

The Springfield rifles and cartridges issued by the State of Illinois to the National Guard of the State are to be exclusively used in competitions for the Forsyth badge. The rules regulating the competitions are those prescribed in Blunt's Rifle and Carbine Firing—save as they may be modified by G. O. No. 15, State of Ill., A. G. O., Springfield, July 7, 1886, or as they may be further modified by agreement of the officers named herein.

Competion will be restricted to Companies C, D and E, 1st Infantry, I. N. G. That company having for two years—not necessarily consecutive—the highest figure of merit in target and gallery practice, or both, will then win the badge. After possessorship is thus determined, the individual members of the company will then, at some time during one year, compete among themselves to determine absolute ownership. Thus at least three years will elapse before the badge becomes the property of any one person. The final competition will be under such disinterested supervision as the officers indicated may decide upon.

It is to be hoped that competitions of this nature will measurably supersede the mere exhibition drills, wherein emulation is for manipulation of the piece and not for execution with it. Mere ability to act in concert—to manœuvre—is one thing. Rifle practice is another. Many prizes have been offered by citizens and others for superiority in drill, but these awards are only offered as incentives to become skilled in the use of the rifle. CHICAGO.

CALIFORNIA NATIONAL GUARD.

Major-Gen. Turnbull, the retiring chief of the National Guard, was recently presented by the members of his staff with a solid silver service appropriately inscribed. Lieut.-Col. Brady made the presentation speech.

Gov. Bartlett in his recent inugural message says: "Recent passing events in this and other States teach us that a turbulent and disorderly element has lately come into the country, which is inclined to resort to the most diabolical methods in order to gratify its revenge, or show its contempt for our laws and institutions. With such people reason has no sway, and they can only be reached by the strong arm of the law, supported by a sufficient physical force. The National Guard of California commands the respect of its fellow-citizens, and will always be found ready to preserve the peace and protect life and property. The unprotected condition of our principal seaport and commercial city is another reason why the National Guard should be cherished and a military spirit cultivated among our people."

The new bill which is proposed to be introduced relative to the National Guard will contain measures most favorable to that organization. Ample reference has been made to work done by the National Guard Officers' Association, but the bill proposes that a signal corps and a signal officer shall be added to the staff of each regiment, the officer to have the rank of 1st lieutenant, and that an allowance of $15 per month be allowed each corps. It also provides that the State make an allowance for uniforms, amounting to $25 each. A provision is made in the bill that no cadet member of any regiment shall be more than nineteen years of age. Provisions are made for the payment of those organizations which may participate in annual encampments, allowing to complete organizations the sum of $1.25 per day for each officer and man in the cavalry, artillery and infantry service, with an additional $1 per day for the payment of those whose duties require them to be mounted.

STATE OF PENNSYLVANIA.

COL. DANIEL H. HASTINGS, of the 5th Infantry, has been appointed and confirmed as Adjutant-General of the State of Pennsylvania.

Taree brigades of troops were in line on the occasion of the inauguration of James A. Beaver, late Brigadier-General commanding 2d Brigade, as Governor, at Harrisburg, on the 18th of January: Following the chief marshal and staff rode Major-Gen. J. F. Hartranft, commanding the 1st Division, and the following staff: Lieut.-Col. George H. North, Lieut.-Col. Walter G. Wilson, Lieut.-Col. S. S. Hartranft, and Lieut.-Col. And. D. Hepburn. Then followed the 1st Brigade, under command of Gen. George R. Snowden, with staff, with the following commands: 1st Regt., Col. T. E. Wiedersheim; 2d Regt., Col. R. P. Dechert; 6th Regt., Col. John W. Schall; State Fencibles, Major W. Wes. Chew; Gray Invincibles, Capt. Charles Hailstock; Bat. A, Capt. Morris C. Stafford. The 2d Brigade: Colonel D. S. Hastings; Sheridan Troop, Captain C. S. W. Jones; 5th Regiment; Lieutenant-Colonel John S. Garrett; 18th Regiment, Col. Norman M. Smith; 14th Regt., Col. James Glenn; Bat. B, Capt. A. E. Hunt; Pennsylvania State College Cadets; Washington Infantry, of Pittsburgh, 3d Brigade, Brig.-Gen. John P. S. Gobin: 13th Regt., Lieut.-Col. E. H. Ripple; 9th Regt., Col. M. J. Keck; 8th Regt., Col. Frank J. Magee; 4th Regt., Col. S. D. Lehr; Bat. C, Capt. John Dennithorne, Jr. and an unassigned company from Chambersburg.

VERMONT'S MONUMENTS IN VIRGINIA.

THE city council and mayor of Winchester, Va., in responding to resolutions passed by the Vermont Legislature, thanking the citizens of Winchester for aiding in the dedication of monuments to their fallen sons on the battledelds of Cedar Creek and Opequan Sept. 19, 1885, says:

The citizens of Winchester appreciate highly your words of confidence and good-will and they reiterate the fact that the monuments which the citizens of Virginia have erected on the fields of civil strife at Opequon and Cedar Creek to the memory of their dead, shall be as faithfully preserved and as scrupulously protected as if they stood upon the battlefields of Vermont, where Stark's courage illuminated the patriotic hearts of Virginians and New Englanders alike in the times that tried men's souls, and when Washington and Putnam stood shoulder to shoulder in their common defence of the freedom of the colonies.

MICHIGAN STATE TROOPS.

GOV. ALGER in his recent message, referring to the Military Academy at Orchard Lake, says: "It is, in a measure, a State institution, receiving, however, no pecuniary aid from the State. Nor does its chief, Col. Rogers, ask any. It is a most excellent school. One can always detect a cadet from the academy by his military bearing. In order to encourage the young men who receive their education there, I recommend that a law be passed authorizing the Executive to commission all graduates of that academy as line officers in this State, without command or pay, but subject to call at any time by the State should their services be required. I also recommend that the law include graduates in the excellent military department of the agricultural college, which has also my most hearty sympathy and approbation. Provided, always, that such graduates of either institution are residents of this State."

The report of the Inspector General of Michigan shows that the State force now numbers thirty-six companies of infantry, all uniformed. In their armament the Springfield is being substituted for the old Sharps rifles, which are worthless. Hundreds of them will not explode a cartridge. The standard of efficiency for real service is, he reports, very high, the officers being on the whole capable and well up in their duties. Of the inspection reports of Col. Pennington, major 4th Artillery, Gen. Kidd says: "His reports are models of concise and clear-cut phrase, and they go straight to the mark, wasting no time on mere verbiage. They point out faults with a directness and frankness that is rare as it is refreshing, and bestow praise where praise is deserved. He was careful, painstaking and conscientious in his work at the encampment, while his dignified, soldierly bearing and courteous manners won for him the confidence and respect of all with whom he came in contact. It is fair and just, though severe, and points out with an unsparing hand the defects, some of them glaring ones, in our system of instruction and discipline, and shows conclusively that radical improvements are needed. The report is, for all that, appreciative—commendatory in many respects—and it is to me clear that it is calculated to do more good than anything we have had." It is suggested that "it would be well if an Army officer could be detailed to each State to devote his time to the inspection and instruction of the State troops. The beneficial effects of such a thing cannot be over-estimated. It would bring into closer relations the regulars and the militia, making of each an integral part of one national Army."

Great stress is laid by the Inspector-General on inspections at home stations, and he recommends that, if it is necessary to secure these, the annual encampment of five days be changed to a biennial one of ten days. He says of these home inspections: "Every member of the company should be required to be present, and the inspection should be thorough, the Inspector-General imparting instruction where needed, and correcting errors. He should see that the skirmish drill is thoroughly understood and require the officers to go through the ceremony of guard mounting, to post sentinels and see that they are properly instructed. In this way every officer and man could have a 'tour' at guard duty. One relief might be engaged in target practice while another was on guard. Then an hour devoted to the skirmish drill, including skirmish firing, would fill out a profitable afternoon. In the evening the formal ceremony of a company inspection might be held in the armory. During his visit the inspector should personally examine every article of clothing and equipment to see that they are all in the armory and well kept, and observe the manner in which the armory and property are cared for. At the evening inspection he should insist upon the observance in the armory of the strictest military courtesy, giving instructions on that point, and explaining the reasons therefor. The plan suggested gives thirty-six days at least each year to the instruction of companies at their home stations, in addition to, or in place of, the five days in camp. It would be well if an Army officer could be detailed to each State to devote his time to the inspection and instruction of the State troops. The beneficial effects of such a thing cannot be over-estimated. It would bring into closer relations the regulars and the militia, making of each an integral part of one national army."

STATE OF CONNECTICUT.

CHANGES as follows in the commissioned officers of the Connecticut National Guard have occurred since Dec. 18, 1886:

Resigned and Discharged.—Major John B. Clapp, Brigade Inspector, Jan. 5, 1887. 2d Regt.—Lieut.-Col. Henry R. Loomis; 1st Lieut. Albert L. Dillenbeck, Paymaster; 1st Lieut. Leman H. Bates, Co. F. 3d Regt.—1st Lieut. Charles F. Starr, Q. M.; 2d Lieut. Herbert N. Small, Co. C. 5th Battalion—2d Lieut. William H. Jackson, Co. A.

Promoted and Appointed.—2d Regt.—1st Sergt. George H. Wilkinson, 2d Lieutenant Co. K. 3d Regt.—1st Lieut. Irving E. Hill, Paymaster, 1st Lieutenant Co. C.

The figure of merit for the 1st Regiment for December is 91.20; 2d Regt., 91.60; 3d, 81.77; 4th, 88.38; 5th Battalion, 82.63; Battery A, 75.95.

KANSAS.

GOV. MARTIN, in his message to the Legislature, says: The Kansas National Guard has been fully organized under the provisions of the militia law of 1885. It is composed of four regiments and one battery, comprising an active force of 2,020 officers and men. The report of the Adjt.-General furnishes full information concerning its organization, equipment and needs, and I commend his surgestions, together with the recommendations of the military board, to your considerate attention. No State in the Union can muster a finer body of young men than those enlisted in the Kansas National Guard, and their appearance, drill and soldierly conduct, in camp and field, have justly received the highest praise. . . . Sections 28, 29 and 30 of the militia law of 1885 should be repealed. They confer dangerous powers upon officers of the National Guard, sheriffs and mayors of cities, authorizing them to invoke and use the military force of the State at their own discretion. These sections, it seems to me, are in plain violation of section 4 of article 8 of the Constitution, which confers upon the Governor the sole power "to call out the militia to execute the laws, to suppress insurrection and to repel invasion."

OHIO.

SPECIAL ORDER No. 19, which was issued by Col. Flick, of the 5th O. N. G., on Jan. 11, provides for the purchase of a special "Headquarters Badge," which is to be awarded to the members of the Cleveland Cadets, Co. B, having the best

record for attendance at the drills and meetings of the company from this time until the annual encampment.

The headquarters of the 5th Infantry at the City Armory have been refitted. The general effect is elegant in the extreme.

Lieut. Hayes, of Co. F, 5th Infantry, O. N. G., who has permanently located in Akron, has tendered his resignation. Lieut. Hayes has made an enviable record while with the regiment.

Co. B, of the 8th Regiment, at Akron, is again out of luck, they are just now minus an armory. The Ohio Legislature at the last session made it the duty of the county commissioners, instead of the city councils, to provide armories for the Guard, and the Akron Council, desiring to make use of the city building occupied by Co. B, gave them notice to vacate, which they did, storing their arms and equipments in another building. The company will take a rest.

Battery F is snugly quartered in Columbia Hall, Akron, and has one of the largest drill floors in the State.

ALABAMA

ON Jan. 12 the Montgomery Greys held their sixteenth annual meeting, for the purpose of electing non-commissioned officers for the ensuing year. A banquet followed the election. The election of field officers of the 2d Regiment also took place Jan. 13, with the following result: Colonel, Thos. G. Jones; Lieutenant Colonel, G. L. Comer; Major, R. E. Steiner.

RECENT DEATHS.

THE death of Brigadier-General W. B. Hazen, Chief Signal officer, was not without anticipation, but it came so unexpected at last that his wife, who is absent in Europe, was not able to be present at the bedside of her husband. The disease of which he was stricken was not one to give hope of a favorable ending, and a cold which aggravated it, resulted in diabetic coma and he breathed his last in a comotose state at 8 o'clock in the evening of Sunday last. General Hazen's wife, who is a daughter of Washington McLean, of Cincinnati, and a sister of John R. McLean, of the Cincinnati *Enquirer*, is in France. With him when he died were Mrs. Washington McLean, and Mrs. Bugher, his sister-in-law; Captain Greely, who had been with him during the entire day; Lieutenant Thompson and Drs. Huntington, Harvey and Lincoln, the attending and consulting physicians. In the case of an officer so well known as General Hazen, it may be safely left for each one to form a personal judgment as to his character. No one in the Service had a more unfortunate faculty for involving himself in controversies, and it has not been easy in all cases to determine to what traits of character his difficulties were chargeable. His history shows that he was a capable soldier in spite of the criticisms to which particular episodes in it are subjected. He was clearly out of place in the Signal Bureau, which required a man of different temperament. General Hazen was of Connecticut ancestry. He was born at West Hartford, Windsor Co., Vt., Sept. 30, 1830, though resident in Ohio at the time of his appointment to the Military Academy in 1851. He was commissioned on his graduation in 1855, a 2d Lieutenant in the 4th Infantry, and saw his first service on the Pacific Coast fighting Indians in Oregon. Then he was transferred to Texas and won repeated praise from the War Department for the vigor and success with which he hunted aboriginal marauders there and in New Mexico. Further evidence of his soldierly qualities was afforded by a wound received in 1859 while in conflict with the Comanches. For gallantry he was promoted to a captaincy in the 8th Infantry in May, 1861. In February of that year he had been assigned to duty as assistant professor of military tactics at the West Point Academy; but in September he was granted a leave of absence to take command of the 41st Ohio Volunteers and was appointed Brigadier-General of Volunteers in February, 1862. In the last year of the War, December, 1864, he was promoted Maj.-General to date from the capture of Fort McAllister, and on the 19th of May, 1865, was appointed by the President to command the Fifteenth Army Corps. He was commissioned Colonel of the 38th Regular Infantry, and afterward of the 6th, and during the Russo-Turkish war, in 1876-7, he was United States military attache at Vienna. He published a work giving the result of his observations. He was appointed Chief Signal Officer in 1880. After his appointment he gave offence to the War Department by what was regarded as unwarranted criticism of his superiors. In this, as in other controversies in which he was engaged, says the N. Y. *Herald*, his ruling passion to write as a military critic carried him to extremes, and gave him a reputation for captiousness and bumptiousness that was not deserved. In 1885 General Hazen published a narrative of military service, in the preface to which he said: "Every great war engenders an ignoble swarm of jealousies and calumnies which buzz and sting for long years after kindly nature has repaired the battle-fields. I have had my share of these annoyances, and may feel bound, at some future time, to prepare for the official and professional eye a final presentation of my own case, to the end that testimony may be perpetuated and the record purged of error." This purpose was never fulfilled, subsequent controversies occupying General Hazen's attention and leading to the publication of a volume to explain his connection with the Greely Relief Expedition. Gen. Haezn was buried with military honors on Wednesday, at 12 o'clock, from St. John's Church, Washington. His body is temporarily interred at Oak Hill or Rock Creek Cemetery. The final interment will be made after Mrs. Hazen's return from Europe, probably at Hiram, Ohio, his old home. The pall-bearers were Gen Benét, Adjt.-Gen. Drum, Paymaster General Rochester, Quartermaster-General Holabird, Gen. Duane, Chief of Engineers, and Surgeon-General Moore.

—

PAYMASTER WM. N. WATMOUGH. U. S. Navy, died at his home, 62 W. Townsend st., Baltimore, Thursday evening. He entered the Service of the United States as a 2d Lieutenant in a Pennsylvania volunteer regiment, the 33d Pennsylvania, in 1861, and served as an A.-D.-C. upon the staff of Gen. Meade, while he was in command of a brigade, and was woundeded at White Oak Swamp, Va., June 30, 1862. He resigned in November following and was appointed an Acting Asst. Paymaster, U. S. Navy, serving during the war on the *Harriet Lane*, *Calhoun*, *Nereus*, and *De Soto*, being promoted Asst. Paymaster, June 30, 1864. He received his promotion as Paymoster, May 4, 1866. Dec. 30, 1884, he was granted leave and has not since been on duty.

—

MRS. CHARLES WILSON, mother of Chief Constructor T. D. Wilson, U. S. N., died at her home in New York City, Jan. 15. The old lady had been ill for some weeks, and her son was with her when she died. The remains were interred on Tuesday, at Cypress Hills Cemetery, whither they were followed by a large number of mourners. Services were held at the family residence, No. 645 Greene Avenue, Brooklyn. Many friends and acquaintances of the deceased lady were in attendance. Among those present were Chief Constructor Wilson, Naval Constructor S. H. Pook, Captain Francis M. Bunce, Lt. Commander R. M. Berry, of the *Atlanta;* Master Shipwright James R. McGee, Joseph Brown, Albert M. Kingsland, Captain C. F. Porter and a number of other heads of the various branches of construction and repair.

DR. JOHN M. KOLLOCK, who died Jan. 5 at Seattle, Wash. Ter., of Bright's disease, served with credit as a surgeon of volunteers during the war, and was with the Army of the Potomac at Lee's surrender. In 1870 he was appointed supervisory surgeon of the United States marine hospitals, with headquarters at San Francisco, and while holding this position he organized the marine hospital at Port Townsend. He resigned in 1872 for the purpose of engaging in business enterprises, and removed to Seattle in 1881. His health has not been good for some years, and when in October last he was appointed contract surgeon at Fort Cœur d'Alene, he was able to perform the duties of his station but one month, when he was taken home to die. He was in his 51st year, and leaves a widow and five children.

WE are in receipt of a series of resolutions on the death of Gen. Logan, passed at a regular meeting of Wm. H. Lewis Post, No. 17, Grand Army of the Republic, Department of Texas, held at Fort Clark, Texas, on Jan. 4, 1887, as follows:

Resolved, That this man since the War, in the councils of the nation for whose salvation his life was always willingly offered, has manifested a degree of political integrity and statesmanship as a Senator of the United States, such as to excite the admiration of the civilized world.

Resolved further, That the members of this post will ever revere his memory and always strive in emulation of his character. To the wife, who, it is known by the country, has contributed and aided so largely in the patriotic endeavor of her distinguished husband, the heartfelt condolence of each individual member of this post is extended.

COLONEL HARAI ROBINSON, who died recently at Panama, served gallantly during the war under Gen. Banks, as chief of cavalry. In the Red River campaign he commanded the 3d Cavalry Brigade, and was badly wounded at Sabine Cross Roads. He was subsequently provost marshal general of the Department of the Gulf.

MRS. WHEELER, wife of Lieut. H. W. Wheeler, 5th U. S. Cavalry, on recruiting duty in New York City, died suddenly at Greenwich, Conn., Jan. 15. The deceased lady was a daughter of Mr. Philip A. Dougherty, of Elizabeth, N. J., from whose residence the funeral took place Jan. 18.

ANNIE COLEMAN FREEMAN, a daughter of the late Col. W. G. Freeman, U. S. A., died Jan. 17, and was buried at Philadelphia, Jan. 19. Col. Freeman was an assistant adjutant-general, served with credit in the Mexican War, resigned in 1856, and died at Cornwall, Pa., Nov. 12, 1866.

THE funeral services of the late 1st Assistant Engineer C. A. Laws, of the Revenue Marine Service, took place at his brother's residence on Broad St., Philadelphia, Jan. 15.

MRS. DAVID WILLIAMS, the widow of the only son of David Williams, who assisted in the capture of Major André, died at Broome, New York, Jan. 12, aged 87 years.

AUG. L. VON STEUBEN, a grandnephew of Baron Von Steuben, of Revolutionary memory, died at Bethlehem, Pa., Jan. 18, in the eighty-third year of his age.

THE remains of Mrs. Hinman, wife of Capt. F. A. Hinman, Corps of Engineers, U. S. A., were brought to Flushing, L. I., early in the week and there interred.

NEW PUBLICATIONS.

The publishers of the "Century Magazine" announce that the February number of their magazide will open with an article on the Bahamas—"A Mid-Winter Resort"—by William C. Church, editor ARMY AND NAVY JOURNAL, illustrated by Winslow Homer,. Edw. Atkinson in the same number discusses the subject of national armament, and we have a continuation of the biography of Lincoln and biographical notices of the Rev. Peter Cartwright and President McCosh of Princeton.

The "Art Review" is a new publication issued monthly at the price of five dollars a year from No. 59 Carmine street, New York. Its second number, that for December, 1886, contains an etching by Thomas Moran and three photogravеurs of pictures by Thaxter, Harrison, and Denman. The articles are by Ripley Hitchcock, Mrs. Edw. W. Dodd, Chas. DeKay, and Wm. A. Potter. It is a handsomely printed quarto, with twenty pages of letter press.

PENSION LEGISLATIONS.

Two important pension bills were passed by the House on Monday under a suspension of the rules—the Mexican Pension bill, with Senate amendments, and the bill granting a pension of $12 per month to all surviving parents of honorably discharged soldiers of the late war, the Seminole, Black Hawk, and Mexican war, who are totally unable to labor and in a dependent condition. The latter bill was passed by a vote of 179 to 76. It provides that the class of claimants described have only to show, in the case of dependent parents or of dependent children, the fact of the soldier's death and the lack of other means of support than their own labor or the contributions of others not legally bound for their support. No pension is to begin until after the passage of the act; pays $12 a month to beneficiaries under the act; disregards rank in service, and allows claim agents $5 only for each case. It is estimated by the Pension Committee that there will be 33,105 beneficiaries under the provisions of the bill, requiring an annual appropriation of $4,767,120.

The Mexican Pension bill was passed by a vote of 243 to 5. This measure has been awaiting action since last July. It came in as a report of a Conference Committee, which recommended the Senate bill as amended. The original House bill gave pensions to all who had served for any period in the Mexican war. The bill as amended by the Senate and as finally passed by the House, pensions all who actually served 60 days at the rate of $8 per month. The following is its full text as it now stands awaiting the signature of the President:

That the Secretary of the Interior be, and hereby is, authorized and directed to place on the pension roll the names of the surviving officers and enlisted men, including marines, militia, and volunteers, of the military and naval services of the United States, who, being duly enlisted, actually served sixty days with the Army or Navy of the United States in Mexico, or on the coasts or frontier thereof, or en route thereto, in the war with that nation, or were actually engaged in a battle in said war, and were honorably discharged, and to such other officers and soldiers and sailors as may have been personally named in any resolution of Congress for any specific service in said war, and the surviving widow, of such officers and enlisted men: *Provided*, That such widows have not remarried: *Provided*, That every such officer, enlisted man, or widow who is or may become sixty-two years of age, or who is or may become subject to any disability or dependency equivalent to some cause prescribed or recognized by the pension laws of the United States as a sufficient reason for the allowance of a pension, shall be entitled to the benefits of this act; but it shall not be held to include any person not within the rule of age or disability or dependency herein defined, or who incurred such disability while in any manner voluntarily engaged in or aiding or abetting the late rebellion against the authority of the United States.

Sec. 2. That pensions under section 1 of this act shall be at the rate of $8 per month, and payable only from and after the passage of this act, for and during the natural lives of the persons entitled thereto, or during the continuance of the disability for which the same shall be granted: *Provided*, That section 1 of this act shall not apply to any person who is receiving a pension at the rate of $8 per month or more, nor to any person receiving a pension of less than $8 per month, except for the difference between the pension now received (if less than $8 per month) and $8 per month.

Sec. 3. That before the name of any person shall be placed on the pension roll under this act proof shall be made, under such rules and regulations as the Secretary of the Interior may prescribe, of the right of the applicant to a pension; any person who shall falsely and corruptly take any oath required under this act shall be deemed guilty of perjury; and the Secretary of the Interior shall cause to be stricken from the pension roll the name of any person whenever it shall be made to appear by proof satisfactory to him that such name was put upon such roll through false and fraudulent representations, and that such person is not entitled to a pension under this act. The loss of the certificate of discharge shall not deprive any person of the benefits of this act, but other record evidence of enlistment and service and of an honorable discharge may be deemed sufficient: *Provided*, That when any person has been granted a land warrant, under any act of Congress, for and on account of service in the said war with Mexico, such grant shall be prima facie evidence of his service and honorable discharge: but such evidence shall not be conclusive, and may be rebutted by evidence that such land warrant was improperly granted.

Sec. 4. That the pension laws now in force which are not inconsistent or in conflict with this act are hereby made a part of this act, so far as they may be applicable thereto.

Sec. 5. That sec. 4716 of the Revised Statutes is hereby repealed so far as the same reiates to this act or to pensioners under this act.

Sec. 6. That the provisions of this act shall not apply to any person while under the political disability imposed by the 14th amendment to the Constitution of the United States.

The House Committee on Invalid Pensions has made favorable reports on bills No. 10132, allowing soldiers and sailors who have lost both arms a pension of $100 per month; No. 10789, giving enlisted men of the Navy and Marine Corps the benefit of the Act of March 3, 1877, which allows enlisted men of the Regular Army, who have become disabled, the benefits of pension laws, and No. 10661, granting Wilbur F. Coggswell, late an Assistant Engineer in the U. S. Navy, a pension of $50 per month.

ANSWERS TO CORRESPONDENTS.

R. X.—See JOURNAL of Jan. 15, page 495, as to extra duty pay of cooks and nurses for current fiscal year.

Navy.—The *Vanderbilt* was sold at San Francisco in 1859, and converted into a four-masted clipper vessel. She is now in use at Liverpool.

N. B. N.—Watch the Navy orders and make application for position as apothecary, U. S. N., to the first surgeon you see ordered to a ship.

G. A. F.—The points you make appear to be correct, but, as questions of discipline are involved, we deem it best not to answer your questions in detail.

"Lex" asks: Can a soldier's widow with a minor child, legally transfer her own pension ($12.00) to her child before her second marriage, so that the child may have the benefit? ANS.—No.

R. F.—It is learned at the Q. M. G. O. that you were not appointed to the vacancy because the other person to whom you refer passed a higher examination. You are still on the list of approved applicants, and are likely to receive the next vacancy for a Post Q. M. Sergeant apportioned to your regiment.

W. C. M.—The Captain Almy to whom you refer is now Rear Admiral John J. Almy, U. S. N., and resides at 1,019 Vermont Avenue, Washington, D. C. Perhaps some of our readers may know the present whereabouts of some of

the crew of the U. S. Steamship *Connecticut* when on blockade duty in 1863-64, off Cape Fear.

Sailor.—The rendezvous are open for the enlistment of apprentices under the circular of Navy Dept. dated Jan. 1, 1884, and for the enlistment of a limited number of landsmen. No person shall be enlisted as an apprentice unless he be between 14 and 18 years of age. An outfit of clothing is furnished by the Government but the cost is charged to the account of the enlisted man, or apprentice.

THE NEW LOCKSLEY HALL.

AMONG the burlesques of the later "Locksley Hall" comes this in the *Pall Mall Gazette:*

Comrades leave me here a little, while I sit me down and scold.
All is vanity, cries the Poet, as the Preacher cried of old;
Others love the light as I did, but I now prefer the dark.
And, when I have aught to utter, then no other dog must bark.
Gone is all I once believed in; flats are hills and hills are flats,
Chaos, Cosmos; Cosmos, Chaos; cats are tigers, tigers, cats.
Where the use of modern marvels? marvels of my early youth?
Now I'm eighty I despise them, Good is Bad and Lies are Truth.
Plunge from Nineteenth Century splendor into mediæval night,
For the ancient wrong is better—better far than modern right.
Thus began the Poet's grumble—by degrees the grumble grew:
You—no one has done his duty—You, nor You, nor You, nor You.
Till the mighty storm arising of the Poet's discontent,
"England's worse than Sheol," cried he, and to Sheol straight he went.

Mr. Gladstone deals with Lord Tennyson's new poem in a more serious mood, publishing a long article in the *Fortnightly Review* in reply to it, showing by citations from recent history that there is no sufficient reason for the groanings of the laureate.

FOREIGN ITEMS.

THE Belgian Government has ordered the military department to try the experiment of a general mobilization of the army this year.

IN the Russian Army much time and attention are being devoted to training the troops to firing at night, both artillery and infantry having practiced, with, it is stated, fairly satisfactory results.

FOR the armament of Bombay, eight mounted, 12½ inch rifled muzzle-loading guns of 38 tons have been mounted, but it is feared that they will be obsolete by the time the defences are completed.

SIR JOHN BROWN, the inventor of thick rolled armor plates, has recently said that the company, of which he was the originator, is laying down machinery for the manufacture of plates up to 120 tons in weight, and 30 inches in thickness, either compound or solid steel.

THE pilots of the United Kingdom have a scheme on foot to erect a memorial to the memory of the late Admiral Bedford Pim, R. N., who, as senior counsel of the British pilots, befriended them on many occasions, especially when it was proposed to abolish compulsory pilotage.

HERR MAUSER, the inventor of the Mauser rifle, has gone to Constantinople for the purpose of introducing his weapon into the Turkish Army. Three hundred thousand pieces are under order, the first instalment to be delivered immediately after completion of the new loan of $10,000,000.

GREAT activity prevails in the Kiel arsenal. In this port there shortly will be made experiments as to the value of a new torpedo boat, *H. 1.*, constructed entirely of mahogany, the submerged parts only being protected by copper plates. The engines and boilers are supplied from the Schichau Works at Elbing.

AN ironclad for the Chinese was launched at Stettin on Jan. 3, called the *King-Quen.*

IT is suggested that a supply of horses for the English Army can be obtained from the island of Jamaica, and an enquiry is being made into the subject.

A SCHEME is before the Government of Victoria, B. C., for the establishment of a military college similar to that at Kingston, Canada, and it is believed the idea will be approved.

THE route of the Hudson Bay Railway will be by way of Oak Point, Lake Manitoba, and thence to Hudson Bay. Messrs. Mann and Holt have received a contract for the Manitoba section, and Messrs. McClellan and Grant are to execute the Hudson Bay section.

THE Minister of Marine has sent instructions to the naval authorities at all the French ports to get the first-class torpedo-boats ready for sea, and then to despatch them to Toulon to take part in the naval manœuvres which will again be held this year.

THE Germans are endeavoring to introduce a system of dog patrols for night duty. The experiment was extensively tried during the recent autumn manœuvres. The difficulty is that a bark from one of the dogs sets every dog within hearing barking, but the German War Department is bent upon getting over this by a system of judicious training.

INFORMATION was received early in the week regarding the sacking of Hakoi and Monkai, in Tonquin, by Chinese pirates. Lieut. MacMahon, nephew of Marshal MacMahon, who commanded the French garrison at Hakoi, was not killed, but succeeded in holding the fort until a reinforcement of militiamen from Haiphong was brought down on the steamer *Malacca.* A determined effort is to be made to recapture Monkai. Lieut. MacMahon reports that Chinese regulars aided the pirates in their work of destruction.

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

COL. DE REVANGER, sentenced by default to one year's imprisonment and deprivation of rank by the Council of War of the 1st French Corps d'Armée for an illegal absence of over three months, has surrendered himself to the military authorities, traversed the judgment pronounced against him, and appealed to the Council of War.

THE *Revue du Cercle Militaire* (Paris) states that a manufactory of arms, a branch establishment of Steyer, in Stadt, near Enns, in Austria, is shortly to be founded in Servia. Arms are to be manufactured not only for Servia, but for Turkey and other States of the Balkan Peninsula. Political and strategical considerations are said to have influenced the new departure.

THE garrisons on the French frontiers for some time past have been quietly reinforced, and the annexed provinces of Alsace-Lorraine are held by 42,000 troops, whilst dispersed among the towns within the old German frontier line are supports of 25,000 additional men, the two army corps having between them 10,000 horses and 100 field pieces. This army of observation, 67,000 strong, will be reinforced by the despatch of 15,000 more troops to the Rhine provinces.

THE *Militar-Zeitung* (Vienna) states that after careful study of the various designs submitted for the engines of the colossal armor-clad *Sardegna*, Commendatore Pucci, as President of the Comitato dei Disegni, has sent in his report to the War Minister, who, in accordance with the advice tendered, has given the contract to a Neapolitan firm. The *Sardegna* will be the largest warship in the world, and the motive machinery alone will cost 4,423,500 lire (£176,940). The delivery is to take place in the spring of 1890.

BY February of 1887 all the English troops, with but the exception of four regiments of infantry and one of cavalry, will be withdrawn from Egypt. Of those left behind, three of the infantry and the cavalry corps will remain at Cairo, and the remaining corps will be stationed at Alexandria. A correspondent, who has just returned from Egypt, writes: "Things are looking very ugly for the English there, French intrigue and influence being exerted in all directions. The rebels have among them some 40,000 Remingtons, millions of cartridges, and some Krupps—all ready for a row when the time comes to give us trouble."

THE Belgian War Minister has provided Antwerp with a captive balloon, for service if the city should be besieged.

THE order for heavy ordnance which the Government of Victoria has given to Sir William Armstrong is now nearly completed, and the guns will be ready for delivery very shortly. Eleven of the weapons are of the breechloading pattern known as the 5-in., weighing three tons each. One of 8-in. calibre has already been finished by the Elswick firm. The guns are chiefly intended for the defence of Melbourne. They form only a part of a large scheme of defence prepared by the Victorian Government for the protection of the colony.

THE equipment of the German Army with magazine rifles is about completed. The other European Powers will require at least a couple of years before they can put repeaters into the hands of all their troops. The new German rifle, which bears the title, "M. 71-84," in token that the old model 71 has been adhered to in principle, with some modifications of it made in 1884, is described as being 1.3 metres long without, or 1.8 metres with the bayonet, and weighs 4.6 kilogrammes with empty magazines, or 5 kilogrammes when the magazine contains its full store of eight cartridges. The weapon, of which the barrel is of rifled steel colored brown outside to protect it against rust, can be sighted for a distance of from 200 to 1,000 metres. The rifle can be used either as a single shooter or repeater, and is fired in the usual way.

BENT AND CO.'S water crackers are the oldest and best brand made. They are sent to all parts of the world, and their continued success through a long series of years and uniform excellence has caused a general recognition of their claim to be the best cracker made.—*Providence Daily Journal.*

THE DEADLY GRIP OF PNEUMONIA may be warded off with HALE'S HONEY OF HOREHOUND AND TAR.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

IT is amusing to notice the smile of satisfaction that creeps over the face of the old smoker as he puffs away at one of "Tansill's Punch," America's finest 5c. Cigar.

They disappear like hot cakes before a St. Louis tramp—"Tansill's Punch" 5c. Cigar.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

BIRTHS.

HOYLE.—At Fort Porter, N. Y., Dec. 26, 1886, to the wife of Lieut. George S. Hoyle, 1st U. S. Cavalry, a son.

NEW ENGLAND MUTUAL
Life Insurance Company,
OF BOSTON, MASS.
Assets, - - - - - - $17,846,546 65
Liabilities, - - - 15,238,761.16
Total Surplus, - $2,607,785.49
This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.
Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.
Pamphlets explanatory of the New Feature may be had on application at Compy's Office.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 27. WHOLE NUMBER 1223. | NEW YORK, SATURDAY, JANUARY 29, 1887. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS

Publication Office, 240 Broadway, N. Y.

WE are glad to learn that the circular prescribing tests for steel to be furnished for the new vessels of war is now in the hands of the Public Printer and will be ready for issue in a few weeks. It has been so long in preparation that the steel makers have begun to despair of ever seeing it.

FROM those in a position to know, it is learned that the next move proposed by the friends of the Bureau Consolidation bill is to insert it as a rider in the Naval Appropriation bill. It is not likely that greater success will attend it in this form if it should fail as an independent measure.

WE publish this week the Court-martial order in the case of 1st Lieut. CHAS. HUMPHREYS, 3d U. S. Art., to which we referred last week, and which has given rise to such various newspaper criticisms. The remarks of Major-General SCHOFIELD, the reviewing authority, cover the ground so completely that further comment is unnecessary, and would be ill-timed.

THE establishment of a Hospital Corps for the U. S. Army seems to be generally favored judging from correspondence received this week, some of which had been written without knowledge of the bill on the subject recently introduced in the Senate (S. 1119), and published in the JOURNAL of last week (page 508). The friends of the measure should give it prompt and earnest attention.

PRESIDENT CLEVELAND, as will be seen by orders published this week, has decided to have a Court of Inquiry at Fort Cœur d'Alene to investigate the allegations of certain civilians against Colonel FRANK WHEATON and Lieutenant S. E. CLARK, 2d U. S. Infantry, lately on duty at the post in question—the former as commander and the latter as quartermaster. Colonels H. M. BLACK and J. W. FORSYTH, of the line, and Lieutenant-Colonels J. M. MOORE and T. F. BARR, of the staff, compose the court, which is to organize March 14 next.

REFERRING to the English opinion, which we recently quoted, to the effect that elaborate and costly fortifications should be superseded by sunken mortars, the San Francisco *Post* most sagely says: "We seem doomed to keep at the rear of the procession, but we should be very careful before we decide to trust our safety to the disinterested advice of our foreign friends. If they are correct, we can once more hold up our heads. We are rather short on steel armor, but we can rival any of the effete monarchies in the production of holes in the ground."

THE initiative toward a further increase in the naval establishment was taken in the House this week by Messrs. LAWLER, HERBERT, and THOMAS, each of whom introduced measures contemplating very liberal appropriation for the construction of new ships. Mr. LAWLER makes the very broad proposition to appropriate a lump sum of fifty millions of dollars for the construction of such vessels as the Secretary of the Navy may deem necessary. Mr. HERBERT'S bill recommends an appropriation of $4,000,000 for the construction of two steel cruisers of 4,000 tons displacement, four of 720 tons and one torpedo boat. Mr. THOMAS'S measure contemplates a total appropriation of $5,000,000 for the construction of two steel cruisers of the type of the *Newark*, five steel gunboats of the type of Gunboat No. 1, and six cruising steel torpedo boats of 150 feet in length to have a speed of 24 knots.

THE conferees on the Army appropriation bill reached an agreement on Monday last, and the measure is now in the hands of the President for signature. The text of the bill as it will become a law will be found elsewhere. In the final adjustment of the items in dispute, the Senate receded from the amendments authorizing a clerk to General SHERMAN and providing for additional pay to the commanding officer at Fort Leavenworth; and the House conferees accepted the Senate amendment increasing the appropriation for the manufacture of small arms, from $300,000 to $400,000. The other items were unimportant and no trouble ensued in reaching an agreement.

CHAIRMAN HERBERT, of the House Appropriation Committee, expects to report the Naval Appropriation bill to the House during the early part of next week, probably on Monday. It is now practically complete. It is understood that the appropriations will be considerably larger than last year, liberal provision being made for drydocks, ordnance and ordnance plant and torpedoes. As soon as the committee has disposed of the naval bill the several bills pending for the increase of the naval establishment will be considered. Either the HERBERT or THOMAS bills will receive a favorable report, and some of the members confidently believe that one of them will be enacted into a law before the session expires.

THE Board on the revision of the Army Regulations continues to push the work with much vigor. General Benét, the president of the Board, has not been able to spend much time in the board room during the past few days, his other duties as acting Secretary of War and Chief of Ordnance requiring most of his time, but the other members have been in session daily. The progress made by the Board this far warrants the belief that the work can be completed within the next eight months, and that the book can be reduced to about one-quarter of its present size. They will greatly enhance the value of their work if they will omit all copies of blanks of the Administrative Departments, and then interleave with blank pages, so that amendments and changes can be added in their proper place from time to time.

LIEUTENANT-COLONEL HENRY L. CHIPMAN, 7th U. S. Infantry, will be retired for age on Tuesday next, Feb. 1, after over a quarter of a century's efficient service. When the War of the Rebellion broke out he was residing in Michigan, and was at once appointed Captain of the 11th U. S. Infantry, and soon afterward Lieutenant-Colonel of the 2d Michigan Infantry. In 1864 he was appointed Colonel of the 102d U. S. Colored Troops and received the brevet of Brigadier General of Volunteers for gallant and meritorious services during the war. For gallantry at Chancellorsville he received the brevet of Major and for gallantry at Gettysburg the brevet of Lieutenant Colonel in the Regular Army. He was promoted Major of the 3d Infantry, Oct. 29, 1873, and Lieutenant-Colonel of the 7th Infantry May 19, 1881. General CHIPMAN is at present at Detroit on leave, and will doubtless make that city his future home.

THE House Military Committee in its report on the bill authorizing a hospital corps of the Army, say: "The plan of organization meets the hearty indorsement of the Surgeon General, and, when carried into effect, will settle the question of pay for cooks and nurses, especially referred to by the Secretary of War in last report, and will give a compact body of trained men to discharge the duties of hospital stewards and attendants, and at the same time relieve the company rolls of regiments of names purporting to be soldiers, but who are ever missing from the ranks on duty at hospital. The increase of pay to stewards has been the subject of petition and recommendation year after year, and the committee believe that a man fit to be a hospital steward deserves and ought to receive the pay recommended to be allowed him in the amendment."

NOTWITHSTANDING the distressing necessity for steel guns under which the Navy labors, a shortage in money at the Naval Ordnance Factory, Washington, has necessitated the suspension of nearly all work and the discharge of a large percentage of the most valuable artisans. This will never do. A big gun cannot be constructed properly by odd jobs, and it is better not to begin a piece of modern ordnance until there is a certainty of being able to keep it continually *en train* from beginning to end. It is this constant liability to exhausted appropriations that handicaps a Government shop in this country, in comparison with private works, and in so far other things being equal, the private firms will carry out a given contract in any branch of construction with less loss of time (which is money) than a shop under governmental control. It is hoped that an urgent deficiency bill will enable the Washington Ordnance Yard to proceed with the work of assembling the material purchased abroad into breech-loading guns for our nucleus of a new Navy.

THE proposed amendment to the soldiers' retirement law reducing the length of service from 30 to 25 years, does not meet with the approval of the War Department. That fact was made known through endorsements upon the petition forwarded to the House this week from a number of non-commissioned officers and enlisted men of the 19th Inf. and 8th Cavalry, stationed at Fort Brown, Texas. This is what the Lieutenant General has to say on the subject: "This matter was carefully considered at the time of the passage of the act of Feb. 14, 1886, and it is not deemed advisable to make the change suggested. The act possesses, however, one defect—under its provisions a person in civil life who may have had thirty or more years' service as an enlisted man can obtain none of the benefits of the law, as it applies only to those who may be in service at the time they request retirement. Though this class is undoubtedly small yet if any change is made in the law, I believe it should be only made to cover their case." A number of retired enlisted men of the Army residing in Philadelphia, have petitioned Congress, through Mr. RANDALL, against the passage of the provision in General BRAGG'S bill, changing the pay of retired enlisted men, on the ground that the proposed law would work a reduction in their present pay.

PERSONAL ITEMS.

CAPTAIN A. H. GOODLOE, U. S. Army, retired, is visiting at Pass Christian, Miss.

GEN. SIMON CAMERON arrived in New York this week, en route to the Bermudas.

LIEUTENANT H. J. SLOCUM, 7th Cavalry, has joined at Jefferson Barracks, Mo., for duty.

MAJOR W. H. FORWOOD, Surgeon, U. S. A., has joined at Fort Meade, Dakota, as Post Surgeon.

SECRETARY OF WAR ENDICOTT returned to Washington this week from a short visit to Massachusetts.

MAJOR E. V. SUMNER, 5th U. S. Cavalry, commandant of Fort Reno, is visiting in Washington on leave.

CAPTAIN R. G. SMITHER, 10th U. S. Cavalry, on leave from Fort Thomas, Ariz., is visiting at Indianapolis.

CAPTAIN WILLIAM BADGER, 6th U. S. Infantry, will leave Fort Douglas, Utah, next week for a short visit East.

LIEUTENANT D. R. C. CABELL, 8th U. S. Cavalry, on leave from San Antonio, is visiting at Richmond, Va.

LIEUTENANT G. R. BURNETT, 9th U. S. Cav., visiting at Lafayette Hill, Pa., has had his leave extended one month.

GENERAL J. C. FREMONT, at present residing at Washington, celebrated his seventy-fourth birthday on Jan. 22.

QUARTERMASTER W. W. WOTHERSPOON, 12th U. S. Inf., returned to Madison Barracks, N. Y., this week, from a short leave.

MRS. HAZEN, widow of Gen. W. B. Hazen, U. S. A., left Havre for New York, Jan. 22, and may be expected early next week.

MAJOR B. F. POPE, Surgeon, U. S. A., was expected at Fort Clark, Tex., this week, to take charge of medical matters there.

CAPTAIN G. S. WILSON, 12th U. S. Infantry, visiting in Washington, D. C., will return to Sackett's Harbor, N. Y., towards the end of February.

CAPTAIN S. M. MILLS, 5th U. S. Art., of Fort Monroe, Va., is still in Washington, engaged on special business connected with the Signal Bureau.

LIEUTENANT O. M. LISSAK, 4th U. S. Artillery, on sick leave, from Fort Adams, R. I., until November next, is in Europe for the benefit of his health.

LIEUTENANT H. C. CABELL, 14th U. S. Infantry, who arrived in Washington last week from Vancouver Barracks, goes abroad for a few months.

LIEUTENANT S. C. MILLS, 12th U. S. Inf., on duty with Indian prisoners at Fort Marion, Fla., comes North next week to remain for two or three months.

LIEUTENANT J. W. DUNCAN, 21st U. S. Inf., lately called to Washington by the death of his father, General Thomas Duncan, will remain East until April.

LIEUTENANT J. R. WILLIAMS, 3d U. S. Art., and Mrs. Williams, at present travelling in Europe, will return home in March and locate at Fort McHenry, Maryland.

CAPTAIN H. L. GALLWEY, British Army, A.-D.-C. to General Gallwey, Governor of Bermuda, arrived in New York this week and registered at the Hotel Brunswick.

COLONEL H. M. BLACK and Captain G. M. Randall, 23d U. S. Inf., rejoined at Fort Wayne, Mich., early in the week, from Court-martial service at Washington Barracks, D. C.

LIEUTENANT-COLONEL W. F. DRUM, 12th U. S. Inf., recently promoted, will remain for the present on duty as Inspector-General of the Dept. of Arizona, with station at Los Angeles.

CHAPLAIN DAVID WILLS, U. S. Army, retired, lately residing in Washington, D. C., has received a call to the pastorate of the North Tenth Street Presbyterian Church, Philadelphia.

CAPTAIN H. B. BIRMINGHAM, Assistant Surgeon, U. S. A., who leaves Fort Columbus, N. Y. H., on Tuesday next on a fortnight's leave, is to be married in New York City, Feb. 3, to Miss Myra E. Clarke.

MAJOR-GENERAL O. O. HOWARD, U. S. A., delivered a lecture on "Grant as a Youth, an Officer, and a Man," at Metropolitan Hall, San Francisco, Jan. 21. The proceeds of the lecture were devoted to charitable purposes.

LIEUTENANT F. D. HOWELL will discuss "Reminiscences" on Tuesday next before the United Service Club of Philadelphia. He will be followed, on Feb. 16, by Gen. R. E. Patterson, whose subject will be "Memories of West Point forty years ago."

GENERAL STEWART VAN VLIET, U. S. Army, says the *Critic*, gave a dinner party a few evenings ago to General Schuyler Hamilton, of New York, and Judge Sylvanus Wilcox, of Illinois. It must have been a jolly dinner, for the three, host and guests, were not only classmates, but roommates at West Point forty-nine years ago.

GENERAL FITZ-JOHN PORTER, U. S. Army, says the Washington *Post*, attended the President's reception last Thursday. His features have changed but little in the last ten years, except that age is beginning to tell on him, and he still wears a gold-rimmed pair of eyeglasses on his prominent nose. He had his wife on his arm and they fell in at the foot of a long line, so that it was some moments before they reached the President.

LIEUTENANT JAMES MACKLIN, 11th Inf., has been granted leave to withdraw from the files of the House of Representatives the papers in support of his case. The passage of this bill, which was for restoration to rank in the 22d Infantry, which he would have held had he remained in the Service, would be of no advantage to him at this time, as his rapid promotion in the 11th places him in better position for promotion to captaincy than in the 22d Infantry.

CAPT. H. C. CUSHING, 4th U. S. Art., left Fort Trumbull, Conn., early in the week on a short leave.

LIEUTENANT L. F. BURNETT, 7th U. S. Infantry, on leave from Fort Washakie, is visiting at 184 Madison street, Brooklyn.

LIEUTENANT A. R. PAXTON, 15th U. S. Inf., lately visiting in Virginia, has joined at David's Island, N. Y. H., for duty.

ASSISTANT SURGEON C. C. BARROWS, U. S. A., at present North on leave, will return to Fort Marion, Fla., early in February.

CAPTAIN A. L. MORTON, late of the 5th U. S. Artillery, visited former comrades at Governor's Island on Tuesday of this week.

LIEUTENANT C. N. CLINCH, "the millionaire officer of the Army," as the daily papers like to call him, is now of the 3d U. S. Cavalry.

MAJOR JAMES GILLISS, U. S. A., Gen. Willcox's Chief Quartermaster, left Washington this week on his return journey to Fort Leavenworth.

GENERAL H. W. WESSELLS, U. S. A., has left Litchfield, Conn., and starts for Tallahassee, Fla., Monday, Jan. 31, to remain there for the winter.

MAJOR G. F. ROBINSON, Paymaster, retains his station at El Paso, but will hereafter report to Gen. Stanley, commanding the Department of Texas.

SURGEON P. F. HARVEY, U. S. A., of Washington, D. C., has been appointed Professor of Surgery in the Medical Department of the National University.

LIEUTENANT C. L. COLLINS, 24th U. S. Infantry, and Mrs. Collins, arrived in New York early in the week from a tour of Europe, and go shortly to Fort Elliott, Tex.

CHAPLAIN GEORGE ROBINSON, U. S. A., in charge of educational matters in the Army, has taken a suite of rooms for himself and family at 2601 Pine street, St. Louis.

MAJOR G. A. ARMES, U. S. A., retired, recently appointed Superintendent of the Military School at Oxford, Md., has been commissioned a Colonel in the Maryland National Guard.

LIEUT. E. B. WEEKS, 5th U. S. Inf., is to be married, Feb. 3d, at Fort Porter, N. Y., to Miss Harriet A. Ovenshine, daughter of Major S. Ovenshine, 23d U. S. Inf., Commandant of Fort Porter.

AT a meeting last week at Topeka of the Kansas Historical Society, Generals Sheridan, Van Vliet, Rucker, Card, Fremont, Drum, and Philip St. George Cooke, U. S. A., were elected honorary members.

GENERAL W. T. SHERMAN, U. S. A., attended the installation on Monday evening of the officers of the U. S. Grant Post, G. A. R., and made an excellent speech alluding to the death that afternoon of General Chas. P. Stone.

COLONEL J. SUMNER ROGERS, formerly of the 1st Inf., is at the Ebbitt on business relating to the crack military school which he established and is president of, at Orchard Lake, Mich. He has an idea of entering his battalion of cadets in the coming National Drill here, and if he does, other cadet corps must look out for hard work.—*Critic.*

THE retirement on Tuesday next, Feb. 1, of Lieut. Col. H. L. Chipman, 7th U. S. Inf., promotes Major Edward Collins, 1st, to Lieut.-Colonel 7th Infantry; Capt. Edward Moale, 3d Inf., to Major of the 1st; 1st Lieut. J. W. Hannay, 3d, to Captain, and 2d Lieut. F. B. McCoy, 3d, to 1st Lieutenant. The senior Captain of Infantry will then be Capt. H. C. Cook, of the 2d Regt., who attained his company Sept. 24, 1864.

THE officers of George Washington Post, G. A. R., were installed at the Hotel Brunswick, New York, on Wednesday evening, among them being General W. D. Whipple, U. S. A., Senior Vice Commander; Capt. C. M. Pyne, formerly of the Army, Chaplain; Gen. J. J. Milhau, formerly of the Army, Surgeon; and Lieut. J. E. Sawyer, U. S. A., Aide-de-camp to Major-General Schofield, Sergeant Major. Among those present were Pay Director J. S. Cunningham, U. S. N.; Lieut. Commander C. H. Rockwell, U.S.N.; Major General D. E. Sickles, U. S. A., and Colonel A. L. Hough, U. S. A., Superintendent of the Recruiting Service.

A. T. MYERS writes in *Nature* of Dec. 30, 1886, apropos of Dr. J. S. Billings's "Index Catalogue" of the library of the Surgeon-General's Office at Washington: "It is easy to show the vast extent of the work attempted and executed. That there are absolutely no inaccuracies in the result is hardly possible, difficult as it may be to find them. The references in this volume certainly stand many tests, and most of those who have made frequent use of the previous six volumes in practical work have acquired a confidence in their accuracy which is very rare in dealing with such an immense mass of varied languages and types and abbreviations so thickly interspersed with figures."

IN an article on the Catholic chapel at Fort Leavenworth, the Kansas City *Times* says: "Though not a Catholic, Gen. A. McD. McCook, U. S. A., has rendered himself dear to the members of that faith by his staunch support of Christianity on more than one occasion. It is not forgotten, how, in years gone by, his young arm was raised to protect Archbishop Lamey in New Mexico, when the life of that prelate hung in the balance of fate on account of the bad priests and treacherous Mexicans among whom he was sent. Bishop Scanlan, of Salt Lake, tells the tale of his rule at Fort Douglas. He was a true friend to the Sisters—so much so, indeed, that the mother of that order thought it her duty to cross the continent to thank him; and the good bishop, then Father Scanlan, would have often gone hungry were it not for the commander of Fort Douglas. The same kindly feeling seems to increase with his years, for he is to-day zealous in all things that tend to keep Christianity alive among the people. In this he displays his statesmanship, judging rightly that without Christianity as a foundation our Republic cannot last. The fair, open and honest manner in which the General acted in regard to the Catholic church at Fort Leavenworth has pleased the Bishop greatly. Our gratitude is due to this good man—this Christian soldier—and his memory will not depart with him."

GENERAL J. H. KING, U. S. A., retired, of Detroit, is visiting at Tallahassee, Fla.

LIEUT. A. B. JOHNSON, A. D. C. to Major-General Terry, left Chicago this week on a month's leave for the benefit of his health.

LIEUT. C. B. HINTON, 18th U. S. Inf., of Fort Gibson, visited at Fort Leavenworth early in the week, on his way to Washington.

THE House, on the 21st of January, passed a bill to give a pension of $50 a month to the widow of the late General Thos. Francis Meagher.

LIEUT. T. B. BRIGGS, U. S. Army, retired, of Delavan, Ill., is to undergo a course of treatment at the Hot Springs Army and Navy Hospital.

COL. E. B. BEAUMONT, Major 4th U. S. Cavalry, on leave from Fort Bowie, Ariz., arrived in New York this week, registering at the Gilsey House, and afterwards went to Washington.

GEN. C. L. KILBURN, U. S. A., of Germantown, Philadelphia, who has been suffering from a severe attack of rheumatic fever, is slowly improving, and hopes to be able to leave his bedroom in a week or two.

LIEUT. WILLIAM BAIRD, 6th U. S. Cav., has prepared an Index to the General Orders Amendatory of the Army Regulations, and an index to decisions, points on tactics, guard duty, etc., which will be issued about February 25th by J. J. Chapman, of Washington.

MRS. KENNEDY, the lady who was so severely injured in the Missouri Pacific wreck at Dunbar, Neb., last week, is improving slowly. Dr. Woodhull is the attending physician. Since her arrival at Fort Leavenworth she has been the recipient of a medal from Col. Guy V. Henry, U. S. A., as a token of her skill as a sharpshooter.—*Kansas City Times.*

COL. JOHN S. MOSBY, of guerilla fame, who now registers himself as from San Francisco, was at the Fifth Avenue Hotel this week on his way to Boston, where he is bringing out a book of reminiscence. He is practicing law there, but finds time to meet many demands on him for lectures and addresses before soldier organizations over the country. He expects a great sale for his book, as it will deal with some branches of the Confederate service about which no one else could write as well as himself.

THE will of the late Col. Julian McAllister, U. S. Army, has been filed for probate by his widow. He left an estate valued at $50,000, consisting of real estate and personal property. To his daughter, Julia G., is bequeathed all his interest in the General Island plantation in Georgia; to his brother, Hall McAllister, the watch, seal and ring which formerly belonged to their father; to his wife, Amelia, all the family furniture, plate and portraits. He appoints his wife executrix of the will and trustee of the estate, and as such directs her to pay to their daughter, Julia, $40 a month in case she desires to live in the Eastern States, and also to receive one-half of the net income of the estate and to pay each of the three daughters one-sixth of the income of the estate. At the expiration of five years, when the property shall have arisen in value, Mrs. McAllister is to divide it into four parts between herself and her daughters. The will is dated Dec. 24, 1885.

IN an article on "Ohio Men in New York," the *Tribune* says: Capt. Henry A. Glassford has transferred his devotion from the Navy, in which he served in the war, to Charles T. Wing's Wall street brokerage firm. Navy officers, as well as Army men, speak of him as one of the accomplished officers of the volunteer navy and of fine administrative ability. Charles T. Wing was an officer in the Quartermaster's Department in the Southwest during the war, and gained credit for his services. Among the best known lawyers in the city is General Wager Swayne, U. S. A. He was wounded in the war, and is now fighting the battles of Western Union, Wabash, or any enterprise in which Mr. Gould and his associates are interested, wherein they require the legal aid of Dillon and Swayne. The General is a large man of genial nature; he is a terrific worker, and has reduced to a fine point the art of shaking hands cordially with a caller and then dashing rapidly away to his law papers. Gen. Sherman is hailed as the latest arrival by Ohio men. There has been a good deal of speculation as to how the General would take to New York life, even whether he would take to it at all. Some who professed to know him asserted that he would feel like a fish out of water. They were wholly in the wrong. Gen. Sherman, in slang parlance, has "caught on" to New York life promptly and heartily. He is overwhelmed with social attentions.

MR. LABOUCHERE, editor of the London *Truth*, has a sharp criticism on General Adam Badeau, Captain U. S. Army, retired, who has been publishing in the New York *Tribune* some very ill-advised reminiscences of his association with General Grant. He says: "Some people may still have a vague recollection of a transatlantic person named Badeau, who, a good many years ago, held the post of United States Consul in the British metropolis. While the late General Grant was alive, Badeau was the great soldier's henchman; and now that he is dead, the occupation of henchman being gone, Badeau has taken up the *role* of his late chief's chiffonier. His most recent contribution is a narrative of the Grants' visit to the Queen at Windsor, an episode he recounts in a fashion at once amusing and impertinent—the amusement, indeed, springing chiefly from the writer's smug unconsciousness of his impertinence." As Jesse Grant bore a prominent part in the episode which the *Truth* especially criticizes, he is included in its censures, and we are told that "Jesse left throughout Europe a well-earned reputation as a cub of the first order." The affair described by Badeau was a dinner at Windsor Castle, and in concluding its article *Truth* says: "Badeau assures us it is untrue that at the after-dinner reception Jesse said, speaking of her Majesty, 'Pa, introduce us,' as it seems was alleged at the time in America, where, of course, Jesse and his manners were best known. On the contrary, we are informed that he behaved with propriety, and 'like a young gentleman.' He had carried his point, and, as Badeau adds complacently, 'he could afford to be polite,' assuming, it may be suggested, that he knew how."

CAPTAIN M. C. WILKINSON, 3d U. S. Infantry, was a guest at the Grand Union Hotel, New York, this week.

MAJOR C. A. WIKOFF, 14th U. S. Infantry, visited New York this week, locating at the Westminster Hotel.

CAPTAIN A. L. MYER, 11th U. S. Infantry, under his recent promotion, goes from Fort Bennett to Fort Sully, Dakota.

MACRAE SYKES, son of the late General Sykes, is at present residing with his sister, Mrs. Moul, at 323 W. 59th street, N. Y. city.

MRS. JAMES A. GARFIELD and Miss Mollie Garfield are at the Murray Hill Hotel, New York City, for the remainder of the winter.

GENERAL F. E. SPINNER, a well-remembered former Treasurer of the U. S., celebrated his 85th birthday at Jacksonville, Fla., Jan. 21.

CAPTAIN ROGERS BIRNIE, O. D., U. S. A., will go to Sandy Hook as soon as the new 8-inch gun arrives there from the Boston Iron Works.

LIEUT. JOHN BIGELOW, Jr. 10th Cav., is the happy father of a boy, who has recently taken up his temporary residence on Gramercy Park, New York, with his grandfather, the Hon. John Bigelow.

POST Q. M. SERGT. JAMES A. REAGAN, now on duty at San Francisco, is a strongly endorsed candidate for a commission as 2d Lieutenant in the Army. A board will probably be convened some time in the spring for his examination.

THE record of the proceedings of the Court-martial in the case of 2d Lieut. Walshe, of the Signal Corps, are in the hands of the Acting Judge-Advocate General. Lieut. Walshe has been ordered to report to Capt. Greely under arrest, and it is inferred from this that the sentence is more severe than a reprimand.

THE following Army officers are registered at the office of the Adjutant-General this week: Major W. R. King, Engrs.; 1st Lieut. Irving Hale, Engrs.; 1st Lieut. Edward S. Farrow, 21st Inf.; Lieut.-Col. W. E. Merrill, Engrs.; Capt. Robt. G. Smither, 10th Cav.; 2d Lieut. Lewis D. Greene, 7th Inf., 2d Lieut. Parker W. West, 3d Cav., and Capt. G. E. Overton, 6th Cav.

EX-GOVERNOR STONEMAN, of California, who voluntarily resigned from the retired list of the Army in September, 1882, when he was nominated for Governor of his State, is now an applicant for restoration to his former position. Resolutions of the Senate and Assembly of his State were presented in the two houses of Congress this week urging his restoration.

LIEUTENANT B. K. ROBERTS, 5th U. S. Artillery, was married at Brooklyn, N. Y., Jan. 25, to Miss Julia A. Roberts, daughter of Mr. Richard S. Roberts, a New York merchant. The ceremony was performed at the residence of the bride's parents, 260 Clinton Avenue, Brooklyn, and after a short tour the married couple will go to Fort Columbus, N. Y. H.

IT has been rumored for some time past, and this week the report appears in print, that Adjutant General R. C. Drum will apply to be retired in May next, when he reaches the age of 62 years. Our information is that he does not at present contemplate asking to be relieved from active duty. He could retire on the 18th of next month under the 40 years service act, or on the 28th of May, under the 62 years age law, but so long as he continues in good health it is not likely that he will take advantage of his opportunities for retirement.

GEORGE WASHINGTON was above the necessity of spelling correctly. But it is interesting to observe that he defined orthography with the same calm courage with which he opposed the troops of England, and met the fire of the Indians on the occasion of Braddock's retreat He once wrote to the congregation of the Dutch Reformed Church of Schenectady: "I sincearly thank you for your congratulations on my arrival in this place. Whilst I join in adoring that now Supreem Being, to whom alone can be attrebuted the signel success of our arms, I cannot but express my gratitude to you gentlemen," etc.

THE Canteen Club is now in its second month of existence, and to judge from the manner in which it is getting along it bids fair to take the place of the defunct Army and Navy Club. Lieut. G. N. Whistler, 5th U. S. Artillery, is president, Capt. J. Amory Haskell, 12th N. Y., vice president, and Capt. W. H. Murphy, 12th N. Y., secretary. Prominent among the present members are Colonel John Hamilton and Capt. W. E. Van Reed, 5th U. S. Artillery; 1st Lieut. R. Patterson, 1st U. S. Artillery; Gen. M. T. McMahon, Commodore Benham, U. S. N.; Gen. D. D. Wylie, N. G. S. N. Y.; Col. W. C. Church, Gen. J. M. Varian, N. G. S. N. Y.; Capt. Daniel Appleton, 7th N. Y.; Capt. J. M. Brady, 12th N. Y.; Major Edward Duffy, 69th N. Y., and a host of others. "We drink from the same canteen" is the Club's motto. The service of the club is exclusively tin, from the punchbowl to the coffee cup. Dinners are limited to one dollar, and no member is allowed to treat another.

THE *Pioneer Press* has the following nautical despatch from Chicago, Jan. 21:

Colonel H. E. Nichols, U. S. N.; W. H. Slayton and Thos. T. Caswell, U. S. N., arrived at the Grand Pacific to-day. Colonel Nichols is a lieutenant-commander in the Navy, stationed at Sitka, Alaska. The colonel is on a leave of absence and is en route to Washington, his mission being, as he termed it, "to make things interesting" for Gov. Swineford, of Alaska. Colonel Nichols says that since Mr. Swineford has been Governor he has had a serious attack of the "big head," and not only desires to run his office to his own interest, but the Navy also, much to the disgust of the colonel. Colonel Nichols claims that the Governor has for some time been proving very obnoxious to him and has been seemingly interfering with his prerogatives as lieutenant-commander of the Navy, and has also been using his influence to have him removed. The colonel says he has not been able to leave his ship until recently, and now will improve the first opportunity of going to Washington personally and laying his grievance before the President and Secretary of the Navy. He says he thinks he can make things very interesting for Gov. Swineford before matters are adjusted.

REAR ADMIRAL SHUFELDT, U. S. N., is visiting the King of Corea.

ASSISTANT ENGINEER E. R. FREEMAN, U. S. N., is visiting relatives at Jackson, Miss.

PAYMASTER A. W. BACON. U. S. N., registered at the Brevoort House, New York, on Wednesday.

CHIEF ENGINEER ABSALOM KIRBY, U. S. N., was a guest at the Colonnade Hotel, Philadelphia, this week.

THE Navy Mutual Aid Association will call an assessment to cover the death of Paymaster W. N. Watmough, Feb. 3.

THE Senate on Friday passed the bill giving back pay to Rear Admiral Samuel P. Carter of the retired list of the Navy.

COMMANDER H. C. TAYLOR. U. S. N, has an instructive article on "The Needs of New York Harbor," in the February number of the *Forum*.

LIEUTENANT. J. S. ABBOTT, U. S. Navy, who entered the Naval Hospital at Brooklyn with typhoid fever in December last, is convalescent and has gone on sick leave.

LIEUT. COMMANDER F. W. CROCKER, U. S. N., who was severely injured last fall at Newport, R. I., is slowly improving. His broken leg still gives trouble, and his full recovery is still in the distance.

BY the retirement of Medical Director Dungan this week, a vacancy is made for the promotion to that grade of Medical Inspector David Kindleberger. This officer has already been examined for promotion.

LIEUT. LUCIEN YOUNG, U. S. N., has been spending a brief while in Washington recently, while perfecting his arrangements at the Department for passing the remainder of his leave outside of the United States.

THE beautiful memorial tablet to Dr. James M. Ambler, U. S. N., of the *Jeannette* Expedition, who perished on the Lena Delta in the autumn of 1881, is on public exhibition at the Ninth Annual Exhibition of the New York Salmagundi Club.

SO, AFTER all it seems that the capital is not to be benefited by the going out of commission of the *Hartford*, to the extent of having Captain Gillis assigned to duty there, as he is placed on duty with the Board of Inspection at San Francisco, Cal.

J. D. CUMMINGS, who was convicted in three of the Navy fraud cases and sentenced in January, 1885, to two years in jail and fined $2,000 was pardoned Jan. 26, by the President. His time would have expired that day, but the pardon remits the payment of the fine.

CAPTAIN GILBERT C. WILTSE, U. S. N., who this week passes out of the list of commanders, has recently purchased a house in New York City, where he will make his residence in future when off duty. Capt. Wiltse still has nearly fourteen years to serve on the active list.

LIEUT. C. W. RUSCHENBERGER, U. S. N., is fortunate in his recent assignment to duty on the receiving ship *St. Louis*, inasmuch as it enables him to be near his family. The lieutenant is a son of Medical Director Ruschenberger, U. S. N., retired, who lives at 1932 Chestnut street, Philadelphia.

COMMANDER YATES STIRLING, U. S. N., is assigned to command the receiving ship *Dale*, Washington, D. C. Commander Stirling is a resident of Baltimore, and will probably continue to live there, as he is no farther from his sphere of duty living in that city than he would be in many parts of the District of Columbia.

THE friends of Commander Sands, of the Navy, will be pleased to learn that since his arrival in Switzerland with his family the health of Mrs. Sands has steadily improved, and hopes are entertained of her complete recovery. A sister of Commander Sands, the wife of Rear Admiral Franklin, has been spending the winter with them, but will rejoin her husband this spring on the Mediterranean. The address of Commander Sands is Fribourg, Switzerland.

THE recent assignment of Lieut. J. H. C. Coffin, U. S. N., to duty in connection with the procurement of gun steel is a most fitting one, for the service at the Washington Ordnance Yard is a good preparation for just such duty as that upon which Lieut. Coffin is about to enter. A few months of practical experience in the fabrication of breech blocks, trunnion sights, and fermatures, is a valuable addition to the excellent education acquired at Annapolis.

THE retirement January 25 of Rear Admiral McCauley, U. S. N., was under the forty years' service law. He would not have been retired for age until Nov. 2, 1888. The retirement of Admiral McCauley and the death of Commodore Johnson promotes Commodore L. A. Kimberly, Capts. W. H. McCann and Jas. H. Gillis, Commanders Gilbert C. Wiltse and James O'Kane, Lieut.-Comdrs. Felix McCurley and John McGowan, Jr., Lieuts. Joseph N. Hemphill and Abraham B. H. Lillie, Lieuts. (junior grade) Bradley A. Fiske and Frank H. Holmes, Ensigns John M. Orchard and Hiero Taylor.

SECRETARY WHITNEY has reached the conclusion that while the triple expansion engines will increase the cost of construction of vessels, there will be so much saved in running expenses that the payment of a higher price for the engines will in the end prove economical. The engineer officers made designs for compound engines for Gunboat No. 1, but the Secretary concluded to adopt the triple expansion engines and awarded the contract to Messrs. Cramp and Sons. The Secretary has so firmly convinced himself of the superiority of the triple expansion engines that he has instructed the Bureau of Steam Engineering to destroy the plans for the machinery of cruiser No. 1 and prepare plans which will have in view triple expansion engines for that vessel. The cost of construction with triple expansion engines will still further exceed the limit of the law, but the Secretary is confident that he will secure an additional appropriation for the vessel that will be sufficient to pay for its construction with the new type of machinery.

LIEUTENANT COMMANDER THOS. PERRY, U. S. N., is a recent guest at the Lindell House, St. Louis.

COMMANDER P. H. COOPER, U. S. N., rejoined at Norfolk, Va., this week from a trip to New York.

MAJOR A. S. NICHOLSON, Adjutant and Inspector of the Marine Corps, inspected the marine barracks, etc., at Norfolk, Va., Jan. 19.

CAPTAIN EDW. FIELD, 4th Art., Mrs. Field, and Lieut. W. McCarty Little, U. S. N., participated in private theatricals at Newport, Jan. 22.

REAR-ADMIRAL C. H. BALDWIN, U. S. N., and Mrs. Baldwin, who sailed last week for Europe, will spend some time in the south of France.

GUNNER JOSEPH SWIFT, U. S. N., who recently attempted suicide at the Mare Island Navy-yard, has recovered from his injuries and been discharged from hospital.

WE regret to learn of the failing health of Mrs. E. B. Barry, wife of Lieut. E. B. Barry, U. S. N., of the *Alliance*, since the death of her little boy. Mrs. Barry is at present with her mother in Brooklyn.

P. A. PAYMASTER L. A. YORKE again appeared before the Naval Examining Board on Thursday. He conducted his defence himself, having no counsel, although granted permission to employ legal advice. The Board will doubtless adhere to its former decision in his case, viz., that he is morally unfit for the Service.

THE "Revista General de Marina," of Madrid, publishes a translation of the paper by Lieut. Bradley A. Fiske, U. S. Navy, on "Electricity in War," read before the Franklin Institute and referred to in the ARMY AND NAVY JOURNAL at the time. The title of the article in the *Revista* is "La Electricidad en la Guerra—Conferencia Celebrada en el Instituto Franklin, por El T. N. B. A. Fiske, de la M. de los, E. U."

COMMANDER CHARLES MCGREGOR, of the *Alliance*, in his report to the Secretary of the Navy from Valletta, Malta, January 1, which we have already quoted, said that H. B. M. ship *Scout*, one of the new type recently built, arrived in port the last of December. The commanding officer said that she was placed at seventeen knots and had made it in smooth water, but that he called her a sixteen-knot ship. In making this speed, the ship vibrates so much that even old sailors are made to feel sick.

THE following officers registered at the Navy Department this week: Rear Admiral D. McN. Fairfax, retired; Lieut. E. P. Wood, Lieut. Comdr. H. E. Nichols, Chief Engineer Thom Williamson, Lieut. Comdr. S. W. Very, Asst. Surgeon T. A. Berryhill, Lieut. J. H. C. Coffin, P. A. Surgeon E. H. Marsteller, Rear Admiral J. R. M. Mullany, retired; Ensign J. H. Rohrbacher, Lieut. Comdr. R. E. Impey, Pay Inspector John H. Stevenson, Cadet Engineer R. B. Higgins, Prof. L. F. Prud homme, Ensign H. McL. P. Huse, and Ensign M. K. Eyre.

"STROLLER" in the Philadelphia *Times* says: "A good-looking man, with a tall, military figure and a long blonde moustache, was busy writing letters in the Reading room of the Lafayette. It was Chief Engineer J. L. D. Borthwick, U. S. Navy. Mr. Borthwick had just passed his examination at the Post Office and secured his grade. 'Although I have been in service over twenty-five years,' said he, 'I had to get out my books and study up to pass a theoretical examination. Promotion is exceedingly difficult in the Engineer Corps and can only be obtained through deaths, resignations or retirements, all of which are very slow.'"

PRESIDENT CLEVELAND has sent to Congress the sword of the late Capt. Samuel Chester Reid, who commanded the United States private armed brig-of-war, *General Armstrong* at the battle of Fayal, in September, 1814. The action has well been called the "Thermopylæ of the Ocean," for no naval battle in ancient or modern history is comparable with that of the *Armstrong* at Fayal, either as to the unequal forces engaged, the unyielding and inflexible bravery of her officers and crew, nor as to the grand results which followed in the defeat of the British expedition against Louisiana. The sword was presented by Col. S. C. Reid, son of Capt. Reid, and will be placed in the National Museum.

SECRETARY WHITNEY is quoted as saying, in regard to the report that Lieut. Emory had asked to be allowed to go to the North Pole in the *Thetis*, that the United States had something else to do with its vessels, naval officers and sailors, besides sending them off on arctic expeditions. "I will not say, however," continued the Secretary, "that there will be no such expeditions under the present Administration, but certainly not with my consent or from any such suggestions on my part." One of the Marine officers is quoted as saying: "The story that Lieut. Emory wants to push his way through the ice in the direction of the North Pole is true. Emory is a courageous man. He thinks the *Thetis* is a good vessel for an arctic voyage, and would like nothing better than to make the trial. He is tired, as many other young officers are, with the humdrum life in the Navy, and would accept any service as a welcome diversion."

THE *Herald* has another fit of hysterics; this time it is a nautical fit. It says in a despatch from Washington, Jan. 23:

It is a girl.
Secretary Whitney is the happy father.
And Senator Payne is again a happy grandfather.
The luck of the Cleveland Administration is unabated.
Never before has there been so much that was lovely and lovable concentrated in two years of public life here in Washington.
A President with a bride of twenty-two.
A member of the Cabinet a bridegroom at sixty-two.
The Secretary of the Navy the happy father of a little daughter born this morning.
Secretary Whitney is the only member of a cabinet that is remembered by the oldest inhabitant to have contributed to the population of the United States during his official term.
The household of Secretary Whitney is rejoicing over the advent of the little miss over whose birth all the good fairies who come to bless a Sunday child evidently presided. The little one is pronounced by those few who have seen it, including the masculine attendants of the Secretary's household, a perfect beauty. Mrs. Whitney is very well indeed.
This is the fourth child of those now living, the older ones being two boys and a girl, Miss Pauline, who is about twelve years old and the youngest next to the baby born to-day.

THE FORTY-NINTH CONGRESS.

The Military Academy appropriation bill is still in the hands of the Senate appropriations committee.

Senator Hawley has presided at the last two meetings of the Senate Military Committee. There seems to be no likelihood now of an appointment of a successor to Gen. Logan, and it is probable that Senator Hawley will continue to act as chairman for the rest of the session.

The Senate Committee on Military Affairs on Tuesday decided to report favorably the nominations of Major Wm. P. Chambliss, 2d Lieut. Humphreys, and all the other pending cases, except those in the Medical Corps. No bills of importance were acted upon.

At a meeting of the House Committee on Military Affairs on Tuesday favorable action was taken on the bill for the reorganization of the Adjutant-General's Department of the Army. The purpose of the committee is to bring this bill forward as one of the important measures to be acted upon in the event of a night session being allotted by the House for the consideration of military matters. If the bill can be pushed through the House this session there is no doubt about it going through on the other side.

The following petition, in the form of a bill, authorizing the appointment of naval apprentices to positions of warrant officers, was presented in the House by Mr. Curtin on Wednesday and referred to the Committee on Naval Affairs:

A bill directing the Secretary of the Navy to appoint as acting boatswains and gunners such persons who are or may have been in the naval service as apprentices and who now hold certificates as seamen gunners issued since 1880; also such apprentices, carpenters and sailmakers, and who have served their apprenticeship at the various Navy-yards: *Provided*, That the active list of each grade shall not exceed sixty, and that all vacancies hereafter shall be filled from this class of men, and also directing that the Secretary of the Navy order a warrant officer of each grade for duty on all ships of over 600 tons register and two each of boatswains and gunners on all vessels employed as recruiting or training ships; one each for ship's duty and the others for instructors for recruits and boys.

The Sundry Civil Appropriation bill as reported by the Senate Appropriation Committee, Jan. 28, recommends a total increase over the bill as it came from the House of $2,940,444.09. Among the items included in this amount are: $100,000 for the construction of hospital buildings at Dayton, Ohio, Soldiers' Home; $60,000 for a similar purpose for the Fort Leavenworth Soldiers' Home; $12,000 for improvements at Rock Island Arsenal; $20,000 for a milling shop at Springfield Arsenal; $7,500 for a brick annex to the Army Medical Museum building; $30,000 increase for the maintenance of the Signal Corps, and $50,000 for a survey of a boundary line between Alaska and British Columbia under the direction of the Secretary of the Navy. The text of this clause will be found in the JOURNAL of Jan. 15, p. 497.

The fate of most of the military legislation that may reasonably be expected to have a show of passage during the remainder of the short session, depends largely upon the action of the Committee on Rules on Gen. Bragg's resolution for a night session for the consideration of military measures. Should the Committee report in favor of the resolution its adoption by the House will no doubt follow. Gen. Bragg is quite hopeful of getting the night session. If he does it is his purpose to first push for consideration the Senate bills that have been acted upon by the Committee. The most important of these are the Chicago military post bill, the bill organizing a hospital corps, and the bill amending Article of War 103, and to increase the efficiency of the Army. Several additional amendments to the Articles of War are in contemplation. These Gen Bragg will offer as additional sections to the latter bill when it is brought up for consideration. He also intends to modify the clause regarding the pay of retired officers. His sole object in putting in this provision, he says, was to cut off longevity pay to retired officers, or in other words to nullify the Tyler decision. It has been pointed out to him that the clause as it now stands might have a more serious effect and he is willing to correct it so as to carry out his original object.

BILLS INTRODUCED.

Amendment intended to be proposed by Mr. Morgan to the bill (H. R. 5190) to enlarge the powers and duties of the Department of Agriculture and to create an Executive Department to be known as the Department of Agriculture and Labor, viz.:

Sec. —. That the United States Signal Service Bureau is hereby transferred to the , and shall consist of one Chief and such subordinate officers and employees as may be necessary to efficiently manage said Bureau. Until otherwise provided by law the present organization of the subordinate force of said Bureau shall continue as at present, except that those enlisted for service in said Bureau shall hereafter be regarded as civil employees thereof, subject to removals as in other cases. The Chief of said Bureau shall receive an annual compensation of $4,000 and be appointed by the President, by and with the advice and consent of the Senate; and the moneys appropriated for said service and hereafter appropriated shall be disbursed under the direction of the head of the

By Mr. Lawler. *Resolved*, That the Committee on Naval Affairs be instructed to inquire into and report upon the expediency of immediately appropriating the sum of $50,000,000, to be expended under the direction of the Secretary of the Navy, for the construction, equipment, and armament of such new vessels of war as may be deemed necessary by him; such sum to become and remain a permanent appropriation for the specific purpose named, not to be covered back into the Treasury at any time, but to remain available continuously for this purpose until the Congress shall otherwise direct.

S. 3198, by Mr. Butler. To provide for the construction of a steam cruising vessel of war of twenty knots speed, on the plans of Chas. G. Lundborg. Same as H. R. 10760.

H. R. 10804, by Mr. Wheeler. To effect a rearrangement of grades of office in the Adjutant General's Department of the Army. Same as. S. 3126.

H. R. 10810, by Mr. Herbert. That the President is hereby authorized to have constructed, by contract or in the Government Navy-yards, as in the discretion of the Secretary of the Navy may seem to be for the best interests of the Government, and to be constructed or contracted for in all respects according to the limitations and provisions of the act entitled "An act to increase the naval establishment," approved Aug. 3, 1886, two protected steel cruisers, each of about 4,000 tons displacement and costing in the aggregate, complete, exclusive of armament, not more than $2,600,000; also four protected steel cruisers, each of about 1,740 tons displacement, costing each, exclusive of armament, not more than $555,000; also one torpedo boat, not to cost, complete, more than $100,000, exclusive of armament. And the sum of $4,920,000 is hereby appropriated to carry out the purposes of this act.

H. R. 10829, by Mr. Morrill. That all officers of the Volunteer Army in the war of the rebellion who served the full term of enlistment and were honorably discharged shall be entitled to receive extra pay as follows, namely: Where the enlistment was for the term of one year, one month's pay proper; where the enlistment was for the term of two years, two months' pay proper; where the enlistment was for the term of three years, three months' pay proper: *Provided*, That they have not already received the benefits of the act approved March 3, 1865, and the amendatory act approved July 13, 1866.

H. R. 10871, Wakefield. That all officers of the Army, Navy, and Marine Corps who have been retired from active service by reason of wounds received or disabilities incurred in line of duty be, and they are hereby, allowed and entitled to receive, in addition to their retired pay, the same pension that is now given by existing law to other claimants for like disabilities.

H. R. 10902, Thomas. That the President of the United States is hereby authorized to have constructed, by contract, two steel cruisers, each of about 4,000 tons displacement, of the type of the *Newark*, or Cruiser No. 1, at a cost, exclusive of armament, of not more than $1,300,000; five steel gunboats, each of about 1,700 tons displacement, of the type of Gunboat Number one, at a cost, exclusive of armament, of not more than $520,000 each; six cruising steel torpedo boats, of not more than 150 feet nor less than 135 feet in length, to have a maximum speed, tested over a Government knot-course, of not less than 24 knots per hour, and a speed, with weights on board equivalent to the necessary armament and stores for sea service, of not less than 20 knots per hour, for six consecutive hours, and to cost, exclusive of armament, not more than $100,000 each; said torpedo boats to be completed and tested within eighteen months from the date of signing the contract.

Sec. 2. Each of aforesaid vessels shall be built, as near as may be, in compliance with the provisions of the act of Aug. 3, 1886, entitled "An act to increase the Naval Establishment."

Sec. 3. The sum of $5,800,000, or so much thereof as may be necessary, is hereby appropriated, out of any moneys in the Treasury, not otherwise appropriated, to carry out the purposes of this act.

H. Res. 244, Stahlnecker. That the Secretary of the Navy be, and he is hereby, directed to have compiled and printed, from the records of the Navy Department and other authentic sources, a register of the volunteer officers who served in the U. S. Navy during and subsequent to the late war of the rebellion; said register to show in each case the date and grade of original entry; the dates and grades of subsequent promotions; the period of sea, shore, or other duty, and time unemployed; the date of expiration of last cruise; the date and manner of termination and total length of service; the State in which born, State from which appointed, and present residence or last known address.

Sec. 2. That the Secretary of the Navy be, and he is hereby, directed to publish annually thereafter a similar register of such of said volunteer officers as left the Service honorably and may be known to be still living; and for the purpose of compiling and printing the register first named in this resolution, such additional clerical force, in the office of the Secretary of the Navy and that of the Fourth Auditor of the Treasury, as may be considered absolutely necessary, is hereby authorized to be employed, the compensation of said clerks and the cost of printing said register to be paid from any money in the Treasury not otherwise appropriated.

MILITARY MEN IN CONGRESS.

THE N. Y. *Sun* says: "The current notion that there are no military men left on the Republican side of the Senate, now that Logan is gone, is hardly correct. There are two full Major-Generals there now—Sewell, of New Jersey, and Mahone, who got his stars in the Confederate Service. Joe Hawley was brevetted a Major-General; Tom Bowen, of Colorado, Van Wyck and Manderson, of Nebraska, and Harrison of Indiana, were full Brigadiers; Ingalls and Plumb were both Lieutenant-Colonels. Spooner was brevetted Major in the 40th Wisconsin, Warner Miller was a Second Lieutenant in the 5th New York, and Dolph of Oregon attained the rank of Orderly Sergeant in Capt. Crawford's company, known as the Oregon Escort, raised in 1862 to protect settlers from marauding Indians on the plains. This completes the military list on the Republican side, unless Dr. Evarts be included. He is sometimes called 'General,' a rank he secured when Grant appointed him Attorney-General. On the Democratic side are a number of military geniuses, among them five full Major-Generals—Maxey, Wade Hampton, Butler, Colquitt, and Matt Ransom. George and Walthall, the Mississippi Senators, and Morgan of Alabama were Brigadiers. Maxey is the only West Pointer in the Senate."

MATERIALS FOR HEAVY GUNS.

MR. WM. P. HUNT writes a very interesting letter to the Washington *Republic*, in which he says:

Since 1830 heavy guns have been constructed in this country, of this material, improving from year to year, until Americans were as proud of their Dahlgren and Rodman guns as they were of their fleet of clipper ships. Heavier and more powerful guns were made in the United States at the commencement of our Civil War than were made by any nation on the face of the earth at that time. After the war this country dropped off into a Rip Van Winkle sleep, as far as ordnance was concerned. A new generation has come into action, and very little is known of the serviceability of gun iron as a material for heavy ordnance. Our Ordnance Department has been content to allow the achievements of Dahlgren and Rodman to pass into oblivion. Our older officers know better, but the younger are taught the theories of European engineers (for there has been no demonstration of the endurance of heavy guns in Europe), and no effort is made to continue the career of progress that was so brilliant up to the close of the war. I should not dare to state the almost incredible uniform excellence of the Dahlgren and Rodman guns if I was not able to support the statement from official records.

It is all a mistake to thoroughly conclude that a gun to be "high power" must be of stronger material than a gun of low power. The high power is produced by the length of the bore in connection with the character of the powder used. As a matter of fact, the high power guns of Europe are not subjected to the severe stress that our Dahlgren and Rodman guns have been subjected to; yet they frequently fail, while we have had no failures.

Slow-burning powder does not develop its force until the inertia of the shot is overcome; when the projectile is in motion the long bore keeps it in the hands of the powder, so to speak, until a high velocity is reached, and we have applied to the projectile the aggregate force of two guns, or a double length gun and a double charge of powder; thus we have double power in the projectile, but as this strain is distributed over twice the length of bore by gradual development, we find that the pressures upon the bore are actually within the limits of safety to our Rodman guns. One high power 12-inch Rodman breech-loading rifle has been made, and partially tested at Sandy Hook. It has been fired 137 rounds with heavier charges, both of powder and shot, than was used when the 12-inch high power gun on the Collingwood burst. How much endurance this gun will yet show, of course, cannot be said.

Admiral Shufeldt, after witnessing the firing of this gun, and after examining its record, said that, in his judgment, it should be adopted as the standard of American ordnance.

I have proposed to Congress to furnish high power Rodman rifles of gun iron, of standard dimensions, and guarantee them to endure equally with modern built up steel guns, at half the cost of such steel guns.

As our establishment has the certificate of the Chief of Ordnance that for more than half a century we have done similar work for the U. S. Government, and that in all cases our contracts have been faithfully carried out, that our experience and facilities for the production of superior iron gun metal are equal to any in the country; it would seem, if the United States desires high power guns, that such a proposition ought to be availed of. Very respectfully,

WM. P. HUNT, President South Boston Iron Works.

GENERAL STONE AND SENATOR SUMNER.

To the Editor of the Army and Navy Journal:

GEN. CHAS. P. STONE was in command of a division with headquarters at Poolesville, Md., in 1861-2. He was born in Massachusetts. Several Massachusetts regiments were in his command. Gov. Andrews, of Massachusetts, like most of the State Governors in those times, sent agents into the Army to look after the interests of States regiments, although mustered into the U. S. Service. Gen. Stone protested against such interference and finally ordered one of Gov. Andrews' agents out of his command for inciting jealousies to the hurt of discipline. This agent complained to Gov. Andrews, accusing Gen. Stone of disloyal practices. The Governor backed these accusations to Senator Sumner who, from his seat in the Senate, denounced Gen. Stone and questioned his loyalty. One dark, rainy night Gen. Stone telegraphed to one of his brigade commanders to come to his headquarters and in the presence of the chaplain asked what he would do as a soldier and man of honor. Should a Senator denounce him in the Senate as dishonorable and disloyal? He was shocked at the reply: Nothing; because a Senator has not only the right to do so, but was bound to protect the Government from such a man if he believed the charge. No man can question the right of debate in Congress. Gen. Stone then said that he was surprised and that he had sent a letter by the hands of his relative to Senator Sumner, demanding a retraction or satisfaction. Both his General and his priest begged him to ride to Washington that night and recall his letter or apologize to the Senator, urging that Mr. Sumner was famous as a non-resistant, and this would emblazon his fame, whilst it would ruin the soldier and damage the Service. A short time after he was arrested. Gen. McClellan plead for him before the Committee as an over-sensitive nature and strained pride of soldierly loyalty. Mr. Sumner did not act in the matter, but Senator Wilson incited Secretary Stanton to imprison Gen. Stone for disloyalty. His very resentment, in Quixotic self-sacrifice, was *prima facie* proof of the exact opposite. A Hotspur of a Puritan, if you please, but loyal to the core, not to men but to principles.

W. W. BURNS.

Whatever the immediate exciting cause of Gen. Stone's arrest, we have always understood that it had its justification in the minds of his persecutors, in a correspondence between Gen. Stone and a lady within the rebel lines. To this lady Gen. Scott had granted a "safe conduct," to protect her against possible depredations by our green troops. Having occasion to complain that this protection was violated, she wrote to Gen. Stone asking for his interference. As Gen. Scott had especially commended the lady to the protection of Gen. Stone, he sent her a polite reply and several letters passed between them. Unfortunately for Gen. Stone this correspondence was conducted by him directly instead of through the usual channels. No record of it was kept, or copies of the letters preserved, and out of it the suspicions of some prowling chaplain succeeded in manufacturing the charge of disloyalty which made so much trouble for Gen. Stone.

In a letter to the New York *Herald* from Tarrytown, Jan. 27, Alexander Hamilton says:

General Stone was ordered to Washington, and upon a statement that he had given a man named Hendrickson and his wife a pass to use day or night and that they had betrayed our army General Stone was arrested and without trial or court-martial of any kind was sent under military guard to Fort Lafayette. This was condemned in military circles at Washington as an unwarranted and arbitrary procedure and was attributed at the time to personal enmity on the part of Senator Sumner.

In the following month of July, after the seven days' fight, I was ordered by my brother-in-law, General-in-Chief Henry W. Halleck, to inspect the brigade raised by General Frank Spinola in New York. I went to his headquarters, then known as Lafayette Hall, on Broadway, near Houston Street. While waiting for General Spinola an officer entered, haggard and careworn and in a battle-stained uniform.

"Colonel, what are you doing here?" I exclaimed.

"I have resigned," he answered.

For a few moments we discussed the condition of affairs and then he took out a wallet and producing a paper said—"You know the signature of many old Army officers. Whose is this?"

I looked at it carefully and answered, "Colonel Robert T. Williams, Assistant Adjutant-General to General Banks."

"That's so," said he. "You may read it."

It was a pass "to Hendrickson and his wife to pass our lines night or day."

"Why, that," said I, "was charged against Gen. Charles P. Stone, for the alleged granting of which he was arrested and ordered to Fort Lafayette by General McClellan. You must go and see him at once and show him this."

I could not induce him to do so, however; but I immediately communicated with General Halleck.

This was on Saturday. The following Wednesday Gen. Stone was in Washington. Gen. Halleck told me that he went himself to the War Department, had all the records searched, and that there was not the scratch of a pen against Gen. Charles P. Stone. Gen. Stone was restored to his rank, his back pay given him and he was sent to Gen. Banks in New Orleans. He distinguished himself at Port Hudson, and served his country faithfully, as he always had done. His honorable career since the war I need not refer to.

THE following cadet appointments for the Military Academy were made this week: Spencer Cosby, at large: Alexander M. Davis, at large; Jacob G. Lazelle, at large; Oliver J. Shepherd, New York City; Henry A. Pipes, Clinton, La.; Dwight W. Ryther, West Seneca, N. Y.

ARMY APPROPRIATION BILL AS PASSED.

FOLLOWING is the text of the bill making appropriations for the support of the Army for the fiscal year ending June 30, 1888, as it finally passed both Houses of Congress and becomes a law:

For pay of officers of the line, $2,868,000; additional pay for 23 aids, one military secretary, and mounted officers of foot regiments, $8,000; service pay, $812,770; pay of enlisted men, $4,668,868; general service clerks and messengers, $161,900; pay of the general staff, $408,240; pay of staff officers, including service pay, $1,205,410; retired officers, $1,190,313.75; retired enlisted men, $56,241; miscellaneous, $91,675.94. For pay of not exceeding 65 contract surgeons, not exceeding 160 hospital matrons, and not exceeding 14 veterinary surgeons, in all, $102,875.94. For pay of not exceeding 46 paymasters' clerks, at $1.400 each, not exceeding 30 paymasters' messengers, and travelling expenses of paymasters' clerks, in all, $83,800.

Provided, That the maximum sum to be allowed paymasters' clerks when travelling on duty shall be four cents per mile, and, in addition thereto, when transportation cannot be furnished by the Quartermaster's Department, the cost of same actually paid by them, exclusive of sleeping or parlor car fare and transfers.

Expenses of courts-martial and courts of inquiry and compensation of witnesses attending the same, $10,000; additional pay to officer in charge of public buildings, etc., in Washington, $500; for commutation of quarters to commissioned officers on duty without troops, at places where there are no public quarters, $150,000; for allowances for travel, retained pay, clothing not drawn, and for interest on deposits, payable to enlisted men on discharge, in all, $850,000.

For mileage to officers when travelling on duty without troops, when authorized by law, not to exceed $85,000.

Provided, That in disbursing this amount the maximum sum to be allowed and paid to an officer shall be four cents per mile, distance to be computed over the shortest usually travelled routes, and, in addition thereto, upon the officer's certificate that it was not practicable to obtain transportation from the Quartermaster's Department, the cost of the transportation actually paid by the officer over said route or routes, exclusive of sleeping or parlor car fare and transfers. *And provided further*, That when any officer so travelling shall travel in whole or in part on any railroad on which the troops and supplies of the United States are entitled to be transported free of charge, he shall be allowed for himself only four cents per mile as a subsistence fund for every mile necessarily travelled over any such last-named railroad.

Making in all for pay of the Army, $12,661,918.69. All the money hereinbefore appropriated shall be disbursed and accounted for by the Pay Department as pay of the Army, and for that purpose shall constitute one fund.

Subsistence of the Army.—For the purchase of subsistence supplies, estimated for the fiscal year on the basis of 9,968,450 rations, and for miscellaneous charges, $1,745,000, to be expended under the direction of the Secretary of War; and not more than $110,000 thereof shall be applied to the payment of civilian employees of the Subsistence Department.

Quartermaster's Department.—Regular supplies, $2,678,000.

Provided, That no part of this appropriation shall be expended on printing unless the same shall be done by contract, after due notice and competition, except in such case as the emergency will not admit of the giving notice for competition.

Incidental expenses: $675,000.

Provided, That $225,000 of the appropriation for incidental expenses, or so much thereof as shall be necessary, shall be set aside for the payment of enlisted men on extra duty at constant labor of not less than ten days; but no such payment shall be made at any greater rate per day than is fixed by law for the class of persons employed and the work done.

For purchase of horses for cavalry and artillery, and for the Indian scouts, and for such infantry as may be mounted, $130,000:

Provided, That the number of horses purchased under this appropriation, added to the number on hand, shall not at any time exceed the number of enlisted men and Indian scouts in the mounted service; and that no part of this appropriation shall be paid out for horses not purchased by contract, after competition duly invited by the Quartermaster's Department, and an inspection by such Department, all under the direction and authority of the Secretary of War.

Army transportation, $2,800,000.

Provided, That no part of this appropriation shall be expended in the purchase for the Army of draught animals until the number on hand shall be reduced to 5,000, and thereafter shall only be expended for the purchase of a number sufficient to keep the supply not exceeding 5,000.

Arrears of Army transportation on certain land-grant railroad, $50,000.

Provided, That such compensation shall be computed upon the basis of the tariff rates for like transportation performed for the public at large, and shall be accepted as in full for all demands for such services.

Barracks and quarters, $620,000.

Provided, That no expenditures exceeding $500 shall be made upon any building or military post, or grounds about the same, without the approval of the Secretary of War for the same, upon detailed estimates by the Quartermaster's Department; and the erection, construction, and repair of all buildings and other public structures in the Quartermaster's Department shall, as far as may be practicable, be made by contract, after due legal advertisement: *And provided further*, That no more than $1,300,000 of the sums appropriated by this act shall be paid out for the services of civilian employees in the Quartermaster's Department, including those heretofore paid out of the funds appropriated for regular supplies, incidental expenses, barracks and quarters, Army transportation, clothing, and camp and garrison equipage; and that no employee paid therefrom shall receive as salary more than $150 per month, unless the same shall be specially fixed by law; and no part of any of the moneys so appropriated shall be paid for commutation of fuel and for quarters to officers or enlisted men.

For shelter and shooting galleries and ranges, and repairs thereof, $10,000. Construction and repairs of hospitals, including the extra-duty pay of enlisted men employed on the same, $100,000. Hot Springs Hospital, $7,500 (for elevator and painting and hard oil finish). For construction of quarters for hospital stewards, including the extra-duty pay of enlisted men employed on the same, $9,600.

Provided, That the posts at which such quarters shall be constructed shall be designated by the Secretary of War, and the quarters shall be built by contract, after legal advertisement, whenever the same is practicable; but the cost of the construction of quarters at any one post shall in no case exceed $800.

Clothing, camp and garrison equipage, $1,150,000.

Provided, That out of the money hereby appropriated for clothing and equipage of the Army there shall not be expended at the Military Prison at Fort Leavenworth a sum in excess of $125,000.

Medical Department, $200,000; and not over $36,000 of the money appropriated by this paragraph shall be applied to the payment of civilian employees of the Medical Department.

For service of the Army and Navy Hospital at Hot Springs, Arkansas, $10,000.

Medical Museum and Library, $15,000.

Engineer depot at Willet's Point, $6,500.

"For current expenses of the ordnance service required to defray the current expenses at the arsenals; of receiving stores and issuing arms and other ordnance supplies; of police and office duties; of rents, tools, fuel and lights; of stationery and office furniture; of tools and instruments for use; incidental expenses of the ordnance service, and those attending practical trials and tests of small arms and ordnance supplies, including payment for mechanical labor in the office of the chief of ordnance, $80,000. For manufacture of metallic ammunition for small-arms and ammunition for reloading cartridges, and tools for the same, including the cost of targets and material for target practice, $100,000. For repairing ordnance and ordnance stores in the hands of troops, and for issue at the arsenals and depots, $5,000. For purchase and manufacture of ordnance stores to fill requisitions of troops, $75,000. For infantry, cavalry and artillery equipments, including horse equipments for cavalry and artillery, $75,000. For manufacture of arms at the National Armory, $400,000."

Provided, That not more than $60,000 of the money appropriated on the Ordnance Department in all its branches shall be applied to the payment of civilian clerks in said Department.

Recruiting service, $100,000.

Signal service, $3,000.

Contingent expenses.—Office Lieutenant-General, $1,200. A. G. Dept., at headquarters of military divisions and departments, $2,000; under the immediate orders of the Secretary of War, $15,000.

The following items were stricken from the bill before its passage:

For pay of one clerk for the General of the Army, on the retired list, $1,600.

For additional pay to the officer commanding the Military Prison at Leavenworth, Kansas, $1,000.

(From the New York Sun.)

GEN. RAWLINS' MANLY LETTER TO GRANT.

BEFORE VICKSBURG, MISS., June 6, 1863, 1 o'clock, A. M.

DEAR GENERAL: The great solicitude I feel for the safety of this army leads me to mention what I had hoped never again to do—the subject of your drinking. This may surprise you, for I may be, and I trust I am, doing you an injustice by unfounded suspicions; but if an error, it better be on the side of his country's safety than in fear of offending a friend. I have heard that Dr. McMillan, at General Sherman's a few days ago, induced you, notwithstanding your pledge to me, to take a glass of wine, and to-day, when I found a box of wine in front of your tent and proposed to move it, which I did, I was told you had forbid its being taken away, for you intended to keep it until you entered Vicksburg, that you might have it for your friends; and to-night, when you should, because of the condition of your health if nothing else, have been in bed, I find you where the wine bottle has just been emptied, in company with those who drink and urge you to do likewise, and the lack of your usual promptness of decision and clearness in expressing yourself in writing tended to confirm my suspicions.

You have the full control of your appetite and can let drinking alone. Had you not pledged me the sincerity of your honor early last March that you would drink no more during the war, and kept that pledge during your recent campaign, you would not to-day have stood first in the world's history as a successful military leader. Your only salvation depends upon your strict adherence to that pledge. You cannot succeed in any other. As I have before stated, I may be wrong in my suspicions, but if one sees that which leads him to suppose a sentinel is falling asleep on his post, it is his duty to arouse him; and if one sees that which leads him to fear the general commanding a great army is being seduced to that step which he knows will bring disgrace upon that general, and defeat to his command, if he fails to sound the proper note of warning, the friends, wives and children of those brave men whose lives he permits to remain thus imperilled will accuse him while he lives and stand swift witnesses of wrath against him in the day when all shall be tried. If my suspicions are unfounded, let my friendship for you and my zeal for my country be my excuse for this letter; and if they are correctly founded, and you determine not to heed the admonitions and the prayers of this hasty note by immediately ceasing to touch a single drop of any kind of liquor, no matter by whom asked or under what circumstances, let my immediate relief from duty in this department be the result.

I am, General, your friend,
JOHN A. RAWLINS.

The retained copy of this letter was indorsed by General Rawlins as follows:

This is an exact copy of a letter given to the person to whom it was addressed at its date, about four miles from our headquarters in the rear of Vicksburg. Its admonitions were heeded, and all went well.
JOHN A. RAWLINS.

With reference to this letter, Chas. A. Dana, late Asst. Secretary of War, says in the *Sun*: "We were alone with Gen. Grant at some distance from his headquarters near Vicksburg when Gen. Rawlins rode up and delivered that admirable communication. It was a dull period in the campaign. The siege of Vicksburg was proceeding with regularity. No surprise from within the doomed city or from without was to be apprehended; and when Grant started out in drinking, the fact could not imperil the situation of the army or of any member of it except himself. After putting Rawlin's missive in his pocket he wound up by going on board a steamer, which he had ordered for an excursion up the Yazoo River, and getting as stupidly drunk as the immortal nature of man would allow; but the next day he came out as fresh as a rose, without any trace or indication of the spree he had passed through. So it was on two or three other occasions of the sort that we happened to know of. The times were chosen with perfect judgment, and when it was all over, no outsider would have suspected that such things had been. We conclude now, as Mr. Lincoln and Mr. Stanton concluded at the time, that while this tendency to occasional drunkenness constituted a serious defect in Grant's character, it really did not disqualify him for successful command."

(From "Our Naval Policy," by Prof. Soley, in Scribner's Magazine for February.)

UNITED STATES NAVAL OFFICERS.

IT has been the fashion in certain quarters to abuse the personnel of the Navy, and to represent it as a horde of idlers serving no useful purpose and feeding at the public crib, the older members holding comfortable billets, where their only duty is to draw their monthly pay, and the younger engaged in pleasure trips in foreign countries, or hanging about Washington, where their time is taken up with various forms of social frivolity. For one who knows them as they really are, it is hard to find words to characterize with sufficient force and indignation the grossness and malignity of these caricatures. As a matter of fact, the officers of the Navy, to-day, form a body of patient, hard-working, earnest men, of singular resource and adaptability, eager and efficient in the performance of duty. Their life is a trying one, and the difficulties with which they must contend are unknown in ordinary civil occupations. A large part of the officer's career is passed under the closest restraints of military discipline. The ordinary wear and tear of professional service tells upon the mind and body to an extent far greater than in other walks of life. The intercourse of home, the *vie d'intérieur*, which forms the balance-wheel of so many overworked human machines, is, at best, broken, fitful, interrupted. On board the ship at sea, where the physical horizon is unobstructed, the mental horizon is narrowed down to companionship for three years with a dozen or a score of men in the same profession, penetrated with the same ideas, absorbed in the same occupations, surrounded and cramped by the same routine. The officer may have his books, but the conditions of ship-life are unfavorable to study. He visits other countries, but he cannot reap the benefits that come from foreign travel; he is tied to the ship, he skims the coasts and puts in at the seaports, he is always confined by the limitations of the cruise. If he goes on leave, after the binding restraints of ship life, what he needs and must have is relaxation, pure and simple. It is a rare man who would get much else from such short and infrequent holidays. In his service afloat, which fills the larger part of his career, especially the first half of it, he is cut off from that general and broadening intercourse with men in other occupations, that stimulating, metropolitan atmosphere, that eternal movement of thought and of affairs which rubs away the sharp edges of prejudice and tradition, and which makes the great centres of activity, in whatever direction—intellectual, artistic, commercial—the only places in which a man can acquire breadth of view and mental vigor—in which he can *meubler l'esprit*, as the French say—in this nineteenth century.

Conceive for a moment the situation of any great civil organization, that of the Pennsylvania Railroad, for instance, under such a system, with a corps of officials holding their places by a permanent tenure, promoted strictly in the order in which they entered, each one regarding it as an indefeasible right that he should forever be the superior of all those who had ever been his juniors, and all forever debarred from any recompense for capacity or effort. With such a system it is safe to say that in ten days the organization would go to pieces. It is objected that considerations of social or political influence would occasionally make bad promotions. The experience of the Army, where promotion by selection obtains to a limited extent, is against such a theory. The promotions are, perhaps, not absolutely the best that could be made, but they are never bad; while with a system of promotion by seniority they must often be bad. It is also said, and truly, that a system of selection would cause disappointment and heart-burnings. But what disappointment of inferior men who are passed over is to be compared with the bitterness of soul of the man who, conscious of his worth and of his powers, finds himself handicapped in the struggle of life and sinking into apathy from the want of recognition?

SPECIAL PENSIONS.

FROM 1861 up to 1884 there were 29 pensions granted by special acts of Congress giving $50 per month to the widows or other dependents of General officers. Among these were the cases of Gens. Hackelman, Anderson, McPherson, Canby, Lorenzo Thomas, Shields, Heintzelman, Rousseau, Custer, Ramsey, and Warren. To this is added the name of the widow of Alfred B. Mecham, who was killed while acting as Chairman of the Peace Commission to the Modoc Indians in 1882. A yearly pension of $5,000 is granted by a special act to each of the widows of five Presidents of the United States, Mrs. Lincoln, Mrs. Polk, Mrs. Tyler, Mrs. Garfield and Mrs. Grant. Mrs. Geo. H. Thomas receives $2,000 yearly, an amount granted in only one other instance, that of Mrs. Farragut. Special acts have also been passed pensioning at the rate of $30 per month in eight cases, namely, to Mrs. Rodman, Mrs. Reno, Mrs. Corcoran, Mrs. Bayard, Mrs. Daniel McCook, Mrs. Kearney, and Mrs. Rawlins. Since 1884 40 bills have been passed providing a pension of $50 per month to the widows or dependents of officers and ex-officers of high rank. These include Mrs. Steedman, Mrs. Kilpatrick, Mrs. Blair, Mrs. Humphrey, Mrs. Paul, Mrs. Stannard, Mrs. Alvord, Mrs. Lamott, and others. From all these records it seems that there are over a hundred of General officers' widows receiving pensions, a few of whose husbands were not in the Service at the time of their death.

LATE ARMY ORDERS.

1st Lieutenant Lewis H. Strother, 1st Infantry, is detailed as Professor of Military Science and Tactics at the Virginia Agricultural College, Blacksburg, Va.

1st Lieutenant J. C. Gresham, 7th Cav., is relieved at his own request, and ordered to join his troop.

Leave for two days, to date from Jan. 27, is granted Col. Daniel McClure, assistant paymaster general, (New York City.) (S. O. Div. A., Jan. 28.)

THE ARMY.

ARMY NOMINATIONS TO THE SENATE.

January 25, 1887.

To be Chaplains—The Rev. Wm. F. Hubbard, of New York, Jan. 21, 1887, vice Brady, deceased.

The Rev. Henry Swift, of Dakota, Jan. 21, 1887, vice Crocker, retired from active service.

G. O. 97, H. Q. A., Dec. 31, 1886.

1. The accompanying tables, exhibiting the results of the rifle and carbine firing of the Army for the target year 1886, and the comparative proficiency attained by different organizations, are published for the information of the Army.

2. Co. D, 3d Inf., the winner of the Nevada Trophy for 1885, having the highest General Figure of Merit for the target year of 1886 is again awarded the Trophy, and it will be held by the company commander until the result of the next year's firing is announced.

3. In announcing the results of the rifle and carbine practice of the year the Lieutenant General Commanding desires to express to the officers and men of the Army his appreciation of their efforts to perfect themselves in the use of their arms and his gratification at the results of their practice, which has now brought the Army to the highest state of proficiency they have yet attained. In the coming year he desires to especially commend to their attention the skirmish firing, which with its special features forms the most important part of their musketry instruction, and from which when brought to the test of battle the greatest practical advantages would follow.

By command of Lieut. Gen. Sheridan:
R. C. DRUM, Adjt.-Gen.

[The tables, having been heretofore given to some extent in the JOURNAL, are not recapitulated here.—ED. JOURNAL.]

G. O. 7, H. Q. A., Jan. 18, 1887.

By direction of the Secretary of War requisitions for street car and ferry tickets will be prepared by officers of the Quartermaster's Department upon Form No. 44, Quartermaster's Department, and forwarded through proper channels to the Quartermaster General for the necessary authority to purchase. These requisitions will exhibit the number, character, and cost of tickets required, and the certificate of the officers submitting the same should setforth that the tickets are for use in the messenger service on public business exclusively.

The tickets, when purchased, will be taken up on Form No. 27, Return of Quartermaster's Stores, and expended solely in the performance of messenger service on public duty.

In cases where street car companies have no tickets on sale, reimbursement for car fares paid may be made on Voucher No. 13, Quartermaster's Department.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 8, H. Q. A., Jan. 21, 1887.

G. O. 1, January 3, 1882, from this office, relating to sick leaves of absence, is hereby revoked.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

CIR., WAR DEPARTMENT, A. G. O., Jan. 20, 1887.

Announces that the National Bank, of Los Angelos, Cal., a United States depository, has been specially designated for the reception, safe keeping, and disbursement of public funds pertaining to the War Department.

STAFF CORPS AND DEPARTMENTS.

Quartermasters and Subsistence Departments.

Capt. Wm. S. Patten, A. Q. M., Vancouver Barracks, will proceed on public business to Portland, Ore. (S. O. 6, Jan. 8, D. Columbia.)

Pay Department.

Major James P. Canby, Paymr., will proceed to Fort Townsend, W. T., and pay the troops at that post (S. O. 8, Jan. 12, D. Columbia).

Major George F. Robinson, Paymr., is relieved from furtner duty in the Dept. of Arizona, and will report to the Comdg. Gen., Dept. of Texas, for duty, retaining his station at El Paso (S. O., Jan. 22, H. Q. A.)

Major Francis S. Dodge, Paymr., will proceed, not later than Feb. 1, to West Point, N. Y., on public business (S. O. 18, Jan. 27, Div. Atlantic).

Medical Department.

Capt. Samuel Q. Robinson, Asst. Surg., will proceed to Fort Ringgold, Tex., on public business (S. O. 7, Jan. 15, D. Texas).

Hospl. Steward John S. Sweeney will proceed to Fort Du Chesne, Utah, and report for duty (S. O. 6, Jan. 18, D. Platte).

Engineers and Ordnance Departments.

Capt. Carl F. Palfrey, C. E., will proceed from Oswego, N. Y., to Forts Porter and Niagara, N. Y., on public business, and on completion will return to his proper station (S. O., Jan. 27, H. Q. A.)

Major James C. Post will proceed, via Barboursville, W. Va., to Roger's Mill Dam on the Guyandotte River, on duty connected with works under his charge (S. O. 14, Jan. 24, C. E.)

Capt. Clinton B. Sears will proceed to Sioux City, Iowa, on duty connected with works under his charge, and return, on completion thereof, to his station at Bismarck, Dak. (S. O. 12, Jan. 20, C. E.)

Lieut. Col. John W. Barlow will proceed, via Nashville, Tenn., to the point chosen as the site for the proposed county bridge between Hyde's and Buena Vista ferries on the Cumberland River, on duty connected with works under his charge, and return, on completion thereof, to his station at Chattanooga, Tenn. (S. O. 13, Jan. 21, C. E.)

Major William A. Jones will proceed to Toledo, Wash., on duty connected with works under his charge (S. O. 13, Jan. 21, C. E.)

Capt. Charles F. Powell is relieved from duty as member of the Board of Officers of the Corps of Engineers constituted by S. O. 183, H. Q., C. of E., Nov. 30, 1886, and Lieut. Edward Burr is detailed as a member of the Board (S. O. 13, Jan. 21, C. E.)

1st Lieut. Wm. C. Langfitt, C. E., will proceed on public business to Portland, Ore. (S. O. 9, Jan. 13, D. Columbia.)

Capt. John G. Butler, O. D., will proceed to Colt's Armory, near Hartford, on public business connected with the O. D. (S. O., Jan. 22, H. Q. A.)

Ord. Sergt. Robert F. Joyce, whose term of service expires Jan. 31, will proceed to Washington Barracks, for discharge and re-enlistment (S. O. 17, Jan. 26, Div. Atlantic).

Capt. Rogers Birnie, Jr., O. D., will proceed to Sandy Hook, N. J., on public business (S. O., Jan. 24, H. Q. A.)

Capt. James Rockwell, Jr., Ord. Dept., will proceed from Rock Island Arsenal, Ill., to Jackson and Pass Christian, Miss., and thence to Forts Jackson and St. Phillip, La., on public business, and on completion thereof will return to his proper station (S. O., Jan. 27, H. Q. A.)

Signal Corps.

2d Lieut. Frederick R. Day, Signal Corps, will proceed to Pittsburg, Pa., and carry out special instructions, as received from the acting Chief Signal Officer (S. O., Jan. 25, H. Q. A.)

Before a G. C. M., at St. Francis Barracks, Fla., was tried: Sergt. Wm. W. Thomas, Sig. C. Charge: conduct to the prejudice, etc.; 4 specifications, reciting that whilston duty at Cedar Keys, he did, with a deadly weapon, assault Lieutenant Charles A. Barnes, U. S. Revenue Marine Service, and used to that officer, vile, threatening, insulting and abusive language, threatened to kill him, and in Cedar Keys did behave in a highly disorderly manner, by flourishing and repeatedly discharging a pistol, and using profane language. Plea—Not Guilty. Finding—Guilty on the main counts. Sentence—To be reduced to the grade of first class private, and to forfeit to the United States $20 of his pay. Major General Schofield approves the proceedings, findings and sentence (G. C. M. O. 5, Div. Atlantic, 1887).

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho.

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex.; G, Camp at Eagle Pass, Tex.; E, Camp Rice, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott, Tex.

The C. O. San Antonio will send fifty-seven recruits for the 3d Cavalry to Fort Davis (S. O. 9, Jan. 18, D. Tex.)

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

Leave for fifteen days is granted 1st Lieut. C. H. Watts (S. O. 7, Jan. 17, Dept. M.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

7th Cavalry, Colonel James W. Forsyth.

Hdqrs. B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

The leave granted 2d Lieut. Baldwin D. Spilman is extended one month (S. O., Jan. 24, H. Q. A.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; D, Camp Del Rio, Tex.; E, F, G, K, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

1st Lieut. J. H. King, having completed the duties assigned him, will return to Nevill's Springs, Tex. (S. O. 8, Jan. 17, D. Tex.)

9th Cavalry, Colonel Edward Hatch.

Hdqrs., D, and H, Ft. McKinney, Wyo.; C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

The leave for one month granted 1st Lieut. George R. Burnett is extended one month (S. O. 9, Jan. 20, Div. M.)

Leave for one month, with permission to apply for an extension of one month, to take effect about Feb. 8, is granted 2d Lieut. Philip A. Bettens, Jr., Fort Robinson, Neb. (S. O. 7, Jan. 20, D. Platte.)

Leave for three months, to take effect March 15, provided there shall be at that time another officer of his troop present for duty, is granted 2d Lieut. William D. McAnaney (S. O., Jan. 26, H. Q. A.)

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.

* Light battery.

The extension of leave on account of sickness granted 1st Lieut. Christopher W. Harrold is still further extended six months on account of sickness (S. O., Jan. 24, H. Q. A.)

Before a G. C.-M. at Washington Barracks, D. C., of which Col. Henry M. Black, 23d Inf., was president, was tried 1st Lieut. Charles Humphreys, 3d Art. Charge—"Disobedience of orders." Specification—"In that, having received orders from his commanding officer, Col. H. G. Gibson, 3d Art., through the officer of the day, 2d Lieut. John D. Barrette, 3d Art., and again through the sergeant of the guard, Sergt. Leo Benjamin, Bat. H, 3d Art., which order forbade the use of the ponds at the post, for skating and similar purposes, by children and others, he did refuse and fail to obey the same, and did decline to remove his children from off said pond or ponds, where he well knew them then to be, as it was his duty to have done. This at Washington Barracks, D. C., on the 29th December, 1886." Plea—"Not Guilty." Finding—"Guilty." Sentence—"To be reprimanded in orders by the reviewing authority, and to be confined to the limits of the post, where his battery may be serving, for the period of thirty days." The proceedings, finding, and sentence are approved. While there may be ground for a reasonable doubt whether or not Lieut. Humphreys was guilty of disobedience of orders, he was clearly guilty of neglect of duty in that he failed to promptly cause to be obeyed by members of his family an order from his commanding officer applicable to them. His plea that the order was based upon a misapprehension and was uncalled for cannot justify his conduct in failing to enforce it. Prompt enforcement by heads of families of post orders concerning those under their control is indispensable to the good order of a military post, and is one of the conditions upon which persons not in the Army are permitted to reside within the limits of the post. It is the opinion of the Division Commander that this case is one which could have been properly disposed of by the commanding officer, and that it was not of such gravity as to necessitate the preferring of formal charges for the action of a General Court-martial. This would appear, from the sentence imposed, to be the opinion of the court. The confinement imposed by the sentence of the court is remitted, in consideration of the duration of the arrest already suffered. Lieut. Humphreys will be released from arrest and resume his duties.

By command of Major-General Schofield:
JOSEPH P. SANGER, Aide-de-Camp.

(G. C.-M. O. 7, Jan. 25, Div. Atlantic.)

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.

* Light battery.

1st Lieut. Henry H. C. Dunwoody, A. S. O., will proceed to Spuyten Duyvil, N. Y., New York City, and Philadelphia, and carry out special instructions received from the Acting Chief Signal Officer (S. O., Jan. 25, H. Q. A.)

The journey by Capt. John P. Story, from Fort Warren to Dutch Island, Hamilton, and Pontiac, R. I., and return to station, is confirmed, being necessary for the public service (S. O. 18, Jan. 27, Div. A.)

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, H, and M, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Douglas, Utah; E, Ft. Schuyler, N. Y.; K, Ft. Wood, N. Y. H.

* Light battery.

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, F, I, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal.; B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.

2d Lieut. Benjamin S. Wever, now at the Presidio of San Francisco, will proceed to his station, Benicia Barracks, Cal. (S. O. 3, Jan. 10, Div. P.)

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

A furlough for four months is granted 1st Sergt. Vernon Westbrook, Co. B (S. O. 9, Jan. 20, Div. M.)

In Orders 1, of Jan. 1, Col. J. R. Brooke announces that the march by John Phillip Sousa, entitled "The Rifle Regiment," and dedicated by him "To the officers and men of the 3d U. S. Infantry," will be the regimental "March Past Quickstep," and will be played by the band whenever the regiment or a battalion at headquarters "pass in review" in quick time.

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Cœur d'Alene, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

1st Lieut. George N. Chase, A. D. C., will proceed to Mojave and Los Angeles, Cal. (S. O. 3, Jan. 10, Div. P.)

Capt. Edwin M. Coates will inspect subsistence stores at Fort Cœur d'Alene, for which 1st Lieut. Henry E. Robinson, A. C. S., is accountable (S. O. 10, Jan. 15, D. Columbia.)

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

1st Lieut. J. M. T. Partello, A. C. S. Fort Keogh, M. T., will send, by express, to the nearest depository, subsistence funds not required to meet the wants of the post (S. O. 6, Jan. 17, D. Dak.)

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, D, F, G, and K, Ft. Douglas, Utah; E, Salt Lake City, Utah.

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, D, F, and H, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.; C and K, Ft. McKinney, Wyo.

2d Lieut. J. E. McCoy is announced as Aide-de-Camp to Brig.-Gen. Gibbon (G. O. 1, Jan. 15, D. Columbia.)

Leave for one month, upon Surgeon's certificate is granted 1st Lieut. Alfred B. Johnson, A. D. C., Chicago (S. O. 11, Jan. 24, Div. M.)

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C and I, Ft. Robinson, Neb.; D and K, Ft. Bridger, Wyo.

The journey performed by Lieut.-Col. Montgomery Bryant, from San Francisco to Fort Niobrara, in joining his regiment, is approved for mileage (S. O., Jan. 21, H. Q. A.)

9th Infantry, Colonel John S. Mason.

Hdqrs., F, H, I, and K, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; E, San Diego Bks., Cal.; A and G, Ft. Apache, A. T., C, Ft. Mojave, A. T.

The leave granted 1st Lieut. George Palmer is extended three months (S. O., Jan. 24, H. Q. A.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, and I, Ft. Union, N. M.; F and H, Ft. Bliss, Tex.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

The leave for seven days granted 1st Lieut. C. S. Burbank, Fort Lyon, Colo., is extended ten days (S. O. 6, Jan. 14, Dept. M.)

The leave for one month granted Capt. Joel T. Kirkman is extended one month, with permission to apply for a further extension of two months (S. O. 5, Jan. 17, Div. P.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

The following promotions are announced: 1st Lieut. Albert L. Myer, Co. I, to be Captain of Co. E, Dec. 8, vice Wikoff, promoted; 2d Lieut. Jonas A. Emery, Co. K, to be 1st Lieutenant Co. I, Dec. 8, vice Myer, promoted (S. O. 7, Jan. 21, D. Dak.)

Capt. Leon A. Matile, now on leave of absence in Washington, will report by letter to the Superintendent of the Recruiting Service, New York City, to conduct the first detachment of recruits which may leave David's Island, N. Y. H., for the Dept. of Dakota, and then join his company (S. O., Jan. 26, H. Q. A.)

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., A, B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.

Leave for one month, with permission to apply for an extension of two months, is granted 1st Lieut. Stephen C. Mills, Fort Marion, Fla. (S. O. 16, Jan. 25, Div. A.)

With the compliments of Adjutant F. A. Smith comes a handsome Roster of Commissioned Officers, 12th U. S. Infantry, for January, 1887. The regiment has now its full complement of officers, all of whom may be said to be on duty, as only two are absent on leaves which shortly expire.

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Brs., Wash. T. A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

The C. O. Vancouver Barracks will send Capt. James Kennington, under charge of 1st Lieut. Frank Taylor and two enlisted men, to Washington, D. C. (S. O. 7, Jan. 10, D. Columbia.)

The leave granted 2d Lieut. Henry C. Cabell, Jr., is extended three months, with permission to go beyond sea (S. O., Jan. 21, H. Q. A.)

The leave granted 2d Lieut. Alfred Hasbrouck, Jr., is extended three months (S. O., Jan. 21, H. Q. A.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, C, F, and H, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

Co. A, 16th Inf., takes the button. Seven of her members have just been dishonorably discharged and commenced a month's confinement for destroying the property of one Max Garza, occupied by two colored women. They were not content with raising a row but wilfully and maliciously threw stones and other missiles into the house, destroying beds, tables, washstands, china and glassware and clothing.—*K. C. Times.*

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

1st Lieut. Cornelius Gardener will proceed to Fort Ringgold on public business (S. O. 7, Jan. 15, D. Tex.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

The C. O. Fort Wayne, Mich., is authorized to issue a furlough for two months to Sergt. George Cole, Co. H (S. O. 17, Jan. 26, Div. A.)

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

The leave for seven days granted 1st Lieut. F. H. Mills, R. Q. M., Fort Supply, I. T., is extended twenty-three days (S. O. 6, Jan. 14, Dept. M.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, January 22, 1887.

CASUALTY.

Brigadier-General William B. Hazen, Chief Signal Officer, died January 16, 1887, at Washington, D. C.

Retired Officers.

Authority is granted for the admission of 1st Lieut. Thomas B. Briggs (retired), to the Army and Navy General Hospital, Hot Springs, Ark., for treatment (S. O., Jan. 24, H. Q. A.)

Military Academy.

The following cadets, 3d Class, are turned back to join the present 4th Class at once: William F. Clark and John H. Wholley. On the statement of the post surgeon that continued sickness had materially interfered with his ability to study, Cadet David G. Spurgin, 3d Class, is turned back to join the present 4th Class at once. The following cadets of the 2d Class, reported deficient in study, will be allowed to go on with their class and be required to make up their deficiency to the satisfaction of the Academic Board by June, 1887: Edward R. Chrisman, George E. Stockle, and William R. Sample (S. O., Jan. 24, H. Q. A.)

Courts-martial.

The following courts have been ordered:

At Fort Ringgold, Tex., Jan. 24. Detail: Major Reuben F. Bernard, 8th Cav.; Capt. W. Fitzhugh Carter, Asst. Surg.; 1st Lieut. John A. Payne, 19th Inf.; 1st Lieut. Samuel R. Whitall, 16th Inf.; 1st Lieut. Cornelius Gardener, 19th Inf.; 2d Lieut. Beaumont B. Buck, 16th Inf.; 2d Lieut. Stephen H. Elliott, 8th Cav., and 1st Lieut. Walter A. Thurston, 16th Inf., J.-A. (S. O. 10, Jan. 18, D. Tex.)

At Washington Barracks, D. C., Jan. 26. Detail: Major Edmund C. Bainbridge, 3d Art.; Capt. Timothy E. Wilcox, Asst. Surg.; 1st Lieuts. John B. Eaton, Edward Davis, John E. Myers, and Charles B. Satterlee, and 2d Lieut. Charles A. Bennett, 3d Art., and 2d Lieut. John D. Barrette, 3d Art., J.-A. (S. O. 15, Jan. 24, Div. A.)

At Fort Hamilton, N. Y. H., Jan. 26. Detail: Major Abram C. Wildrick, 5th Art.; Capt. Rudolph G. Ebert, Asst. Surg.; Capt. Selden A. Day, 1st Lieuts. Paul Roemer, Henry J. Reilly, and Granger Adams, and 2d Lieut. Albert C. Blunt, 5th Art., and 1st Lieut. W. W. Galbraith, 5th Art., J.-A. (S. O. 15, Jan. 24, Div. A.)

At Fort Preble, Me., Jan. 31. Detail: Major William M. Graham and Capt. John P. Story, 4th Art.; Capt. George E. Bushnell, Asst. Surg.; 1st Lieuts. Albert S. Cummins and John T. French, Jr., and 2d Lieut. Walter N. P. Darrow, 4th Art., and 2d Lieut. Lucien G. Berry, 4th Art., J.-A. (S. O. 16, Jan. 25, Div. A.)

At Benicia Barracks, Cal., Jan. 17. Detail: Lieut.-Col. Charles G. Bartlett, Capts. Daniel F. Callinan and Robert G. Heiner, 1st Inf.; Capt. Charles K. Winne, Asst. Surg.; Capt. Leopold O. Parker, 1st Lieuts. Frank de L. Carrington and Lewis H. Strother, 1st Inf., and 1st Lieut. Charles G. Starr, 1st Inf., J.-A. (S. O. 3, Jan. 14, D. Cal.)

At Fort Clark, Texas, January 25, 1887. Detail: Lieut.-Col. William H. Jordan, 19th Inf., President; Capt. Charles T. Witherell, 19th Inf.; Capt. Thomas B. Robinson, 19th Inf.; Capt. Henry W. Sprole, 8th Cav.; 1st Lieut. William M. Williams, 19th Inf.; 1st Lieut. Harry F. Kendall, 8th Cav.; 2d Lieut. Woodbridge Geary, 19th Inf.; 2d Lieut. William F. Flynn, 8th Cav., and 2d Lieut. Charles C. Walcutt, Jr., 8th Cav., members. 1st Lieut. Charles C. Hewitt, 19th Inf., J. A. (S. O. 12, Jan. 22, D. T.)

Army Boards.

A Board of Officers, to consist of Lieut.-Col. Henry M. Lazelle, A. I. G.; Capt. Charles A. Woodruff, Chief C. S., and Capt. William S. Patten, Depot Q. M., will assemble, Jan. 13, to report upon the question of obtaining a supply of water by digging or boring at some point on the military reservation of Vancouver Barracks. 1st Lieut. William C. Langfitt, C. E., is appointed Recorder of the Board (S. O. 7, Jan. 10, D. Columbia.)

A Board, to consist of Capt. Francis B. Jones, A. Q. M.; 1st Lieut. Richard E. Thompson, 6th Inf., and 2d Lieut. Benjamin M. Purssell, Signal Corps, will assemble, Jan. 17, to recommend necessary action to be taken with reference to letter from the Adjutant-General, requesting copies of the regulations now in force in this bureau, with suggestions relative thereto, for use in connection with the revision and condensation of the Regulations of the Army (S. O. 5, Jan. 14, Sig. Office.)

A Board of Survey, to consist of Capt. William P. Vose, 2d Art., will meet at Fort Pike, La., Jan. 28, to investigate as to the origin of the fire which occurred there on Jan. 17, and by which a large amount of public and private property was destroyed (S. O. 18, Jan. 27, Div. A.)

DEPARTMENT NEWS.

Dept. of the Missouri.—Brig. Gen. O. B. Willcox.

This Department, says the Kansas City *Times* will soon have a military post at Denver, at which, at least, one whole regiment will be stationed. The bill which passed the Senate last winter providing for the establishment of a military post near there has been reported from the House Military Committee with amendments. It is quite likely that as soon as the land is accepted by the Government and jurisdiction ceded to the U. S. the headquarters of the 10th Infantry will be relieved from Fort Union, N. M., and ordered to take a station at this new post. Union is one of the posts to be abandoned as well as Fort Lyon, Col., and Hays, Kas.

Dept. of the Platte—Brig. Gen. George Crook.

Camp Medicine Butte, Wyo., established in 1885 at the time of the Chinese miners' troubles and massacre there, has been ordered to be abandoned, and the garrison (Co. B, 17th Inf.,) ordered to Fort D. A. Russell.

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

The Acting Secretary of War has transmitted to the Senate a recommendation from the Quartermaster-General for an appropriation of $5,760, for the improvement of the water supply at Fort Meade, Dakota.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

A despatch from Nogales, says: Seven Indians who escaped from Capt. Lawton last Autumn recently attacked a Mexican family travelling from Oputa to Guasaba, Mexico, killing one man and wounding another.

Cajeme, the Yaqui chief, arrived at Guaymas Jan. 27, as a prisoner on board the Mexican gunboat *Democrat*. This puts an end to the war between the Yaquis and Mexicans, which has existed for two years.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Jan. 26, 1887.

Mention was made last week of a fatal accident near Crow Nest on the West Shore Road. Last Thursday afternoon another man was killed in the same place, and in precisely the same manner. On the same day still another laborer, engaged in cutting away overhanging ice near Storm King, between here and Cornwall, was run over and killed. Another dangerous place is the West Shore Station near the South Dock. A few days ago as the train that reaches here at 7.08 P. M. stopped and the passengers were alighting a heavy freight train came through the tunnel, but did not stop at the station. In leaving the train the passengers had to get on to the down track in order to cross to the platform. Several ladies were thus caught and had the narrowest kind of an escape from a frightful death. Trainmen were shouting to get off the track, but the noise made by the escaping steam prevented hearing the warning. To people standing near it did not seem that a second of time elapsed from the clearing of the track to the passing of the freight train.

Mild weather and rain have nearly made the snow disappear and put a stop to tobogganing. The sleighing is still good, for the roads were covered with a heavy coat of ice. The plain presented a very animated appearance yesterday afternoon. About 40 cadets were skating on it. The ice was not in good order, but the boys seemed to have much sport.

The officers' hop last Thursday evening was a very gay affair. There was a number of young ladies present, besides an unusually large number of post people. Miss Irwin, visiting Mrs. Rockwell; Miss Paine, from Virginia, a guest of Mrs. Winthrop; Miss Lane and Miss Gay from Troy, visiting Mrs. Metcalfe, and Mrs. Larned were among the strangers present. Capt. Metcalfe was manager. There will be only two more of these hops before Lent.

The general standing of the 4th Class is as follows:

1. Jadwin.	32. Ketcham.	64. Plowman.
2. Deakyne.	33. Ferguson.	65. Hoskins.
3. Ruggles.	34. Lyon.	66. Rusning.
4. Davis, William Church.	35. Ryan, J. A.	67. McDowell.
	36. Cleary.	68. Murray.
5. Keller.	37. Lamoreux.	69. Guyer.
6. Todd.	38. Mauldin.	70. Heavy.
7. Winston, T. W.	39. Hobbs.	71. Marshall.
8. Rennard.	40. Farish.	72. Kennedy.
9. Corcoran.	41. Andrews.	73. McMaster.
10. Johnson, W. O.	42. Powell.	74. Brown.
11. Hine, C. D.	43. Swain.	75. Miller.
12. Bandholtz.	44. Cordray.	76. Davis, Winder C.
13. Voorhies.	45. Lindsay.	
14. Hamilton, J.	46. Moore.	77. Rand.
15. Bromwell.	47. Nottingham.	78. Caldwell, V. A.
16. Beach, R. J.	48. Symmonds.	79. Perry, H. R.
17. Frazier.	49. Learned.	80. Laidley.
18. Merillat.	50. Rowell.	81. Rayburn.
19. Davis, M. F.	51. Hines, R. H.	82. Plummer.
20. Bennet.	52. Fleming.	83. Nichol.
21. McNair.	53. Montgomery.	84. Duncan.
22. Caldwell, F. M.	54. Jones, S. G.	85. Kingsley.
23. Jackson.	55. Deese.	86. Lafitte.
24. Clark, H. C.	56. Keech.	87. Clark, C. C.
25. Meyer.	57. Butts.	88. Newton.
26. Snow.	58. Wallace.	89. Clark, R. B.
27. Hearn.	59. Gatley.	90. Smith, G. L.
28. Hornbrook.	60. Gose.	91. Lamb.
29. Fox.	61. Uline.	—. Clark, W. F.
30. Hamilton, C. T.	62. Wolf.	—. Spurgin.
31. Krayenbuhl.	63. Smith, H. A.	—. Wholly.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

JANUARY 20.

WITHOUT preliminary flourish, I will dive "*in medias res.*" Paymaster Arthur—the genial William—has gone to the forts to disburse coin, but will be back in a few days. His accomplished clerk, Mr. Otto Becker, was made the happy father of a daughter Jan. 9. To use an unfamiliar expression, "mother and daughter are doing well." General D. S. Stanley, with a large party, left on a hunting expedition yesterday and will return Saturday. The General is a successful hunter, so our fond anticipations of game in abundance are likely to be realized. A small fire in an outhouse here on Jan. 19 caused some excitement, but the flames were promptly extinguished. A detail has been sent out to procure good forest trees to plant at Department and post in place of hundreds of China trees destroyed by the storm last August. Another detail is hard at work building target ranges for practice. So you see time does not hang heavy on our hands. I say "our," although I personally manage to evade all this physical exertion and confine myself strictly to mental labor. It is very fatiguing. The weather is at present delightful. A hop took place on Tuesday, and like its predecessors was much enjoyed. Having just recovered from a severe attack of "cacœthes scribendi" I am this time necessarily brief. PUNK.

(Correspondence of the Army and Navy Journal.)

FORT DU CHESNE, UTAH.

THE cavalry as well as the infantry composing this garrison is under shelter at last, after being stationed here since August 20, and having experienced the coldest portion of the winter in tents. The hospital alone is without shelter, the sick still remaining in tents, but fortunately the command is in an unusually healthy condition.

The reason why no hospital has, as yet, been erected lies mainly in the slow process of making an allottment, a notification of such "appropriation" reached Fort Du Chesne on Christmas Day, and, of course, it takes that long again to build it.

"To be happy, thou shouldst be patient." On Jan. 9, the second grave was dug at Fort Du Chesne for Pvt. William H. Dyke, Co. B, 21st Inf., who was found "frozen" about two miles east of camp on the road to Ashley; his third enlistment would have expired on Feb. 10 had he lived. The first victim of our grave-yard was Pvt. Murphy, of the same company, who found his death during the explosion of a steam boiler at the Uintah Agency sawmill on Nov. 22 last, and Dyke, who had taken his place, believed that the same fate awaited him, asked to be relieved, which was granted on Jan. 8, and the day following he froze to death.

Gen. Hatch, our post commandant, is still on the "rush" from reveille till dark, and if it were not for the many difficulties to be encountered in the line of material, etc., it is believed that Fort Du Chesne would have been built by this time.

The first "fire" at this post selected its victim in the form of Major Benteen's kitchen on Jan. 11.

Dr. R. B. Benham owns the finest pair of trotting horses in Utah Territory.

Mrs. Lieut. Bailey is expected to go East on a visit for several months until quarters are finished.

MERCURIUS VIVUS.

(Correspondence of the Army and Navy Journal.)

FORT VERDE, A. T.

JANUARY 17, 1887.

LAST Saturday evening Jan. 15, the quarters of Maj. C. B. McLellan, commanding officer at Fort Verde, presented a scene of unusual brightness and gayety, the occasion being a reception given by Mrs. McLellan in honor of Mrs. Weston, of Fort Apache. The rooms were tastefully arranged for card playing, while the sweet strains of the Verde string band were heard from an adjoining hall, which was soon filled by the younger guests, and those inclined to dancing. A bountiful and delicious supper was served, and all agreed in saying that it was the most delightful entertainment ever given at Verde. The toilets of the ladies were exquisite. Among the number present were Mrs. O. H. Mackroth, of Minneapolis, a sister of Mrs. McLellan; Capt. and Mrs. Baldwin, Capt. Leonard Hay, Lieut. and Mrs. Eggleston, Dr. and Mrs. Mearns, Lieuts. Smith and Noyes, and Mr. Dan. Robinson, one of the cattle kings of Arizona.

As the "wee sma'" hours of Sunday morning approached all bade adieu to the gallant major and voted their praises for the hospitable manner in which he had entertained.

VERDE.

(Correspondence of the Army and Navy Journal.)

FORT COLUMBUS, N. Y. H.

THE members of the Fort Columbus Social Club gave a very enjoyable affair on Wednesday evening, Jan. 19, 1887, to their lady friends, it being their first complimentary ball of the season. It was a perfect success. The hall was tastefully decorated, and the supper was all that could be asked for. Many of the officers of the Island honored us with a visit in the early part of the evening. Dancing continued all night until that great gun behind Castle Williams warned the boys that it was time for them to return to their daily routine of duty.

(Correspondence of the Army and Navy Journal.)

FORT YATES, DAKOTA.

JANUARY 18.

1887 has thus far been unusually gay here. New Year's Day was quite generally observed by the usual calling, both at the agency and post. In the evening Captain and Mrs. Read gave a dancing party at the post hall, after which an elaborate supper was served to their guests at their pleasant quarters.

Early in the month the Fort Yates minstrel troupe gave their first entertainment, which was a success. We look for another soon.

On Tuesday of last week Lieut. and Mrs. Heistand gave a pleasant card party, at which Mrs. De Rudio and Captain Gilbreath carried off the prizes at "Newmarket" and all voted the occasion one of the pleasantest of the season.

There have been the usual dinner parties, including one given by Major and Mrs. Page, and one given by Dr. and Mrs. Spencer during the past week, but the weather has now settled down to such a degree of cold we will soon have to think of nothing but how to keep warm.

Our Post Surgeon, Asst. Surg. Spencer, gave on Saturday last the first of the course of lectures directed by the Secretary of War to be given at military posts, and the comments we have heard upon it are very complimentary. Dr. Spencer is an agreeable and pleasant speaker, and his lecture showed care and study, and was both interesting and instructive.

The coasting is fine, and our enterprising Quartermaster, Lieut. Heistand, has constructed a skating rink, which affords much pleasure.

* * *

FORT OMAHA, NEB.

THE *Excelsior* of Jan. 22 says:

Gen. Baird was here this week en route to Fort Du Chesne. ....Lieut. George F. Chase, 3d Cav., of Jefferson Barracks, Mo., was in Omaha last evening. He is a cousin of the editor of this paper....The officers and ladies of the fort are planning a fancy dress or domino party for Jan. 28....Lieut. Moffatt has returned from Kansas City, bringing his wife and child....Lieut. Wm. M. Wright, who has been enjoying a month's visit with relatives and friends in the East, has returned....Lieut. Pickering, with his wife and family, has returned from leave in excellent health ...Lieut. Robt. E. L. Michie, 2d Cav., was to be married to Miss Gray-Beach at Trinity Church, San Francisco, Jan. 19, 1887....At the invitation of Capt. C. A. Dempsey, 2d Inf., the entire garrison on Wednesday took part in a domino party. After three hours' enjoyment the party dispersed with kindly recollections of the pleasant evening....The surprising energy shown by General and Mrs. Wheaton in promoting the sociability and leading the gayety of the garrison on the occasion of the progressive euchre party which commemorated their china wedding, surpassed, if possible, their previous efforts. Among the ladies the following prizes were taken: Miss Earle, a beautiful cabinet photo case; Mrs. Mallory, a handsome fire-screen made in the shape of a fan. The booby prizes were: Mrs. Turner, an egg beater, and Miss Ketchum, a bottle of catsup. Among the gentlemen: Dr. Brown, an elegant pen wipe; Capt. Clark, an ornamental card case; and the boobies were Dr. Haskins, who received a rotary tambourine, and Capt. Clark, a tambourine on

which was written, "Something you can beat." The following participated: Col. and Mrs. Fletcher, Capt. and Mrs. Cook, Major and Mrs. Brown, Capt. and Mrs. Keller, Capt. and Mrs. Miller, Lieut. and Mrs. Egbert, Lieut. and Mrs. Turner, Lieut. and Mrs. Mallory, Lieut. and Mrs. Sarson, Mesdames Thomas, of Philadelphia; Miller, Brayton, and Dempsey, Misses Burns, Dempsey, Ketchum, Earle, and Miller, Capts. Dempsey, Haines, Ulio, Clark, Lieuts. Kinzie, Rowell, and Wilson.

VANCOUVER BARRACKS, W. T.

THE Vancouver *Independent* of Jan. 12 says:

Lieut. H. M. Dombaugh, U. S. N., passed through Portland this week en route from Alaska station to the East....Lieut. C. F. Roe, 2d Cav., who has been in New York nearly a year settling the affairs of his father's estate, will return with his family to Ft. Walla Walla in a few days..Gen. Thos. Duncan, U. S. A., retired, who died at Washington, Jan. 7, was the father of Lt. J. W. Duncan, 21st Inf., well known in this Department. His estate will make Lieut. Duncan one of the wealthiest men in the Army... The masquerade party given by Col. and Mrs. Reynolds at the garrison hall last Wednesday evening was a brilliant social success and was much enjoyed. Gen. John Gibbon makes a square hit in his annual report when referring to the anti-Chinese riots and troubles. He says: "A low estimate of the sacred character of law, and the necessity for its rigid enforcement, furnishes the opportunity for the shiftless and improvident, largely composed of foreign elements, to attempt to dictate as to who shall and who shall not perform certain labor. The most objectionable feature of the transaction is that the very men who violate the law by forcing the Chinese from work are those who are themselves unwilling or incapable of performing it."

PRESIDIO OF SAN FRANCISCO.

THE *Alta* reports that the officers and ladies gave a delightful hop, Jan. 11, in the hop-room, which was handsomely decorated in honor of the occasion. The committee in charge was composed of Lieuts. Van Deusen, Bean, Faison, and Sturgis. Dancing was enjoyed until midnight, to the excellent music provided by the 1st U. S. Artillery Band, and light refreshments were served during the evening. Among those present were: Capt. J. W. Dillenback, Dr. Cochran, Dr. Walker, Lieut. Gilbert Cotton, Lieut.Runcie, Lieut. Winn, Lieut. Noble, Lieut. Towers, Lieut. Robinson, Lieut. Oyster, Lieut. William H. Bean, Lieut. Van Deusen, Lieut. Samson Faison, Lieut. Samuel D. Sturgis, Jr., and many others.

FORT CLARK, TEXAS.

THE Brackett *News*, of Jan. 22, says:

Thursday evening of last week was the anniversary of the opening of the Good Templar Lodge of Fort Clark, and an enjoyable reunion was held, music, singing, supper, etc..... The educational and religious interests of the post are in a most prosperous condition. There are five schools in successful operation in the garrison. Chaplain Merrill is a thorough worker, an eloquent speaker and a zealous laborer in the Lord's vineyard. He has accomplished much good by his untiring efforts and is a favorite with all.

FORT NIOBRARA, NEB.

THE *Excelsior* of Jan. 22 says:

Lieut. Day is back again in his old quarters....The Niobrara Social Club will give a ball next week....Col. Bryant and family have returned from the coast....Major Stanton, Paymaster, paid off the nine companies here in three hours. This is considered very quick work....A german was given by the officers of the post at the post hall on Friday night. It was the most successful and enjoyable affair of the season. Lieut. Bingham was the leader of the german.

FORT SIDNEY, NEB.

THE *Excelsior* of Jan. 22 says:

Gen. Dandy was here during the week....The Fort Sidney Social Club give a ball this evening....Lieut. Parke is the happy father of a bright, bouncing boy....Gen. Crook was here on Tuesday and a salute of eleven guns was fired in honor of his arrival.

COURT-MARTIAL CASES.

Pvt. G. F. Hayes, Co. D, 14th Inf., for testifying falsely under oath before a Garrison Court-martial at Fort Cœur d'Alene, has been dishonorably discharged and sent to the Oregon State Penitentiary for 18 months.

A CONGRESSMAN'S IDEA OF ARMY WEALTH.

A DEBATE arose in the House on Jan. 21 on the question of increasing the pension of the widow of the late Col. J. Hemphill Jones, U. S. Marine Corps, from $30 to $50. In the course of the debate Mr. Taulbee of Kentucky, who opposes this and all similar measures, said:

I read in one of the newspapers of this city not more than a week ago a statement that an officer of the Regular Army had purchased a few years ago property in this city more than $300,000 in value. The question naturally arises in the mind of every man who is acquainted with the extravagant mode of living of the officers of the Army as to how it is they can afford to succeed in that line in accumulating more money than men of equal worth and intelligence can accumulate in the ordinary avocations of life.

Mr. Boutelle—I want to ask the gentleman if he understood from that statement that the officer in question had probably purchased that property from the savings of his emoluments as an Army officer?

Mr. Taulbee—I did not make any such statement as that, nor do I claim that that is the case; but I can clearly see how it would be possible, notwithstanding the fact that the actual salary of the officer may not have amounted to that sum during the whole term of his service. There are uses to which money may be put by which it may be increased, and there are means which may be resorted to other than the legitimate drawing of the salary from the Government (which I understand to be the principal occupation of the officers of the Regular Army) by which sueh amounts may be accumulated.

Mr. Boutelle—Then I understand the gentleman is reflecting upon the integrity of the officers of the Army?

Mr. Taulbee—Well, Mr. Chairman, I am not responsible for the gentleman's understanding. I do not think my language can be fairly construed as meaning anything of that kind. I would not reflect upon the character of any gentleman, especially a gentleman who is an officer of the Army. It has not been my custom to reflect upon the character of any gentleman——

Mr. Boutelle—Oh, Mr. Chairman, I had not the slightest idea that the gentleman intended anything of the kind; but his remark going out to the country—a remark made by a Representative upon the floor of the House—that an Army officer had invested $300,000, taken in connection with the context, would certainly give the impression that we were paying very exorbitant compensation to the officers of our Army.

Now, my impression is that as a rule the Army officers are not investing $300,000 in anything. My impression is that as a rule the officers of the Army and the officers of the Navy are notoriously—a friend in front of me suggests the word—impecunious. They are not, as a rule, forehanded. The expenses incident to their duties and official position render it practically impossible for them to accumulate much money. Occasionally some of them may, as the fair sex are naturally fond of the military, make matrimonial alliances that render them able to invest in this lavish manner, but such cases are exceptional.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at St. Thomas Jan. 18.

The prospective cruise is given as follows: Bermuda, Martinique, St. Lucia, Barbadoes, Trinidad, Curacoa, Cartagena, Aspinwall, Port Cortez Cienfuegos, Kingston, Santiago, Nipa, Neuvitas, Matanzas, Havana, Key West, returning to Fortress Monroe about May 1. All mail must be addressed to the *Galena*, care of Navy Pay Office, 29 State St., N. Y.

RICHMOND, 3d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. At New York Navy-yard.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived January 16, at Key West, Fla.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Reported by cable to have arrived at Aden, Arabia, Jan. 26.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Sailed from Montevideo for Maldonado Dec. 11. All well. Intended to sail for ports on South coast of South America and the Faulkland Islands, and to reach Rio about June 1, 1887.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Montevideo Nov. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. Arrived at Alexandria, Egypt, Dec. 11.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Reported by cable to have arrived at Gaboon, West Coast of Africa, Jan. 4, 1887.

Pacific Station—Capt. J. H. Gillis (in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham, went into commission at Mare Island, Cal., Jan. 15, 1887.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 14.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Montevideo Nov. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Reported by cable to have arrived at Valparaiso, Chili, Dec. 16.

MONONGAHELA, 2d rate, 9 guns, Comdr S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Arrived at Valparaiso, Chili, Jan. 14.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. At Sitka, where she will winter. Address care of Navy Pay Agent, San Francisco, Cal.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. Commissioned at Navy-yard, New York, Jan. 15, 1887. It has not been decided when she will be ordered to sail for the Pacific Coast.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Valparaiso, Chili, Dec. 16.

Asiatic Station—Rear-Adml. Ralph Chandler.

Vessel with (†), address, Mail, General Post Office Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Mathews. Arrived at Bombay, Dec. 6.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Arrived at Hong Kong Jan. 17.

Commander Theo. F. Jewell, in a letter dated Singapore, Dec. 18, announces the arrival of the vessel at that place. During the first three days of the passage from Colombo to Ceylon, which took twelve days, fresh to stormy winds were experienced from N. W. to W. S. W., accompanied by a very heavy and irregular sea. The sea caused the ship to roll so deeply that on the 9th inst. she was brought by the wind and hove to for eight hours. During the remainder of the passage light, variable winds and calms prevailed. Target practice, with great guns and small arms, was had during the passage. Ten deep sea soundings were made. H. M. S. *Satellite* and *Zephyr* were found at anchor in these Roads. The heavy rolling of the ship caused more or less damage to the boats and carried away the cradle of the steam cutter. It also produced working in the coal bunkers. The piston rod of the air pump requires replacing, its casing having been cut through and become loose, and the boilers will require considerable overhauling, many small leaks having occurred during the passage. The vessel was consequently detained at Singapore for some days to effect necessary repairs. In exercising with torpedoes on the 14th inst., a premature explosion of an exercise torpedo, containing four and one half pounds of gun cotton, occurred before the torpedo was submerged. The fragments of the torpedo case flying on board caused the fatal wounding of Peter Hagele, 1st class apprentice; the serious injury of WM. C. Hammond, 1st class apprentice, and the wounding of August Reltig, 1st class apprentice, and Richard F. Gerbreach, seaman apprentice, 2d class. Hagele died half an hour after his injury, and was buried at sea. The others will be transferred to the hospital at this place. With these exceptions the health of the officers and crew is good.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Dec. 28.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was at Hong Kong, Dec. 29.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Reported by cable to the JOURNAL to have arrived at Yokohama, Japan, Dec. 26.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Reported by cable to have sailed from Gibraltar, Spain, Jan. 15 for New York. Later advices state that she sailed from Maderia, Jan. 18.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. At Tientsin, China, Dec. 29.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent as follows: Up to Feb. 10, by Brazil Co.'s steamer, leaving New York about that date. Address care of U. S. Consul, Bridgetown, Barbadoes, between Feb. 10 and March 1. Address care U. S. Consul, Basse-Terre, St. Kitts. After March 1, per U. S., and including Brazil Co.'s steamer, leaving New York about March 24. Care U. S. Consul, at St. Thomas, W. I. After March 24, address Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived at Bridgetown, Barbadoes, Jan. 18.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Arrived at Bridgetown, Barbadoes, Jan. 18.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Arrived at Bridgetown, Barbadoes, Jan. 18.

On Special Service.

DESPATCH, 4th rate, Lieut. W. S. Cowles. At New York Navy-yard

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. Sailed from Norfolk Navy-yard Jan. 19 for Newport, R. I., to adjust her compasses. The *Dolphin* is to be assigned to the duty of deep sea soundings and surveying among the islands of the West Indies. Arrived at New York from Newport, R. I., Jan. 28.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. At San Diego, Cal., Jan. 3.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

VARIOUS NAVAL ITEMS.

ON Saturday last 107 employees in the Ordnance Department of the Washington Yard, one-third of the force, were discharged on the order of Comdr. McCormick, Inspector of Ordnance.

THE Coast Survey steamer *Patterson*, which has been laid up since last October at the Mare Island Navy-yard, is being overhauled and painted, to return to survey work on the Alaska coast early in the coming spring.

PLANS are being prepared by the Ordnance Bureau for the expenditure of a portion of the appropriation made for new buildings and tools in the Washington Ordnance Yard, and during the approaching building season many changes will be carried out in this Yard.

LIEUT. E. L. ZALINSKI, the inventor of the dynamite-throwing gun and the submarine torpedo boat, said yesterday that the torpedo boat would be towed to Cramp's ship yard on the Delaware, and there completed in a manner to make a practical engine of war of it. Plans have been completed for a pneumatic dynamite gun that will throw 1,000 pounds of the high-power explosives a distance of at least a mile with accuracy. It has not yet been determined to supply the submarine boat with one of these guns, however.—*N. Y. Sun.*

AT the Shipping League meeting in Washington last week among the delegates were two from the South who during the war were officers of the celebrated rebel cruiser *Alabama*. The delegates from Maine and New York were among those who suffered individually from the depredations of the *Alabama*. The Northern and Southern delegates met each other as fraternally as the Union and Confederate officers do one another in Congress, and congratulated each other that they were now a unit in their views as to the best method of reviving American shipbuilding.

THE rage for monster armor-clads, says an English paper, has spent itself, and unless naval designers suddenly agree upon a new type of ship, the Admiralty will concentrate their attention upon keeping our present warships in an efficient state, and upon developing mosquito fleets of gun and torpedo vessels, capable of high speed, of carrying powerful guns, and of making comparatively long sea-passages. This is the official programme, and special interest will attach to the torpedo boat of the future. Its improvement in its offensive and defensive capacities is the first consideration.

WE are in receipt of a programme of an entertainment given by the popular amateurs of the West End Workingmen's Club, on board U. S. receiving-ship *Wabash*, Friday evening, Jan. 21, 1887, at 7.30 as follows: Overture, orchestra; Bones, Johnny Duffy, Ed. McGuire, Johnny Mahan, Billy Corcoran: Tambos, Billy Whitney, Johnny Connor, Johnny Bennett, Billy Mullally, Frank E. Gillis, interlocutor. First Edition Premiers—Johnny Duffy, Bones; Billy Whitney, Tambo; Opening Chorus, Company; "Goodbye, My Honey, I'm gone," Billy Whitney; "Let me hear thy voice again," Frank Scott; "Just to pay our respects to McGinnis," Johnny Duffy; "One by One," D. H. McCarthy. Second Edition Premiers—Ed. McGuire, Bones; Johnny Connor, Tambo; "Cawn't do it, you know," Ed. McGuire; "My Sailor Boy's Return," Henry McCurdy; "Topical Ditty," Johnny Connor; "Sally in our Alley," J. J. Nolan. Popular Quartette—Club Swinging, Henry Von Emden; The only, the inimitable Billy Whitney, in his speech entitled "Woman's Rights." Jig Dancing, J. A. Ahearn; Southern Specialties, Messrs. Hennessey and Murphy.

THE Navy Department has ordered the discontinuance of work on the *Intrepid*, which has been undergoing repairs at the New York Navy-yard.

THE French gunboat *Le Bouvert*, Capt. Borel, arrived at Key West from Havana, Jan. 25, and sailed Jan. 26 for New Orleans, visiting Pensacola and Mobile en route. She will arrive at New Orleans in time for Mardi Gras, Feb. 22.

THE amended specifications for the machinery of Gunboat No. 1 were handed to the Secretary of the Navy by the Engineer-in-Chief on Wednesday. The contract papers for the construction of the vessel will be put in shape without delay.

A HANDSOME model of the 1,700-ton gunboat (No. 1) has just been completed in the Chief Constructor's workshop at the Navy Department. It will decorate the walls of the House Committee on Naval Affairs, along with the models of the *Chicago*, *Boston*, *Atlanta* and *Dolphin*, until the session closes, when all of them will probably be returned to the office of the Secretary of the Navy.

THE *Atlanta* will be ready for her third trial trip during the last week of February. Her armament is now being put on board. The guns for the *Boston* are nearly finished and will probably be put in place before her trial trip. The 10-inch guns in course of construction at the Washington Navy-yard are being smooth-bored. These guns were destined for the *Miantonomoh*, but it is probable that they will be placed on one of the new vessels.

PRESIDENT CLEVELAND has refused to change the name of Cruiser No. 2 from *Charleston* to *San Francisco*, although repeatedly urged to do so by the California delegation in Congress. It is said that he is afraid of offending the Southern people, and especially those of South Carolina, if he makes the change. Irving M. Scott has left Washington for Bermingham, Alabama, where he will contract for a great part of the steel to be used in the vessel.—*San Francisco Report.*

A GOOD many years ago it used to be said in the Navy that if the engines of the *Iroquois* were started and her helm lashed amidships, she would "fetch up" in a Chinese port, so often had that vessel been on that station. Nowadays, however, it is quite as certain that under like circumstances she would head for Talcahuano Bay or Valparaiso. During the present commission of the *Iroquois*, beginning April 9, 1882, she has been a persistent and favorite cruiser on the coasts of Peru and Chili. Her withdrawal from active service will be a sad event for the South Pacific Station.

THERE is every prospect that the projectors of the Nicaragua Canal will find it a very up-hill piece of work to excite the necessary financial interest in the scheme to carry it to a successful issue, although the ability, persistency and enthusiasm of those immediately interested will accomplish wonders if perseveringly adhered to. In this connection it is worthy of note that the force of laborers on the Panama Canal is being augmented for the purpose of taking full advantage of the dry season (that is, dry for Panama), now just opening, in the work at the deep cut of Culebra. It is the desire to push work on this section so that it may keep pace with those where the work is not so hard.

A DESPATCH from Boston says: There is a movement on foot to head off an order of Secretary Whitney converting the Charlestown Navy-yard into an equipment station, and it has created considerable stir among the politicians and business men of Boston's Bunker Hill district. It is proposed to defeat the plan if possible through influence upon members of Congress. By turning the yard into a bureau of equipment, they claim that there would be employed about 200 or 300 men, a matter of small moment to any. There is a great deal of valuable machinery in the construction and steam engineering departments, and it is feared that this will be shipped off to New York, where it is proposed to do the bulk of the work in these departments. This is another source of grief to the dweller beneath the shadow of the tall monument. This machinery may be of no use where it is, but it is a great comfort to the average citizen to know that it is there. The opposition which has developed to the Secretary's plans will probably result in the appointment of a commission from the Boston City Council to go to Washington and plead on behalf of the stricken Navy-yard. It is stated at the Navy Department that it is not the intention of the Secretary to transfer any material or work from the Boston Navy-yard to the New York Navy-yard. While it will become the factory of the Equipment Bureau, the organization of the Boston yard will be in no way changed. The rumor that a large quantity of material and many tools are about to be sent to the New York yard is denied by Commodore Schley, chief of the Equipment Bureau.

NAVY GAZETTE.

Ordered.

JAN. 21—Chief Engineer Geo. R. Johnson to duty as inspector of the machinery being built for the Government at the Columbia Iron Works, Baltimore, Md.

JAN. 22.—Lieutenant Webster Doty, to the receiving ship New Hampshire.

JAN. 24.—Cadet Engineer John C. Leonard, to the Atlanta.

Lieutenant N. J. K. Patch, to the Boston Navy-yard.

JAN. 25.—Carpenter H. Rigby, to special duty at Washington under Commander Evans.

Carpenter T. P. Smith, to special duty at Baltimore, Md.

Acting Carpenter Osgood H. Hilton, to special duty at San Francisco, February 8.

Ensign James B. Cahoon, from the Minnesota to the Dolphin.

Paymaster G. H. Read, from the Naval Clothing Factory, New York, and ordered to report to the General Storekeeper, Navy-yard, New York.

Carpenter K. M. A. Mahony, from special duty at Chester, Pa., and ordered to special duty at Philadelphia, Pa.

Detached.

JAN. 21.—Lieutenant W. McLean, from the Vermont, and ordered to the Despatch.

Lieutenant J. H. Sears, from the Naval Observatory, and ordered to the nautical school-ship St. Mary's.

Ensign Houston Eldredge, from the branch Hydrographic Office, New York, and ordered to the Despatch.

Chief Engineer A. J. Kiersted, from duty at the Columbia Iron Works, Baltimare, Md., and ordered to Navy yard, League Island.

Lieutenant Commander Thomas Perry, as Light House Inspector, 14th District, February 15th, and ordered to special duty connected with the Boston.

JAN. 22.—Lieutenant F. H. Lefavor from the Hydrographic Office, and ordered to the Yantic.

Lieutenant F. J. Milligan, from the New Hampshire, and ordered to duty as recorder to the board of which Commander R. D. Evans is senior officer.

Assistant Engineer F. C. Bieg, from the Fish Hawk, and placed on waiting orders.

Cadet Engineer Robert B. Higgins, from the Atlanta, and ordered to the Fish Hawk.

Retired.

JAN. 25.—Rear Admiral E. Y. McCauley.

MARINE CORPS.

JAN. 25.—2d Lieutenant William H. Stayton, leave for two weeks, after which he is ordered to report for duty at the Marine Barracks, League Island, Pa.

JAN. 26.—Captain R. L. Meade, detached from Marine Barracks, Brooklyn, N. Y., and granted sick leave for three months.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Jan. 28, 1887.

THE cadets' hop on Saturday night was generally attended by the officers and cadets, and by the society people of Annapolis. Among those present were Mr. and Mrs. Governor Lloyd, of Annapolis; Capt. and Mrs. Huntington, Commander Harrington and Miss Harrington. The following married officers accompanied by their wives were present: Commander Schouler, Lieutenants Tilley, Porter, Gheen, Doyle, Nicholson, Boush, Smith, and Fullam. The visitors were Miss Snowden, of New York; Miss Murphy, of Baltimore; Mrs Commodore Benham, and Miss Seaman, of Staten Island; Miss Wilson, of Frederick City Md.; the Misses Claytor, of West River, Md., and the Misses Murray, Beck, and McGruder, of Annapolis.

The junior officers were represented by Ensigns Gill, Lloyd, Holcomb, Atwater, Morgan, Muir, Knepper, Knapp; by Assistant Engineers Schell and Gow, and by Surgeons Percy and Biddle.

The usual number of cadets of the first and second classes were present.

This being semi-annual week, the usual routine is broken and only two study calls are sounded in the morning, one at 8 A. M., calling to examinations, and one at 10.35 A. M., giving the release from the first half.

Previously the semi-annual examinations were between the hours of 8 A. M., and 1 P. M., without a recess: this year the custom is changed. The examinations now consist of two parts with a recess of twenty minutes between them. There is no regular formation for the second half, but cadets are supposed to be back in their respective examination rooms at 10.40 A. M. The questions are divided into two entirely distinct sets, comprising the work gone over during the term, and only one set of questions is given at a time. The answers and solutions to the first half of the examination must be handed in when a cadet leaves the room for the first time. Upon his return he receives the second set of questions, and his work during the second half must be confined to this second paper. The plan is received very favorably by the cadets and works very smoothly. The first class of cadets have four examinations in Mathematics, Gunnery, Seamanship, and Navigation. The second class has three, in Steam Engineering, Mathematics, Sound, Light, and Heat.

The third class have eight examinations, five in Mathematics, two in French, and one in English. Part of this class are also examined in an elective course, Spanish. It is but fair to say that these examinations are comparatively easy; the first term of the third class year is considered the easiest part of the four years' course. The fourth class has four examinations, two in Mathematics, one in English, and one in French.

This last month has enabled many cadets who were in a dangerous condition with respect to the coming examinations to place themselves out of danger. The months before the semi-annual and annual examinations have no examination upon the month's work, and the daily marks received at recitations represent the standing for these months. Just before the month begins a list of those who are likely to be found deficient for the term, together with the studies in which they have so far been unsatisfactory, is posted on the bulletin boards.

The first class had this term fourteen members who were "warned" that they must improve their standing or be dropped. Of these twelve were warned in one particular study, one in two studies, and one in three. The second class had nineteen on the list. Of these six are warned in one branch, nine in two, and four in three. The third class has twelve members, all of whom are warned in mathematics.

The fourth class has each year the largest list to present; this time they step to the front with thirty-three. Thirteen are warned in one study, eight in two studies, and twelve in three. Moreover, it is thought that five others will be dismissed for the offence commonly called "gouging." At a recitation in French these five cadets were found to have in their books copies of the sentences to be written that day. None of the excuses offered were accepted and they are confined to their rooms "until further orders." In the meantime no cadets will be permitted to visit them, except when on a tour of duty.

The wife of Lieut.-Comdr. Walker, head of Dept. of Astronomy, Navigation and Surveying, is very dangerously ill.

Cadet I. I. Murphy, of the second class, and Cadet T. L. Jenkins, of the fourth class, have been granted leave until June. It is thought that they will be turned back a class at that time.

Cadet Quinby, of the second class, and Johns, of the third class, have the measles.

Lt. John W. Danenhower has been relieved from duty as officer in charge and is appointed secretary to the Naval Institute; Lieut. Todd, senior aid to the commandant, will take his place until the position is permanently filled by a new appointment.

Ensign A. C. Almy, on waiting orders, is in Annapolis. Miss Brooks, of Plainfield, N. J., is visiting with Mr. and Mrs. Almy. During the week the band plays each day in the gymnasium for impromptu hops.

REVENUE MARINE.

Cyrus B. Fengar, who was last week confirmed as 3d lieutenant in the Revenue Marine, is a resident of Connecticut, and James H. Brown, confirmed the same day, a resident of D. Columbia.

THE GREAT UNINVITED.

A WASHINGTON correspondent writes: "I have heard a number of funny stories about the freaks of the uninvited. At one of Mrs. Whitney's card receptions last winter she noticed a group of strangers, supposed ladies, accompanied by a male personage, go up the stairs to the dressing room. Mrs. Whitney prepared to greet them on their return, as they were among the last of the arrivals. But when these strangers descended they rushed through to the ball room, avoiding Mrs. Whitney, and concealing themselves as soon as possible in the general crowd, showing that they were not invited guests. Up to that time they had not been suspected, and if they had had the effrontery to go through the regular form of presenting themselves to the hostess of the evening, they would have doubtless passed unsuspected. At the large receptions of prominent officials many people are invited whose faces are unfamiliar or even unknown to the host and hostess. It is said that Mr. Evarts, when he was Secretary of State, stopped giving card receptions on account of the way his hospitality was abused. At one particular reception he had provided refreshments in great abundance for the entire number of people invited. During this reception the refreshments gave out at a very early hour, showing the presence of as large a number of uninvited guests as those invited. It is said that this was the reason why Mr. Evarts stopped giving receptions, although this is probably not the true reason."

THE engagement is announced, says the Vancouver *Independent*, of Lieut. J. N. Allison, 2d Cav., inspector of rifle practice, to Miss Susie Whalley, daughter of Judge Whalley, of Portland, Ore., one of the fairest and most accomplished ladies of that city.

BOSTON CORBETT, the man who shot Wilkes Booth, the assassin of President Lincoln, is said now to be an assistant doorkeeper in the Kansas Legislature, is very poor, and living in a dugout. Why, being assistant doorkeeper to a legislature, he should live in a dugout, is not very obvious.

THE discovery is said to have been made that the fine, large gold medal given to Gen. Grant for distinguished services in the Mexican War, which is among the medals placed in the National Museum, is bogus. All the Grant medals have been weighed by the Smithsonian savants to test their value. The Mexican medal has a specific gravity of only seven, when it should weigh about sixteen. It isn't worth as much as copper even, which weighs nine.

A NASHVILLE paper says: "While we are listening to so much rant and cant about the 'new South,' by all means let us have a new North." This is evidence of progressiveness, certainly. Twenty-five years ago a Southern editor didn't want a North of any kind.—*Norristown Herald.*

OF the 408 men who make up Congress, only 283 are connected with churches, remarks the *Advertiser*. A great responsibility has been lifted from the churches.—*Lynn Bee.* If this refers to the Churches who publish the ARMY AND NAVY JOURNAL, the *Bee* is respectfully informed that they have never assumed any responsibility for Congress, nor do they propose to do so.

COMMANDING OFFICER. "Bring your company up."

Captain (just taken back into the Army.) "Well, I'll go and talk to the boys and see if they'll come."

"Great stars! Where have you been since you left the Army?"

"Been commanding a regiment of militia."—*Omaha World.*

Established 1811.
CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS. ☞

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

EXAMINATIONS FOR PROMOTION.

IN connection with the proposition to subject the officers of our Army to examination for promotion, a correspondent favors us with a translation from the "Revue Militaire de l'Etranger," describing the adoption of their system in the Army of Austro Hungary. The first attempt in this direction was made by the Austrian War Minister, General Kühn, after the war of 1866. His chief difficulty was in dealing with the officers of the old régime who were unequal to the requirements of modern war, and over whom the well instructed graduates of the Military Academy would have what was considered an unfair advantage. It would scarcely do to refuse to meritorious officers promotion fairly won, and which they had been led to expect, and to meet this difficulty the Minister conceived the idea of organizing a special course of instruction for this class, to be open, and its advantages accorded, to all captains who desired to pursue it. While in no sense obligatory, the final examinations had to be passed before a field officer's commission could be given to the applicant; the course was therefore temporary, and would cease when the class for which it was created should disappear by promotion or otherwise. The course for infantry officers was opened in November, 1870, and comprised the tactics of the three arms, the elements of strategy, topography and fortification, and several other branches of military art. Practical command was given to the officers during the regular fall manœuvres, and a compulsory attendance at the firing school of Brück for a limited time enjoined.

Similar courses were instituted for the other arms, with the addition of the compulsory study of equitation for cavalry officers and the fabrication of arms and special firing for artillery officers. The establishment of rules governing promotions followed soon after. These required of captains aspiring to promotion a theoretical examination, only those having the highest certificates from the military regular schools being excepted. The examination took place before a general officer of high rank and the professors of the course the applicant had pursued. The conditions for advancement by selection comprehended both theoretical and practical examinations, which the candidate must pass successfully. Two classes were made in these examinations, one for general excellence in all the required subjects and the other for special experts. The number of vacancies reserved for promotion by selection was one-fourth of those occurring in the grade of major in the arm of the applicant; candidates to be taken from the upper half of the lineal list of captains. Staff service was held entirely open to details from the line, but such details were confined chiefly to the successful candidates of this special examination.

This system naturally had its opponents, and when General Kühn left the ministry an attempt was made to overthrow it. Doleful pictures were drawn of gray-headed veterans, wearing the decorations won on the field of battle, reciting to young officers who had never heard a hostile shot fired, and the opposition was especially vigorous from officers of the higher ranks. The system seems, however, to have approved itself to the judgment of the military authorities, for a recent imperial order, while modifying the system somewhat, establishes the principle of professional examination as essential to promotion.

Our correspondent suggests that we may find in the Austrian experience a hint for our own guidance, in case we should decide to extend the plan of professional examination to other branches of the Service besides those of engineering and ordnance. It is assumed that our older officers would be unable to meet the requirements of such an examination without considerable study; are they to be barred out? The most ambitious lieutenant would hardly presume to say so. The spheres of the line and field officers are so distinct and separate that an examination for a lieutenancy can hardly be urged as sufficient for a commission as a field officer thirty-five or more years later. Because an officer can passably perform the duties required in a company, is it a necessary consequence that after thirty years of such duty he is fitted to command troops in larger numbers and exercise a knowledge of the three arms intelligently? The graduates of the Military Academy are undoubtedly, on their graduation, as able a set of young officers as ever entered any service, yet how many of them make the slightest pretence of continuing their studies? The officers who earned their commissions on the battlefield are most of them now in the same state of professional attainment as they were twenty years ago. What opportunity have our officers had since the war or do they have now to fit them for high commands? What occasion is given them for that practical exercise of their profession, which is essential if we are to escape future disaster and disgrace? No army in the world has better material than ours, but the knowledge of military science is not acquired by intuition; the art of war advances, and our officers must advance with it if they would keep abreast of its requirements. The principle of examination for promotion seems destined to adoption sooner or later, and the organization of our Service should be adjusted to meet its requirements. It prevails everywhere else; even our Army is subject to it in a measure, and the soundness of the principle upon which it is based can hardly be ques-

tioned. Few officers will dispute that it would be of great service to our Army, if properly applied.

EDUCATION IN AND OUT OF THE ARMY.

IT is a circumstance worthy of note that two of the officers of our Army on the retired list should, without previous understanding or concert of action, have directed attacks nearly simultaneously against our system of public education. The criticisms of one, General J. B. Fry, were addressed to an audience called together by the Military Service Institution on Governor's Island; those of ex-Surgeon-General Hammond were presented before that club of fashionable philosophers, or philosophic fashionables, known as the "Nineteenth Century," which is not to be confounded with the entirely different organization known as the "Century."

Dr. Hammond's strictures were those of an expert in mental diseases, and were directed against the forcing process of which children are made the victims, more especially in the private schools—as he took occasion to explain, after listening to a most effective reply by Miss Mary E. Tate, principal of one of the New York public schools. The introduction of this lady to the discussion gave it piquancy, for she was not only attractive in person, but an exceptionally bright woman, and had that complete understanding of her subject which results from an unbroken connection with the New York public schools since she was eight years of age; first as pupil in the several grades, next as teacher, and advancing gradually to the head of one of the large schools of the city. General Fry was, unknown to her, one of her audience, and she did not spare him, though the womanly adroitness and refinement of speech she showed in answering his criticisms must have made the General happy in the thought that he was part of the occasion for so charming an exhibition of feminine tact and wit.

The address of Dr. Hammond, which preceded that of Miss Tate, was, however, the one to which her reply was immediately addressed, and she certainly made it clear that in the public schools, of New York city at least, children are not unduly driven. The law does not permit pupils in the lower grades to be loaded with tasks to be learned out of school. It did appear, however, that parents would sometimes insist upon their children being promoted to classes for which they were not yet prepared. In criticising the public schools General Fry stated candidly that while his convictions were strong and earnest he did not claim to be fully informed. As to this Miss Tate seemed to be in entire agreement with him, for she said that she did not believe that he had seen anything more than the outside walls of a public school.

But this defence of the public school did not extend beyond her experience in New York, and General Fry's criticisms applied to the general system of public instruction throughout the country. His argument was that the elementary education was a matter for the individual and not for the Government. The public school system, he contended, was not only wrong in principle but vicious in practice; we are taxing the memory and stuffing the mind of the pupil with facts and forms instead of reaching the higher purposes of ascertaining, developing, and training the natural capacity. In other words substituting for education a system of cramming, and by making education a matter of paternal government relieving the individual from necessary stimulus to personal exertion, putting a premium upon indifference and torpor. "The good things of life should be earned," said Gen. Fry, "to be appreciated. Charity, when carried too far or ill-judged in its objects, defeats its own end and promotes the evils it aims to relieve." Passing to the immediate question, "Should the compulsory system be introduced into the Army and enforced among our enlisted men?" General Fry said: "Holding as I do, that general education is not a function of our Government, and that all enterprises which properly belong to the individual must fail when assumed by the State, the conclusion is inevitable that the system should be abolished." Whatever may be thought of General Fry's conclusion, the importance of the discussion he has started cannot be over-estimated, and we hope it will not be closed until the real value of our present system of public and private instruction is put to the proof. Knowledge is extending itself into so many different fields that there is always a danger of over-doing the matter by loading the youthful minds with facts. Physical growth is not measured by the amount that goes into the stomach, but by what is absorbed into the system, in answer to the demands that physical activity makes upon the supplies furnished through the stomach. The accumulations in the memory have a similar relation to mental growth and if we overload it the result is mental inaction and torpor, instead of healthy activity and growth.

CAST-IRON GUNS AND MORTARS.

WHEN the conference report on the Army Appropriation bill was submitted in the Senate on Tuesday, Senator HAWLEY took occasion to make inquiry concerning the status of the Fortification bill, and was answered by Senator DAWES, Chairman of the Senate Conference Committee on the measure, as follows:

The committee of conference held two or three meetings during the first session of Congress and were unable to agree. They made report to their respective Houses, and their reports were accepted and a new committee appointed, which held meetings with the same result and made the same report. A new committee was appointed at the close of the last session. Immediately upon the assembling of this session the committee were called together and have had several meetings without being able as yet to agree. Whether it is proper to state what difficulties are found to exist in the committee of conference I am not certain. I have no objection to stating what the difficulties are, if it is a proper matter for disclosure here. There is some prospect that in some shape there may be an early agreement. The conferences have been interrupted by the absence of two of the members of the committee of conference on the part of the House, one of them having been called home to Alabama by telegraph on account of sickness in his family. As soon as the conferees can be got together again it is the intention of the committee to make further effort, with what result no one can tell. The difficulties seem to be radical. The difference in the conference committee is between doing substantially nothing and appropriating $5,000,000 or $6,000,000 to begin the work of coast defences. No one can need in this body to have his attention called to the necessity and importance of beginning that work. There seems to be a lack of confidence on the part of some of the members of the committee in those who would execute the law under existing administration. I think if the committee of conference could be induced to establish a new bureau for the purpose of executing the law a good deal of the difficulty could be got over. Whether they will be able to agree to that and report to their two Houses for sanction I am not able to say.

So it would appear that the conferees have not yet agreed upon the terms of a Fortification bill, and we observe that there is also a difference of opinion as to how far the Ordnance Bureau should control the appropriation when made. But we presume the most difficult questions before the Committee are just how far to discriminate in favor of steel as a material for guns, how best provide for "the development of our steel industries," what kind of steel ought to be procured, and at what rate and at what price we are likely to procure the guns. These are important questions, of a more or less technical character, and we think the Committee will have to make up its mind to trust to our Engineer and Ordnance bureaus to a certain degree in the matter, and to considerable delay.

In the meantime, however, our attention is challenged by the admirable performance of cast-iron guns and mortars at Sandy Hook; and Mr. Wm. P. HUNT—whose experience and long study of the question and honest patriotism entitles his opinion to be gauged by a higher standard than that of an interested manufacturer—claims that the public interests demand that we shall not wait for the uncertain and long-delayed development of our steel plants and the settlement of disputes in relation thereto, but proceed at once to equip our forts with heavy cast-iron guns and mortars. When Mr. HUNT and Captain BUTLER and the late Colonel LAIDLEY were urging in these columns and before those appointed to consider the subject, the fair and crucial test of American "gun iron" under the improved conditions of modern construction and service, they claimed that if a gun of 12 inches calibre should be proved capable of enduring a reasonable number of rounds with charges of 150 pounds of powder and projectiles under 700 pounds, we had abundant need of such guns, as they would be capable of penetrating 12 inches of iron armor, and therefore be available for many important positions in any system of harbor defence. The only two ordnance officers in the Getty Board also expressed faith in the wisdom of such a trial. The 12-inch breech-loading gun at Sandy Hook has certainly more than justified the wisdom of its trial, having endured, without other injury than the scoring of the bore common to all large guns, over 100 rounds with 265 pounds of powder and projectiles of 800 pounds, giving velocities of over 1,700 feet per second, which is equivalent to a penetration of 20 inches of iron at a mile. This is a very significant fact when viewed in connection with Sir E. J. REED'S exhibit of the iron-clad fleet of France in the January number of "Harpers' Magazine." An inspection of this article will show that there are few vessels in either the French or English navies which could withstand the fire of this Sandy Hook gun. Even the two vessels with 22-inch armor have that only in a belt at the water-line, the guns being protected by only 12-inch plates.

THE FISHERIES DISPUTE.

ON Monday the Senate passed an act authorizing the President whenever he is satisfied that American vessels are denied their treaty rights in Canadian waters "in his discretion, by proclamation to that effect, to deny vessels, their masters and crews, of the British dominions of North America, any entrance into the waters, ports, or places of or within the United States (with such exceptions in regard to vessels in distress, stress of weather, or needing supplies as to the President shall seem proper), whether such vessels shall have come directly from said dominions on such destined voyage or by way of some port or place in such destined voyage elsewhere; and also to deny entry into any port or place of the United States of fresh fish or salt fish or any other product of said dominions, or other goods coming from said dominions to the United States."

The act further declares the forfeiture of vessels and goods coming in or being within our waters in violation of the President's proclamation, and provides that "every person who shall violate any of the provisions of this act, or such proclamation of the President made in pursuance hereof, shall be deemed guilty of a misdemeanor, and, on conviction thereof, shall be punished by a fine not exceeding $1,000, or by imprisonment for a term not exceeding two years, or by both said punishments, in the discretion of the court."

The resolution was passed by a practically unanimous vote, only one Senator voting against it, Mr. RIDDLEBERGER, of Virginia, and he—to judge from the official report of his remarks and the statements in the daily papers—was in a somewhat confused condition of mind, interjecting here and there into the debate irrelevant remarks, to which his fellow Senators paid no attention. His opinion on the general question, so far as he had any, may be inferred from his answer to the call of his name on a question of amendment preliminary to the final vote: "I am paired with the Senator from Tennessee (Mr. HARRIS). I am not apprised as to how he would vote on these matters. I am only apprised as to what I should do if I were not paired, which is to cast every vote I can against Great Britain." In the debate on the bill Mr. INGALLS said:

The differences between the United States, Her Majesty's Government, and the Dominion of Canada, touching the fisheries, must ultimately be settled by negotiations or by war. This measure proposed by the Committee on Foreign Relations is distinctly, as I understand, one of retaliation. It is an eye for an eye, a tooth for a tooth, a fish for a fish, an insult for an insult, and a wrong for a wrong. England has always been the ruffian, the coward, and the bully among the nations of the earth; insolent to the weak, arrogant to the feeble, cringing and obsequious to the strong, her history for centuries has been a record of crimes against the human race. England bears no good will to this country. The memory of defeat in two wars rankles, I have no doubt, in the breasts of Englishmen. When I say that Great Britain is not friendly to America, I mean that the ruling classes are not, and that they have never been. Their course toward us has uniformly been one of supercilious insolence and of outrage. They cheated the South with false hopes of recognition, and they outraged the North by violating the rights of neutrality. Their action in the treaty of Washington was controlled solely by a fear of the consequences to their own commerce in the next war in which they might be engaged, if they permitted the precedent that they had established to stand undenied.

I believe that there is no special reciprocity and good will on the part of America towards England. There are few Americans who do not regret Waterloo. There are few Americans who do not recognize the fact that the conduct of Great Britain towards this country has been characterized by jealousy and malevolence from the beginning of our national existence, and that she is our only enemy among the powers of the earth.

If I read these transactions aright, there is no desire on the part of Great Britain to secure a peaceful solution, a pacific interpretation of the doubtful provisions of the treaty of 1818, but a deliberate design to so far foment the irritation, the discontent that exists between the United States of America and the Dominion of Canada as to prevent the pacific political affiliations of those two powers in the immediate future, which would be inevitable if it were left to the operation of the natural laws of politics, of trade, and of society.

Mr. FRYE described in detail the outrages upon American fishing vessels, of which complaint is made, and said :

I wish to call the attention of the Senate and of the country to the fact that out of all the cases hitherto reported by the Secretary of State to the British authorities, out of all the cases reported to the Secretary of State, out of all the cases that have come to my attention—and many have—there never has been but one in which there was a suspicion, or a ground for suspicion, that the American vessel was violating the treaty of 1818, and intended to fish, or had fished, within the 3-mile shore line. The *Highland Light* is the only one. She paid the penalty by her death as an American fishing vessel, and she caught enough for the crew's breakfast. That is the only case in all the written history of the last year.

THE transfer of the U. S. Signal Service to one of the Civil branches of the Government may be considered a foregone conclusion. Whether the change be authorized this session or next, or whether the Interior Department, Treasury Department or Agricultural Department will envelop the bureau, are questions yet to be determined. The prevailing sentiment seems to be in favor of placing the bureau under the proposed new Department of Agriculture and Labor. A measure for that purpose was introduced in the Senate by Mr. MORGAN on Tuesday. There is no doubt about the willingness of the Secretary of War and the other officials of the War Department to have the transfer made, and it can be authoritatively stated that Congress will not be embarrassed in efforts to bring about the change, by the appointment of a successor to General HAZEN. The report made by the Lieutenant-General, and approved by the Secretary of War on the draft of a bill for a reorganization of the Signal Corps, which was submitted by General HAZEN just previous to his death, shows that the movement will have the full sympathy of the War Department. General SHERIDAN is unalterably opposed to the continuance of the Signal Service as a bureau and part of the regular military establishment. Instruction in military signalling can be continued better without it, and the telegraph lines supposed to be maintained by the Signal Service are really built by the troops —the Quartermaster's Department furnishing the transportation and the Signal Service generally only a portion of the materials and a few *experts* in telegraphy to *superintend* the construction or repairs. General SHERIDAN says :

In the past there have been many complaints from officers as to the unreliability of telegraph lines operated by the Signal Service, and serious controversies to the prejudice of the military service have arisen owing to the dual position in which officers in charge of lines and operators at stations are placed when serving under the orders of Department commanders, as well as the orders of the signal officer.

The proposition submitted to transfer the sixteen second lieutenants of the Signal Corps to the line of the Army and to detail twenty-two officers of the Army for Signal Service duty is a most remarkable provision, to say the least. The lieutenants now in the Signal Corps are, according to a report of a board of professors of their own corps, with a single exception, incompetent to perform all the duties of acting signal officers, and to transfer them to the line of the Army, with rank from the respective dates of their present commissions, would be a flagrant injustice to many worthy, brave and competent officers of the line who have seen hard service on the frontier, by giving the officers so transferred, who are probably not by education, and certainly not by experience, qualified to command and care for troops in active service, superior rank. There are already too many officers of the line detached from their appropriate duties with their respective companies for the good of the Service.

LIEUTENANT-GENERAL SHERIDAN, in making public the results of the rifle and carbine firing of the Army for the target year 1886, much of which has heretofore been given from time to time, in detail in the JOURNAL, commends to the troops for 1887 especial attention to skirmish firing, which he holds to be the most important part of musketry instruction and from which, in battle, the greater practical advantages follow. The drawback at many posts is the smallness of the garrisons and the lack of proper facilities, but if funds could be provided to bring a goodly number of the troops together for a short time in a suitable locality, then instruction in skirmish firing could be given with the hope of practical and beneficial results. As we have already stated Co. D, 3d U. S. Inf., again takes the Nevada Badge, which was originally offered for competition to the Army by a letter addressed by the Editor of the JOURNAL to General Sherman April 25, 1881, and published in G. O. 45, Headquarters of the Army, May 11, 1881.

THE *Herald* presents, with a diagram, a plan of fortification proposed by Lieut.-General Sheridan. It is in the line of the suggestion by Sir Andrew Clarke, which appeared in the JOURNAL of January 15. General Sheridan's plan is based upon his experience in fighting Indians in 1867 on the plains, when no wood could be had for block-houses and sunken pits were substituted and proven to be far better. He proposes gun emplacements to consist essentially of circular pits, revetted on the interior with concrete or masonry, the crests of this interior revetment being capped with a glacis of chilled cast-iron blocks, which are dovetailed into each other. The guns are to be mounted on disappearing carriages, power to be transmitted from a central underground station, which is thoroughly protected. In order to limit the effect of an enfilading fire, it is proposed to have these emplacements not less than one hundred feet apart. The main system may be protected from assault by dry or wet moats, as special conditions may require, and these should be swept by machine guns placed in the scarp and counter scarp galleries. The auxiliary defences will consist of:

"*First*—Sunken emplacements for pneumatic dynamite torpedo guns.

"*Second*—Operating chambers for submarine and ground mines systems.

"*Third*—Observing stations from which the ranges and movements of the enemy may be noted and telegraphed to the operating chambers and guns.

"*Fourth*—Pits with depressing platforms, carrying shielded machines and rapid firing guns (Hotchkiss).

"*Fifth*—Underground mines in successive systems or lines, so placed that they may be sprung in succession as the assaulting columns move over them. These mines to be fired electrically from the works."

Rifle mortars are recommended for the war defence, these to be established in groups of about fifty, each group being fired as a unit, and to cover a given square upon which they are to open fire when notified by an observing station that an enemy has entered it. A sufficiently large number of groups should be provided so that a continuous fire may be showered upon an advancing fleet while it is anywhere within effective range. The cost of fifty mortars of 12-inch calibre, carriages included, will not exceed the cost of five 100-ton guns and their carriages. Besides their first cost the mortars can be placed in very inexpensive sunken emplacements, the outlay for fifty mortars, their carriages and emplacements being less than that of four 100-ton guns, with their carriages and emplacements within turrets.

LIEUT. T. J. CLAY, Inspector of Rifle Practice for the Department of Arizona, in his annual report, to which we have before referred, gives some excellent suggestions, which should receive the attention they deserve. Lieut. Clay criticises the present system of testing marksmen under conditions that will not prevail in actual service and at ranges within those which separate troops upon the battlefield. The back position he further says would not be used under such circumstances, as "no man would expose himself on his back in an open place, when he could obtain shelter in a prone position behind a rock." Practice in the standing position, he thinks, should be limited, and no bodily rest of any kind allowed. Lieut. Clay says:

The soldier is consequently practiced over the same ground the year through, under the most favorable conditions, when we know that in actual service the conditions of firing are constantly changing, especially so in Indian warfare in this mountainous country, where at one time the hostiles are ensconced behind rocks in some elevated position, and another time are in some valley or canyon. The present method of comparing the efficiency of troops in the use of their arms by the figure of merit they obtain, is I think, in a great measure unjust, as at some posts the conditions of range, light, atmosphere and wind are very favorable for the making of large scores, while at others the reverse obtains; it cannot, therefore, be just to say that the troops stationed at posts of the first mentioned kind are better shots and better instructed than those whose practice has been held at posts not so favorably situated, simply because they have a higher figure of merit. To make a just comparison they should be required to shoot under exactly the same conditions.

Why not have practice conducted in all kinds of weather and over all kinds of ground; in rain, snow and wind, as well as in fine weather, and over rough, hilly, as well as over level ground. Place the figure targets on the crest of a hill, among rocks in valleys and on level ground, and teach the soldier to fire up hill and down as well as on the level and to estimate distances, and I believe we would have a much more effective body of men for actual warfare than we now have. I do not mean by this that all practice at known distances and over good ground should be abolished; on the contrary this is where the recruit should be first instructed in position and aiming, and taught that when the rifle is correctly sighted and held, the bullet goes to its mark. This kind of practice should, however, be limited. When the recruit is found to be sufficiently well instructed in this preliminary practice he should be taught to estimate distances, and to fire at unknown distances. Men should also be frequently instructed in the bayonet exercise and pointing drill, as these exercises familiarize them with their pieces, and after a few drills they handle their rifles with as much ease as though they were part of themselves.

Why not extend our aimed practice up to 2,000 yards at groups of figure targets, and have some unaimed firing at even a greater distance. A great many of the English authorities claim that this kind of firing will be largely used in the future by line troops in action. For these practices there should be an increased allowance of fixed ammunition for experimental purposes. The reloaded ammunition should only be used in instructing recruits as, owing to carelessness in reloading, the results obtained with it at long range are frequently far from satisfactory, and the rupturing of shells after having been reloaded a number of times does not help the rifle.

An increased amount of pistol ammunition should be allowed each troop, and great care and attention given to the instruction of the trooper in this practice. As an incentive, it would be a good plan, I think, to offer prizes for proficiency in this kind of shooting at our annual competitions. The Western cow boy, mounted, becomes very expert in the use of this weapon, and there is no reason why our cavalryman should not become equally so, there being no difference in the material from which they are gotten.

With reference to this report, a correspondent says: "I believe it expresses the views of a large number of officers of the Army. Lieut. Clay, as it is well known, is a distinguished marksman and speaks whereof he knows, and his opinion should have great weight. His recommendation 'that half the qualifying scores at 200 yards be made with elbow away from the body; at 300 yards half the scores be made in the kneeling position, and half at the long ranges in the prone position,' is so eminently sound that it is to be hoped this step in the right direction will be made by General Sheridan. I would go a little further and forbid officers from competing for prizes with enlisted men. It is thought by great numbers of the rank and file that the officers have a great advantage in these competitions. Make a separate class for officers."

THERE was an interesting debate in the House last week on the bill to compensate Albert H. Emery for the testing machine built by him for the Government and which has proven such a wonderful success. Of it, Mr. McKenna said: "On the occasion of its trial a forged link of hard wrought iron, 5 inches in diameter between the eyes, was slowly strained in tension, and broke short off with a loud report at 723,000 pounds. In order to ascertain if the weighing parts had been distributed by the recoil, which was obviously near the greatest recoil the machine will ever suffer, a horse-hair was tested next. It was only 7-1000 of an inch in diameter; it was stretched 30 per cent., and broke at 1 pound." Senator Platt was quoted as saying: "From the beginning to the end, from the incipiency of the history of this claim until the present moment, it swells upon the regards of every man that looks into it; it magnifies itself when it is examined; there is nothing like it to-day beneath the sun in all the civilized world, and there is no other such machine in existence." And Senator Hawley: "It revises for us, it revises for the world the standard tables of the tests of all materials." Mr. Hewitt said: "It is, perhaps, the most remarkable exhibition of mechanical ingenuity that has been produced in our time; and the inventor, Mr. Emery, has recently received from the Machinists' Charitable Institution of Massachusetts the medal which they confer once in a long period upon the invention which is the most calculated to advance the interests of mankind." In protesting against the delay in paying what he regarded as a just compensation for the use of this invention Mr. Reed said: "I have heard on this floor, every now and then, some remarks about the grinding nature and character of corporations. I am not absolutely sure, even by figure of speech, we can designate the United States as a corporation. But whether it is or not, according to my experience, it surpasses in its grinding character in a matter of this kind any corporation I have heard described on this floor."

WE have received a number of letters from officers of the retired list of the Army expressing much anxiety as to the interpretation of the clause in the bill, introduced by Mr. Bragg, in which the pay of retired officers is limited to 75 per centum of the full pay the officer is entitled to receive when he retires. Our understanding is that it was not Mr. Bragg's intention to do anything more than to put an end to the accumulation of longevity or service pay after retirement. The wording of the section will doubtless be changed to conform to his purpose. With reference to this bill an old Army officer writes us as follows: "If full pay means not the pay paid at the time of his retirement, but the pay not including the increase of pay on account of length of service, it is a reduction of pay for retired officers of about 30 per cent. for those who have served over twenty years, and no reduction of the pay of those who happened to become disabled at an early period of their service—a punishment inflicted now for having served so long. To reduce the pay of retired officers, who have closed the fight of life and believe that they are safe from reverses, is a measure which resembles much an ex-post facto law, and is unquestionable an injustice, which may become justifiable in times of financial embarrassment of the country, but not otherwise. It is strange that at the same time when old soldiers are at last placed on the retired list, and their condition is more and more improved, at the time when millions are cheerfully voted to help soldiers, who have been out of service twenty-five years, old officers, who have been in the Service all this time, should be deprived of what they considered as a small but at least as an assured competency."

A RECENT number of the London *Daily Telegraph*, with pardonable pride, says—would that we could say the same—"The docks, public and private, of Great Britain, are as noble a testimony to the nation's growth and advance as it is possible to choose, and they stand as among the most honorable of our island memorials to the adventurous judgment and courageous foresight of the merchants and shipowners of these realms. It is the docks which make the pride of our great rivers—the docks, with their

costly and superb appliances, their miles of warehouses, and the grand array of shipping forever quitting and entering their calm and secure waters. No Englishman can possibly survey the spacious ranges of this form of human handiwork without a feeling of pride. . . . Nowhere else may so triumphant an illustration of the national characteristics be found. The flags of our commercial relations are there exhibited, and the industries of the globe appear crystallized in a single area of water, flanked by the scientific conveniences of labor."

ORDERS promulgated to the British Army provide that in view of the very creditable and satisfactory results which have been obtained from the practice of "distance rides," recently carried out in the Eastern district, similiar exercises will be made in all the districts in which cavalry are quartered. The ride to which reference is made, was performed recently from Colchester to Norwich and back, a distance of 137½ miles, the time occupied from start to finish being 68½ hours, including two night halts at Ipswich, the actual marching time being 20 hours 39 minutes, or an average of nearly seven miles an hour.

ON July 24, 1870, the German troops were furnished with an order of battle of the French Army, constructed out of the chaos of the military state of France from the various details furnished by French newspapers by a German Staff officer, so exceedingly accurate that it could be relied on in all essentials without any help from spies. From this a German writer, Col. Koettschau, infers that all attempts at actual secrecy in such matters are useless as regards military organization in time of peace.

THE subject of the U. S. Naval Institute Prize Essay for 1888 is Torpedoes: 1. Their place in naval warfare. 2. Character of the torpedoes and torpedo vessels required for the Naval Service of the U. S. 3. Organization of our Naval Torpedo Service and instruction of its *personnel*. 4. Tactics to be employed in offensive and defensive warfare. The usual prize of a gold medal and $100 will be awarded. Competition open to all members of the Institute and to persons who become members for the special purpose. All essays to be presented by Jan. 1, 1888.

IN a personal letter the Adjutant-General of one of the New England States, says: "I think that if the inspectors when visiting the different States, would take special interest in the command, and suggest to the commanding officers anything for the good of the Service that might seem to them necessary, it would be a great help and do more good for the citizen soldiery than could be done in any other way, in a time a peace."

A CORRESPONDENT of the 8th U. S. Cavalry objects to the statement made by "Eighth" in the JOURNAL of January 8th, that while the regiment "may be a little enervated by its eleven years' stay in Texas," it is quite willing to forego invigoration by means of the frosts of Dakota, and prefers to remain where it is. He says the interests of the Service in general and of the regiment in particular, demand a change.

AT a meeting of the Executive Council of the Military Service Institution, held at Governor's Island Jan. 26, the following officers were elected to serve for the ensuing two years: Maj. Gen. Schofield, President; Vice-Presidents—Gens. J. B. Fry, T. L. Crittenden, S. V. Benét, S. B. Holabird and T. M. Vincent; secretary, Gen. T. F. Rodenbough; treasurer, Lieut. A. W. Vogdes; assistant secretary, Lieut. E. S. Farrow; vice-treasurer, Lieut. Col. Heman Dowd, 12th Regiment, N. G. S. N. Y.

BEFORE taking action on the nomination of 2d Lieut. Humphreys, who was recently appointed from civil life, the Senate Military Committee sent to the War Department for information as to whether or not all the additional 2d lieutenants of last year had yet received full 2d lieutenancies. Being answered in the affirmative, the committee immediately took favorable action on the nomination, thus showing that they were not inclined to question further the President's right to appoint civilians to lieutenancies in the Army where a vacancy exists.

THE Army Register will not be out as early as expected, owing to a delay at the printing office in furnishing the Department with proof sheets of the index. Its distribution is not looked for now much before the middle of February.

THE engagement is announced of Lieut. David Price, 1st Art., to Miss Hargous, of New York. Also that of Miss Edith Carmen, who visited Miss Bruff when the latter was stationed at West Point, to Lieut. W. H. Hay, 3d Cav., a graduate of last June.

A REVISION of the Infantry tactics by Major H. S. Hawkins, 10th U. S. Inf., has been submitted to Lieut.-Gen. Sheridan for consideration.

RECENT DEATHS.

COMMODORE PHILIP C. JOHNSON, U. S. Navy, died of Bright's disease at 6 o'clock A. M. Friday, Jan. 28, at the Portsmouth Navy-yard, where he was on duty as commandant. He was a native of Maine, and, as the yard is within the territorial limits of that State, he began and ended his days there. His first appointment to the naval service dates back to Aug. 31, 1846, and he first saw service during the Mexican War at the bombardment of Vera Cruz and Tuspan. He was commissioned Lieutenant, Sept. 16, 1855, and in that grade had his second experience of war service in command of the steamer *Tennessee* at the bombardment and passage of Forts Jackson and St. Phlip. He was commissioned Lieut.-Commander, and as such commanded the *Katahdin* and *Sacramento* and was for a time, 1865-6, on duty at the Naval Academy. Commissioned as commander Feb. 2, 1867, he was appointed fleet captain South Pacific Squadron and then transferred to Coast Survey duty. As captain, commissioned June 14, 1874, he commanded the *Omaha* and *Richmond;* was on duty at Mare Island, 1877-81. June 15, 1881, he was ordered to the command of the school ship *New Hampshire*. He next served as Chief Signal Officer, and July 28, 1886, was promoted to commodore and placed in command of the Portsmouth yard. Nearly twenty-five of his service of nearly forty years were spent at sea, and he was on shore duty nearly thirteen years, being two years and five months unemployed.

CHAPLAIN J. C. LAVERTY, U. S. Army, retired, died suddenly of pneumonia, at his residence in Philadelphia, January 20, in his sixty-fifth year. He was a native of Ireland. Came to this country in 1845; graduated from Union College, Schenectady; was for some time rector of an Episcopal Church at Bellefonte, and on the 15th of March, 1876, was appointed Chaplain of the 24th U. S. Infantry. He was retired for age February 5, 1886. The funeral services took place on Monday.

THE funeral of the late Paymaster William N. Watmough, U. S. N., retired, took place on Sunday last from his late residence, 130 West Townsend Street, Baltimore. There was a large attendance. Among the pall-bearers were Rear-Admiral Edward Donaldson, U. S. N.; Rear-Admiral Geo. B. Balch, U. S. N.; Medical Director M. Duvall, U. S. N., and Commander Yates Stirling, U. S. N.

GENERAL CHARLES P. STONE (Stone Pasha), formerly of the U. S. Army, died in New York City of pneumonia, Jan. 24, after an eventful career. He was born at Greenfield, Mass., Sept. 30, 1824, entered West Point in 1841, was graduated in 1845, promoted brevet 2d lieutenant of ordnance, and assigned to duty at the Military Academy as professor of ethics remaining there until January, 1846. He served with distinction in the Mexican War, being brevetted 1st lieutenant for gallantry at Molino del Rey, and captain for gallantry at Chapultepec. In 1853 he was promoted 1st lieutenant of ordnance and resigned Nov. 17, 1856. During the following year he was a banker in San Francisco, but left that profession to undertake a survey of Sonora and Lower California. When the war broke out he was called to Washington, and on Jan. 1, 1861, was appointed colonel on the staff and made Inspector General of District of Columbia volunteers. He was so zealous in his labors to organize the District troops that President Lincoln on May 14, 1861, appointed him colonel of the 14th U. S. Infantry. Three days afterwards he was appointed brigadier general of volunteers, and commanded a corps of observation on the Upper Potomac until February, 1862. Growing out of this service was his arrest and confinement in Fort Lafayette from Feb. 9 to Aug. 16, 1862, without charges being preferred against him. After his release he performed various important duties, was mustered out of the volunteer service April 4, 1864, and resigned from the Regular Army Sept. 13, 1864. He then became a mining engineer, but in 1869 went to Egypt, and on March 30, 1870, was appointed by the Khedive chief of staff in the Egyptian Army with the rank of brigadier general. In 1873 the grade of Ferik Pasha, next to Field Marshal, was conferred upon him. Gen. Stone did excellent work in developing the morale of the Egyptian Army. He established a school in every battalion. He founded a staff college and revolutionized the improper methods he found in vogue. He set on foot a comprehensive system of Central African exploration. For "his valuable services in command, organization and administration" he was decorated Commander of the Order of Osmanieh and Grand Officer of Medjidieh. He performed loyal and faithful service to the Khedive in many other ways, and was present at the bombardment of Alexandria, and remained with the Khedive until he returned to Cairo. The change of affairs, which soon afterwards ensued, caused his resignation in 1883, and he returned to the United States and took up his residence at Flushing, Long Island. He was selected as engineer-in-chief and general superintendent of the construction of the pedestal of the Bartholdi Statue of Liberty at Bedloe's Island, N. Y. H., and the Nation knows how well he fulfilled that trust. He leaves a widow and three children, and many warm friends, who will long mourn the brave old soldier and courteous gentleman. The funeral took place, Jan. 27, from St. Leo's Catholic Church, New York, after which the remains were taken to West Point, where they were interred with due honor under the supervision of Gen. Wesley Merritt, U. S. A., Superintendent of the Military Academy. The pallbearers were Gen. W. T. Sherman, Maj. Gen. John M. Schofield, Eugene Kelly, Judge Chas. P. Daly, J. W. Pinchot, Joseph Drexel, Gen. Z. B. Tower, Col. Alfred Mordecai, Gen. Fitz John Porter, Gen. John P. Hatch, Gen. S. Van Vliet, Gen. S. D. Oliphant, Robert B. Parsons and Joseph Murray. Members of the Aztec Club, the Grand Army of the Republic, and kindred organizations were present at the funeral ceremonies in New York.

THE New York Commandery, Loyal Legion, in an obituary notice of the late ex-President Chester A. Arthur, say: "His early services as Quartermaster-General of the State of New York during the Rebellion, in fitting out a great part of the grand army which comprised one-fifth of the Union forces, has made his name conspicuous in the military history of the country, and especially in the annals of his own State. His career, social, political and official, has been manly, straightforward, honest and incorruptible—an honor to the nation, and a rich legacy to his family." Of the late Chaplain John Forsyth, U. S. A., the Commandery says: "With a noble intellect, with richly stored memory and broadly cultured mind, with literary and social friendships multiplied through a long and loving life, with an appreciation such as few men had of the joyfulness of living, with an exhaustless enthusiasm that made him so dear and so inspiring to young men he trusted not in himself nor in any merit of his life. He trusted only in that Eternal Love manifested on the Cross of Calvary."

THE War Department is informed of the death, by suicide, of Lieut. Peter Campbell, 18th Infantry, at Fort Leavenworth, Jan. 27. Lieut. Campbell served from 1861 to 1865, as an enlisted man and officer of New York Volunteers; enlisted in 1871, rose to Sergeant Major 18th U. S. Inf., and on the 24th of June, 1880, was commissioned as 2d Lieutenant in that regiment.

SIR JOSEPH WHITWORTH, the eminent British engineer and gun manufacturer, died at Monte Carlo, Jan. 22, aged eighty-four. He founded in 1868 the "Whitworth Scholarships" in Mechanical Science, thirty in number, was made a baronet in 1869, and is the author of several treatises on Mechanics.

THE Hon. Geo. P. Elliot, father of Lieut.-Col. Geo. H. Elliot, Corps of Engineers, U. S. A., died at North Billerica, Mass., Jan. 21. The deceased gentleman was eighty-two years of age, and had lived a useful and an honorable life.

WILLIAM H. WOOD, who served with credit during the War as Acting Master and Acting Volunteer Lieutenant, U. S. Navy, during the War, and for sometime after it, died at New Bedford, Mass., Jan. 16, aged fifty-seven.

SAMUEL E. LYON, a well known New York lawyer, and father-in-law of Gen. "Baldy" Smith, died suddenly of heart disease, at Aiken, S. C., last week.

THE remains of the late Surgeon E. Swift, U.S.A., were recently brought from Bermuda to Wareham, Mass., and were interred there Jan. 25th.

JOHN BUTLER, who died at South Butler, N. Y., Jan. 26, aged 104, served in the war of 1812, and was wounded at Lundy's Lane.

HIRAM AVERILL, father of General W. W. Averill, died, Jan. 27, at the residence of his son, in Boston, aged ninety-one.

SIMPSON HARRAS, a veteran of the War of 1812, died at Brazil, Md., January 21, aged 109. He was born Jan. 1, 1778.

N. H. YOUNG, formerly post trader at Fort Sully, died at Pierre, Dakota, Jan. 11, of consumption.

(Correspondence of the Army and Navy Journal.)

FORT MEAD E. D. T.

JANUARY 19.

OUR post has been enlivened this week by the return of several absentees—Major Whitside, Lieut. Tompkins, of the 7th Cav., and Lieut. Leonhaeuser, of the 25th Inf. The arrival of Major Forwood, Surgeon, U. S. A., who has been ordered here for duty, caused a "grand change all around," in the ranking out of quarters, no less than seven families having been on the move in one day.

The event of the gay season next to the Bachelors' *bal en masque*, was the joint entertainment given by Mrs. Slocum and Mrs. Hare, in the officers' hop room. The invitations included the entire garrison. Progressive euchre, with a dozen tables and ten prizes, opened the evening. Then came an interlude, when the prizes were distributed and supper served, followed by dancing. A very merry crowd enjoyed a most delightful evening.

Miss Nina Tilford, daughter of the Lieut.-Colonel of the 7th Cavalry, has left for the "States," and will spend a few weeks in St. Louis, en route to New Orleans, where she goes to attend as "maid of honor," the wedding of her cousin, Miss Dora Scott, who marries Lieut. Devol, of the Infantry, on Feb. 17. It is needless to add how many at Fort Meade will miss the sweet and gracious presence of "Miss Nina."

The order requiring Lieut. H. J. Slocum, of the 7th, to report for duty at Jefferson Bks., has been received with much regret here, as both he and his charming wife have rendered themselves most popular in the garrison society. Rumors of an early move to Texas for the 7th, have cropped up with renewed vigor of late.

Among the recent visitors of the post were Mrs. Thomas Scott, formerly Miss de Rudio, visiting Mrs. Col. Tilford, and Miss Spillman, of Virginia, the guest for a few days of Mrs. Capt. Gibson, and Lieut. Baldwin, of Fort Yates.

THE MEETING AT FORT ELLIOTT.

To the Editor of the Army and Navy Journal:

YOUR correspondent, * * *, referring to the meeting of enlisted men of Co. F, 24th Inf., at Fort Elliott, Tex., assumes that the officers at that post *did allow* the men to meet. * * * might have waited before giving further circulation to this glaring breach of discipline. Perhaps every officer of the Army cognizant of the matter thinks as he does. Breaches of discipline are not allowed when there is foreknowledge of them. The ringleaders will be brought before a court, as will the men who were the occasion of the meeting. MISSOURI.

THE STATE TROOPS.

THE MILITIA OF THE CONSTITUTION.

A PAPER was read before the National Guard Association at its meeting held in Lincoln, Jan. 14, 1887, by Lieut. Edgar S. Dudley, U. S. A., on the subject of our militia. In it he gives a synopsis of the various Federal laws relating to the militia, which may be briefly enumerated as follows:

The militia law of May 8, 1792, making every able-bodied "white" citizen a militiaman liable to duty; amended March 2, 1803, and further amended March 2, 1867, by striking out the word "white." The act of Feb. 28, 1795, authorizing the President to call directly upon the militia to repel invasion without the interposition of the State authorities, amended July 29, 1861, July 17, 1862, and by the act of 1870.

Act of July, 1798, providing for the distribution of arms to the States, amended April 23, 1808, April 19, 1816, and March 3, 1855, and now about to be further amended by an increase of the annual appropriation from $200,000 to $400,000; act of January, 1882, authorizing the issue to the militia of heavy guns and mortars.

Referring to the sweeping language of these enactments putting every able-bodied man at the disposal of the President under circumstances that may occur any day, Lieut. Dudley said:

If people knew what they are daily escaping simply through, and because of, the volunteer organization of the National Guard of the State, as well as the permanent organization of our small Army, they would be more willing to pay taxes for and encourage these organizations—the members of which endure hardships and perform duties that they as individuals would otherwise be called upon to perform, and for which they are liable at any day. Under the law the President's power is not limited to the National Guard, but his authority extends to every individual member of the militia, every able-bodied male citizen, not exempt by law, between the ages of eighteen and forty-five years. Few citizens realize to-day that they are subject to this call, or are aware, perhaps, of the powers of the President in this respect. Nor do they remember that the entire population is to be divided up into districts for the purpose of their enrolment. Yet such enrolment is actually made, and in this State by township or precinct assessors. (Sec. 6, chap. 5, stat. Neb.)

It should be made clear to the people that these organized bodies do not constitute "the militia," but that those who sometimes find fault with appropriations made for them—with expenditures made on their behalf—are themselves liable to perform the duties now done by the National Guard organization. The fact should be impressed upon those who grumble at the expense of their maintenance that a single call upon them under the present law to perform the military duty to which they are liable, and to appear armed and equipped at their own expense, "as the law directs," would cost them more for a single appearance than all the taxes they pay for support of military organizations, Regulars and National Guard, in the course of a life time. They can well afford to pay the small sum needed to support the Regular Army and National Guard who voluntarily took their places and perform their duties. How many could afford to give up business or pleasure, the comforts and conveniences of home life, to endure the trials and hardships of the camp for even the time necessary to learn the rudiments of drill as a soldier every year, to say nothing of exposing themselves to the increased dangers of active service? To be relieved from all this they can well pay others to take their places, and it is for their interest that those others should be efficient, for if inefficient their inefficiency in knowledge must be supplemented by increase in numbers. They should remember, too, that they have no right to exemption from military service. They are only free from it because others are found to undertake their duties for them.

For the best results and to secure uniformity in all things, a strict national supervision of the militia is necessary. A central power should be able to call out the organized militia from any section and to secure uniformity in all the States, and then we should have a means of protection in all cases of sudden uprising or riot, without calling upon Regular troops. Under the present condition of things I do not think that the militia of any particular city or section should be called upon to actively engage in putting down a mob or disturbance in that city or section unless they are so thoroughly organized, disciplined, and equipped, and supported by the popular sentiment of the community that they willingly do their duty, knowing their acts will be sustained.

It is instructive to turn from these statements by a representative of the military class, to note what is said on the same general subject by a representative of the class supposed to be hostile to military organization. This appears in a letter addressed by Augustus A. Levy to Henry George's paper, the *Standard*. In this we are told that the opposition to the National Guard by the workmen, is because it is not the militia of the Constitution. Mr. Levy says:

Wherever large bodies of workingmen exist they invariably learn to regard the organized militia as an institution opposed to them and to their interests. This could not be were our militia system the constitutional organization intended by the fathers of the republic.

It is beyond question from the phraseology of the constitution that it intended to provide for a system of militia duty to which the entire body of the arms-bearing population should be liable, or such portions of it as Congress might impartially select. In an organization so composed as in the German landwehr, the Swiss federal militia, and, in fact, all the territorial militia systems of continental Europe, no class distinctions can exist. However aristocratic the form of the government a national militia so constituted must be a purely democratic system.

The Constitution intended that Congress should provide for one uniform method of organization for the militia. The time has come when such legislation is imperatively required in the highest interest of the welfare of the republic. When Congress shall deal with this subject, then the laws it shall enact will be the supreme law of the land, and all interfering State regulations will necessarily be suspended in their operation.

The practical effect of the methods of supporting militia regiments in the States is to entirely exclude from membership the workingmen or persons working for daily wages. They are, in fact, little more than voluntary clubs for mutual amusement and perfection in military drill. If they were nothing more they would be harmless indeed; but as the soldiery of the State, as its armed representatives, they should be composed of all the elements of its social organism. They have not been thus composed for many years.

The privates are composed of clerks and young business men—at any rate, of anything but laborers. To read the list of field and staff officers is like a roster of the young men of fortune of the neighborhood. The field officers select their staffs from among the families most likely to afford them social distinction. The general result is shown in the city of New York in the gradual extinction and final disbandment of every militia organization composed of artisans.

It is from their intuitive feeling that in the rank and file of the militia the workingman has no place from which proceeds that bitter hostility to the entire system which has caused some worthy people such astonishment.

In the militia of the Constitution would be found a force selected by lot from the whole arms bearing people of the States. No one physically sound would be excused, the millionaire and the day laborer would practice the goose step side by side. It is indeed a strange anomaly that the nation of all others freest theoretically should tolerate a system of militia service more aristocratic, or perhaps it would be more proper to say, more plutocratic, than any other. The remedy is in a national militia, compulsory service, no exemptions and adequate remuneration for the time taken from the citizen by the nation. Such a system will never be inimical to the interests of any section of the people.

CONDITION OF THE NEW YORK GUARD.

THE remarks upon the several regiments and batteries of the New York National Guard, which we quoted last week, should have been credited to the report of the Inspector-General, who, ably assisted by Col. McGrath, has made thorough work of the inspections during the year. Referring to the improvement in the matter of purchasing and issuing uniforms, the Adjutant-General in his report says: "The excellent results shown in this matter are especially due to the faithful and intelligent services of Col. Thos. H. McGrath of the Inspector-General's Department." General Porter takes pains in his report to contradict the rumor that the appointment of a Major-General to command the whole Guard is in contemplation. He quotes the recommendation of the General Inspector of Rifle Practice that a 45-calibre barrel be fitted to the State arm, and that it be otherwise remodelled, so as to have an 8-lb. trigger pull, an elastic heel plate, and front and rear sights, which can (when flat) "be seen with the piece at the shoulder when in aiming position."

When finished the State would have a stand of arms better than any existing single loader, using ammunition same as the Government, and in good shape with proper care for ten or fifteen years, by which time the United States Ordnance Department might have an arm we would be willing to take. The knapsacks and haversacks issued by the State are in fair condition, and will serve at least for the present. New canteens are required, and should be obtained as soon as possible.

Of the State Camp and Rifle Practice, Gen. Porter says in his report:

The camp was primarily established, not for the purpose of affording the troops opportunities for holiday celebrations or theatrical display, but as a camp of instruction, a school where soldiers may be taught and practiced in their art, and as such it should be strictly maintained. There should be a permanent commanding officer, and at least five or six competent instructors. The difficulty is to find officers properly prepared for the duties of an instructor, who are willing to devote six or seven weeks' time to service at the encampment. There is only one way of meeting this difficulty, and that is by the appointment of a staff of instructors who shall be placed permanently on duty and receive a suitable compensation for their services. It is urged in various quarters, among others by the Adjutant-General of the Army, that men should be sent to camp for at least ten days, but it is doubtful whether seven days is not all that can practically be exacted of men who are engaged in the pursuits of civil life. If the time of the encampment is not consumed in elementary matters, which should be attended to in the armories, much can be accomplished in seven days. But every organization should have a tour of camp duty at least once in two years. Referring to the orders relating to this year's encampment, copies of which are forwarded herewith, it is gratifying to notice that all the innovations made upon the practice of former years are in accord with opinions expressed by the Adjutant-General of the Army in his annual report for 1886, recently published.

Rifle practice has been conducted as heretofore. Under the supervision of the General Inspector of Rifle Practice, who is untiring in the performance of his duties, and whose knowledge of everything that pertains to the art of shooting is thorough and complete, the troops have attained more than a fair degree of proficiency, and are thus made so much the more serviceable. It is proposed to make some desirable changes in the system, the coming year, and if the appropriation warrants it, larger allowances of ammunition and transportation will be made.

HONORS TO COLONEL EMMONS CLARK.

THE unique character of the 7th Regiment of the National Guard of New York is illustrated by the fact that the officers and men of that organization have united the past week in honoring their Colonel with a banquet at Delmonico's upon which some four or five thousand dollars was expended. It was the occasion of the thirtieth anniversary of Col. Clark's enlistment in the regiment, and others besides the members of the regiment were there to testify to their appreciation of the admirable service rendered by Col. Clark in connection with the militia organization which he has placed at the head of all similar organizations in this country. To have accomplished this result proves his possession of qualities which adapt him in rare degree to this special service. Those who know Col. Clark can easily understand how largely the success of the regiment has been involved in the personality of the man who has for over twenty years controlled it as its Colonel. High principle, conscientious devotion to duty, fairness of spirit and equitability of temperament, as well as zeal and industry, are involved in the success which Col. Clark has attained, and certainly these are qualities to be honored in any man, either separately or in the combination of them, which it is so rare to find. Within the period of his service, which covers that of the war, some three hundred officers have been contributed by the 7th Regiment to the regular and volunteer services, and some thousands of young men have been subjected to its discipline and instruction. This certainly is a record of which any regiment may be justly proud.

The banquet on Saturday night was attended by some two hundred members of the regiment and a few invited guests. Twenty tickets were distributed to each company and the thought of the hardship of making the rank and file contribute to such a set out was somewhat relieved by the reflection that the aggregate wealth of the individual members of the 7th is estimated at one hundred millions of dollars. Speeches were made by Gen. Louis J. Fitzgerald, commanding the brigade, who gracefully presided; by Col. Clark in response to the General's introduction; by Col. A. A. Bremner, the oldest living ex-colonel of the 7th, and by Chauncey M. Depew, Horace Porter, Judge John R. Brady, Hon. Wm. E. Dorsheimer, Joseph J. O'Donohue, Rodney C. Ward, Joseph C. Jackson, Rev. Dr. Weston, and Wm. C. Church. Col. Clark said: "For this graceful compliment from my comrades I am sincerely grateful. Military service in this regiment, however, has its own reward from year to year. The fascination of a semi-military life that is voluntary, the intimate and lasting friendships which are a legitimate consequence, the pleasant association with men who are young, generous and confiding; the consciousness of trained ability to aid in the maintenance of law and order, these combine to make membership in the 7th Regiment delightful to all who are so fortunate as to fully comprehend the spirit of our organization, and to serve long, faithfully and unselfishly in its ranks."

He reviewed the history of the 7th Regiment for 30 years. How bravely and how faithfully the regiment marched at a day's notice and nearly 1,000 strong to the defence of the national capital and performed its part in the stirring events of the early part of the rebellion and made a page in history of which the present generation might be justly proud. Again in 1862 and 1863 it responded to the call of the country, when the North was threatened with invasion, and over 300 of its members served afterward in the Volunteer Army and Navy. In the police and Dead Rabbit riots of 1857, in the great draft riot of 1863, in the Orange riot of 1871, in the railroad riot of 1877, and on other occasions this regiment has well performed its part as the bulwark of civil law and the defender of public order. Col. Clark paid a tender tribute to the regiment's dead, and said that of the members of the 7th in January, 1857, the names of only three appear to-day on its muster rolls. The question was often asked, he continued, "why the 7th has gained in all the elements of prosperity. Because it had been uniformly conducted on correct principles, maintaining the highest possible *esprit de corps;* because it had been managed as a body of citizen soldiers. Under such management its future must be no less brilliant and successful than its past.

"We complacently smile at the military critics who assert that our uniform is antiquated. We love the old gray coat that has been worn by the flower of New York for 50 years.

"The future of the regiment is not in doubt. Its officers are worthy of their commissions and its privates loyal. Its numerical strength is nearly at the maximum.

"Second only to the love I bear my family is my affection for our gallant regiment and for you, and my constant prayer must always be for your health and happiness and for the welfare of the dear old 7th."

Several letters of regret were read, after the boys had fitly testified to their appreciation of Col. Clark's address. President Cleveland, in his note, said his interest in the regiment was exceptional and arose from peculiarly pleasant incidents. When he was Mayor of Buffalo the presence of the 7th made the chief feature of the semi-centennial celebration of that city; as Governor he was proud of the regiment; as President he had been treated by the regiment with old time heartiness and consideration. He wished to acknowledge also that Col. Clark gave him his first instruction in military science when he taught him how to review the 7th. Letters were read also from Gen. Sheridan, Gen. Sherman, Gen. Hawley, who was Col. Clark's classmate in college; and from Gov. Hill.

ROSTER FIRST BRIGADE, N. G., S. N. Y.

BRIG.-GEN. LOUIS FITZGERALD, No. 115 E. 36th street; Lieut.-Col. T. H. Barber, A. A. G., No. 1 E. 28th street; Maj. A. P. Montant, Ins., No. 39 W. 21st street; Maj. S. H. Olin, J. A., No. 1 Madison avenue; Maj. Wendell Goodwin, Q. M., University Club; Maj. C. Lawrence Perkins, Com., No. 47 W. 11th street; Maj. Robert V. McKim, Surg., No. 32 W. 58th street; Lieut.-Col. B. S. Church, Engr., No. 49 W. 9th street; Maj. Paul Dana, Ord., No. 170 Nassau street; Maj. Ed. C. Stanton, Sig. Office, No. 125 E. 40th street; Maj. Clarance H. Eagle, I. R. P., No. 129 E. 30th street; Capt. W. Emlin Roosevelt, A. D. C., No. 21 E. 54th street; Capt. F. R. Appleton, A. D. C., No. 5 Bond street.

7th Regt.—Col. Emmons Clark, No. 51 E. 67th street; Lieut.-Col. George Moore Smith, No. 58 W. 132d street; Maj. Wm. H. Kipp, No. 357 Pleasant avenue; Adjt. Geo. W. Rand, St. Cloud Hotel.

8th Regt.—Col. Geo. D. Scott, No. 315 W. 24th street; Lieut.-Col. F. A. Schilling, No. 164 Alex. avenue; Maj. Henry Chauncey, Jr., No. 17 New street; Adjt. J. O. Johnston, No. 113 W. 44th street.

9th Regt.—Col. Wm. Seward, Jr., No. 2 W. 32d street: Lt.-Col. T. B. Rand, St. Cloud Hotel; Maj. C. A. H. Bartlett, No. 31 W. 9th street; Adjt. Yellott D. Dechert, No. 2 Wall street.

1st Battery.—Capt. Louis Wendel, No. 340 W. 44th street.

2d Battery.—Capt. F. P. Earle, Cor. 38th street and Broadway.

Forty-seventh New York.—Col. E. F. Gaylor.

THE 47th, which was the first regiment in the 1st and 2d Brigades to commence battalion drills this year, started on Tuesday evening, Jan. 18, with the right wing (Cos. B, F, I, and K). The companies were sharp on time and Adjutant Hubbell turned over the command to Col. Gaylor promptly at 8 P. M. The attendance was remarkable for this command, as sufficient men turned out to make four companies of twenty files, but for want of room thirty-two files were thrown out, and the drill was held with four of twelve front. The Colonel first opened ranks and made a minute inspection of the general appearance of the men, the adjustment and condition of the arms, accoutrements, etc. This is a good idea, and it resulted in the correction, beforehand, of many small deficiencies, which so often destroy the general effect of a turn out. Besides, it puts officers, non-commissioned officers, and men on the alert, and for this reason it would be well to introduce the custom into other armories. The rule that company officers and non-commissioned officers are responsible for these things is only too frequently disregarded. The manual of arms which followed developed the fact that but little attention had been paid in this direction by company commandants during the drill season, still even during this brief exercise considerable improvement was manifested by close attention on the part of the instructor. Next came a fairly executed advance in line, followed by a general alignment. The remainder of the movements were marchings in column of fours, breaking by fours from the right to march to the left, formations of line on the right and to the front, the latter occasionally faced to the rear, bringing the column of fours into line by two movements, fours left rear companies left front into line, and the same movement faced to the rear. The loadings and firings closed the drill. This is not an extensive programme, but it filled the entire time set aside for the drill, because Col. Gaylor prefaced every movement with a careful explanation, in view of which fact, and the simplicity of the drill, there was certainly no excuse for any mistakes on the part of officers. The only explanation seems to be that the regiment is still encumbered with some officers who have been there so long that they think there is nothing left for them to learn, or who are generally incompetent. The fact is that the few errors committed during the evening are chargeable to the eldest in commission. Leaving these errors out of consideration, the drill was creditable for a first effort. The Colonel called the attention of the command to the remarks of the Inspector-General on the result of the last inspection, and while he expressed his satisfaction at the creditable attendance of the evening, he pointed out that better efforts than heretofore had to be made to bring the regiment up to its proper standard in discipline and drill.

The drill by the left wing on Friday, Jan. 21, was under command of Major W. H. Eddy. It comprised similar movements to those above reported, and the same trouble with regard to officers was developed. Blunders were made in the simplest movements. In executing column of fours break from the left to march to the right the left company, instead of executing left forward from left and changing direction when company distance to the front had been gained, continued to march straight on until about twice the prescribed distance had been gained, and would probably be going in the same direction still, had not the Major

halted the company himself and returned it to its position in line. A repetition had better results, however. We have refrained from pointing out some errors and those who committed them, because it is the beginning of the season, hoping as the drills continue there will be no further necessity for referring to them. The material of the 47th is capable of better work. To accomplish radical improvement the Colonel should rid the roster as soon as possible of the "fossil element" referred to before and replace it by younger and abler officers.

While the armory is elegant in all its appointments, it is to be regretted that the drill hall is too small. This will probably be remedied next summer, as it is understood that the State authorities will extend the hall 165 feet, which will make its full depth 288 feet, the second largest in the State. The ground is at hand, and is included in the site as originally purchased.

Twelfth New York.—Col. J. H. Jones.

COMPANIES A, E, G and K opened the battalion drill season in the 12th, New York, on Monday, Jan. 24, with 16 files front each, and a number of men to spare. Scarcely two years ago the whole regiment could not muster a larger turnout, which goes far to show that a new armory is an effective incentive to recruiting. The formation was very good. Col. Jones at once commanded companies right forward fours right, then companies column left, which brought the battalion into fours again, and after repeating the manœuvre several times, wheeled the fours into line in excellent shape, producing the rare spectacle of an instantaneous alignment. This was the more surprising because the men at the start preserved but very indifferent distances, a fact probably due to want of space. Then came several general alignments which seemed to puzzle some of the company commanders, none of whom were prompt, while at least one went to the wrong flank of his company. For this there is no excuse because the command positively gives the dress to the centre. One, in bringing up his command, said halt, which is entirely wrong. Close column on first company left in front and a few manœuvres by fours were well done, but then followed the first serious blunder, although the movement in which it occurred is as plain as day. The column was marching left in front with fileclosers on the left flank when the command to the right close column of companies was given. All the commanders seemed upset, none acted promptly, the men got confused, some officers commanded fours right, others fours left. The former was correct, but nobody seemed to be certain what *to do* and so it happened that those who went right at first, afterwards followed the wrong ones and the result of the whole was a jumble where nobody seemed to know his position, nor be able to tell how he got where he found himself. By simply recollecting that the company fronts should be formed away from the fileclosers the whole thing could have been avoided. Close column formations on the left and right were more successful, a slight defect in distances here and there being the only flaw. These were followed by some more movements by fours breaking from the right to march to the left, etc., and a repetition of the movement previously so badly blundered. As everybody seemed to have recovered his self-possession it passed off very well. Previous to the firings the command formed on the right and left into line, the execution of which would have deserved commendation but for the conspicuous lack of military promptness and snap on the part of the guides. The firings, which probably looked well from a distance, demonstrated a surprising want of instruction in the details. A general want of knowledge as to the holding and handling of the pieces, the proper position of the feet, etc., without which the rifle simply becomes a dangerous tool to the man who handles it instead of to the enemy, was only too conspicuous. In many instances the fileclosers attempted to execute the firings and after being stopped by the officers, they apparently regarded their occupation as gone and accepted the situation as a sort of half holiday without paying any further attention to what was going on in their front.

After the rest which here followed Lieut.-Col. Heman Dowd took command, advancing and retreating to battalion in line, several times, following with a well executed close column on 1st Co. right in front and deployment on 1st company. Had the captains shown that they knew that in wheeling about by fours the dress is towards the marching flank, that movement would have deserved commendation because the men acted with precision. We can only speak well of a number of close column ployments and deployments which followed, but the old bugbear, the formation of column to the rear, again interrupted the smooth course of the drill. By placing themselves two yards in front of the right files of their respective companies, facing to the right, cautioning the first four to wheel to the right about, executing 90 degrees of a circle with the marching flank of the first four, halting and coolly letting the command pass until the proper time for wheeling into line arrives, all confusion could have been avoided. If these simple points are observed the commands are bound to arrive in their proper positions and at the right time with more facility and precision than any other manœuvre in the Tactics. After several somewhat exasperating experiments the movement was abandoned, and during the remainder, which consisted of a number of close column formations to and on the right and left and corresponding deployments, wheels into column of companies and back into into line, evolutions by fours, etc., smoothness and promptness of execution again became the order of the day. It would be well to remark, however, that when the battalion is in column of subdivisions and the command fours right about is given, the men execute it at the order of the Colonel and do not wait till it is repeated by the captains. While this report points out many shortcomings it is, nevertheless, fair to say that the drill was not a bad one. On the contrary it was far above the usual run, interesting and instructive. Both commanders acted with skill, promptness, and decision, and the officers, although they made mistakes, generally responded intelligently. It is however, a matter of vital importance for the proper development of the 12th that something be done to imbue the guides, file closers, etc., with more life and snap and a better knowledge of their duties and that company commanders should pay closer attention to the instruction of the rank and file. Steps should also be taken to stop at future drills the constant chatter among the men in ranks, which formed a disagreeable feature on this occasion.

Companies B, D and H formed a battalion of similar size for drill on Wednesday, January 26. Before going into a description of the general drill it would seem well to point out that the men of the first company marching into the hall on halting in column of fours closed up to 18 inches, which looked so bad, and is so decidedly wrong that the captain should at once take steps to set his men right and prevent a recurrence. Col. Jones started off with the same manœuvres as at the previous drill. It is not necessary to describe them in detail, because everybody knows how a series of movements from line into company columns of fours, into battalion columns of fours and vice versa, breaking by fours from the right to left, etc., are executed, and how they look if well done. In this case they were extremely well done, so much so that those who were drilling were as much surprised as those looking on. Too much commendation cannot be given to the officers for their promptness and correctness, and to the men for their soldierly bearing and steady marching in these initial movements. Col. Jones who at first evidently intended to repeat the movements of the previous drill, struck out in a different and more difficult direction. To the right close column of companies was at once nicely and precisely executed, and repeated several times with similar result. Column of fours was formed after each ployment, the first or fourth company making the initial movement. Formations of close columns of companies on the right and left were executed with similar precision and promptness, but it became necessary here to call attention to the fact that in ploying into column, the subdivisions at once support as soon as dressed, without regard to each other, in contrast with the rules governing in this respect in line formations. No regard was paid during the drill as to whether the original right was in front or not, but the entire absence of the usual confusion under such conditions showed that the captains understood the subject and paid strict attention. Only once during a close column formation right in front with the battalion reversed did the commander of the (then left) company start to put his command in front, but he recovered himself in sufficient time to enable the smooth execution of the movement. While the formations on right and left into line were correctly performed, the guides, although not to the extent noticed at the previous drill, yet lacked very much in promptness. The distinguished captain who gave the command halt during a general alignment was wrong. The firings by battalion, wing, company, etc., though a little irregular at first, developed a very commendable degree of precision before they closed; in the oblique firings the pieces were handled with great regularity, while some of the closing volleys were simply perfect. The individual handling of the pieces, the stepping off, etc., however, revealed the old tale—want of attention in company instruction. The omission of inspection of the pieces before the firing was a serious oversight. They had been taken from the racks without being inspected by the company commanders, and while the armorer may be a careful, competent man a mistake may occur with fatal consequences. For this reason the inspection should never be omitted. Of the movements which followed, breaking by fours from either flank, formations on right and left into line with firings, close column formations and deployments, etc., we can only speak with high commendation. Formations of column to the rear were in every instance performed on correct principles by all the company commandants; whatever raggedness was developed was generally due to the hurry of the several first fours in wheeling about, which distanced the remaining sets and left an occasional gap in the line. After a short rest a set of fours in each company was ordered to fall out, and with fronts thus reduced the drill proceeded with a number of marchings and wheelings in company front, breaking from the right to march to the left by company, formations on right and left into line with firings, and wound up with a handsomely executed advance and retreat in line of battle. This was one of the best working drills we ever witnessed, and certainly the best which has taken place in the armory of the 12th for at least six years. This is the result of the theoretical classes for officers, held for some time, a fact which should be sufficient to induce the regiment to establish a similar institution for non-commissioned officers who need instruction very much, as every officer is willing to acknowledge.

There was too much loud noise while the regiment was in place rest. The individual, especially, who played the stupid practical joke of calling out attention should be located and made to understand that at battalion drill such fellows as he should be seen and not heard. The occurrence was decidedly "milish."

Ninth New York.—Col. W. Seward, Jr.

AT the regular semi-monthly meeting of the 9th N. Y., Jan. 17, about one thousand dollars was subscribed for a monument to be erected at Gettysburg in honor of this regiment, the only one in existence to-day in New York that enlisted and served in behalf of the State of New York for the term of the war, during the late Rebellion. The 9th volunteered its services in April, 1861, for the war, and left New York City, on May 27 following, participated in all the important battles of the East, and had nearly 300 of its men killed, while many more died by reason of wounds and exposure. The Empire State is represented at Gettysburg by only two monuments, and there is none for the State.

MILITIA ITEMS.

The Massachusetts Legislature is to be asked to frame such a law as will make it compulsory upon employers of members of the State militia to allow them to attend the regular annual encampment and military drills. Officers of the militia all over the State are to be asked to join in the movement. At the State encampments in recent years there has been a small attendance owing to employers refusing to allow militiamen leave of absence.

Co. K, 47th N. Y., and the DeWitt Clinton Commandery, Knights Templar, will hold a combined reception at the armory of this regiment on the evening of Feb. 17. The commandery drill corps will give an exhibition drill.

The men of the 23d New York are taking much interest in rifle practice, and the range is crowded every night. The rifle range of the 14th Regt. is also well patronized.

The 1st Brigade Examining Board met on Wednesday, Jan. 26, and passed the following officers: Captain James Thorne Harper, Co. I, 7th N. Y.; Capt. John Macaulay, Co. E, 12th N. Y.; Capt. A. W. Belknap, 71st Regt.; 1st Lieut. Coddert and 2d Lieut. Harold Christensen, Co. K, 11th N. Y.; 2d Lieut. J. W. Mason, Co. B., 8th Regt.

Capt. G. Henry Witthaus, supernumerary, has been ordered to report for duty to Col. Wm. Seward, Jr., commanding 9th New York.

Col. E. A. McAlpin, of the 71st N. Y., orders his regiment out for Battalion drill as follows: Cos. B, F, H, I, K, Feb. 1, 8, 15, and 23: A, C, D, G, Feb. 3, 10, 17 and 25. On Wednesday the Colonel, and on Fridays Lieut. Col. Palmer will have charge of the drills.

Nothing certain is known as to when the new armory of the 12th N. Y. can be occupied. The delay is with the interior fixings. It is, however, not probable that the building can be occupied before March, as even the floors are not yet planed, an item which alone will occupy ten days. Co. B, Capt. Charles S. Burns, is just doing a flourishing business of recruiting. Lieut. Harry C. Appleton has offered a "Life of Grant" as a prize to the one who makes the best general record during the present drill season, while Mr. D. Sidney Appleton, whose son is 2d Lieut. of this company, has donated to the company the sum of $100 for decorating the company room in the new armory.

Capt. G. W. Gustow, of the 8th Regt., died on Saturday, Jan. 23, from consumption, and was buried with military honors on Monday, Jan. 24.

Co. I, 12th N. Y., Capt. Harry Aspinwall, will celebrate the anniversary of its muster in by an entertainment at the armory. The company numbers 64 men.

Co. F, 12th N. Y., Capt. W. H. Murphy, had a full dress inspection by the Captain and drill on Thursday, Jan. 20, with 24 files front. Col. Jones will inspect it in full dress on the 2d Thursday in February.

The ninth annual convention of the National Guard Association, State of New York, will meet in the armory of the Washington Continentals, Co. B, 10th Battalion, N. G., S. N. Y., 108 and 110 State Street, Albany, Feb. 1, 1887, at 10 o'clock in the forenoon.

Under a new arrangement recently made, Adjutant-General Josiah Porter will hereafter be in his office at the Stewart Building, cor. Broadway and Chambers Street, New York City on Saturdays and Mondays.

The veteran controversy of the 7th New York, in spite of all that has been said to the contrary, is still in as hopeless a condition with regard to a settlement as ever. An officer of high standing in the regiment (not Col. Clark) expressed the opinion that it would probably result in the veterans being turned out of the armory after all.

The coming convention of the New York National Guard can doubtless do well by expressing its views on the uniform question, which is virtually unsettled. We have the State uniform, it is true, but five years' experience has demonstrated that it does not suit all purposes. In fact, it is well known that in its present shape it is doomed. The trouble is to adopt something meeting all requirements. Suggestions from the convention would therefore seem very appropriate.

Co. A, 22d Regt., Capt. W. E. Preece, gave a successful and handsome entertainment at the Lexington Avenue Opera House on Wednesday, Jan. 26. The principal feature of the affair was the amateur performance of the opera "The Pirates of Penzance," in which actresses and actors covered themselves with glory. The management of the whole showed that those in charge knew how to do it.

Although the artillery corps of the 7th New York can only drill on Saturdays, and then at only one old-fashioned howitzer, the progress made is phenomenal. The ardor of those composing it is more to be commended because they are not excused from any of their infantry duties, which are still regarded as of first importance.

Colonel Jones, of the 12th New York, has ordered company inspections in full uniform during February. Two companies will be inspected per week.

The officers of the 8th, New York, were instructed by Brig. Gen. Chas. F. Robbins on points pertaining to rifle practice, on Monday evening, Jan. 24.

Ex-Quartermaster Courtenay, 71st, N. Y., one of the most efficient officers in that Department, with long service in the Army as well as in the National Guard, was, on Monday evening, Jan. 24, presented by his former comrades of the 71st, with a handsome set of resolutions showing their appreciation of his services while with the regiment. The quartermaster entertained them in a handsome manner at the Hotel Royal.

The games of the 12th Regiment Athletic Association, which were announced to take place at their new armory, 63d street and 9th avenue, Feb. 19, will be postponed to a later date, owing to unforseen delay in completing the flooring and a few other minor details in the new armory. It is very probable the games will be held about the middle of March, due notice of which will be given. The programme of events will remain unchanged, except the time of closing entries which will be extended accordingly.

THE OLD GUARD BALL.

THE Old Guard surpassed itself this year in the management of its annual ball given on the night of Thursday and the morning of Friday last. Maj. McLean, commanding the Old Guard, and Martin McMahon, in the uniform of a Major General, led the processiou in the march around, which began shortly after midnight, about 450 uniformed Guardsmen and military guests being in the line.

Among the boxholders were Gen. D. S. Steele and staff, Gen. Louis Fitzgerald and staff, Col. L. W. Winchester and staff, Col. S. Ellis Briggs and staff, Capt. Alexander Henriques, 1st New York Hussars; Col. F. A. McAlpin and staff, Col. Holbrook, Gen. C. F. Robbins, Col. E. F. Gaylor and staff, Gen. F. M. Freeman, Col. T. F. Watson and staff, Col. W. E. Tanner, Capt. F. P. Earle, Maj. Dexter H. Follett, Gen. C. H. Barney, 23d Regiment Veteran Battalion; Gen. Plume and staff, Col. G. F. Potter and Maj. G. W. Corliss. Each of the boxholders had a company of guests, among whom were distinguished representatives of the Army and Navy.

ATHLETICS IN THE TWENTY-SECOND NEW YORK.

THE athletic games of Co. B, 22d regiment, were given at their armory, on Saturday evening, Jan. 22, and were very successful. A large number of entries had been received and the armory was filled with spectators, about one third being ladies. The track was 13 laps to the mile. The following is a summary of the events: 50 yard run handicap—William P. Henry, 10 yds., 1st; A. F. Copeland, 2d; time, 5 4-5s. Half-mile run, hdcp.—W. J. Dove, N. A. C., 18 yds., 1st; Stewart Barr, B. A. A., 2d; time, 2m. 11 4-5s. One-mile walk, scratch.—E. D. Lange, 22d regt., 1st; E. A. Kraft, 13th regt., 2d; time, 7m. 6 2-5s. In the tug of war four men of Co. K, 13th regt., beat Co. A, 12th regt., by 26 inches in the trial heat, and then beat Co. B, 22d regt., by 6 inches. The winning team was composed of D. S. Lord, A. W. Rehagee, E. Demonet and H. W. Kraft. 440 yard run, hdcp.—Thomas Namack, O. A. C., 18 yds., 1st: H. Ansorge, B. A. A., 2d; time, 56 4-5s. One-mile run, hdcp.—Won by W. H. Wilson, jr., scratch, Co. F, 13th regt.; E. Hjertberg, O. A. C., 2d; time, 4m. 47 2-5s. Four men from Columbia College beat four men from the College of the City of New York by 2 feet 2½ inches in a tug of war. Potato race—Won by W. H. Bailey, Co. H; R. J. English, Co. B, 2d; time, 53 4-5s. Commissioned officers' race, half mile—2d Lieut. Walter Hawes, Co. E, 1st; 2d Lieut. R. J. Daly, Co. K, 2d; time, 2m. 34 1-5s. Mile and one-half walk, hdcp.—H. Hjertberg, O. A. C., 60 seconds, 1st; E. A. Kraft, B. A. C., 2d; time, 11m. 45 1-5s. Two mile run—T. Reagan, W. S. A. C., scratch, and E. Hjertberg, O. A. C., ran a dead heat; time, 10m. 37 4-5s. Obstacle race, scratch.—R. A. Stacpoole, Co. B, 7th regt., 1st; H. O. Young, New York Athletic Club, 2d. The race was one-seventh of a mile, over hurdles under a tennis net, through barrels, etc. Mr. Malcom W. Ford, N. Y. Athletic Club, gave an exhibition of his powers and in three standing broad jumps covered 32 feet 7 inches. He also jumped over two chairs placed on the top of a table, height about 5 feet 5 inches and other feats. Mr. F. P. Murray, champion amateur walker, gave an exhibition walk of half a mile; time, 3m. 39 3-5s.

NEBRASKA.

IN the article by Lieut. Dudley, U. S. A., from which we quote elsewhere, we find the following account of the Nebraska troops: "Here, in Nebraska, the companies of the 1st Regiment are scattered throughout the State. The class of men who are the body of this organization are of the best. Strong, able-bodied, trained in the duties of citizenship, and not enervated by the dissipations of city life, there is no better body of men anywhere, for actual service. They only need experience and training to become first class soldiers. Their performance of duty in the Omaha riots show of what they are capable, when backed by a commander-in-chief with the cautious energy and the nerve of such a man as Gov. Nance, of whom and of whose conduct in that affair I have heard the veteran Gen. Crook speak in high terms. You have the material; what you now need is proper and suitable laws by both State and United States Governments."

Of the Ohio troops, Lieut. Dudley says: "At the Cincinnati riots a portion of the 1st Regiment did not turn out Those who did stood the brunt of the fighting and saved the jail, the first point and real object of attack, though they did not succeed in preserving the court house. Those who got there at first were held by Col. Hunt. But few others joined, and they of course of the best soldiers and sturdiest men. The popular sentiment seemed to be against them—they were blamed for the shedding of blood, for shooting and killing even where the latter was manifestly done in the defence of their position. After the riot was over men who had left their work to do their duty as soldiers were discharged from employment by pressure brought to bear by other employees upon their employers. Proper credit has not been given to those men who so nobly did their duty under a pressure not to do it, greater than most people can understand. Those who came from a distance, except one regiment which fell back before the mob to the railway station at which they had entered and whose commander was disgraced therefor, were upon their return greeted with applause and praise for the part taken by them, whilst the service of the 1st Regiment, Ohio National Guard has never received any sufficient or adequate recognition."

MASSACHUSETTS MILITIA.

The Boston *Record*, referring to militia matters in general, says: "It would be a good plan for the inspecting officers to pay more attention to armories and note all their defects, so that when reports are made officials with authority can speak with authority regarding their condition and the use to which they are adapted . . . . If there is a command in the State that deserves a shaking up—not alone a shaking up, but also a thorough cleaning out—it is the Ninth. Certain officers of that command are no more fit for the positions which they hold than a backwoodsman who never saw a military command. It has been a mystery to every one interested in the mihtia how they ever obtained their positions. . . . . In some companies no more respect is shown for the commanding officers than would be shown to the most hardened criminal. Just so long as such officers

are allowed to remain the trouble will continue and discipline will not be known. However, Col. Strachan is equal to the task, which, when concluded, will find this command in as good condition as it was some few years ago."

CALIFORNIA NATIONAL GUARD.

GOVERNOR BARTLETT having re-appointed General George B. Cosby, Adjutant General, the *Alta* says: "Some of the most experienced and earnest officers feel that the appointment is a good one. His early education for military service certainly fits him for the duties of Adjutant-General, and there is a manifest feeling in the National Guard that with another four years' term he will correct many irregularities and defects which have been allowed to exist in his office. The reappointment of Col. Perrie Kewen as Assistant Adjutant-General gives unusual satisfaction to that officer's friends, who feel that with coming experience he will prove an efficient officer.

PENNSYLVANIA NATIONAL GUARD.

The following staff appointments have been made by Gov. Beaver: Samuel W. Hill, quartermaster general; John I. Rogers, judge advocate general; Thomas J. Smith, commissary; Louis W. Read, surgeon general; Lewis A. Watres, inspector of rifle practice; Andrew D. Hepburn, inspector general; D. Stanley Hassenger, assistant adjutant general. Aides—Henry C. Demmery, Thos. Osborn, James H. Lambert, Samuel Moody, Wm. H. Taber, Lewis Walker, and John H. Sanderson. Colonel Watres is of the 13th Regiment, frequently noticed as the "shooting regiment," and until his promotion captain of Co. A, which turned out last year every man a marksman. If marksmanship can be advanced in the State service he will no doubt do all in his power to accomplish it.

John A. Wiley, colonel 16th Regiment, is promoted brigadier general, vice James A. Beaver. Ex-Adjt.-Gen. Guthrie was an applicant for the position.

In G. O. 26, of 1887, Col. F. L. Hitchcock promulgates to his regiment, 13th Infantry, the report of the Inspector of Rifle Practice for the season of 1886. Col. Hitchcock congratulates his troops for their excellent work, and says: "In numbers of qualified marksmen, as well as in the quality of shooting done, a higher point has been attained than in any previous year of the history of the regiment. Co. A again, and for the seventh successive year, qualified its entire membership of 58 officers and enlisted men, continuing a record as brilliant as it is remarkable, and which has no parallel in the history of marksmanship. Co. E has this year made a splendid record, attaining to second place with a total of 52. With so large an aggregate this company has excelled all previous records in the quality of its shooting. It has one of 50, a perfect score, whilst of the 52 there are none below 30, making the wonderful average of nearly 36 1-5. Co. G stands next, with only five less, viz.: 47, a very handsome increase over any previous year. Of the 352 marksmen 65 have qualified with scores between 40 and 50, which according to the customs of other States, would entitle them to receive the special badge of sharpshooter."

STATE OF ILLINOIS.

THE findings of the Court of Inquiry investigating the charges of embezzlement against Col. W. V. Jacobs, of the 1st Regiment of Cavalry, Illinois National Guard, were made public on Jan. 15. Gov. Oglesby approves the findings, and in a general order severely censures Col. Jacobs, who is instructed to at once reimburse the regiment to the extent of $3,700. The sum is unaccounted for in the Colonel's record. It is declared by the Court that no intent to embezzle was proven against Col. Jacobs, but the evidence showed gross neglect and carelessness on his part. Col. Jacobs is also found guilty of irregularity, in combining in his own person the offices of President, Secretary and Treasurer of the regiment's Armory Association, while at the same time acting as commanding officer and Treasurer of the military organization. A heavy reprimand is extended to Col. Jacobs for persisting in retaining these offices for a year after he had been publicly charged with financial dereliction. The 1st Regiment of Cavalry is a Chicago organization, and, with its Colonel, is widely known in military circles.

The Forsyth badge, described last week, is one presented by Miss Kate Forsyth, the actress. On the evening of Jan. 17, Companies C, D, and E, of the 1st Regiment, Ill. N. G., in dress uniform, attended Hooley's Theatre, Chicago, in a body, in compliment to Miss Forsyth. They carried with them a large and beautiful floral tribute which, resting on an easel, was handed up to Miss Forsyth after one of the acts. The actress was prepared for the visit of her militant admirers, and improved the occasion to acknowledge present and earlier courtesies. This she did very graciously by giving the companies in trust the very handsome and valuable gold marksman's badge described, accompanying the gift with a letter fixing the conditions already reported.

ALABAMA STATE TROOPS.

THE Montgomery Greys, Co. A, 2d Regt., A. S. T., gave their thirteenth annual ball at the armory, Friday evening, Jan. 28, the following committee having the affair in charge: Committee of Arrangements, Corp. Joseph V. Allen, Ch'm. —N. B. Holt, Chas. P. Anderson, Thos. H. Jones, W. O. Baker.

Invitations, Capt. E. A. Graham, Ch'm.—Sgt. W. J. Boothe, Sgt. W. E. Ledyard, Corp. E. P. Amerine, R. P. Stout, W. J. Orum, Wade Allen, W. A. Driver, W. A. Peet, Jr.

Reception, Capt. M. H. Amerine, Ch'm.—Generals E. A. O'Neal, J. W. A Sanford, W. W. Allen, and J. T. Holtzclaw, Cols. W. S. Thorington, W. B. Jones, Thos. G. Jones, John D. Roquemore, O. O. Nelson, R. F. Michel, Col. D. Ledyard, and Col. W. S. Reese, Lieuts. J. P. Saffold, Chas. P. Jones, and H. D. Herron; D. Krause, E. E. Simpson, W. C. Pope, Hon. M. L. Moses, J. M. Davidson, Capt. J. Greil, Dr. W. G. Bibb, E. F. Doughtie, W. F. Vandiver.

SOUTH CAROLINA.

A CORRESPONDENT writes: "Business was generally suspended in Charleston, while the New Year was duly welcomed by a parade of colored soldiers, constituting the 1st Brigade of the National Guard of South Carolina. The fine martial bearing and splendid marching of the troops were noted by the populace with generous enthusiasm."

The Adjutant and Inspector-General of South Carolina, M. L. Benham, Jr., in his last annual report, presents a discouraging view of militia matters in that State. He says: "The National Guard have not improved since the last inspection. They seemed at one time to have lost their interest in military affairs. I observe, however, a disposition on the part of some of their officers to revive this interest, and to adopt measures to improve themselves and their commands. There are some good companies among them, and I have given some of them more than one opportunity to pass muster."

78 companies, aggregating 279 officers and 3,004 men were inspected during the year, only two of the 96 infantry officers on the rolls being absent on inspection. The adjustment of accounts with the United States places at the disposal of the State $5,873.60, with which it is proposed to equip the four excellent batteries with new pieces and suitable ammunition. "Many of the troops are a credit and honor to the State" and the cavalry is the favorite arm. Since the adjustment of the arms account 350 improved carbines and 150 sabres, with necessary accoutrements, have been received, and this distribution has in all cases infused new life into the commands receiving them. An annual encampment is strongly recommended and Gen. Benham says: "I shall strive to effect these encampments, for I believe they will be of incalculable benefit. One who has not been connected with the militia can form no adequate idea of the difficulty of maintaining even a company. When the War closed, men who had four years of its hardships had but little taste for militia duty. When the Senate passed under Republican rule an ignorant horde of negroes were formed into a body of militia and paraded the country with State arms in their hands. Then, when our political redemption came, and we were at liberty to organize a system of militia, only the youngest men had the inclination to join. These, in very many instances, had neither time nor means to devote to this purpose. Thus there grew up an indifference, and in some cases an opposition, to the militia. I need not argue its importance, aye necessity, in a republican Government—with a heterogeneous population and rapidly changing conditions of society and politics and industries."

The total amount appropriated for the State forces for the year was $15,300. There were on hand Oct. 31, 1886, 454 Springfield rifles, calibre .45; 438 Remingtons, calibre .58; 85 Whitneys, calibre .433; 5 Sharps, calibre .45, besides 150 unserviceable Roberts. There were 402 Springfields and Remington carbines, calibre .45, and 75 other carbines, calibre .50.

VERMONT NATIONAL GUARD.

IN G. O. 5, of Jan. 24, the Governor announces several changes in the National Guard, principal of which is William L. Greenleaf, to be Brig.-General, vice Levi G. Kingsley, declined re-election. In G. O. 6, of same date, the Governor says: "By the retirement of Brig.-Gen. Levi G. Kingsley, the National Guard of Vermont is deprived of the services of one of its oldest and most experienced officers, and in recognition of his long and meritorious service, the Commander-in-Chief deems it fitting that a record of his connection with the militia and volunteer forces of the State, be briefly given to those who have served with and under him. . . . Having served his State faithfully and well almost continuously for a period of 28 years, he takes with him in his retirement the highest esteem and best wishes of his comrades of the National Guard, the approval and commendation of his superior officers and the consciousness of arduous duties well performed."

WISCONSIN.

GOVERNOR RUSK, in his recent annual message, says: "The strength of the Wisconsin National Guard on Jan. 1, 1887, was 2,254, 37 companies; and there was expended for the maintenance of the National Guard for 1885, $67,789.08, and for 1886, $54,624.75, including the expenses of the militia while in active service in Milwaukee during the riots. The annual inspection of the companies and camps shows a highly creditable advance in all that makes an effective citizen soldiery. The practical test of that efficiency made in May last has demonstrated that the State troops can be assembled in any emergency as rapidly as transportation can be procured for them, and that, when assembled, they are loyal, subordinate, and under admirable instruction and discipline.

MICHIGAN.

THE following appointments in the Military Department of this State are made for two years from Jan. 1, 1887: John Robertson, brigadier general and adjutant general; Frank D. Newberry, brigadier general and inspector general; Sherman B. Daboll, brigadier general and quartermaster general; James N. Fox, George H. Devlin, George Lockwood and Marvin Hall, colonels and aide-de-camps: Milo D. Campbell, major and military secretary; Howard Wiest, major and judge-advocate; John Northwood, colonel and paymaster general; Evi J. Ensign and E. Crofton Fox, members State Military Board and Colonels on the Staff of the Commander-in-chief; Willis C. Humphrey, captain and assistant adjutant general; Lafayette Harter, captain and assistant quartermaster general.

OHIO NATIONAL GUARD.

The National Guard Association of Ohio meets at Columbus Feb. 15 and 16.

The "Vance Cadets," Co. C, 17th Regt., O. N. G., Capt. Geo. E. Canning, gave a social soiree Jan. 25.

Co. G, 17th Regt., Capt. Frank G. Warden, held a drill Jan. 25, with 22 files front. The company was put in command of 2d Lieut. Eldridge, a good idea, as it was evident the lieutenant was not familiar with commanding but he improved. More attention should be given to announcing the guide in forming line when march is continued. Also to par. 72, as to the interval of time that should separate command of execution from preparatory. MAJOR.

NORTH AND SOUTH CAROLINA.

RALEIGH, N. C., Jan. 25, 1887.

To the Editor of the Army and Navy Journal:

On the first page of your edition of Jan. 22, in speaking of the facility with which military titles are acquired in this country, and especially in the South, you mention by way of illustration that the Governor of North Carolina has *thirty-two* Aides-de-camp, each with the rank of Lieut. Colonel, etc.

Permit me to correct you. The Governor of North Carolina has only *four* Aides who hold the rank of Colonel.

We are rather modest folk in this good old Commonwealth of ours, and make no pretensions to all the magnificence and glory you describe. Please correct and oblige, NORTH CAROLINA.

We apologize to the good State of North Carolina, and to our correspondent, to whom, were he here, we would extend the invitation involved in the well-known remark of the Governor of North Carolina to the Governor of South Carolina. Our reference should have been to the State of South Carolina, whose Governor has the efficient aid of the following gentlemen—all good men and true, but in number somewhat in excess of actual requirements, viz.: Lieutenant-Colonels Melver, Mauldin, Croft, Marshall, Simons, Murray, Jones, Livingstone, Boykin, Izlar, Singleton, Ward, Drayton, Peebles, Ulmer, Barr, Morrall, Watson, Rivers, Jones, Wharton, Wingard, Rhame, Walker, Hunt, Henderson, McFadden, Shelor, Gilchrist, Hanahan, Britton, Bacon.—EDITOR JOURNAL.

THE NEW GUARD HOUSE REGULATION.

To the Editor of the Army and Navy Journal:

REFERRING to the "new regulation" to which you allude in your issue of Dec. 4 last, asking for further expressions of opinion on the subject, the writer would state that he has served where the order that "no soldier shall be confined except on the order of an officer who shall previously inquire into his offence" has been tried, and found not to work to the best interests of the Service. There are many causes that operate against such a regulation, not the least of which would be the fact that it would undoubtedly lower the authority and dignity of the non-commissioned officers' position in the estimation of the privates, and make the non-commissioned officers feel humiliated to a certain extent. The rule allowing the non-commissioned officer to confine a delinquent *first* and report afterwards is a good one, and in a long experience in such matters, the writer has never known of a single instance where it has been abused. No non-commissioned officer in a well disciplined command would dare to put a man in the guard-house without good and sufficient cause, and instances frequently occur which compels the non-commissioned officer to act promptly and confine a man crazed with liquor who would injure himself or some one else if prompt action was not taken to put him under restraint. There is not one soldier in a thousand ever confined in the guardhouse without just cause, and that cause, in nine cases out of ten, is drinking too much liquor. * * * * *

GARRISON COURTS-MARTIAL.

To the Editor of the Army and Navy Journal:

YOUR issue of Jan. 22 contains the text of a bill reported by the Military Committee of the House. Section 5 intends to substitute for the cumbrous action of our present Garrison Courts-martial a new arrangement, which would be good enough if it did not make the execution of the sentence depend upon the action of the Department Commander in revision of the approval of the Post Commander. The rule that a soldier has to be confined in the guard-house pending his trial and awaiting action of the reviewing authority is not affected by this section. Now, imagine a soldier, who has been absent without leave and been sentenced to a fine of two dollars or so, confined in the guardhouse, waiting until the decision of the Department Commander, who may be a thousand miles away from his post, can be had. The practice just now adopted at most posts has been, that such an offender was tried by Garrison Court-martial next day, and if the sentence of the court did not inflict any further confinement he used to be released by the Post Commander upon the report of the Judge-Advocate, before even the action of the Post Commander was formally taken—this last point, however, being only an expedient, not prescribed by law. If a Post Commander's decision in such cases cannot be considered so just as to permit immediate execution of a sentence, the Post Commanders ought not to be trusted with anything.

This section, intended to simplify our present manner of punishing minor offences, would complicate it, and punishment, instead of being prompt and just, would be more harsh and actually different at different posts.

Garrison Court martial proceedings were always sent to Department Headquarters and then to the Judge-Advocate-General of the Army. That any remarks were ever made about such cases at these Headquarters we cannot remember.

AN OFFICIAL INDORSEMENT.

DURING the war, when the 1st California Cavalry was organized at Sacramento, John C. Cremony obtained the commission of a captain and commanded Battery B. He had for lieutenant a young Frenchman, named Duchetel, who had the most unabiding faith in the obligation of a subordinate officer on all occasions to support his superior. Cremony early found this out, and in this connection a good story used to be told around the club. It appears that Cremony gradually got into the habit of telling the most outrageous kind of yarns, relating to his services in the French Army, and calling on Duchetel to corroborate them, which the latter would always do. Duchetel had really been an officer in the Chasseurs d'Afrique, in which regiment Cremony also claimed to have served. When the command was in camp on the Gila River, one evening, Col. Cremony was telling a wonderful story of how on one occasion in Africa he had, with nothing but a naked sabre, slain two royal Nubian lions. While he was telling the tale his lieutenant, who was extremely full of Commissary rum, came to the tent and leaned against the pole.

"I am glad, Lieutenant," exclaimed Cremony, "that you have arrived. I was just telling these gentlemen of my wonderful encounter with the Nubian lions. Of course you recollect that time, Lieutenant, when I killed two of them with nothing but my sabre?" A long interval of silence prevailed, and then Duchetel, gathering himself together with drunken gravity, responded: "Cap'n Cremony, if ye as' me as Lieut. Duchetel, Company B, 1st California Cavalry, if I remember your encounter with Nubian lions, I'll say I do. Ask me as one shentleman to 'nother, say it's a d—d lie." It was all mutual friends could do to prevent a duel. . . . .—*Dramatic Times.*

Capt. Cremony, who was a man more reticent than verbose, was a conspicuous figure on the leading thoroughfares of San Francisco, up to the period of his death, a few years ago.

Habitually wrapped in his military cloak, with the set-up and bearing of a thorough tactician, the title of "Colonel," by which he was best known, was frequently bestowed by people ignorant of his military career.

"The good that men do is oft interred," etc., and it is just possible that the long bow was drawn a little too far in finding the *dramatis personæ* for the lion story. It's a good one, however, all the same.

U. M.

NEW PUBLICATIONS.

The February "Magazine of American History" contains the "Letter of Commander Alexander Slidell Mackenzie, in 1843," by Dr. R. W. Shufeldt, U. S. A.; a brief tribute to "Senator John A. Logan," by the Editor; the character and public services of "Major-General Hunter," charmingly portrayed by Gen. Schenck; "President Lincoln's Unlucky Pass," by Allan Foreman; Horace Greeley, by Nathan Greeley; "Disillusions;" the "Homestead of one of the Captors of Major André," by Dr. D. Knower, and many other valuable contributions.

"The Western Art Movement," published in the August "Century," has been in large part translated and republished in "L'Art," and has been the subject of a series of articles by M. Alexandre de Latour, who says that, after having summed up and commented upon Mr. Ripley Hitchcock's study, "it will be, alas, too easy for us to draw the irresistible conclusion that American competition in artistic industry will not be slow to become more dangerous for us than all European competition together."

We learn that J. H. Soulé and Co., the Washington publisher, have in press a new work by Lieut. W. R. Hamilton, 5th Artillery, entitled "Elementary Principles Connected with the Art of War," to be out early in the spring. Lieutenant Hamilton has devoted four years of patient study to this work, which has received the highest commendation from some of the most prominent officers of the Army, and promises to become a leading text-book.

The Annual Report of the Board of Commissioners of the National Soldiers' Home for 1886, reaches us, in printed form, this week. It contains the report of Inspector General Absalom Baird, U. S. A., heretofore referred to in the JOURNAL, and is an interesting document. There can be no doubt that the old soldiers who have made the institu-

tion their home are humanely treated and liberally provided for.

Mr. Kinglake has finished the concluding volume of his history of the Crimean war. Twenty years have elapsed since the publication of the famous first volume.

Military Order of the Loyal Legion.

At a meeting of the New York Commandery, to be held Feb. 2, the following will be balloted for: Capt. H. L. Beach, U. S. V.; Col. A. B. Lawrence, U. S. V.; Lieut. A. Merritt, U. S. V.; Gen. N. W. Day, U. S. V.; Capt. E. C. Sturges, U. S. V.; Lieut. Col. E. W. Bass, U. S. A.; Capt. E. E. Chase, U. S. V.; Maj. J. J. Higginson, U. S. V., and Messrs. H. Le Grand Cannon and Augustus Gaylord. At this meeting Gen. James Grant Wilson, U. S. V., will read a paper on "Personal Reminiscences of the War."

At the meeting of the District of Columbia Commandery, held Jan. 5, the following were elected: Cols. G. N. Lieber and Theo. Yates, and Capt. J. M. Lancaster, U. S. A.; Gen. J. B. Coit and Capts. R. A. Fish and R. Amour, U. S. V., and 1st Lieut. S. N. Wood, U. S. Marine Corps (by succession). At a meeting to be held Feb. 2 the following will be balloted for: Paymr. Gen. Jas. Fulton, U. S. N.; Col. J. D. Brady, U. S. V.; Maj. W. F. Morse, U. S. V.; Lieut. C. Lyman, U. S. V.; Mr. John A. Logan, eldest son of Gen. J. A. Logan, U. S. A., and Lieut. C. G. Lyman, U. S. A., son of Maj. W. Lyman, U. S. A. This commandery now numbers 367.

The commandery-in-chief is to print a "Memorial Volume" to Gen. Hancock embracing the memorial notices of the Commanderies of the Order with that of the commandery-in-chief prefaced by a portrait printed expressly for the book. It will be furnished at 75 cents per copy. None will be printed beyond those subscribed for.

ANSWERS TO CORRESPONDENTS.

T.—See the bill we published last week (S. 1119) on page 508, looking to the establishment of a Hospital Corps.

J. S.—You could apply at any time for the necessary blanks to make application for position as letter carrier. Your service as a soldier, if faithful and honorable, should certainly entitle you to consideration.

Anxious.—Minors between 14 and 18 are not enlisted for the Naval service without the consent of their parents or guardians. Apprentices are sent to the training-ship *New Hampshire* at Coaster's Harbor Island, as soon as practicable after enlistment.

Eleventh Regiment.—Par. 229 directs that in order to march the company a few paces to the rear the captain commands, to the rear march, etc. Nothing is mentioned about opening ranks. The manœuvre is executed in closed ranks in and out of the Army. The individual who asserts that this is not the case in the Army knows nothing about that institution.

R. J. E. asks: The Mexican pension bill just passed reads that section 1 "shall not apply to any person who is receiving a pension of $8 per month or more." Is not Gen. Sherman or any other officer or soldier now retired who served in that war entitled to the pension provided in the act? Or is their retired pay considered as a pension? ANS.—Gen. Sherman (or any other officer or soldier on the retired list) is still a part of the Regular Army, and no person in the military service can draw pay and pension also. Gen. Sherman would not be allowed to draw pension.

ENGLISH LOOTERS.

A WRITER in the Calcutta *Saturday Review* is tantalizing the British officers in Burmah by a description of the loot found in 1799 in the treasury of Tippoo on the taking of Seringapatam. The cash amounted to half-a-million sterling, in bags containing 1,000 gold pagodas. An incalculable wealth of jewelry was discovered in the Toshakhana, in spite of the fact that gold coin scattered on the ground evidenced the previous doings of Tommy Atkins. A doctor, named Mein, bought from a private of her Majesty's 74th Regiment for a mere trifle two pairs of gold bangles set with diamonds, one of which was valued in Bombay at £32,000, while the worth of the other was declared by experts to be incalculable. Enormous pearls were trucked in the bazaar for bottles of arrack! But more than respectable pickings remained. The prize-agents went to work methodically, aided by a native jeweller, and divided the spoil into lots, which varied with the rank of the officers engaged. The Commander-in-Chief, General, afterwards Lord, Harris, received the lion's share, one item in which was an emerald necklace valued at £50,000. The gold stripped from Tippoo's throne sold for £27,500, and, the market being glutted with precious stones, it proved a godsend to subalterns anxious to realize their shares of £540 each.

THE GREATEST MEN.

A PRIZE was recently offered by the editor of *Cassell's Saturday Journal* for the best list of the twelve greatest living men. The result was decided by the votes of the competitors; and, as the poll was exceptionally heavy, the following catalogue of the distinguished names that headed it may be of general interest. It should be stated that Mr. Gladstone's name found a place in about ninety-nine per cent. of the voting papers. The figures show the number of votes given to each celebrity: Gladstone, 32,544; Bismarck, 32,245; Tennyson, 23,064; F. de Lesseps, 19,776; Gen. Wolselev, 17,952; Marquis of Salisbury, 17,592; von Moltke, 13,968; John Bright, 13,741; Lord Randolph Churchill, 13,117; John Ruskin, 12,389; Henry Irving, 10,560; H. M. Stanley, 10,141. Those receiving more than one thousand votes followed in the following order: Pasteur, Huxley, Spurgeon, Emperor of Germany, Edison, Beecher, Grover Cleveland, Prince of Wales, Millais, Gounod, Parnell, Chamberlain, Czar of Russia, Arthur Sullivan, the Pope, Marquis of Hartington, Sir Frederick Leighton, Jules Grevy, Gen. Roberts, Cardinal Manning, Earl of Dufferin, Tyndall, Cardinal Newman, Baron Rothschild, Oliver Wendell Holmes, Canon Farrar, Archbishop Benson, and R. Browning.

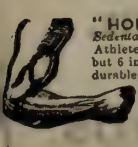
PROPHECIES OF WAR.

A FRENCH writer, M. Cornaly, insists that France should choose, and choose at once, between fighting and running away—fight at once because the period of active service is going to be reduced and the army ruined, or disarm because the financial strain is too grievous to be borne. He says: "Since the war of 1870, France has spent for her armies 16 milliards ($3,200,000,000). Every year France spends 950,000,000 fr. in armaments. Her public debt is 26 milliards. She owes more than any other nation. She has a larger war budget than any other nation. Now, these colossal sacrifices are not sufficient. A discussion on the reorganization of the army is announced, which shows that this expensive army is not in a satisfactory condition. There is also to be a demand for 400,000,000 fr. ($80,000,000). Should this go on we shall arrive at bankruptcy, and French funds will fall as low as Turks." And—"The whole military organization of 1872 was framed with the view of a revenge. Years have passed by. We have preferred disputing among ourselves to fighting others. We have been 14 years getting ready. We shall never be so well prepared as now."

M. Henri des Marais, a French military writer, says that, in the event of a war with Germany, the Germans will no doubt assume the offensive, which succeeded against Austria in 1866 and against France in 1870. Now, however, they will proceed with much greater celerity. Sixteen years ago it was only on the twentieth day after the declaration of war that they were able to attack Marshal MacMahon's advanced guard at Wissembourg. Now it is said that in 20 hours their Uhlans would be in sight of the French line of the Meuse between Toul and Verdun. They would be followed in less than 24 hours by a corps of 50,000 men of all arms, taken from the garrisons of Metz, Strasburg, etc. Germany would then set in motion a portion of her active troops, instead of waiting to incorporate the Reservists. He thinks that a dash by the Germans would have this result only—the great battle between France and Germany would be fought in the plains of Champagne instead of in those of Lorraine.

Col. Koettschau, in his work on the next Franco-German war, shows that there are two parties in France—one which thinks France is sufficiently armed at this moment to squash Germany, the other which awaits international complications or revolutions in the belief that Metz and Strasburg could be retaken without a drop of blood. The latter reckon on the death of great German statesmen and Generals, on the friendship of German anarchists, on the Polish nobility, on the powerful arm of the Czar. He believes in anticipating the French. He cites the first article of the Treaty of Versailles, ratified on March 2, 1871, providing for the perpetual enjoyment by Germany of Alsace and Lorraine, to show that press and people, statesmen and Governments in France, have ever since sought to detach

ROYAL BAKING POWDER



Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

these territories, and have never ceased to *revendiquer* their rights to them. He reasons that the war to come is necessary as well as inevitable, if Germany is to be saved not from French conquest, but from French vices, and restored to her purity of life, decency of manners, and Spartan virtues. The French prisoners corrupted the Fatherland; the German conquerors, returning to their firesides, brought back with them the germs of moral corruption from the land they had overrun. German women have become mad for foreign travel; Germans have become loose and lively, drink champagne, and dice and swear, and do other things they ought not to do. A good rattling war would purify the air and consolidate the Empire—the sooner the better!

According to the *Almanach de Gotha*, Russia can at the present time place 4,000,000 men under arms; Germany, 2,520,000; France, 2,430,000; Austria, 1,077,000; Italy, 2,400,000; and Turkey about 800,000. These figures include Militia and Reserves of all kinds.

FOREIGN ITEMS.

THE British gunboat *Firm* was wrecked Jan. 18th on the Northumberland coast. Nineteen of the crew were saved by means of the rocket apparatus of the life-saving service. The fate of the others is as yet unknown.

THE Upper House of the Prussian Diet unanimously adopted this week an address to Emperor William expressing the willingness of the Prussian people to vote the means necessary for defending the German Empire.

PRINCE BISMARCK delivered on Monday a weighty and significant address in the lower house of the Prussian Diet on the subject of imperial powers and the functions of the Reichstag. He reaffirmed in effect the position claimed for the German Emperor by the famous rescript of 1882, and said that to the Kaiser, under the constitution, belonged the right to personally conduct the policy of his Government, and that his ministers held office to carry out that policy. Either, therefore, the Reichstag must yield to the Emperor or the Emperor must bend to the Reichstag. It is far easier, however, to dissolve the Reichstag by imperial decree than to dissolve the Empire by a popular revolution.

THE Lucknow papers report a cruel tragedy in the Leicestershire Regiment. Some privates in a detachment stationed at Ranikhet owed a grudge against the sergeant of their company and vowed vengeance, so they actually dealt round a pack of cards, having agreed that the man to whom the ace of spades was dealt was to "do" for the offender. The card fell to a young private who, when the sergeant entered the place where they were assembled, at once took up his rifle and shot him dead. The murderer has been sentenced to death, but Sir Frederick Roberts had not confirmed the sentence when the mail left.

IN the *Journal de la Marine*, Lieut. Weyl dwells upon the admirable geographical situation of France, "which is, however, compromised by the general configuration of her coasts." In fact, he says, it would be easy to bombard all the French ports. In the Mediterranean there is Marseilles, which might be knocked to pieces from the open sea; there is not a single natural harbor along the Algerian coast. There is, however, a port at Tunis, and with a small expenditure a splended harbor might be formed at Bizerta. Cherbourg is so badly situated and so liable to destruction by the sea that it is recommended that a new port, more secure and more handy, be established in place of it. But where now in the French colonies is there to be found a port free from drawback, and Saigon and Diego-Suarez are the best. M. Weyl thinks that to make France perfectly secure from any aggression in Europe $28,000,000 should be spent upon the fleet, and on defensive works—say $60,000,000.

DANGER AHEAD SIGNALLED BY A COUGH is averted with HALE'S HONEY OF HOREHOUND AND TAR.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

"A STITCH in Time saves Nine." Keep Phenol Sodique on hand. It will save time, suffering and tedious recovery. What a comfort to the humane, and satisfaction to the owner of stock, is afforded by the introduction into this country by Hance Bros. and White, manufacturing chemists, Phila., of the wonderful remedy Phenol Sodique.

For the galled or otherwise injured horse, use Phenol Sodique, should you wish his early relief and usefulness. "Money Makes the Mare go," but it must be applied to the purchase of Phenol Sodique if she has a chafed shoulder, from rubbing of harness or any other cause. Sold by druggists and general storekeepers.

REAL merit and satisfaction or no trade, has made "Tansill's Punch," America's finest 5c. Cigar, the most popular brand on earth. Do you smoke them?

Cheap John houses are offering imitations of "Tansill's Punch" 5c. Cigar. Have you tried "Tansill's Punch" the Havana filled 5c. Cigar.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

BIRTHS.

BIGELOW.—At New York, Jan. 17, 1887, to the wife of Lieut. Bigelow, 10th Cav., a son.

JOHNSON.—At Camp Pena Colorado, Tex., Jan. 18, 1877, to the wife of Lieut. J. B. Johnson, 3d U. S. Cavalry, a son.

WHITNEY.—At Washington, D. C., January 23, 1887, to the wife of the Hon. William C. Whitney, Secretary of the Navy, a daughter.

MARRIED.

ROBERTS—ROBERTS.—At Brooklyn, N. Y., Lieutenant B. K. ROBERTS, 5th U. S. Artillery, to JULIA A., daughter of Mr. Richard S. Roberts.

DIED.

ELLIOT.—At North Billerica, Mass., January 21, the Hon. GEO. P. ELLIOT, father of Lieutenant Colonel George H. Elliot, Corps of Engineers, U. S. A., aged 82.

LAVERTY.—At his residence in Philadelphia, January 20, 1887, of pneumonia, Chaplain JAMES C. LAVERTY, U. S. Army, retired, late Chaplain 24th Infantry.

STONE.—At New York City, January 24, of pneumonia, General CHAS. P. STONE, formerly Colonel of the 14th U. S. Infantry, and more recently Chief of Staff of the Egyptian army.

WATMOUGH.—At Baltimore, Md., January 20, WILLIAM N. WATMOUGH, aged 48 years, Paymaster, U. S. Navy, retired.

WHITWORTH.—At Monte Carlo, Jan. 22, Sir JOSEPH WHITWORTH, Bart., aged 84.

WOOD.—At New Bedford, Mass., January 16, WILLIAM H. WOOD, formerly Acting Master, U. S. Navy.

Castings from Gun-Iron a Specialty.

THE REASONS WHY THE "GILBERTSONS'S OLD METHOD" ROOFING PLATES

Were selected as the best Material for the Roof of the

WHITE HOUSE IN WASHINGTON.

"The United States desires only the best class of materials, and parties who imagine that any other class will be received are respectfully requested not to bid."

"Comparative tests will be made for weight, ductility, uniformity of plates and thickness and quality of coating, ALL of which, as well as the prices, were specially considered by the United States Government in making the award."

The "GILBERTSON'S OLD METHOD" took the contract for the WHITE HOUSE roof at 70 cents per box over the so-called "Genuine Old Style" for the IC 14x20 size (equal to $1.40 per box for the 20x28 size.)

We unhesitatingly affirm that the "Gilbertson's Old Method" is the heaviest coated and best Roofing Plate ever made or imported.

MERCHANT & CO.,

NEW ENGLAND MUTUAL Life Insurance Company, OF BOSTON, Mass.

Assets, ------ $17,846,546.65

Liabilities, --- 15,238,761.16

Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on applicadon at Compy's Office, *POST OFFICE SQUARE.*

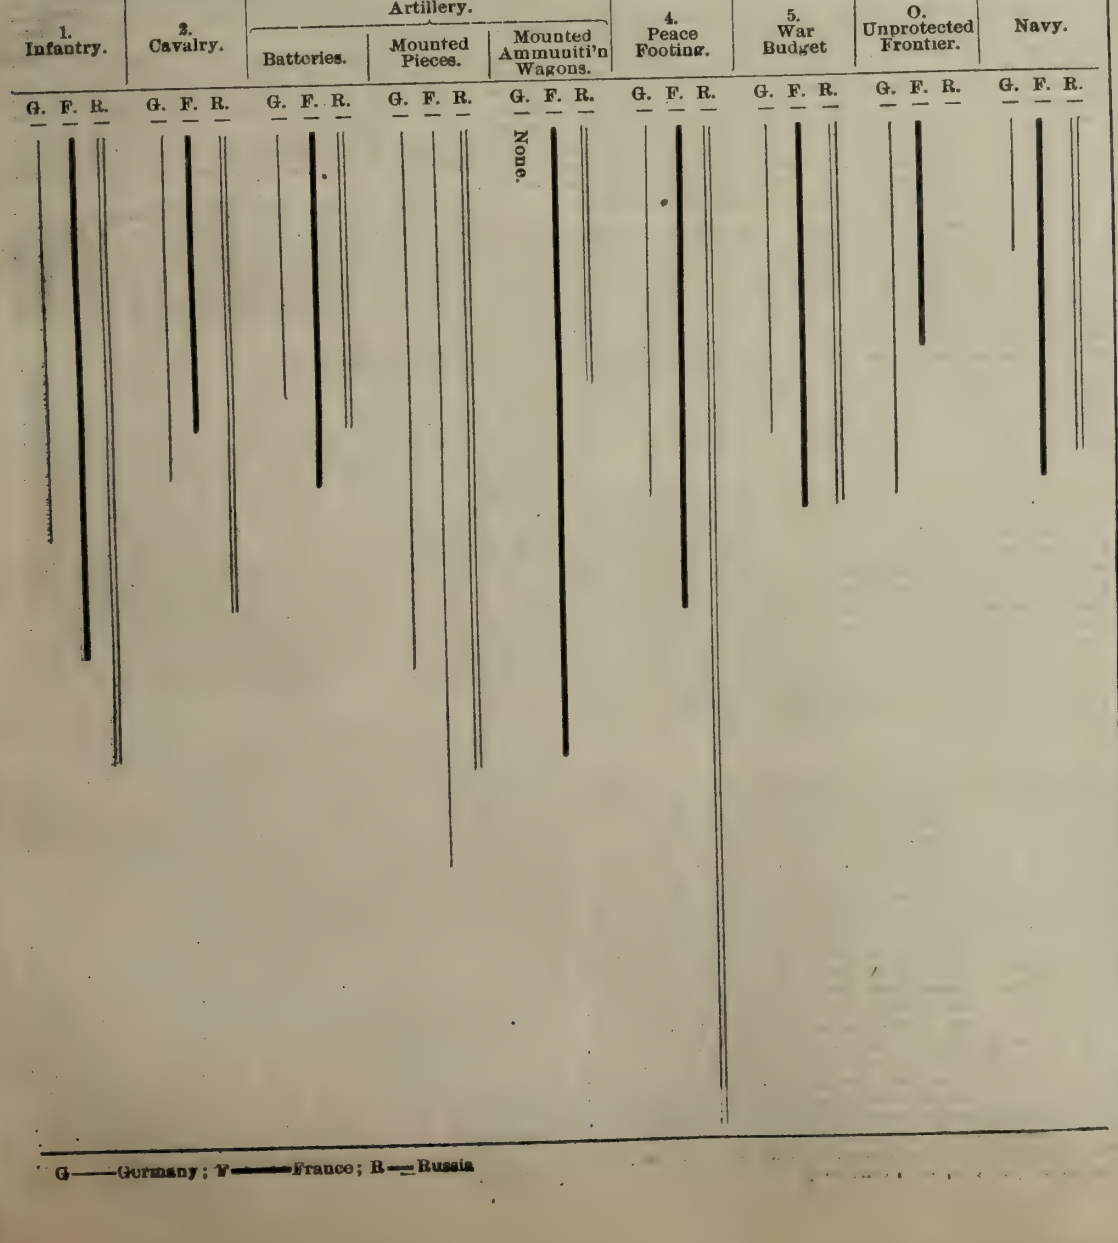
GRAPHICAL COMPARISON OF THE MILITARY FORCES OF GERMANY, FRANCE AND RUSSIA AT THE END OF 1886.



In view of the possibilities of an outbreak in Europe, we present here a comparison of the military forces of Germany, France and Russia at the end of 1886. This graphical presentation of their relative strength is based upon the statistics which follow:

	Germany.	France.	Russia.
Infantry battalions	503	649	814
Cavalry squadrons	466	395	610
Total cavalry force	60,000	450	170,000
Artillery field bat	340	446	395
Mounted pieces	1,404	1,856	1,736
Peace footing, men	427,274	523,283	990,000
Per cent. of pop. in army	1.00	1.22	.92
War budget of all state expenses, per cent.	(a)26.04	40.46	40.00
Unprotected frontier	42.00	14.00	(b)
Navy, ironclads	27	52	39
" Other men-of-war	98	410	391
Naval personnel	14,000	67,000	
Military and naval expenses in millions of dollars	111½	205	(c)197½
Per head of population, $	2.53	21.57	(d)2.75

(a) Prussia is taken as a representative, as it is practically impossible to estimate for the empire as a whole.
(b) No comparison possible on account of her extended Asiatic frontier.
(c) Not including Finland and the irregulars.
(d) Russia in Europe, including Finland.

The French "Revue de Cavalrie" for April, 1886, estimates that on the first day of mobilization France could put on foot 33,432 cavalry, and Germany, under conditions absolutely identical, 60,450, gradually increasing their respective forces until on sixth or seventh day, France, having recalled her cavalry from Africa, would have 48,336 men and Germany 64,449. In October it tells that the French cavalry actually comprises seventy regiments of 280 squadrons and 1,400 platoons.

In 1870 the German Army was in round numbers 378,000, and that of France 359,000. In 1881 Germany 427,000 and France 444,000. Thus it would appear that Germany has lost ground relatively. Meantime, however, the population of France has not increased relatively to that of Germany; indeed, it remains nearly stationary. The enormous burden France is bearing is shown by a comparison between her war budget and that of Germany, 205 to 111½ millions, and the military expenditure per head of population, $21.57 to $9.53. It is obvious that this strained condition cannot continue indefinitely. General Boulanger's new measure provides for an increase of nearly 44,000 men in the peace effective of the French Army. This relative, as well as actual, increase in the military strength of France is forcing Germany into a position which may compel her to take the initiative, whether she will or no. "The whole of Europe," said Count Von Moltke in his recent speech on the war budget, "is bristling in armor. Whether we turn our eyes to the right, or to the left, we find our neighbors fully armed, and armed in a manner which must in time be insupportable, even in a rich country. The demand which we are now called upon to meet is made in order that the peace of Europe, which has been hitherto preserved with so much difficulty, may continue to be maintained. Should we reject this bill, we shall incur a most serious responsibility, perhaps for the misery of a hostile invasion. By great sacrifices we have acquired what so many Germans longed for—the unity of Germany. May she also be united on this question. The whole world knows we intend to make no conquests. May it also know that we intend keeping what we have, that we are determined and armed to do so."

THE Veteran Association of the 5th New York Volunteers sent out circulars some time ago asking for subscriptions to a monument to be erected at Newport, R. I., to the memory of Major General G. K. WARREN. The monument will be dedicated on May 30 next, Memorial Day. Subscriptions for this object should be sent to Colonel A. S. MARVIN, 90 South Fifth avenue, New York City.

THE liberal pension legislation this session has thrown considerable extra work upon the Adjutant General's Office, and in order to meet the emergency Adjutant General DRUM has issued an order requiring all clerks and employees in the enlisted volunteer service and enlisted volunteer pension branches, to report for duty from 6.30 to 9.30 in the evenings in addition to the day work. Majors WARD and WOOD are the Assistant Adjutant Generals in charge of these branches.

THE difficulties anticipated by many in the details of buying and issuing under the "General Storekeeper" system recently adopted for the Navy, will probably be found to be no greater than those which exist under similar circumstances on board a man-of-war in commission in a foreign port. Here the paymaster of the ship is the official purchaser of everything bought by the commander's order. His duties in the premises consists in being able to certify, by due inquiry, that the goods are bought at the lowest market price, and that the articles are of good quality. One great benefit to be derived from the new order of things lies in the various heads of departments and chiefs of bureau being relieved from that incubus, "proposals for material." With a fair degree of good luck during the few tentative steps attending the disruption of the old and the inauguration of the new, it is believed that time will demonstrate the practical wisdom of Secretary WHITNEY's "Circular No. 35," to commandants, commanding officers of vessels, and general storekeepers.

A CORRESPONDENT makes the excellent suggestion that competent architects be employed to design the buildings for our new Army posts, a suggestion which has, we believe, been already acted upon in the case of the proposed new post at Chicago. Our correspondent says: "At almost every post we have buildings which are monuments, more or less colossal, of the general stupidity of some post commander or post quartermaster, when their energy or whims prompt them to try their hands at an unlearned profession. Where, in all this immense land of ours, is there one decent military post outside of permanent works?" According to our information these mistakes are being repeated in planning the new buildings for Forts Robinson, Russell, Niobrara and elsewhere. It is the mission of our Army officers to enforce upon the country the necessity for training for their particular profession: do not let them be carried away by the conceit that it includes the training for all other professions. "A little knowledge is a dangerous thing" in this as in other matters. Money wisely expended on architects will result in a saving in the cost of buildings, not to speak of the addition to and comfort and convenience.

PERSONAL ITEMS.

LIEUTENANT F. R. DAY, Signal Corps, U. S. A., was in Pittsburg, Pa., this week.

GENERAL W. D. WHIPPLE, U. S. A., will continue his stay in Florida for a few weeks longer.

GENERAL H. W. WESSELLS, U. S. A., retired, in New York last week, has gone to Tallahassee.

ASSISTANT SURGEON R. W. JOHNSON, U. S. A., left Fort Adams, R. I., on Tuesday, on a short leave.

CAPTAIN A. E. WOOD, 4th U. S. Cavalry, of Fort Bowie, Ariz., has left there on a two months' leave.

LIEUTENANT B. C. MORSE, 23d U. S. Infantry, has rejoined at Fort Mackinac, Mich., from a few weeks' leave.

CAPTAIN J. T. KIRKMAN, 10th U. S. Infantry, has left Fort Union, N. M., to be absent for about two months.

LIEUTENANT IRA A. HAYNES, 3d U. S. Art., left Fort Monroe, Va., early in the week on a short leave of absence.

LIEUTENANT M. F. EGGLESTON, 10th U. S. Cavalry, has taken charge of recruiting matters at Fort Verde, Arizona.

LIEUTENANT DE RIZO RANGABEE, of the Grecian Army, registered at the Victoria Hotel, New York, early in the week.

LIEUTENANT D. L. BRAINARD, 2d U. S. Cavalry, finds his duties as a cavalry officer at Fort Walla Walla very agreeable.

CAPTAIN S. MCCONIHE, 14th U. S. Infantry, of Vancouver Barracks, was a recent guest at the Occidental Hotel, San Francisco.

CAPTAIN W. P. VOSE, 2d U. S. Art., of Jackson Barracks, La., visited Fort Pike this week, to investigate as to the recent fire at that post.

LIEUTENANT B. S. WEVER, 1st U. S. Inf., for some time past detained at the Presidio of San Francisco, has recently joined at Benicia Barracks, Cal.

CAPTAIN J. P. STORY and Lieut. A. S. Cummins, 4th U. S. Art., of Fort Warren, Mass., were visitors at Fort Preble, Me., this week on Court-martial service.

LIEUTENANT-COLONEL H. L. CHIPMAN, 7th U. S. Infantry, was duly retired for age on Tuesday of this week, Feb. 1, an occasion to which we referred last week.

COLONEL ALBERT BARNITZ, and wife and three daughters, of Cleveland, Ohio, are spending the winter at San Antonio, Texas. Their address is 221 St. Mary's street.

LIEUTENANT S. C. MILLS, 12th U. S. Infantry, of Fort Marion, Fla., has arrived in the North, with his mother, who has been residing for some time past in St. Augustine.

GENERAL W. T. SHERMAN, U. S. A., will attain his sixty-seventh birthday on Tuesday next, February 8. That it will be duly remembered by his hosts of friends goes without saying.

A CORRESPONDENT writes: "General Vogdes, U. S. Army, had a bevy of pretty girls under his care, at the Old Guard Ball, last Thursday evening, including his daughter, Miss Emmie."

FRANCIS WEBB SEELEY, who resigned as captain of the 4th U. S. Artillery in 1864, on account of wounds received at Gettysburg, has recently been appointed Adjutant General of Minnesota.

MAJOR DAINGERFIELD PARKER, 9th Infantry, whose orders to duty at Whipple Barracks, Ariz., were suspended some time ago, has now gone to that post under recent instructions from General Miles.

THE HON. JAS. B. HARPER, U. S. Commissioner, was married January 24, at Dorchester, Mass., to Miss Mary A. Rowan, a niece of Vice Admiral Rowan. The married couple are visiting in Washington.

DR. E. E. LARKIN, of Albany, N. Y., has in his possession the sabre carried by Col. E. D. Wood, U. S. A., at the time he was killed in the battle of Fort Erie, at Lundy's Lane, in the War of 1812. Dr. Larkin, who is a nephew of Col. Wood, will present the sabre to the State Bureau of Military Records.

LIEUTENANT L. H. STROTHER, 1st U. S. Inf., of Angel Island, Cal., goes at once to duty at the Agricultural College at Blacksburg, Va., in place of Lieut. J. C. Gresham, 7th Cav., relieved at his own request, and granted sick leave for three months. Lieut. Strother, like Lieut. Gresham, is a native of Virginia.

MARQUIS VINCENZO PERRECA, Lieutenant of the 1st Regiment Bersagliere, Italian Army, who is in New York, paid a visit to Governor's Island, on Monday, and was courteously received by Major General Schofield and Major W. F. Randolph, and afforded an opportunity to see how the American soldier lives and fares.

THE Philadelphia *Inquirer*, referring to the call given Chaplain David Wills, U. S. A., to the North 10th Street Presbyterian Church, says: "The doctor has held some of the highest positions in the church. In Charleston, Atlanta, and Washington city, he has held important pastorates, and was president of one of our universities for several years. It is not yet known whether he will accept the call."

MRS. COL. MCLEAN will have for a guest during the week Miss Blossom Walker, of St. Louis—a young lady well known and greatly admired in Army circles, as well as in her own home. Miss Walker is a cousin to Miss Atkinson, daughter of Gen. H. G. Gibson, U. S. A., so lovingly remembered in our city; and whose presence in the same home a decade of years ago, proved such a "phantom of delight," but whose face now looks forth 'neath the veil of a "Lady of the Sacred Heart"—a face so fair and pure, as if some sprite—

> "Had stolen the signet from the sky
> And stamped an angel there."
>
> —*Cincinnati Commercial.*

LIEUTENANT M. F. WALZ, 12th U. S. Inf., rejoined at Plattsburg Barracks, N. Y., this week from a fortnight's leave.

GENERAL HANNIBAL DAY, U. S. A., that veteran of veterans, visited New York this week, locating at the Everett House.

CAPTAIN L. A. MATILE, 11th U. S. Inf., lately visiting in Washington, will shortly join his company in the Dept. of Dakota.

"LIEUTENANT-GENERAL PHIL SHERIDAN" is the subject of an interesting article in the Philadelphia *Times* by Frank A. Burr.

MRS. HAZEN, widow of General W. B. Hazen, U. S. Army, arrived in New York this week from France and went on to Washington.

LIEUTENANT H. H. SARGENT, 2d U. S. Cav., on college duty at Champaign, Ill., was a recent guest at the Planters' Hotel, St. Louis.

LIEUTENANTS H. DE H. WAITE, 5th Cavalry, and W. F. Hancock, 5th Artillery, left Old Point Comfort on Monday on a week's leave.

LIEUTENANT W. L. SIBERT, Corps of Engineers, U. S. A., is engaged to be married to Miss M. M. Cummings, of Brownsville, Texas.

CAPTAIN J. L. POWELL, assistant surgeon, U. S. A., well known in New York, is expected East soon from Fort Supply, on a few weeks' leave.

LIEUTENANT GUY HOWARD, 12th U. S. Infantry, contributes to a recent number of the New York *Times* an interesting letter on Infantry Tactics.

GENERAL TROCHU, Governor of Paris during the Franco-Prussian war, is going to publish his reminiscences of that exciting time. The General lives at present in the greatest retirement at Tours, only visiting two friends, one of whom is an ex-chamberlain of the late Emperor Napoleon and the other a Carlist chief.

ONE of the curious coincidences of nomenclature is that the daughter of General Logan married a Mr. Tucker, while the daughter of Representative Randolph Tucker married a Mr. Logan. Each couple have a son. The name of one is Tucker Logan and the other is Logan Tucker. The boys are about the same age, but have never seen each other.

THAT dashing Confederate cavalry leader, General Thomas L. Rosser, who has been at the Gilsey House for several days, is a splendid specimen of physical manhood, a tall, well-formed, athletic man with a ruddy color in his cheeks. He makes his home in Minnesota, where he is heavily engaged in railroad contracts. His winters are spent in Virginia, his old home, so as to be near his son, who is a student at the University of Virginia.—*N. Y. Tribune.*

LIEUTENANT E. B. WEEKS, 5th U. S. Infantry, of Fort Leavenworth, was married Feb. 3, at Fort Porter, near Buffalo, to Miss Harriet A. Ovenshine, daughter of Major Samuel A. Ovenshine, 23d U. S. Infantry, the Post Commandant. Like all garrison weddings, the occasion was a most enjoyable one. The married couple left soon after the ceremony for Leavenworth, as the lieutenant's duties do not permit a protracted absence at this time.

IN reporting favorably the bill to pension Walt Whitman at the rate of $25 per month the House Committee on Invalid Pensions says the poet dedicated himself during the war to the unceasing care, as a volunteer nurse, of our sick and wounded soldiers, and his almost devotional ministrations were well known to the citizens of Washington and of the Nation. The report includes many extracts from newspaper articles, interviews with well known persons as evidences of the poet's faithful service during the war and his present dependent condition.

A PARIS correspondent says: "M. Emile Zola has a very poor idea of the military ardor of the French peasants. Unbosoming himself lately to a person who asked his opinion on the burning question of the day, the author of the 'L'Assommoir' said that there was no patriotism among the country folk, save perhaps those dwelling on the frontiers. Only lately it was a common thing for peasant conscripts to mutilate their fingers or to cut off one of their toes so as to avoid the burdens of military service. M. Zola's severe criticism is founded on personal observation, as he is preparing 'human documents' for a book on the peasantry."

A CORRESPONDENT, referring to the article in the Kansas *City Times* concerning Captain Cass Durham, 18th U. S. Inf., from which we quoted in our issue of January 22, says: That article is calculated to give to the service at large a wrong impression, viz., that Captain Durham is trying to obstruct the natural flow of promotion in his regiment by opposing his retirement. We happen to know that Captain Durham applied months ago to be retired, but the War Department, of course, has not the power to take immediate action. I fancy the sentiment of a large majority of the officers of the 18th is voiced when I say there is no desire to "crowd" Captain Durham, but rather a wish that he were able to return to duty.

OF the late Gen. Ebenezer Swift, U. S. A., there have been some interesting reminiscences published. At the battle of Molino del Rey, Gen. Worth ordered him to fall back in with one of our moving lines, saying: "You are drawing fire from the enemy's artillery at Chepultepec." Dr. Swift, who was earnestly engaged, did not look up from his work, and on account of smoke, dust, and noise, did not recognize the person addressing him, and simply replied: "I will, in a moment, after another amputation, sir." He had not discovered that our lines had been driven back in disorder by the enemy, and that he was exposed to a fire in front and upon our right flank. Gen. Swift several times commanded troops and forts on the Indian frontier; was military aid to Governor Walker in the Kansas troubles, and in the great War of the Rebellion was recommended for promotion for gallant conduct at the battle of Stone River and in other engagements, for all of which he received three brevet commissions, the highest that of Brigadier-General. During the reconstruction in the South, he was for over a year Mayor of the city of Vicksburg.

LIEUTENANT SLOCUM, 7th Cavalry, left Fort Meade, D. T., last week for Jefferson Barracks.

MRS. BRECK, wife of Gen. Breck, has been called East from Omaha by the serious illness of her son.

CAPTAIN C. A. COOLIDGE, 7th U. S. Infantry, has rejoined at Fort Laramie, Wyo., from a six weeks' leave.

LIEUTENANT W. L. SIMPSON, 24th Infantry, late of the 3d Cavalry, changes base from Fort Elliott to Fort Sill.

LIEUTENANT B. T. CLAYTON, 11th U. S. Infantry, has taken charge of recruiting matters at Fort Bennett, Dakota.

LIEUTENANT L. S. ROUDIEZ, 15th Infantry, on leave from Fort Pembina, Dakota, will rejoin there in a few days.

ASSISTANT SURGEON PAUL CLENDENIN, U. S. A., lately of Fort Davis, takes charge of medical matters at Camp Pena Colorado.

LIEUTENANT P. A. BETTENS, 9th U. S. Cavalry, leaves Fort Robinson, Neb., this week for the East, to remain about two months.

LIEUTENANT R. E. L. MICHIE, 2d U. S. Cavalry, of Boise Barracks, was to be married, Jan. 19, at San Francisco, to Miss Gray-Beach.

THE officers at Fort Omaha gave a very delightful masked ball at the post Friday evening, Jan. 28, all the guests present being in fancy dress or domino.

DR. THOMAS EMORY and wife, of Syracuse, and Miss Winnie Davis, of Beauvoir, Miss., registered at the New York Hotel, New York City, on Wednesday.

MAJOR D. N. BASH, Paymaster, U. S. A., who has been expecting for some time past to leave San Antonio, got his orders this week to take station at Cheyenne.

LIEUTENANT C. N. CLINCH, 3d Cavalry, assigned to Troop I at Fort Elliott, will remain at Fort Leavenworth to go through his course at the Infantry and Cavalry School.

LIEUTENANT G. R. BURNETT, 9th U. S. Cavalry, lately visiting at Lafayette Hill, Pa., arrived at Columbus Barracks, O., this week, to conduct recruits to Nebraska.

CAPTAIN L. S. TESSON, Assistant Surgeon, U. S. A., at present visiting in St. Louis, will return to New York in March for assignment to a post in the Division of the Atlantic.

"LIEUTENANT J. S. POWELL, Signal Corps, U. S. Army, has," says the Omaha *Herald*, "been summoned to Washington, it is reported, for the purpose of being put in charge of the Signal Service Bureau."

GENERAL BAIRD, Inspector-General, returned to Washington on Tuesday, Feb. 1, from his visit to Fort Du Chesne, where he found the post in a flourishing condition, under the vigorous administration of Gen. Hatch, 9th Cav.

"MAJOR FRANCIS S. DODGE, paymaster," says the *Critic*, "is the gallant officer who received his promotion to the staff for the dashing and hazardous ride he made with his troop of the 9th Cavalry in 1879 over nearly 200 miles through the snow across the Rockies to the relief of poor Thornburgh's beleaguered command."

A CHICAGO despatch says: The friends of Lieut. Hugh T. Reed, 1st U. S. Infantry, and formerly attached to the Signal Service Bureau, will urge his name to the President for the office of Chief of the Signal Service made vacant by the death of Gen. Hazen. Lieut. Reed is the author of the "Standard Signal Tactics," and of various military tactical works.

IN its adverse report upon the Senate bill granting a pension to Mrs. Logan, the Committee on Invalid Pensions of the House says that should Congress pass the bill and by future legislation maintain that fairness and consistency which should characterize all legislation, the widows of 259 Major-Generals and Rear Admirals would be given a pension of $2,000 a year each.

THE Presidio County *News* of Jan. 28 has the following Fort Davis, Tex., items: Major W. H. Gardner, Surgeon, whom everybody in and about Fort Davis knows so well, has been assigned to Fort McHenry, Md. This is near many of the early friends of both the Dr. and Mrs. Gardner, and will be a very agreeable post for both, and we extend our congratulations.....Capt. J. C. Thompson continues steadily to improve in health....A sister accompanied Mrs. Lieut. McFarland on her return to Fort Davis, and is made very welcome....Lieut. M. M. Maxon, Q. M. 10th Cav., paid a visit on Friday and Saturday ....Mrs. Lieut. J. T. Dickman left yesterday for a visit of several months among family and other friends in northeastern Texas and Arkansas..... Another officers' hop is being arranged. The younger officers congratulate themselves that the number of ladies in the post is somewhat larger than some time ago.

HENRY WATTERSON, of the Louisville *Courier-Journal*, in the course of a letter criticizing Mr. Cleveland and his policy, tells the following story of Gen. Braxton Bragg: "The boys in the trenches will remember, if the quartermasters and commissaries about headquarters have forgotten, an event on the Confederate side of our sectional war, which contains an ever living lesson. During an entire year, Gen. Braxton Bragg was immovable in a certain line of military policy. He was equally rigid in his personality. Like Mr. Cleveland he was obstinate and upright. He resisted all remonstrance. He repelled all suggestion. He refused all information. He became odious to the rank and file. Finally his Generals, unable to stand it longer, signed a round robin to Jefferson Davis, who—another striking example of perverse integrity—would listen to nothing. Then the crash came. The next time the soldiers who had sworn in their hearts that they would fight no more battles under Braxton Bragg—the brave and loyal boys of the trenches who had made the name of American manhood glorious and renowned at Shiloh, Perryville, Murfreesboro, and Chickamauga—threw away their guns at Missionary Ridge and fled unfrightened from an impregnable position."

LIEUTENANT J. C. SANFORD, Corps of Engineers, U. S. A., sailed for Liverpool this week on the *City of Chicago*.

LIEUTENANT A. B. JOHNSON, A. D. C. to Major-General Terry, is undergoing treatment at the General Hospital, at Hot Springs, Ark.

GENERAL N. A. MILES, U. S. A., is to be presented with a handsome gold sword by the people of Arizona in recognition of his distinguished services.

THE President has appointed Rev. George W. Willard, of Dakota, one of a commission to select a diminished reservation for the confederate bands of Cayuse, Walla Walla and Umatilla Indians.

SIDNEY W. COOPER, U. S. Consul, who committed suicide at Monaco, Feb. 2, was a 2d Lieutenant in the 8th U. S. Infantry from August 5, 1861, until July 28, 1864, when he resigned. It is said he had been gambling of late and had sustained heavy losses.

LIEUT. OSCAR T. CROSBY, Corps of Engineers, U. S. A., writes an interesting letter to the New Orleans "Democrat" in refutation of a statement that a break in the bank of the Mississippi threatened "the gradual undermining of the immense and costly fortification of Fort Jackson."

CAPTAIN R. H. PRATT, U. S. A., and a delegation of Indian pupils from Carlisle, Pa., arrived in New York on Friday of this week, and in the evening gave an interesting exhibition in the Academy of Music. The Indian band and choir of the Carlisle School furnished the music. Many distinguished persons interested in Indian education were present.

A VERY pretty wedding was that on Feb. 8 of Capt. Henry P. Birmingham, Assistant Surgeon, U. S. A., stationed at Governor's Island, to Miss Myra Eulalie Clarke, daughter of Mr. and Mrs. Richard A. Clarke, of New York City. The ceremony was performed at St. Patrick's Cathedral, Fifth Avenue, Archbishop Corrigan officiating. The vast edifice was completely filled with friends of bride and groom, many Army and Navy officers being among those present. Lieut. W. W. Galbraith, 5th U. S. Artillery, of Fort Hamilton, was best man, and the ushers were Lieut. John Pitcher, A.-D.-C. to Major-Gen. Schofield; Lieut. Thos. Ridgway, 5th U. S. Art., of Garden City, Asst. Surgeons Chas Richard, and F. J. Ives, U. S. A., Lieut. A. D. Andrews, 5th Art., Lieut. J. K. Richards, Jr., 4th Cav., and Lieut. G. W. S. Stevens, 5th Art. After the ceremony a wedding breakfast was held at the home of the bride and then the married couple left on a short tour.

ADMIRAL SIR E A. INGLEFIELD, British Navy, sailed for England on Saturday last.

ENSIGN H. O. DUNN, U. S. N., on duty at Washington, has been visiting friends at Newport, R. I.

CHIEF ENGINEER GEORGE M. ROBINSON, of the Revenue Marine Service, is visiting at his home in Baltimore, Md.

LIEUTENANT-COMMANDER A. H. VAIL, U. S. N., visiting at Aurora, Ills., reports at Cincinnati for light-house duty.

MR. W. W. COLSON was married, Jan. 24, at Dorchester, Mass., to Miss Minnie H. Jones, daughter of Lieut. J. E. Jones, U. S. Navy, retired.

LIEUTENANT L. L. REAMEY, U. S. N., and Mrs. Reamey led the cotillion at the third Army and Navy german at Washington on Monday evening.

THE mother of Professor Marshall Oliver, of the Naval Academy, died last week at Kendall Green, Mass. His father died many years ago in Brooklyn, New York.

LIEUTENANT WORTH G. ROSS, of the Revenue Marine Service, read an interesting paper on the Life Saving Service before the Woman's National Press Association at Washington on Saturday evening last.

PAY INSPECTOR A. J. CLARK, U. S. N., registered at the St. James Hotel, New York, early in the week, on his way to San Francisco, for duty, where he will relieve Pay Director W. W. Williams, U. S. N.

ADMIRAL MEHMED PASHA, of the Turkish Navy, has published in his native language an illustrated work on naval tactics, which is the first work of the kind ever issued in Turkish. He was educated in England.

MR. G. W. HILL, of the Nautical Almanac Office, Washington, D. C., has been awarded the gold medal of the Royal Astronomical Society of Trinity College, Cambridge, Eng., for his researches upon the "Lunar Theory."

COLONEL FORNEY, in command of the Marines at League Island, Philadelphia; Capt. Collum of the Quartermaster's Department, U. S. M. C., and Capt. Fagan represented the Marine Corps at the City Troop Ball on Jan. 28.

THE orders of Lieut. Harris and Ensign French, detaching them from the Coast Survey, will be a loss to the office in general, and in particular to the Department of the Hydrographic Inspector, Lieut.-Comdr. W. H. Brownson, U. S. N.

IN Washington on Monday the District Attorney called attention to the cases of Grenville A. Whitaker, five of them, in which he is charged with presenting false vouchers to the Navy Department, and asked that they be set peremptorily for trial on Feb. 19.

MRS. CROSBY, wife of Lieut. Freeman H. Crosby, U. S. N., commanding Coast Survey Steamer *Gedney*, came on to New York last week from Baltimore, where he has been sojourning during the stay of the *Gedney* at that place. The *Gedney* is to receive a new main deck at the Brooklyn Navy-yard.

JOHN ROACH'S will disposes of property which includes the shipyards at Chester, Penn., the Morgan Iron Works at the foot of East Ninth street, and some real estate in Westchester County. There will be enough, in his lawyer's estimation, to amply provide for the heirs, who are Mr. Roach's five children and the five children of a deceased son.

P. A. PAYMASTER JACOB DOYLE has been detached from the *Iroquois* and ordered home.

CAPTAIN L. A. BEARDSLEE, U. S. Navy, registered at the Gilsey House, New York, on Tuesday.

SECRETARY WHITNEY has not yet taken action upon the court-martial proceedings in the case of Capt. J. H. Higbee of the Marine Corps.

MR. WILLIAM A. POWERS, who served as 3d Assistant Engineer, U. S. Navy, from 1862 until 1866, was appointed this week to the head of the Boiler Inspection Department in Brooklyn.

LIEUTENANT F. W. NICHOLS, U. S. Navy, who for some months past has been residing in Boston, is ordered to the receiving ship *New Hampshire*, Capt. A. R. Yates, at Newport, R. I., where he will report at once. Lieut. Nichols' last cruise was on board the *Monocacy*, China Station. He will be a welcome addition to Newport society.

COMMUNICATIONS were presented in the two Houses of Congress this week from the Secretary of State, recommending that permission be granted by Congress to Capt. Edward P. Lull, U. S. N., to accept a diploma presented by the State of Panama to him in recognition of his interest in the work of the inter-oceanic canal projected from Colon to Panama.

THE friends of Chief Engineer and Mrs. H W. Fitch, in both Washington and Philadelphia will be pleased to learn that a little domestic event came off lately in the most successful manner. The "event" and its mother are doing well. Chief Engr. Fitch is the President of the Board for the examination of engineers for promotion in the Navy at Philadelphia.

A COURT-MARTIAL has been ordered to convene at the Navy-yard, Mare Island, for the trial of Gunner Joseph Swift, Feb. 14, 1887. The detail for the court is: Commodore John Irwin, Comdr. Frederick Rodgers, Comdr. J. B. Coghlan, Major G. W. Collier, Marine Corps; Lieuts. Chas. A. Clarke, C. S. Richman and E. T. Qualtrough, with Paymr. Jonathan Q. Barton as Judge Advocate.

IN the loss of his daughter, Nannie, Mr. John Cassin, of the Navy Department, will not only receive the heartfelt sympathy of his fellow clerks, but of a wide circle of officers of the Navy to whom the "Commodore" has endeared himself by innumerable acts of kindness and friendship. Nannie Affordley Cassin was a granddaughter of the late Commodore Stephen D. Cassin, and of Col. Edward Schley, of Frederick, Md.

P. A. ENGINEER J. D. FORD, U. S. N., principal of the Baltimore Manual Training School, on Monday of this week established a preparatory class of the school, so that every boy of 14 years who is a member of the sixth, seventh or eighth grade grammar school, or from any private school, who will undergo an examination, will be entitled to visit the school. The number of boys to be taken is limited to fifty.

ENSIGN HOWARD has left the Naval Hospital and has been ordered to write a report of his explorations for the Government. His report will make decided changes in the map of Alaska and will also establish the fact that the interior of Alaska is incapable of supporting any population except that of nomadic tribes which now exist there. Ensign Howard brought back two immense tusks of mammoths. The tusks are 16 feet long and of solid ivory. He was told by the Indians of another tusk in the mountains so large that the Indians could not move it.

LIEUT. T. GLOVER FILLETTE, U. S. Marine Corps, on duty at the Navy-yard, Pensacola, was married there Jan. 25 to Miss Petra Oerting, daughter of Mr. Peter J. McK. Oerting. The attendants were Miss Sophia Holmes, of Montgomery; Miss Augusta Oerting, a sister of the bride; Surg. J. W. Ross, U. S. N., and Capt. H. C. Cochrane, U. S. M. C. The ceremony was performed at the residence of the bride's parents by the Rev. J. J. Scott, D. D., of the Episcopal Church. A large company was present, and the bridal presents were numerous, beautiful and valuable.

THE Secretary of State has transmitted to Congress the report of Lieut. Wm. H. Schuetze, U. S. N., who was designated by the Secretary of the Navy to distribute the testimonials of the Government to subjects of Russia who extended aid to the survivors of the *Jeannette* exploring expedition and to the parties despatched by the Government to aid the survivors. The President says the report is interesting alike to the people of the United States and to the subjects of Russia, and will be gratifying to all who appreciated the generous and humane action of Congress in providing for the testimonials. Accompanying the report are copies of two charts, the existence of which Lieut. Schuetze believes to have been forgotten outside of Russia.

THE Board of Paymasters appointed to examine Passed Assistant Paymaster L. A. Yorke adjourned Feb. 1, and again sent to the Secretary of the Navy its decision that the candidate for promotion is morally unfit for the Service. This makes the third chance given Mr. Yorke, and it is probable his case will now go before the President. He has applied for an examination by another board, but the request will doubtless be refused. There were over 100 affidavits before the Board against Yorke, most of them being signed by officers from whom he had borrowed money and failed to refund. This is the second instance within three months in which a naval officer has been pronounced morally and professionally unfit for promotion, the other case being that of Lieut. Clinton H. Lyeth, a West Virginian, who had been in the service 18 years.

JOHN L. D. BORTHWICK, of the Engineer Corps, U. S. N., has just passed a very creditable examination to the grade of Chief Engineer, with the relative rank of Lieut.-Commander. It is said he was three days less in working out the cumbrous written examination papers than any officer who has appeared before the Board since the present system was adopted. Mr. Borthwick is a member of the celebrated City Troop of ante-Revolution times, and appeared with the ribbon and medal of the Troop at their recent grand ball.

REAR ADMIRAL C. R. P. RODGERS, U. S. N., was in New York on Wednesday (at the Glenham) attending the funeral of Raymond Rodgers Belmont, youngest son of August Belmont, who accidentally shot himself early on the morning of Jan. 31.

CHAPLAIN MILBURN, shortly after the advent of Secretary Whitney's last daughter was known to him, prayed for Mrs. Whitney and the babe in his prayer one morning when the House of Representatives was beginning its session for the day. This caused a member of the House who has an infant daughter about the age of little Miss Whitney to remark that he considered the chaplain showed "offensive partisanship" because he had not prayed also for his wife and baby. So next day the omission was remedied.

RECENT DEATHS.

A DESPATCH from Fort Leavenworth, referring to the suicide, Jan. 27, of Lieut. Peter Campbell, 18th U. S. Infantry, says: "The causes, so far as can be learned, were depression of mind, ill health, and a reported infraction of military discipline which it is thought would not have led to any serious consequences. The court for his trial was about to meet Jan. 27, and rather than go before it to answer to the charge he preferred death. Lieut. Campbell was appointed quartermaster of Camp Morrow, near New Kiowa, in the summer of 1885. There was concentrated at that point twenty-nine companies and the duties required of him were very exacting. The amount of property in his charge was considerable and it is always the rule in such cases that years pass before the accounts are settled by the Department. Shortly after being relieved from this duty he was written to by the Quartermaster-General in reference to the papers pertaining to the property returns. No attention was paid by him to this letter, when he received a second. This was also neglected. Then the Quartermaster-General appealed to the Lieutenant General of the Army to request Campbell to answer. This was done, and the officer was also requested to explain, through official military channels, why he had failed to answer. No response was received from him by either Quartermaster or Lieutenant-General, when the latter, Jan. 14, directed that he be brought to trial. Jan. 19 Gen. Willcox directed Gen. McCook to formulate the charges, provided Lieut. Campbell had not taken steps before Jan. 14 to comply with the orders previously received by him." The funeral took place Jan. 28, concerning which the Kansas City *Times* says: "The last sad rites were performed with full military honors, the religious services being conducted by Chaplain Barry. The funeral cortege was a very long one, nearly all the enlisted men of the garrison turning out to show their respect for him who in life they regarded as an exceptionally kind man and officer and every inch a gentleman. It can be said with truthfulness that more genuine regret and sorrow existed among those who followed the remains for the untimely death of the lieutenant than that over any death that has occurred here for years. Lieut. Campbell was a victim to red tape. In his death the country has lost a faithful servant and the Army an officer who always had the respect of his superior authorities and those who came under his command."

The following Orders, No. 7, has been issued by Col. John E. Yard, headquarters 18th U. S. Infantry, Fort Hays, Kansas, Jan. 29, 1887, Geo. L. Turner, 1st Lieut. and Adjt.:

With deep regret it devolves upon the Regimental Commander to convey to the regiment the melancholy intelligence of the death at Fort Leavenworth, Kansas, on the 27th of January, of 2d Lieut. Peter Campbell, 18th U. S. Infantry.

The military record of Lieut. Campbell embraces long and active service during the War of the Rebellion, as Private and Corporal of Company G, 33d New York Volunteers, May 22d, 1861, to March 24th, 1862; Corporal and Sergeant of Company H, and Sergeant Major 14th New York Heavy Artillery, Nov. 13th, 1863, to June 23d, 1865, and 2d Lieut. in the latter organization, June 24th, 1865, until honorably mustered out Aug. 26th, 1865.

Joining the 18th U. S. Infantry on the 12th day of January, 1871, he rose, by faithful and intelligent performance of duty, successively from private, through the various intermediate grades of non-commissioned officer, to the position of Quartermaster Sergeant and Sergeant Major, and on the 24th of June, 1880, received his well-merited commission as 2d Lieut. in the 18th Inf.

With conspicuous fidelity he served during the active operations of the war, and his more recent services are so closely interwoven with the regiment to which he belonged as to render necessary only this brief summary to remind us of his worth and usefulness as an officer, while as an individual he possessed among the decided qualities of his mind and heart such sympathy, kindness, generosity and charity as to insure his grateful remembrance, not merely within but beyond the circle of the regiment to which he was most endeared.

As a mark of respect to the memory of Lieutenant Campbell, the officers of the regiment will wear the usual badge of mourning for thirty days.

BREV. BRIG. GENERAL NAPOLEON B. MCLAUGHLEN, Major U. S. Army, retired, died of apoplexy at Middletown, N. Y., January 27, in the 65th year of his age. He was a native of Vermont, enlisted in the 2d Dragoons in May, 1850, and rose to sergeant. He served as an enlisted man to March 27, 1861,

when he was appointed 2d Lieutenant of the 1st U. S. Cavalry, became 1st Lieutenant 4th Cavalry in May, 1861, and Captain 4th Cavalry July 17, 1862. In October of that year he was appointed Colonel of the 1st Mass. Infantry, served in that capacity until May, 1864, and in the following September was appointed Colonel of the 57th Mass. Infantry, and was mustered out of the Volunteer Service August 10, 1865. May 17, 1876, he was promoted Major 10th U. S. Cavalry, and was retired at his own request June 26, 1882. During the war he served with great merit, receiving the brevet of Major for gallantry at Chancellorsville, of Lieutenant-Colonel for gallantry at Gettysburg, of Colonel for Fort Steedman, Va., and of Brigadier General for gallant and meritorious services in the field during the war. He also received the brevet of Brigadier General of Volunteers for gallant and distinguished services at Poplar Grove Church, Va. The remains were interred at Worcester, N. Y. He leaves a widow.

—

THE funeral services of the late Commodore P. C. Johnson, U. S. N., were held at Portsmouth, N. H., January 30, and then the remains were taken to Washington, where they were interred in Glenwood Cemetery, January 31, with military honors. The honorary pall bearers were Commodore Sicard, Engineer-in-Chief Loring, Commodore McCann, Medical Director Brown, Captain Meade, Captain Wallace, Paymaster Washington and Captain Farquhar. The body was escorted from the railroad station to the cemetery by a battalion of marines.

—

LIEUTENANT-COMMANDER THOMAS M. GARDNER, U. S. Navy, retired, died at Nantucket, Mass., Jan. 28, aged 66. He was appointed an Acting Master June 13, 1861; promoted Master March 12, 1868; Lieutenant, Dec. 8 following; Lieutenant-Commander, Feb. 2, 1878, and retired Jan. 22, 1884.

—

INFORMATION has been received of the recent death in England of William Gardner, the inventor of the Gardner gun. Nineteen years ago his father died, and from that time he worked assiduously to make the patent a success. He endeavored to awaken an interest on the part of the War Department in his invention, but he failed. He finally succeeded in getting up a stock company in Cleveland and eventually obtained a foothold in England, whose government adopted it. A factory was recently built in London, and a large number of the guns turned out annually. Lately a misunderstanding sprang up between Captain Gardner and his company, of which he was superintendent and general manager. The result of this was that he went to Germany, where he remained for some months working on a new patent.

GENERAL VLADIMIR KRZYZANOWSKI, a Polish exile, who served gallantly during the war as Colonel of the 58th New York Volunteers (Polish Legion), died in New York, Jan. 31. He was brevetted Brigadier-General for his services. For many years past and until his death he held a position in the Custom-house.

MRS. MONTGOMERY BLAIR, who died Jan. 28 in Washington, after a short illness, was the daughter of the late Judge Levi Woodbury, who was Secretary of the Navy in Andrew Jackson's Cabinet, and was the widow of Montgomery Blair, President Lincoln's first Postmaster-General.

FRANCIS SCHUBAEL SMITH, of the well-known firm of Street and Smith, publishers of the *New York Weekly*, died at the Windsor Hotel, New York, February 1. He was a son of the late Moses R. Smith, Master U. S. Navy from May, 1812, to June, 1815.

JOHN CHARLES TILGHMAN, who died at Baltimore, Jan. 27, aged 68, was the son of Richard Cooke Tilghman, formerly of the 1st U. S. Artillery, and a distinguished citizen of Maryland, who died in 1879.

MRS. RUTH WALKER, wife of Lieut. Commander Asa Walker, U. S. Navy, died January 31, 1887, at the Naval Academy, Annapolis, of a complication of diseases.

CAPTAIN WILLIAM TALLMANN, Jr., who served from 1861 to 1865 as an Acting Master, U. S. Navy, died at New Bedford, Mass., Jan. 28, aged 78.

MORE BAD COOKING FOR THE ARMY.

THE N. Y. *Times* says: "It has long been the general feeling among Army officers that a large percentage of desertions are caused by bad cooking. Commissary-General Macfeely has shared this opinion, and in his annual reports for some years he has recommended an appropriation for the employment of a skilled corps of cooks. He has always asserted that the complaints of the men were not due to the bad quality of the food, but to the manner in which it was prepared and served. It has been customary to select an enlisted man to serve as company cook, and he has usually never worked in a kitchen before. His fellow soldiers are the sufferers from his ignorance. Secretary Endicott warmly indorsed the recommendation of Gen. Macfeely, but Representative Bragg had a provision for the employment of cooks stricken out of the Army bill, which has just passed the House, and Gen. Macfeely fears that the Army will be obliged to content itself with badly cooked food for another year. Gen. Macfeely thinks that if the stomachs of the enlisted men are properly cared for there will be comparatively few desertions, and that money saved out of the appropriation for the apprehension and conviction of deserters would repay the Government for any outlay for cooks. The War Department will make an effort to have the item for cooks reinserted in the bill before it reaches the President."

THE FORTY-NINTH CONGRESS.

The Senate Military Committee on Tuesday adopted favorable reports on the bills to effect a rearrangement of grades of officers in the Adjutant-General's Department of the Army, and appropriating $250,000 for the construction of a volunteer soldiers' home west of the Rocky Mountains. The nominations of the two chaplains also received favorable action. A number of other bills of a private and imporeant nature were disposed of.

Mr. Evarts (Rep., N. Y.,) has introduced a bill for "the purchase of John Ericsson's *Destroyer* and ten enlarged steel vessels of the same type for defending the harbors of the United States" (appropriating $112,000 and $2,000,000 for these purposes respectively.)

The Secretary of War on Thursday transmitted to the Senate a letter from James B. Newlin, Sergeant, Signal Corps, U. S. A., asking, in the event of the transferring of the Corps to a civil department, that provision be made whereby those members of the Corps who desire to take advantage of the law granting retired pay to men having served 30 years in the Army will not be deprived of this right. Acting Signal Officer Greely, in an endorsement, says there are about 40 men in the Signal Corps who have served from 15 to 28 years in the Army, and who, he says, are looking forward to the time when they will be placed on the Army retired list in their old age.

The President Jan. 31 approved the act granting pensions to the soldiers and sailors of the Mexican war.

An estimate of $25,000 to supply deficiency in Army mileage fund for the remainder of the current fiscal year was submitted to the House on Friday.

Mr Bragg introduced a bill (H. R. 10995) to prevent unauthorized persons from wearing badges, buttons, decorations, or devices, indicating enlistment or commission and muster into the military or Naval service of the United States during the War of the Rebellion.

In the House Mr. Lawler submitted the following resolution of inquiry:

"Whereas, the belligerent tone of the Canada press and the announcement that Great Britain will shortly dispatch a fleet of war ships to cruise in the vicinity of our northeastern coast line indicate hostility toward the United States, growing out of our position on the fisheries question; and

"Whereas, Admiral Porter has directed special attention of the country to the fact that twenty-seven of our Atlantic, Gulf and Pacific harbors are absolutely defenceless, eleven of these, namely, New York, San Francisco, Boston, the lake ports, Hampton Roads, New Orleans, Philadelphia, Washington, Baltimore, Portland, Me., and the Rhode Island ports of Narragansett Bay are in urgent need of immediate defences; and

"Whereas, it is alleged that Great Britain and Canada are in possession of charts and exemplifications of all our harbors and coast defences: Therefore,

"*Be it resolved*, That the President be, and he is hereby requested, as Commander-in-Chief of the Army and Navy, to inform the House of Representatives at an early day what steps, if any, are necessary, in his judgment, to provide for this emergency."

Mr. Bragg asked: "Is it not rather in the nature of treason, when we are in such dangerous times as these, to advertise to the enemy our unprotected condition?" To which Mr. Lawler replied: "They know our condition better than we do ourselves."

The "war talk" in and out of Congress has at last awakened members to the importance of the ship and gun questions, and there is now a tolerably fair prospect of something being done toward building up our defences. There are a variety of measures before Congress, and to them has been added the bill of Mr. McAdoo, and the following bill adopted by a sub-committee of Messrs. Herbert, Lore, Thomas, Goff and Wise, and approved by the full committee, who will, in a few days, demand its consideration by the House:

That the President of the United States is hereby authorized to have constructed, by contract, two steel cruisers, each of about 4,000 tons displacement, of the type of the *Newark*, or Cruiser Number One, with the best types of modern engines, boilers and machinery, at a cost, exclusive of armament, of not more than $1,300,000 each; 4 steel gunboats, each of about 1,700 tons displacement, of the type of Gunboat Number One, at a cost, exclusive of armament, of not more than $550,000 each; one cruising steel torpedo-boat, of not more than 150 feet nor less than 135 feet in length, to have a maximum speed, tested over a Government knot-course, of not less than 24 knots per hour, and a speed, with weights on board equivalent to the necessary armament and stores for sea service, of not less than 20 knots per hour, for six consecutive hours, and to cost, exclusive of armament, not more than $100,000; said torpedo-boat to be completed and tested within 12 months from the date of signing the contract.

Sec. 2. Each of aforesaid vessels shall be built, as near as may be, in compliance with the provisions of the act of August 3, 1886, entitled "An act to increase the Naval Establishment."

Sec. 3. The sum of $3,450,000, or so much thereof as may be necessary, is hereby appropriated, out of any moneys in the Treasury not otherwise appropriated, towards carrying out the purposes of this act.

BILLS INTRODUCED.

H. R. 11000, Breckenridge. That Sec. 1189 of the Revised Statutes be amended so as to read as follows: The Army shall be paid in such manner that the arrears shall at no time exceed two weeks unless, in the judgment of the Secretary of War or commanding officer of a department, the circumstances render further arrears unavoidable.

H. R. 10957, T. J. Campbell. That on and after the first day of July, 1887, judges of the Supreme Court of the United States, the Secretary of State, the Secretary of the Treasury, the Secretary of War, the Attorney-General, the Postmaster-General, the Secretary of the Navy, and the Secretary of the Interior shall each be entitled to receive an annual salary of $15,000.

H. R. 11003, Henley. To authorize an additional appointment on the retired list of the Army, that of George Stoneman, late a Major-General and Colonel of the Army, to the position of Colonel in the Army of the United States, of the same grade and rank held by him at the time of his resignation.

H. R. 11004, Milliken. Provides that the marriage of a soldier who died on account of wounds or disease incurred in the Military Service of the United States, whenever his wife or widow has or shall have died leaving no children, shall not be a bar to his dependent or destitute parents receiving a pension, under the provisions and subject to the limitations of the pension laws.

H. R. 11026, McAdoo. That the sum of twenty million dollars is hereby appropriated to be expended under the direction and control of the Secretary of the Navy and War Departments in the construction and manufacture of modern first-class ordnance for the use of the Navy of the United States and for sea-coast fortifications and defences, and all other defences.

Sec. 2. That the said Secretaries shall call together a board of officers from the joint service, and two civilians, not to exceed in all six in number, who shall advise with the Secretaries as to the quality, kind, and number of guns that should be immediately manufactured. That said Secretaries are hereby empowered to enter into contract, if deemed best for the interest of the Government, for the manufacture of said guns or any part thereof; such contracts to be given to the lowest bidder, and after due advertisement, and on the same conditions as are applicable to the contracting for the new vessels of the Navy, as provided for in the act approved August 3, 1886.

Sec. 3. That the said Secretaries shall report to every session of Congress, on the first day of such session, a full, minute, and detailed account of every step taken and all things done or contemplated to be done under this act.

Sec. 4. That said guns shall be of American manufacture.

HORSES FOR OUR CAVALRY.

A CORRESPONDENT of the New York *Sun* quotes W. W. Davis, of Rapid City, Dakota—a frontier newspaper man who has visited most of the Army posts east of the Rockies—as saying: "There is scarcely a good horse in the Army. The universal complaint which cavalry men make about their mounts is that the horses can't keep up on their feed."

This Davis ascribes to the purchase of doctored horses, which, he thinks, "is shown by the fact that ten per cent. of all horses purchased are condemned as unfit for use on arrival at the Western posts. The journey West gives the animals time to get rid of the effects of the drugs. The rest of the horses can be used, but they are not at all well fitted for the service for the reason that they have not been raised properly. They are grain-fed, while cavalry horses out here must live as the cattle do on the ranges—they must rustle. In actual service they get nothing but grass. Like other tenderfeet, they lose courage the minute the grub gets short. In a few days' hard riding it is no uncommon thing to see sixty or seventy led horses following a command. They have given out, bushed. The Army could not catch the Apaches because the Apaches had better mounts; besides, their horses did not have to carry such loads—in all, about 300 lbs."

"What is the remedy?" Davis was asked. "Do you think mustangs should be purchased?"

"No. Good grass-fed horses can be purchased, but I understand that a movement is on foot to establish Government stud farms for breeding horses for the service. The idea is not new. The French Government maintains four such farms. When Maximilian came over to conquer Mexico he brought a lot of Government-bred horses, and many of them were left behind at the exodus. Down in Durango, Mexico, the range horses have been immensely improved by crossing with these horses brought over by the Frenchmen. There are some objections to the proposed innovation, but it would produce a class of horses well adapted for the service instead of the present worthless lot of animals that United States cavalrymen have to use. Whether practical or not, this scheme will be pushed. If it doesn't pan out, then some way of getting grass-fed or range horses should be devised."

ABANDONING FORT RIDGELY.

ADJUTANT GENERAL KELTON has given an interesting reminiscence of how the Government happened to abandon Fort Ridgely, in Minnesota. In 1862 Kelton was then a lieutenant on duty in Minnesota. The Government had erected a fort, and the various necessary buildings, and called it Fort Ridgely. By some oversight Congress had neglected to make a military reservation. Under the eye of the law it was part of the public domain. Now there was a very sharp post trader there who simply entered a claim for the quarter section of land upon which the fort stood, amounting to 160 acres. He prepared to take possession, and coolly offered to sell the Government its own property back again for $25,000. About this time Secretary Stanton took a hand and had the post trader arrested and sent to the Old Capitol Prison in Washington. The trader was stubborn, however, and Stanton was obliged to release him. The Secretary of War, however did not propose to allow the trader to force the Government to buy the property, so he abandoned the fort and left it in his hands. This is the only instance where the Government has been asked to buy one of its own forts.

LATE ARMY ORDERS.

Leave for four months is granted Capt. Louis Brehemin, assistant surgeon; Maj. Jos. Belger, Capt. Gaines Lawson, 25th Inf.; 1st Lieut. A. B. Johnson, 7th Inf., A. D. C., and 1st Lieut. T. B. Briggs, U. S. A., are admitted to the Army and Navy Hospital at Hot Springs.

A Board of Survey to consist of Capt. Wm. B. Beck, 1st Lieuts. David D. Johnson and Samuel E. Allen, 5th Art., will assemble at Governor's Island, N. Y. H., on Feb. 5, to fix the responsibility for, the death of one public horse, for which Capt. James H. Lord, A. Q. M., is responsible. (S. O. 25, Div. Atlantic, Feb. 4.)

A. G. C. M. will meet at Madison Barracks, N. Y., on Feb. 7. Detail: Capts. Harry C. Egbert and John M. Norvell, 12th Inf.; Capt. Edwin F. Gardner, asst. surg.; Capts. David J. Craigie and James Halloran, 1st Lieuts. Augustus G. Tassin and Frederick Von Schrader, 2d Lieuts. Chas. W. Abbot, Jr., Benj. A. Poore, Walter H. Gordon, Geo. J. Godfrey and David J. Baker, Jr., 12th Inf., J. A. (S. O. 25, Div. Atlantic, Feb. 4.)

COMMANDER R. D. EVANS, inspector of steel for the new vessels, has made the following assignments of the officers detailed to assist him; Lieut. Commander Very and Ensign Rohrbacher, at Pittsburg; Lieuts. Coffin and Carpenter Rigby, at Phœnixville; and Lieut. Cowles at Steelton.

THE following Army officers are registered at the office of the Adjutant General: Capt. John C. White, retired; 1st Lieut. B. K. Roberts, 5th Art.; 2d Lieut. J. B. Bellinger, 5th Cav.; Lieut. Col. A. L. Hough, 16th Inf.; 2d Lieut. H. Deff. Waite, 5th Cav.; 2d Lieut. W. F. Hancock, 5th Art.; Capt. Melville C. Wilkinson, 3d Inf.; 2d Lieut. L. D. Tyson, 9th Inf.

RELATIVE PROSPECTS FOR PROMOTION.

ACCOMPANYING the Senate Military Committee's favorable report on the bill for a reorganization of the Adjutant General's Department is the following table, compiled by the Assistant Adjutant Generals on duty at the War Department, showing the relative prospects of majors in the several staff departments and line of the Army, respectively, based upon the present organization:

Staff, Corps, Department or Arm of Service.	Colonels.....	Lieut. Colonels...	Total Colonels and Lt. Colonels....	Majors	Relative prospects for rapid promotion of Majors, proportioned according to the number of Colonels and Lieutenant Colonels whose vacancies would cause promotion.
Adjutant General's Dept.	2	4	6	10	.60
Inspector General's Dept.	2	2	4	2	2.00
J. A. General's Dept. ...	1	4	5	3	1.66
Q. M. Dept.....	4	8	12	14	.86
Sub. Dept.....	2	3	5	8	.62
Med. Dept.....	6	10	16	50	.32
Pay Dept.....	2	3	5	42	.12
Eng. Corps.	6	12	18	24	.75
Ord. Corps.....	3	4	7	10	.70
Cavalry.....	10	10	20	30	.67
Artillery.....	5	5	10	5	2.00
Infantry.....	25	25	50	25	2.00

It will be remembered that in the Medical Department the officers *enter* as *1st Lieutenants*, and become Captains after 5 years' service, and that in the Pay Department the majority of the officers are appointed from civil life and all are Majors at the start. In this last department the prospect for promotion will be proportionately increased when the number of Majors (42) is reduced to the requirements of law (29). Furthermore, there is a provision of law that officers of the Pay Department, unlike any other officers in the Army, can be retired after twenty years' service. Officers of the Engineer Corps and Ordnance Department, after fourteen years' service as Lieutenants, are entitled to promotion to the rank of Captain.

LEGISLATION FOR THE ARMY.

UNDER the skillful management of Gen. Bragg the House at the evening session, Feb. 1, which was specially held for the consideration of business from the Military Committee, passed forty-seven measures, some of them of considerable importance to the Army. Some opposition having developed to the two Senate bills, No. S. R. 78, for the acceptance of the Chicago military site, and S. 1490, to amend Article of War 103, to increase the efficiency and reduce expenses of the Army, they were withdrawn without being brought to a vote. The provisions cutting off longevity pay of retired officers and providing for the tattooing of deserters were the chief obstacles in the way of the passage of the last mentioned bill, and it was the opposition to them that prompted Gen. Bragg to withdraw the bill. Among the bills passed were the following:

H. R. 8331. *Be it enacted, etc.*, That when any officer of the Army or of the Navy has been lawfully retired from active service, and such officer has a wife, or a child or children under age, or both wife and child or children, and shall refuse or neglect to provide for the same, the Secretary of War, if such officer belong to the Army, or the Secretary of the Navy, if he belong to the Navy, may apportion the pay and allowances of such officer between him and his wife and child or children, as he shall deem just and equitable, and pay over the same accordingly to him, her, or them.

H. R. 7819. *Be it enacted, etc.*, That assistant surgeons of the Army appointed under the act approved by July 28, 1886, who have served 20 years, shall be nominated and, by and with the advice and consent of the Senate, appointed to the office of surgeon with the rank of major; and said service shall be estimated as is now done in computing service for longevity pay, except that service under present commission shall be counted from the date of said commission: *Provided*, That no such assistant surgeon shall be promoted unless he has been examined and found qualified for promotion by a duly constituted examining board in accordance with existing law: *And provided further*, That the whole number of officers in the Medical Department shall not be increased by this act.

H. R. 6758. *Be it enacted, etc.*, That the President of the United States is hereby authorized and empowered, at his discretion, to nominate and, by and with the advice and consent of the Senate, to appoint to brevet rank all officers of the Army now on the active or retired list who have been recommended for brevet rank by their commanding general for gallant service in action against hostile Indians since Jan. 1, 1867.

H. R. 10804. *Be it enacted, etc.*, That the Adjutant-General's Department of the Army shall consist of one Adjutant-General, with the rank, pay and emoluments of Brigadier-General; four assistant Adjutants-General, with the rank, pay and emoluments of Colonel; six assistant Adjutants-General, with the rank, pay and emoluments of Lieutenant-Colonel; and six assistant Adjutants-General, with the rank, pay and emoluments of Major: *Provided*, That the vacancies in the grade of Colonel and Lieutenant-Colonel created by this act shall be filled by the promotion by seniority of the officers now in the Adjutant-General's Department.

S. 1154, to authorize the city of Newport, R. I., to use the site of Fort Greene as a public park.

H. R. 4426, for the construction of a military telegraph line from Sanford to Point Jupiter, Fla.

H. R. 8030, to credit Dakota Territory with certain sums for ordnance and ordnance stores.

S. 2477, appropriating $100,000 for a new military post near Denver, Col.

S. 1119, to organize the Hospital Corps of the Army.

H. R. 7209, appropriating $25,000 to improve the road leading to the Richmond National Cemetery.

H. R. 2075, appropriating $100,000 for the erection of a Volunteer Soldiers' Home on the Pacific slope.

H. R. 9339, granting right of way for railroad purposes through Fort Whipple military reservation.

H. R. 10048, granting right of way for railroad purposes through Fort Meade military reservation.

S. 388, granting right of way for railroad purposes through Fort Bliss military reservation.

H. R. 2208, to deliver to rightful owners contents of certain boxes captured during the late war.

H. R. 10790, authorizing the President to return the Twigg swords.

H. R. 798, to confirm the status of Lieut. Stephen O'Conner as 2d Lieutenant of the 23d Inf.

H. R. 1086, relating to the purchase of arms for the use of the States.

H. R. 1173, to correct an error in the commission of Capt. Edmond G. Fetchel, 8th Cav.

H. R. 9005, to relieve Wm. C. Spencer, late Capt. 17th Inf., from any pecuniary liability to the U. S.; to reappoint Alfred Hedberg, late Capt. 15th Inf., to the first vacancy of his grade occurring in the Infantry arm; and a number of private bills for the relief of Volunteer officers and soldiers.

These bills were passed without discussion, and, with but few exceptions, in the same form as recommended by the committee. As many of them are likely to pass the Senate, and thereby become laws, this session, we give the text of the more important ones. The Senate bill for the relief of the hospital stewards, with the committee's amendments, was published in the JOURNAL of Jan. 22. The only changes made in the bill as passed were the reduction of pay to hospital stewards of from $50 to $45, and of privates of the hospital corps of from $15 to $13 per month. The former amendment was adopted on motion of Mr. Steele and the latter on motion of Gen. Bragg.

The bills reached the Senate on the following day, and were all referred to the Military Committee, with the exception of the Senate bill for the establishment of a military post near Denver, Col., which goes to the President for his approval, and the House bill for the reorganization of the Adjutant General's Department, which was laid on the table, a Senate bill of the same purport having already been reported from the committee. There is no doubt about the final passage of this bill.

McCLELLAN'S OWN STORY.

THE N. Y. *Evening Post* has an exhaustive review of McClellan's Own Story, in the course of which it says:

Three questions are definitely raised by himself as the central ones in his public life: Did the Administration and the party in power endeavor to force him into premature movements? Did they afterwards withhold the means necessary to achieve success? And did they do this knowingly and wickedly, being "treasonably" willing to involve the country in ruin if they might thereby ruin him? If this issue had not been thus tendered in the additions to the book written since 1881, it would seem incredible that any intelligent person could, at this distance from the war and its passions, hold any such opinion. . . . As a military man McClellan must have known that not a single writer upon our military history, of any repute whatever, thinks or believes that the supposed state of the case assumed by him when he penned his report of 1863, was the true one. The facts, as he believed them then, and as we know them now, differ in such essential particulars that arguments which were plausible then are now worthless. It is worse than blindness to repeat the old accusations and the old justifications, without acknowledging or showing any sign of recognition of the truth that his assumed facts are essentially wrong.

The Comte de Paris is quoted as showing that McClellan attributed to Johnston in the middle of October, 1861, "an effective force of 150,000 men, whereas, in reality, at the close of the month, it counted but 66,243 men in all, of whom but 44,131 were in active service (*sous les drapeaux*)." The same author gives McClellan's force on the 15th of October as 133,201, and the official reports state the number present for duty as 147,695. The *Post* says of this:

Is it conceivable that, twenty years afterwards, the General of that great army should write his "Own Story," and yet not show even consciousness that such questions had been asked, though he aggravates the form in which he charges every one with dishonorable and unpatriotic motives who condemn his delays? Could he be ignorant that officers of that army, like Gen. Webb, who had tossed their caps for him with as great enthusiasm as ever greeted him when he rode through the camps, had been forced when sitting down to write history, to declare the truth to be that the hypothesis in our long list of questions were facts, and that the "ifs" might be discarded. * * * McClellan knew that those who had investigated the subject since the close of the war were nearly unanimous in taking the views of the facts thus indicated. Yet in regard to the Peninsular campaign, as in reference to the preceding delay in the lines at Washington, he wholly ignores the vital question of the Confederate strength, except as he republishes with little change the strange estimates he made when the campaign was in progress. By what mental process he could conclude that a more injurious form of charging criminal intentions upon the Government would supply the place of intelligent discussion of these central facts, we try in vain to discover.

Just after McClellan's assignment to command the Division of the Potomac, July 27, 1862, he sent to Scott the manifesto, in which he put on record a warning that he was in command of an inferior force and that there was imminent danger that the Confederates would attack Washington. Of this the *Post* says:

Scott immediately felt it to be one of the common devices by which an ambitious subordinate seeks to entrench himself at the expense of his superior, and sent it to the Secretary of War with some caustic comments. If, now, the enemy's force was in fact less than 40,000, and, after waiting three weeks for the initiative the enemy would not take, the President, Cabinet, and Gen. Scott began to insist upon something being done on our side, and McClellan would not hear of anything but the defensive, is it strange Scott should "raise a row with me"? And yet McClellan writes his "Own Story" without reference to the question of the actual force of the Confederate Army at that time, according to present evidence. . . . Beauregard and Johnston have published their memoirs, and show that they knew the superiority of McClellan's force and had no thought of attacking Washington. In this controversy, then, we are driven to conclude that Scott was right and McClellan was wrong. Yet the latter adhered to his illusion, and grew contemptuous in his treatment of the old General, whose judgment was the better one. . . . On Nov. 30, his official report showed his force "present for duty" 162,727, with 248 pieces of field artillery and 133 heavy. If, when he wrote his "Own Story," he had any evidence to show that the enemy at this time exceeded 50,000, it has not been given to the world. The analogy of the situation when he was preparing the "paper" mentioned, with that when he was similarly "making up a record" against Gen. Scott three months earlier, will strike the most casual reader.

GETTYSBURG AND METZ.

DURING the Franco-Prussian war I kept a map of the field of operations with colored pegs, that were moved from day to day to indicate the movements of the two armies. Bazaine had been driven to shelter at Metz. McMahon had been driven back to the route leading from Paris to Metz and seemed in doubt whether he would go to Paris or to Bazaine's relief. He suffered himself to be forced north of the route between these points. On the morning that the wires brought us that information, two or three of the French Creoles of New Orleans visited my office to inquire my views of the movements then proceeding. I replied, "McMahon's army will be prisoners of war in ten days." They were very indignant, and stated that I was a Republican and in sympathy with the Prussians. My reply was that I had only given them my solution of a military problem. The Prussians were on the shorter route to Paris or to Metz, so that if McMahon should attempt to move in either direction the Prussians, availing themselves of the shorter lines, would interpose and force McMahon to attack, but he had already been so beaten and demoralized that he could not be expected to make a successful attack, and would therefore be obliged to surrender. If he had gone directly to Paris before giving up the shorter route, it is possible that he could have organized a succoring army for the relief of Metz.

Had we interposed between Meade and Washington our army in almost as successful prestige as was that of the Prussians, Meade would have been obliged to attack us wherever we might be pleased to have him. He would have been badly beaten like the French, and the result would have been similar.

I do not mean to say that two governments would have been permanently established; for I thought before the war, and during its continuance, that the peoples would eventually get together again in stronger bonds of friendship than those of their first love.—*General Longstreet, in the February Century.*

SUNDRY CIVIL BILL.

THE Sundry Civil bill, as passed by the Senate this week, contains the following items of interest to the Army and Navy which have been added to the bill since it left the House:

For the expenses of a preliminary reconnaissance, to be made under the direction of the Secretary of the Navy, to examine the configuration of the conventional boundary line between Alaska and British Columbia, $50,000. To readjust the space in the State, War, and Navy building so as to provide for the Quartermaster-General's office, the Commissary-General, and also for the most economical distribution of the space among the several bureaus of the Army and Navy. For the construction and improvement of suitable roads and bridges in Yellowstone Park, under the supervision and direction of an engineer officer detailed by the Secretary of War for that duty. For improvements at Rock Island Arsenal, $8,000. For the erection of a new fireproof milling shop at the Springfield Arsenal, $20,000. For brick annex to Army Medical Museum building. Under the section of the bill making provision for the Signal Corps, amendments were adopted applying the mileage law as contained in the Army Appropriation bill, recently passed, to officers of the corps. The amount for commutation of quarters to officers of the corps has been increased from $23,680 to $24,140; for subsistence fund, from $18,000 to $51,243; for commutation of fuel to enlisted men, from $45,000 to $47,760; for transportation, from $6,000 to $8,000, and for commutation of quarters to enlisted men from $84,000 to $85,440.

THE WASHINGTON ORDNANCE YARD.

SHORTLY after 4 o'clock on the afternoon of Jan. 29, fire broke out through the skylights on the roof of the ordnance machine shop of the Washington Navy-yard. The yard fire department, reinforced by four engines from the city, soon checked the progress of the flames and confined them to the loft of the machine shop. In this loft were stored the drawings and casting patterns of about 3,000 guns and carriages. Some few of the patterns were completely destroyed, but the drawings were uninjured except by water. The records and the library were removed uninjured from the building at the first alarm. The floors and machinery were but slightly damaged, the latter principally by water. The origin of the fire is unknown. The loss is estimated at $15,000.

The recent fire at the Washington Ordnance Yard failed to do much damage, and missed the opportunity of doing a great deal of good. Setting aside the injury to a few of the smaller guns in process of assembling in the shop where the fire occurred, a great benefit would have been conferred upon the Government in the end had the whole building been reduced to ashes. The structure is lamentably deficient in conveniences for the assembling of future construction of improved ordnance appliances; it is badly planned, and has an insecure foundation, so that it cannot be improved in either size or efficiency. The land occupied by this building would be of more value to the Government as a vacant lot than in its present encumbered condition. It is encouraging to note, however, in this connection, that Civil Engineer Menocal has about perfected plans for more than doubling the present capacity of the huge anchor forge shop and its parallel machine shop, for ordnance purposes, and it is likely that by midsummer a great stride will have been made toward transforming this yard into an ordnance factory in deed as well as in name. The prospective modern United States Navy will test the capacity of this yard to its utmost, as it is well known that the battery of a modern war vessel requires about as long to build as is needed for the ship. Liberal appropriations economically expended for a period of years will ensure to the great Republic first-class ships protected by first-class guns of American manufacture.

An Ordnance Yard is to be at once made by throwing a roof over the street dividing the machine and anchor shops at the Navy-yard and connecting them all. The roof will be 70 feet high, and when completed the shop will be 400 feet long by 320 feet wide. Large cranes will be erected for lifting the heavy guns. The estimated cost is $80,000. As soon as the board of officers appointed to inquire into the needs of the yard make their report, the appropriation of $1,000,000 will become available, and the work will be pushed to an early completion.

MEXICAN PENSION BILL.

THE Commissioner of Pensions, in a communication to Congress, states that the probable number of surviving enlisted men of the classes described in the Mexican pension bill is 34,748 and the probable number of widows, 13,826. The amounts which will be required for making the first annual payment is $4,663,104, which the Commissioner requests be made immediately available. He also says that to dispose of the work created by the bill before June 30 next will require an additional clerical force of one assistant chief of division, at $1,800; fifteen section clerks, at $1,400 each; 150 clerks of class one, at $1,200 each; fifteen record clerks at $1,000 each; thirty-five clerks at $1,000 each, and five messengers, making an aggregate increase in the force of 221 employees, and an addition to the payroll of $257,000.

ASST. SURG. HORACE B. SCOTT, having served three years in his present grade, will be examined for promotion in a few days.

THE ARMY.

ARMY NOMINATIONS TO THE SENATE.

January 31, 1887.

Ordnance Department.—Lieutenant Colonel James M. Whittemore to be Colonel, January 3, 1887, vice McAllister, deceased.

Major Francis H. Parker to be Lieutenant Colonel, January 3, 1887, vice Whittemore, promoted.

Captain John A. Kress to be Major, January 3, 1887, vice Parker, promoted.

February 4, 1887.

1st Infantry.—Captain Edw. Moale, 3d Inf., to be Major, February 1, vice Collins, promoted to 7th Infantry.

3d Infantry.—1st Lieutenant John W. Hannay, to be Captain, February 1, vice Moale, promoted to 1st Infantry.

7th Infantry.—Major Edward Collins, 1st Infantry, to be Lieutenant-Colonel, February 1, vice Chipman, retired.

Corps of Engineers.—1st Lieutenant Walter L. Fisk, to be Captain, January 10, vice Adams promoted.

2d Lieutenant Cassius E. Gillette, to be 1st Lieutenant, January 10, vice Fisk, promoted.

2d Lieutenant Charles L. Potter, 5th Cavalry, to be 2d Lieutenant, February 1, vice Gillette, promoted.

CIRCULAR 1, H. Q. A., Feb. 3, 1887.

The following decisions, rulings, etc., have been made during the month of January, 1887, and are published to the Army for the information of all concerned:

PAYMENT OF FEES FOR ADMINISTERING OATHS.

The expenses incurred for affidavits to contracts made by the Subsistence Department will be paid as heretofore from subsistence funds. The decision on this subject, published in Circular, No. 9, of 1886, from this office, is modified accordingly.—(Decision Sec. War—7037 A. G. O., 1886.)

EXTRA DUTY PAY TO ENLISTED MEN OF ORDNANCE.

The decision of the Secretary of War of November 5, 1886, published in Circular No. 11, of December 6, 1886, is modified to read as follows:

Under the provisions of the Army appropriation bills for the fiscal years ending June 30, 1885, 1886 and 1887, extra-duty pay under either the Quartermaster's or Subsistence Departments may be paid to enlisted men of ordnance as to other enlisted men. (Decision Sec. War—A. G. O., E. B., 1886.)

BONDS OF ARMY OFFICERS.

When a bonded officer of the Army files a new bond, which is approved by the Secretary of War, the old bond runs to the date of approval of the new bond and covers disbursements made prior to that date, and the new bond takes effect from the date of its approval by the Secretary. This does not apply to a bond given for a term of years. (Decision Sec. War, Jan. 20, 87—A. G. O., 1887.)

CLOTHING.

Inasmuch as Circular No. 1, of 1885, from this office, allowing two dollars to each enlisted man of infantry for altering his uniform dress-coat and trousers, was construed to include General Service men, they will not be required to refund the allowance paid them under that circular. (Decision Sec. War, letter Jan. 22, 1887—A. G. O., 1886.)

EMPLOYMENT OF ENLISTED MEN AS OPERATORS ON PRIVATE TELEGRAPH LINES.

Congress has authorized additional pay to soldiers employed as artificers, laborers, etc., but it seems manifest that such provision was intended only to cover their employment in the military service. No law is known which would authorize the operation by the military authorities of a line of telegraph not belonging to the United States. Certainly there is no law which authorizes the detachment of enlisted men from their legitimate military duties and their employment as agents of a private corporation.—(Decision Sec. War, letter Jan. 22, 87—5776 A. G. O., 1886.)

CLOTHING.

It being desirable that all obsolete coat facings, chevrons ann stripes be turned into depots for any use for which they may be found suitable under paragraph 1389 of the Regulations, inspectors will be governed accordingly in all cases where such articles are presented to them for inspection, in order that uniformity of action may be observed. (Decision Lieut.-Gen., letter Jan. 27, 1887—A. G. O., 1887.)

EMPLOYMENT OF ENLISTED MEN FOR DUTY AS GROOMS.

Enlisted men detailed on extra duty should not be employed in the care of officers' private horses. (Decision Lieut.-Gen., letter Jan. 27, 1887—A. G. O., 1887.)

By command of Lieutenant General Sheridan:

R. C. DRUM, Adjt.-Gen.

CIR., WAR DEPARTMENT, A. G. O., Jan. 28, 1887.

States that the amount of U. S. bonds now held in trust by the Treasurer of the U. S. to secure public deposits in the Gate City National Bank, of Atlanta, Ga., is $100,000—an increase of $40,000.

G. O. 3, DEPT. OF ARIZONA, Jan. 15, 1887.

The undersigned hereby resumes command of the Department.

NELSON A. MILES, Brigadier General.

STAFF CORPS AND DEPARTMENTS.

Quartermasters and Subsistence Departments.

Leave of absence for twenty days is granted Col. Marcus D. L. Simpson, Asst. Commissary Gen. of Sub., Chicago, Ill. (S. O. 15, Feb. 2, Div. Mo.)

Adjutant and Inspector Generals.

The leave granted Lieut. Col. Wm. D. Whipple, A. A. G., is extended one month (S. O., Feb. 1, H. Q. A.)

Pay Department.

Major Daniel N. Bash, Paymr., Dept. of Texas, will proceed to Cheyenne Depot, Wyo. Ty., and report for duty at that depot, relieving Major Wm. E. Creary, Paymr., who will await orders in the Dept. of the Platte (S. O., Jan. 31, H. Q. A.)

Medical Department.

Leave of absence for twenty days is granted Capt. Norton Strong, asst. surg. (S. O. 9, Jan. 27, D. Ariz.)

1st Lieut. Charles C. Barrows, asst. surg., is relieved from duty at Fort Marion, Fla., and will proceed to Fort Barrancas, Fla., and report for temporary duty as post surgeon (S. O. 24, Feb. 3, Div. Atlantic).

Leave for two months, to take effect when his services can be spared, is granted Capt. Junius L. Powell, asst. surg. (S. O., Jan. 29, H. Q. A.)

Asst. Surg. A. W. Taylor will accompany the troops from Camp Medicine Butte to Fort D. A. Russell (S. O. 9, Jan. 29, D. Platte).

1st Lieut. Paul Clendenin, asst. surg., Fort Davis, will proceed to Camp Pena Colorado, Tex., and report for duty to relieve A. A. Surg. A. L. Buffington, as post surgeon, who will proceed to Fort Davis, Tex., and report for duty (S. O. 14, Jan. 26, D. Tex.)

Hospl. Steward Richard Dare, Fort Davis, will proceed to Camp Del Rio, and report for duty, relieving Hospl. Steward Jacob H. Appel, who will proceed to Fort Davis, and report for duty (S. O. 14, Jan. 26, D. Texas).

Hospl. Steward John J. Swan, now at Vancouver Barracks, W. T., is relieved from duty in the Dept. of Columbia (S. O. 12, Jan. 18, D. Columbia).

Engineers and Ordnance Departments.

Major Charles J. Allen, C. E., will proceed to Afton, Minn., on duty connected with works under his charge (S. O. 16, Jan. 28, C. E.)

Col. George H. Mendell, C. E., will proceed to Portland, Oreg., and the Cascades (S. O. 15, Jan. 27, C. E.)

Lieut. Wm. M. Black, C. E., will proceed to Caloosahatchee River, Fla., on duty connected with works under his charge (S. O. 15, Jan. 27, C. E.)

Leave for one month is granted Capt. Edward Maguire, C. E. (S. O. 17, Jan. 31, C. E.)

Capt. Wm. T. Rossell, C. E., will proceed to Leland Landing, Ark., thence to Arkansas City, Ark., Vicksburg, Miss., and Wilson's Point, La., on duty connected with works under his charge (S. O. 17, Jan. 31, C. E.)

The leave for sixteen days granted 1st Lieut. Eugene J. Spencer, C. E., is extended three days (S. O. 19, Feb. 2, C. E.)

Capt. Daniel W. Lockwood, C. E., will proceed to the harbor at Michigan City, Ind., on duty connected with works under his charge (S. O. 18, Feb. 1, C. E.)

The travel performed by Major Wm. H. Heuer, C. E., from New Orleans, La., to Fort Pike, La., and return, after Jan. 25, on public business, is approved (S. O., Feb. 2, H. Q. A.)

Major Jared A. Smith, C. E., will proceed to Fort Constitution and to the battery at Jerry's Point, N. H., on public business (S. O., Feb. 1, H. Q. A.)

Capt. Charles S. Smith, Ord. Dept., will proceed to Sandy Hook, N. J., on public business (S. O., Feb. 1, H. Q. A.)

Capt. John G. Butler will proceed from Springfield, Mass., to the Colt's Patent Fire-arms Manufacturing Co.'s Works, Conn., on public business, and on the completion thereof will rejoin his station (S. O., Feb. 2, H. Q. A.)

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., B, D, E, G, and K, Ft. Custer, Mont.; A and C, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; F, H, and L, Ft. Assiniboine, Mont.; M, Camp Sheridan, Wyo.

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Coeur d'Alene, Idaho.

The extension of leave granted 1st Lieut. Charles F. Roe is still further extended twenty days (S. O., Jan. 29, H. Q. A.)

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex.; G, Camp at Eagle Pass, Tex.; E, Camp Rice, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott, Tex.

The transfer of 2d Lieut. C. N. Clinch from the 24th Inf. to the 3d Cav., and of 2d Lieut. W. L. Simpson from the 3d Cav. to the 24th Inf., is announced. Lieut. Simpson will join his company at Fort Sill (S. O., Jan. 31, H. Q. A.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, F, H, and K, Ft. Huachuca, Ariz.; A and E, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; L, Ft. Stanton, N. M.; M, Ft. McDowell, Ariz.

Major H. E. Noyes is relieved from duty on Board for inspecting and purchasing cavalry horses (S. O. 8, Jan. 24, D. Ariz.)

Major E. J. Spaulding is detailed member of Board for inspecting and purchasing cavalry horses (S. O. 8, Jan. 24, D. Ariz.)

2d Lieut. F. B. Fowler will proceed to San Carlos, A. T., and report to Capt. F. E. Pierce, 1st Inf., in charge of police control of White Mountain Indian Reservation at San Carlos, A. T., for special duty (S. O. 8, Jan. 24, D. Ariz.)

7th Cavalry, Colonel James W. Forsyth.

Hdqrs. B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

Leave for three months on account of sickness is granted 1st Lieut. John C. Gresham (S. O., Jan. 28, H. Q. A.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; D, Camp Del Rio, Tex.; E, F, G, K, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

1st Lieut. J. H. King, on being relieved in command of the Seminole Negro-Indian Scouts at Nevill's Springs, will join his troop at Fort Clark (S. O. 13, Jan. 25, D. Tex.)

9th Cavalry, Colonel Edward Hatch.

1st Lieut. George R. Burnett, on leave at Lafayette Hill, Penn., will report to the C. O. Columbus Barracks, O., to conduct recruits for the 8th Inf. to the Dept. of Platte (S. O., Jan. 31, H. Q. A.)

1st Lieut. Philip P. Powell is relieved from duty as member of the G. C.-M. at Jefferson Barracks, Mo. (S. O., Jan. 31, H. Q. A.)

A furlough for four months is granted Sergt. George Washington, Troop M (S. O. 13, Jan. 28, Div. M.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T.; D, San Carlos, A. T.; A and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B, C, and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

Col. B. H. Grierson is relieved from duty on Board for inspecting and purchasing cavalry horses (S. O. 8, Jan. 24, D. Ariz.)

1st Lieut. M. M. Maxon, R. Q. M., is detailed member, in addition to his duties as A. A. Q. M., of the Board for inspecting and purchasing cavalry horses (S. O. 8, Jan. 24, D. Ariz.)

2d Lieut. J. B. McDonald is relieved as Inspector of Indian supplies (flour, beef, and beans), at the San Carlos Indian Agency, and 2d Lieut. Seward Mott is detailed in his stead (S. O. 9, Jan. 27, D. Ariz.)

The journey performed by Col. B. H. Grierson from Fort Grant, A. T., to Santa Fe, N. M., via El Paso, Tex., in complying with G. O. 35, series of 1886, was necessary for the public service (S. O. 9, Jan. 27, D. Ariz.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.

* Light battery.

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Atlanta, Ga.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.

* Light battery.

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., A, B, C, D, E, F, G, H, I, and K, Ft. Omaha, Neb.

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Cœur d'Alene, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

The C. O. Fort Spokane will grant a furlough for six months to Sergt. William H. Tabb, Co. A (S. O. 12, Jan. 18, D. Columbia.)

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, D, F, and H, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.; C and K, Ft. McKinney, Wyo.

The leave granted Capt. Charles A. Coolidge, Fort Laramie, Wyo., and further extended ten days, is still further extended one day (S. O. 14, Jan. 31, Div. M.)

The retirement from active service, Feb. 1, by operation of law, of Lieut.-Col. Henry L. Chipman, is announced (S. O., Feb. 1, H. Q. A.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

2d Lieut. Bertram T. Clayton is detailed on Rec. Service at Fort Bennett, D. T., vice Capt. Albert L. Myer, relieved (S. O. 8, Jan. 26, D. Dak.)

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

The extension of leave granted 2d Lieut. Henry C. Cabell, Jr., is further extended two months (S. O., Jan. 31, H. Q. A.)

The extension of leave granted 2d Lieut. Alfred Hasbrouck, Jr., is further extended two months, with permission to go beyond sea (S. O., Jan. 31, H. Q. A.)

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

1st Lieut. Alexis R. Paxton will proceed to David's Island, N. Y. H., and report for temporary duty (S. O. 13, Jan. 22, R. S.)

The leave granted 2d Lieut. Leon S. Roudiez is extended six days (S. O., Jan. 31, H. Q. A.)

The C. O. Fort Randall, D. T., will grant a furlough for two months to 1st Sergt. Michael Giltenan, Co. C (S. O. 8, Jan. 26, D. Dak.)

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; B, Camp Medicine Butte, Wyo.; H, Ft. Bridger, Wyo.

Co. B, on abandonment of Camp Medicine Butte, Wyo., will take station at Fort D. A. Russell (S. O. 9, Jan. 29, D. Platte.)

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Ks.

A G. C.-M. will meet at Fort Leavenworth, Jan. 27, for the trial of 2d Lieut. Peter Campbell, 18th Inf. Detail: Major Thomas Wilson, Sub. Dept.; Capts. J. P. Schindel, 6th Inf.; W. A. Rafferty, 6th Cav.; T. J. Lloyd, 18th Inf.; C. A. Woodruff, 2d Art.; Francis Moore, 9th Cav., and J. B. Babcock, 5th Cav.; 1st Lieuts. R. M. Rogers, 2d Art.; F. H. Barnhart, 18th Inf.; W. L. Finley, 9th Cav., and Hamilton Rowan, 2d Art., and 1st Lieut. A. L. Wagner, 6th Inf., J.-A. (S. O. 9, Jan. 24, Dept. M.)

Leave for ten days is granted 1st Lieut. G. L. Turner, Adjt. (S. O. 10, Jan. 26, Dept. M.)

Leave for twenty days is granted 2d Lieut. G. W. Martin (S. O. 11, Jan. 27, Dept. M.)

FORT LEAVENWORTH, KAS., Jan. 28, 1887.

Orders No. 17.

I. The Colonel commanding announces with deep regret the death yesterday, the 27th inst., of 2d Lieut. Peter Campbell, 18th Inf., the result of cerebral hemorrhage from a pistol wound. The funeral will take place with the usual military honors today at 3.30 P. M. 2d Lieut. William J. Pardee, 18th Inf., will command the escort, and the following named officers will act as pall-bearers: 1st Lieuts. Harry Reade, 25th Inf., and Charles H. Cabaniss, Jr., 18th Inf.; 2d Lieuts. R. M. Blatchford, 11th Inf.; W. Y. Stamper, 21st Inf.; J. M. Arrasmith, 2d Inf., and R. H. Anderson, 9th Inf.

. . . . . .

By order of Colonel McCook:

B. A. BYRNE, 1st Lieut., Adjt. 6th Inf., and Post.

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

1st Lieut. T. H. Eckerson is assigned to duty with the Seminole Negro-Indian Scouts, and will proceed to Nevill's Springs so as to reach there not later than Feb. 14, and relieve Lieut. J. H. King, 8th Cav., in command of them (S. O. 13, Jan. 25, D. Tex.)

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

The ration of bread at Fort Mackinac, Mich., is

increased to twenty ounces until further orders (S. O. 21, Jan. 31, Div. A.)

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

The transfer of 2d Lieut. C. N. Clinch from the 24th Inf. to the 3d Cav., and of 2d Lieut. W. L. Simpson from the 3d Cav. to the 24th Inf., is announced. Lieut. Simpson will join his company at Fort Sill (S. O., Jan. 31, H. Q. A.)

A furlough for four months is granted 1st Sergt. Merriman Ellis, Co. D (S. O. 13, Jan. 28, Div. M.)

Courts-martial.

The following courts have been ordered:

At the Military Prison, Fort Leavenworth, Kas., Jan. 31. Detail: Major J. P. Wright, Med. Dept.; Capt. J. W. Pope, Q. M. Dept.; 1st Lieut. W. H. Hamner, 20th Inf.; 1st Lieut. T. G. Townsend, 6th Inf.; 1st Lieut. B. H. Cheever, Jr., 6th Cav., and 2d Lieut. A. B. Jackson, 9th Cav., J.-A. (S. O. 10, Jan. 26, Dept. M.)

At Fort Monroe, Va., Feb. 3. Detail: Major Royal T. Frank, 1st Art.; Capt. John H. Calef, 2d Art.; Capt. George H. Torney, Asst. Surg.; 1st Lieut. John McClellan, 5th Art.; 1st Lieut. Henry B. Osgood, 3d Art.; 1st Lieut. Thomas C. Patterson and 2d Lieut. Samuel Rodman, Jr., 1st Art.; 2d Lieut. William F. Hancock, 5th Art.; 2d Lieut. John C. W. Brooks, 4th Art., and 2d Lieut. Willoughby Walke, 2d Art., J.-A. (S. O. 21, Jan. 31, Div. A.)

At Fort Warren, Mass., Feb. 4. Detail: Major La Rhett L. Livingston, 4th Art.; Capt. William C. Shannon, Asst. Surg.; Capts. John P. Story and George G. Greenough, 1st Lieuts. William F. Stewart and Albert S. Cummins, 4th Art., and 1st Lieut. John A. Lundeen, 4th Art., J.-A. (S. O. 22, Feb. 1, Div. A.)

At Little Rock Barracks, Ark., Feb. 4. Detail: Major Francis L. Guenther, Capts. Frank B. Hamilton and William McK. Dunn, Jr., 1st Lieuts. George S. Grimes, Asher C. Taylor, Louis V. Caziarc, and John H. Gifford, 2d Art., and 2d Lieut. John T. Thompson, 2d Art., J.-A. (S. O. 22, Feb. 1, Div. A.)

Army Boards.

A Board of Survey will meet at Omaha, Neb., Jan. 25, to report upon the circumstances attending delay in delivery of certain stores. Detail: Major John P. Hawkins, C. S.; Major Guy V. Henry, 9th Cav., and 2d Lieut. L. W. V. Kennon, 6th Inf., A. D. C. (S. O. 8, Jan. 24, D. Platte.)

A Board of Survey, to consist of Major Gilbert C. Smith, Q. M., and 1st Lieut. Stephen Y. Seyburn, 10th Inf., will assemble at the recruiting rendezvous, Baltimore, Md., Feb. 3, to fix the responsibility for damage to a lot of stationery received by Capt. Gilbert E. Overton, 6th Cav., R. O. (S. O., Jan. 31, H. Q. A.)

A Board of Officers is appointed to meet at Fort Wingate, N. M., to examine into and report upon the qualifications of such enlisted men, for appointment as post quartermaster sergeants, as shall be ordered before it. Detail: Lieut.-Col. J. C. Bates, 13th Inf.; Capt. A. R. Chaffee, 6th Cav., and 1st Lieut. B. H. Gilman, R. Q. M., 13th Inf. The following named enlisted men will report to the president of the Board for examination for appointment as post quartermaster sergeants: Q. M. Sergt. Julius Muller, 13th Inf.; Sergt. Edwin C. Berry, Co. G, 13th Inf., and 1st Sergt. James O'Neill, Co. H, 13th Inf. (S. O. 9, Jan. 27, D. Ariz.)

Abandoned Posts.—Camp Medicine Butte, Evanston, Wyo., will be abandoned as a military post and Co. B, 17th Inf., will take station at Fort D. A. Russell, Wyo. Asst. Surg. Arthur W. Taylor, U. S. A., will accompany the troops to Fort D. A. Russell. The buildings now occupied by the troops will be turned over to the owners, in good condition and clean. (S. O. 9, D. Platte, Jan. 29.)

Arm Racks.—Upon the question as to whether arm racks in use by companies should not be considered as property for which the Act. Ord. Officers at posts should be responsible, the Chief of Ordnance states that portable arm racks supplied by the Ordnance Department are considered to be like other ordnance stores issued to companies, and should be accounted for by company commanders, and moved with other ordnance stores when change of stations occur.

DEPARTMENT NEWS.

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

The *Pioneer Press*, referring to rumored changes of regiments, says: "The 7th Cavalry has been stationed in the Department of Dakota since May, 1873, and if a change is the lot and privilege of the soldier, the men of the regiment are certainly entitled to it. At the same time they have done so much to make possible the settlement of the Northwest, and have become so thoroughly identified with its people that the mere announcement of the intended move will cause wild-spread regret."

Division of the Atlantic.—Maj.-Gen. Schofield.

The *Alta* says: There have been suits instituted recently to recover portions of San Francisco, the Presidio, Black Point, Mare Island, and now comes a lien upon Alcatraz Island. The county recorder of Alameda received, a few days ago, to be recorded a mortgage made Aug. 19, 1886, by Jennie E. Calkins and Leonard G. Calkins to Robert L. Martin, all of Chicago. The document recites that Calkins gives an undivided three-fourths of the island in the bay of San Francisco, known as Alcatraz, or Bird Island, now occupied by the U. S. Government as a military defence, said three-quarters being a part of a certain interest in said island deeded by John C. Fremont to Charles A. Lamont of New York, and by said Lamont to Leonard G. Calkins. The mortgage is given for the security of a note of $798. In conclusion the mortgage states that in default of the payment of said note the mortgage may be immediately foreclosed to pay the same by said mortgagees, his heirs, etc., and to enter into and upon said premises, and to receive and to collect all rents and profits, etc.

A serious fire occurred on Mackinac Island, Jan. 30, the loss being estimated at $60,000. The guests at the Mackinac House barely escaped with their lives.

Dept. of Texas.—Brig. Gen. D. S. Stanley.

The El Paso *Times* having given up all hope of retaining the headquarters of the 10th U. S. Infantry at Fort Bliss, now turns its attention to the headquarters of the 16th U. S. Infantry at Fort Concho and quotes the San Angelo *Enterprise* as saying: "The reports are to the effect that the companies of the 16th Infantry would be removed to Fort Bliss, making that post the headquarters for that regiment. Col. Blunt stated these reports probably had their origin in the fact that Fort Bliss had been transferred back to this department, and General David S. Stanley would probably garrison that post, in which event the troops necessary to the making of such a change would have to be taken from other posts in Texas."

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

The bread ration at Fort Union, N. M., is fixed at twenty-one ounces.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Feb. 2, 1887.

THE late Gen. Charles P. Stone was buried in the post cemetery last Thursday afternoon. The remains arrived on the 1.05 train, and were met at the front of the chapel by the escort, consisting of the engineer company, under Capt. Price. All the officers not on duty at the time followed to the grave. A number of officers, a delegation from Lincoln Post, G. A. R., and of the Loyal Legion, came from New York. Gen. Stone's wife, two sons, a daughter and brother were among the mourners. The officers who officiated as honorary pall bearers were Gen. Sherman, Gen. Burns, Gen. Hatch and Gen. King. Lieuts. Sawyer and Pitcher also came up. The grave of Gen. Stone is directly in rear of the Buford monument, in the second row of distinguished officers.

A heavy rain last Saturday and Sunday, then a cold wave following, have given as fine skating as can be desired. The river is as smooth as glass, and every afternoon a large crowd of skaters and many ice-boats can be seen between here and Cornwall. The toboggan slide is in prime condition. Capt. Metcalfe stretched wires and computed the velocity at the foot of the trestle. The slowest recorded was 27 miles an hour, and the fastest 37, and this on what was regarded as a slow track. Yesterday it seemed as if the speed was nearly double this.

Last Saturday evening the cadets had a large and brilliant hop in room number one. The attendance was good in spite of the rain storm.

For some months the cadets of the First Class have been receiving instruction in an entirely new line, which cannot fail to be highly beneficial in every respect. Dr. Kimball has been instructing squads of half a dozen in the method of applying bandages, tourniquets, etc., to stop the flow of blood from wounds; to locate the arteries and veins, and, in fact, just what is needed in the field if a man is wounded and no surgeon is around. Splints are made from saplings, and the cadets are taught the manner of setting broken bones and properly applying the splints. One of the hospital attendants is used to experiment with. This instruction will undoubtedly do much good. It is extremely interesting and readily learned, and will be remembered long after most of the book-learning is forgotten. The writer has in mind one officer who bled to death from a wound which could have been stopped by any one of the next graduating class.

Lieut. Swift, Adjutant, 5th Cavalry, has been here several days the guest of Gen. Merritt.

Lieut. Brett, 2d Cav., visited the post last week.

Mrs. Davis has closed her house here and gone to Washington with her children, to stay until June.

At a meeting of the Fourth Class not long ago the following elections were made: President, T. W. Winston; Secretary, Deakyne; Class Historian and Poet, C. D. Hine; Hop Managers, for the next encampment, C. T. Hamilton, F. M. Caldwell, Voorhies, McDowell, Bennet and M. F. Davis.

William Thomas Amos, Sidney, Ohio; E. B. Sweeney, Liberty, Ky.; John Barbee Galleher, New Orleans, La., and Oliver J. Shepherd, New York City, were this week designated for examination for admission to the U. S. Military Academy.

U. S. ARTILLERY SCHOOL.

FORT MONROE, VA., FEB. 1, 1887.

THE news of this great post may be summed up in a few words. Drill, study, work and improvement. The officers are busy all the time, just now at photography under Col. Pennington. In the forenoon, the non-coms. are studying tactics, etc., under Lieut. Cronkhite, and in the afternoon one battery is receiving instruction in gallery practice, the rest of the available force being engaged in making permanent improvements in and around the garrison.

No other post in the United States is visited by so many distinguished strangers, and the Commanding officer deems it desirable to make the place as attractive as the means at his disposal will permit. The tract of reclaimable land lying between the post and the cemetery, and now used as a rifle range, could, by an expenditure of about five thousand dollars, be transformed into "Cemetery Park" or "Fort Monroe Esplanade," and would thereby become one of the healthiest resorts in any land. Why thousands of invalids would flock hither to enjoy the briny breezes right from the Atlantic, through the capes, which on this shore sportively meet the balmy breezes direct from the virgin forests of Virginia herself.

Lieut. Macomb is now engaged in making an enlarged map of the post and reservation, defining boundaries and showing all modern improvements.

The hop room is undergoing alterations and renovations, indicative of a series of coming theatrical performances, and from the talent now at this post among the officers and their accomplished ladies, many pleasant evenings are anticipated.

The enlisted men enjoy themselves at hops and parties; they patronize the "Home Theatre" to a reasonable extent; they get special passes (which they never abuse) to go at any time. The best proof of their conduct is, that only one man was put in the guard house this (January) pay day.

Our monthly inspection came off yesterday, and was made unusually attractive by a bright sun and a warm breeze from the Gulf stream. The men were all tastefully dressed and presented a handsome military spectacle. Gen. Tidball and staff (Col. Pennington, Col. Frank, Chaplain Herrick, Doctor Brooke, Doctor Torney, Capt. Booth, Capt. Nye, and Lieuts. Oswood and Cronkhite), closely inspected all hands, and seemed pleased at the cleanliness and appearance of the men.

The new engine house and school room are fast approaching completion. Plans are progressing for the construction of the new wharf, and a street railroad to Hampton is much talked about.

Our miscalled post office is a reproach to our beautiful fort and surroundings. Occasionally one thousand people are at the Hygeia Hotel at the same time, and getting, at a low estimate, five pieces of mail matter daily each; all these, besides our large population mail, have to be assorted in a few old pigeon holes in a room about ten feet square.

B. B.

FORT MAGINNIS, M. T.

THE *Argus* of Jan. 20 says:

The most enjoyable social affair for many a day was at the bachelors' on Friday evening. Readings, music, and a match in orthography were the features. Col. Smith read entertaining extracts from the Spoopendyke Papers. Dr. Gray, Lieuts. Tranbe, Waters, Macdonald, and Dr. Stone also gave readings or speeches. The spelling match was won by Mrs. Allen, Mrs. Wagner, Mrs. Stone, Capt. Wagner, and Lieut. Cushman, who insisted that "Cat" should be begun with a large "K." The light fantastic toes tripped into the wee sma' hours of the morning. Mrs. Smith has cards out for next Friday evening.

(Correspondence of the Army and Navy Journal.)

WASHINGTON BARRACKS, D. C.

A brilliant gathering of the officers and ladies of the garrison of Washington Barracks took place Wednesday, Feb. 2, at the quarters of Capt. Lewis Smith, 3d Art., to witness the marriage ceremony of their daughter, Henrietta, to Lieut. Ira A. Haynes, 3d Art., now on duty at Fort Monroe, Va. The wedding guests assembled in the parlors a little before 2 o'clock, and promptly at that hour, the priest, Rev. Father Logan, of St. Domonic's, took his post, and to the sweet music of Mendelssohn's Wedding March by the orchestra of the 3d Artillery, led by Prof. Ihnenfeldt, the bride and groom entered the room—the former on the arm of her father, and the latter escorting the mother of the fair bride. Prefacing the ceremony with a few impressive and appropriate remarks, the reverend father performed the usual marriage service of the Church. The flow of congratulations and conversation followed, and a goodly feast of goodly cheer, with sparkling wine and sparkling wit, kept all as merry as the marriage bell. The feast of good things enjoyed, Gen. Gibson called the guests to order and said:

"As the oldest friend of the fair bride and as the colonel of the regiment of the happy bridegroom, the pleasant duty devolves upon me to propose the health of the bride and groom. May Candlemas Day, as holy day and wedding day, ever be to them a red-letter day in the calendar of their lives, and whatever its skies may portend of bright or gloomy weather, may it ever bring to them the sunshine of joy and happiness together; and on the altars of their home and hearth, may its candles, bright and blest, brightly shine with the light of love forever."

The sentiment was felicitously and feelingly received, and pleasantly responded to by the gallant groom and by Gen. E. R. Warner, the elderly bachelor of the regiment.

The bride looked charmingly in her travelling costume, and her sweet face was alternately wreathed in smiles or bathed in tears. The costumes of the ladies present were tasteful and elegant; and merry hearts made every countenance alike lovely and cheerful.

Besides the guests from the garrison there were Mrs. Cunningham, sister of the bride, from Fort Lewis, Col.; Misses Livingston, from Fort Warren, Mass., Randolph, from Syracuse, N. Y., and La Cooke, from Washington—guests of the commanding officer; Mrs. and Miss Newton and Mrs. Coryell from Washington; Mrs. Holder from New York; Gen. E. R. Warner from Fort McHenry, Baltimore; Lieuts. Waite and Hancock from Fort Monroe. Of the society of the garrison there were Gen. and H. G. Gibson, their two daughters and youngest son; Dr. and Mrs. Wolverton; Col. and Mrs. L. C. Bainbridge and their daughter; Major J. G. Turnbull; Dr. and Mrs. T. E. Wilcox; Major and Mrs. F. W. Hess; Capt. and Mrs. J. F. Mount; Capt. and Mrs. Chase; Lieut. and Mrs. R. D. Potts; Col. and Mrs. J. B. Eaton; Lieut. and Mrs. Sedgwick Pratt; Lieut. and Mrs. Edward Davis and their son and daughter; Lieut. and Mrs. J. D. C. Hoskins; Lieut. and Mrs. J. E. Myers; Lieuts. B. H. Randolph, H. R. Lemly, C. B. Satterlee, C. H. Bennett, Louis Ostheim and J. D. Barrette.

At 3.30 P. M., the happy pair left the Barracks, with the usual shower of rice and shoes following their departure from the door, for the Baltimore and Potomac Depot, to spend a portion of their honeymoon in the city of New York.

The monthly inspection of the troops took place this morning at 10 o'clock, under the command of Maj. Edmund C. Bainbridge, 3d Art.

Gallery practice commenced here this month and will be continued every day until further orders, from 9 to 12 A. M.

A series of hops have been given by the officers and ladies every week during the winter, and the men have given a number of entertainments which have contributed towards making life enjoyable here.

On the evening of Jan. 27, the "3d Artillery Dramatic Troupe," of this post, presented the amusing military drama, in six acts, entitled "Foiled, or a Struggle for Life and Liberty," with the following cast of characters: Ralph Evans, H. Patterson; Hugh Bosworth, A. Hoffman; Wm. Steuben, G. E. Clark; Rich. Slater, Theo. Sevenhuysen; Joe Hicketts, Geo. Friedman; Jack Swinger, Samuel Eopolucci; Sol Nipper, Wm. D Green; Officer of the Day, E. McLarney, Charlotte Evans, Miss Annie M. Clifford; Bercky Buckheart, Miss Maggie Burns; Mrs. Evans, Miss F. A. Bunnell; Child, Lilly Funk. The music by the 3d Artillery band, under the leadership of Prof. Ihnenfeldt, was of that uniform excellence for which its productions are so justly noted. Immediately after the performance the floor was cleared for dancing.

OLD LANG SYNE.

SAD ACCIDENT AT FORT PORTER.

THE Buffalo *Express* of Feb. 2 gives the sad particulars of a fatal accident which has brought desolation to the household of one of our Army officers, Lieut. Chas. Hay, 23d Inf., stationed at Fort Porter, N. Y. It appears that on last Sunday afternoon the child was in charge of a servant girl, who was playing ball with him in an enclosed court in the rear of the house occupied by Lieut. Hay. The servant's attention was first called to the fact that some accident had happened, by a cry of pain from the little one, which she first attributed to a bruise he might have received in play. But on examining him she found him foaming at the mouth and in evident distress. The cause could not at once be ascertained, and the post surgeon was called in, and after careful diagnosis pronounced it a case of corrosive poisoning.

The child's mouth was blistered and the throat to the epiglottis was inflamed and swollen, and the opening to the windpipe almost closed. The ravages of the poison were plainly visible on examination, and caused intensest suffering. The tissues were quite corroded and cauterized by some acid poison which was judged to be hydrate of potash, or concentrated lye. The infant lingered in agony until the following evening when death ensued. The case was hopeless from the first. The funeral was held on Tuesday, Feb. 1.

Surg. Davis on Monday called in one of the ablest local practitioners of Buffalo, who concurred with him in the diagnosis of poisoning from lye, or some similar substance. How the child obtained it is not clearly known, though it is surmised that a crystal may have been left on the back porch after washing, and there found by the little one. To put it in his mouth would be a natural action for a child, and the attempt to swallow it when the burning taste became unbearable would naturally follow.

OMAHA, NEB.

THE *Excelsior* of Jan. 29 says:

Major Burt, of Fort Robinson, was in the city this week.... Col. Merriam, of Fort Laramie, is in the city. He is the inventor of a new knapsack, which is being tested by the Army authorities....The Department of the Platte for the last target year stands No. 1 in the Army. Dakota has always been first, but this year they move to No. 2....An effort is being made by E. P. Roggen, Lieut. E. S. Dudley, and H. A. Babcock, of Lincoln, to secure the passage of a soldier registry law in the Legislature of all persons now living in the State who served in the War of 1812, the Mexican War, or the Civil War....The officers' school for instruction in tactics and other branches of military duty at the fort is well attended. Gen. Wheaton takes charge of the class in person....Gen. and Mrs. Hawkins entertained a dinner party last evening....Mrs. Ulio, wife of Capt. James Ulio, 2d Inf., returned unexpectedly from Spokane Falls, whither she had gone to visit her parents. Her health was poorly, which led

her to shorten her stay....Under the favorable direction of Mrs. Major Brown the young folks of the garrison, augmented by above two score of the friends and schoolmates of Mrs. Brown's daughter from town, spent a delightful afternoon at the post hall last Saturday.

(For the Army and Navy Journal.)

TO THE SEVENTH CAVALRY.

SEVENTH! you are gallant soldiers,
And as poets take the cake,
May the change you glory over
Soon occur for your dear sake.

May your "snow-plumed guardian angel,"
With its icy axe in hand,
Bring you down to sunny Texas,
To the charming Rio Grande!

Though your romance be as brilliant
As your poet's brightest dream,
You will find a rude awakening,
When you strike the muddy stream.

May you scatter all the outlaws
Who abide along its banks,
Come! come quickly and relieve us,
You shall have our warmest thanks!

C. B. C., 8TH CAVALRY.

FORT CLARK, TEXAS.

FORT DAVIS, TEX.

THE Presidio County *News* of Jan. 25 says:

At this post a total of thirty-one men have been attending the evening school thus far this year, and are generally earnest in the matter, and doing well in their studies.... Lieut. W. C. McFarland, 16th Inf., and family returned Wednesday... Lieut. J. F. Simpson, 3d Cav., expects to go away to-morrow on six months' sick leave....Mrs. Lieut. J. W. Heard, 3d Cav., left Wednesday for New York, where she will spend sometime visiting friends....Capt. J. C. Thompson continues steadily to improve in health, and expects soon to go to Hot Springs, Ark., accompanied by Mrs. Thompson. Their little folks left this week for St. Louis, the old home of Mrs. Thompson, under care of their grandmama... The organization of the Good Templar Lodge on Monday evening was in every regard a pronounced success. It was effected with forty-three members.

COURT-MARTIAL CASES.

In the case of a soldier tried at Fort Lewis, Col., for, while a sentinel, allowing a military convict to escape, the reviewing authority, Gen. O. B Wilcox, says: "The court admitted, notwithstanding the objection of the prisoner, oral evidence to be given of an offence committed about three years before. While such evidence might have been admitted in rebuttal had the prisoner attempted to set up in evidence his previous good conduct as a sentinel, its admission for the prosecution in the absence of such action by the defence is disapproved. Subject to these remarks the proceedings are approved."

In the case of Private W. J. Neff, Troop H, 5th Cav., tried at Fort Riley, for "lying out of quarters, absence without leave," etc., the reviewing authority, General O. B. Wilcox, says: "The plea in bar of trial to so much of the specification as alleges restoration to duty without trial for the offence of desertion was not well taken. There was no actual or constructive pardon set forth in the order; the charges were simply withdrawn on the consideration imposed by the regulations. While it would be manifestly improper to try a soldier for desertion after such restoration, the prisoner was not called upon in this instance to plead to the offence. A matter of record was simply set forth, and of this record the court should have taken notice. The statute of limitations does not apply to such proof of record. The practice of alleging previous record in military charges is a well established one. G. O. No. 41, A. G. O., series of 1886, simply changes the procedure as to previous trials and convictions. The action of the court sustaining the prisoner's plea is therefore disapproved (G. O. No. 3, Department Missouri, 1887.)

RETIREMENT OF OFFICERS.

To the Editor of the Army and Navy Journal:

SENATOR MANDERSON'S bill (S. 3119), although much needed in justice to the officers of the Army, may only be "a feeler," like his bill requiring examination of the line officers before promotion. However that may be, I am afraid that it has no chance, simply because of its discrimination in favor of the officer against the enlisted man of the Army; the officer being allowed to retire after twenty-five years' service, while the enlisted man must have served thirty years. While there are no sound reasons for any discrimination in favor of the officer, there are none why the enlisted man should be favored against the officer in this respect, as is now the case under the present retiring laws, an officer having to serve forty years before he is retired upon his own application, while the enlisted man is now retired after thirty years' service.

It is difficult to assign good reasons for any discrimination in favor of either party; in equity both officers and enlisted men should fare alike in this respect. They have encountered the rigors and hardships of a four years' war together, they are feeling the ill effects of the war alike, and they ought to be favored alike. Could Senator Manderson's bill be so modified as to put equally deserving men, no matter what their rank, upon equal footings, there could be no question as to its chances of passing, if Congress wishes to do the fair thing by the officers. It is questionable if many officers would care to avail themselves of the privilege should the bill pass, yet it would assure them that they could do so whenever their duties bear too heavy upon their war worn shoulders and gray hairs.

CROSS CANNON.

THE following was published in the German papers some years ago, but as it may be new to some of the readers of the JOURNAL, it is reproduced for their amusement:

On the morning of an eclipse of the sun, Captain von S——, of the — Fusileers, issued the following verbal order to his company through his 1st sergeant, to be communicated to the men after morning parade: "This afternoon a solar eclipse will take place. At 3 o'clock the whole company will parade in the barrack yard. Fatigue caps and jackets. I shall explain the eclipse to the men. Should it rain they will assemble in the drill shed." The 1st sergeant having set down his commanding officer's instructions in writing, as he had understood them, formed the company into a hollow square at the conclusion of the morning drill, and read his version of the order to them, thus: "This afternoon a solar eclipse will take place in the barrack yard, by order of the Captain, and will be attended by the whole company in fatigue jackets and caps. The Captain will conduct the eclipse in person. Should it rain the eclipse will take place in the drill shed."

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at St. Thomas Jan. 18.

The prospective cruise is given as follows: Bermuda, Martinique, St. Lucia, Barbadoes, Trinidad, Curacoa, Cartagena, Aspinwall, Port Cortez Cienfuegos, Kingston, Santiago, Nipa, Neuvitas, Matanzas, Havana, Key West, returning to Fortress Monroe about May 1. All mail must be addressed to the *Galena*, care of Navy Pay Office, 29 State St., N. Y.

RICHMOND, 3d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. At New York Navy-yard.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived January 16, at Key West, Fla.

S. Atlantic Station—A. R. Admi. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Reported by cable to have arrived at Aden, Arabia, Jan. 26.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Sailed from Montevideo for Maldonado Dec. 11. All well. Intended to sail for ports on South coast of South America and the Faulkland Islands, and to reach Rio about June 1, 1887.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Montevideo Nov. 13.

European Station—R.-Admi. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. At Alexandria, Egypt, Jan. 2, 1887. Expects to remain there till early in Spring.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Reported by cable to have arrived at Sierra Leone, Africa, Jan. 28, 1887. Will remain probably to middle of March.

Pacific Station—Capt. J. H. Gillis
(in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham, went into commission at Mare Island, Cal., Jan. 15, 1887.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 14.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Montevideo Nov. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Reported by cable to have arrived at Valparaiso, Chili, Dec. 16.

MONONGAHELA, 2d rate, 9 guns, Comdr S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Was to sail from Valparaiso, Chili, Jan. 29, for Panama.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. At Sitka, where she will winter. Address care of Navy Pay Agent, San Francisco, Cal.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. Commissioned at Navy-yard, New York, Jan. 15, 1887. It has not been decided when she will be ordered to sail for the Pacific Coast.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Valparaiso, Chili, Dec. 16.

Asiatic Station—Rear-Admi. Ralph Chandler.

Vessel with (†), address, Mail. General Post Office Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Bombay, Dec. 6.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Arrived at Hong Kong Jan. 17.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Dec. 28.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was at Hong Kong, Dec. 29.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. At Yokohama, Japan, Jan. 10.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Reported by cable to have sailed for for New York from Maderia, Jan. 18.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. At Tientsin, China, Dec. 29,

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent as follows: Up to Feb. 10, by Brazil Co.'s steamer, leaving New York about that date. Address care of U. S. Consul, Bridgetown, Barbadoes, between Feb. 10 and March 1. Address care U. S. Consul, Basse-Terre, St. Kitts. After March 1, per U. S., and including Brazil Co.'s steamer, leaving New York about March 24. Care U. S. Consul, at St. Thomas, W. I. After March 24, address Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived at Bridgetown, Barbadoes, Jan. 18.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Arrived at Bridgetown, Barbadoes, Jan. 18.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Arrived at Bridgetown, Barbadoes, Jan. 18.

On Special Service.

DESPATCH, 4th rate, Lieut. W. S. Cowles. At New York Navy-yard, having her machinery overhauled.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York. Will remain for several weeks.

The steering gear of the *Dolphin* was slightly disarranged during her recent trip to New York. Several weeks will be required to repair the damage.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. At San Diego, Cal., Jan. 3.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard. Expects to go on a trial trip shortly, after receiving all her armament.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 20 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Commander H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York.

DALE, 8 guns. Commander Silas Casey. Receiving Ship. At Washington, D. C. Commander Yates Stirling has been ordered to command on Jan. 31.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate Kuhl, commanding. At Norfolk.

The iron-clads *Ajax*, *Catskill*, *Lehigh*, *Mahopac*, *Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. The construction work will be completed in about two months. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. Will be ready in a few months, and in all probability be assigned to the North Atlantic Squadron.

Trenton—Undergoing repairs at Norfolk, Va. Expects to be ready for commission about March 1. It is not known at present where she will be ordered. She was taken out of Dry Dock Feb. 2.

VARIOUS NAVAL ITEMS.

THE Senate Naval Committee has submitted a favorable report on the bill appropriating $5,000 for the improvement of the Naval Hospital park at Portsmouth, Va.

PREPARATIONS for work on the Panama Canal continue on an extensive scale, and it is hoped before the end of the dry season some part of the canal will be put to practical use.

COMMODORE KIMBERLY and Capt. McCann were before the Naval Examining Board on Thursday for examination for promotion to the grade of Rear Admiral and Commodore, respectively.

THE Board of Inspection will inspect the *Richmond* at New York about the middle of this month, and the *Thetis* a few weeks later. The *Ossipee* will be surveyed by the board as soon as she arrives at New York.

RESOLUTIONS adopted by the City Council of Boston, Mass., remonstrating against the proposed reorganization of the Boston Navy-yard, were presented in the Senate on Tuesday and referred to the Committee on Naval Affairs.

A BOARD of officers, of which Naval Constructor Hichborn is chairman, is investigating the origin of the fire at the Washington Navy-yard. It is supposed to have been the work of an incendiary, and possibly due to the recent discharges.

THE President having approved the bill for the relief of the sufferers by the wreck of the U. S. S. *Ashuelot* on the Chinese Station, those interested will now be enabled to receive their long-delayed compensation for clothing and other effects destroyed in the line of duty.

A CORRESPONDENT of the San Francisco *News Letter*, writing from Mare Island, states that there are at least 1,000 Chinamen employed in the United States Navy, which fact, in view of the hostility to the Mongolian race, exhibited in the legislation of the American Congress, he thinks is a curious anomaly.

THE Washington *Critic* says: "There has been a series of dynamite experiments at the navy-yard here, conducted with the greatest secrecy far almost three months, which are significant. A prominent scientist came here from the West in November, and asked to be permitted to conduct certain experiments at the navy-yard, for the purpose of perfecting a dynamite cartridge which could be used in ordinary ordnance and his cannon. He was promptly received with open arms, and given the entry to the Navy-yard. Since that time experiments have been progressing very satisfactorily, and it is said the developments will be brought to the attention of Congress. The cartridges are for use in all kinds of guns, mortars and side arms, besides upon rams. The Secretary of the Navy has secured the exclusive use of the invention for this Government."

THE Bureau of Yards and Docks has ordered that work be commenced on the dry dock at New York. It is expected that six months will be required to put the dock in good condition.

THE Steel Board, Commander R. D. Evans, president, dissolved on Wednesday, the officers being assigned to their posts as inspectors of steel by Commander Evans assuming general direction. The inspectors during their consultations as a board arranged all the details to be observed in the inspection of metal. Lieut.-Comdr. S. W. Very, Lieut. W. C. Cowles, and Lieut. J. H. C. Coffin have been appointed inspectors of steel for the new cruisers under the direction of Comdr. Evans.

AN exhibition of the Cunningham line rocket, intended to be used in place of mortars for carrying life lines to stranded and ship-wrecked vessels, was given at the Arsenal Grounds, Washington, Jan. 31 Supervising Inspector-General Dumont and a large delegation of steam vessel inspectors, Commodore Nicholson, and Capt. Craven of the Navy, and a dozen or more Congressmen witnessed the exhibition. Several rockets were fired over the 600 and 800 and 1,000 yard ranges with precision and accuracy.

As a result of the consideration of the various bills looking to the construction of new naval vessels the sub-committee of the House Committee on Naval Affairs has drafted a bill, which was adopted by the full committee on Friday, providing for the construction of two steel cruisers of 4,000 tons burden of the *Newark* type, at a cost, exclusive of armament, of not more than $1,300,000 each; to be equipped with the best type of modern engines, boilers, and machinery; four steel gunboats of 1,700 tons displacement, patterned after gunboat No. 1, at a cost, exclusive of armor, of not more than $525,000 each; one cruising steel torpedo boat of not more than 150 nor less than 135 feet in length, to have a maximum speed of not less than 24 knots per hour, tested over a Government knot course, and capable of steaming at the rate of 20 knots an hour for six consecutive hours with armament and coal for sea service, to cost not more than $100,000, and to be completed within 12 months after the signing of the contract. The bill appropriates $2,400,000 to begin the work.

THE dynamite war vessel to be constructed at Cramp and Son's shipyard here will not be a seagoing vessel. She is intended solely for harbor defence. The model of the boat will follow as closely as possible that of El Destruidor, built by J. and G. Thompson, of Clyde Bank, on the Clyde, for the Spanish government. El Destruidor is one of the latest built torpedo boats. In addition to the seven rapid firing guns wanted on the Spanish vessel the dynamite gunboat will have three dynamite guns. This fact will necessitate the building of a vessel far superior to El Destruidor, which carries but 40 tons, as the weight of the dynamite guns, with accumulators, reservoirs and other appliances, will be about 120 tons, to which must be added about ten tons weight of machine guns. El Destruidor is about 200 feet in length, has 25 feet beam and a depth of 13 feet. She is built of high tension galvanized steel, which will also be used in the American vessel. The Spanish vessel is calculated to steam about 20 knots an hour, has 39 watertight compartments and is of about 400 tons displacement. The contract for the dynamite gunboat, which is not yet signed, requires a speed of 20 knots. The dynamite gunboat will be completed in eight months' time.

NAVY GAZETTE.

Ordered.

JAN. 28.—Lieutenant Frank W. Nichols to the Receiving Ship New Hampshire.

Lieutenant John C. Irvine and Ensign Richard Henderson to the Receiving Ship Franklin.

JAN. 29.—Gunner John G. Foster to the Naval Magazine, Chelsea, Mass.

Sailmaker Charles C. Freeman to the Receiving Ship Minnesota.

JAN. 31.—Commander R. D. Evans to duty as Inspector of Steel for the new cruisers.

Lieutenant-Commanders S. W. Very and W. C. Cowles and Lieutenant J. H. C. Coffin as inspectors of steel for the new cruisers under the direction of Commander Evans.

Boatswain Charles Miller to equipment duty at the Boston Navy-yard.

FEB. 2.—Lieutenant E. P. Wood to instruction in ordnance, Navy-yard, Washington, D. C.

Ensign John E. Craven to duty at the branch hydrographic office, New York.

Boatswain Charles Miller to the Navy yard, New York, Feb. 15.

Detached.

JAN. 29.—Lieutenant Gustavus C. Hanus and Ensign George R. French from the Coast Survey and placed on waiting orders.

Gunner T. Bascom Watkins from the Naval Magazine, Chelsea, Mass., and placed on waiting orders.

FEB. 2.—Commander E. C. Merriman detached from the Navy-yard, Portsmouth, N. H., and ordered to equipment duty at the Boston Navy-yard.

Ensign J. H. Rohrbacker from the Naval Observatory and ordered to special duty with Commander Evans.

Boatswain J. B. Aikin from the Navy-yard, New York, and ordered to equipment department, Boston Navy-yard.

Board of Examination.

Lieutenant-Commander E. T. Strong, Sailmakers Chas. E. Tallman and W. J. Burke are appointed a board to convene Feb. 15 at Boston, to examine candidates for appointment of foreman sailmaker, foreman galley maker, and master blacksmith of Equipment yard, Boston.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending February 3, 1887:

John Peterson, ordinary seaman, died Jan. 21 at Naval Hospital, Chelsea, Mass.

Philip C. Johnson, commodore, died Jan. 28 at Navy-yard, Portsmouth, N. H.

John Thomas Jackson, private marine, attached to U. S. S Yantic, died Jan. 25 at Marine Hospital Key West, Fla.

Charles Sumner McClain, ensign, died Jan. 11 at Brooklyn, N. Y.

John Newell, beneficiary, died Jan. 31 at Naval Hospital, Philadelphia, Pa.

MARINE CORPS.

JAN. 28.—Major George Porter Houston, granted leave of absence for one month from Feb. 2, 1887.

FEB. 1.—2d Lieutenant Wm. H. Stayton, leave of absence and order to League Island Barracks, dated Jan. 25, revoked, and ordered to report for temporary duty at the Marine Barracks, Washington, D. C.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Feb. 2, 1887.

THE german given on Friday evening was certainly a brilliant social success. It was believed in Annapolis that the second class of cadets had undertaken more than they could successfully carry out, and the first class men claimed that it was a reflection on their capability of entertaining. It has always been customary for the second class to give an entertainment of some description, usually a masquerade or a minstrel show. The first class claimed that the second class should not have departed from this line of entertainment, while the second class claimed the right to select their own entertaiment.

As a result, the first class "boycotted" the whole affair, only one member attending. As it was seventy-five couples were in attendance, including an unusually large number of society people from Washington, Baltimore, and other cities. The decorations were exceedingly pretty, the receiving stand being especially handsome. The guests were received by Mrs. Captain Sampson and Cadet Hubbard; as this was Mrs. Sampson's first appearance at any entertainment in the yard the second class felt jubilant over her presence. The favor table was, however, the centre of attraction, lit with fairy lamps and covered with favors of every description. So many favors had been presented by friends and well wishers of the class that every figure danced was a favor figure. The music was all new, and was rendered in fine style by the Academy's orchestra. The figures were new and unique, and everything passed off smoothly.

Much of the success was, undoubtedly, due to the ladies of the yard, who aided the cadets in their preparations. There were four leaders, who led with their partners. Cadets Benham, Marble, Hayward, and Bassett, with the Misses Sampson, Seaman, Littell, and Baker.

Among the senior officers present were Capt. Sampson, escorting Mrs. Radcliffe—a cousin of Mrs. Cleveland—who is visiting with Mrs. Sampson; Capt. Huntington and wife, Comdr. Harrington, with Mrs. Harrington, and Miss Smithers; Comdr. Schouler and wife. The costumes were elegant, and the room during the execution of the figures was a beautiful sight. Among the visitors were Miss Schley, of Washington, accompanied by Miss Littell; the Misses Meade, of Washington; Miss Seaman, with Mrs. Commodore Benham, of Staten Island; Miss Snowden, of New York; Miss Heap and Miss Baker, of Washington, both visitors of the Misses Sampson; Miss Price, of Baltimore; Miss Long of New York; the Misses Clayton and Stewart, of West River, Md.; the Misses McFarland, Porter, Montague, Mann, Taylor, and Brooks, of Washington. Nearly all the married officers were present and the society people of Annapolis were well represented. Most of the cadets were of the second class, but a large number of third class men were in attendance. Cadet Durell, captain of the fourth company, was the only first class man present.

As a social event, the german was a decided success, and the 2d class are to be congratulated upon their taste in decorations, their energy in carrying through, against opposition, so elaborate an affair, and their faculty for forming friends. The favors were extremely handsome, many being hand painted by ladies in the yard. One of the features was the class cry and "taps," when the '88 figure had been danced.

The gymnasium was again crowded on Saturday evening by guests and lookers-on, in attendance at the semi-annual ball. As this is the second largest hop of the year, it was well attended and was one of the finest hops ever given in the old gymnasium. The 1st class had devoted nearly all the day to overseeing the work of decorating and, as a consequence, the room was as handsome as could be wished or expected. One of the ornaments was "Farewell to Math," with a difficult problem in applied mathematics, drawn in ribbon, just above it.

It is doubtful if all the fair sex knew exactly what the complicated diagram represented. During the evening couples might have been seen walking in the corridors and standing in shady corners—perhaps the cadets were explaining the doubtful figure.

Nearly all those present at the german were at the ball and as the room was crowded, others must have swelled the ranks. The visitors were received by Mrs. Lieut. Barnett and Cadet Burrage.

The last of the semi-annual examinations was completed on Friday and since that time the bulletin boards have been watched by careful eyes. All the marks have not, as yet, been published, but it is plain that there will be a large number who will certainly be dropped, and a larger number who must trust to the tender mercies of the Academic Board. The 4th class will lose more than any other, but the 2d class will lose from eight to ten members, several having already resigned. The 1st class with fourteen men "warned," will not lose over two at the utmost. Several additions have been made to the list of those cadets deprived of all privileges and stationed on the *Santee*; those sent down a month ago for "Frenching" have not been released and begin to fear a long confinement. This is the first instance where cadets have been kept on the *Santee* longer than a month for this offence.

A recent order from the Superintendent abolishes the old demerit and conduct grade system and establishes one on a more just basis. Formerly a cadet could fall four grades in a day and yet, with a perfect record, could only rise in four months. Now a cadet is granted privileges according to his behavior for the preceding month. Moreover, a cadet who was unsatisfactory in his studies, was put in the fourth grade; now conduct grades are unaffected by studies. There will henceforth be three grades instead of four and the number of demerits limiting each grade has also been altered.

On Monday at 1 P. M., Mrs. Lieut. Comdr. Walker, who has been dangerously ill for some time, died. Mr. Walker has the sympathy of the entire Yard in his bereavement. Mrs. Walker was a favorite with all and her loss will be felt throughout the Yard and city of Annapolis. She leaves two children.

The quarters occupied by Lieut. C. R. Miles have been freed from quarantine restrictions and are being renovated. Lieut. Miles has returned to duty. Mrs. Lieut. Miller is confined to her bed, having severely sprained her knee; it is reported that she will not recover sufficiently to walk for many weeks. The excitement of the semi-annual week has completely disappeared, drills and recitations are resumed and the usual quiet of a new term has begun.

COAST SURVEY.

THE United States coast survey steamer, *Gedney*, Lieut. F. H. Crosby, U. S. N., commanding, completed receiving a new boiler at Spedden and McClymont's works, Baltimore, Jan. 25, and will coal previous to starting for New York. It is expected that she will receive a new main deck at the Brooklyn Navy-yard, which will detain her there till April. If nothing occurs to order the *Gedney* elsewhere, she will return to Baltimore in the spring to make a survey of the harbor under the direction of the Coast Survey.

REVENUE MARINE.

An appropriation of $60,000 for the construction of a revenue steamer for duty on the southern coast has been added by the Senate to the provision in the Sundry Civil bill for the expenses of the Revenue Cutter Service.

URGING THAT OUR COASTS BE DEFENDED.

THE New York Produce Exchange held a meeting last Saturday to urge the subject of coast defence upon the attention of Congress. Wm. Magee, President of the Exchange, presided, and speeches were made by Forrest H. Parker, ex-Mayor Franklin Edson, Alex. C. Orr, F. L. Palmer, late of the British Navy, and Lieut. E. L. Zalinski, U. S. A Mr. Palmer stated that for harbor defence there were necessary vessels of the most powerful type, a large number of gunboats of great beam, and such armor as would protect one great gun, torpedoes of all kinds, shore batteries, and a thoroughly organized volunteer artillery and torpedo corps. The harbor required three lines of defence, but the outermost defence should be impregnable. If the enemy got inside the third line of defence the city was lost. If it succeeded in passing the second line the city was lost If it passed the first line the city was lost.

A prominent provision merchant groaned and muttered: "Then we're lost anyhow."

Lieut. Zalinski devoted the greater part of his remarks to explaining the efficiency as a means of defence of his pneumatic dynamite torpedo gun. He explained its workings and exhibited a seven foot cartridge which everybody hoped was not loaded. The meeting broke up in a very warlike frame of mind after passing unanimously the following resolutions:

Whereas, We are assured by competent authority, and believe, that our coastwise defences are not in a condition to successfully cope with modern ordnance and armored war vessels, and

Whereas, It appears to us that any delay in meeting this emergency is criminal negligence, therefore

Resolved, That the New York Produce Exchange respectfully but urgently requests Congress to authorize the expenditures of such sums as shall, in the opinion of competent authority, place the Harbor of New York and all other important seaports in a state of complete defence, and also

Resolved, That a copy of the above preamble and resolutions be sent to each of our Senators and Representatives in Congress with a request that they urge immediate action by that body.

The following resolutions, adopted by the Board of Trade of Reading, Pa., favoring the Wiard and Haskell gun inventions and recommending a reorganization of the Army Ordnance Department, was presented in the Senate on Tuesday by Mr. Cameron and referred to the Senate Committee on Ordnance and War ships:

Whereas, It is highly necessary that our seacoasts and harbors be placed in a condition to successfully resist foreign invasion, and that our ships and forts be armed with guns capable of answering and silencing those of foreign nations;

Be it resolved, That we urge upon Congress to speedily pass such laws as shall enable the manufacturers of these guns to have a fair official test of their merits, so that if they are equal in performance to what is claimed for them they can at once be adopted and our seacoasts adequately armed.

Resolved, That an investigation of the methods of the Bureau of Ordnance be at once begun, to the end that the parties who, through jealousy of civilian inventors, or from whatever motive, have been guilty of disobedience of the laws and of thwarting the will of Congress, may be removed, and the bureau reorganized, so that it shall perform its duties impartially and with an eye single to the good of the country.

At a meeting of the N. Y. Chamber of Commerce, Capt. Ambrose Snow, of the Committee to develop information upon the efficiency of ordnance for national defence, reported that in Washington the other day he was impressed by the fact that members of Congress were of the opinion that our coast was in a helpless condition. He attended a meeting of the House Committee on Appropriations. The members seemed to have the impression that the Ordnance Department was acting as a hindrance to them. The extended report of Capt. Snow's Committee, presented at the last meeting, was submitted, and was adopted. The Committee was instructed to consider the whole subject of harbor defences, two members being added to it.

(From the Real Estate Record and Guide.)

Owing to the absence of Chairman Charles Buek of the Legislative Committee of the Real Estate Exchange, Col. W. C. Church was chosen as chairman *pro tem.* at last Tuesday's meeting of the committee.

In behalf of the Committee on Sea Coast Defences (consisting of Messrs. W. C. Church, D. G. Croly and Elliott Roosevelt) Mr. Croly reported that the committee requested the Exchange to authorize it to memorialize Congress on the subject. The proposed memorial would not deal with any specific recommendations other than the advisability of immediately ordering the construction of large ordnance to cope with foreign guns, but would simply call the attention of Congress to the utter lack of defence against any naval power, even though the attacking country be so insignificant as Chili. The committee announced that it had but little hope of Congress taking any united action upon the matter during the present session, but hoped that some pronounced action might be taken at the next session. It also reported upon the desirability of holding a meeting in the interim, at which the leading men of the city should publicly express their views upon the subject, and further called attention to the advisability of the Governors of Northern States following the precedent of the Governors of the South Atlantic States in the shape of a conference regarding this matter.

The report of the committee was accepted, its request granted, and the committee continued in power.

FISH COMMISSION.

The Albatross, Lieut. Commander G. L. Tanner, comdg At Washington, D. C.

The Fish Hawk, Mate James A. Smith, comdg. At Baltimore, Md.

The Altyon, Wm. Hamlin, com. dg. At Baltimore, Md.

The Grampus, J. W. Collins, com dg. At Gloucester, Mass.

Established 1811.
CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION; otherwise to be returned at our expense. Correspondence solicited.

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, FEBRUARY 5, 1887.

Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

LEGAL DECISIONS AFFECTING THE NAVY.

THE late decisions of the Supreme Court in the cases of Symonds, Philbrick and Rockwell, appealed by the Government from the Court of Claims, having excited considerable interest in naval circles, our correspondent has obtained from Messrs. John Paul Jones and Robert B. Lewis, counsel in the three cases, the following statement of the points involved, and the probable effect of the decisions:

In the Symonds case the broad question was whether the Secretary of the Navy could, by executive order, change the pay of an officer without changing his station or duties. The court held that he could not. Symonds was Executive Officer of the training ship *New Hampshire*, anchored in Narragansett Bay. Up to August 1, 1882, her officers received sea pay. On that date, an order of Secretary Chandler was issued stating that she would no longer be regarded as in commission for sea service, but not changing her situation or complement or the duties of her officers. Thereafter they only received shore pay.

The law (Sec. 1556, R. S.,) gives officers on duty "at sea" higher pay than when on shore duty or leave, and provides (Sec. 1571) that no service shall be regarded as sea service but that performed "at sea, under the orders of a Department, and in vessels employed by authority of law." It was admitted by Government counsel that the waters of Narragansett Bay came within the definition of "the sea" as laid down by the admiralty courts. But they contended that the words "under the orders of a Department" gave the head of the Department power to determine what was, and what was not, sea service. The court, on the contrary, held that the facts must determine the pay of the officer under the law, and not the Secretary's order. By this rule, counsel for the officers interested are now preparing to test the question whether officers attached to receiving ships, monitors in the James River, and vessels under like conditions are entitled to sea pay.

In the Philbrick case two questions were involved, viz.; 1. The legality of an order of Secretary Welles, issued in 1866, granting officers 33⅓ per cent. (or in some cases 20 per cent.) additional pay as commutation for fuel, lights and quarters, and 2. Whether, if the legality of such order was originally doubtful, it had not been too long acquiesced in by the accounting officers to permit them now to deduct the amounts received under it in settling claims of officers arising out of recent legislation. By the act of March 3, 1835, all allowances beyond the pay fixed therein were prohibited to naval officers, (except for mileage). The act of April 17, 1866, repealed this prohibition so far as it related to allowances for fuel, lights, and quarters; whereupon Secretary Welles fixed a commutation for such allowances at a percentage on the pay of officers as above stated, which commutation continued to be paid until the pay act of July, 1870, now in force was passed, again prohibiting such allowances.

In settling Philbrick's claim for longevity pay under act of March 3, 1883, Comptroller Upton deducted the amount the claimant had received from 1866 to 1870 under Secretary Welles's order, which he held to have been illegal. The court ruled that the order was originally legal and authorized by the act of April 17, 1866, and gave judgment for the amount deducted. The result of this decision is that officers now making claims of any kind will not have them offset by deductions of pay received by them twenty years ago, but to recover amounts deducted by Comptroller Upton officers will be obliged to go into court.

The Rockwell case involved a minor question under what is called the longevity pay clause of the 1st section of the naval appropriation act of March 3, 1883, the main question in which (i. e., whether it was retroactive) was decided three years ago by the Court of Claims in the Hawkins and Jordan cases noticed at the time in the JOURNAL. In those cases no appeal was taken and the Treasury Department has since proceeded with the settlement of claims. Numerous collateral questions have, however, arisen, such as: whether the law applied to retired officers, (settled affirmatively by the Court of Claims in Bradbury's case without appeal); and whether it authorized officers to count for longevity pay service in the Marine Corps, (decided affirmatively by the Court of Claims in Dunn's case, now pending an appeal in the Supreme Court).

In Rockwell's case the point was which was "the lowest grade having graduated pay held by the officer since last entering the Navy," upon which grade the law directed the time of all previous services to be credited.

Rockwell had served as Master, Lieutenant and Lieut.-Commander in the Volunteer Navy and afterwards held the same grades successively in the Regular Navy. None of these grades had graduated pay attached to them until the pay act of July 15, 1870, was passed, giving such graduated pay to all of them. But at that time Rockwell had been promoted from Master to Lieutenant in the Regular Navy. The Comptroller held that the credit for his prior service must go on the grade of Master, as that grade had graduated pay when the act of 1883 was passed, although not when the officer held it. The Court, however, ruled that the credit must be computed on the first grade which the claimant held which had graduated pay at the time he held it, viz., lieutenant. Various other questions may yet arise in the construction of this act necessitating litigation, but what they will becannot now be anticipated.

THE *Standard*, edited by HENRY GEORGE, favors us with its opinion on the subject of military establishments, as follows:

American workingmen ought to set their faces like flint against any attempt to rivet upon them the burdens of armaments. If the United States goes into the policy of building ironclads and erecting steel forts, the result will be to largely increase the class of professional fighting men maintained in idleness, whose influence and whose strength can always be counted on by the Government as against the people—a class who by their education and sympathies learn to look upon the Government as one thing and the people another.

Instead of increasing our standing Army and standing Navy, the policy of American workingmen ought to be not only to gradually reduce what we already have, but to completely change their character. Annapolis and West Point are simply the training schools of aristocrats, and in the distinction between the enlisted man and the commissioned officer we preserve a distinction of the kind that grew up in Europe when it was held that the noble was born to command and the serf to obey. In whatever army or navy we have, the commissioned officers ought to be taken from the men, and the treatment of both be that of American citizens, differing only in the responsibility of the positions they hold in the service of a nation whose cardinal principle it is that all citizens stand upon a footing of absolute equality. Under our present un-American system, the nation is saddled with the maintenance of a horde of officers who hold like leeches to a service that not only yields them good pay for little work, but gives them an aristocratic distinction, while the treatment of enlisted men is such that they run away so fast that it is even proposed to brand them like galley slaves in order to keep them in the service.

It is obvious that what these gentlemen really want is the disbandment of every organized force that can be relied upon to accept the laws as they stand and enforce them, without regard to the opinion of their wisdom which may be held by lawbreakers. They turn against the Regular Army the

popular prejudice against military establishments, and insist that the organized National Guard is not the militia of the Constitution. We observe that General WINGATE has taken the trouble to argue this point with them in a letter addressed to the last number of Mr. GEORGE'S paper. It is a waste of his valuable time, for "No rogue e'er felt the halter draw with good opinion of the law." What is really wanted by these gentlemen is the practical recognition of the state of war which one of their representatives, MARTIN IRONS, declares already exists, and entitles rioters and anarchists to recognition as belligerents, with the concession to them of the right not only to make war, but to make war in defiance of all the well-established and universally recognized principles which govern in time of war. If it were true in any sense that military men desired to establish a despotism of the sword, they would recognize in the teachers of incendiary doctrines their most efficient allies, for they are striving to bring about a condition of things in which the trained soldier always has had, and always will have the advantage.

THE N. Y. *Herald* quotes Mr. C. H. CRAMP as saying:

I should say, as I always have said in statements before the Naval Committee and elsewhere, that I do not think it is the province of Congress to design naval vessels, nor to scheme them, as we say in the business; not even to indicate their dimensions, much less to fix limitations upon their cost. The true and business-like way, so far as Congress is concerned, is simply to make a lump appropriation each year to enable the President to strengthen the naval forces of the country, and then leave it for the Secretary of the Navy, guided by the opinions of his professional staff, to determine the types, classes, armaments, speeds, etc., of the vessels to be built. That is my general answer to your questions. However, I do not see any reasonable prospect that Congress will attempt to break itself of the bad habit it has gotten into of trying to design ships in committee or on the floor. I suppose the country must continue to put up with that.

The idea that shipbuilding is a lost art in this country is absurd. I do not know of anybody outside of the free traders in Congress, and a small group of "English-you-know" officers in the Navy Department, who preach such a doctrine. Within the last three years our firm has built the two fastest steam yachts in the world. I do not say this in self-glorification. It is a well-known fact. The *Atalanta* and the *Peerless* are the fastest steam yachts afloat. Nobody on either side of the ocean disputes that. If the Government of the United States had offered us the same inducements to build cruisers that Jay Gould and Mr. Harkness, of Cleveland, did to build yachts, we would have built for it the fastest cruisers in the world. That is all there is to be said about it."

This is sound and sensible, and is in accordance with the position we have always maintained here. We have had quite enough of Boards and Committees of Congress, but must stumble along as best we can until the country is cured of its misplaced confidence in them. The subject of providing coast defences is befogged in the same way. Let Congress entrust to some one man, say the Lieutenant General, the duty of developing a plan of coast defence, and we will guarantee that we shall see our way clear to sensible action. A moderate amount should be put at his disposal for clerical service and the like, so that he may not be hampered by want of means to gather together and co-ordinate the information already at his disposal in various reports in the archives of the War Department and elsewhere.

COMMANDING officers of posts are directed in General Orders No. 18, series of 1868, "to set apart such suitable public lands as may be available for company or post gardens, for the cultivation and production of vegetables, and to cause the same to be properly cared for." At all posts there is land enough, and to spare, for a flower-garden, and if company or post commanders were allowed to make requisition upon the Subsistence Department for a few flower-seeds it would result in the increased beauty of the surroundings of the garrison. The expense would be small because the tools and implements authorized in the order—a paragraph of which has been quoted above—could be used in the flower-gardens. If an order were sent for flower-seeds accompanying the order for the authorized garden-seeds the additional cost would be so insignificant as to be unappreciable. To obviate the difficulty of disatisfaction felt by many enlisted men regarding extra duty it is recommended that only such men as may be willing to do so be detailed to cultivate the flower-gardens, and that the families of officers be given the opportunity to indulge in the study of floriculture. Many ladies are fond of gardening, but it is very difficult now for them to indulge the passion for flowers in our Army garrisons. Of course anyone in or out of the Army may purchase flower-seeds, but as the post fund is used for the purchase of similar things why should not a little go towards this great factor in the beauty of the garrison? If shade trees can be bought out of the post fund, flower-seeds may perhaps be included in the designation of "garden-seeds," the purchase of which is authorized by regulation.

THE inquiry is often made as to what duty the various Navy officers perform who receive assignments to the National Museum and Smithsonian Institution. Investigation developes the fact that the greater part of their time there is spent in acquiring a knowledge of subjects which will be of use hereafter. For instance: An officer has a taste for natural history—birds, say—but as this branch of science does not receive marked attention at the Naval Academy, he finds his desires far in advance of his capacity, so a course of instruction is prepared of such scope that all its points can be thoroughly acquired in a comparatively short time, and the young officer begins a cruise well equipped for the acquisition of natural history notes, specimens, etc., in a way to really increase the sum total of human knowledge. From the experience of the National Museum it seems that the most difficult objects for the non-professional collector to get are the common, useful and ordinary objects with which a traveller comes in contact. Of rare things, curios, etc., the store is rapidly increasing; but for useful, valuable objects, such as show the every-day life of a people, and which are of educational value, the Museum has to depend upon collectors specially distributed over the world. A trained observer on board each ship in commission would be of great and increasing value, both for the Service and for the Museum.

THE promoters of the bill for the consolidation of the naval bureaus have been successful in getting it before the House, but its opponents have been strong enough to prevent action upon it. Considerable sensation was caused on Monday by Mr. HERBERT'S reading a letter addressed to Mr. HEWITT, in which the writer says that "a very powerful and influential body of naval officers and their friends, is strong enough to hold the balance of power in any case of important action in either House or Senate, and he (the Secretary) cannot afford to force them into a position of positive antagonism." How much there is in this talk we cannot say, but it is clear that there is one thing the Secretary of the Navy cannot afford to do—that is allow his action to be controlled by a cabal of any sort. It takes a new Secretary a long while to become a complete master of the situation in which he finds himself, and by the time he begins to understand it thoroughly his term of office expires. This was the case with the much abused Mr. CHANDLER, and had the unwritten law of political administration permitted of his continuance in office, we should before this have seen some changes that would have benefited a service, which is far too much under the control of cliques of one sort or another. Every naval officer knows this to be the fact, but the remedy for it is not easy to find. One step in the right direction would be the appointment of an assistant secretary, who should, in some form or another, be secured a permanent tenure of office, but this is difficult of accomplishment. Yet we can never have competent naval administration without having the Department under the direction of some man who thoroughly understands all the influences, secret and open, that would control naval administration, and who is, at the same time, independent of them all. But this is an idea difficult, if not impossible of realization.

REFERRING to our remarks upon discipline in the Army a correspondent favors us with the following statement, showing nearly the proportion of trials by general and garrison courts-martial in the different Army divisions and departments, based upon the per cent. of strength of command:

Department of the Platte	78 per cent.
Department of the Columbia	70 per cent.
Division of the Atlantic	67 per cent.
Department of the Dakota	62 per cent.
Department of Texas	58 per cent.
Department of Missouri	54 per cent.
Department of California	46 per cent.

In Arizona the percentage was thirty, but the troops in this department were in the field and occupied. "Why this difference?" asks our correspondent. "Certainly," he says, "it cannot be claimed that the Department of the Missouri or of California has a better class of men. Nor, on the other hand, will it be admitted that the departments showing a greater number of trials are in a better state of discipline, or that their officers hold more rigidly to the requirements of discipline. It is certainly a question hard to determine, but I am of the opinion that the multiplication of trials may be prevented by giving more personal attention to the enlisted men and establishing stronger bonds of sympathy between them and their officers. A little unselfish word in the way of kindly advice to, and friendly interest in the enlisted man will prevent many breaches of discipline which multiply trials, besides establishing a bond of union between the men and their officers which, as history shows, will result in their following them to the imminent deadly breach and obeying their commands with cheerful alacrity."

ON the principle that "misery loves company," we may read with satisfaction this confession of weakness which we find in the London *News*: "Assume that an alliance between France, Russia and Italy enabled their fleets to enter the Clyde, the Medway, or the Mersey, it cannot be pretended that we have any fortifications to stop them. We are riding, in short, at single anchor upon our naval supremacy, and, if that failed us, even for a week, several of our great cities would lie as helplessly in face of an enemy's guns as New York, Philadelphia, San Francisco and Chicago. The same may be said of Melbourne and Sydney, of Montreal and Quebec, of Cape Town and Port Natal, of Calcutta and Bombay." But this naval supremacy means a good deal and we haven't even that to console ourselves with. Our only reliance is upon a child-like confidence—which has no warrant in experience—that we shall be permitted to do pretty much as we please and not be called to account for what we do—"so long as the heart's right," as the thieving deacon said in the story. Our possibility of quick adaptation to new circumstances is a further reliance, but war in these days may prove too quick even for our capacity for prompt action when once aroused.

A MUCH-NEEDED consideration of an important question connected with the U. S. Navy has been committed to a Board, composed of Captains Ramsay and Farquhar and Naval Constructor Hichborn, which is charged with the selection of a suitable type of life-boat for naval purposes. This is a move in the right direction, for naval vessels are, as a general thing, almost totally unprovided with proper appliances for the safety of crew and officers in the event of wreck. From the known ability of the members of the Board, it is fair to assume that this report will be an exhaustive and valuable document, and that in the near future "Life-boat Drill" will take its place alongside of "Rigging in the Dinghy," and "Abandoning Ship." Our attention has been called to a life-boat which has been invented by a gentleman in New York which strikes us as being in advance of anything yet made. As soon as it is secured by patent it will be presented to the Board for their consideration.

A CORRESPONDENT advocates the establishment of regimental schools of instruction for non-commissioned officers, the graduates of which are to be promoted to vacancies in the non commissioned grades as they occur, no matter whether a change of company be caused thereby, etc. This is in the line of *regimental* promotion for non-coms. which we have repeatedly advocated as being for the benefit of the Service. Our correspondent says: "The great object of these appointments from graduates of the school is to break up the existing familiarity between privates and non-commissioned officers which at the present time prevails with few exceptions throughout the entire Army." In some armies such familiarity, off duty as well as on, would speedily end in the breaking of the non-commissioned officer, and captains of companies are especially careful to guard against this unmilitary action. A little strictness in this regard would undoubtedly prove of benefit.

BISMARCK'S recent utterances in the Reichstag evidently suit the London *Daily Telegraph*, for that paper says: "We hold that in the unrivalled military strength of Germany lies the most solid and trustworthy guarantee for the maintenance of the general peace that is so urgently desired and required by this country, as well as by the more civilized and intelligent Continental nations—foremost among them Germany herself. BISMARCK may be heartily congratulated by others than his fellow-countrymen upon having stated his case—which is also that of European tranquillity—with a straightforwardness and vigor that leave no room for misapprehension."

CARLYLE tells the story of the Bernburg regiment at the battle of Liegnitz, fought in 1760. This regiment, despite superhuman efforts to hold its own against overwhelming numbers, had suffered a serious reverse at the siege of Dresden, and FREDERICK the Great, indignant at its conduct, expressed his displeasure by docking the officers' cocked hats of their silver-lace trimmings. Under this infliction the regiment, for some weeks, suffered tortures of mortification and remorse. At Liegnitz the opportunity presented itself of wiping out the stigma affixed to the corps by a King not always over-just in his anger; and the Bernburgers fought so desperately that, at the close of the day, FREDERICK rode up to them on the battlefield, told them that "all should be forgotten and washed out," and restored to them the hat trimmings of which he had previously deprived them. Whereupon, CARLYLE tells us, a peal of sound went out from "the ecstatic throat and heart of that poor regiment," which had lost half its numbers in the fierce effort to reinstate itself in the good opinion of its stern master. This story is used by the London *Telegraph* in a recent article to illustrate the importance to armies of regimental badges of honor and other symbolical distinctions displayed upon colors and uniforms. The English Army, the *Telegraph* says—and the remark applies equally to our own Army—is rarely "en evidence" in its native land; to the civilian its very uniforms are unfamiliar objects; its badges of honor are not "understanded of the people," and therefore fail to attract public attention when an occasion is afforded for their display. As a nation we lack that keen, unflagging sympathy for military men and institutions which is felt for them by the denizens of realms wherein compulsory army service obtains. In well nigh every continental empire and kingdom the average civilian takes as deep an interest in military matters as the actual soldier serving in the ranks; for the former, in ten cases out of twelve, has been what the latter is, what his father was before him, and what his sons will assuredly be in their turn when they shall arrive at the age of manhood.

SOME of our readers may remember the Colonel of an Indiana regiment, whose quaint testimony in the Stanley-Hazen Court-martial occasioned so much amusement. It is told of this same colonel, that on one occasion charges, with over one hundred specifications, were preferred against him. The charges were preferred by a German doctor, whom he had been chaffing. As the surgeon's mastery of English was not complete, nor his knowledge of Court-martial forms, the charges were corrected by the Brigade Commander, General Hazen. One of the charges was that of lying, and one of the innumerable specifications alleged that on some occasion the colonel questioned the doctor's statement that the scenery of the Rhine was the finest in the world, and declared that it did not compare with that of the Hudson. Being asked whether he had ever seen the Rhine, he replied that he knew it thoroughly, as he had once sailed up it in the U. S. frigate *Niagara*, from its mouth to its source, "which statement was untrue, for it is well known that the Rhine is not navigable for vessels of the size of the U. S. frigate *Niagara*." Another specification alleged that the colonel, in reply to the doctor's assertion that the German women were the most intelligent and well educated in the world, declared that they did not compare with the American girls, asserting that he was in constant correspondence with a girl in an Indiana town, and that the letters were all written in Latin and Greek. That the simple German could not understand these specimens of American humor is not strange, but it seems incredible that General Hazen could have assisted in formulating charges based upon them, though we are assured that this is the fact. The trial which followed is described as being "as good as a circus"—several times better indeed. The building in which it was held was crowded long before the hour fixed for the session of the court, and platforms were erected outside, and occupied with eager spectators anxious to catch through the open windows some hint of the performance going on within. We do not know the result, but possibly some of our readers may recall further particulars of this famous Court-martial.

"IT is one of the characteristics of the English nation," says the San Francisco *Report*, "that it may be crowded back almost to the wall, as though it had lost all its old-time pugnacity and resolution till just the moment when its enemy thinks final conquest has been attained. Then, of a sudden, it rouses in an astonishing manner and shows itself in all its old bulldog ferocity and tenacity. England has shown again and again that, no matter what sentiment its ministers may talk or philanthropy its orators may boast of and enjoin, when its commercial empire is endangered it is as fiery as France, as ruthless as Russia, as grimly determined as Germany. There is not much difference between the Englishman of 1886 and his grandfather or great-grandfather of 1801, and he would for similar reasons probably be as prompt in bombarding Constantinople now as he was in bombarding Copenhagen then."

EXECUTIVE DOCUMENT No. 35, 49th Congress, 1st Session, just published by the Public Printer, contains the report of Major F. H. Parker, Ordnance Department, on the "tests of iron and steel and other material for industrial purposes" made with the U. S. testing machine at the Watertown Arsenal during the fiscal year ending June 30, 1884. The report for 1885 has been transmitted to the Senate, but will probably not be in print for at least a year.

Engineering News publishes an excellent likeness of Mr. Wm. E. Worthen, who was elected President of the American Society of Civil Engineers at its annual meeting, held in New York week before last. The *News* gives the statistics of the growth of this society, comparing it with that of the Institution of Civil Engineers, to show that in twenty years the membership of the American Society, which is now 1,019, will equal the present membership of the English Society, which is 5,100. The membership of the English Society was 256 in 1836 and 1,339 in 1866, twenty years ago.

THE London *Daily Telegraph*, referring to the article on "Our Defenceless Coasts," contributed to *Scribner's Magazine* by Captain F. V. Greene, late Engineer Corps, U. S. Army, commends it to the attention of the new Chancellor of the Exchequer, and, after an analysis of the main points of the article, says: "There is not a line in Capt. Greene's thoughtful and exhaustive essay which every Englishman—and under that name we include all who owe allegiance to her Majesty—will not be the better for reading, marking, and inwardly digesting."

2D LIEUT. CHAS. L. POTTER, 5th Cavalry, has been transferred to the vacant 2d lieutenancy in the Engineer Corps, thereby making the chances one less for the star graduates of this year.

SURG. JOS. HUGG will be ordered to appear before the Retiring Board shortly.

CHIEF ENGINEER G. W. MAGEE, U. S. N., has been admitted to the Army and Navy Hospital at Hot Springs.

LIEUT. R. D. WALSHE, Signal Corps, U. S. A., was acquitted by the court-martial at Washington Barracks, before which he was recently tried. The order was published on Friday.

CAPTAIN H. B. ROMEYN, 5th Infantry, and Mrs. Romeyn and Mrs. Miller, wife of Lieut. S. W. Miller, 5th Infantry, of Fort Keogh, took an active part in a Japanese Napkin Sociable recently held at the Presbyterian Church, Miles City. The singing of the captain and the ladies was much applauded.

THE following officers registered at the Navy Department this week: Lieut. J. C. Fremont, Jr.; P. A. Paymaster John Clyde Sullivan, Commander W. C. Wise, Lieut. W. H. Everett, Ensign R. Henderson, Lieut. Commander Felix McCurley, Lieut. W. H. Emory, Jr.; Boatswain Chas. Miller, Chaplain A. A. McAlister, Ensign John E. Craven, Commander Gilbert C. Wiltse, Asst. Engineer F. C. Bieg, Rear Admiral A. K. Hughes.

OF 140 enlisted men now on duty at the office of the Chief Signal Officer, 128 have petitioned Congress to transfer the bureau to the Department of Agricultural Labor. The remaining 12 are printers, who refuse to join in the petition, fearing lest the transfer should result in their work being given to the Public Printer.

SAYS an exchange: "Show us a man that always keeps his subscription well paid up, and we will show you a man that will pick music from a harp in the eternal summerland of song."

GENERAL VERDY, Von Moltke's first adjutant during the Franco Prussian war in 1870, has been appointed Governor of Strasburg.

THE AMBLER TABLET.

THE Ambler tablet has been on exhibition for the past month, in connection with the annual exhibit of the Salmagundi Club, in 23d Street, New York, and has attracted great attention as a work of rare artistic merit, which does equal credit to the good taste of the committee having the matter in charge, and the skill of the artists, Messrs. Joseph Lauber and Charles R. Lamb, of New York. The tablet is a long parallelogram of bronze, 5ft. and 3½ft., and the three features of the design are: first, an excellent likeness of Dr. Ambler, three-quarters size, in profile, which occupies the most prominent position on the tablet; next a representation of the memorable scene in the history of the *Jeannette* Expedition, which occurred in camp on the morning of Oct. 9, 1881, when the doctor declined to leave his sick. These are arranged in a parallelogram below the oval medallion. Finally, on either side of the framework of the border are inscriptions in decorative lettering, giving Dr. Ambler's name and rank—with the legend, "*duty stronger than love of life.*" A happy touch in the arrangement is shown by the northern peribelion light, which is arranged in a long low curve, binding together into one artistic unit these three separate features of the design. The border is a simple yet dignified treatment with classic detail, the acanthus-leaf design being received at the corners. The whole bronze is received within a very simple yet massive frame of oak, which in its curved section carries the eye from the wall up to the tablet itself. In the color scheme the treatment has been a dull bronze, which is rich and deep in effect, the oak being treated in finish so as to harmonize and agree perfectly with the metal. In the entire conception and execution of this memorial, the aim has been to secure in the result something individual, characteristic and personal; in other words, a memorial which will suggest not only the personality of Dr. Ambler, but also his profession and his heroic discharge of duty. The sculptor, having been aided by the personal criticisms of those who were Dr. Ambler's companions, has been able to embody in his work those points of accurate detail as to camp and dress which aid so materially in making the historical part of the tablet truthful and correct.

Military Order of the Loyal Legion.

At a meeting of the Pennsylvania Commandery, held at Philadelphia, Feb. 2, the following were balloted for: Major Harrison Allen, formerly Assistant Surgeon, U. S. Army; Capt. E. F. Barker, U. S. V.; Capt. E. H. Bryan, U. S. V.; Lieut. A. Booz, U. S. V.; Lieut. J. M. Butler, U. S. V.; Capt. J. M. Clapp, U. S. V.; Lieut. J. G. Croxton, U. S. V.; Col. J. H. Clark, U. S. V.; Capt. J. J. Cooper, U. S. V.; Major J. H. Cryer, U. S. V.; Lieut. H. R. Jones, U. S. A., retired; Lieut. B. F. Jennings, U. S. V.; Major J. Lockhart, U. S. V.; Major W. F. Randolph, 5th U. S. Art.; Capt. A. C. Reinoehl, U. S. V.; Gen. Theo. Runyon, U. S. V.; Lieut. J. E. Reilley, U. S. V.; Capt. Thomas Williams, Jr., formerly of the 5th U. S. Art.; Messrs. Dalton Dorr, W. H. Hutt, Spencer Meade, S. W. Mitchell and N. S. Bosbyshell. It is needless to say this commandery is in a most flourishing condition.

At a meeting of the Wisconsin Commandery, held Feb. 2, the following were balloted for: Surgeon J. B. Whiting, U. S. V.; Surgeon H. Pheller, U. S. V., and Gen. G. C. Ginty, U. S. V. Companion Haight read a paper entitled "A Private's Experience at the First Battle of Bull Run."

At a meeting of the Minnesota Commandery, held at Minneapolis, Feb. 2, the following were balloted for: Col. C. G. Edwards, U. S. V.; Lieut. R. L. Moore, U. S. V.; Col. James Compton, U. S. V.; Francis Webb Seeley, formerly Captain 4th U. S. Artillery, and Surgeon C. N. Hewitt, U. S. V. Major G. W. Baird, U. S. A., has been transferred to the Massachusetts Commandery. After the business meeting General E. C. Mason, U. S. A., read an interesting paper entitled "Recollections of a Short Campaign."

The roll of commanderies, with a total membership of each Oct. 31 last, is as follows:

Pennsylvania, 576; Recorder, Col. J. P. Nicholson, 139 South 7th street, Philadelphia.

New York, 573; Recorder, Capt. E. R. Van Winkle, 202 Broadway, New York City.

Maine, 71; Recorder; Lieut. E. M. Rand, 93 Exchange street, Portland.

Massachusetts, 573; Recorder, Col. A. A. Rand, 19 Milk street, Boston.

California, 487; Recorder, Col. W. R. Smedberg, 310 California street, San Francisco.

Wisconsin, 136; Recorder, Mr. Chandler P. Chapman, 200 Langdon street, Madison.

Illinois, 241; Recorder, Col. C. W. Davis, P. O. box 5429 Chicago.

District of Columbia, 351; Recorder, Gen. A. Ordway, 1429 New York Avenue, Washington.

Ohio, 434; Recorder, Lieut. A. H. Matton, Cincinnati.

Michigan, 116; Recorder, Major G. W. Chandler, No. 2 Merritt Block, Detroit.

Minnesota, 112; Recorder, Major G. E. White, 89 Western avenue, St. Paul.

Oregon, 38; Recorder, Capt. G. E. Conklin, P. O. Box 773, Portland.

Missouri, 82; Recorder, Capt. W. R. Hodges, 304 N. 8th street, St. Louis.

Nebraska, 79; Recorder, Major J. M. Brown, Fort Omaha.

Kansas, 94; Recorder, Capt. M. H. Insley, Leavenworth.

Iowa, 20; Recorder, Major H. Sherman, Des Moines.

THE *Republique Francaise* publishes a despatch from Suez which says that in the battles between the Abyssinians and the Italians near Massowah on Jan. 25 and 26, the Abyssinians captured all the guns of the Italians; that of the 480 Italians in the fights not more than 50 escaped, and that the Italians have evacuated all their advanced positions, and the Abyssinians have carried the first line of the Italian entrenchments around Massowah. The latter success, it is stated, was achieved by the Abyssinians on the 27th of January, the day after the destruction of the Italian forces in the field, and the latest intelligence received indicated that it was doubtful whether the Italians would be able to hold out at Massowah until the arrival of reinforcements. Great excitement has been created at Rome by this news, and active measures are being taken to provide reinforcements.

A COMMITTEE, consisting of Major-Generals Sir Evelyn Wood, Henry Brackenbury, E. H. Clive, Colonels Sir Baker Russell, Walker (Scots Guards), H. P. Pearson, Lieut.-Col. Coke, and others, has just reported in England on the question as to which system should be preferred: (1) magazine rifle as a permanent arrangement; (2) magazine removable by an armorer; (3) magazine attachable by soldier when ordered. The matter was freely discussed and settled in one sitting, at which it was decided that the magazine rifle as a permanent arrangement (system No. 1) had certain tactical advantages over the other two.

NAVAL APPROPRIATION BILL.

FOLLOWING is the Naval Appropriation Bill as it was reported to the House from the Naval Committee on Tuesday. The provisos are given in full, and the text of the appropriation for the increase of the Navy:

Pay of Navy	$7,000,000
Pay miscellaneous	205,000
Contingent Navy	7,000
Bureau of Navigation	107,500
Bureau of Ordnance	262,542

For procuring, producing, preserving and handling ordnance material; for the armament of ships; for fuel, tools, material, and labor to be used in the general work of the Ordnance Department; for furniture at magazines, at the ordnance dock, New York, and at the naval ordnance battery proving ground, $120,400; of which sum, $20,400, or so much thereof as may be necessary, may be used, in the discretion of the Secretary of the Navy, for the purchase and completion of three steel-cast, rough-bored and turned, six-inch, high-power rifle cannon, of domestic manufacture, one of which shall be of Bessemer steel, one of open-hearth steel, and one of crucible steel: *Provided*, That the castings for said cannon shall not be paid for until the cannon shall have been completed and have successfully stood the statutory test required by the act of July 26, 1886, entitled "An act making appropriation for the Naval Service for the fiscal year ending June 30, 1887, and for other purposes."

Equipment and Recruiting	649,125
Maintenance and Construction, Yards and Docks	190,000
Two Timber Docks, each not less than 480 ft. long to be located at such Navy-yards as the Secretary may indicate	1,100,000
Rebuilding wharves and floating gate, Boston Yard	56,000
R. Rd. extension and engine-house, Norfolk	20,000
Cistern, Mare Island	46,364
Repairs and Preservation, Yards and Docks	450,000
Erection Naval Observatory	60,000
Civil Establishment, Yards and Docks	5,749
Naval Asylum	63,167
Medicine and Surgery	127,500
Naval Hospital and Sanitarium	50,000
Provisions and Clothing	1,211,000
Construction and Repair	922,700

Provided, That no part of this sum shall be applied to the repairs of any wooden ship when the estimated cost of such repairs, to be appraised by a competent board of Naval officers, shall exceed twenty per centum of the estimated cost, appraised in like manner, of a new ship of the same size and like material: *Provided further*, That nothing herein contained shall deprive the Secretary of the Navy of the authority to order repairs of ships damaged in foreign waters or on the high seas, so far as may be necessary to bring them home: *Provided further*, That the Secretary of the Navy shall sell the *New York*, under the laws and regulations applicable to the sale of condemned property in the Navy Department: *Provided*, That the Secretary of the Navy may employ and pay out of appropriations for new ships such additional draughtsmen on the designs therefor as may be necessary.

Steam Engineering	692,700
Marine Corps	872,936
Naval Academy	293,830

The course of study of naval cadets at the Naval Academy is hereby changed from six years to four years; and the Academic Board of the Naval Academy shall, on or before the 30th of September in each year, separate the first class of naval cadets into two divisions, in the proportion which the aggregate number of vacancies occurring in the preceding fiscal year, ending on the 30th day of June, in the lowest grades of commissioned officers of the line corps of the Navy and Marine Corps, shall bear to the number of vacancies occurring during the same period in the lowest grade of commissioned officers of the Engineer Corps of the Navy; and the cadets so assigned to the first division of the first class shall thereafter pursue a course of study arranged to fit them for service in the line corps of the Navy, and the cadets so assigned to the second division of the first class shall thereafter pursue a separate course of study arranged to fit them for service in the Engineer Corps of the Navy, and the cadets shall thereafter, and until graduation, take rank by merit with those in the same division, according to the merit marks of the four years' course; and the two divisions of the first class shall be graduated at the end of the four years' course; and from the graduates of the first division appointments shall be made hereafter as it shall be necessary to fill vacancies in the lowest grades of commissioned officers of the line corps of the Navy and Marine Corps, and the vacancies in the lowest grade of the commissioned officers of the Engineer Corps of the Navy, shall be filled in like manner by appointments from the graduates of the second division: *Provided*, That no greater number of appointments into the said lowest grades of commissioned officers shall be made each year than shall equal the number of vacancies which shall have occurred in the same grades during the preceding fiscal year, such appointments to be made from the graduates of the year at the conclusion of their four years' course, in the order of merit, as determined by the Academic Board of the Naval Academy; the assignment to the various corps to be made by the Secretary of the Navy, upon the recommendation of the Academic Board; but nothing herein contained shall reduce the number of appointments from such graduates below ten in each year, of which three shall be appointed to the Engineer Corps.

Provided, further, That from the class which graduated at the end of four years in June, 1885, there shall be appointed, in like manner, but after a final graduating examination upon the recommendation of the Academic Board, as many as shall equal the total number of vacancies in the lowest grades of commissioned officers of the several corps occurring in the year ending June 30, 1887, and that from the class which graduates at the end of the four years' course in June, 1886, there shall be appointed in like manner, but after a final graduating examination, as at the end of the present six years' course, upon the recommendation of the Academic Board, as many as shall equal the total number of vacancies in the lowest grades of the commissioned officers of the several corps occurring in the year ending June 30, 1887; and if there be a surplus of graduates in any year, those who do not receive such appointments to the said lowest grades of the Navy and Marine Corps shall be given a certificate of graduation and an honorable discharge; and those cadets who shall be honorably discharged from and out of the classes which completed the four years' course in the years 1885 and 1886 shall be given one year's sea pay, as now provided by law for naval cadets so discharged after the six years' course, and the said one year's pay shall not be given hereafter to other graduates of the four years' course; and if the number of vacancies in the lowest grades aforesaid occurring in any year shall be greater than the number of graduates of that year, the surplus vacancies shall be filled from the graduates of following years as they shall become available; and all parts of laws inconsistent with the provisions herein contained are hereby repealed; and this act shall apply to the class of naval cadets which shall complete the four years' course in June, 1887, and the appointments from that class to the lowest grades of commissioned officers of the Navy shall equal the number of vacancies which shall have occurred in the year ending June 30, 1887; and the act of August 5th, 1882, is hereby amended in so far as it conflicts herewith.

INCREASE OF THE NAVY.

For expenditure towards the construction and completion (exclusive of armament) of the five double-turreted monitors, the four vessels authorized by the act of March 3, 1885, and the vessels authorized by the act of Aug. 3, 1886, $2,500,000.

Vessels and Monitors.—Towards procuring the armament of the vessels authorized by the act of March 3, 1885, of the vessels authorized by Sec. 1 and 2 of the act of Aug. 3, 1886, of the unfinished monitors mentioned in Sec. 3 of the same act, and of the Miantonomoh, $2,128 362.

Towards procuring, testing and delivering the armor for the vessels authorized by Sec. 1 of the act of Aug. 3, 1886, and of the unfinished monitors mentioned in Sec. 3 of the same act, $4,000,000.

To enable the Secretary of the Navy to carry out the recommendation contained in the report of the Naval Board, Capt. J. A. Howell, president, dated June 5, 1886, and purchase one pneumatic gun carriage and necessary attachments, $25,000, or so much thereof as may be necessary, the weight, space and conditions of working to be agreed upon between the Department and the company.

The Secretary of the Navy is hereby authorized to make such transfers of the appropriations made by this act from one bureau to another as may become necessary by reason of any change in existing law, or by reason of any order by the Secretary transferring authority from one bureau to another, and the Secretary of the Navy is hereby authorized to transfer, by written order, any material purchased for any bureau in the Navy Department to, and for use in, any other bureau.

The civil establishment provided for is as follows:

Writers.—Portsmouth, four; Boston, four; New York, three; Washington, two; Norfolk, two; Mare Island, three; Naval Ordnance Ground, Torpedo Station, Pensacola, each one.

Clerks.—New York, four; Washington, three; Portsmoush, three; Boston, three; Norfolk, six; Mare Island, three; League Island, three; Pensacola, one.

Draughtsmen.—Washington, five; Torpedo Station, one; New York, three; Mare Island, two; Norfolk, one.

Foremen.—Washington, two; Portsmouth, one; Boston, one; New York, one; League Island, one; Norfolk, one; Mare Island, two.

Copyists.—Washington, two.

Bell-ringer.—Mare Island, one.

Telegraph Operators.—Washington, one.

Chemist.—Torpedo Station, one.

Superintendent Rope Walk.—Boston, one.

Messengers.—Mare Island, four; Portsmouth, two; Boston, three; New York, four; League Island, one; Washington, one; Norfolk, four; Pensacola, one.

Pilots.—Portsmouth, one; Norfolk, one.

Quartermasters.—New York, one.

WESTERN BOATMEN DURING THE WAR.

IN an article on "Old Time Boating," which appears in the Cincinnati *Commercial Gazette*, a western boatman, writing from St. Louis, sings the praises of the class he represents for the patriotic services rendered by them during the war. He says:

"Wherever there was danger along the water ways of the West there was found the western steamboatman. As long as the story of the war in the West is written and read, so long will the patriotism and courage of men who managed the vessels engaged in the war on the Western rivers be told. Take the history of the three wooden gunboats fitted out at Cincinnati, the first armed vessels afloat on the western waters—the *Lexington*, *Conestoga* and *Tyler*. No vessels of war ever were manned by braver or better men than they were. Among the men who were officers in the merchant marine when the war broke out and who entered the Service on these boats were John A. Duble, Jacob S. Hurd, Edward Shaw, James McCamant, William Ford, David Hiner, John Sebastian, Aaron M. Jordan, Wm. Attenborough, Thos. Cook, Samuel Goble, and many others. These men were under the eyes and orders of such U. S. Navy officers as Stembel, Phelps and Walke. These boats were intended for picket duty of the most dangerous character, and the duty was performed by every one on board in the most intelligent, courageous and satisfactory manner. The ironclads from Cincinnati were officered by the steamboatmen belonging to the merchant marine in time of peace. Among them were Robert K. Riley, James McBride, Marshall H. Ford, Isaac Gough, Samuel H. Lovejoy, John V. Johnson, Richard M. Wade, Wm. Hinton and Daniel Weaver.

"The men on the wooden gunboats went to business early, and all but one stood at their posts bravely, and that one thought he was not doing his duty at his post and sought a more dangerous one, and that desertion pointed him out as the bravest of the brave. William R. Hoel, of Cincinnati, was at the wheel of the gunboat *Lexington* at the battle of Belmont. He headed her right, ran out of the pilot-house with a rifle, and stood upon the deck as a sharpshooter and a target for the enemy. The men on the ironclad saw sights and heard for the first time big guns at Fort Henry and then again at Fort Donelson. At these places they witnessed the baptism of blood that ever after made heroes of them. Gallant things were done by the western steamboatmen. Take the cases of Hoel, who changed from his office of master on one vessel to a pilot on another that he might run a forlorn hope in getting by the batteries of Island No. 10; John V. Johnson and Horace E. Bixby, in taking the desperate chance of spiking the guns of the enemy on Island No. 10; Dan Conway and J. S. McMillan running their transports *Forest Queen* and *Silver Wave* by the batteries of Vicksburg; Sam Williamson and his companion, Tennison, in floating in a canoe through a hostile country that they might communicate with Admiral Farragut and aid in piloting his fleet up the river. These are only specimens of the Western boatmen who took the chances, and they were none the less dangerous because they were successful, and they were successful because of the good judgment of the men who undertook them. Other men gave up their lives where success was far more promising. Never again will such fleets be seen on the Western rivers as were afloat on them in war times. Every navigable stream was alive with boats and soldiers. In the fall of 1861 the Missouri, the Mississippi to Cairo, the Ohio its full length, the Kanawha, the Sandy, Kentucky and Green Rivers were taxed to their capacity to aid in the prosecution of the war on the Union side. The Arkansas, Yazoo, Red, Ouachita and White Rivers were taxed by the Confederates."

THE DOLPHIN AND ENGLISH VESSELS.

"A MARINE ENGINEER," in a letter to the New York *Tribune*, objects to Secretary Whitney's comparison of the speed of the *Dolphin* and *Atlanta* with foreign vessels. "If," he says, "our ships are to be compared with foreign ones, the comparisons should be fair. A load-draught trial should not be compared with a light-draught one; a six-hours' run should not be compared with a spurt over an eleven or a six miles course; the power produced by ordinary steaming coal should not be compared with that got from picked coal, such as the English use for trials. If the Secretary honestly desires to compare the speed of the *Atlanta* with the other vessels mentioned, let him import a few tons of the finest English coal and then send the *Atlanta* on one spurt over the measured mile in smooth water. I would also advise Mr. Whitney to be more careful in making comparisons which mislead people into believing that our ships are so much inferior to those built by other people. I understand that in the Navy Department there is a 'Bureau of Intelligence,' the supposed functions of which are to collect naval information from all over the world. If the Secretary had referred his statements to the officers of that bureau before publishing them, I believe they could have shown him his mistakes; and, perhaps, with their superior facilities, have pointed out more errors than I am able to do with the limited means at my command."

This writer quotes the report of the Belknap Board to show that the highest speed of the *Dolphin* is 15.90 knots, and her horse power 2,240, and enters into an elaborate calculation to prove that the English *Alacrity* under similar conditions can produce but 15.2 knots to 15.8 knots for the *Dolphin*, and that the *Surprise* under like conditions could show but 14.4 knots. He says: "This looks very lean indeed alongside of the 17.8 knots mentioned in the Secretary's report. The English naval authorities are evidently not very proud of the *Surprise*, for on account of her failure to make her designed speed, as I find in the English Service papers, they have decided not to put her to her intended use as an Admiralty yacht, but have fitted her up as a gunboat and assigned her to the oblivion of a foreign station. Now, if the Secretary wishes to test the comparative qualities of the *Dolphin* and the *Surprise*—and both vessels are now in commission—let him send his own despatch boat to the station where the English vessel is now serving; but let him fill her bunkers with the same quality of coal that the *Surprise* may happen to have; let the *Dolphin* leave port with her rival the first time the *Surprise* starts out for a full-speed run for a thousand miles or more, and note the result. If pools are sold on the event I want to put every cent that I can beg, borrow or steal that the *Dolphin* will leave the *Surprise* out of sight in 12 hours or less."

CASUS BELLI AGAIN.

"CASUS BELLI has been the cause of more wars than all the other foreigners in this country put together," said the driver of a Blue Island avenue car as he leaned heavily upon his brake. "Who brought on the revolution? Casus Belli. Who started the war of 1812? Same cuss. Who was it that made us fit the South in '61? Casus Belli. Who was it tried his darndest to git up a war with Mexico? Belli. I see by the mornin' paper that the same beast is figgerin' on a war with England over a mess of fish. In the country where I lived a feller named Bostwick used to go round stirrin' up fights between his neighbors. He had heaps of fun as long as it lasted, but one day late in the fall an uncle of mine and the Kendrick family squatted themselves in a brush heap, and when Bostwick came along they filled him so full of holes that he fell to pieces when they picked him up. I'm for chokin' the gizzard out of this Belli, even if he does come from Roman and Italian stock. He's got no bus'ness in a free country. He's wuss'n Satan. How old is he, anyhow?"—*Chicago Herald.*

NOT ARMY PEOPLE.

To the Editor of the Army and Navy Journal:

The enclosed, cut from the Chicago *Times* of Jan. 30th, is interesting either as a sample of the "whoppers" these Washington correspondents like to tell of "Army people," or as a specimen of the mistakes that can be made in the best regulated families:

The Misses West, daughters of the British Minister, gave a "musicale" to which only a few intimate friends were invited by word of mouth. There was no scattering of cards miscellaneously, but the young ladies went in person to ask their friends verbally, so, of course, they knew exactly who was bid and who was not. Lo and behold, however, in the midst of the entertainment entered a party of ladies, three or four in number, who were recognized as "Army people"—that is, belonging to the families of Army officers, to whom no invitations had been issued. They were greeted politely by Miss West, who asked their names and offered them seats.

After a few words with the strangers, the hostess turned aside to a friend and remarked with evident embarrassment that the new arrivals had not been asked to the "musicale," and that she was resolved to give them a broad hint that they were not wanted. She said that at a recent evening entertainment given by her father a number of uninvited people had intruded, and it had been decided that the line of toleration had been passed. Turning back to her self-invited guests, she said: "Ladies, you have evidently made some mistake; this is not my reception day; I am giving a small private entertainment to my particular friends, and under these circumstances I don't think you will care to remain."

There was no ignoring this hint, of course, so the party of uninvited, in sad and humiliated single file, disappeared through the open door to the more hospitable outer air. It was a gross outrage of the haughty English aristocracy to free America, but society applauds none the less, and it is generally expected that free America will be a little less free hereafter.

I would like to bet that if these were "Army people," they were there to make an ordinary call, in ignorance of the fact that a "musicale" was in contemplation. More likely, however, they are not "Army people" at all. STAF.

MME. MODJESKA is credited with saying that Boston is so English a city that if Queen Victoria were to become the owner of America and went there, the Bostonians would promptly welcome her and say: "Here we are; we have been waiting for you all these years, and are your ever-faithful subjects."

THE FRENCH ARMY v. THE GERMAN.

To the Editor of the Army and Navy Journal:

THE ARMY AND NAVY JOURNAL tells so many anecdotes, etc., to the disparagement of the French Army that it would be nothing but fair to publish the fact that the French cavalry rescued the English at Balaklava, and without d'Allonville and his 200 men of the 4th Chasseurs, Cardigan and his 600 would not have come back from the Valley of Death. (See 2d vol. of Kinglake, who certainly is not partial on the side of France.)

The French cavalry defeated at Solferino the renowned Hungarians. What! were they third class men, the cuirassiers of Reichoffen? the dragoons of Gravelotte? and the men that at Sedan caused our great Sheridan (a connoisseur in cavalry charges) to exclaim: "Oh! the brave men: they go to charge." There also was:

> Cannon to the right of them,
> Cannon to the left of them,
> Cannon to the front of them.

Where ever has cavalry captured a fleet as the cavalry of Pichegru in Holland? Where ever has cavalry taken fortified towns as the French cavalry did in Germany in 1806? Erfurth surrendering with a prince, a field marshal, and 14,000 men, 120 cannons, to the dragoons of Milhau, and Blucher escaping at Weissensee by lying to a French general; Spandau surrendering to the hussars of Lassalle, and General Hohenlohe surrendering at Prentzlow with two princes, 16,000 infantry and 3,000 horse, forty-five flags and sixty-two horse pieces; Stettin surrendering to the same hussars of Lassalle, and the hero, Blucher, taken in his turn near Lubeck, etc., etc.; to the point that Napoleon wrote to Murat, "If your cavalry takes fortified places I will have to disband my heavy artillery."

Who doesn't remember the Duke of Brunswick before Volnay saying: "It would be a disgrace for my cavalry to draw sabres to beat these Paris cobblers; horse whips will be good enough?" and this same army recrossing the Rhine before those cobblers.

In 1870 the French were beaten by the Germans. Let us see: At Worth 45,000 French under McMahon resisted all day 147,000 Germans under the Crown Prince. The French charged the German line eleven times, each time breaking it, but always finding a fresh mass behind.

An American officer has said (published in the ARMY AND NAVY JOURNAL some years ago, in answer to Gen. Hazen's book, "The School and Armies in Germany and France"): "He (Hazen) ascribes the failure of the French, the triumph of the Germans, to nothing but the difference of education, even while he himself shows that the one nation had 250,000 men or less to oppose to the 600,000 of the other. No mistake is more common, none more shallow, than to glorify victory unduly from wrong causes. Where would the boasted schools of the German have been had the advantage of numbers been reversed? Gen. Von Moltke has been praised up to the skies of late as a perfect general, but where would he have been had his been the inferior force; his enemies more than twice as numerous? When Von Moltke can take a small army, like Napoleon in 1796, and like Turenne, the terror of Germany under Louis XIV., and beat several large ones, it will be time to call him a great general."

If the French soldiers are third rate, why the dread of the Germans, the alarm of Bismarck and Von Moltke, calling for more soldiers, always pointing to France?

Frogs smothered in sauer kraut may be a good dish, but it is indigestible; the Germans are sick of it since 1870, and never will they be cured as long as Strasbourg and Metz are not disgorged.

Next spring, in all probability, they will be again face to face—the conquerors and the conquered of 1870. But this time in equal number, man for man, cannon for cannon, France may fall, but it is like lightning, that rises to strike again.

As I am an Alsatian, I ask myself, what is the German Fatherland? Is it Bismarck? No, Germany is no more, absorbed as she is by Prussia. But—

> When Bismarck, Moltke, William gone,
> No more to victory lead you on,
> Then bitter shall the waking be
> Of your united Germany!
> For ye have ta'en the Prussian's yoke,
> And you have dealt the Prussian's stroke,
> And you have licked the Prussian's hand,
> And Prussia is your Fatherland.

FRANCO-AMERICAN SOLDIER.

FORT BOWIE, A. T., Jan. 2, 1887.

RECRUITING FOR THE MEXICAN ARMY.

PALMER HOUSE,
PHILADELPHIA, PA., Jan. 22, 1887.

To the Editor of the Army and Navy Journal:

DURING my visit here on leave of absence I have read in the JOURNAL of Jan. 22 the statement of the Cheyenne *Leader*, that a colonel of the Mexican Army, who was short of men, sent fifty troopers into a Señora town and ran down thirty or forty citizens, locked them up on a bogus charge of drunkenness, and had them sentenced to serve one year in the army. Allow me to state, to the honor of the Mexican Government and army, that such a method of recruiting for the Mexican service is entirely unnecessary. There are seven convict regiments (infantry) in the Mexican Army, and convicts sentenced to short terms may, by proving former good character, be allowed to serve their terms in the army. When a number of convicts are assigned to a regiment the colonel or other commanding officer, as the case may be, sends a detachment to the jail to escort them to their regiments. This custom, no doubt, gives rise to the statement of the Cheyenne *Leader*.

EDWIN EVERHART,
Lieutenant 9th Mexican Infantry,
late Sergeant Co. A, 17th U. S. Infantry.

WIFE (head out of second-story window)—Is that you, John Smith?

Husband (at front door)—Yesh, m' dear.

Wife—Well, say chrysanthemum, or you don't get into this house to-night.

Husband (heroically)—Ch-Chran-sythemum, m' dear.

Wife (banging down the window)—Good night.—*New York Sun.*

THE STATE TROOPS.

NATIONAL RIFLE ASSOCIATION.

A SPECIAL meeting of the Board of Directors of the National Rifle Association was held on Thursday 27th, to hear the report of a committee appointed to examine a plot of ground on Staten Island that has been offered to the Association for a rifle range. For a long time there has been a strong feeling against Creedmoor on account of the high rate of fare charged by the Long Island R. R. Co., and the great amount of time required in getting to and from the range. In view of these facts, Lieut. Zalinski, who is an untiring worker, has been quietly examining several sites that might answer the purpose of a rifle range. In his report, as chairman of the committee, he stated that he had succeeded in securing the refusal of a piece of ground containing 100 acres, that he considered admirably adapted for a range, and that Mr. Wyman, on behalf of the Staten Island Rapid Transit Co., had guaranteed to sell round trip tickets for thirty cents each, and, also, to erect a station on the railroad within five minutes walk of the range, where all trains would stop. Lieut. Zalinski also stated that he had been promised several thousand dollars towards the purchase money if the Association decided to buy the property and that he thought that the balance of the money could be raised by an appeal to the public. The meeting was adjourned to Feb. 15, and meanwhile a survey of the ground will be made by a Government engineer.

THE TROUBLES IN THE THIRTEENTH NEW YORK

THE trial of 1st Lieut. Russell Benedict, of Co. H, 13th Regiment, on charges preferred by Col. Edward Fackner, was begun Friday evening, Jan. 28, at the 14th Regiment Armory, the court consisting of Col. H. W. Michell, 14th Regiment; Capt. Henry S. Rasquin, Gatling Battery, and Lieut. A. A. Thompson, Quartermaster, 23d Regiment, with Major W. W. Goodrich, Judge-Advocate. The charges are based partly on a telegram purporting to have come from Lieut. Benedict to Col. Fackner, dated Dallas, Tex., Sept. 26, 1886, and having reference to the arrest of Lieut. Wm. K. Smith, of Co. H. The message read as follows: "Unless Smith is instantly released you will force me to retaliate. Such contemptible tactics to smother opposition cannot succeed." The accused is also charged with having disobeyed orders. Lieut. Benedict did not appear personally or by counsel, but sent a letter saying that he could not come, as he was denied access to the armory where his uniform was stored. The Judge-Advocate said that if Lieut. Benedict had so desired he could have obtained his uniform; the Colonel would have given leave for the company room to be entered for that purpose. Besides, there was nothing in the Code or Regulations preventing Lieut. Benedict from appearing before the court without his uniform. The witnesses had been subpœnaed and were present, and it was for the court to say whether the trial should go on that evening. The court decided to proceed with the trial.

Testimony was taken to show the service of the charges and specifications and the receipt of the telegram and disobedience of the accused to direct orders from his colonel. Col. Fackner testified that in answer to a written request that he should meet him at the armory, Lieut. Benedict replied: "I beg leave to state that I do not recognize any right residing in you to order me to meet you at any time or place except for the performance of military duty pursuant to law." Subsequently the Colonel saw the Lieutenant and asked him if he sent the telegram and he refused to answer. On Oct. 8 the Lieutenant was placed under arrest. Col. Fackner also stated that at a meeting of the Council of Officers, after Lieut. Benedict had been placed under arrest and limited to the quarters of his company, the Lieutenant was ordered by him (the Colonel) to leave the room, which he refused to do.

CARELESS SELECTION OF OFFICERS.

MANY of those who manage to obtain commissions in the National Guard prove utterly incompetent as officers. The Inspector General's Department refers to this evil in its annual report. The ordinary observer meets with evidence of its existence in every direction. Examining Boards have so far proven ineffective guards against it. To correct this evil a different system is needed. Examining Boards, as existing at present, should be abolished, and in their stead institutions established in which those who are ambitious to obtain commissions in the National Guard could be instructed in the ordinary duties of which the average company officer should have a knowledge. The pupils should be taken from the ranks of the State troops and after successfully passing through a regular course should be provided with certificates to that effect. To this class the election of officers should be confined. This is only a rough outline suggestion, the details and particulars, the course of study, its length, etc., would have to be determined upon before the plan could be put in operation. At all events the subject is worthy of consideration and no matter in what shape put into effect it would certainly prove a more effective means of securing competent officers than the system of Examining Boards.

STREET MARCHING.

STREET marching in company front with ranks closed to 16 inches, in cadence step, properly belongs to an era long passed. But State troops still keep up the custom with a zeal worthy of a better cause. The absurdity of the custom has often been demonstrated, and there is probably no subject upon which so much criticism has been expended. The troops don't like it, but they keep it up nevertheless, because a few organizations which set the style do not feel like giving up the practice. It is 7th Regiment, you know, and to differ from that renowned organization is to court condemnation and contempt from the sisters, cousins and aunts of the National Guard. Therefore it is thought better to remain miserable by submitting to a rule long condemned by all sensible people than to become comfortable by adopting a custom reasonable and in accordance with modern military ideas. The march in closed ranks is only intended for smooth ground and not for city pavements. Even on the smoothest ground the march with ranks closed up to 16 inches causes a severe strain, particularly on the rear rank. Complaints of the sufferings of the men on such marches are heard from all sides.

Street parades generally occur in the hot season of the year. What a violation of all sanitary rules to cause men to march packed close like sardines, condemning them to breathe an atmosphere reeking with human effluvia. In the best drilled organizations the rear rank never presents a firm, solid appearance. The step is minced and uneven, and the men become nervous from constant strain. With a view to such cases the increase of distance between ranks in tactics to 32 inches on rough ground was doubtless introduced. Admitting that street parades in company front must be kept up there seems certainly no reason against the adoption of the increased distance which would obviate to a large extent the evils above enumerated. Give the men in the rear rank the chance to take a full, swinging step, to preserve a steady alignment and let them have the same opportunities to show off those of the front rank. If desired, ranks could be closed as the reviewing stand is passed.

AVAILABILITY OF THE NEW YORK GUARD.

IN response to inquiries as to the available strength of the militia in New York and Brooklyn, we avail ourselves of this statement, which we find in the Brooklyn *Eagle*:

There are in New York and Brooklyn 13 regiments of infantry and three batteries of artillery. The enrolled strength of the force is, in round numbers, 8,500 officers and men. New York, 5,500; Brooklyn, 3,000. Eighty per cent., under ordinary conditions, is duty doing. Under extraordinary conditions the percentage, as experience proves, would be somewhat larger. New York has eight regiments, numbering from 450 to 1,000 members each, and two batteries of artillery. The infantry organizations are armed with Remington breech-loading rifles; one of the batteries has an armament of four Gatling or machine guns, the other a park of six rifled field guns of the Napoleon pattern. In Brooklyn there are five regiments of infantry, similarly armed, and a single battery; but in the case of the latter the organization is capable of expansion into two batteries, since it is not only equipped with four machine guns of the latest improved pattern, but it has also an armament of four 12-pound howitzers. In each of the armories occupied by these organizations there is kept constantly on hand an abundant supply of ammunition; for the artillery the necessary fixed ammunition for the machine guns, and solid shot and canister for the rifled guns and howitzers are kept in store. At the State Arsenal the reserve supply of arms is ample to equip a second force of militia at short notice, while close upon 500,000 rounds of ammunition are always at hand in its magazine.

At the sounding of a preconcerted signal, such as the ringing of 12 strokes upon the fire alarm bells of the two cities, the entire force would assemble in their armories. If needful only to call into requisition the services of one or more organizations, the employment of the telephone and the telegraph would speedily accomplish the desired result. The latter method has, on a number of occasions, been experimentally tested, and in every instance has been found to work to the fullest satisfaction.

The rank and file have been educated to the point where they are competent to deliver effective and telling fire when shooting in mass. Further than this again, the National Guard has of late years been carefully instructed in tactics specially designed for street riot duty; the education imparted at the State Camp of Instruction has made officers and men fairly familiar with the principles of "open order" formations, and the same field has given them practical insight into what is demanded of a soldier charged with the important trust of standing guard over valuable interest involving life and property. The reliability of the volunteer militia of these two cities were never greater than at the present time.

NATIONAL GUARD ASSOCIATION.

The convention of the National Guard Association finished its business Wednesday afternoon by electing the following officers for the ensuing year: President, Col. Harry W. Michell, 14th Regt., Brooklyn; first vice president, Lt.-Col. Samuel M. Welch, Jr., 65th Regt., Buffalo; second vice president, Capt. Laurel L. Olmsted, 6th Bat., Binghamton; recording secretary, Col. Abram B. Lawrence, supernumerary, Warsaw; corresponding secretary, Major Geo. W. Collins, surgeon, 11th Regt., N. Y.; treasurer; Lt. D. Wilson, 2d Bat., New York; chaplain, Capt. Newland Maynard, 47th Regt. Capt. Henry S. Rasquin presented his report as treasurer for the past year. It showed that the receipts amounted to $907 and the disbursements to $483. The convention adopted a large number of amendments to the code of more or less importance. These related to all manner of details concerning the pay and equipment of various officers, as well as to method of discharging and re-enlisting members, etc.

Col. Scott's motion to restore the law exempting old officers from taxation was reported unfavorably by the committee. Gen. McLeer ridiculed the proposition, which was finally tabled. A proposition to increase the term of service from five to seven years was rejected. After a lengthy and stubbornly contested fight the convention decided, by a vote of 40 for to 36 against, that it was expedient that all company non-commissioned officers should be appointed instead of elected, as now. The convention took strong ground against enlisted men being detailed to brigade headquarters for signal corps or "first aid to the injured" duty, but refused to farther the proposition of General McLeer that good men discharged for the good of the service should be credited with the time already served by them. The members of the association resolved themselves into a committee of the whole to urge upon the member of the Legislature from their respective localities the necessity of appropriating $500,000 as a minimum allowance for the support of the National Guard during the current military year.

Among the propositions submitted to the convention was Col. Gaylor's, providing an allowance of $8 a year for officers who perform the required five parades during the year. A proposition for a permanent adjutant general was made, and that adjutants, quartermasters and commissaries have the rank of captain. It was also proposed that judge advocates retire when courts-martial wish to deliberate, and that four gun batteries be allowed $1,000 per year instead of $750 and $1,250 per year to six gun batteries. Col. Finkelmeier, of the 32d Regt., asked that a silver bar instead of the present bronze decoration be given to marksmen qualifying for five years and over.

General Chas. F. Robbins, General Inspector of Rifle Practice, was appointed chairman of a committee to be appointed by himself to select a new arm for the Guard.

Hereafter the convention will be held between the 1st and 15th of January. A reception to Gov. Hill, the brigade commanders and members of the association was given by Col. J. V. L. Pruyn.

Thirteenth N. Y.—Lieut.-Col. Edward Fackner.

THE review on the occasion of the marksman's badge presentation to the 13th, N. Y., on Monday evening, Jan. 31, was not an imposing one. The company fronts were only 12 files, which is remarkably small for an organization of this kind, nor was the passage effected with precision such as we have witnessed in this regiment on former occasions. The distances in several instances were bad, the step irregular and the whole was not a success. A number of men who had been thrown out for equalization afterwards joined the ranks for dress parade, but even this did not have the effect of giving the regiment an imposing appearance. The regiment having no Lieut.-Colonel and the Major being unavailable at present, the command of the dress parade was dele-

gated to the senior captain, W. S. Watson, who made a grand showing so far as his own bearing and commands were concerned. The dress parade, while better than the review, fell far short of being a stirring affair. Brig.-Gen. Chas. F. Robbins presented the badges in person and prefaced his action with a brief speech.

Twelfth New York.—Col. J. H. Jones.

FLUSHED with the success, especially of the 2d battalion drill of the 12th New York, described in our last week's issue, several enthusiasts prophesied that the next drill (Cos. C, F and I) on the following evening, Thursday, Jan. 27, would be the best of all. The prophets were mistaken, however. While the officers, doubtless, were as full of good intentions as those on any previous occasion, only a glance was necessary to show that the men fell as a rule short in military bearing, that the step lacked elasticity and firmness, the pieces were not handled with snap, and distances not correctly observed. The captain of Co. C on this occasion hardly achieved as good results with his own men as he did on the night previous, when he acted as an auxilary officer, with a company who were strangers to him and his methods. The captain of Co. I, who had the right, and was out for the first time in the season, did not seem to have read up well. He certainly was frequently not certain as to the correctness of his actions, would hesitate in taking his positions, delay movements, and deprive the drill of that appearance of smoothness and exactness, which can only be attained when every movement is executed with the regularity of clockwork, and everybody drops into his proper place with promptness without requiring to be prompted. The officers of the 12th in general military knowledge, standing, intelligence and appearance compare well with the best in the State service. Taking, on the contrary, the non-commissioned officers and comparing them, for instance, with those of the 22d, there is a vast difference in favor of the latter. There are exceptions in every company of the 12th, and to those we do not refer, but as a rule the non-commissioned officers neither exhibit that smartness and tidiness in their appearance, nor in their movements that alertness, which are necessary for the makeup of a soldier, and which go so far towards building up an organization. As a rule, especially the left guides were remarkably slow in coming on the line whenever the movement required it, and they were defective in the knowledge of their duties during the different wheelings, etc. The three companies were equalized into four of 12 files front, and the movements of the first portion of the drill were similar to that of those of the drill of January, for which reason we did not take specific notes. The defect of this portion of it lay not so much in actual errors, as in the irregular appearance of the whole, due more to the actions of the men than that of the officers. The colonel found it necessary to intimate to the first captain that in general alignments the captains take their places on the flanks of their companies at the command guides on the line. (Par. 405, page 170.)

The second portion of the drill was under command of Lt. Col. Heman Dowd, who began with a wheel from line into column of companies. A few pivot guides instead of standing fast, turned with their companies, which is wrong according to the principles governing wheels on fixed pivot, etc. (Par. 433 of the Tactics.) In fact it seems from that paragraph that in all wheels from line into column of subdivision, whether on the march or from a halt, the pivot guides stand fast. In a close column formation with the battalion inverted the commander of the original right company made the blunder of moving forward, but the mistake was rectified before any serious confusion resulted. Deployment on 2d company, and a break into column of fours from line by companies column left were fair, but a wheel into line by fours was executed with abominable distances. March in column of companies was good, but in wheeling into line several pivot guides neglected to stand fast. After executing fours right about in column of companies, the distances were very bad, and the same was the case after the battalion had executed several passages from battalion column of fours into company column of fours and the reverse, by the command companies column right. Right of companies rear into column was good, while a change of direction by the right flank and a deployment in double column were executed with much credit. The firings in coming into line on the right were well done collectively; individually the old fault might have been found. Double column with deployment was well done, but a reference to par. 508 will show that the command is not "on 1st division" deploy column, fours right and left march, as it was given here, but simply deploy column, etc., etc. After this several close column formations and deployments on interior companies, marches in fours, advances and retreats in line, etc., were well done, but the drill wound up with the mistake that during an about by fours in line half of the battalion executed the movement to the right and half to the left. While Col. Dowd was drilling the 1st lieutenants were in command of companies.

Fourteenth New York.—Col. Harry W. Michell.

A GOLD badge, offered by 2d Lieut. C. C. Wallace, of Co. I, 14th N. Y., to the best drilled man of the company, has been won by Private Chas. J. Painter. The judges were Adjutant Alfred B. Campbell, 1st Lieut. John H. Curran, of Co. E, and 2d Lieut. Gilbert Lloyd, of Co. E. The competition took place last week, and eight files entered.

A promenade concert, by Louis Conterno, Bandmaster, will be given at the armory Feb. 9. Co. K will have a stag racket there Feb. 16. The annual reception, review and dress parade of Co. C will take place at Schiellein's Hall, East New York, on Feb. 17. Col. Michell has issued a circular calling attention to the details of the plan of organization of the Ambulance Corps in connection with the regiments of the 2d Brigade, as arranged by the Brigade Surgeon, Major George R. Fowler, M. D. A series of eight lectures is to be given at the armory during the drill season, by the regimental surgeon and assistant surgeon, comprising practical instruction in "First Aid to the Injured," treatment of emergencies, etc. At the end of the course the three passing the best examination, whether the three men detailed from each company or volunteers, will be assigned to the Regimental Ambulance Corps for the ensuing year. All who attend the lectures and pass the examination will have conferred upon them a certificate of proficiency in rendering first aid to the injured, and will be entitled to wear a special badge at all times, by virtue of which they will be recognized in any emergency as qualified and entitled to render special aid in the absence of a physician or surgeon. Those assigned to the Ambulance Corps will wear an additional insignia upon the left arm, consisting of a red cross upon a white field. The lecture, inaugurating the regular course, was given by the Regimental Surgeon, Dr. J. Freeman Atwood, in the Veterans' Room at the armory on Friday evening, Jan. 28.

Twenty-third New York.—Col. Chas. L. Fincke.

The following letter explains itself:

STATE OF NEW YORK, DEPARTMENT OF RIFLE PRACTICE, NEW YORK, Jan. 19, 1887.

The Commanding Officer, Co. I, 23d Regiment, N. G., S. N. Y.:

SIR: I feel a peculiar pleasure in being able to notify you that Co. I, 23d Regiment, with a figure of merit of 80.07 per cent., stands at the head of the 2d Brigade and is entitled to a prize valued at $50. I shall be pleased to have you select such article as you think best for the purpose. You should be proud of Co. I. I have watched with great interest its advancement and the zeal and care with which they have been taught this important part of a soldier's duty. Without being invidious, I cannot but refer with commendation to the great aid which has been rendered yourself and officers and the service by Sergt. W. A. Stokes, to whom is due this slight notice of my appreciation of his efforts.

I am, sir, very respectfully yours,
CHARLES F. ROBBINS.

Colonel Charles L. Fincke, of the 23d New York has met with a sad bereavement through the death of his father, which occurred at Brooklyn, on Monday, Jan. 31.

Seventy-first New York.—Col. E. A. McAlpin.

THE battalion drill on Tuesday, Feb. 1 (four companies of twelve files each), was the first we have seen in this armory for several years. While the drill, to say the least, turned out a remarkable one, it is but fair to say that it would not be just to expect much from the regiment in the marching line, because there is hardly any room, and what little there is is divided into two compartments with half a dozen connecting arches not larger than ordinary doors. Through these the battalion has constantly to pass, leaving it at no time without obstacles, always running against something or other. Regular marching is, therefore, out of the question. We did not see the original formation, but from what was done afterwards it must have been a curious one. First came a general alignment. Lieut.-Col. A. D. Palmer, who was in command, gave his orders from the front of the battalion instead of going to the flank, according to par. 405, and directed the two general guides to face inwards, which instruction was wrong, because one should face in the direction of the flank where the colonel takes his place. The company commanders did not take their positions at the command guides on the line, but waited until the command dress, and then those in the left wing at least went to the outside flanks of their companies, which mistake was not corrected by the instructor. One captain repeated the command dress. At this point the instructor made the officers fall out and directed the 1st sergeants to march off their companies. Several of the 1st sergeants seemed to be in doubt as to whether to take their positions as leading guides, and the manœuvre was consequently awkwardly performed. Of course, the 1st sergeants acting as company commanders, the sergeants next in rank should have acted as guides. The formation which followed was no formation at all. The companies came on without regard to proper time or place, or position of the colors, nor was any attention paid to the rules governing the timing of the support.

While the next formation was a little better, yet the companies arrived raggedly, with the color company inverted. The instructor, however, announced his satisfaction, and brought the colors into place by making the color guard step to the front and dovetailing them in between the 2d and 3d companies. This was not a skillful tactical manœuvre, but we presume it answered the purpose. Why these formations were put on the shoulders of the poor sergeants is hardly clear, because the general awkwardness displayed by the officers before and after these manœuvres rather indicated that a little instruction of this kind would have been a very proper thing in their cases. When an advance in line was ordered, the two general guides in placing themselves in front first faced inward, but recovered themselves in time for the command, March. At the command colors and guides post, the commander of the 3d company came dodging out of the interval left by the color sergeant. How he came there and what he was doing there, is a mystery which no fellow can explain. After this the ranks were opened for the manual, which, by the numbers, was bad, but without the numbers, fair.

The marching we pass over without criticism, so far as the men are concerned, because they evidently did as well as they could, and loss of distance was unavoidable. It is difficult to understand what good the almost interminable rush in double time, in through one arch and out through the other, without regularity or precision, could bring about, nor is it clear whence the instructor derived his authority for putting the battalion from a mark time through the side step. We have recently said so much about the defects shown during the firings at other battalion drills, that we refrain from referring to the matter in detail, although the defects were more prominent here than at any drill witnessed elsewhere.

In order to fire to the rear, it is not tactical to give the command about-face, and thus bring the rear rank in front, as was done here. To face an organization to the rear for such purposes, the about-by-fours is prescribed in the Tactics, and should be adhered to. It was a queerly-handled and queerly-executed drill, but it demonstrated clearly that the officers sadly need to be put through a course of instruction, and that the instructor had not read up well. He, however, found occasion to congratulate the battalion on its progress over former years, and from this it seems to be a difficult matter to form an estimate as to what sort of battalion drills must have taken place in times past.

(Correspondence of the Army and Navy Journal.)

SECOND SEPARATE CO., N. Y.—CAPT. W. M. KIRBY.

THE presentation of marksmen badges to those members of the 2d Separate Company who were fortunate enough to win them at the ranges last season, occurred in the large drill room of the company's armory Tuesday night, Jan. 25, and the occasion was celebrated by an armory parade and battalion drill, Capt. W. M. Kirby in command. The company was divided into four companies of eight files front, double rank, solid, commanded by 2d Lieut. Dunning and the first, second and third duty sergeants, the first sergeants acting as adjutant with a corporal detailed for sergeant-major. The first formation was ragged, unnecessary manœuvres being gone through with by the commandants of the two left companies in bringing their commands on the line. The order to retire and reform was given and the second formation was a model of excellence, the company commandants and the guides, many of whom had never acted in such capacity before, performing their part of the ceremony without error. After a rear open order, the ceremony of badge presentation followed, the men stepping forward as their names were called and forming in six ranks, those having qualified six or more times in the first rank, the other ranks being composed of those who had qualified five, four, three, two and one times, respectively. This ceremony over, the battalion was re-formed and a drill in the manual was followed by a drill in battalion movements, wheeling of companies into column and line, from a halt and on the march, marching in column of companies with change of direction, column of fours, breaking into column of companies to the left by successive formation and to the rear from line, on right into line from column of fours, and, in fact, about all the movements that could well be executed by so large a battalion in so limited a space. All were executed in a most satisfactory manner with one or two minor exceptions, one comapny getting lost because it interpreted an order a little different from its commandant.

The parade and drill was witnessed by as many citizens as could be accommodated in the drill room.

This company with a roster of 100 has a percentage of 84.17 in marksmanship, the highest of any organization in the 4th Brigade, and is, therefore, entitled to the $50 prize offered by the Department of Rifle Practice. QUIS?

In his annual report the Inspector-General says of the inspection of this company: Present, 95 (95 per cent.); "military appearance and discipline excellent; ceremony of inspection very handsomely conducted; men very steady; drill in schools of soldier and company marked with precision and life. The company maintains its high standard in all that appertains to a first-class organization and is reliable in every way."

MILITIA ITEMS.

The 7th Regiment Veterans mustered in force at Mazzetti's on the evening of Jan. 29 to present Dr. Wm. B. Freeman, hospital steward of the command, with a gold and diamond studded cross of honor. He joined Co. F in December, 1851, and has seen continuous service since that time.

The members of Co. C, 13th N. Y., are preparing for the production of the well-known war drama "Her Atonement," the characters to be filled by members of the company.

The annual reunion of Gen. Jeremiah V. Meserole's staff, composed of those who were with him at the time he resigned the command of the 11th Brigade, took place Jan. 28, at the Brooklyn Club. Gen. John B. Woodward was the special guest of the occasion.

In Order No. 2, Col. Louis Finkelmeier, of the 32d N. Y., says: "The commanding officer of Co. G is commended for the promptness with which he forwarded all his reports and returns and for their correctness and neatness during the past year."

It is proposed that the 32d Regt., N. G., S. N. Y., should march to the State Camp at Peekskill this year. The officers have been discussing the project, and are very much in favor of the march.

The fifty-fourth annual reception of the veteran, honorary and active members of the Washington Light Battery, 2d Battery, 1st Brigade, N. G., S. N. Y., formerly the old Washington Gray Troop, will be held at the Cosmopolitan Hall, Broadway and 41st St., Tuesday evening, Feb. 22, 1887, at 9 o'clock. Military guests are requested to appear in uniform. The Executive Committee are Capt. Ferdinand P. Earle, Chairman; Lieut. David Wilson, Lieut. Henry L. Jordan, Lieut. George E. Pasco and Lieut. and Asst. Surgeon E. A. Bracklow.

The French and Belgian authorities have cordially granted the request of the Gate City Guard, of Atlanta, that they may appear within their respective jurisdictions in uniform. They expect to sail June 18 instead of July 2, as was at first intended. Returning they will leave Antwerp Aug. 6. In case of war with England it will be of great advantage to have so formidable a military force within striking distance of the English ports.

The 13th Regiment, Brooklyn, was reviewed at its armory, on Flatbush avenue, Monday evening, and Gen. Charles F. Robbins, General Inspector of Rifle Practice of this State, awarded marksmen's badges to 173 men and officers. The Dolan and Smith medal, for special excellence, was conferred upon E. J. McEnerny, Co. G, and the Alder medal, upon Charles P. Young, of Co. B.

Col. Geo. D. Scott, of the 8th N. Y., was entertained at a banquet given him by his officers at the Hotel Dam, on Friday evening, Feb. 4. It was a feast of reason and a flow of soul and—champagne.

Co. F, 7th N. Y., will give a minstrel show at the Metropolitan Opera House, Feb. 19.

The bayonet squad of Co. C, 11th N. Y., and Co. D, 12th N. Y., have concluded to compete for a prize at the 12th Regiment Armory, March 2.

Co. B, 12th N. Y., will be inspected by Col. J. H. Jones on Feb. 11 and receive their marksman badges.

At the recent regimental delinquency court-martial of the 32d N. Y., 88 of the 161 delinquents were variously fined $1 for each non-attendance at drills and from $2 to $87 for dues. The total amount of the fines was $1,476.70.

Co. I, 8th N. Y., holds a reception at the armory on Wednesday evening, Feb. 9. The full band will be present.

The tickets for the 69th N. Y. Regimental ball on March 17 are now ready. The management this year is entirely in the hands of the men.

The 11th N. Y. will throw its post of sergeant-major open to public competition for National Guardsmen. The trial will be on Feb. 14, and Lieut.-Col. Walton, Major Jones, and Adjt. Williams will act as judges.

Col. Edward Fackner has ordered battalion drills in the 13th N. Y. as follows: Cos. A, B, and D, Feb. 7 and 14; C, H, and K, Feb. 9 and 16; E, F, G, and I, Feb. 11 and 18; B, D, H, and I, Feb. 23; A, C, E, F, and K, Feb. 25.

The 2d N. Y. Brigade shows a net loss of 57 during the quarter ending Dec. 31, 1886. As it stands the organizations aggregate as follows: Headquarters, 12; 13th Regt., 606; 14th Regt., 560; 23d Regt., 699; 32d Regt., 438; 47th Regt., 458; 3d Battery, 65; 17th Sep. Co., 56. Total, 2,894.

A bill is to be introduced in the N. Y. Senate this week appropriating $50,000 for extending the 47th Armory 165 feet back towards Harrison avenue, thus giving a full depth of 288 feet, and extending the rifle range. The ground is at hand, and is included in the site as originally purchased.

ILLINOIS LABOR CONVENTION.

SPRINGFIELD, Ill., Jan. 27.—There was a lively row in the State Labor Convention to-day when the Socialistic element proposed a protest against the establishment of a military post at Chicago, and made excitable speeches against a standing army. It brought the two contesting factions of the convention into a direct conflict, and both sides became as emphatic as circumstances would permit. Representative Rohrback, of Chicago, who occupied a seat as a delegate, indorsed the protest as an opponent of the standing army, which he considered inimical to the interests of the laboring classes, and went out of his way to say that he had had experience with soldiers and knew them to be good fellows just long enough to get money sufficient to take them from one town to another and get "full." The ex-soldiers present resented the fling as a gratuitous insult and proceeded to sit down on the labor legislator in the most pronounced and unrestrained manner. His remarks were characterized as unworthy of a gentleman, uncalled for and offensive to propriety. Several excited veterans resented the imputation and the anti-Socialistic element applauded their utterances enthusiastically. Two resolutions were introduced in the Labor Convention yesterday, which excited warm discussion. The first protesting against the verdict in the Anarchists' cases and demanding a new trial for them was decided out of order by a vote of the convention. The other resolution, which was adopted, ran as follows:

"*Whereas*, In his message to the Legislature, Gov. Oglesby says: 'The many signs of the willingness of portion of our people, especially of incorporated wealth, to impatiently demand the use of the militia in all cases of threatened or real violence, without an effort to secure the protection of the law through the civil forms provided by law is an unpleasant augury, and one to be constantly watched by the ardent friends of constitutional liberty. The fact that such incorporated wealth can command a portion of the press to malign, misrepresent and aim to intimidate any who feel it a solemn duty to execute the law by observing the law is a potent indication of no common evil;' therefore be it

"*Resolved*, That we most emphatically denounce this growing tendency on the port of incorporated wealth to rely upon force for the purpose of intimidating the people as inimical to the perpetuity of our institutions and calculated to breed discontent and class hatreds, and we furthermore call upon the Legislature to investigate both the propriety and the legality of private individuals, especially the Pinkerton Detective Agency, employing and arming a mercenary force, whose sole use is to overawe workmen who may have disputes with monopolies and corporations, who, without such aid, already possess control over the means of living."

STATE OF ILLINOIS.

EFFORTS are being made to have the State establish a camp near Chicago for the 1st Brigade. There are 23 companies in Chicago, six within 30 miles, and all, save the Galena company, within 100. The officers of the National Guard Association ask an annual appropriation of $100,000—a specific appropriation of $50,000 for three purposes: Repairs, $10,000; improvement of Springfield camp, $15,000; a camp near Chicago, $25,000. For this amount a tract of 160 acres can be got in three different places on railroads, and within 30 miles of Chicago. If the ground is got, friends of the brigade will fit it up and the railroad concerned will put in permanent improvements.

NEW JERSEY.

HUNDREDS of spectators at Oakland Rink, Jersey City, Jan. 26, witnessed the dress parade, battalion drill, of the 4th Regiment, N. G., N. J., and the presentation of marksmen's badges. Gen. Spencer, Inspector of Rifle Practice, and Col. Owens, the Assistant Inspector, were present, as was also the new Gun Squad of the regiment for the first time. Col. Dickinson was in command, and the line officers were all present. After the dress parade and a review by Gen. Spencer, the battalion drill was executed. Much interest was manifested in the first public drill of the Gun Squad, commanded by Lieut. Smith, Gen. Spencer felicitated the

regiment in a brief speech, and presented the marksmen's badges to the officers and privates.

The 2d N. J. Regiment Gymnasium Association has secured the services of a first-class instructor to teach the members gymnastics.

Co. D, 4th Regiment, have issued handsome invitations for their twentieth annual reception to be given at Bergen Hall, Jersey City, on Monday evening, Feb. 21.

In G. O. 8, Col. Dickinson directs the 4th Regiment to assemble for battalion drill, Feb. 8 and 23, at 8.30 P. M., at the Oakland Rink, Jersey City.

MASSACHUSETTS MILITIA.

THE armory question troubles the Boston regiments as much as it does those of New York. $27,000 a year is expended on the hire of militia quarters, which are "the laughing stock of all military men who visit them." The *Herald* argues that if this sum were properly expended it would provide for the erection of two buildings for the use of military companies—one at the North End and the other at the South End. In the Charlestown district there are four companies—two of the 5th and two of the 9th Regiments. At the South End and in Roxbury there are several companies, while in the heart of the city there are several more, none of which would be inconvenienced by this plan. It is surprising, says the *Herald*, "that we have such a good military force, considering the circumstances under which they are obliged to work. Old and condemned schoolhouses and battered down buildings with narrow, miserable and dangerous stairways, and in many instances cold, damp and unhealthful halls, make up the quarters. If the standard of the militia is to be retained, such things must be speedily done away with. The Adjutant-General has done all he can to secure good armories. Let the city do something."

Col. Horace T. Rockwell, Inspector-General of Rifle Practice, in his annual report, submits the following summary of the results of the year's work with respect to marksmanship:

	1883.	1884.	1885.	1886.
Number of qualifications, Sharpshooters	..	..	..	19
Number of qualifications, first class	94	36	78	121
Number of qualifications, second class	133	184	204	271
Number of qualifications, third class	233	268	362	431
Requalifications	109	156	234	317
Number qualified or requalified during the year	509	644	878	1,150
Issue of badges, all classes, aggregate	780	1,273	1,915	2,757
Marksmen in service close of year	545	795	1,058	1,442
Companies performing armory practice	51	66	66	68
Companies performing field practice	42	64	65	66
Companies entering teams, State match	37	54	56	63

"Taking the foregoing record by itself," he says, "a degree of progress is indicated greater than that recorded in any previous year. But other striking evidences of improvement are to be found in the averages of performance at the State rifle matches, in the scores at the mid-range match held for the first time this year, and in the success of the team sent to Creedmoor. On the whole, it may be said that more interest has been shown, and better results achieved, than over before."

At the recent meeting of officers of the Massachusetts militia, held at the State House, in Boston, a plan was proposed to do away with regimental bands, substituting drum corps in their stead, and allowing a brigade band of 40 or 50 pieces.

PENNSYLVANIA.

THE City Troop ball, given at the Academy of Music in Philadelphia on last Friday, proved the most brilliant affair of the social season. A great many officers of the Regular Army and Navy received the honor of an invitation, and with their wives and daughters added greatly to the success of the affair. Col. Ludington and Lieut. Hobbs of the Ordnance, and Gen. Merritt, of cavalry fame, wore the handsome full dress of their Service, and the manly forms of Capts. Seely and McNair, of the Navy, set off well the rather plain costume of the sons of Neptune. This, however, was compensated for by the elegant gowns of their wives, one of rich silk, and that of Mrs. Seely of superb velvet, cut en train and set off with diamond ornaments. Amidst the fashion and style of the Quaker City the Service held its own.

The committee of officers appointed to procure legislation upon the bill authorizing City Councils to appropriate $500 per annum to each company of the National Guards within the corporate limits, visited Harrisburg, Jan. 25, and met with a good reception from the Senatorial Military Committee. Col. Bonnafon, Maj. Chew and ex-Adjt.-Gen. Jas. W. Latta addressed the committee, explaining the object of the bill. The committee of Senators unanimously endorsed the project and will submit the bill to the Senate for action. These officers comprised the committee: Capt. Moore, Veteran Corps, and Lieut. Pfouts, 1st Inf.; Capts. Worman and Cunningham, 2d Inf.; Col. Bonnafon, Capt. Thompson, and Quartermaster Rogers, 3d Inf.; Maj. Chew, Battalion State Fencibles, and ex-Adjt.-Gen. Latta.

The State Fencibles Drum Corps have been ordered to return all battalion and State property now in their possession. The corps will be reconstructed.

Governor Beaver, Major-General Hartranft, Adjt.-General Hastings, General Gobin, and other military officials visited Mount Gretna a few days ago to inspect the grounds where the 3d Brigade encamped last year, with a view of determining whether the park is available for a division encampment, which it is proposed to have this year.

OREGON.

THE Oregon Legislature is considering a militia bill which provides for the enrollment of all able-bodied citizens in the militia of the State, to be divided into two classes, the National Guard of Oregon, consisting of the uniformed and equipped force, and the Oregon Reserve Militia, consisting of those who do not desire to become active members of the organized force. The organized force is to consist, in time of peace, of not more than 30 companies of Infantry, two companies of Cavalry, and one battery of Light Artillery, each company to consist of not less than 40 or more than 60 non-commissioned officers, musicians and privates.

We observe that the Governor of Oregon, Sylvester Pennoyer, in his inaugural address complains that the military officers are the only ones under his control for the enforcement of the laws, and says: "It is not in accordance with the spirit of our institutions, the temper of our people, the traditions of our ancestors, or the instincts of freemen that laws should be executed by the bayonet. Such a mode of executing the laws befits a despotism, but is a stigma to the government of a free people. Among English-speaking peoples, a government cannot long survive that has to be propped up by bayonets. The exercise of military power for the enforcement of civil laws is always productive of more harm than good. American freemen will always obey just laws, and they cannot long be compelled to obey any other. Civil laws should always be enforced by civil officers. There is, therefore, a necessity for providing a State civil officer of the peace with control of all other peace officers and of the *posse comitatus* to be under the control of the Governor for the execution of the laws when necessary, and who will receive pay only at such times as he necessarily renders service."

VERMONT NATIONAL GUARD.

THE following changes in the National Guard are announced:

William L. Greenleaf, Brigadier-General, vice Gen. Kingsley, declined re-election.; Marcus D. Greene, Major and A. A. G.; William Smith, Major and A. Q. M. Gen.; Edward E. Greenleaf and Charles S. Forbes, Captains and A. D. C.

1st Regt.—Julius J. Estey, Colonel; Charles C. Kinsman, Lieut.-Colonel; George H. Bond, Major; James A. Lillie, 1st Lieut. and Adjt.; Charles H. Fuller, 1st Lieut. and R. Q. M.; Carl M. Spencer, 1st Lieut. and Commissary; Jacob C. Rutherford, Major and Surgeon; C. S. Caverly, 1st Lieut. and Asst. Surgeon: Herbert E. Taylor, Provost Marshal; Fred W. Childs, Captain Co. I; Moses B. Savory, 1st Lieut. Co. I; Thos. A. Austin, 2d Lieut. Co. I; Burt H. Wells, Captain Co. E; A. B. Laviolette, 1st Lieut. Co. E; Wilbert M. Spear, 2d Lieut. Co. E.

Harold S. Wells, 2d Lieut. 1st Separate Company Infantry.

CALIFORNIA NATIONAL GUARD.

THE new Armory Bill to be presented to the Legislature contemplates the creation of a "Board of Armory Commissioners," consisting of the Governor, Treasurer, and Adjutant-General of California. The Board is to be authorized to purchase lands with buildings thereon, or to erect and furnish suitable buildings for armory purposes for the National Guard, at such places throughout the State as the National Guard is located—convenient for its use—provided that the cost of any armory shall not exceed the sum of $25,000 a company, for the company or companies for whom it is furnished.

The Board of Officers of the 2d Artillery Regiment has elected Col. W. R. Smedberg, Lieut. C. F. A. Last, and Capt. C. F. F. McDonald, formerly commander of the San Francisco Cadets, honorary members.

Governor Bartlett has tendered Mr. William T. Coleman, a prominent citizen of San Francisco, the position of Major-General of the National Guard of California, but it is not known so far whether he will accept.

OHIO NATIONAL GUARD.

IN Northern Ohio there is said to be much excitement over the talk of trouble with Canada. Governor Foraker is constantly receiving letters from patriotic citizens asking leave to raise home militia companies. During the discussion of the Canadian troubles the War Department at Washington ascertained minutely the strength of the militia in every State, and requested from the Ohio authorities information as to the number of troops, their arms, and the time in which they could be concentrated at Cleveland in case of an attack on the Canadian frontier.

DELAWARE NATIONAL GUARD.

GOVERNOR BIGGS has appointed Richard R. Kenney, of Dover, Adjutant-General of the State Militia, to succeed J. Parke Postles.

ANSWERS TO CORRESPONDENTS.

Target.—The Department of the Platte had the highest general figure of merit in 1886—72.10—Dakota coming next with 71.78.

A. W. D. asks: Can appointments be made to the U. S. Military Academy from Territories? ANS.—Yes. See Sec. 1315, Rev. Stat.

H. S., Jr.—Blunt's "Instructions in Rifle and Carbine Firing" is for sale by Charles Scribner's Sons, Book Publishers, New York City.

Soldier.—Your statements are rather vague, but we judge from them that you are entitled to "re-enlisted pay" under the act of May 15, 1872.

Pueblo asks: Does the ruling, Circular 12, A. G. O., 1886, relating to transportation by Q. M. D., of professional books, apply also to transportation from publishers to the purchasing officers? ANS.—No.

F. M.—In the JOURNAL of Jan. 22, page 508, we gave in full the bill to increase the efficiency of the Army, now under consideration. It does not contain any provision for an increase of the pay of enlisted men.

Interested.—General Stone leaves a widow, one son and three daughters, one of the daughters by an earlier marriage. There survive him also two own sisters, Mrs. Parker of Cambridge and Mrs. Wingate of Haverhill, a half-sister living in Greenfield and a half-brother, Hezekiah, in Halifax, Vt.

W. F. B. asks: Was Mary Stuart, condemned to die by Queen Elizabeth, a blood relation of the latter? ANS.—Queen Elizabeth was the daughter of Henry VIII. and the granddaughter of Henry VII. Mary Stuart, Queen of Scots, was the great-granddaughter of Henry VII. through his daughter, Margaret of Tudor. So the two were second cousins.

Artillery.—No other casualties intervening, Lt.-Col. A Piper, 1 t, will become colonel 5th Artillery in August next; Lieut.-Col. H. W. Closson, 5th, colonel of the 4th in April, 1888; Lieut.-Col. John Mendenhall, 4th, colonel of the 2d, in December, 1889; Lieut.-Col. L. L. Langdon, 2d, colonel of the 3d, in May, 1891, and Lieut.-Col. R. N. Scott, 3d, colonel of the 5th, in May, 1892.

Trooper asks: 1. Where is General G. A. Custer buried? ANS.—The remains were interred at West Point, N. Y., one year after he fell in battle on the Little Big Horn.

2. Why is the letter "J" skipped in lettering of companies in the Army. ANS.—"I" and "J," until within the last century, were one letter. "I" was used in words where "J" is now written, and in contractions it is still so used, as I. H. S. for J. (Jesu) H. S. The letters will be found mingled together in all old English dictionaries, as they still are in many of them.

TACTICAL DECISIONS.

Pennsylvania asks: In executing right shoulder from support, at what motion, or between what motion, is the butt embraced by the right hand? ANS.—During the second motion. See par. 84, page 37, Upton's Infantry Tactics.

2. In stacking arms from single rank, at the command "lay on loose pieces," does No. 4 pass his piece to No. 2 direct, or does he give it to No 3 to pass it to No. 2, and at the command "take" does No. 2 pass the loose piece to No. 4 direct, or to No. 3 to give it to No. 4? ANS.—Tactics are not precise on this point, and it is doubtful whether it matters much who lays on the loose pieces. On general military principles it would seem best to pass them through No. 3.

Sergeant asks: 1. A battalion having formed double column, how are the companies numbered? ANS.—Tactics on page 151 states that "companies are designated numerically from front to rear when in column, 1st company, 2d company, and so on. Divisions are designated in same manner. In column of divisions companies are designated from the head of the column, and from right to left in each division: 1st company, 2d company, (first division); 3d company, 4th company, (second division), and so on. . . Captains of companies caution (such) company whenever the designation is changed." Double column is a column of divisions.

2. A battalion having formed column of fours the colonel commands "left wing about face," do company commandants in left wing, remain in their position or change to the right (formerly left) of their companies? ANS.—The movement is not tactical and should not be executed except probably as a temporary makeshift in the Armory, which doubtless was the fact in your case. In such case the officers should not change their position. Circumstances, however, should govern, and the Colonel may as well be trusted to regulate the matter.

J. L. I. asks: In your issue of Jan. 15 a decision by the Lieut.-General says that "mark time should not be executed during an oblique." Do you think, in view of this, that short step could be executed during an oblique movement? If it can be executed, then, what is your opinion as to when? The company is marching obliquely, at short step, and command "forward" is given, does the company resume the full length and at the same time march to the front, or is it necessary to give the command twice, first, to resume the full length step; second, to change direction to the front? The movement was given in a programme drill at LaFayette, Ind., this past year and there is considerable difference regarding the execution of the movement at the command "forward." ANS.—While the execution of the movement proposed by you is no more a physical impossibility than the one decided against by the Lieut.-General, we think that it is not tactical and should not be attempted, at least on drill. If executed, however, one command, forward march, would be sufficient. To execute such movements or raise points as to their propriety can add nothing to the furtherance of military knowledge among the National Guard. No good can result from making contortions of this kind parts of programmes of competitive or exhibition drills, and those who make them up ought to know better and should substitute something useful and practical instead. Individuals or commands who bother themselves about such matters waste time and opportunity, and pay too dear for their whistles.

Corporal asks: 1. When the rear rank of a set of fours is a skeleton, Nos. 1 and 4 front rank being covered, how does the four stack, single or double rank? i. e., does No. 2 make the stack or No. 4? No. 4 is prepared to stack, having a rear rank man, but No. 2 is not. Can part of the company stack by double and part by single rank instruction? ANS.—A company is either in single or double rank, but cannot be in both at the same time. The left four stack as in double rank, No. 2, taking the piece of No. 1 in the rear rank. That is the easiest and simplest way out of it.

2. In changing direction in column of fours, in wheeling about by fours, or in circle, and in platoon wheels when guide is left, and No. 1 marching flankman, does the man on the marching flank look towards the pivot or straight to the front? ANS.—All wheels are executed according to the principles contained in paragraphs 53 to 61 of the Tactics, which require the marching flankman to cast his eyes along the rank, etc.

3. Right by platoons, from a halt, does the 2d platoon face to oblique at the order "second platoon, right oblique," or wait for the command "march," before facing? ANS.—According to the principles laid down in par. 46, page 24, and in pars. 197 and 198, Upton's Tactics, they should face at the command oblique. Par. 270 seems somewhat ambiguous.

4. At the command "right turn," do the right guide and the men in the 1st set of fours come to a right shoulder? ANS.—The guide does not, all the others do.

5. In the order "draw cartridge," is the piece half cocked as part of that order, or is it brought to the half cock at the command "carry arm?" ANS.—As the piece is habitually carried at half cock we do not see any reason for any order in the case at all.

In forming fours from a column of files, does the entire company halt, and do the men come to a carry if at right shoulder? ANS.—Par. 238 tells you about the halting. The men do not come to carry arms if at right shoulder because the command halt is not given.

7. In case of failure by the orderly to cover the left four, are the men in that four to consider themselves as in single rank, even though the "in two ranks form company be given" beforehand? And if so, what is their distance in column of twos and would not they be justified in declining to stack, being in double rank yet with no rear rank men? ANS.—Such a formation is untactical, and if the 1st sergeant does not know this, it becomes the duty of the captain to see that he does his duty properly instead of accepting a company formed in such a manner. The situation being false, it is not necessary to go into any discussion about it.

8. How do corporals, warranted on the same date, decide their respective rank? ANS.—According to the rotation in which their names appear on the order announcing the appointments.

NEW PUBLICATIONS.

A new and cheap edition of the fascinating "Memoirs of Marie Antoinette," by Madame Campan, is about to be brought out by Messrs. Scribner and Welford, in conjunction with the London publishers. The edition for this country is, however, to be superior to the English edition in that it will have a number of steel portraits, while the London edition has but one. It is, besides, to be printed from new and beautifully clear type, and forms a marvel of interest and cheapness.

Mr. Thomas H. Chubb, of Post Mills, Vt., who possesses so high a reputation as a fishing rod manufacturer and dealer in sporting goods, has issued for 1887 an interesting illustrated catalogue for sportsmen, printed by Mr. Hiram Atkins, of Montpelier, Vt., in a very handsome manner.

"Outing" for February has another chapter of campaigning incidents from the diary of a United States Army officer (Lieut. Bigelow) in chase of Geronimo illustrated by Remington.

THE ARMIES OF EUROPE.

BEFORE the Special Committee of the German Reichstag, sitting to discuss the Army bill, Major Huberding, of the War Ministry, recently delivered a voluminous report on the military forces of Germany, France, and Russia. According to his estimate, their relative strength on a peace footing are: Germany, 427,000 men; France, 471,000; Russia, 614,000, in Europe alone. Proceeding to analyze the details of technical organization, he stated the increase of the French Army since 1880 to be 23,000 infantry, and said that the French artillery is now stronger by 450 guns than the German, and General Boulanger's reorganization plan provides for an annual increase of 33,000 recruits. Turning then to the Russian Army, Major Huberding computed the increase during the past six years at 108 reserve battalions, 104 squadrons, and twenty-eight batteries, besides a whole division, complete in all arms, transferred from the Caucasus to Wilna, near the Prussian frontier. The Major then proceeded to estimate in detail the comparative military strength of the three countries on a war footing. As to this part of the report, every member of the committee was pledged to secrecy; but some details of this confidential portion have already been allowed to transpire, and even the affectation of profound secrecy is not likely to be long maintained.

THE TRIPLE EXPANSION ENGINE.

THE great difficulty encountered with this improved type of engine hitherto has been the troublesome leakage and rapid deterioration of the boilers owing to the increased temperature of the steam and the feed-water still remaining at the low temperature which it had with the ordinary compound engine. This will be palpable if we state that the sensible temperature of steam at 75 lbs. absolute is 307 deg. Fahrenheit, while at 165 lbs. absolute it is 366 deg. Taking the average temperature of the feed-water in both cases at 125 deg. it follows, that while in the former case the difference is only 182

deg., in the latter it is so seriously increased as to amount to 241 deg., which, while well known to the practical engineer, tells its own tale to the person whose pocket suffers—the shipowner. It is now a well known fact that if the temperature of the water is, before it enters the boiler, raised to a high pitch, the following results are obtained, viz., a most important saving of coal, the life of the boiler is lengthened owing to the fact that there are no violent contrasts of temperature occurring in it at the same time causing corresponding expansive strains, the saving of repairs to the boiler as it is not subjected to a severe stress, and the boiler is far cleaner owing to the fact that there is less deposit of salts from the sudden introduction of cool water into that which is already heated, this result being due to improved circulation. The importance therefore of heating the feed-water cannot be over-estimated, and the Admiralty have not lost sight of this as may be evidenced from the fact that feed-water heaters are supplied to several of the more important men-of-war.—*Broad Arrow.*

ARMS MACHINERY FOR EUROPE.

THE New York *World* says: "At about the time when the Bartholdi Statue received its dedication there appeared in Hartford two handsome officers of the French Army. They wandered through the Pratt and Whitney Works, examined Colt's armory, praised the beauty of Connecticut girls and disappeared. That was all. Even Bismarck, with all his patriotic vigor, could find but little to disturb his watchful mind in such a harmless incident. But not long after a New York house ordered from one of the Hartford firms referred to a small amount of complicated machinery. This machinery could be used for two different purposes. It could be made available either in the manufacture of sewing machines or in the production of rifles. This machinery was sent to France about Dec. 1. Furthermore, four or five other firms in various parts of the country shipped to France about the same time machinery which was also useful for either guns or sewing machines. Now the French Government, perhaps, may contemplate a wholesale distribution of sewing machines among the poor of Paris, but the general impression seems to be that the machinery was not purchased for so desirable an end. This theory is further strengthened by the fact that French officers are not, as a class, devoted to the dissemination of sewing machines."

ENGLISH CAVALRY.

THE English Commander-in-Chief in India has been directing his attention to the subject of cavalry training, and has lately drawn up a set of regulations for the guidance of commanding officers. His aim is to get the horses of the squadrons into such condition that a gallop in line for a mile with a gradually increasing pace, followed by an effective charge, should be easily performed without causing distress to any of the troop horses. This was the test to which Frederick the Great put all his cavalry regiments, and in more modern times a great authority (Von Schmidt) says: "The long gallop must be the end and aim of our instruction." In order to bring horses to this efficient state, the following programme of drills, etc., is to be strictly adhered to, except when sanction for any change has been received from Army headquarters. Oct., Nov., and Dec.: Regiments to be broken up for squadron instruction, riding, and other drills, musketry, etc., the whole of which must be completed by the end of the year. Jan.: Regimental movements; at least four parades a week. During the last week field movements to be practiced across country. Feb. 1 to 15: Detached duties as follows—1st day: A reconnaissance from fourteen to sixteen miles, covering a front of from six to eight miles. Sketches and reports to be made by the different reconnoitring parties, and submitted eventually to Army headquarters. Squadrons to bivouac for the night keeping up their communications. 2d day: Continue the reconnaissance, making a total distance of not less than thirty miles from the starting point. On completion of the reconnaissance, squadrons to concentrate on one of the advance contact squadrons and encamp. 3d and 4th days: Outpost duties from daybreak on the 3d day till noon on the 4th day. 5th day: March back to cantonments (30 miles), taking all military precautions. 6th and 7th days: Halt. 8th, 9th, 10th, 11th, 12th, 13th, and 14th: A repetition of the above, but starting from cantonments in a different direction. The remainder of the drill season to be devoted to cavalry brigade parades (if possible) and to manœuvres with other branches of the service.

"Cold shoeing," or the employment of machine-made horse shoes and nails in the English Army, has been for the last two years tried in the cavalry regiments at home with great success; and it is expected that this system will soon be established for all branches of the service. These machine-made shoes admit of being altered and fitted without the aid of heat, thus saving much time, hard work, and inconvenience. Nails being issued all ready for use, a horse can be shod in less than one-fifth the time required to make and apply a set of shoes under the old practice. The new system will admit of the rapid training of a large number of men to shoe horses in a few months, where two or three years are now necessary.

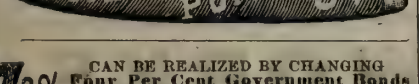
GENERAL BOULANGER'S POSITION.

THE Berlin *Post* (semi-official), in a leading article headed "On the Edge of the Knife," says: "The position of General Boulanger is now not only strengthened, but is becoming unassailable. He is supported by radical Chauvinists. He controls the peace loving masses also, because the latter are unable to give an acceptable form to their wishes, finding their judgments confused by agitations of past years. This state of things can only be changed by a temporizing government waiting for a happy inspiration to accept true peace. But a government under Boulanger is scarcely likely to be able to temporize. He is the master of the situation to a degree that neither Thiers or Gambetta ever was. He can only govern the situation by keeping up the war-like impetus he has given to it. The impression left on the minds of all observers is that the armaments of France having been pushed forward with feverish energy, Boulanger no longer has power to lead the people back to the path of peace. If he attempted to do so he would have to quit his post burdened with reproach for having led France to the brink of a great peril."

ROYAL

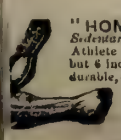
BAKING POWDER

Absolutely Pure.



This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

A SAFE INVESTMENT



For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

NEW YORK.

GERMANY is to erect barracks at various points along the French frontier, thus, as the despatch says, "answering France with barrack for barrack."

THERE are 45,000 volunteers in Canada, about 30,000 of whom are drilled and armed. There are 2,000 regular troops; Battery A, stationed at Quebec; Battery B at Kingston, and Battery B in British Columbia, and the Winnipeg Mounted Infantry.

THE English Government has granted a subsidy to the White Star Steamship Company for the use of the steamers of that line as armed transports in the event of war. The agreement includes a stipulation that the White Star Company shall build several fast vessels in accordance with designs furnished by the Admiralty. Negotiations are on foot for similar arrangements with the Cunard and Inman companies.

THE British Army estimates this year will include the new repeating rifle, the defence of home ports, and the equipment of submarine mining corps for the Clyde, Mersey, Tyne, Tay, and Severn Rivers, and Belfast Bay. The War and Navy Departments will thus be enabled to make a concerted defence in the emergency of a sudden attack on any of the above ports. Admiral Tryon has been appointed chief of the new Naval Intelligence Department.

THE Montreal *Gazette* (government organ) says: "From 1865 to 1871 there were always British cruisers off the coast, just as now gunboats are sent to Newfoundland and elsewhere in the colonies to prevent foreigners trespassing on colonial rights and to maintain the peace in case colonial fishermen should take the law into their own hands. But for the fact that there have heretofore been hopes of an amicable understanding between the two countries being arrived at the step that is now contemplated would doubtless have been taken a year ago. Recent proceedings indicate that the United States Government is not inclined to accept the offers Canada has held out to act on the suggestion of President Cleveland and appoint a commission. A return to the custom which prevailed previous to 1854 and between the abrogation of the reciprocity treaty and the negotiation of the Washington treaty will ensue. This is what the despatch of British war vessels to the North American station means."

PACH BROS., of 841 Broadway, New York, who have become prominent in Army circles from their fourteen consecutive years' work at West Point, announce to the officers of the Army and Navy that a discount of 20 per cent will be made from their regular rates on everything in the photograph line, either for themselves or family connections. Views of West Point and photographs of prominent Army and Naval officers can be had at the same terms.

PROF. LOISETTE'S SYSTEM OF MEMORY TRAINING.

THOSE who are afflicted with the disability of a poor memory and those who would improve their good memories, will find it to their advantage to read the advertisement in this issue of Prof. Loisette.

GOOD ADVICE.—USE HALE'S HONEY OF HOREHOUND AND TAR for a cough or cold.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

HAVE you tried "Tansill's Punch," the Havana filled 5c. Cigar?

SCRIBNER'S MAGAZINE

FOR FEBRUARY

CONTAINS:

JULIUS CÆSAR AS PONTIFEX MAXIMUS. Frontispiece. Engraved by W. B. Closson.

THE LIKENESS OF JULIUS CÆSAR. With Illustrations. John C. Ropes.

THE RESIDUARY LEGATEE; OR, THE POSTHUMOUS JEST OF THE LATE JOHN AUSTIN. Part first—THE WILL. J. S. of Dale.

HALF A CURSE. A Story. Octave Thanet.

IVORY AND GOLD. Charles Henry Luders.

REMINISCENCES OF THE SIEGE AND COMMUNE OF PARIS. Second Paper. THE SIEGE. With Illustrations. E. B. Washburne, ex-Minister to France.

SETH'S BROTHER'S WIFE.—Chapters VI.-IX. Harold Frederic.

THE LAST FURROW. Chas. Edwin Markham.

GLIMPSES AT THE DIARIES OF GOUVERNEUR MORRIS. SOCIAL LIFE AND CHARACTER IN THE PARIS OF THE REVOLUTION. Second (concluding) Paper. Annie Carey Morris.

THE STORY OF A NEW YORK HOUSE. II. Illustrated. H. C. Bunner.

OUR NAVAL POLICY.—A LESSON FROM 1861. James Russell Soley, U. S. Navy.

THE DUCHARMES OF THE BASKATONGE. A Story. Duncan Campbell Scott.

AFTER DEATH. Louis Chandler Moulton.

M. COQUELIN. Brander Mathews.

RUSSIAN NOVELS. Thos. Sergeant Perry.

SCRIBNER'S MAGAZINE for February rather more than fulfils the promise of the first number. .....The articles here printed stand on their own legs. While the illustrations are useful additions to the contents, their place is clearly secondary. They are illustrative rather than sustaining or adventitious—a quality which a large public cannot fail to like. It is even more apparent from this number than from the last that SCRIBNER has arrived and settled itself permanently in this town of able and prosperous magazines.—*New York Times.*

ALLAN RUTHERFORD,

(Late Third Auditor U. S. Treasury, late Captain U. S. Army, and Colonel of Volunteers),
ATTORNEY AND COUNSELOR AT LAW,
(Corcoran Building), F. and Fifteenth Street, Washington, D. C.

Having been Third Auditor U. S. Treasury for six years, I am thoroughly familiar with the course of business before the Executive Departments at Washington. Special attention given to the settlement of Officers' Accounts, Claims for Pension and Bounty, Claims of Contractors, and generally *all* business before any of the Departments, Congress or the Court of Claims. Refer to Gen. W. S. Rosecrans, Register U. S. Treasury, Washington, D. C.; Hon. John S. Williams 3d Auditor, U. S. Treasury, Washington, D. C.; Hon. W. P. Canaday Sergt.-at-Arms, U. S. Senate, Washington, D. C.; General O. O. Howard, U. S. Army.

AN EXTRAORDINARY RAZOR.

HAS BEEN INVENTED BY THE QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied; sent by mail 10c. extra or C. O. D.

Fine Writing Paper By the Pound.

NEW ENGLAND MUTUAL Life Insurance Company, OF BOSTON, Mass.

Assets, ------ $17,846,546.65
Liabilities, --- 15,238,761.16
Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on application at Compy's Office,

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 29. WHOLE NUMBER 1225. | NEW YORK, SATURDAY, FEBRUARY 12, 1887. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE first anniversary of the death of Major General W. S. HANCOCK, U. S. A., occurred on Tuesday of this week, February 8, an occasion which was duly remembered by a few relatives and friends faithful to the memory of the distinguished officer.

INSPECTOR GENERAL BAIRD returned to Washington from a special inspection tour to Fort Du Chesne on Monday last. He reports the post to be in good condition, and that the troops are being rapidly housed. The trouble at the post was, he reported, the result of locating there so late in the year, when the severe weather necessarily delays operations of all kinds. He did not attempt to locate the responsibility for the alleged failure to put the troops under cover.

THE total amount of the Naval Appropriation bill reported to the House last week, is $23,040,765.44, of which $12,655,039.44 is for the regular Naval Establishment, including the Naval Academy and Marine Corps; $1,732,364.00 for improvements of yards and docks and other public works, and $8,623,362.00 for the increase of the Navy. The appropriation for the current year is $16,693,153.72, of which $12,742,558.72 is for the regular establishment; $450,595 for public works, and $3,500,000 for increase of the Naval Establishment.

THE recent General Order from the Headquarters of the Army giving the results of target practice in 1886 indicates a steady progress, the general figure of merit of the Army being 59.56, against 54.93 in 1885. We have already given in detail the results by departments, regiments and posts, and note that a few of the latter make a poor showing. This, we know, was owing to the troops being absent in the field the greater portion of the target season, and it would seem a good plan to indicate that fact in the General Orders, so as to prevent an appearance of neglect of duty on the part of those concerned.

THE long delayed circular containing the specifications for armor plates and gun-forgings, proposals for which are to be submitted next month, has finally been perfected and it is now stated, will be out by Feb. 15, without fail. Before finally approving the circular the Department sent it around to the prominent steel manufacturers of the country for criticism and it is only lately that the last of the replies was received. The suggestions made by many of the manufacturers prompted a number of changes, so that the circular, when issued, will be very different in its requirements from what is set forth in the one already inspected by manufacturers.

THE "Army Register for January, 1887," was distributed this week, and like its predecessors for some years past it is a volume of accurate compilation and complete information. There are no changes from last year in the general features of the Register, but we note one addition—on page 370—viz.: a list of the "Batteries and Companies which have successfully competed for the Nevada Trophy" under G. O. 45, A. G. O. of May 11, 1881. These are K, 3d Artillery, 1882; B, 21st Infantry, 1883, and again 1884; K, 25th Infantry, 1885, and D, 3d Infantry, 1886 and 1887. Since the Register was printed there have been a few casualties, (promotions, transfers, etc.,) and as all of these are duly reported in weekly circulars the Register can be kept up to date by those who will take the trouble to make the necessary corrections.

THE fate of pending naval legislation in the House depends largely upon the action to be taken by the Committee on Rules on the resolution introduced this week by Mr. HERBERT setting aside Tuesday, the 15th inst., for the consideration of business reported from the Naval Committee. If the resolution is reported favorably the day will probably be granted, in which event the bill to provide new ships of war, to increase the pay of ensigns, to restore the cadet engineers, and the several Senate bills still pending in the committee, known as the Schley bills for the relief of the enlisted men of the Navy, will have fair prospects of becoming laws. If, on the other hand, the day is not granted, it may be safely concluded that naval legislation, aside from what may be contained in the regular appropriation bill, is practically at an end so far as this session is concerned. In any event, the bureau reorganization bill may be considered doomed.

THE Paymaster-General of the Army, in a letter accompanying the estimate of $25,000 to supply a deficiency in the mileage fund for the remainder of the current year, assigns two reasons for the shortage: 1st. That there has been an increase in the number of miles travelled, 1,176,669, during the six months ending Dec. 31, 1886, as compared with 1,123,325 during the same period in the previous year; next, that during the past fiscal year officers travelling in the West over routes where the rate per mile exceeded the allowance for mileage (eight cents per mile) availed themselves of Government transportation, under the new mileage law, the cost of transportation being heretofore paid from the appropriation for mileage. Notwithstanding this additional burden of high rate fares, the records show that the rate per mile during the first half of the year was a trifle less than 7½ cents per mile. Of the $130,000 appropriated for the current year, $88,198.19 had been expended up to December 31.

THE legislative appropriation bill reported to the House from the Appropriation Committee last week, provides "that the offices and clerical force of the Q. M. General, Commissary-General, Paymaster-General, Chief of Engineers, Bureau of Military Justice, Chief of Ordnance, so much of the clerical force of the A. G. O. now occupying rented buildings, and so much of the office and clerical force of the Surgeon-General's Office as cannot be accommodated in the building for the Army Medical Museum and Library shall, on or before Jan. 31, 1888; be removed to the west and centre wing of the State, War, and Navy Department building, and to occupy such rooms therein as may be assigned to them by the Secretary of War." The Senate added to the Sundry Civil bill a proviso that the Secretaries of State, War and Navy be constituted a commission to revise and readjust the space of the entire building. As these two provisions are somewhat at variance it is probable that the two Houses will compromise on a clause authorizing the appointment of a Congressional committee to allot the space, as was done in 1883, when the East and North wings were completed. The demand for space in the new building from the bureaus of the three departments is such that there is a doubt whether the Secretaries could agree and it is, therefore, thought desirable by many to entrust the allotment to persons not so directly concerned.

THE present status of the bills passed by the Senate providing liberally for fortifications and coast defences is told in a word: They have gone to the House, which, from all appearances, would be glad to pass them at once, and it is believed that the President is ready to sign them. There is but one thing then that prevents their becoming laws; that is the occult rules of Congressional procedure, which seem to be especially designed to make legislation impossible, and to transfer all authority to a body not known to the Constitution, and not included in our scheme of government as originally designed, viz.: the House Committee on Appropriations. With Mr. RANDALL at the head of this committee and Mr. HOLMAN a member, the prospect of the passage of these most important bills is dubious. We fear that too little time is left between now and the 4th of March to carry the bills through the House, outside of the regular routine of legislative progress. Mr. RANDALL'S disposition towards them is indicated by the remark made by him in reference to one of them, in a debate on the question of its proper reference. He said: "The Democratic party is not afraid of defeating such a bill of jobs as this." The New York *Herald's* suggests that cable road feature in the bill would secure its passage, as no difficulty at all was found under the same rules the other day in getting before the House and having debated and acted on a bill to give thirty-two miles of the streets of Washington as a free gift to a cable railroad ring.

THE *Army and Navy Gazette* says: "There is no one, we believe, out of Bedlam who would of malice aforethought and of deliberate design devise a War Office constructed on the principles on which the War Office is worked in Pall Mall, unless he desired to create a costly and cumbrous piece of army machinery needing incessant repair and readjustment, and demanding the efforts of an enormous staff of workmen to keep it going at all. It is unique, at all events; for the sole institution which bears any resemblance to the British War Office is not on parallel lines—we mean the War Office of the United States, for though the Secretary of State may be, and generally is, a civilian, the President's Ministers are not Parliamentary Ministers, and they do not depend on Parliamentary majorities for their continuance in office, the President being *ex-officio* Commander-in Chief of the armies and of the fleets of the Republic. The General at the head of the American equivalent of the Horse Guards is generally the best soldier in the Army—such as Sherman is to-day—whose opinion on purely military matters is taken as an absolute authority; and the Committees of Congress may be regarded as judicial tribunals which pass all important military questions under review. Each State of the Union has its own military organization for Militia and Volunteer purposes, and the result of these multiplied centres is the production of much delay and great outlay when it becomes necessary to mobilize the Army, as it was in the War of Secession in 1861, to suppress the rising of the Southern States against the Federal authority supported at Washington by the Northern and Western States of the Union. The Republic is not within measurable distance of any possible enemy to call for an exercise of its power, instant and effective."

PERSONAL ITEMS.

LIEUTENANT J. J. SHAW, 6th U. S. Infantry, is recuperating at Hot Springs, Ark.

ADJUTANT J. B. HICKEY, 8th U. S. Cavalry, lately on leave, has returned to San Antonio, Tex.

ASSISTANT SURGEON NORTON STRONG, U. S. A., is on a three weeks' visit East from Santa Fe, N. M.

LIEUTENANT C. S. BURBANK, 10th Infantry, has rejoined at Fort Lyon, Col., from a fortnight's leave.

ADJUTANT C. L. TURNER, 18th U. S. Infantry, rejoined at Fort Hays, Kas., this week from a brief leave.

MAJOR WILLIAM DICKINSON, U. S. A., is spending a portion of the winter at Crocker House, New London.

GENERAL W. T. SHERMAN, U. S. A., celebrated his sixty-seventh birthday on Tuesday of this week, February 8.

CAPTAIN C. A. BOOTH, U. S. A., Quartermaster at Fort Monroe, Va., rejoined there early in the week, from a short leave.

LIEUTENANT J. B. MCDONALD, 10th Cavalry, has relinquished duty in connection with Indian affairs, at San Carlos, A. T.

GENERAL W. D. WHIPPLE, U. S. A., is expected to return to New York towards the end of February from a trip to Florida.

LIEUTENANT C. L. BECKURTS, 6th U. S. Infantry, has returned to Fort Leavenworth, from a visit to friends at Louisville, Ky.

THE Hon. Ira Davenport will be married to Miss Kate L. Sharpe, sister of Capt. H. G. Sharpe, U. S. Army, in May or June next.

PRINCE LOUIS, the second son of Prince Napoleon, has taken service in the Italian army, and thus forfeited his French nationality.

CHAPLAIN T. W. BARRY, U. S. A., has returned to Fort Leavenworth from a visit to Topeka to attend the Episcopal Convention there.

CAPTAIN LOUIS BRECHEMIN, Assistant Surgeon, of Fort Laramie, contemplates a trip across the sea, to remain for three or four months.

LIEUTENANT IRA H. HAYNES, 3d U. S. Artillery, and bride joined this week at Fort Monroe, Va., where a hearty reception was given them.

LIEUTENANT M. M. MACOMB, 4th U. S. Artillery, of Fort Preble, Me., who is on special duty at Fort Monroe, will remain there a few weeks longer.

LORD WOLSELEY has just lost one brother, an army surgeon, and has two surviving. One an adjutant general in Bengal, and the other a squatter in Australia.

SURGEON B. E. FRYER, U. S. A., who for some time past has been on sick leave, and residing at Kansas City, has been ordered to duty at Fort Lowell, Arizona.

LIEUTENANT G. B. DAVIS, 5th Cavalry, of the "Regulation Board," left Washington this week for Lincoln, Neb., to appear as a witness before the District Court there.

COLONEL JAMES WALLACE, of Cambridge, Md., is lying dangerously ill at the residence of his son-in-law, Lieut. S. L. Graham, U. S. N., 1120 Bolton street, Baltimore.

LIEUTENANT J. W. RUCKMAN, 5th Artillery, stationed at Bedlow's Island, shot and wounded a large gray seal over five feet long on Saturday last, and after some trouble captured it.

OFFICIAL income tax returns recently published, show that the man rated highest in all Prussia is Herr Krupp, of Essen. His income is assessed at more than 5,000,000 marks, or $1,250,000 on which he pays 151,200 marks, or $37,800 annually.

A DESPATCH from Lexington, Va., gravely says: "The alleged appearance of Stonewall Jackson's ghost to a sentinel of the Virginia Military Institute a few nights ago, is the theme of much discussion, and is held by believers in spirit manifestations to portend war." We should advise the cadets of the Military Institute to "swear off" from spirits for a while. "Too much jumbos in them," as the darkeys say.

AMONG the visitors in the city, says a Philadelphia paper, who have been invited out a great deal have been Lieut. Hugh Lennox Scott, 7th U. S. Cavalry, and Mrs. Scott. Lieut. Scott is a great-grandson of Dr. Benjamin Franklin, through his mother, who was Miss Hodge, of Philadelphia, a sister of the late Dr. Hugh Lennox Hodge, and sister-in-law of Col. Stockton, of Princeton. Mrs. Scott is a daughter of Gen. Merrill.

THE "Man About Town" in the New York *Star* says: "My old friend Gen. Charles P. Stone, Stone Pasha, late Lieutenant General and chief of staff of the army of Egypt, engineer of great works and commander of great military and civil operations, is dead, and his personal estate is proven at less than $100. A man of domestic and economical habits, pious and dutiful, indulging in no extravagances, with his range of amusements all measured by the radius of his household circle, and yet so large a man that the impress of his work will long remain on the public affairs of three continents, he dies practically without a dollar."

THE late Gen. Charles P. Stone, says the *Tribune* in an article on "Personal Traits," was one of the most suave and amiable of men, and every one who had anything to do with him during the tangle of arrangements for the parade on Bartholdi Day will remember his unfailing good temper and politeness. His manner was at once grave and kind. He was always dressed with extreme neatness. Gen. Stone had the Oriental habit of incessant cigarette smoking, having acquired it, like Gordon, in Egypt. Gordon, it is said, took 10,000 cigarettes along with him on his fatal campaign into the Soudan. Gen. Stone would have had to take as many, if the English Government had accepted his conditions and put him in command of the Khartoum expedition.

GENERAL J. P. HATCH, U. S. A., is residing at 113 East 14th street, New York City.

CAPTAIN RANDOLPH NORWOOD, 2d U. S. Cavalry, is a recent guest at the Carrollton Hotel, Baltimore, Maryland.

GENERAL AND MRS. BUTTERFIELD gave a dinner party in honor of Gen. W. T. Sherman on Wednesday evening.

CAPTAIN GREGORY BARRETT, 10th U. S. Infantry, was expected at Fort Wingate, N. M., this week on court martial service.

LIEUTENANT W. E. ALMY, 5th U. S. Cavalry, is a recent guest at the Southern Hotel, St. Louis, and Capt. T. B. Briggs, U. S. A., at the Planters.

GENERAL J. WATTS DE PEYSTER will give his annual dinner to the surviving corps commanders of the Army of the Potomac in the first week of March.

LIEUTENANT B. K. ROBERTS, 5th U. S. Artillery, and bride, were in Philadelphia this week and expect to join at Fort Columbus about the end of February.

LIEUTENANT H. T. REED, U. S. A., is having a special medal prepared to be awarded as a prize at the national drill contest to take place at Washington in May next.

LIEUTENANT J. P. O'NEIL, 14th U. S. Infantry, read an interesting paper a few evenings ago before the Lyceum, Fort Leavenworth, on "Decisive Battles of the War."

GENERAL A. MCD. MCCOOK, U. S. A., gave a reception at Fort Leavenworth on Tuesday evening of this week in honor of Brig.-Gen. O. B. Willcox, department commander.

LIEUTENANT E. B. WEEKS, 5th U. S. Infantry, and bride, née Miss Harriett A. Ovenshine, whose marriage at Fort Porter we reported last week, have rejoined at Fort Leavenworth, Kas.

CAPTAIN J. G. BALLANCE, U. S. A., Gen. Stanley's Judge-Advocate, visited El Paso and Fort Bliss a few days ago on legal matters connected with the Government's ownership of that post.

GENERAL N. A. MILES, U. S. A., on his recent arrival at Los Angeles was publicly received by the Mayor and other civil authorities. Los Angeles is well pleased at the establishment in that city of the Headquarters Department of Arizona.

THE London *Queen* reports that one of the smartest recent weddings was that of the daughter of John Lee Carroll of Maryland, Miss Marie Louise Carroll, with Comte Jean de Kergorlay, Lieutenant in the 13th Dragoons, which was celebrated at the Church of St. Pierre de Chaillot.

PROFESSOR T. C. MENDENHALL, who resigned his place in the Signal Service office last fall, to accept the presidency of the Rose Polytechnic Institute, Terre Haute, Ind., is proposed by Ohio newspapers for the position of Superintendent of the Weather Bureau in case it is put under civil control.

A RECENT military census of Iowa shows that there are now living in that State 39,862 old soldiers, representing 1,153 regiments from forty States and Territories, thirty-one are veterans of the War of 1812, thirty-one are from the Black Hawk War, two from the Florida War, 503 from the Mexican War and the remainder from the Rebellion.

THE Vancouver *Independent* of Jan. 26 says: Dr. C. E. Munn, en route to Fort Canby from Cœur d'Alene, was at Headquarters last week....Capt. S. McConihe, 14th Inf., is still in San Francisco, where he went two weeks ago....Dr. Geo. F. Wilson, U. S. A., who has been on leave in Portland some time, will return to Fort Shaw in a few days, his leave being about expired.

LIEUTENANT EDW. S. FARROW, 21st Infantry, has perfected, in theory at least, a system of Tactics which he proposes to put to practical test in connection with one of the National Guard Regiments, for the temporary command of which he is now in negotiation. He invites suggestions concerning his tactics, the copyright of which he intends to present to the War Department.

ONE of the faces most likely to be encountered on the stairway or in the very midst of the cotillion is, says the Hartford *Courant*, that of Gen. Sherman. He has already drank tea at three or four women's receptions, dined with Mayor Hewitt or with some humble comrade-in-arms, and rushed here under the guise of a chaperon for his young daughter, to see the day break ere he turns in. He says he likes to be up to reveille.

THE Cincinnati *Commercial Gazette*, which has been publishing in its Sunday issue a series of papers entitled "Grant in Peace," thinks that they make out Gen. Adam Badeau to have been "the most important public character of that epoch." These remarkable papers, it continues, show that "his (Badeau's) unofficial diplomatic services, his personal correspondence with British public men, and his social intimacy with the English aristocracy, male and female, were so great and preponderating an influence in this long crisis of our British relations, that they may be said with probability to have saved the country from war with Great Britain. Badeau is clearly of that opinion, and no one can judge the extent of the part so well as he who performed it."

MAJOR EDMOND BUTLER, 2d U. S. Infantry, recently joined at Fort Omaha on promotion, is, says the *Herald* of that city, "one of the scholarly officers of the United States Army. Before being commissioned he was a war correspondent of the New York *Tribune*. An Irishman by birth, he is the typical representative of an Irish gentleman without the roystering characteristics. He is a linguist of no mean acquirements, speaking French like a native, and Spanish purer than any boasted American descendant of a Castillian. The major is so much of a soldier that he is regarded somewhat as a martinet by the younger and less disciplined officers of the Service, but in social life there is no more genial gentleman, nor one who can impart more useful information to the youth of the Army than Major Butler."

MAJOR R. C. WALKER, U. S. A., and Mrs. Walker of Minneapolis, are recent guests at the West Hotel Minneapolis.

CAPTAIN T. S. KIRTLAND, 7th U. S. Infantry, of Camp Pilot Butte, Wyo., is coming East to remain for five or six weeks.

LIEUTENANT HARRY READE, 25th U. S. Infantry, rejoined at Fort Leavenworth this week from a short visit to Chicago.

COLONEL C. M. TERRELL, U. S. A., Chief Paymaster, Department of the Platte, left Omaha early in the week on a month's leave.

COLONEL J. M. WHITTEMORE, Ordnance Corps, U. S. A., Commandant of Watervliet Arsenal, visited old friends in Washington this week.

CAPTAIN J. S. MCNAUGHT, 20th U. S. Infantry, who is spending the winter at Madison, Wis., has received a six months' extension of his sick leave.

CAPTAIN H. B. BIRMINGHAM, assistant surgeon, U. S. A., and bride joined this week at Governor's Island, N. Y., and were heartily welcomed.

EIGHT feet nine inches is the height of a young Austrian named Winkelmeyer now on exhibition in London, and who is said to be still growing.

CAPTAINS J. F. STRETCH and John Drum, 10th U. S. Infantry, under recent changes, will shortly take their companies from Fort Bliss, Tex., to Fort Union, N. M.

COLONEL HENRY DOUGLASS, 10th U. S. Infantry, and his regimental headquarters and band have now after some delay got the route from Fort Bliss to Fort Union, N. M.

GENERAL M. D. L. SIMPSON, U. S. A., left Chicago, early in the week, to be absent on leave until the end of the month. He is visiting his daughter, Mrs. Rowan, at Fort Leavenworth.

LIPPINCOTT'S for March contains an article on "Gen. John A. Logan," written under the personal supervision of Mrs. Logan, with the assistance of Gens. Sherman, Fremont and others.

CAPTAIN R. H. PRATT, U. S. A., returned to Carlisle, Pa., with his Indian pupils on Saturday last, much pleased with his visit to Philadelphia and New York and the interest manifested in his good work.

REFERRING to the statement in a recent Chicago despatch that the friends of Lieut. Hugh T. Reed, U. S. A., are to urge his appointment as Chief Signal Officer, we are authorized to say that Lieut. Reed is not a candidate for the position in question.

IT is reported from London that the actual presentation of the complaint for divorce of her Royal Highness the Princess Louise, against her husband, the Marquis of Lorne, has been stopped, for the time at least, through the personal efforts of the Queen.

CHARLES OGDEN FERRIS, alias Sir Roger Tichborne, who was convicted in the U. S. Circuit Court, Brooklyn, recently, for fraudulently obtaining a pension from the Government upon a false claim that he had been wounded in the Army, has been sentenced to five years in the Erie penitentiary.

COLONEL A. V. KAUTZ, 8th U. S. Infantry, president of the General Court-martial to meet at Fort Du Chesne, Utah, for the trial of Major Benteen, expects to formally organize the Court on Monday of this week, but the badness of the roads may prevent some of the members getting to the post in time.

CAPTAIN J. J. O'CONNELL, U. S. Army, says the Cincinnati *Times* in an article on recruiting in that city, is a soldierly-looking, erect, and clean cut gentleman, and evidently knows his business. The reporter of the *Times* who visited him desired to enlist for a Major-General, but there were no vacancies just then.

A SARCASTIC writer in the Pittsburg *Times*, referring to the recent Humphreys' Court-martial at Washington Barracks, says: "Sir Joseph Porter, K. C. B., never presided over anything more absurd. The whole thing hinges on the grievances of the ladies of the garrison who are combined against the lieutenant's wife."

GENERAL N. A. MILES, says a Montana letter, captured a pair of young elks soon after he came to this country and broke them the same as you would young colts. He used to drive them to his cutter sleigh all over the surrounding country, and it is not too much to say that they were the wonder and admiration of everybody.

SPEAKING on the $12 per month pension bill, recently before the National House of Representatives, Gen. Bragg, who, many of our veterans will remember, said: "I shall vote against this bill, as I voted against the other, because I believe that that bill ought to have been entitled: 'A bill to pension the rubbish of the Army of the United States, and to revive the business of the claim agents in the City of Washington.'"

MAJOR-GENERAL WILLIAM EMORY, U. S. A., says in the Washington *Post:* "I think hazing began at West Point in 1827, my plebe year, and the same in which my old friend, Jefferson Davis, graduated. That year a young fop—you would probably call him a dude in these days—entered the Academy from one of the New England States, I forget which one now. At any rate, the boys made him the first victim of the persecution since known as hazing. The treatment was very mild, and consisted of puns and satires upon his appearance, mimicry of his airs and graces, and, lastly, a seemingly accidental fall into a horse trough."

LIEUTENANT BARNHART, 18th Inf., met with a loss of $170 Monday on his return from the city. The pocketbook slipped through an opening in his pocket down on to the floor of the 'bus in which he was riding. The driver found it there and returned it to its owner. He was made, it is useless to say, a handsome present and the lieutenant relieved of anxiety. The residents of Fort Leavenworth will be pleased to learn that Capt. J. B. Johnson, 3d Cav., now at Camp Pena, Texas, has been presented with a new son by Mrs. Johnson. This makes three of a kind. The Captain's friends here regret very much that they cannot be with him to celebrate the event.—*Kansas City Times.*

GENERAL H. B. CARRINGTON, U. S. A., spent a portion of this week in Washington.

LIEUT. C. A. DEVOL, 25th U. S. Infantry, was to leave St. Paul this week for the East on a month's leave.

CAPTAIN W. A. THOMPSON, 4th U. S. Cavalry, has been called to Los Angeles, Cal., to confer with Gen. Miles.

CHAPLAIN DAVID WILSON, U. S. A., of Fort Meade, leaves there next week on leave until the latter part of next June.

LIEUTENANT JOHN BIGELOW, Jr., 10th U. S. Cavalry, visiting in New York City, will prolong his stay a few weeks longer.

CAPTAIN F. V. GREENE, late U. S. Army, was in Vicksburg, Miss., this week on business pertaining to the Barber Asphalt Company of New York.

ASST. SURG. LEONARD WOOD, U. S. A., who served so efficiently during the campaign in Arizona, has been ordered to Gen. Miles's headquarters at Los Angeles.

CAPTAIN A. S. B. KEYES, 10th Cavalry, under recent orders goes with his troop from San Carlos to Fort Thomas, and Capt. P. L. Lee from Fort Thomas to San Carlos.

THE following Mexican War claims were allowed by the Second Comptroller last week: Charles S. Merchant, Capt. 2d Art., $60; Wm. Hammond, Jr., Asst. Surgeon, U. S. A., $100.

MRS. HAZEN, widow of Gen. Hazen, is with her father, Mr. Washington McLean. Since her return from France her son, an only child, has been dangerously ill but is now improving.

MAJOR C. B. THROCKMORTON, 2d U. S. Artillery, commander of Jackson Barracks, La., has been warmly thanked by the inspector of rifle practice of Louisiana troops for his courtesy in several matters connected with his specialty.

POST CHAPLAIN J. O. RAYNOR, U. S. A., stationed at Alcatraz Island, Cal., will be retired next week, Feb. 19, on account of age. He was born in England, and when appointed a chaplain, May 28, 1864, was residing in Washington Territory.

CAPTAINS J. N. WHEELAN and E. L. Huggins, 2d Cavalry; T. F. Quinn, 4th Infantry, and E. K. Russell, 1st Artillery, are recent visitors to Vancouver Barracks as members of an important general court-martial, presided over by Maj. W. E. Waters, surgeon, U. S. A.

TWENTY-ONE clerks of the War Department have been reported to the Secretary of War as incompetent, inefficient, or irregular in the performance of their duties, and will probably be dismissed. The Secretary has directed the discharge of a clerk in the Adjutant-General's Office who refused to perform extra duty after hours, when so requested.

THE Legation of the U. S. at Bogota, Colombia, is to be congratulated that it is to have for its Military Attaché an officer of such varied attainments as Lieut. Henry R. Lemly, 3d U. S. Artillery, and that officer is to be congratulated that duty calls him to a sphere where the practical experience of former years can be made useful to his country. Our best wishes go with him.

GENERAL VIELE, Congressmen Morrison, Forney, Woodford and Negley; Senator Maxey, Mrs. John A. Logan, and Mrs. Polk, a sister-in-law of the ex-President; Generals Gibbon, Fry, Gibson and Ayres, Cols. Hamilton, Best, and Mason, of the U. S. Army; "Cerro Gordo" Williams and Generals Longstreet, Wilcox and Joe Johnston are among the beneficiaries of the Mexican pension bill.

MR. W. L. PATTESON, a talented young journalist of Springfield, Ill., was married February 2 at the residence of the bride's parents at Leavenworth, Kas., to Miss Mary Baker, daughter of Major J. P. Baker, Paymaster U. S. Army. The bride is a cousin of Ex-Secretary of War Lincoln and a charming young lady. The wedding was a quiet one, and after the wedding breakfast the married couple left for their future home at Springfield.

FATHER MCGLYNN, whose trouble with the authorities of his Church have occupied so much attention, publishes a narrative of his correspondence with the Catholic Archbishop Corrigan, in which the following statements appear: "On the 15th of March of last year I went, at the request of Archbishop Corrigan to Washington, to recommend to President Cleveland Brig.-Gen. John Newton, of the Engineers, for promotion to a vacant Major-Generalship. I went on Sunday night, saw Gen. Newton and the President, and the result, though not absolutely promising success, was very gratifying to the General, and much more favorable than either he or I expected."

THE German tenor, Herr Niemann, in relating some of his experiences in America, said: "But one thing I have missed very much here. Being a Berliner, I am accustomed to expect that every other man I meet is an officer or soldier. I was very anxious to see a real American soldier and made every possible effort to catch a glimpse of one, but in vain. Think of it! Fifty millions of people and only 25,000 soldiers to support. Herein lies the wealth of the country. Prussia is a poor country. She has to give all her treasures for rifles and powder. The standing army is her ruin. Not till France has been crushed and the army disbanded will Germany prosper."

THE Omaha *Excelsior* of Feb. 5 says:

Major Andrew Burt, of Fort Robinson, was at the Paxton this week....Gen. Kautz, of Fort Niobrara, passed through Wednesday to Fort Du Chesne to attend the Court-martial there....Mrs. Alice King Hamilton, the authoress, and wife of Lieut. Hamilton, 5th Artillery, at one time stationed at Fort Omaha, assisted in the production of Sidney Grundy's comedy, entitled "The Snowball," at Chickering Hall, New York, recently, the occasion being the benefit for the newsboys of the East Side and others....Miss Andrews, the Ohio heiress, who is to marry John A. Logan, Jr., is spoken of enthusiastically by all who know her as a young woman of even temper, fine education, and accomplished as well as beautiful....Mrs. Col. Henry gave a whist party Thursday at Phisant, at which were present Gen. and Mrs. Crook, Mrs. Read, Gen. and Mrs. Wheaton, Gen. and Mrs. Dandy, Gens. Breck and McParlin, Dr. and Mrs. Summers, and many others....Mrs. Gen. Crook gave a high tea this week to Mrs. Earle, who is about to leave Fort Omaha.

GENERAL J. D. BINGHAM, U. S. A., left Chicago this week on a month's leave.

CHAPLAIN J. A. M. LA TOURRETTE, U. S. A., arrived in New York from France on Wednesday.

ASST. SURG. W. D. MCCAW, U. S. A., has rejoined at Fort Leavenworth from a visit to Richmond, Va.

CAPTAIN F. F. WHITEHEAD, U. S. A., who has been spending a portion of the winter in Washington, has received a six months' extension of his sick leave.

MRS. W. C. GORGAS, who has been spending some time at Tuscaloosa, Ala., with Mrs. Gen. Gorgas, has left to join her husband, Dr. W. C. Gorgas, U. S. A., at Fort Randall, Dak.

LIEUT. M. M. MACOMB, 4th U. S. Artillery, of Fort Preble, Me., who has been for six weeks on special duty at Fort Monroe, engaged on the preparation of certain maps, will remain there until March 15, by which time he hopes to complete the work.

"A LETTER received from Fort Du Chesne," says the Kansas City *Times*, "states that the troops are now comfortably housed in log quarters. Gen. Edward Hatch is to leave there the latter part of February or beginning of March, and remove his headquarters from Fort McKinney to Robinson, which is to be a 10 company post, and assume command thereof. It is not yet known who will succeed him in the command of Fort Du Chesne."

THE following officers registered at the War Department this week: Capt. Melville C. Wilkinson, 3d Inf.; 2d Lieut. L. D. Tyson, 9th Inf.; Major J. P. Willard, Pay Department; Lieut. F. E. Hobbs, Ordnance Dept.; Capt. R. W. Martin, 4th Cav.; Capt. L. E. Campbell, Quartermaster's Dept.; Capt. Charles Booth, Quartermasters Dept.; Lieut. Colonel C. B. Comstock, Corps of Engineers; Capt. M. Hooton, 22d Inf.; 1st Lieut. E. S. Farrow, 21st Inf.; 1st Lieut. Levi F. Burnett, 7th Inf.; Major Charles A. Wikoff, 14th Inf.; 1st Lieut. T. W. Lord, 20th Inf.; Col. H. B. Carrington, retired; Major H. Cooper Overman, Corps of Engineers; Capt. Fred. F. Whitehead, Subsistence Department; Lieut. Col. W. M. Whittemore, Ordnance Department; Lieut. T. D. Rucker, 2d Cav.; 1st Lieut. E. P. Andrus, 5th Cav., and Surgeon E. A. Koerper.

THE dinner given by General and Mrs. Butterfield to General Sherman was one of the finest among the fine dinners to which New York is accustomed. The table was a mass of flowers and beautiful adornments. Baskets of flowers in the form of boats—placed on a mirror, one for each lady—were exquisite. The table presented a most beautiful appearance. The favors were of pink satin. A band discoursed sweet music during the dinner. Among the guests were General Sherman—the hero of the evening, General Schofield, Admiral and Mrs. Nicholson, Judge and Mrs. Brady, and Miss Brady, Dr. and Mrs. Fordyce Barker, Mr. and Mrs. Chauncey M. Depew, Mr. and Mrs. Henry Day, Dr. and Mrs. Hammond, and General Sickles. After the dinner the company of young Hussars in their brilliant uniform entered the house to pay their respects to General Sherman, and to constitute him an honorary member of their organization.

ANOTHER case of duplication of pay accounts has just come to light. 2d Lieut. John J. Shaw, 6th Infantry, in December last left his station at Fort Douglas, on a leave of absence, and it has since been discovered that he drew his pay four times for that month. One of the accounts was paid by Maj. Stanton at Salt Lake City, another by Maj. Tucker, through a claim agent at Washington, and two by Maj. Terrell at Omaha, through banks in which they had been deposited, the two being presented within a few days of each other. Lieut. Shaw's whereabouts are unknown at the War Department. He was last heard from at Hot Springs, Ark., from whence he disappeared some days ago. It is feared that the returns of paymasters for the month of January, when received, will show another set of fraudulent accounts. His downfall is attributed to his fondness for gambling. Shaw was appointed to a 2d lieutenancy from the ranks in 1880, and would very shortly have received promotion to the next grade, he being the senior 2d lieutenant of his regiment.

ENSIGN A. B. CLEMENTS, U. S. N., on leave, has been visiting relatives at Liberty, Mo. His headquarters are at Macon in that State.

CHIEF ENGR. JOHN JOHNSON, U. S. N., registered at the Girard House, Philadelphia, early in the week, and Lieut. J. H. C. Coffin, U. S. N., at the Lafayette.

NAVAL CONSTRUCTOR F. L. FERNALD, U. S. N., has arrived in San Francisco to supervise the construction of the *Charleston* by the Union Iron Works of that city.

THE Bureau of Equipment and Recruiting has shown an appreciation of the eternal fitness of things by the recent detail of Boatswain J. B. Aikin, U. S. N., for duty in the Equipment Yard at Boston. Mr. Aikin is considered the most expert rigger in the naval service.

THE Senate Committee on Foreign Relations has reported adversely on the communications from the Secretary of State and Secretary of Navy, recommending that Rear-Admiral Ralph Chandler be authorized to accept a vase tendered him by the Emperor of Austria.

ASST. ENGR. MARTIN BEVINGTON, U. S. N., recently on special duty in Cleveland in connection with a Government contract, has returned to Washington and resumed his duties in the Draughting Room of the Steam Engineering Bureau. He is residing at 1,221 G street, N. W.

PAY CLERK MYERS, late of the *Iroquois*, has about given up hope of effecting a compromise with the Secretary of the Navy, and has made definite arrangements for living abroad, it is said. Recently his wife has disposed of the house in which she has been living, and with the proceeds of the sale and her children has gone to join her husband. Mr. Meyer's whereabouts are not generally known, but his friends in Washington have been in constant communication with him for several months past. He owned at one time considerable property in Baltimore and Washington.

ENSIGN W. S. BENSON, U. S. N., has been visiting relatives at Pikesville, Md.

LIEUTENANT U. R. HARRIS, U. S. N., and Mrs. Harris have gone on a visit to Los Angeles, Cal.

SECRETARY OF THE NAVY WHITNEY returned to Washington early in the week from a short visit to New York.

CAPTAIN J. H. GILLIS, U. S. N., while in San Francisco recently, received notice of his promotion to Commodore.

CHIEF ENGINEER THOM WILLIAMSON, U. S. Navy, on waiting orders, is spending the winter at Norfolk, Va.

CIVIL ENGINEER A. G. MENOCAL, U. S. N., registered early in the week, at the Fifth Avenue Hotel, New York City.

NAVAL CONSTRUCTOR FERNALD arrived in San Francisco on Tuesday. He was ordered there recently to supervise the construction of the *Charleston*.

PASSED ASSISTANT SURGEON F. S. NASH, U. S. Navy, is to be married at Charleston, S. C., Feb. 15, to Miss Caroline Louise Ryan, daughter of Mr. and Mrs. William K. Ryan, of that city. Dr. Nash is at present on duty at the Smithsonian Institution, Washington, D. C.

EDWARD UNGER, the self-confessed murderer of August Bohle in New York, was formerly in the U. S. Navy, having been appointed an acting master's mate, Sept. 15, 1863. He served during the remainder of the War in the Potomac flotilla, and was finally dismissed May 24, 1866.

CAPTAIN J. H. MERRYMAN, of the Revenue Marine Service, and supervising inspector of the Life Saving Service, had a second stroke of paralysis at his home in Englewood on Saturday. He was much improved at last accounts, but apprehensions are felt as to his ultimate recovery.

LIEUT. COMDR. R. E. IMPEY, U. S. N., who recently received a year's leave of absence, arrived in good health in Havre on Sunday morning, Feb. 6, and at once proceeded to Paris. The trip across on the *Bourgogne* was quite a pleasant one, barring a three days' snow storm shortly after leaving New York.

MEDICAL INSPECTOR DAVID KINDLEBERGER has received his promotion to medical director, having been nominated to that position by the President, but will not, on that account, be detached from his present station in charge of the Naval Hospital at Washington. P. A. Surg. M. H. Crawford, U. S. N., is on duty as Dr. Kindleberger's assistant.

A GENTLEMAN visited the Charles street police station, New York, and handed to Sergt. Granger, who was then on duty, a gold medal, inscribed as follows: "Presented by Congress, for a special act of bravery, to John Edwards, captain of top. United States steamship *Lackawanna*, Mobile Bay, August 5, 1864." The caller stated that he had found the medal on the street eight years ago.

IN compliance with a resolution of the Senate the Secretary of the Navy has transmitted to that body the report of Lieut. E. H. Taunt, U. S. N., of his six months' journey on the Congo River. Accompanying the report are a number of curios, consisting of ornaments, coins, etc. The Secretary has asked to have 1,000 copies of the report printed for the use of the Navy Department.

THE Monday morning concert at the Washington Marine Barracks, this week, was numerously attended, among others present being Miss Paine, of the White House; Miss McDonald, daughter of Sir John McDonald, of Canada; Mrs. and Miss Rickets, and many others of note in society. Capt. Harrington is indefatigable in making these concerts a pleasurable event for those attending.

P. A. PAYMASTER ARTHUR PETERSON, U. S. N., who has gone out as the relief of assistant paymaster on the *Iroquois*, has been living at his home in Philadelphia, since detachment from the Pensacola Navy-yard in May of last year. Paymr. Peterson's last cruise was on the China station in the *Palos*, from which vessel, however, he came home something like five years ago. His assignment to the *Iroquois* is regarded as a stroke of good fortune.

THE report in a recent daily paper that an effort is being made to induce Vice-Admiral Rowan to apply for retirement, under the late act of Congress, is pronounced by those knowing the situation, to be without foundation. The vice-admiral, on the active list, has the services of a secretary; as a retired officer he would not be thus favored. Under the terms of the law permitting him to retire his pay would be $9,000 per annum. On his present duty he receives but $8,000. The difference, however, is not of material moment to Vice-Admiral Rowan.

P. A. ENGR. FRANK H. BAILEY, U. S. N., of the Class of June, 1875, is on duty at Cornell University, where he has established a high reputation for ability. This college is fortunate in having a millionaire patron. Mr. Sibley seems determined to take time by the forelock and insure the success of his pet scheme in the immediate future. He has given the sum of $250,000 for the Mechanical Engineering Department, and plans have been prepared looking to a great increase of the facilities of the University in this branch of science. When completed the main building will be over 450 feet in frontage, increasing the present capacity about four times.

REAR-ADMIRAL JAMES E. JOUETT, U. S. N., is quoted as saying: "We are sure to have a war within ten years, and that is but a short time to prepare for its coming. I do not think the construction of a line of fortifications along our coasts would be the best means of repelling the attacks of foreign invaders. What we want are fleets of monitors or floating batteries. These are the best coast defenders. They can be built so that they can turn in their own length by the use of four of the Kunstadter screws placed at right angles. With this class of vessels a foreign man-of-war, while laying off our coast, could be surrounded at night and literally annihilated. They would be practically invulnerable, and being flat-bottomed could, if necessary, elude pursuit by seeking shallow water.

RECENT DEATHS.

SURGEON WILLIAM THORNDIKE, who died at his home in Milwaukee, Jan. 29, was a native of Massachusetts, a graduate of Harvard, a surgeon, whose record in war and peace was enviable, and a gentleman beloved and honored throughout the home of his adoption. The funeral was conducted by the Wisconsin Commandery of which he was a charter member, and the church was thronged by citizens who came to pay their last tribute of respect. The remains were subsequently borne to Forest Home Cemetery. Dr. Thorndike leaves three sons, the eldest of whom, Paul Thorndike, a graduate of Harvard, and now a student of medicine, will succeed his father in the Wisconsin Commandery of the Loyal Legion. The pall bearers were Surgeons Willis Danforth and Solon Marks, Col. E. K. Buttrick, Major C. H. Anson, and Capts. Charles King, I. M. Bean, J. R. Saville, and J. I. Robinson.

GEORGE VIRGINIUS HARLESTON, who died in New York Feb. 2, entered the Union Army as a private, serving through a number of campaigns and coming out with the rank of major. He was wounded twice, once by a sabre cut across the forehead in a skirmish with Mosby's guerrillas, and once by a bullet which shattered his knee. After 1865 he enlisted in the Navy as captain's clerk, leaving that service for a few years' engineering in Brazil, in the Emperor's employment. Returning from Brazil he again took a civil position in the Navy, being employed as clerk or ship's writer at the Brooklyn Navy-yard. Since 1880 he had had an interest in an express business at No. 315 Spring street. His death resulted from the amputation of his lame leg, the bullet wound becoming dangerous and finally threatening gangrene.

COLONEL HARAI ROBINSON, whose death at Panama last month is announced, was a remarkable character. He was colonel of the 1st Louisiana (Federal) Cavalry, and for a time was chief of cavalry on the staff of Major-General Banks. During the Red River expedition of Gens. Banks and Franklin he had command of the 3d Cavalry Brigade, and was severely wounded at the battle of Sabine Cross Roads. He was subsequently provost marshal general of the Department of the Gulf. After the war, being of a venturesome and roving disposition, he engaged in stock raising at Buenos Ayres, but met with reverses which sent him back to this country. At the time of his death he was in the employ of the contractors of the Panama Canal Company.

PROFESSOR E. COPPEE MITCHELL, the Dean of the Law School of the University of Pennsylvania, who died last week in Philadelphia, was a native of Georgia and a grandson of Governor Mitchell of that State. He was also a nephew of the historian, Prof. Henry Coppee, formerly of the U. S. Army, and married a daughter of Bishop Stevens of Philadelphia. He was highly popular in the University, and in addition to his lectures and work as Dean, had a large practice at the Philadelphia bar.

CAPTAIN JAMES BUCHANAN BREESE who died at Trenton, N. J., February 7th, was commissioned a Second Lieutenant in the Marine Corps March 18, 1864, promoted First Lieutenant May 1, 1868, and resigned December 5, 1879. He was a native of Illinois. The funeral takes place February 10th, after which the remains will be taken to Riverview Cemetery for interment.

MAJOR JOHN K. COOKE, who served as an officer of Col. Francis Hamtramck's regiment of Virginia Volunteers during the Mexican War, and afterwards in the Confederate Army, died Feb. 7 at Portsmouth, Virginia.

MR. WALTER COLOMBE JONES, a son of the late Maj. Walter Jones, and a grandson of the late Gen. Roger Jones, Adjt.-General, U. S. Army, died at Macon, Ga., Jan. 26, aged 23.

MRS. P. H. WATSON, widow of the late Peter H. Watson, Assistant Secretary of War under President Lincoln, died Jan. 31, in Ashtabula, O., after an illness of a few hours.

GENERAL SIR CHARLES MCGREGOR, K. C. B., a distinguished officer, of the Bengal staff corps, British Army, died a few days ago at Madras.

THE Rev. Wm. Clark, uncle of Medical Inspector John H. Clark, U. S. N., died recently at Amherst, Mass., at an advanced age.

STEEL HARDENED BY A NEW PROCESS.

THE daily papers publish a despatch which says: Tests have been made at Louisville of a new process for hardening and tempering steel. A drill made of the new steel penetrated in forty minutes a steel safe plate warranted to resist any burglar drill for twelve hours. A penknife tempered by the process cut the stem of a steel key readily and with the same blade the inventor shaved the hairs on his arm. The inventor is a young blacksmith who has been experimenting with the process for years and who says that this tempering is conducted without expense or skilled labor. He has also a new process for converting iron into steel at small expense. He says he is able to make steel so elastic and hard as to turn a ball fired from the heaviest gun ever constructed. The invention is a secret, not having been patented, and a company has been incorporated to push it.

ERICSSON'S NEW SEA WARRIOR.

To the Editor of the Herald:

I HAVE read with much attention the editorial paragraphs published in several journals relating to the *Destroyer* and its submarine gun, and beg to state for the information of all concerned that the *Destroyer* system so completely solves the problem of applying submarine artillery for defending harbors that I have had no occasion to waste time on the consideration of any other method. Moreover, the extraordinary calibre of the submarine gun employed in the *Destroyer*—viz., sixteen inches—has presented no practical difficulties, and has not failed in a single instance during a long series of trials to expel the submarine projectile with a velocity exceeding 300 feet in three seconds.

It should be mentioned that this projectile is 25 feet long and carries 300 pounds of guncotton, a charge sufficient to shatter the hull of ironclad ships of all classes so completely that the boasted "water tight compartments" will prove of no avail in preventing destruction and sinking. JOHN ERICSSON.

THE CARLISLE INDIAN SCHOOL.

CAPTAIN R. H. PRATT, U. S. A., last week, brought 140 of his scholars from the Carlisle School, to show what is being done there to educate the Indians. An exhibition of the young Indians and their school methods was given en route at Philadelphia, one in Brooklyn and one at the Academy of Music in New York. These exhibitions were most interesting, and in them young members of some of the wildest tribes, Apache, Sioux, etc., gave evidence of such intelligence and tractability as seemed to make their evolution into good citizens both possible and probable. One feature of their exhibition was a debating society, in which some twenty of the young red men listened to the arguments between four of their number, as to whether the Indian should be exterminated, Gen. Sheridan's remark, that "the only good Indian is a dead Indian," being quoted with approval by one of the youths assigned to the opposition. In view of the general intelligence and prepossessing behavior of the scholars, one could not help agreeing with his opponent in the discussion, who argued that the Indian is worthy of preservation and civilization. A marked characteristic of their appearance was their perfect absence of self consciousness. If one hesitated for a word, he quietly waited, without embarrassment, until it came to him. The whole exhibition was exceedingly creditable to Captain Pratt and his teachers, as well as full of hope for the future of these people when the white man shall have learned *how* to share with them the benefit of his superior development. A large audience of well known people witnessed the exhibition in New York, and accepted it as convincing proof, not only that Captain Pratt should be encouraged in his work, but that it should be extended still further, so as to devise some means of saving the educated Indians from falling under conditions which would result in a lapse into barbarism. The education they receive is designed not merely to develop their intellectual faculties, but to train them to various handicrafts. It remains to be seen whether they can hold their own in the struggle for existence to which civilization invites them, but the experiment would seem to be at least well worth trying.

DIVISION ATLANTIC RIFLE ASSOCIATION.

WHEN the riflemen of the Division of the Atlantic were at Fort Niagara last year it was decided to organize an association of officers on duty in connection with the annual competitions at the Niagara range. Capt. J. T. Haskell, 23d Inf., was appointed chairman of the meeting, and Lieut. W. O. Clark, 12th Inf., secretary. Capt. Haskell, Major Burbank and Capt. Vose were appointed to draw up a scheme of organization and performed that function. A constitution was thereafter approved and adopted. General Schofield writes; "I accept with pleasure the office of president, *ex officio*, of 'The Division of the Atlantic Rifle Association,' and will, besides discharging the simple duties of the office, be glad to promote the objects of the 'Association.'" After giving data as to the competitions, and the remarks of Gen. Schofield when presenting the prizes, Lieut. Clarke concludes his report by acknowledging "the successful efforts of the people of Fort Niagara to make our residence among them enjoyable. Not only did they put forth their own efforts to this end but they called in the service of friends from a distance. The commanding officer, Gen. Penrose, secured the presence of the 12th Infantry Band, thus making possible frequent dancing parties and concerts, while the members of the association were made to remember, with grateful pleasure, the hospitality of the officers and families of the post."

(Correspondence of the Army and Navy Journal.)

HOSPITAL ATTENDANTS.

PERMIT the writer, who has served an enlistment, to break a lance in behalf of the enlisted men of the Medical Department. As it is fair to presume, from the tenure of recent legislation, it is intended to raise the standard of the attendants of this Department, the attainment of that object cannot be more effectually prevented than by permitting the pay of this worthy class of men to be reduced, as it is now intended by the present action of Congress.

I speak from experience when I say that a number of young men, who would be a credit to the Medical Department, will be forced to retire to their companies should the present action of the Military Committee become final, and, according to the Hospital Corps bill, these men get only $156 per year; whereas, heretofore (including extra duty), they have received $283.75. This is justice with a vengeance. Let us hope that the error of failing to make provisions for the extra duty pay of cooks and nurses was an "unintentional injustice," which will be rectified as soon as possible, and that their pay, now due from June 30 last, will be made available with the passage of the Hospital Corps bill.

A HOSPITAL ATTENDANT.

THE following Mexican War Claims were allowed by the Second Comptroller this week: S. F. Chalfin, 2d Lieut., Co. B, 1st Art., $72.25; Joseph H. Baily, Captain and Assistant Surgeon, $18.75; Wm. E. Prince, 1st Lieut., 1st Inf., $150.

THE House Committee on Claims has reported with a favorable recommendation a bill allowing Commanders Robley D. Evans and R. M. Green, of the Washington Navy-yard, the sum of $4,000 in payment for past and future use by the Government of their patented invention for bending metal links in the manufacture of cable and other chain.

THE fine courtesy of Gen. Bragg, M. C., is shown in excluding ladies from the prohibition of his bill (H. R. 10995) forbidding the wearing imitations of badges, buttons, and decorations adopted by Army societies. It is only the "male person" who is to be restricted in this way.

SENATOR HALE, from the Committee on Naval Affairs, reported favorably on Thursday a bill providing that any officer, after having been 20 years in the Naval Service, may be placed on the retired list by reason of physical defect, not a disqualification at the time of entry into the Service but subsequently made so, and shall be held to be retired for disability incident to the Service

COMMANDER F. E. CHADWICK and Lieut. B. H. Buckingham, of the U. S. Navy, have arrived at Kiel, Germany, to inspect the dockyards there.

THE FORTY-NINTH CONGRESS.

The House has passed a bill granting a pension of $100 per month to Gen. Speed S. Fry.

The Senate has passed House bills granting pensions of $50 per month to the widow of David Hunter, late Major-General, U. S. A.; $50 per month to the widow of Commodore Wm. F. Spicer, U. S. N.; $100 per month to Loren Burrett, late Lieut.-Col., 8th U. S. Colored Troops, and placing the name of Seth Weldy, late Capt., 23d Inf., on the pension rolls.

Most of the military measures passed at the evening session of the House last week have been acted upon by the Senate Military Committee and are now borne on the calendar of the Upper House. Among those receiving favorable action by the Senate Committee at the meeting on Tuesday last are: H. R. 9338, granting right of way for military purposes through Whipple Bks.; S. 1154, donating to the City of Newport, Ky., a portion of the Fort Greene military site for a public park (House amendment concurred in); H. R. 2075, for the erection of Volunteer Soldiers' Home west of the Rocky Mountains, with an amendment, increasing the amount from $100,000 to $150,000; S. 1119, creating a Hospital Corps (House amendment concurred in, subject to approval of the War Department); H. R. 8030, to settle with Dakota Territory for arms furnished, etc.; H. R. 2208, to return to proper owners property captured during war, now deposited in the Treasury Dept., and bills for the relief of Capts. E. G. Fechet, 8th Cav., and Alfred Hedberg.

The bill, H. R. 7819, to regulate promotion in the Medical Dept., was reported favorably from the Senate Committee last Friday and placed on the calendar as a substitute for a Senate bill of similar purport previously reported.

Action on the House bills conferring brevet rank upon officers for meritorious service in Indian campaigns and compelling retired Army and Navy officers to provide for their families, was deferred by the Committee until an expression of opinion upon them could be obtained from the War Dept. Favorable action was taken on the Army nominations contained in last week's JOURNAL. The only nominations now pending in the Committee are those of the Assistant Surgeons. As previously stated, these cases are held up to await the result of the pending legislation in regard to promotions in the Medical Department.

The Senate Committee on Naval Affairs has submitted a favorable report on the following substitute for Senate bill No. 2815, in regard to disability retirements: That any officer who, after having been twenty years or more in the Naval Service, has been, or shall hereafter be, placed on the retired list of the Navy by reason of physical defect, which defect was not a disqualification for service under the regulations at the time of such officer's original entry into the Service, but has subsequently been made so, shall, upon the certificate of the Retiring Board to the said state of facts, be held to be retired for disability incident to the Service, and shall receive the rate of pay established by law for officers of his grade under such disability.

Bills were introduced in the Senate on Friday by Mr. Hale appropriating $10,000,000 for construction of armor floating batteries or rams for coast and harbor defence; $1,200,000 for light draught gunboats suitable for interior waterways; $600,000 for swift torpedo boats, and $600,000 for torpedoes; by Mr. Cameron, appropriating $15,000,000 for ten protected steel cruisers to have a speed of 20 knots, and by Mr. Stanford, to establish gun foundries at South Boston, Pittsburg, Birmingham, Ala., and at San Francisco, Cal.

BILLS PASSED.

The following bills of interest to the Army and Navy have passed the Senate during the current week:

H. R. 4676. To credit Major Michael P. Small, commissary of subsistence, with $3,780.63, being amount of Government bonds stolen from him by his clerk at Chicago in 1880. (Passed with amendments, Feb. 7.)

S. 1154. Authorizing the city of Newport R. I., to use the site of Fort Greene as a public park. (Passed with House amendment, Feb. 8.)

H. R. 633. To reimburse Maj. G. W. Candee, Paymaster, U. S. A., for money stolen from him at Fort Arbuckle, I. T., in 1869, in amount $2,650. (Passed Feb. 8.)

S. 662. A bill to encourage the manufacture of steel for modern Army ordnance, armor, and other Army purposes, and to provide heavy ordnance adapted to modern Army warfare, and for other purposes.

Be it enacted, etc., That the Secretary of War be, and hereby is, authorized to make contracts with responsible steel manufacturers, after suitable advertisements, to continue not less than thirty days, in newspapers most likely to reach the manufacturers addressed, for the supply of rough-bored, rough-turned, and tempered steel in forms suitable for heavy ordnance adapted to modern warfare, and steel, finished, for armor and other Army purposes, in quantity not to exceed ten thousand gross tons, in quality and dimensions conforming to specifications, subject to inspection and tests at each stage of manufacture, and including all the parts of each calibre specified: *Provided*, That no money shall be expended except for steel accepted and delivered; that each bidder shall contract to erect in the United States a suitable plant, including the best modern appliances, capable of making all the steel required, and of finishing it, in accordance with the contract, and agree in the case of an ordnance contract to deliver yearly a specified quantity of each calibre, the time of delivery of the smaller calibres to commence at the expiration of not more than eighteen months and that of the largest calibres at the expiration of not more than three years from the date of the acceptance of the contract; and that all the forgings shall be manufactured in the United States.

Sec. 2. That the Secretary of War be, and hereby is, authorized to erect at the Watervliet Arsenal, West Troy, New York, an Army gun factory, in accordance with the report of the Gun Foundry Board of Dec. 20, 1884, for finishing and assembling the guns adapted to modern warfare, up to and including the largest approved sizes, and for the manufacture of gun-carriages and ordnance equipment for the Army, at a cost not to exceed one million dollars.

Sec. 3. That for the purposes of the foregoing sections the sum of eight million dollars is hereby appropriated, out of any money in the Treasury not otherwise appropriated, to be available during six years from January 1, 1887.

"Sec. 4. That for the purpose of the construction of fortifications and other works of coast defence, in accordance with the recommendations of the Board on Fortifications or other Defences, appointed by the President of the United State under the provisions of the act of Congress approved March 3, 1885, five million dollars, to be expended under the direction of the Secretary of War, is hereby appropriated."

S. 663. A bill to encourage the manufacture of steel for modern Naval ordnance, armor, shafting, and other Naval purposes, and to provide heavy ordnance adapted to modern Naval warfare.

Be it enacted, etc., That the Secretary of the Navy be, and

hereby is authorized to make contracts with responsible steel-manufacturers, after suitable advertisements, to continue not less than 30 days, in newspapers most likely to reach the manufacturers addressed, for the supply of rough-bored, rough-turned and tempered steel in forms suitable for heavy ordnance adapted to modern warfare, and steel, finished, for armor, shafting and other Naval purposes, in quantity not to exceed 10,000 gross tons, in quality and dimensions conforming to specifications, subject to inspection and tests at each stage of manufacture, and in the case of ordnance including all the parts of each calibre specified: *Provided*, That no money shall be expended except in payment for steel accepted and delivered; that each bidder shall contract to erect in the United States a suitable plant, including the best modern appliances, capable of making all the steel required, and of finishing it, in accordance with the contract, and agree in the case of an ordnance contract to deliver yearly a specified quantity of each calibre, the time of delivery of the smaller calibres to commence at the expiration of not more than 18 months and that of the largest calibres at the expiration of not more than three years from the date of the acceptance of the contract; and that all the forgings shall be manufactured in the United States.

Sec. 2. That the Secretary of the Navy be, and hereby is, authorized to erect at the Navy-yard, Washington, District of Columbia, a Naval gun factory, in accordance with the report of the Gun Foundry Board of Dec. 20, 1884, for finishing and assembling guns adapted to modern warfare, up to and including the largest approved sizes, and for the manufacture of gun carriages and ordnance equipment for the Naval service, at a cost not to exceed $1,000,000.

Sec. 3. That for the purposes of this act the sum of $8,000,000 is hereby appropriated, out of any money in the Treasury not otherwise appropriated, to be available during six years, from January 1, 1887.

BILLS INTRODUCED.

H. Res. 253, Mr. Long. A joint resolution for printing five thousand copies of Commander Schley's report of his search for the Greely expedition.

H. R. 7508. Granting right of way for railroad purposes across the Government farm connected with the Naval Academy.

H. R. 2075. Appropriating $150,000 for a volunteer soldiers' home west of the Rocky Mountains.

H. R. 11081, Mr. Everhart. That any person in the Military or Naval Service of the United States who has served honorably in any of its wars shall be allowed to purchase and hold 160 acres of land of the Government, at the price fixed by law, being not less than one and a quarter dollars per acre, without being obliged to reside thereon.

H. R. 10995, Bragg. That it shall be, and is hereby declared to be, unlawful for any male person who was not enlisted or commissioned and mustered into the military or Naval service of the United States during the War of the Rebellion, to wear any badge, button, decoration, or device adopted by any society, organization, or order created, founded, established, or organized by men who were so enlisted or commissioned and mustered, or any imitation of such badge, button, decoration, or device, either in semblance, form, or general appearance, and which may be readily mistaken for the same, except such persons as may be authorized by descent or by reason of position to wear the same in honorarium, by the rules and regulations of the society, organization or order whose badge, button, decoration, or device he assumes to wear; and every male person who shall violate the provisions of this act shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine not exceeding $100 and the costs of prosecution, or by imprisonment not exceeding 60 days, or by both fine and imprisonment, in the discretion of the court.

By Mr. Boutelle:

Resolved, That the Secretary of the Navy be, and he is hereby, directed to furnish this House with a list of all persons employed at the several Navy-yards of the United States from Jan. 1, 1886, to Jan. 1, 1887, with the purposes for which employed, rates of compensation, and dates of employment; also a list of all persons discharged from the several Navy-yards of the United States between the dates of Jan. 1, 1886, and Jan. 1, 1887, with rates of compensation, purposes for which employed, and dates and reasons for their discharge.

H. R. 11040, Morrow. To increase the Naval establishment and to protect the harbors of the cities of New York and San Francisco.

Be it enacted, etc., That the Secretary of the Navy is hereby authorized and directed to contract with some responsible party or parties for the construction of two steam-rams, after the model and design of the marine ram recommended by Rear Admiral Daniel Ammen, of the United States Navy: *Provided*, That the right to build and use said model and design in the construction and operation of the said two steam-rams shall be assigned and conveyed by the owner thereof to the United States, free of all royalty and other rights pertaining to the same as an invention. Said vessels shall be constructed of steel, be sea-going and double-bottomed, be designed for a speed of at least fifteen knots an hour, have a tonnage of not less than 1,737 tons, possess engines of not less than 4,000 indicated horse-power, with all the appliances necessary for working under forced draught, be equipped with the pumps necessary to increase or reduce the displacement of the vessel, as may be necessary and desirable and shall cost, including all expenses, not more than $500,000.

Sec. 2. That the Secretary of the Navy shall not contract for the construction of either of the aforesaid vessels, or their machinery, or any part thereof, until the drawings and specifications of the same shall have been submitted to him and have been declared by him to be in accord with the model heretofore indicated for said vessels; and the parties contracting to construct said vessels, and their engines, boilers and machinery, shall enter into bond, with penal provisions and satisfactory security, to possess, within three months from the date of said contract or contracts, the necessary plant to perform, in the United States, the work which he or they have undertaken, and that said work shall be completed within twelve months after the date of said contract.

Sec. 3. That one of the vessels provided for in this act shall be constructed at some convenient place on the Atlantic seaboard and one at the city of San Francisco, and the engines, boilers and machinery thereof shall be of domestic manufacture: *Provided*, That the contractors may purchase abroad such shafting as it may be impossible for them to obtain in the United States in time to comply with the provisions of the contracts relative to the completion of the vessels herein provided for. To secure the efficient and early construction of the aforesaid vessels, with their engines, boilers and machinery, the Secretary of the Navy shall, by an advertisement published in five of the principal papers of the United States for at least 60 days, invite from all American shipbuilders, or other reliable and competent parties, proposals for the execution of the proposed work; and the contracts therefor shall be awarded to the lowest and best responsible bidder or bidders, and said work shall be subject to such provisions as to bond and security for the quality and completion of the work, and such regulations and Naval superintendence during construction, as the Secretary of the Navy may prescribe; and no vessel, engine, boiler or machinery will be accepted unless completed in strict conformity with the contract relative thereto.

Sec. 4. That in the event that either of these vessels, when completed, should fail to maintain for 10 consecutive hours a speed of 15 knots per hour, there shall be withheld by the Secretary of the Navy 5 per centum of the contract price; if the maintained speed for a similar period should be only 14 knots, 10 per centum shall be withheld by the Secretary of the Navy; if the maintained speed does not exceed 13 knots, then there shall be withheld 15 per centum of the contract price of the vessel. Should the vessel maintain for 10 consecutive hours a speed of 16 knots, the Secretary of the Navy is directed to allow to the contractor 5 per centum additional to the contract price; if 17 knots are so maintained, he shall allow 15 per centum additional to the price agreed upon; if 18 knots are so made, he shall allow an additional 25 per centum; and if 20 or more knots are so maintained, he shall allow and cause to be paid to the party or parties performing the work an addition to the contract price of 33 per centum.

Sec. 5. That the sum of $1,000,000 is hereby appropriated, out of any money not otherwise appropriated, to be expended by the Secretary of the Navy, for the construction of the vessels, engines, boilers and machinery herein provided. The work shall be paid for as it progresses, upon the favorable report of such boards of inspectors as the Secretary of the Navy may appoint for that purpose, 30 per centum of all moneys due to be reserved until the work is completed and accepted by the Secretary of the Navy.

ARMY SOCIAL LIFE IN WASHINGTON.

RANDOLPH KEIM, in an article on the Army circle at Washington, says in the Philadelphia *Times:*

The most interesting figure is the Lieutenant-General. In social life he is nervous, restless, often agitated, and always ill at ease, as if the paths of peace were irksome. He blushes in the presence of ladies like a maiden in her teens, such is his inner life of diffidence and retiring worth. He lives in a style commensurate with his high rank in a fashionable part of the city. His house, presided over by his beautiful and fascinating wife, formerly Miss Irene Rucker, daughter of Gen. Rucker, at one time Quartermaster-General of the Army, is open to society on Tuesdays during the season, and is the centre of attraction to the most distinguished and fashionable people of the Capital.

In the military family of the Lieutenant-General, Lieut.-Col. Michael V. Sheridan fills the place of military secretary. Mrs. Sheridan was Mary Rhey, of Carlisle, whose father, John S. Rhey, a lawyer of prominence, was Speaker of the House of Representatives of Pennsylvania in 1853. Her mother was sister to Gen. Robert Macfeely, Commissary-General of the Army. Lieut.-Col. S. C. Kellogg, Aide-de-Camp, is a nephew of Mrs. Gen. George H. Thomas. Mrs. Kellogg, a very attractive member of society, was Miss Steele, of Louisville, Ky. Lieut.-Col. Stanhope E. Blunt, Aide-de-Camp, is a son of Col. Charles E. Blunt, Corps of Engineers, U. S. A., and grandson of Thomas S. English, United States Marine Corps. The wife of Col. Blunt was Fanny Smythe, one of the handsomest young ladies of Oswego, N. Y. Her father was Charles Smythe, one of the foremost citizens of that thriving lake port of the Empire State.

The commandant of Washington Barracks is Gen. Horatio Gates Gibson, Colonel 3d U. S. Artillery. His brother, John Gibson, is Judge of the 19th Judicial District of Pennsylvania and another brother is an officer in the Navy. Mrs. Gibson, the first lady of the bevy of garrison matrons, was a widow of the son of the famous Gen. Henry Atkinson of the War of 1812 and distinguished in the Black Hawk War as the captor of that noted aboriginal chieftain. As a young lady Mrs. Gibson was Harriet Walker, daughter of Gen. Benjamin Walker, Paymaster, U. S. Army, who as a boy took part in the expedition against Otter Creek, Canada, War of 1812, and served in Mexico.

Lieut.-Col. E. C. Bainbridge is a son of the distinguished Capt. Bainbridge, 4th Artillery. Mrs. Bainbridge was the daughter of one of the prominent French residents of New Orleans. Her own daughter Marie is one of the most delightful young ladies in Washington, and assists her mother in her receptions at her father's quarters in the fine building directly opposite the commanding officer's quarters.

Capt. Lewis Smith, an Irishman by birth, rose from the ranks of the Army and is one of the most gallant members of the personnel of his grade. Mrs. Smith is also a native of Ireland and possesses all the grace and wit of the women of the Green Isle. She has two daughters, the eldest the wife of Dr. Cunningham, of the Army. The younger, Henrietta, will soon be the bride of the regiment, her marriage to Lieut. Ira A. Haynes being announced.

Surg. William D. Wolverton, a Quaker, and Mrs. Wolverton and Asst. Surg. Wilcox and wife occupy the medical quarters, where their ladies receive. The wife of R. Q. M. Pratt was Miss Keith, of Bridgewater, Mass. The wife of Adjt. Hoskins was Miss Guiterez, a Cuban belle, whom he met at Key West. She was the daughter of the Cuban patriot, Senor Guiterez, the friend of Gonzales, and well known in Philadelphia.

Capt. John Turnbull, son of Col. William Turnbull, Engineers, U. S. A., is a bachelor, but prominent in Army social circles. Capt. James M. Lancaster, whose wife is not in Washington, goes little in society. Capt. James Chester, a bachelor, a Scotchman by birth, began his military career in the ranks. He is regarded as one of the most accomplished officers in the Service. The wife of Capt. I. W. Hess was Miss Hayden, of an old Baltimore family. Mrs. Capt. John F. Mount was Miss Cole, of the interior of New York.

Of the wives of the 1st Lieutenants Mrs. Constantine Chase was Miss Mosher, of Washington, very popular in society then and now. Mrs. R. D. Potts was Miss Bestor, of an old Washington family. Lieut. Potts is a son of John Potts, for many years Chief Clerk of the War Department. Mrs. Humphreys was another favorite in society. Lieut. Charles Humphreys is a son of Gen. A. A. Humphreys. Mrs. J. D. Eaton was Miss Gove, a pretty Quaker maiden of Boston. Mrs. Edward Davis was also Miss Davis, of Washington, another favorite in resident society. Lieut. Benjamin Harrison Randolph is a bachelor and son of a Rhode Island clergyman. Mrs. H. R. Lemly was Catherine Palmer, one of the beautiful and accomplished daughters of Gen. Innis Palmer, U. S. A. Lieut. Lemly is a brother of the well-known Naval Lieut. Lemly. Mrs. J. E. Myers was Miss Canfield, daughter of a New York clergyman. Chas. B. Satterlee is another of the officers who shines not in society through the reflected effulgence of an attractive feminine companion-at-arms, being a bachelor.

The young and dashing 2d Lieutenants of the garrison Chas. A. Bennett, Louis Ostheim and J. D. Barrette, are still on fatigue duty socially and are subject to orders.

A MONUMENT TO CAPTAIN CRAWFORD.

CAPTAIN CHARLES MORTON, Third Cavalry, has issued a circular asking contributions for the purpose of erecting a monument to the lamented Captain Emmet Crawford, whose untimely death occurred a year ago on the 11th of last January. The grave is neither marked by a headstone nor suitably inclosed, and Capt. Morton says: "I think it eminently fitting that a headstone should be erected by his comrades and friends, and my ideas are that it should be a substantial one of polished granite, of plain design, in harmony with its surroundings and his character, to cost, with suitable imperishable fencing, between $300 and $400. Captain Crawford held the deed to the lot, so the entire fund can be devoted to the monument and fence; and I will endeavor to secure assistance in transportation and probably some aid from the citizens of Kearney, Neb., who paid him such marked respect at the funeral."

GENERAL WESLEY MERRITT, U. S. A., of West Point, visited New York on Thursday, registering at the Fifth Avenue Hotel.

THE following officers registered at the Navy Department this week: Ensign Hiero Taylor, Civil Engineer P. C. Asserson, Lieut. Comdr. John McGowan, Lieut. C. P. Perkins, Paymr. H. T. B. Harris, Lieut. Comdr. W. P. Randall, Lieut. H. F. Reich, Lieut. Comdr. Geo. C. Reiter, Capt. L. A. Beardslee, Lieut. Comdr. R. B. Bradford, Lieut. Comdr. Isaac Hazlett, Capt. Geo. A. Stevens and Comdr. G. S. Cotton.

THE ARMY.

ARMY CONFIRMATIONS BY THE SENATE.

January 29, 1887.

Corps of Engineers—Capt. Henry M. Adams to be Major, Jan. 10, 1887, vice Suter, promoted.

1st Lieut. Wm. M. Black to be Captain, Dec. 31, 1886, vice Greene, resigned.

2d Lieut. Hiram M. Chittenden to be 1st Lieutenant, Dec. 31, 1886, vice Black, promoted.

Additional 2d Lieut. Thomas H. Rees, C. E., to be 2d Lieutenant, Dec. 31, 1886.

20th Infantry—Harry D. Humphrey, of Idaho, to be 2d Lieutenant, Jan. 10, 1887.

Ordnance Department—2d Lieutenant Wm. W. Gibson, 3d Artillery, to be 1st Lieutenant, Jan. 10, 1887.

Major of Cavalry—Wm. P. Chambliss, 4th Cavalry, to be Major of Cavalry.

G. O. 9, H. Q. A., Feb. 9, 1887.

Publishes the act of Congress, approved Jan. 29, 1887, "to provide a school of instruction for cavalry and light artillery, and for the construction and completion of quarters, barracks, and stables at certain posts for the use of the Army of the United States." (The act appropriates $200,000 for Fort Riley, $30,000 for Fort D. A. Russell, and $55,000 for Fort Robinson.)

Also the act, approved Jan. 29, "to release unto the city of San Antonio, Texas, for its use as a public thoroughfare, certain portions of the military reservation near said city."

CIR., WAR DEPARTMENT, A. G. O., Feb. 8, 1887.

Announces that the amount of U. S. bonds held in trust by the Treasurer of the U. S. to secure public deposits in the German National Bank of Little Rock, Ark., is $150,000.

WAR DEPARTMENT, P. G. O., Feb. 8, 1887.

Circular Letter to Officers of the Pay Department.

The Secretary of War has fixed the date of graduation of the Class of Cadets of 1886, as of June 12, 1886; and decided that, under the act of December 20, 1886, said graduates are entitled to pay as Lieutenants from date of graduation.

WM. B. ROCHESTER, Paymr. Gen., U. S. A.

G. O. 2, DEPT. OF THE COLUMBIA, Jan. 21, 1887.

Directs that exercises in the preliminary drills and gallery practice will be resumed at all posts on February 15, and be continued until the opening of the practice season.

It is held of the last importance that the young soldier should be made thoroughly accustomed to handling his rifle, and perfectly at ease in pointing and aiming it, prior to actual firing on the range. Errors committed in these preliminary exercises, if allowed to become habitual, destroy the usefulness of the soldier as a rifleman. The greatest precautions should be taken by instructors to make sure that the soldier handles, points and aims his piece correctly and in accordance with the authorized instructions, before he is allowed to fire. It is believed that if this be assured there is no reason why every soldier should not advance to at least the grade of first class before the practice season is over. Practice with the pistol by mounted troops has not been given that prominence which its importance demands. Every cavalryman should be at least a competent pistol shot, and commanding officers of posts where cavalry is stationed will see that this end is attained. . . . .

By command of Brig. Gen. Gibbon:
WM. J. VOLKMAR, Asst. Adjt.-Gen.

G. O. 4, DEPT. OF ARIZONA, Jan. 28, 1887.

In future the Department Commander will give special instructions for the inspection of money accounts of disbursing officers, in accordance with Regulations.

G. O. 2, DEPT. OF CALIFORNIA, Jan. 19, 1887.

The target season for the year 1887 is as follows:

Alcatraz Island—March, April and May.
Angel Island—April, May and June.
Benicia Barracks—May, September and October.
Fort Bidwell—May, June and July.
Fort Gaston—May, June and July.
Fort McDermit—June, July and August.
Fort Mason—May, September and October.
Presidio of S. F.—May, June and October.

STAFF CORPS AND DEPARTMENTS.

Quartermasters and Subsistence Departments.

Par. 1, S. O. 110, s. of 1886, Div. Pacific, is amended to read as follows: Major Amos S. Kimball, Chief Q. M. of the Dept. of Arizona, will proceed to Los Angeles, Cal., thence to San Francisco, Cal., on public business (S. O. 9, Feb. 1, Div. Pacific).

Leave for one month, Feb. 11, is granted Col. Judson D. Bingham, A. Q. M. G., Chicago (S. O. 17, Feb. 8, Div. Mo.)

The station of Major A. S. Kimball, Chief Q. M., is designated at Los Angeles, Cal., from Jan. 1 (S. O. 12, Jan. 31, D. Ariz.)

Leave for twenty days is granted Captain L. E. Campbell, A. Q. M. (S. O. 12, Jan. 31, Dept. Mo.)

Commissary Sergt. Denis Kieffer, recently appointed from 1st sergt. Battery H, 5th Art., will proceed to Fort Supply, I. T., to relieve Com. Sergt. Charles Raab, who will proceed to Fort Gibson, I. T., to relieve Com. Sergt. Edwin F. Ambrose, who will proceed to Fort Sill, I. T., for duty (S. O., Feb. 7, H. Q. A.)

The extension of leave, on surgeon's certificate, granted Capt. Frederick F. Whitehead, C. S., is still further extended six months on surgeon's certificate (S. O., Feb. 7, H. Q. A.)

Pay Department.

Leave for fifteen days is granted Major Alfred E. Bates, Paymr., St. Paul, Minn. (S. O. 9, Feb. 2, D. Dakota.)

Leave for one month, with permission to apply for an extension of one month, is granted Major Charles M. Terrell, Chief Paymaster (S. O. 10, Jan. 31, D. Platte).

Leave for five days is granted Col. Daniel McClure, Asst. Paymr. Gen., New York City (S. O. 27, Feb. 7, Div. Atlantic).

Medical Department.

Leave for one month, to take effect on or about March 10, is granted 1st Lieut. Edward R. Morris, asst. surg., with permission to apply for an extension of twenty days (S. O. 6, Jan. 19, Div. Pacific).

A. A. Surg. M. M. Walker is relieved from duty at Angel Island, Cal., and will proceed to Vancouver Barracks, W. T., for temporary duty (S. O. 8, Jan. 25, Div. Pacific).

1st Lieut. Leonard Wood, asst. surg., will proceed

to Los Angeles, Cal., and report to the Dept. Comdr. for temporary duty (S. O. 12, Jan. 31, D. Ariz.)

So much of par. 7, S. O. 115, May 17, 1884, as directs Major Blencowe E. Fryer, surgeon, to report to the Comdg. Gen., Dept. of Dakota, is revoked, and he will proceed to Fort Lowell, Ariz. Ty., and report for duty (S. O., Feb. 4, H. Q. A.)

The extension of leave, on surgeon's certificate, granted Capt. Leonard Y. Loring, asst. surg., is still further extended three months on surgeon's certificate (S. O., Feb. 4. H. Q. A.)

The extension of leave granted 1st Lieut. John L. Phillips, asst. surg., is further extended one month (S. O., Feb. 4, H. Q. A.)

Leave for four months, with permission to go beyond sea, is granted Capt. Louis Brechemin, asst. surg., to take effect when his services can be spared by his Dept. Comdr. (S. O., Feb. 3, H. Q. A.)

Hospl. Steward Richard Dare, Fort Davis, will proceed to Fort Clark, Tex., and report for duty, relieving Hospl. Steward Leslie Haven, who will proceed to Fort Davis and report for duty (S. O. 16, Jan. 31, D. Texas).

1st Lieut. H. S. T. Harris, asst. surg., will be relieved from duty at Fort Clark, and will proceed to Fort Ringgold, and report for duty (S. O. 16, Jan. 31, D. Texas.

Hospl. Steward J. C. Evans, Fort Thomas, will proceed to Fort Bowie, A. T., relieving Hospl. Steward J. A. Leslie, who will proceed to Fort Thomas for duty (S. O. 12, Jan. 31, D. Ariz.)

Engineers and Ordnance Departments.

1st Lieut. George McC. Derby will proceed to New Brunswick and Little Washington, N. J., on public duty, and return to his station at Astoria, N. Y. (S. O. 22, Feb. 8, C. E.)

Lieut. Col. George H. Elliot will proceed to Wood's Holl, Mass., and return to his station at Newport, R. I. (S. O. 20, Feb. 4, C. E.)

The Board of Officers on building and repair of levees on the Mississippi River, consisting of Capts. Wm. T. Rossell, Smith S. Leach and Dan C. Kingman, will convene at Memphis, Tenn., at as early a day as practicable, for the purpose of taking action upon the subdivision and distribution of allotment for levees made by the Mississippi River Commission (S. O. 21, Feb. 7, C. E.)

Leave for one month, with permission to apply for an extension of one month, is granted 1st Lieut. Lansing H. Beach, C. E. (S. O. 21, Feb. 7, C. E.)

Major Jared A. Smith, C. E., will proceed to Fort McClary and the battery on Gerrish's Island, Me., on public business (S. O., Feb. 8, H. Q. A.)

Lieut. Col. Wm. E. Merrill, C. E., will repair to Washington for the purpose of testifying, Feb. 11, in a suit pending before the Court of Claims (S. O., Feb. 4, H. Q. A.)

Lieut. Col. James M. Whittemore, Ord. Dept., will repair to Washington and report, not later than Feb. 8, for the purpose of testifying in a suit now pending before the Court of Claims (S. O., Feb. 4, H. Q. A.)

Ordnance Sergt. Charles E. Ellsworth is assigned to duty at Fort Winfield Scott, Cal. (S. O. 6, Jan. 27, Dept. Cal.)

Chaplains.

Leave for four months, to take effect Feb. 20, is granted Post Chaplain David Wilson (S. O., Feb. 7, H. Q. A.)

Signal Corps.

1st Class Private Wm. W. Thomas, at St. Francis Barracks, will report by letter to the acting Chief Signal Officer (S. O., Feb. 5, H. Q. A.)

G. C. M. O. 10, H. Q. A., Feb. 1, 1887.

Before a G. C. M., at Washington Barracks, D. of C., of which Col. Horatio G. Gibson, 3d Art., is president, was tried—2d Lieut. John C. Walshe, Signal Corps, U. S. A. Charge—Conduct unbecoming an officer and gentleman. Specification—In that while on duty as indications officer at the Signal Office, Washington, D. C., and being directed by the indications board to report as to the assertion that on Dec. 5 and 6, 1886, a storm of considerable violence reached the New England and Middle Atlantic States in advance of forecast, did state in an official communication dated Dec. 10, 1886, addressed to the president of the said indications board: On the 5th (referring to December, 1886) cautionary signals were ordered up from Norfolk to Wood's Holl well in advance of the storm, which statement was false in fact and substance, and made with intent to deceive, as no signals of any kind were ordered from Norfolk to Wood's Holl on December 5, and those subsequently ordered on the 6th were not in advance of the storm but only after dangerous winds, snow, and rain had been reported from various sea coast stations between the points named. Plead—Not guilty. Finding—Not guilty. And the court does therefore acquit him.

The proceedings, finding and acquittal are approved. Lieutenant Walshe will be released from arrest and restored to duty.

By command of Lieutenant General Sheridan:

R. C. DRUM, Adjt.-Gen.

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, F, H, and K, Ft. Huachuca, Ariz.; A and E, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; L, Ft. Stanton, N. M.; M, Ft. McDowell, Ariz.

Leave for two months is granted Capt. William A. Thompson, with permission to apply for an extension of one month (S. O. 6, Jan. 19, Div. P.)

Capt. W. A. Thompson will proceed from Fort Bowie, A. T., to Los Angeles, Cal., and report to the Department Commander (S. O. 12, Jan. 31, D. Ariz.)

* Light battery.

S. O. 209, of 1886, is modified so as to authorize 1st Lieut. Montgomery M. Macomb to remain on special duty at Fort Monroe until March 15, 1887 (S. O. 29, Feb. 10, Div. A.)

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, H, and M, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Douglas, Utah; E, Ft. Schuyler, N. Y.; K, Ft. Wood, N. Y. H.
* Light battery.

The leave granted 1st Lieut. Benjamin K. Roberts, Fort Columbus, N. Y. H., is extended eighteen days (S. O. 27, Feb. 7, Div. A.)

Leave for two months is granted 2d Lieut. Harvey C. Carbaugh, Fort Columbus, N. Y. H. (S. O. 29, Feb. 10, Div. A.)

By the coolness and presence of mind of two soldiers of the 5th U. S. Artillery at Hyde and Behman's Theatre, Brooklyn, on Monday evening, when an alarm of "Fire" was given, a panic was averted which would doubtless have been attended with much loss of life, as the theatre was crowded.

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, F, I, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal.; B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.

2d Lieut. Dwight E. Holley, 1st Inf., A. A. Q. M., will proceed from Fort McDermit to Winnemucca, Nev., on public business (S. O. 4, Jan. 22, D. Cal.)

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

The leave granted Capt. Melville C. Wilkinson is extended one month (S. O., Feb. 8, H. Q. A.)

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, D, F, G, and K, Ft. Douglas, Utah; E, Salt Lake City, Utah.

A neat Roster of Commissioned Officers, 6th Inf., dated Jan. 20, 1887, reaches us this week. The list comprises 34 officers, 31 of whom are on duty, one on leave, and two on sick leave.

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, D, F, and H, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.; C and K, Ft. McKinney, Wyo.

Leave for one month, with permission to apply for an extension of ten days, is granted Capt. Thaddeus S. Kirtland, Camp Pilot Butte, Wyo. (S. O. 11, Feb. 2, D. Platte.)

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C and I, Ft. Robinson, Neb.; D and K, Ft. Bridger, Wyo.

1st Lieut. John W. Summerhayes, R. Q. M., will report in person at Dept. Hdqrs., on public business (S. O. 11, Feb. 2, D. Platte.)

9th Infantry, Colonel John S. Mason.

Hdqrs., F, H, I, and K, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; E, San Diego Bks., Cal.; A and G, Ft. Apache, A. T., C, Ft. Mojave, A. T.

The changes of stations of Cos. H, I, and K, directed in S. O. 143, series 1886, will now be carried out (S. O. 11, Jan. 29, D. Ariz.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, F, H, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

Capt. Gregory Barrett will proceed to Fort Wingate, N. M., as witness in the case of Private Thomas Hanley, Co. D (S. O. 11, Jan. 29, D. Ariz.)

1st Sergt. John Flanigan, Co. D, will proceed to Fort Wingate, N. M., as witness before a G. C.-M. (S. O. 11, Jan. 29, D. Ariz.)

The Colonel, Staff, and Band will proceed to Fort Union, N. M., and take station (S. O. 11, Jan. 29, D. Ariz.)

Cos. F and H will, upon being relieved by troops from the Dept. of Texas, proceed to Fort Union, N. M., and take station (S. O. 11, Jan. 29, D. Ariz.)

S. O. 143, series 1886, directing change of station of Lieut.-Col. H. R. Mizner, is rescinded (S. O. 12, Jan. 31, D. Ariz.)

Major George K. Brady, commanding Fort Crawford, Colo., has issued the following post order: "The officer heretofore known as 2d Lieut. Harry Fletcher, 10th Inf., having been commissioned by the President as 2d Lieut. Harvey Fletcher Bateman, 10th Inf., will hereafter be recognized and addressed and carried on the proper returns by the name given in his commission."

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., A, B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.

Lieut.-Col. W. F. Drum, A. I. G., will inspect the fotlowing posts: Forts McDowell, Lowell, Huachuca, Grant, Thomas, San Carlos, and Fort Bowie, A. T., Forts Bayard, Selden, Stanton, Marcy, Union, and Wingate, N. M., Fort Apache, Whipple Barracks, Forts Verde and Mojave, A. T., and San Diego Barracks, Cal. (S. O. 12, Jan. 31, D. Ariz.)

Q. M. Sergt. Julius Fauerbach having recently been discharged by expiration of service and appointed Post Trader at Madison Barracks, Regtl. Orders 3, Feb. 2, announces the promotion of 1st Sergt. Joseph Petit, Co. F, to be Regtl. Q. M. Sergt., vice Fauerbach. The following company order in regard to Sergt. Petit was issued by the C. O. Co. F: "In parting with 1st Sergt. Joseph Petit, the company commander congratulates him upon his well-deserved promotion to regimental quartermaster sergeant, and bears testimony to his faithful performance of duty as 1st sergeant and excellence as a soldier." Sergt. Petit is well known to the marksmen of the Div. of the Atlantic, he having secured the fourth gold medal at the Division competition of 1884, serving on the winning Hilton Trophy teams of 1884 and 1885, making the highest individual score at the 1884 contest, and subsequently acting as Army alternate.

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, and H, Ft. Bliss, Tex.; C and F, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

The Hdqrs. and Cos. B and H are designated as the garrison for Fort Bliss, Tex. They are relieved from duty at Fort Concho, and will proceed to Fort Bliss (S. O. 17, Feb. 2, D. Tex.)

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, B, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; H, Ft. Bridger, Wyo.

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

The leave on Surgeon's certificate granted Capt. John S. McNaught is extended six months on account of sickness (S. O., Feb. 4, H. Q. A.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

Leave for one month is granted Lieut.-Col. J. S. Conrad (S. O. 12, Jan. 31, Dept. M.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

Leave for one month is granted 1st Lieut. Carroll A. Devol, Fort Snelling, to take effect about Feb. 10 (S. O. 9, Feb. 2, D. Dak.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, February 5, 1887.

RETIREMENT.

Lieutenant-Colonel Henry L. Chipman, 7th Infantry, February 1, 1887 (act June 30, 1882).

CASUALTY.

Major Napoleon B. McLaughlen (retired), died January 29, 1887, at Middletown, New York.

Courts-martial.

The following courts have been ordered:

At Fort Stanton, N. M., Feb. 2. Detail: Lieut.-Col. A. P. Morrow, 6th Cav.; Capt. B. H. Rogers, 13th Inf.; Capt. W. M. Wallace, 6th Cav.; Capt. M. E. Taylor, Asst. Surg.; 1st Lieut. E. L. Fletcher, 13th Inf.; 1st Lieut. C. H. Murray, 4th Cav.; 1st Lieut. G. L. Scott, 6th Cav.; 2d Lieuts. J. A. Penn, Jr. and Carl Koops, 13th Inf., and 1st Lieut. W. S. Davies, 13th Inf., J.-A. (S. O. 10, Jan. 28, D. Ariz.)

At Fort Bowie, A. T., Feb. 7. Detail: Capt. O. W. Budd, 4th Cav.; 1st Lieut. William Davis, Jr., 10th Cav.; 1st Lieut. W. D. Crosby, Asst. Surg.; 2d Lieuts. J. M. Neall, R. A. Brown, and Letcher Hardeman, 4th Cav., and 1st Lieut. James Lockett, 4th Cav., J.-A. (S. O. 12, Jan. 31, D. Ariz.)

At Whipple Barracks, A. T., Feb. 7. Detail: Col. J. S. Mason, Major Daingerfield Parker, Capts. G. B. Russell and Leonard Hay, and 1st Lieut. J. McB. Stembel, R. Q. M., 9th Inf.; 1st Lieut. C. L. G. Anderson, Asst. Surg.; 2d Lieut. C. R. Noyes, 9th Inf., and 1st Lieut. E. B. Robertson, Adjt., 9th Inf., J.-A. (S. O. 13, Feb. 2, D. Ariz.)

At Fort Assiniboine, M. T., Feb. 10. Detail: Major David D. Van Valzah, Capts. John H. Patterson, Abram A. Harbach, and Paul Harwood, 20th Inf.; 1st Lieut. Peter S. Bomus, 1st Cav.; 2d Lieuts. James A. Irons, James S. Rogers, Edwin H. Webber, and John F. Morrison, 20th Inf., and 2d Lieut. Samuel C. Robertson, 1st Cav., J.-A. (S. O. 9, Feb. 2, D. Dak.)

At Fort Hays, Kas., Feb. 8. Detail: Major H. M. Cronkhite, Med. Dept.; Capts. E. R. Kellogg and G. N. Bomford, 1st Lieuts. Michael Leahy and W. B. Wheeler, 2d Lieuts. C. B. Hardin and J. H. Duval, 18th Inf., and 1st Lieut. J. H. Baldwin, 18th Inf., J.-A. (S. O. 14, Feb. 5, Dept. M.)

At Fort Adams, R. I., Feb. 8. Detail: Capts. Frank G. Smith, Edward Field, Arthur Morris, and John W. Roder, 1st Lieuts. William Ennis, Richard P. Strong, Harry R. Anderson, and Charles A. L. Totten, and 2d Lieut. John R. McMahon, 4th Art., and 1st Lieut. Clarence Deems, 4th Art., J.-A. (S. O. 26, Feb. 5, Div. A.)

At Mount Vernon Barracks, Ala., Feb. 14. Detail: Major William Sinclair, 2d Art.; Capt. Julius H. Patzki, Asst. Surg.; Capts. William P. Graves and Rezin G. Howell, 1st Lieuts. John C. Scantling and James E. Eastman, and 2d Lieut. Arthur F. Curtis, 2d Art., and 2d Lieut. William P. Stone, 2d Art., J.-A. (S. O. 28, Feb. 9, DIV. A.)

Army Boards.

A Board of Officers will meet at Omaha, Neb., Feb. 5, to report upon the condition of three car loads of coal. Detail: Major Guy V. Henry, 9th Cav., I. R. P.; Major Robert H. Hall, 22d Inf., A. I. G., and 2d Lieut. Lyman W. V. Kennon, 6th Inf., A. D. C. (S. O. 11, Feb. 2, D. Platte.)

A Board of Survey, to consist of Capt. Charles C. Hood, 24th Inf., and Capt. Henry J. Haynsworth, A. Q. M., will assemble at the recruiting rendezvous, Philadelphia, Feb. 7, to fix the responsibility for damage to articles of clothing for which 1st Lieut. Hugh L. Scott, 7th Cav., recruiting officer, is responsible (S. O., Feb. 4, H. Q. A.)

A Board of Survey, to consist of Capts. James M. Marshall and Henry J. Haynsworth, A. Q. M., and 1st Lieut. Hugh L. Scott, 7th Cav., will assemble at Philadelphia, Feb. 10, to fix the responsibility for damaged condition and deficiency of certain C. and G. E. (S. O., Feb. 5, H. Q. A.)

A Board of Survey, to consist of Capt. J. E. Greer, Ord. Dept.; 1st Lieut. H. L. Ripley, 24th Inf., and 1st Lieut. E. F. Willcox, 6th Cav., A. D. C., is appointed to meet at Fort Leavenworth, Kas., Feb. 7, to fix the responsibility for the loss of certain marksman's insignia, reported to have been lost in the mail, and for which 1st Lieut. Charles Dodge, Jr., 24th Inf., A. D. C., Inspector of Rifle Practice, is responsible (S. O. 14, Feb. 5, Dept. M.)

———o———

Correspondence.—Attention is invited to the following extract from the "Instructions for Keeping the Records and Transacting the Clerical Business of the War Department": "Indorsements, as well as letters, addressed to public officers on the business of their offices, should designate them by their special titles rather than their individual names."

———o———

Clothing.—General McCook, commanning Fort Leavenworth, has supplemented his previous excellent orders in regard to the marking, issuing, etc., of uniform clothing, by the following: "Hereafter special requisitions for clothing when sent to this office for the approval of the post commander will be accompanied by a letter in which the commander of the organization for which the clothing is intended will state whether orders relating to the inspection of clothing and marking of worn out garments has been complied with. The officer who witnesses the issue will see that each garment is marked as required by the post order referred to before being issued."

———o———

DEPARTMENT NEWS.

Division of the Pacific—Maj.-Gen O. O. Howard.

The *News-Letter* says: "The hop at the Presidio Tuesday night was another of the charming little parties for which that post is so famous. The concert room at the Presidio where the dances are always given is a fine one, the music was good, and the welcome extended warm and hearty. The Army officers at present stationed in and around San Francisco are a very nice set of fellows, good dancers and very popular among the young ladies. Therefore, where one is to be seen the other will be found also. So who can wonder that the Presidio hops are such pleasant affairs and so successful as they have been this winter."

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

A despatch of Feb. 8 from Nogales says: "The depredations recently committed in Mexico are charged to the seven Apaches who escaped from Capt. Lawton and are now known to be with Mexican desperadoes. The escaped Indians are reported to be quiet in the Sierra Madres.

An Albuquerque despatch says intelligence has been received of a bloody fight between a Sheriff's posse and a band of Navajo Indians, Feb. 7th, that may lead to an Indian outbreak.

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

Big Bear and three Cree Indians serving terms in the Stony Mountain Penitentiary, Winnipeg, Manitoba, for complicity in the Northwest rebellion, were released Feb. 5, having been pardoned. Big Bear was a leading Indian ally of Louis Riel, and incited his powerful tribe to pillage and massacre.

Resolutions of the Dakota Legislative Assembly protesting against the abandonment of Fort Abraham Lincoln were presented by Mr. Gifford in the House on Monday and referred to the Committee on Military Affairs. The reasons set forth for its continuance are: Its location makes it permanently suited for a distributing post for arms and supplies for other posts along the Missouri River; its facilities are the very best for the massing of troops and for their prompt despatch in the event of Indian outbreak; its maintenance and improvement is necessary for the safety of the settlers in the adjacent county.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Feb. 9, 1887.

THE following order was published on the 5th inst.: "It is the sad duty of the Superintendent to announce to the officers and cadets of the Military Academy the death of Cadet Raymond C. Worthington, of the First Class. He died at his home in Carlisle, Penn. The Corps of Cadets will wear the usual badge of mourning for 30 days."

Cadet Worthington died Feb. 4 of consumption. When he went on sick leave Dec. 20, 1886, after being in the hospital a long time, few of his friends expected to see him again.

What was probably the finest concert of the season was given in the Library this evening before the smallest audience ever at a concert. When the music began there were four ladies and three officers in the hall; four other ladies and four gentlemen came in during the evening. The band has been much strengthened lately with new musicians. Mr. Rehm's health is also much better, so that he is able to look after the interests of the band. The cause of so small an audience was the tobogganing by torchlight and a musicale by Lieut. and Mrs. Reed. The following programme was played: 1. Overture, "Oberon," Weber; 2. Paraphrase, "Song," Curth; 3. Potpourri, "Lohengrin," Wagner; 4. Fackeltanz (torchlight dance), Meyerbeer; 5. Ein Frulingtraum (Spring Dream), Herfurth; 6. Serenade de Mandolines, Desormes; 7. Leonoren Waltz, Rehm. The second, fifth and sixth pieces were beautifully rendered.

Lieut. L. J. Brett, 2d Cav., and bride arrived this evening; they are the guests of Lieut. and Mrs. Gale. The bride is a sister of Cadet Wallace, of the Fourth Class.

Last Friday evening the toboggan slide was illuminated from 8 to 10 o'clock. The effect was very fine. About 35 campaign torches were used, being erected at intervals along the slide. Nearly everyone who owned or could borrow a toboggan had a chance to slide, while the spectators were very numerous; it seemed as if all of Camptown, Rugertown, Logtown and every other town in the vicinity sent delegates of onlookers.

Prof. and Mrs. Bass have issued invitations for an entertainment to-morrow evening at Schofield Hall.

On last Saturday evening Mrs. Merritt entertained a large number of ladies and cadets at a dancing party. As "we" are neither a lady nor a cadet, we were not present, but all who were speak glowingly of the good time had by all.

Next Saturday evening the cadets are to have a large hop in the mess hall, at which refreshments are to be served during the whole evening. This hop is gotten up by the Second Class, and takes the place of the customary "Hundredth-Night Hop," usually given on the Saturday preceding Washington's Birthday. It is not known what will be done to celebrate the 100th night, but no First Classmen will attend the hop and no Second Classmen will attend the celebration for the 19th. A funny state of affairs, socially, exists in the corps, the like of which was never known before. The First Class boycott the hops. The Second Class *do not*. The First Class boycott the Second Class; the Second Class boycott the First Class. Where and when the boycotting will end is just at present the leading unknown quantity of the cadet equation.

The next to the last officer's hop before Lent was held last Thursday evening. Lieut. Hodges was the manager. A number of strangers were present, among them Miss Macomb, daughter of Gen. Macomb, U. S. A.; Miss Roebling, niece of the famous engineer; Miss Beach, of Troy; Miss Nolan and two Misses Peirce. Although the hop began quite late, it was very gay and enjoyable throughout. A fine supper, about eleven o'clock, was much appreciated.

Father Early, the Catholic priest of this post, is quite ill at his residence in Highland Falls. His duties for several Sundays have been performed by a Paulist Father from New York.

The Highland Villa, or Mearn's House, below the Falls, has been sold to a hotel man from Ohio, who, it is said, intends to make a sanitarium out of it.

In one of the New York papers last Sunday it was stated that the eldest son of our Professor of Philosophy had just been married. If it is so, the Professor does not know it, for said eldest son is now travelling in Cuba for pleasure, but not on a wedding tour, and will not return much before April. The writer of the article referred to the marriage of Lieut. Robert E. L. Michie, 2d Cavalry, who is not related to Professor Michie, and who pronounces his name as if it was spelled "Mick-ee" and not "Mi-kee."

Lieut. Newcomer, of the Engineers, and bride made a flying visit to the post last Saturday. Lieuts. Richards, 4th Cav., and Loveridge, 3d Art., were also visitors last week.

(Corre spondence of the Army and Navy Journal.)

VANCOUVER BARRACKS, W. T.

JANUARY 30.

GEN. SYKES once interrupted a nocturnal wheeze in Snip Snider's Commissary tent, A. P., with: Gentlemen! what is the occasion of this sudden outburst of inebriety? Explanation: A barrel of good commissary whiskey. Here in far Vancouver we have had an outburst of amusements. Explanation: An unusually good dramatic club and a lecture association. The invocation:

> "Haste thee, nymph, and bring with thee,
> Jest and youthful jollity.
> Quips and cranks and wanton smiles,
> Nods and becks and wreathed smiles;"

Has been answered by—

> "Sport that wrinkled care derides
> And laughter, holding both his sides."

Two weeks ago we had "The Mouse Trap," taken from the January "Harper." Mrs. Anderson played the part of the Boston Widow. Her rendition was very fetching—excellent, indeed. She was supported by a lovely sorosis, Mrs. Poole and the Misses Burke, Pettis, Quinten and O'Niel. All, including the leading lady, were far too pretty for the strong-minded sisterhood. Capt. Woodruff, A. C. S., took the solitary male part with great courage. Like all articles issued from his Department his acting was A1.

Last night we had "Caste." Volkmar as D'Alroy, his first appearance here, but evidently a dramatic veteran; Kimball as Hautree, Todd as Eccles, a veritable man of Toddies; Woodruff as Gorringe was very funny. Mrs. Poole was the Marquis, Mrs. Rice was Esther and Mrs. Hunter was Polly, and such a polly. But all did far better than average amateurs. Much credit is due the managers, Maj. Burke and Lieut. Hunter. P. P.

THE *Independent* of Feb. 2 says:

Lieut. Frank Taylor, 14th Infantry, has returned from his Washington trip....Capt. S. McConihe, 14th Inf., returned from San Francisco Sunday....The wife of Capt. E. K. Russell, 1st Art., Fort Canby, came up to Vancouver Barracks, Monday, on a visit....Jacob Lazelle, a graduate of the Portland High School, son of Col. H. M. Lazelle, has been appointed by the President cadet at large to the Military Academy....Last Saturday evening an amateur theatrical performance was given at the theatre at Vancouver Barracks. Robertson's comedy of "Caste" was produced with the following cast of characters: The Hon. George D'Alroy, Wm. J. Volkmar; Capt. Authur Hautree, Wm. A. Kimball; Eccles, Albert Todd; Samuel Gerridge, C. A. Woodruff; Marquis de St. Maur, Mrs. DeW. C. Poole; Polly, Mrs. C. H. Hunter, Esther, Mrs. W. F. Rice.

(Correspondence of the Army and Navy Journal.)

FORT APACHE, A. T.

JAN. 30, 1887.

JANUARY has been as mild and lovely as Indian summer, and the winter bids fair to leave us without any ice for our use during the coming heat of next summer. The weather has been superb; and horse-back parties, driving, croquet and lawn tennis have all been indulged in with great pleasure all through the winter. Apache keeps up its reputation as the most desirable post in Arizona, and those who are stationed here are always the envied few. On all sides of us the mountains are covered with evergreen pines, and the pure white snow, that spreads like a veil over the earth, lends a charming contrast to the eye. Apache nestles close at the foot of these mountains; and, since the departure of the dreaded Chiricahua Apache Indians, is as peaceful as it looks. Already the work on the company and troop gardens has commenced, and the White Mountain Apache Indians are at work with the farming implements furnished them by the Interior Department, and promised them last summer by Mr. L. T. C. Lamar, Jr., at the time he visited our post on his inspection tour. This year bids fair to be a quiet and prosperous one for Arizona (thanks to Gen. N. A. Miles.)

Lieut. T. W. Jones, the officer in charge of Indian affairs here, has just returned from a business visit to San Carlos Agency. Mr. F. J. Henry, the Indian trader, has gone on a business trip to San Francisco, Cal., for a few weeks. Lieut. S. D. Freeman, of the 10th Cavalry, rejoined his troop at this post from a six months' leave. Lieut. W. E. Shipp left Apache on the 20th for Charlotte, N. C., to visit his parents and from there he goes on an extended European tour with two of his classmates from West Point.

Lieut. Leighton Finley relieved Mr. Shipp as Post Adjutant. Paymr. Smith and Lieut. Robt. D. Reach, Jr., made a very pleasant little visit to our harmonious garrison about the middle of the month. Their friends only regretted the shortness of their stay. We are all delighted to have our favorite, Gen. Miles, back again in command of the Department.

Dr. E. Everts and family arrived here on the 25th and we gladly welcome them to Apache. We notice that the San Antonio correspondent for your paper predicted that Gen. B. H. Grierson would be the next Brig.-General. If seniority takes precedence, and distinguished service be considered and the short time for duty left him, then indeed may we expect it. Twenty years as colonel of the 10th Cavalry, has drawn our colonel near to the hearts of his subordinates, and as time flies we are jealous for his honors.

(Correspondence of the Army and Navy Journal.)

MADISON BARRACKS, N. Y.

FEBRUARY 5, 1887.

WE have been cutting and storing ice for several weeks, one company being detailed for the purpose. The dangers incidental to this work are not to be compared with those found in Indian fighting or repulsing a charge of Uhlans, yet, a distinguished officer, who has probably experienced both of the latter features of military life, has been carrying a bandaged member as the result of a casualty in getting in our ice.

Yes, ice-harvesting is a nice topic. So, also, is tobogganing. There was some talk of erecting a slide at the incline facing our parade ground, but the projectors seem to have abandoned the idea. It looks as though this is going to be a poor winter for tobogganing anyway.

Indoor amusements seem to have the best of it. Instead of the usual weekly concert and hop, amateur theatricals were last night rendered under the auspices of the officers at the post. The programme and cast of characters was as follows: "The Day After the Wedding, or a Wife's First Lesson." A farce in one act. Cast—Colonel Freelove, Lieut. B. A. Poore; Lord Rivers, Lieut. Fred. A. Smith; James, Lieut. W. H. Gordon; Lady Elizabeth, Miss Kate Egbert; Mrs. Davies, Miss Minnie Townsend. . . . "A Silent Protector." A farce in one act. Cast—Quentin Quickfidget (a gentleman in difficulties), Dr. E. T. Comegys; Nat Nobbler (a sheriff's officer), Lieut. F. Von Schrader; Mr. Twaddleton Lisp (a swell), Lieut. B. A. Poore; Lilian Gray (under the assumed name of Mrs. Arlington), Miss Lucy Townsend; Nancy Slyboots (her servant), Mrs. MacGowan.

Disraeli has it that "the critics are those who have failed in literature and art." As your correspondent has never failed in either, he will venture the remark that the performance was most excellent throughout, the bulk of the applause being bestowed upon Messrs. Poore, Smith, Gordon, Comegys and Von Schrader, the Misses Townsend, Miss Egbert and Mrs. MacGowan.

We are soon to have a trading store at the post, with Mr. Julius Fauerbach at the helm. The plans of the building include a hop room. U. M.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

JANUARY 30.

THE weather just at present is hot and dry, a remarkable similarity to my own condition. I think I have heretofore referred to the dearth of news here. The JOURNAL, always up to date in Army and Navy matters and brimful of interesting information, is a welcome visitor, and its weekly advent is eagerly looked forward to. We are in a state of "Bliss" here, but so is not El Paso. Music has charms, etc., and the band of the 10th has so soothed the savage breasts of the El Pasoites that they hate to part with it. The two companies of the 10th (Drum's and Stretch's) will also quit Bliss and be replaced by two infantry companies from Gen. Stanley's command. I presume Col. Blunt, his headquarters and Cos. B and H, 16th Infantry, will go there from Concho, so that Bliss will have a band after all.

Maj. Arthur has returned from his trip along the Rio Grande with a shrunken satchel. Col. Gibson has received his commission as lieutenant colonel and deputy paymaster general, and been the recipient of many congratulations. Gen. Stanley in his recent shooting trip bagged about forty quail, but it is too hot for toast. The new officers' quarters and barracks are progressing finely, and the troops are still engaged in procuring and planting forest trees on the reservation, and getting the rifle range in order. A large excursion, by the Southern Pacific Railway, from Massachusetts and New Hampshire, visited Headquarters on Thursday and shown the sights. JOEY BAGSTOCK.

FORT KEOGH, MONTANA.

THE Yellowstone *Journal* says:

A large audience gathered at the Presbyterian church Jan. 27 to participate in a Japanese napkin sociable, which included songs, readings, and recitations, all excellent. The first of the programme was a solo from Mrs. Lieut. Miller, of Fort Keogh, accompanied by Miss Ballard, "Magnetic Waltz," by Anditi. A select reading from Capt. Romeyn, "Over the Hills to the Poor House." Then came a recitation from Rev. T. C. Armstrong, "The Yankee Girl." Supper was next in order. This was followed by a solo from Mrs. Capt. Romeyn, "Take Me Jamie Dear." The duet by Mrs. Miller and Mrs. Romeyn, "Go Where the Mists Lie Sleeping," was loudly encored and brought these ladies out. Other solos were given by these ladies, which received the heartiest applause. The last reading was by Capt. Romeyn, "Over the Hills from the Poor House."

FORT OMAHA, NEB.

THE *Excelsior* of Feb. 5 says:

Lieut. Abner Pickering has gone to the Santee Indian Agency to inspect supplies.

The fancy dress or domino party given by the officers and ladies on the evening of Jan. 28 was a brilliant success. All the arrangements were in the hands of the ladies of the garrison, to whom too much credit cannot be given for their energy and perseverance. The costumes were gay and attractive, the dancing animated; Mesdames Cook and Wheaton received, and Lieuts. Wilson, Wright and Townsley were in charge of the floor and music. Over 300 invitations were issued.

(Correspondence of the Army and Navy Journal.)

ARMY COLONY AT ZELLWOOD, FLA.

SINCE last letter we have had new Army arrivals, Col. Zell and wife, Mrs. Major Mauck and two children; Dr. and Mrs. Tesson; Mrs. Wood and her nephew; Mrs. Mitchell, sister-in-law to Mrs. Gen. Mitchell; Colonel Brotherton, retired, wife and daughter; Mrs. McCrae, a cousin to Mrs. Mitchell, and Dr. Lorain, and family, a brother to the late Col. Lorain, of the Artillery; more expected. No wonder Zellwood is popular with the Army people: leaving Washington at 11 A. M. one day, at 8 P. M. of the following day Zellwood is reached, without going to Jacksonvile at all, making it very economical. There is no hotel at present, but several excellent private boarding houses, with all the home comforts of the North. The weather is beautiful and warm, without being too warm. The peach trees are pink banks of flowers, and the lemon and orange trees are already beginning to bloom, although still loaded with their golden fruit.

THE CAPTIVE APACHES.

THE Secretary of the Interior in response to the Senate resolution calling for information regarding the Apaches at Fort Marion, Fla., says: "All of the youths among those Indians between the ages of 12 and 22 years, numbering forty-four, have been transferred to and placed under educational and industrial training at Carlisle, Pa., and that upon recommendation of the officers of the Army in charge of the confined Indians provision has been made for the education of sixty of the younger children by the Sisters of Charity at St. Augustine, Fla., at an expense of $7.50 each a quarter." The reply is accompanied by communications from Dr. C. B. Agnew, of Florida, asking that the Department erect school buildings for the education of all Apaches, and offering, in the name of the "St. Augustine Indian Aid Society," to procure teachers for the school free of cost. The reply of the Department to these communications is also submitted, and shows grave doubts as to the advisability of pursuing this course, and that the Department had no authority to expend money for the erection of the buildings desired.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at St. Thomas Jan. 18.

The prospective cruise is given as follows: Bermuda, Martinique, St. Lucia, Barbadoes, Trinidad, Curacoa, Cartagena, Aspinwall, Port Cortez Cienfuegos, Kingston, Santiago, Nipa, Neuvitas, Matanzas, Havana, Key West, returning to Fortress Monroe about May 1. All mail must be addressed to the *Galena*, care of Navy Pay Office, 29 State St., N. Y.

RICHMOND, 3d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. At New York Navy-yard.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Sailed from Key West, Fla., Feb. 7, for a cruise to the West Indies, arrived at Havana, Cuba, Feb. 8.

S. Atlantic Station—A. R. Admi. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Reported by cable to have arrived at Montevideo, Uruguay, Feb. 5, all well, and will probably sail, March 1, for St. Helena.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Sailed from Montevideo for Maldonado Dec. 11. All well. Intended to sail for ports on South coast of South America and the Faulkland Islands, and to reach Rio about June 1, 1887.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Montevideo Nov. 13.

European Station—R.-Admi. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. At Alexandria, Egypt, Jan. 2, 1887. Expects to remain there till early in Spring.

A correspondent, writing from on board the *Pensacola*, at Alexandria, Egypt, Jan. 2, sends the following information:

On arriving in the harbor of Alexandria, Dec. 11, from Malta, the vessel fired a salute of 21 guns, with the Egyptian flag at the main, which an antique wooden frigate returned gun for gun, and then supplemented with a salute of 13 guns, in honor of the broad pennant of Admiral Franklin flying from our mizzen. This compliment the *Pensacola* promptly reciprocated. Admiral Franklin, accompanied by his staff, proceeded to make ceremonial calls on December 13, with the Oriental governor of Alexandria, Osman Pasha Orphi. General Charles Baker Pasha, chief of the Egyptian gendarmerie and police, Major General Lennox, commanding the British troops occupying Alexandria, and Vice Admiral Morice Pasha, of the Egyptian navy; Capt. Blomfield, English navy, collector of the port; Capt. Royse, of the *Orion*, senior British naval officer in Egyptian waters, and the commanding officers of the *Mohamet Aly* and the royal yacht, the last four visits being acknowledgments for calls made the Admiral on the 11th by those officers. On the 14th, Osman Pasha Orphi and Vice Admiral Morice Pasha and Major Gen. Lennox visited Admiral Franklin on board the *Pensacola*, and were given appropriate honors. Gen. Baker Pasha followed a few days later, and since then has made frequent social calls. Other officers who have visited the commander in chief are Hussein Fehmy Bey, aide-de-camp to the Khedive, Lieutenant Colonels Man Bey and Holton Bey of the Egyptian army, and Lieut. Col. Holroyd, of the British army, and numerous English red coats of lesser rank, have been guests of the wardroom officers. Gen. Baker and officers of the divisional staff of gendarmerie and police gave a dinner at the Khedivial Club on the 30th of December, at which Capt. George Dewey, commander of the *Pensacola*, and Lieut. S. A. Staunton, of the Admiral's staff, were guests. Christmas was made a holiday, with the usual dinner and games for the ship's company, which frolicked about the decks until sunset, with a good audience looking on and laughing at the fun. For each game were prizes ranging from $2 to $8. The *Pensacola* Ministrel Troupe concluded 1886 on New Year's eve night by giving an enjoyable entertainment, which lasted from 8 to 10. The audience of officers and crew were augmented by the presence of several officers and a large number of the crew of the English man-of-war *Orion*. The programme was divided into two parts, the first consisting of negro minstrel songs and jokes, and concluding with a tableau vivant, a representation of Uncle Sam's new navy. The second part of the programme was of a varied nature, viz.: Humorous recitations, instrumental solos, comic character songs, and two short sketches. The music for the occasion was furnished by the orchestra of the ship. The *Pensacola* will remain at Alexandria until sometime early in the spring. She is being thoroughly caulked both inside and out, the first time on the cruise. All hands are well, and delighted with the genial climate.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Reported by cable to have arrived at St. Vincent, C. V., Feb. 4.

Pacific Station—Capt. J. H. Gillis
(in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham, went into commission at Mare Island, Cal., Jan. 15, 1887.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 14.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Montevideo Nov. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Reported by cable to have arrived at Valparaiso, Chili, Dec. 16.

MONONGAHELA, 2d rate, 9 guns, Comdr S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Was to sail from Valparaiso, Chili, Jan. 29, for Panama.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. At Sitka, where she will winter. Address care of Navy Pay Agent, San Francisco, Cal.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. Commissioned at Navy-yard, New York, Jan. 15, 1887. It has not been decided when she will be ordered to sail for the Pacific Coast.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Valparaiso, Chili, Dec. 16.

Asiatic Station—Rear-Admi. Ralph Chandler.

Vessel with (†), address, Mail, General Post Office Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Bombay, Dec. 6.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Arrived at Yokohama, Japan, Feb. 8.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Jan. 7.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was at Canton, China, Jan. 7, and in about a month intended to visit Hong Kong, to give liberty to crew.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. At Yokohama, Japan, Jan. 10.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Reported by cable to have arrived at Santa Cruz Feb. 5, en route for New York.

PALOS,† 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. At Tientsin, China, Jan. 7.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent as follows: Up to Feb. 10, by Brazil Co.'s steamer, leaving New York about that date. Address care of U. S. Consul, Bridgetown, Barbadoes, between Feb. 10 and March 1. Address care U. S. Consul, Basse-Terre, St. Kitts. After March 1, per U. S., and including Brazil Co.'s steamer, leaving New York about March 24. Care U. S. Consul, at St. Thomas, W. I. After March 24, address Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived at Bridgetown, Barbadoes, Jan. 18.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Arrived at Bridgetown, Barbadoes, Jan. 18.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Arrived at Bridgetown, Barbadoes, Jan. 18.

On Special Service.

DESPATCH, 4th rate, Lieut. W. S. Cowles. At New York Navy-yard, having her machinery overhauled.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York. Will remain for several weeks, undergoing slight repairs, and when ready she will proceed on a cruise to the Spanish main, surveying the Lake and Port of Maracaibo, Venezuela, with their approaches.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. At San Diego, Cal., Jan. 3.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard. Expects to go on a trial trip shortly, after receiving all her armament.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. The construction work will be completed about March 30. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. Will be ready in a few months, and in all probability be assigned to the North Atlantic Squadron.

Trenton—Undergoing repairs at Norfolk, Va. Expects to be ready for commission about March 1. It is not known at present where she will be ordered.

VARIOUS NAVAL ITEMS.

THE French man-of-war *La Bouvet* recently at Pensacola, was at Mobile this week and goes from there to New Orleans.

A POPULAR feature of the seasons of a few years ago has been revived in the Monday morning concerts and dances at the Marine Barracks, Washington, D. C.

GUN practice at Spithead is to be suspended during the Queen's visits to Osborne and when the wind sets in her direction, the boom of the heavy guns having disturbed her imperial repose.

A BOARD of Naval officers will be ordered to convene about Feb. 15, to examine candidates for appointment as foreman sailmaker, foreman galley-maker and master blacksmith at the Equipment Yard, Boston. The detail for the board and the place of meeting has not yet been determined.

THE U. S. Coast Survey steamer *Blake* is engaged in investigating the currents in the Gulf Stream, and for this purpose anchors at sea when wind and weather permits. During January, February, March and a part of April, 1887, the *Blake* will anchor between Cape San Antonio, Cuba, and Yucatan, and between Florida Keys and Cuba. During May and a part of June, she will be in the Gulf Stream, off Capes Fear and Hatteras.

IT would be a great advantage, says the London *Morning News*, if our Admiralty would take a leaf out of the book of the United States Navy Department and issue a yearly report of the state of the various vessels of war in its possession. The nation would then be able to ascertain how matters stand. If the report was anything like accurate, in would reveal almost at a glance the very unfavorable position we occupy, and the people of England would see that we are not so strong upon the sea as most of them imagine.

THE English North America Squadron has started a kind of floating United Service Institution, papers being read by officers of the different ships, while smoking goes on among the audience.

THE report of the board on the completion of the monitors is in the hands of the Secretary of the Navy. The most interesting statement contained in the report is that the engines of the *Puritan* weigh 200 tons more than they should. The machinery was designed and put on board by John Roach.

THE work on the designs for the machinery of the two 6,000-ton vessels is progressing well. The Bureau of Steam Engineering has reached the point in the preparation of the designs where just what is necessary can be calculated to a nicety. The machinery will have vertical triple expansion engines, and be provided with twin screws.

THE Secretary of the Navy has under consideration the names of 18 applicants for the position of foreman of the ordnance shops at the Washington Navy-yard. The Secretary will not make the appointment for a week or more, as he is desirous of securing the best man for the place. The ensuing year will probably be one of great activity in the Navy-yard. Extensive additions to the plant will be made, and the work of manufacturing heavy guns will be pushed forward. The extent of the improvements to be made in the yard will not be known until the board appointed to inspect the yard has reported to the Secretary, which will probably be soon.

IT is stated that the new steel boilers for the Fish Commission steamer *Albatross* will not be completed in time to be placed on board before May, and the vessel, instead of starting away this summer on the cruise half round the world to the Pacific coast will do the usual summer work along the New England coast, sailing about June 1. About October next the vessel will leave for the Gulf of Darien and the Gulf of Panama, sailing thence for Brazil and through the Straits of Magellan to the South Pacific Groups, and then to San Francisco.

AT Carrizal Bajo a pilot boarded H. M. S. *Conquest* and kindly vouchsafed some information as to the most convenient anchorage. He was curtly told that his advice was not wanted and was peremptorily ordered to leave the quarter deck. Afterwards he had the satisfaction of seeing from the shore, the vessel bumping heavily several times on the rocks, though fortunately she escaped serious injury. The Commander had the good sense to afterwards apologize for what he had said and to excuse himself on the ground that it was his custom sometimes to speak rather roughly.

UNDER the leadership of Professor Sousa, the much-talked-of Marine Band has achieved a high grade of proficiency, as can be testified to by the thousands who, visiting the White House, have felt obliged to tear themselves from the strains of Strauss and Suppe in order to feast another sense with looking at the "First Lady of the Land." The officers of the Marine Corps at the barracks appreciate the pleasure conferred upon appreciative ears by good music well played, with the result that the Monday concerts are attended by a throng of matrons and younger ladies difficult to encounter elsewhere in Washington.

IF it were not that one professional man can never be brought to duplicate the methods of a brother expert, we would suggest that the Bureau of Yards and Docks in the reconstruction of the New York Dry Dock might copy with advantage the methods and system inaugurated and carried to such a successful issue in the lately completed dock at Mare Island. There a fine piece of work, the best in the country, was constructed with a minimum of money and a maximum of resultant efficiency. It is hoped that the New York dock will be not simply restored, but lengthened and brought, so far as possible, down to the needs of to-day.

WHILE at Yokohama early in January, the fire brigade of the *Marion* rendered valuable assistance at the burning of a hotel in that city. By permission of the Japanese authorities, Rear Admiral Chandler, in a letter dated Jan. 7, stated that in about a week he intended to land the battalions of the *Marion* and *Omaha* as a brigade to be exercised at the public drill ground of Yokohama in the various manœuvres of actual service in the field, The health of officers and crew were, at the date of the letter, in excellent condition. With the exception of local Chinese troubles in the Island of Hainan, affairs thereabouts were quiet.

THE objection urged against the plan of changing the Boston naval station from a navy-yard to an equipment manufacturing depot is that it is "putting all of your eggs in one basket" to transform our yards from general utility stations into parade grounds for specialties. The destruction by an enemy of, say, the Boston yard, would cripple a most important factor in the public defence, whereas its destruction if it remained a "navy"-yard would simply throw the work done there into some other yard equally well fitted to carry on all the branches of naval work. The only ropewalk belonging to the Government is in the Boston yard.

IN the debate on the bill to consolidate naval bureaus in the House on Monday, Mr. Herbert said: "Chief Constructor Lenthall desired to have his friend Isherwood, who was then Chief of the Division of Steam Engineering, made a commodore, and he recommended the change. Giving the three things, construction of a hull, construction of engines, and the equipment of a ship to three different bureaus, was done in the hurry of war." He charged that boilers had been built for the *New York* without an appropriation for them, and, completed in 1884, are lying unused in the Washington yard. Here, he said, "is the *Amphitrite* boilers, finished in 1877, just recently put in; the *Colorado* boilers, finished in 1877, not yet put in; the *Franklin* boilers, finished in 1877, not yet in; the *Monadnock* boilers, finished in 1879, not yet in; the *New York* boilers, finished in 1884, not yet in; the *Wabash* boilers, finished in 1877, not yet in; the *Tuscarora* boilers, finished in 1881, not yet in. If one man is responsible for the building of a ship, its engines and its machinery, he will never start upon the one until he has money for the other. He will not, thirteen years after the work has been abandoned upon the hull of a vessel, start to make boilers for it. Any officer who would do that ought to be Court-martialled."

THE annual Navy Register for 1887 will, it is confidently expected, be ready for distribution the early part of next week.

THE French man-of-war *La Bouvet* and the Italian man-of-war *Flavis Gioia* are anchored in front of New Orleans, where they will remain until after the Madri Gras.

THE circular of the Evan's board prescribing the tests to which steel for the hulls of the new cruisers will be subjected is now in the hands of the printer. Before it is issued copies will be submitted to the Chiefs of Bureaus interested in the construction of the vessels for criticism.

THE Secretary of the Navy has given orders to have the following vessels prepared for the purpose of being appraised by the Board of Inspection under the provisions of the act of March 3, 1883: At San Francisco, the *Cyane*, *Lackawanna*, *Shenandoah* and *Wachusett*; at League Island, the *Pilgrim*; at New York, the *Tennessee*, *Powhatan* and *Ticonderoga*. These vessels have heretofore been stricken from the Navy Register as unfit for further service.

AN amendment to the Naval Appropriation bill for the purchase of Capt. Ericsson's *Destroyer*, reported from the Senate Naval Affairs Committee, appropriates $112,000 for the purchase of the vessel "armed with a submarine gun and projectile torpedo," and including also an independent submarine gun, provided it appears that the vessel and the experiments necessary to perfect it cost that sum. Mr. Ericsson is further required to convey all patents relating to the vessel to the United States, and to agree to communicate to the Secretary of the Navy all improvements thereon for not exceeding $100,000.

THE Medical Examining Board at Philadelphia will begin work March 1, by examining two candidates for appointment as assistant surgeons of the Navy. The New York *Times* says: "There are ten vacancies in the grade of Assistant Surgeon in the Navy, which have existed for more than a year. It is with the utmost difficulty that suitable young physicians are induced to enter the Service. The Board of Medical Officers at Philadelphia, in its annual statement, says that of 39 candidates examined for appointment as Assistant Surgeons only seven proved successful. The Surgeon-General regrets exceedingly that the superior advantages offered physicians to enter the Medical Corps of the Army leave but few desirable ones from which the Navy can choose. Surgeon General Gunnell intends to make it one of the first objects of his administration to place the Medical Corps of the Navy on a footing with that of the Army."

IN the circular issued from the Navy Department in August last naval or marine architects, ship manufacturers and others were invited to submit on or before March 7, 1887, designs for the two 6,000-ton armored vessels of war appropriated for at the first session of the 49th Congress. Although no designs have yet been received, at least twenty-five persons by formally acknowledging the receipt of the circular have signified their intention to compete for the $15,000 offered for each design accepted. Some of these acknowledgments are from foreign experts, and it is understood that several of our naval officers will also compete. Secretary Whitney is much pleased at the prospect of securing an excellent series of designs from which to select. The Bureaus of Construction and Repair and Steam Engineering are also engaged upon designs for these vessels, which will be utilized in case none of those received from outside parties are accepted.

E. LISBONNE, ex-Director of Naval Construction, in "Genie Civil," presents a comparative table of the fleets of France, England, Germany, Italy and Russia. In commenting on the speeds, as given in the tables, wherein the French boats are apparently slower than the English, the writer says: "As to the speeds of our ironclads and cruisers, they are not inferior to those of our neighbors. Only the trials are always made in France with the displacement due to the full load, and almost always in England with the displacement light. When they tell us the draughts of water with which these trials took place, we can rigorously conclude what will be the speed with the armament complete; but those draughts of water are not always given to the public, and the speeds given have, on that account, no significance. The *Leander* (English) not having been able to exceed fifteen knots, once armed, we have inserted this speed in place of that ot seventeen knots obtained on the trials."

THE Board on life saving boats is holding daily sessions, but does little more than meet and adjourn for the reason that no model has yet been submitted which entirely meets the requirements of the naval service. The Board intends to extend its meetings over a period of at least a month in order that every inventor of a life boat may have an opportunity to compete. The models of the following life boats have been thus far submitted: Ingersoll, Norton, Dobbins, Dickenson and Bertham. The last named is entirely distinct frem the others, being a folding canvas life boat of considerable carrying capacity. The other boats are so full of air tanks that they are not suited for the service at all. The Board, in fact, is of the opinion that none of the boats submitted will answer the requirements. What the Navy Department desires is a life boat that can be swung from the davits of a man-of-war and not encumber its deck. It is needed to land detachments of a ship's crew with necessary arms and ammunition. Therefore, the boat eventually adopted by the service will have all the life saving qualities and at the same time be commodious. The greater number of models received are of life rafts, and these of course will receive no attention from the Board.

NAVY GAZETTE.

Ordered.

FEB. 4.—Ensign Lewis J. Clark, to the receiving ship Franklin.

Mate Hugh Kuhl, from the Fish Commission steamer Fish Hawk and placed on waiting orders.

FEB. 7.—Passed Assistant Engineer Arthur Price, to the Portsmouth Navy-yard, N. H.

FEB. 9.—Lieutenant Webster Doty, Surgeon Jos. Hugg and Boatswain Charles Miller, to appear before the Retiring Board.

FEB. 10.—Lieutenant W. G. Hannum and Ensign W. W. Buchanan, to the New Hampshire.

Ensign W. C. Howard, to Bureau of Navigation.

Chief Engineer W. S. Smith, to duty at San Francisco as inspector of the machinery of the Charleston

Detached.

FEB. 5.—Lieutenant-Commander F. W. Crocker, from the Naval Hospital, Chelsea, and granted three months sick leave.

Lieutenant H. Winslow, from equipment duty, Navy-yard, Washington, and ordered to ordnance duty at that yard.

FEB. 7.—Assistant Engineer J. W. Annan, from the Portsmouth Navy-yard and ordered to the Richmond.

FEB. 8.—Captain R. F. Bradford, as Captain of the Portsmouth N. H., Navy-yard and ordered to assume command of that yard and station.

FEB. 9.—Lieutenant F. W. Coffin, from the New Hampshire and ordered to duty under Commander Evans.

Leave.

The leave of Pay Inspector James Hoy is extended six months.

Naval Constructor G. R. Boush is granted leave for six months.

Nominations.

FEB. 4.—Commander Henry B. Seely, to be a Captain from December 13, 1886, vice Captain Richard L. Law, retired.

Lieutenant-Commander Thomas Nelson, to be a Commander from December 13, 1886, subject to the examinations required by law, vice Commander H. B. Seely, promoted.

Medical Inspector David Kindleberger, to be a Medical Director from January 30, 1887, vice Medical Director J. S. Dungan, retired.

Surgeon Benjamin H. Kidder, to be a Medical Inspector from January 30, 1887, vice Medical Inspector D. Kindleberger, promoted.

Passed Assistant Surgeon Benjamin F. Rogers, to be a Surgeon from January 30, 1887, vice Surgeon B H. Kidder, promoted.

Confirmations.

JAN. 29.—Albion S. Keith, to be an Ensign, on the retired list.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending February 9, 1887:

James Wilson, seaman, died February 1, 1887, at Naval Hospital, New York.

Ralph Lawrence, beneficiary, died February 2, 1887, at Naval Hospital, Philadelphia.

NORFOLK NAVY-YARD.

AT a meeting of the members of the Naval Institute stationed at Norfolk, held on Feb. 2, Lieut. R. M. G. Brown read a valuable paper on the advantages of Norfolk as a naval station. He said: "The vicinity of Norfolk possesses many great advantages for a naval arsenal; and it is a remarkable fact that not a single objection can be urged against making it the great shipbuilding yard, now so urgently needed." The history of the yard was sketched and the opinion of Sir George Collier, who captured the yard in 1779, was quoted to the effect "that this port is an exceedingly safe and secure asylum for ships against an enemy, and is not to be forced even by great superiority." Lying at the entrance of Chesapeake Bay, it would serve as a defence for the approaches to Richmond, Baltimore, Annapolis, and the Capital. "There is in this vicinity an abundant supply of timber and other material, while the close proximity of a populous city secures to it the command of all the skilled labor that can be required. Such is the mildness of the climate that work of all sorts can be carried on at all seasons of the year without interruption. The convenience of fresh water where iron vessels can be preserved when not in commission is a great advantage which Norfolk possesses. An inexhaustible supply of the best fresh water can be obtained from Lake Drummond. It has long been known in the Navy as 'juniper' water, and has always had a high reputation for purity and healthfulness."

The improvements required to put the yard in effective condition were sketched and the people of Virginia and the South were urged to secure the necessary legislation, so that the yard may again assume its importance among the naval stations of the country.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., Feb. 9, 1887.

THERE are two weeks of the year when the Naval Academy seems more quiet than at any other time, because of the contrast. These weeks are the ones immediately following the semi-annual examinations and graduation in June. Last week everything was confusion, now all is quiet. The large hops are over, cadets have tried their examinations and have only to await results, and the routine of study and drill is begun. The First Class has finished with all branches save those bearing directly on the every-day routine of an officer, and their remaining four months will be devoted to these technical studies. The Second Class continues its course in Mathematics and Steam Engineering and begins the study of Electricity and International Law. The Third and Fourth Classes continue their studies of the first term, these being of a preparatory nature for coming work.

The indoor drills of last month will be continued. The cadets being divided into divisions, a special indoor drill is laid down for each division and each class.

One of the additions to the gunnery department is a new 5-inch rifle, to be sent to the *Boston* when completed. At present it is mounted in the armory, and is handled by the First Class.

The officers' hop, given on Saturday night, was very pleasant, though the usual number of visitors were not present. It had been rumored that the hop would be postponed and, as this report was only contradicted in the navy-yard and city of Annapolis, many of the society people of Washington and Baltimore, who usually attend these hops, were absent. There was a large number present, but the floor was not so crowded as it usually is at this season. The dancers were received by Mrs. Farmer, wife of Chief Engr. Farmer, assisted by Lieut. McCrea. The usual number of officers and cadets were present.

Two more hops will be given before Lent by cadets, one on the 15th and one on the eve of the 22d. It is thought that a large number of society people will attend the hop on the 22d, as this will close the season. The First Class have made special preparations, and it is thought that a very enjoyable entertainment will be given.

Experience has taught the cadets that the Academic Board will only keep those who have a mark but little below satisfactory. A cadet can usually tell when all results of his examinations are posted whether he will be given a chance to make up or had better send in his resignation at once. The First Class has lost two members, the Second Class nine, the Third Class one and the Fourth Class 26. A large number have already resigned. Besides these a large number in each class will be conditioned, and if their cases are not bettered by June they will be dropped. The First Class will be left with members, they having entered with 121; the Second Class will begin the term with 39, out of 93 that came in; the Third Class will have 50 out of 90, and the Fourth Class about 55 out of 88.

The first and second classes being directly interested are awaiting with some impatience the result of Capt. Sampson's bill, abolishing the two years' cruise. As no one hereafter to be discharged will receive the usual year's pay, it does not find favor with those likely to be left out when selections are made for the Service. On the contrary, it is very satisfactory to those who have a position and rank high in their classes, assuring them a place in the Service as they are anxious to receive their commissions as officers after graduation.

Lieut.-Comdr. Walker and son have left the yard. It is thought that Mr. Walker will ask to be detached because of his recent bereavement.

The building so long used as a trophy and model room for the Gunnery Dept. is being renovated. It will hereafter be used as a headquarters for the Naval Institute. The trophies and models have been moved to the armory, a room being specially prepared for the purpose. Several persons who have been visiting in Annapolis for the last few weeks have left. Among the e were Mrs. Commo. Benham and Miss Seaman, of Staten Island, visiting with Mrs. Engineer Baker; also Miss Murphy, of Baltimore, visiting with Mrs. Gibson. Rear Admiral Clitz, retired, spent Sunday in Annapolis, with his daughter, Mrs. Lieut. Berry.

Naval Cadets Pleasant and Fife, tried for hazing, were dismissed Feb. 11.

The following naval cadets, 38 in all, found deficient at the recent annual examination at the Naval Academy, have been dropped:

J. S. Carnahan, Ohio.	C. J. Erd, Ill.
T. M. O'Halloran, Pa.	T. McD. Gowey, Wash. T.
J. N. Alexander, Mo.	H. T. Green, Kan.
W. H. Gould, Ohio.	A. F. Horn, Pa.
C. H. Kinnear, Va.	T. L. Jenkins, N. C.
W. D. Kochersperger, Pa.	D. H. Kremer, Mo.
E. P. Melson, Mo.	W. L. Lancaster, Ala.
J. R. Morris, Ill.	T. J. Mason, N. M.
I. J. Murphy, N. Y.	J. D. S. Mullen, Pa.
W. McD. Rowan, W. Va.	G. H. Paul, Jr., Wis.
G. S. Selfridge, at large.	C. F. Regan, N. Y.
J. B. Seely, N. Y.	Z. W. Reynolds, Pa.
G. H. Ament, Iowa.	J. Sheehan, Jr., N. Y.
R. W. Beale, W. Va.	F. Shellabargar, Ill.
W. W. Beck, Md.	G. S. Smith, N. Y.
E. I. Berkeley, Va.	H. W. Williams, Conn.
P. Chander, Mo.	J. S. Willis, Ill.
R. N. Chappelle, Ind.	J. W. Clinton, N. Y.
M. Demorest, N. Y.	G. B. Fife, at large.

CONCERT AND BALL AT WILLET'S POINT.

A CONCERT and ball will be given by the post band of Willet's Point, under the leadership of Jules Kamper, at Depp's International Hall, in the village of Whitestone, L. I., on the evening of Washington's Birthday. The entertainment is under the direct management of Drum-Major Jurgensen, of the band. As the citizens of the neighboring villages know the Willet's Point Band well, a large attendance and a successful entertainment is assured.

REVENUE MARINE.

The nomination of 3d Lieutenant Howard M. Broadbent, of Pennsylvania, to be a second lieutenant in the Revenue Service, vice Graham, deceased, was confirmed by the Senate February 3.

Lieutenant George W. Doty, formerly of the U. S. revenue cutter *Corwin*, is at present visiting in Paris. He is the guest of the son of the American Minister to France.

TORPEDOES AND TORPEDO-BOATS.

MR. EDWARD C. PECK has submitted to the English Government a proposal for a torpedo to be propelled by steam obtained from the boiler of a torpedo-boat through a superheater. The outside skin of a torpedo is utilized as a surface-condenser. It is claimed that such a torpedo, 14 ft. by 14 ft., and with an explosive charge of 100 lbs. of guncotton, would weigh only about one-half of those in use and would have a speed of over 30 knots and a range of about 2,500 yards. The cost would be reduced nearly one-half. M. Lisbonne, who was recently Director of Naval Constructions in France, has published in the *Génie Civil* a table of English, French, German, Italian and Russian torpedo-boats of all sorts and descriptions:

England...	boats, 156;	tonnage,	23,912;	cost,	$7,317,000.
France....	" 143;	"	20,450;	"	6,267,400.
Germany..	" 156;	"	14,597;	"	4,467,600.
Russia.....	" 115;	"	5,104;	"	1,560,600.
Italy.....	" 89;	"	7,966;	"	2,437,600.

According to M. Lisbonne, where France is most behind England is in torpedo-boats of a large size of from 38 to 45 mètres in length.

It is stated that the Italian Government has ordered from the firm of Schwartzkopf torpedoes to the value of 6,000,000 marks.

SELECTING RECRUITS BY THE NOSE.

THE Paris *Temps* gives a résumé of a study from the pen of Major Sophus Schack, an officer in the Danish Army, on the subject of physiognomical indications, to which his position as inspector of recruits has led him to devote a considerable share of attention. Major Schack agrees with Aristotle in putting his faith in noses. He can make a good guess at a man's constitution from the size and build of his nose, a large nose, for instance, almost invariably indicating superior chest capacity and power of lungs. It is a still more accurate index to mental qualities, for, belonging as it does at once to the most and least mobile portions of the face, it faithfully reflects the most fugitive movements of the mind. In the child the nose is the most insignificant and least developed portion of the physiognomy. It is not till the intellectual faculties come into play that the nasal organ acquires its characteristics. Savages have no noses worthy of the name. Major Schack's observations lead him to conclude that a small and *retroussé* nose betokens cunning and finesse; a straight and thin nose taste and delicacy; an aquiline nose judgment, reason, and egotism; while a shapeless and clumsy nasal protuberance almost always indicates intellectual dulness and want of *saviorfaire*.

THE Chinese are remounting their cavalry and the Lord High Commissioner of the three Manchuarian provinces is ordered to train, as a preliminary measure, two divisions of cavalry in each of his provinces, and to horse 60 Krupp guns.

BLACK STARR & FROST

SUCCESSORS TO

BALL, BLACK & CO.,

Fifth Avenue, Cor. 28th Street.

DIAMONDS, AMERICAN AND FOREIGN, WATCHES, JEWELRY, STERLING SILVER AND PLATED WARE, FRENCH CLOCKS, BRONZES AND FANCY GOODS.

CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865,	$21.00
Old Reserve Whiskey,	18.00
Unrivalled Upper-Ten Whiskey,	15.00
Brunswick Club Whiskey,	12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION; otherwise to be returned at our expense. Correspondence solicited.

ARMYNAVY.

STEEL FOR HEAVY GUNS.

THE current number of the "Proceedings of the United States Naval Institute," No. 40, is the most interesting and valuable of all this series of papers. It contains a full report of the discussion on the subject of steel for heavy guns which was prompted by the paper read on the 5th of January by Mr. DORSEY. His argument in brief was that mild steel should be substituted for the hard steel, or steel of high tensile strength, which has been settled upon by our ordnance authorities as the proper material for guns. The discussion which followed the reading showed that a large majority of the experts called together to listen to Mr. DORSEY were in substantial agreement with his general conclusion. Indeed, many of them presented the argument for soft steel much more forcibly than he did, and with a more thorough knowledge of the special necessities of ordnance construction. Of thirty-two persons taking part in the discussion only nine were prepared to sustain without reserve the ordnance position. Of these nine two were Lieut.-Commander Barber and Lieutenant Jaques; two others, Messrs. Joseph Morgan, Jr., and John Coffin, represented the Cambria Works; another, Mr. R. W. Davenport, the Midvale Steel Company, and a sixth, Mr. Isaac G. Johnson, the Crucible Steel Works of Spuyten Duyvil, New York; the other three were Lieuts. R. R. Ingersoll and Austin M. Knight, U. S. Navy, and Captain Rogers Birnie, Jr., of the Army Ordnance Department.

Against these men were arrayed, on lines of greater or less divergence, two Army officers: Colonel George H. Elliot, Engineer Corps, U. S. A., who sent some notes on the working stress of iron and steel by Mr. Benj. Baker, of the Firth Bridge R. R., as tending to confirm Mr. Dorsey's conclusions—and Capt. O. E. Michaelis, O. D., U. S. Army; two gun inventors, Dr. Gatling and Mr. Hiram S. Maxim; five manufacturers, Messrs. Wm. Henry Brown, S. T. Wellman, of the Otis Steel Works; Robt. W. Hunt, Troy Steel and Iron Co.; T. F. Rowland, Continental Iron Works, and Wm. Metcalf, Crescent Steel Works; twelve civil engineers, chemists and professors—Messrs. Thos. C. Clarke, Francis Collingwood, C. C. Schneider, James Christie, Chas. B. Dudley, Thos. N. Ely and Theodore Cooper; Professors R. H. Thurston, Cornell University; Thos. Egleston, Columbia College; Chas. E. Greene, University of Michigan; Raphael Pumpelly and Chas. E. Monroe. Gen. W. S. Rosecrans added his testimony, writing that his investigation of high grade steel for guns and other structures, as Chairman of the Committee on Military Affairs, was thoroughly confirmatory of the views taken by Mr. Dorsey in his paper.

It is not strange that with this array against him Lieutenant Jaques should have been betrayed into the admission that he was opposed to the consideration of Mr. Dorsey's paper. It is fortunate that the officers of the Naval Institute took a broader view of the question, for even Lieutenant Jaques in the end admitted that an interesting and spirited discussion had resulted in giving "an opportunity for the presentation of the opinions of men pre-eminent in their respective professions." It is obvious from this discussion that men who have given the subject *disinterested* consideration do not by any means accept the position maintained by interested advocates who would like to have it understood that the question is closed beyond debate. Prof. Egleston said: "We shall have to do for steel what General Rodman did for cast-iron." Mr. Wellman, of the Otis Steel Co., saw "no reason why as good, if not a better, gun cannot be made by some modification of the Rodman process applied to a steel cast gun." Mr. Maxim contended that guns burst "because they were cooled from the outside instead of from the inside," and that "tempering from the outside was worse than no tempering at all." Mr. Hunt, of the Troy Steel and Iron Co., said:

"Why should the authorities so persistently decline to investigate the merits of cast steel guns? The investigation, would cost but little, and I am sustained by the opinion of many able steel workers in believing that in that form of manufacture we will find the cheapest and best guns. There are American works ready now to make the trial, and if successful, the requirements of the country can be rapidly met, and without asking anyone to risk some millions of dollars in the construction and capitalization of a plant which may prove a failure. We have plants capable of casting the gun or guns, and the Government has at South Boston tools *now ready* to finish them. Fifty thousand dollars would afford an ample fund."

Captain Michaelis said: "The most recent investigations have shown that in order to obtain the greatest chemical homogeneity, the very soul of modern structural steel, in hollow or annular forms, the largest possible cores should be used, and the mass cooled from within—a condition fully met by the Rodman process." Mr. Cooper said: "Personally, I do not believe we have even yet exhausted the possibilities of our cast iron; and I am not yet of the opinion that, with a good opportunity to develop the proper method of casting steel guns, an equally excellent result cannot be made with this metal that formerly we were able to do with our cast iron."

These quotations, as well as the general drift of the discussion, was in substantial agreement with the opinions maintained in the JOURNAL, and in the event of Congress furnishing them with funds it will be inexcusable neglect on the part of our ordnance officers if they fail to put the question of casting guns to a thorough and impartial test. It is but fair to insist at the same time that the officers of

our Navy who have been retained in the interest of foreign steel manufacturers should be absolutely excluded from participation in the decision as to the proper material for American guns. An open-minded consideration of this subject will, in our deliberate judgment, lead to results that will make us absolutely independent of foreign precedents and put us once more in the lead in ordnance construction. The experiments of Lieutenant Zalinski in the use of electricity in casting promise remarkable results. We have been familiar with them from the first, but had not felt at liberty to speak of them until their author did so. An increase of nearly 100 per cent. in the tensile strength of cast iron is a gain not to be despised, and it suggests possibilities in the manufacture of cheap guns the importance of which can readily be understood.

The argument in favor of steel for heavy guns, as against cast iron, is very ably presented in this number of the JOURNAL by Commander G. W. Sumner, U. S. Navy. So far as his argument may be considered as addressed to those who favor the use of cast iron, to the exclusion of steel, the audience is a small one; indeed it would be difficult for any one to sustain such a position. The very fact that steel possesses an inherent strength and elastic limit superior to cast or wrought iron was argument sufficient years ago for its attempted use, while the fact that that effort in Europe has been largely crowned by success is argument beyond controversy why an effort should be made in this country, not only for the production of a more reliable steel than that produced abroad, but for the development of our steel industries to such a point as shall secure filling at a satisfactory rate the wants of the Government for naval and military purposes, however pressing they may be. The popular idea of steel is a metal of remarkable strength, toughness, and elasticity, and the great difficulty of preserving these qualities in gun masses is little realized. Of cast iron it is perhaps safe to say that its true qualities and possibilities have been entirely underestimated. The theoretical possibilities of steel appeal to popular approval, and we have fashion and European precedent to qualify any possible failures. We are free to say that we do not believe any failure will result from the use of steel, only that success in its broadest sense may be long delayed. And this brings us to a nearer understanding of the true position of those who advocate, with more or less qualification, the use of cast iron for heavy ordnance. Candor compels a recognition of their position, which may perhaps be stated briefly, yet with sufficient exactness, as follows:

"We are practically without rifled guns for either ships or forts. The experience of foreign countries proves that suitable guns *can* be made. But this same experience shows such a percentage of failures as to prove that in thirty years, under enormous patronage, the art of making reliable heavy steel forgings has not been perfectly learned. The United States ought not to be behind other nations on a question of such vital importance. Therefore, let every energy be bent towards the development and encouragement of our steel industries, to the end that we may not only be able to produce a gun-steel equal to but more reliable than that produced abroad. But we know how slow and tedious such a building up process is. We know how limited is the capacity of foreign plants even to-day for large guns. We can anticipate some of the many uncertainties which, as experience shows, must attend the development of such plants in this country, and the various obstacles which must interpose before we can have heavy guns sufficient for a beginning for the Navy. All this means years, not five or ten, but many years, through which our forts must remain unarmed and our harbors defenceless. In view of this discouraging prospect, we believe that it is more than folly to neglect any means which holds out reasonable hope of avoiding possible national humiliation.

"May not the true remedy be found in the manufacture of large cast iron guns and mortars? Guarding temporarily the more important channels they would effectually bar progress to all but the more powerful ironclads. Indeed, the concentrated fire of guns capable of penetrating nineteen or twenty inches of iron armor at a mile would stand a fair chance of disabling the most powerful vessel, beset as she would also be by rams and torpedoes of more or less destructive character. As guns of greater power are developed, these guns can be shifted to secondary positions, and to the protection of harbors and channels, for which they are known to be abundantly powerful. All this is undeniably the work of years, and further delay is criminal."

Such, as we understand it, is the position of those favoring the use of cast iron for coast defence guns In the past it constituted the basis of their argument for the fair and crucial test of the possibilities of cast iron under the favoring conditions of service with modern ammunition. The argument has been supported by examples of the great endurance of cast iron, and data of various kinds. How much this argument may have gathered force by the performance of the heavy gun at Sandy Hook should be well considered, and how much further force it is to gain from the experiments of Lieutenant Zalinski with electricity will soon be shown. Great guns are not called upon for many rounds in action, so that a guaranteed life through a moderate number of rounds might amply justify their building.

We are heartily in accord with Commander Sumner in his desire for the highest type of guns for our war vessels, yet the problem of coast defence differs somewhat from that of naval armament, and we have endeavored at this juncture not so much to comment upon his able letter, as to present that view of the other side of the question, which is sometimes lost sight of in these discussions.

To us the duty of Congress seems very plain. It should appropriate without delay several millions of dollars for fortifications for disbursement by the War Department through our able Corps of Engineers. It should appropriate with equal promptness at least five millions of dollars for the procurement of domestic steel for guns and armor plates, and it need have no fear for the honest disbursement of the money by the Ordnance Department. The only fear, indeed, is an unwise economy by the contract system, which may fail to expand our works. Congress should appropriate at least a million dollars for heavy cast iron mortars, and at least another million for gun carriages. It should reappropriate the sum, which, by reversion into the Treasury, necessitated the discharge of skilled mechanics, and prevented the completion and test of the unfinished 12-inch rifles. And if not satisfied with the present record of cast iron it should push the experiments further by continuing the tests at Sandy Hook and building one or more guns of the same kind for the confirmation of results already obtained.

Having in mind only the welfare of our common country, we appeal to Congress for broad and liberal action, and the over riding of all merely personal prejudices or distrusts. An universal appeal has gone up throughout all the land for such action. The country is ready to forgive mistakes of any kind except those of neglect.

REGIMENTAL STAFF DETAILS.

IN the JOURNAL of May 15, 1886, we took occasion to refer to an order issued by Colonel R. I. DODGE, 11th U. S. Infantry, making a change in the regimental adjutant and quartermaster, not for any lack of energy or efficiency but because "rotation in these positions in time of peace is directly in the interests of the Service and of Army education, giving to each and every efficient 1st Lieutenant an opportunity to make himself thoroughly proficient not only in line but in staff duties." In commenting upon the order and upon Colonel DODGE'S expressed resolution thenceforth to limit the term of his regimental staff officers to three years, we said: "There can be no question as to the soundness of the principles which this distinguished officer takes occasion to express."

But few regimental commanders seem to have followed the lead thus made and we notice in the New York *Times* of February 7, that a correspondent speaks with some emphasis on the necessity for a change, accompanying his letter with a statement of the service of certain regimental adjutants and quartermasters. One officer has been regimental adjutant for sixteen years, another for thirteen, and so on, the shortest term given being five years. Two officers have been on duty as regimental quartermasters for eleven years, two, fourteen, etc. This correspondent then goes on to say: "I hold that it is neither fair, nor is it for the best interests of the Service to keep the same officers in these positions year in and year out. It is not fair, and it is not treating all alike as regards pay and work. It is not for the best interests of the Service, because every Lieutenant should have an opportunity to learn the duties of regimental adjutant and regimental quartermaster, and particularly those of regimental adjutant. . . . One or two reasons will probably account for these astonishing figures: either the colonels have not the moral courage to be fair or they are handicapped by some obligation." This is a matter worthy of consideration and possibly of a general regulation, such as was issued a short time ago, limiting the term of service of artillery captains with light batteries to four years, and that published in G. O. 85, of 1885, declaring that no line officer shall remain detached longer than four years, unless assigned to special duty by the War Department. Under this regulation general officers have to make periodical changes in their personal staff, which is certainly an argument in favor of regimental commanders being required to do likewise.

THE New York *Herald* has opened its columns freely to Mr. J. R. HASKELL to set forth his grievances against the Ordnance Department in the matter of the HASKELL gun and the answer of the Department to Mr. HASKELL'S charges has been presented in a letter from the Washington correspondent of the *Herald*. It appears that under the Army bills approved June 30, 1882, and March 3, 1883, $21,000 was expended in testing a six-inch multicharge gun under the personal supervision of the inventor. In the six-inch gun thus tested a steel tube cracked at the thirty-third round, and its cast iron casing cracked at the fifty-third round, rendering the piece unserviceable for further firing. The Board of Ordnance officers who officially witnessed this trial reported adversely to the further appropriation of money to construct another multicharge gun. In spite of this and the recommendations of the Chief of Ordnance the Military Committee of the House unanimously recommended the appropriation of $100,000 for continuing these experiments and Congress appropriated the money. The various objections and criticisms were urged upon the Military Committee, and fully considered and answered to the satisfaction of the Committee of which General ROSECRANS was chairman. The money was appropriated in a bill which mentioned the multicharge gun as the object of the appropriation, but did not couple the name of Mr. HASKELL with it. Thereupon the THAYER gun was brought forward as a competing multicharge gun. This threw the matter over, and nine months after a Committee of the Fortification Board reported that it was inexpedient to manufacture a multicharge gun, though exactly how they came to have anything to say about it at this stage is not apparent. The multicharge gun is correct in principle at least, and if Congress is anxious to see how it would work in practice why should it not be suffered to try the experiment? It has no end of money for its little amusements and Mr. HASKELL'S devotion to this idea for so many years, and through so many discouragements, entitles him to this much consideration. Aside from the question as to this particular gun, the controversy is interesting as showing what an amount of legislation is required to compel a Department chief, having a fixed tenure of office, to do what he don't want to do. Doubtless Mr. HASKELL has by this time learned the force of the advice to "agree with thine adversary quickly while thou art yet in the way with him." His act of Congress failing, the only resource left to him now seems to be a constitutional amendment.

THE time is at hand when Boards will be in order for the examination of enlisted men of the Army recommended for promotion to Second Lieutenant. We trust to see a goodly number of candidates and wish them success in their commendable aspirations.

As a compromise, it is proposed that the Ordnance Board to be created by Congress shall consist of Lieutenant General Sheridan, president; the Chief of

Ordnance of the Army, a naval officer to be selected by the Secretary of the Navy, and two civilians to be appointed by the President. All matters relating to the increase of armament for coast defences are to be referred to this Board.

TESTS FOR GUN FORGINGS AND ARMOR.

A circular prescribing tests for gun forgings and armor plate for monitors and large cruisers will be issued from the Navy Department on Monday next. The total weight of gun steel ordered is 1,221 tons. The circular prescribes that all forgings shall be of open hearth steel of domestic manufacture; ingots to be cast solid and to have an excess of weight of forty per cent. above that of rough unbored forgings. They are to be forged down to the following dimensions of finished diameters: Tubes and sockets, 6 inches calibre, to within 2 inches; of 8 inches calibre to within 2½ inches, and of 10 and 12 inches calibre to within 3 inches. Tests are to be made at the expense of the contractors and will be directed to the exhibition of all the principle physical qualities of the metal. Particular attention will be devoted to tensile strength, elasticity, extensibility and contraction of area. The tensile strength of tubes for six, eight ten and twelve inch calibres varies from 80,000 to 70,000 pounds, of jackets from 85,000 to 74,000 pounds. Elongation for tubes from 220 to 126 per cent. Tensile strength of hoops for all calibres 100,000 to 90,000 pounds; trunnion bands from 90,000 to 80,000 pounds. Elongation of hoops 18 to 12 per cent., elongation of trunnion band froms 12 to 6 per cent.

The total weight of armor plate required will probably not exceed 66,900 tons. These plates must be of best quality of material, free from cracks, cavities, flaws, slag-sand, spots, cinders, blow-holes and seams, and must all possess effective ballistic resistance. The bolt-holes in the plates are to number 6,500.

Two chemical analyses of plates shall be made at the expense of the contractors. They may be annealed, but not tempered, and must not show a less mean tensile strength than 82,000 lbs. per square inch, nor less than 20 per cent. elongation. The ballistic test is to be at Government expense. The plate will be bolted against a substantial wooden backing 36 inches thick. Near middle of plate will be arranged three points of proposed impact, so as to form equilateral triangles. A steel projectile of best quality will be fired at each point. No projectile, nor any fragment of plate must get wholly through the plate and backing. The plate must not break up or a piece be displaced so as to expose the backing before the impact of the third shot. Neither must large cracks which expose the backing, appear before the impact of the third shot. Plates that show cracks within six months after being fastened to the ship must be replaced by contractor. Roller armor plates for deflective decks will have to show not less than 85,000 pounds tensile strength and 20 per cent. elongation. Guns shields must show not less than 95,000 pounds tensile strength and 15 per cent. elongation.

2,066,391 different individuals fought on the Union side during the Civil War. Of these 359,496 died in the Service, leaving more than 1,700,000 alive at the close of the struggle or less through dying during the war after discharge. On June 30 last there were upon the pension rolls the names of 268,807 men who served in the Army or Navy during the war, and incurred wounds or disabilities entitling them to pensions under our present laws. It is estimated that this number will be increased under present laws to 365,783. Thus, as the New York *Evening Post* shows, our pension roll already is almost double the standing army of Great Britain, far exceeds that of Austria-Hungary, is more than two-thirds as large as the French Army, and more than three-fourths that of Germany. while a moderate estimate of the additions probable under the Pension Bill, now pending in Congress, would swell its dimensions to the total of 865,000 persons, against only 523,283 in the largest of these European armies. The figures are as follows:

Great Britain (regular army)	209,480.	Cost	$102,477,010
Austria-Hungary "	286,423.	"	51,307,602
Germany "	427,274.	"	111,500,000
France "	523,283.	"	205,000,000
U. S. pension roll (all classes) now	365,783.	"	75,000,000
U. S. pension roll as proposed, at least	865,783.	"	147,000,000

Thus, it appears that our present expenditure for military purposes, in one form or another, nearly equals that of Germany, and promises to far exceed it, and we have a force of only 27,000 officers and men in comparison with 427,274 under the German colors.

THE Adjutant-General of the Army, in response to a resolution, informs the Senate that 12,635 claims, under the act of June 3, 1884, providing for the muster and pay of certain officers and enlisted men of the volunteer forces have been filed in his department, of which 3,841 were completed at the close of the year. With the clerical force now available for action upon these cases the Adjutant-General estimates that at least four and a half years will be required to adjust and dispose of all claims remaining.

MR. HANABACK, M. C., proposes to establish a sort of an Amazonian Veteran Brigade. He has introduced into the House a bill (H. R. 11044) appropriating $100,000 to establish a Home for the mothers, widows and daughters of the volunteer soldiers and sailors in the late War of the Rebellion. The bill provides that "all inmates of the Home shall be subject to the Rules and Articles of War in the same manner as if they were in the Army."

THE Supreme Court of the U. S. has decided in the longevity pay case of the widow of Gunner George Dunn, U. S. N., that service in the Marine Corps is service in the Navy within the meaning of the Act of March 3, 1883. This case has only an individual bearing. The question whether a Paymaster's clerk is a civilian employee or an enlisted man was argued in the Court of Claims on Wednesday last and will probably be decided on Monday next.

NOW THAT the bill allowing brevets for Indian service has passed the House, it is hoped it may pass the Senate and become a law. All our General officers believe it is a most just measure, and we have never doubted that the services rendered in an Indian fight entitle the officer distinguished for gallantry to have some recognition. Let them be bestowed for distinguished services and upon those whose wounds attest work rendered in this class of warfare, of whom we have a goodly number, and much good will be accomplished.

A DESPATCH from Ottawa, Ont., Feb. 7, says: "Some mistake appears to have been made in the recent announcement that the British Government are sending out a number of 80 ton guns for the coast defence of Esquimault and Victoria. Twelve 64-pounders have been sent out from England, not for the armaments of the forts, but to be placed on board the British ships-of-war belonging to the Pacific Squadron or to go into the naval reserves." The 80 ton guns are not to be sent out until April next.

IF the House bill making the Agricultural Department an executive branch of the Government passes the Senate, and it is generally believed that it will, the amendment made by the Senate Committee, on motion of Mr. Morgan, for the transfer of the Signal Corps to the new Department, will in all probability go through with it. There is really very little opposition to the proposed transfer, while there is a very strong sentiment in its favor.

JUDGE WELKER, of the U. S. Court, rendered at Cleveland, Feb. 10, a decision relative to deserters: That a minor over 16 years of age is authorized to enlist in the military service, and cannot on his own application avoid that enlistment because of want of consent of parents or guardian; that the enlistment can only be voided by the parents or guardian where the minor enlists without their consent during minority. The deserter, over whose case the question arose, was thereupon taken to Columbus Barracks.

RETIREMENTS to fill the four vacancies on the disability retired list of the Army may be looked for at an early date. The Secretary of War and Adjutant-General were looking over the list of incapacitated captains on Thursday last, with what result is not yet definitely known. It is understood, however, that Captain Wm. R. Parnell, 1st Cavalry, will be among the four selected.

PROFESSOR HENRY COPPEE, LL. D., formerly of the Army, read an interesting paper—"The Place of Mathematics in Military Education"—before the Military Service Institution at Governor's Island on Thursday. The meeting was presided over by Major-General Schofield, the newly elected president. An interesting discussion followed Professor Coppee's paper.

CAPTAIN NEWBURGH STEWART, R. N., a cousin of Gordon's Stewart, one night while in Abyssinia, whence he has just returned, after a stay of two-and-a-half years, devoted to sport, in the midst of a heavy storm, was studying as to the best method of securing his tent. His eye fell on the camp lamp—a ship's lantern with iron stays in bow form: "There," he exclaimed, "is my tent." The idea thus suggested has been carried out in a tent now on exhibition in London. This tent is supported by eight ribs of American elm resting upon the ground; while the place of the pole is supplied by hauling ropes descending from the apex of the roof to a holdfast driven into the earth in the centre of the tent. With the canvas drawn taut the tent assumes the shape of a beehive, in contrast with the sharp-rising conical form which distinguishes the service tent. The shape can be modified by the cut of the canvas. The tent under normal conditions stands without pegs and ropes. Provision against stress of weather, however, is supplied in the form of four iron hold-fasts, which can be fixed into the ground by long and light iron pins. The canvas door rolls up and down like a window blind instead of tying and untying. There is an expedient for preventing dust or sand from driving under the canvas, and the tent expands and contracts automatically in wet and dry weather. The inventor declares that the tent can be put up in two minutes, the upper part of the ribs always remaining in the canvas. There is a saving in weight, as the elm ribs and iron hold-fasts with ropes weigh less than heavy tent-pole, pegs and ropes. This saving is estimated at twenty tons for a regiment with eighty tents of the Indian pattern.

THE New Orleans Chamber of Commerce has resolved that it earnestly advocate the passage of a Congressional act of appropriation that will cover the expense of establishing, without delay, a thorough system of coast and harbor defences. It urges upon Congress the immediate creation of a navy adequate for the defence of our commercial and maritime interests, and regards the American merchant marine as the only reliable source of supply of American sailors for the American navy, and therefore favors all legislation which tends to its restoration. The Coast Defence Congress organized at Defuniak, Fla., Feb. 8th, with John B. Cary of Richmond, Va., as president, and with the following vice-presidents: A. S. Macintyre of Georgia, H. B. Kelly of Lousiana, J. B. Wall of Florida, Joe Lane Stern of Virginia, J. T. Craik of Columbia, Tenn,, and Henry R. Shorter of Alabama. Resolutions were adopted in favor of a general system of coast defence; also, in favor of a manufacturing arsenal convenient to the steel ore beds of the South and a navy yard in some Southern port.

THE St. Paul *Pioneer Press* reports that Governor Fitz Hugh Lee, of Virginia, was, with much trepidation and after a great deal of coaxing, induced to descend the chute on a toboggan. After getting seated on the toboggan a realizing sense of the situation came over him. Turning to his friends he solemnly directed them to turn the State of Virginia over to the Lieutenant-Governor and to inform the boys that he was gone. Then, whip, bang, he was gone, sure enough. It is reported in Boston that an elderly citizen of that town, who was induced to try the toboggan slide and is laid up with a broken leg in consequence, wrote to Sam Jones: "Go for tobog. in your next sermon. It's just h-ll!" These experiences are explained by the computation made by Captain Metcalfe, who estimates that the toboggan is a projectile having a velocity equal to that of an express train, or 37 miles an hour. Probably the Captain's scientific study of the toboggan is preliminary to a recommendation that it be included in a scheme of coast defence.

THE following is presented as the comparative results of the latest trials of foreign guns:

Gun.	Weight. tons.	Calibre. ins.	Charge. lbs.	Projectile. lbs.	Muzzle vel. ft.	Energy. ft.	Per ton of gun. ft.
Krupp.....	118	15.75	727	2,028	1,804	45,206	383
Armstrong.	110	16.25	900	1,806	2,215	61,200	556
Woolwich..	19	9.2	370	380	2,520	18,728	880

LATE ARMY ORDERS.

Col. R. S. La Motte, 13th Infantry, is granted one month's extension of leave, and Major C. M. Terrell two months' extension of leave.

AN era of reform has struck Beef Gap, in the Territory of Idaho. "Onion Bill" has been elected marshal, and has issued his orders as follows: "On and after this date there will be in this town—No more compelling people to drink when they don't feel like it. No more shooting of plug hats. No more drinking of whiskey out of bottles when the bars are open. No more noisy deviltry. Any man riding or driving a horse into a public bar will be shot. Any man raking down the pot at poker without the cards to back it up will be shot dead. It is the determination of the new administration to usher in an era of reform, and all good citizens will array themselves on the side of the law. All others will be turned over to the coroner."

UPON the programme of amateur theatricals, elsewhere referred to, appears the following:

General Notes.—When in doubt, always applaud.—"Ice" cold refreshments served by Co. A.—Dogs and Babies will not be allowed on the parade ground during the performance.—Anyone desiring to perpetrate a "pun" during the performance will first submit it to the Commanding Officer, Co. I, for his approval.—The audience are informed that the portrait of "The Silent Protector" was painted by "Toniers the Elder in 1628."—A substantial supper of "Beer and Chips" will be served at the Club immediately after the performance.—Should the enthusiasm of the audience be kindled to such an extent as to create apprehension for the safety of the building, the Fire Department will be called into requisition.—Those unable to secure seats will be permitted to visit the Club, where they will be entertained by Messrs. P. O. Ker and Sol. I. Taire.—Beware of "Pick-pockets."—Tickets purchased on the sidewalk will not be taken at the door.

(Contributed to the Army and Navy Journal.)

CAST IRON FOR HEAVY GUNS.

"Steel Guns Explode. Yankee Gun Metal Good Enough for Americans."

The above is the heading of an article on the subject of ordnance, which has appeared in print during the past week. I read it in the *National Republican* of this city, and from a notice of it in your valuable journal of Jan. 22. I see that it has also appeared in the New York *Herald*. In this article it is said, *inter alia:*

"There is a good deal to be said about the endurance of cast iron guns—a good deal gathered from the experience of the past fifteen years." "Make guns of American gun metal and quickly mount them along the coasts." "With Yankee eyes, arms, and hearts behind them they're good enough." —"Ordnance Expert."

The above extracts bring forcibly to mind a paragraph in Very's compilation entitled, "The Development of Armor for Naval Use." The paragraph reads as follows:

"In both the Navy and the Army it has been impossible to turn the eyes of the artillerists from the accumulations of pot metal in the gun parks. Years after French talent acknowledges itself beaten in the attempt to utilize cast iron; when Great Britain and Germany have turned their backs upon it; when no country, be it even half-civilized, will purchase a gun having cast iron in it; when the celebrated attempt of the Italian General, Rosset, whose knowledge of cast iron for guns was second to that of no man living, and who brought to his work all the modern appliances, practical and theoretical, ended in an acknowledged failure; the United States Government still hauls its old cast iron guns from the parks, and goes over for the thousandth time the weary round of experiments," etc.

We notice that this same Italian 100-ton cast iron gun which Very says "ended in an acknowledged failure," is also quoted by "Ordnance Expert" as an instance of the satisfactory and successful performance of a cast iron gun; as a matter fact, however, we believe that only this one gun was made, and with it was abandoned the idea of attempting to construct heavy ordnance from cast iron, and it was never intended for anything more than a medium power coast defence gun anyway.

Touching this matter of constructing heavy ordnance from cast iron, as also from a combination of different metals, a distinguished American metallurgist has well said:

"There is probably no department of industrial art in which a knowledge of metallurgical physics is so important as in the construction of heavy ordnance, and yet guns are being constructed continually in direct opposition to the absolute laws of physics and metallurgy, simply to be blown in pieces, to the discomfiture of their inventors, and often to the death of the operators. I am astonished at the lack of knowledge exhibited by the different advocates of cast iron, wrought iron, and steel for the construction of heavy ordnance, as disclosed through the public press; they do not appear to understand the science of molecular physics, nor its application to the art of metallurgy, otherwise they would not advocate the packed up infernal machines displayed from the *Princeton*, along the path of junk, to Sandy Hook.

Permit me to state, in a concise form, some facts which relate to the strength of iron and steel. A bar or mass of iron is not a continuous body; it may be physically divided; the end of physical division is the molecule; the molecule may be divided by chemical means; the end of chemical division is the elementary atom. The atoms, *per se*, are inert; their energy is derived from the physical forces, to wit, the force of attraction, which is inherent, and tends to draw the particles together and hold them in a state of rest, and the force of caloric which accompanies the matter and tends to push the particles outward into a state of activity. By virtue of these imponderable forces, the atoms unite and form molecules, and the molecules assume a physical structure in which neither the atoms in the molecule nor the molecules in the physical structure touch each other by contact at any time. Nor are they at any time in an absolute state of rest, but are held at a relative distance, to the degree of the molecular resultant force thus exerted. Thus we find that when we rupture a bar or mass of iron, we do not rupture the iron, *per se*, but merely rupture the molecular resultant force in the section under strain.

The molecular resultant force of the elementary bodies vary in degree, some being less and others having a much greater force than iron. The molecular resultant force of commercially pure iron will require a strain of 50,000 pounds to the square inch to rupture it. Now, by incorporating carbon with the iron under proper conditions, the metallurgist is able to produce steel of any tensile strength desired, ranging from 50,000 to 150,000 pounds to the square inch, because carbon, when it enters the chemical structured molecule, increases the molecular resultant force. But when the carbon is held in the physical structure it tends to reduce the molecular resultant force instead of increasing it. For these reasons the tensile strength of cast iron ranges from 10,000 to 50,000 pounds to the square inch, according to the amount and character of the foreign matter present. Thus we are able to furnish iron having a tensile strength ranging in any degree desired from 10,000 to 150,000 pounds to the square inch.

The absolute value of metal for use in ordnance, I think, should be measured by the degree of its molecular resultant force. If so, why use pig metal in which the carbon exists principally in the physical structure, and correspondingly diminshes the molecular resultant force! And why use wrought iron which is composed of lamina of iron and oxides which are liable to become separated by concussion without notice, and which will not at best resist a strain of over 60,000 pounds? Temperature, fusion, and solidification are phenomenal indications of molecular velocity, and as the force of attraction is inherent its effective force will vary, with the distance of the molecules from each other; hence, when the molecular activity is increased by heating or any other means, the increased activity pushes the molecules apart, and this reduces the molecular resultant force. When this force exceeds the force of gravity, the molecules are held in a local relation, but when the molecular velocity is increased to that degree as to reduce the molecular resultant force below the force of gravity, the molecules flow into a mobile state, and this is fusion. The molecular velocity of different elementary bodies vary at any given temperature, and this explains why their expansion and fusion is differential; it also explains why iron expands in a different ratio, relative to the amount and condition of the foreign matter in combination with it.

"With these facts well understood by the physicist, why construct a gun of part cast iron and part wrought, or cast iron and cast steel, or wrought iron and steel, or of any two metals, which exhibit a differential expansion at any given temperature, as the inevitable result will be undue strain on the metal expanding the least, loosening of the joints, fatigue, and final rupture."

Admiral Porter, in his report to the Hon. Secretary of the Navy in 1870, said:

"We have on several occasions cast rifle guns, which, although answering tolerably well for the immediate occasion for which they were required, would be of no use in maritime warfare as at present conducted, except in light-armed wooden vessels for cutting up commerce. During the War of the Rebellion many of these rifle guns burst, inflicting more damage upon us than they had previously inflicted upon our foes."

Another authority says:

"In selecting a material for ordnance, it is not sufficient that it should possess great strength, but it must be resilient; that is, it must, while offering great resistance to rupture, be capable of stretching considerably before breaking. Our best cast iron, for ordnance, has a strength of 37,000 pounds per square inch, and stretches usually less than one per cent.; wrought iron of good quality has a maximum tenacity of 60,000 pounds, and stretches twenty per cent.; bronze gun metal resists 40,000 pounds, and stretches five or ten per cent.; good Bessemer and Siemens steel, containing one-third per cent. carbon, after having been worked by the rolls or under the hammer, usually has a tenacity of 70,000 pounds and a ductility of twenty or twenty-five per cent.; tool steels are much stronger, but only stretch about two per cent. Whitworth states that his compressed steel *castings* have all the strength of, and greater ductility than, the worked steels of similar grade in carbon. It is evident that even our remarkable American gun iron, of which so much has been said, is among the very worst of all these available materials for ordnance. The fact that it has been used almost exclusively in this country is simply due to the inability of our manufacturers to supply guns of a stronger material without flaws due to welding in forged and to porosity in cast metal, promptly and at a price which our Government would pay. Wrought iron is much stronger, but its working into shape involves the formation of numerous welds, and consequently of points of weakness difficult of detection and liable at any time to produce disaster."

Still another authority says:

"If two bars of iron, of one-inch area of cross section each, could be firmly fastened together at the ends, so that one could not expand, or contract, without the other, upon raising the temperature of one eight degrees higher than its previous temperature, it would exert a force of *instant pressure* upon the other bar of 2,000 pounds. If such bars should be formed into rings, like tire and felloes of a wagon wheel, of such relative diameters, that one would fit exactly inside the other, upon heating the inner one a tension equal to 2,000 pounds would be exerted upon the outside ring, if the increase of temperature should be equal to eight degrees. If the outside ring had been of such diameter as to necessitate its being heated before it could be adjusted upon the inner one, and the contraction caused a tension having a tendency to compress the inner ring with a force of 2,000 pounds upon it, the pair would be in a similar condition of *initial tension* with the Rodman gun, which is cooled from the interior more rapidly than from the exterior at the time it is cast; that condition being necessary to enabling a hollow cylinder to be afterwards subjected to expansive force from within, to withstand it in the best manner. If too much tension be imparted to the metal of a gun in this manner, it may burst without any other force acting upon it; several of the Rodman guns of large calibre having burst in the foundry before their completion as guns."

We have already seen that the absolute value of a metal for use in ordnance should be measured by the degree of its molecular resultant force; that the molecular resultant force of the elementary bodies vary in degree; that carbon, when it enters the chemical structured molecule, increases the molecular resultant force; that when the carbon is held in the physical structure it tends to reduce the molecular resultant force instead of increasing it; that in pig metal the carbon exists principally in the physical structure, and correspondingly diminishes the molecular resultant force, and that the force of caloric tends to push the particles outward into a state of activity, and thus diminishes the molecular resultant force. These facts render it important to notice the amount of heat generated in guns, and imparted to them by firing, also the velocity with which a strain is transmitted through their mass radially.

The following are the sources from which heat is derived and imparted to a gun under fire:

1. From radiation from the gases.
2. From direct contact with the same.
3. From friction of the gases.
4. From friction of the projectile.
5. From conversion of energy or work done upon the gun.

As to the total amount of heat imparted to a gun under fire, Col. Baligno found that while the heat from the first fire was 0.957 French units, the total for fifty rapidly succeeding fires was only 14.724 units, instead of 49.35, as it would have been had each fire imparted the same amount as the first. Count de St. Robert, reasoning from the experiments of Baligno, came to the conclusion that nearly one-third of the whole heat evolved from the powder was absorbed by the gun, and Messrs. Noble and Abel, from their own experiments with a 12-pounder 3-inch gun, estimated the proportion as between ⅛th and 1-10th. Consider well these estimates of the amount of heat imparted to the gun by firing, in connection with those facts which we have just mentioned, viz.: that the force of caloric tends to push the particles of the metal outward into a state of activity, thus diminishing the molecular resultant force; that the absolute value of a metal for use in ordnance should be measured by the degree of its molecular resultant force; that when the carbon is held in the physical structure it tends to reduce the molecular resultant force instead of increasing it, and that in *pig metal* the carbon exists principally in the physical structure, and correspondingly diminishes the molecular resultant force.

Next it is important to consider the velocity with which a strain is transmitted through the mass of a gun radially, because many maintain that though cast iron is an essentially weak metal, yet cast iron guns, owing to their mass, the thickness of the metal radially, and the slowness of the transmission of the strain from interior to exterior, are enabled to hold together to an astonishing extent, and to successfully withstand great internal pressures. The theory is that the velocity with which a strain is transmitted through steel or iron is so slow compared with the duration of the pressure of the explosion, that the strain does not reach the outer portion of a gun till after it has nearly, or altogether, passed away from the interior in the case of quick-burning powder, but that with slow powder the outside has time to bring up its strength to reinforce the interior more or less. This theory is, according to an eminent authority, utterly untrue. The velocity of transmission of a strain through any material is, in fact, the velocity of the transmission of sound through the same. In iron this is 15,500 feet per one second, in steel 17,000 to 18,000 feet per one second.

Taking the case of the 8-inch gun used by the English Committee on Explosives. From the pressure and velocity diagrams there given, we find that, with a charge of 30lbs. R. L. G. powder, the maximum pressure was nearly 30 tons, which lasted about 220 millionths of a seconds, whilst with 30lbs. of No. 5 pebble (slow-burning powder) the maximum pressure was about 15¼ tons, which lasted 500 millionths of a second.

Now the time in which a strain would pass from the interior to the exterior of the gun was only 69 millionths of a second, so that it is quite certain that the whole structure of the gun, even with the R. L. G. powder, was fully strained before the interior pressure was relieved.

Putting it in another way, it may be shown that, during the continuance of the interior pressure for the times above named, the strain would have travelled about *four* feet in the case of the R. L. G., and *nine* feet in the case of the pebble powder, whilst the total thickness of the gun was only about 13½ inches. The theory, therefore, is altogether false.

Another matter worthy of consideration in relation to the suitability of cast iron for modern ordnance, is the great difference in the amount of pressure in the smoothbore and the rifle owing solely to the difference in the form and weight of the projectile, this may be illustrated as follows:

In the case of an elongated (rifle) shot, if the shot be *n* calibre in length, the pressure required to move it as compared with that required to move a round (smooth-bore) shot of equal calibre is as 1½ *n* to 1, so that if the shot be 2½ calibres in length, the required pressure will be as 3¾ to 1. This has reference alone to the difference in pressure due to the difference in weight and form between the rifle and smoothbore projectiles, but there is to be added to this a very considerable pressure due to the fact that the rifle projectile "permits of the use of an expanding band or sheath at the rear of the shot, which, being acted on by the explosion, closes up the windage, mitigates the erosion of the bore, and causes more complete combustion of the charge *before the shot moves.*" Hence, it is apparent why the old cast-iron and bronze guns, which were strong enough for round shot, proved totally unfit for elongated projectiles and heavy powder charges.

"Ordnance Expert" enumerates quite a number of medium power cast iron rifles which have been constructed, placed on trial, and *nursed* through quite a number of rounds each; on the other hand we may note that in 1860 France undoubtedly led the world in the development of artillery. The government was thoroughly committed to the complete substitution of rifled for smoothbore guns. An immediate and complete substitution was demanded, the cost of which would be enormous. Having boldly taken the stand for a revolution of system, and wisely studied the true line of development, the country itself, and more particularly the artillerists, took fright at the budget. Compromises were sought and found in the conversion of the old smoothbores and the use of cast iron in the new contructions. Once started in this direction, the talent of France struggled gallantly but uselessly to overcome the fatal defects of cast iron. For fifteen years the development of power in artillery was kept at a standstill, except in so far as increase in calibre was concerned. The end was reached in 1875 when cast iron was condemned, and from that time France has brought her artillery rapidly and steadily up until it is again abreast of the foremost systems. The compromise instead of being an economy, was an absolute waste, as it led to the condemnation of two distinct systems instead of one; for the heavy cast iron lined rifles must be replaced before they have served out a lifetime. In the United States, of all the types of cast iron rifled artillery that have been put forward, the only one whose career merits the title of development is the Parrott rifle. It first appeared about 1856 as a field piece, and was rapidly developed and improved until 1862. The development of the gun ceased at this time, and its performance in 1865, when, in the attack on Fort Fisher, six guns exploded, killing 16 and wounding 23 men, condemned it.

Considering carefully all of the above evidence against the suitability of cast iron as a metal for ordnance purposes, we hardly think that the United States Government would be justified in again hauling its old cast iron guns from the parks, and in going over for the thousandth *and first* time the weary round of experiments, nor yet in making a lot of "guns of American gun metal and quickly mounting them along the coast;" we should be simply repeating the French experience of more than twenty years past, and with no excuse whatever for so doing.

However, we would wish to remark that this is merely our own opinion on the matter, given with all due diffidence, as coming from a simple student of the subject of ordnance, for never having been educated up to the point of an Ordnance Expert, we, of course, would not presume to speak too dogmatically upon the subject.

G. W. SUMNER, Commander, U. S. N.

WASHINGTON, D. C., January 25, 1887.

SCOTT IN THE MEXICAN WAR.

HIS VICTORIES have never received the credit justly due them on account of the apparent ease with which they were gained. The student of military history will rarely meet with accounts of battles in any age where the actual operations coincide so exactly with the orders issued upon the eve of conflict as in the official reports of the wonderfully energetic and successful campaign in which General Scott with a handful of men renewed the memory of the conquest of Cortes, in his triumphant march from Vera Cruz to the capital. The plan of the battle of Cerro Gordo was so fully carried out in action that the official report is hardly more than the general orders translated from the future tense to the past. The story of Chapultepec has the same element of the marvellous in it. The general commands apparent impossibilities in the closest detail on one day, and the next day reports that they have been accomplished. These successes were not cheaply attained. The Mexicans, though deficient

in science and in military intelligence, fought with bravery and sometimes with desperation. The enormous percentage of loss in his army proves that Scott was engaged in no light work.—*Life of Lincoln: the February Century.*

THE DYNAMITE CRUISER.

LIEUT. ZALINSKI, called at the room of the House Committee on Naval Affairs Feb. 5, and explained to some of the members of the committee the details of the dynamite cruiser. A handsome model of the cruiser was sent to the committee that day from the Navy Department, where the contract for the construction of the naval craft was signed last week. The boat will be 230 feet in length, 26 in breadth, and of 7½ feet depth. It is already building in Philadelphia, and it is expected that she will be completed in five months. The model shows remarkably fine lines, with a tier of ⅜ inch pneumatic bow guns, whose projectiles will be shells containing 400 pounds of dynamite each. A speed of 20 knots an hour is guaranteed by the contractors. Lieut. Zalinski exhibited a photograph taken in the one-five-thousandth part of a second representing a discharge of the dynamite gun at Sandy Hook. The photograph discloses a curious cloud of condensed vapor issuing from the muzzle of the gun, corresponding in appearance to the smoke cloud resulting from a discharge of gunpowder. In the course of his remarks Lieut. Zalinski stated that he was making some experiments that might prove of great value relative to the effect of an electric current on molten iron. Preliminary tests had shown that iron cooled while a strong current of electricity was passing through it was increased fully one-half in tensile strength and ductility. More thorough tests are to be made in a short time.

The Spanish torpedo-cruiser *El Destructor*, which is the model for Lieut. Zalinski's dynamite boat, had a very successful trial on December 10. The ship was run six times on the measured mile at Skelmorlie, and in addition for three hours continuously. The greatest speed obtained was 23.1 knots, and the mean speed for the three hours was determined by the revolutions to be 22.65 knots. She was fully equipped and ready for sea. From some consumption trials previously carried out, it was found that she was capable of steaming 5,110 knots, at 11½ knots per hour, without coaling, while with forced draught she can steam 700 knots at full speed. Her boilers are of the locomotive type, and work "in groups."

ITALIAN PROGRESS IN IRON WORK.

THE *Army and Navy Gazette* says: "The authorities seem hardly sufficiently alive to the vast strides Italy has made in the working of iron, and the formidable nature of her possible competition with us. Lieut. Chambers, U. S. N., in a paper published by his Government, says: "The Italian Government is fully aware of the importance of fostering and developing home industries. Strenuous efforts are being made to render Italy entirely independent of foreign aid in shipbuilding, and the Italians are fast drawing the attention of outside purchasers to the superior quality and excellence of the products of their workmanship." Worse than this, the *Engineer* a short time back wrote on this subject: "Ten years ago it would have seemed ludicrous to the builders on the Clyde had they been told that a country which had no coal worth speaking of, and where iron, though abundant, was difficult to get at, and where moreover, not a half-a-dozen men knew how to do the simplest job of iron ship building, would in the course of those years not only beat them in quality, but in price, and be turning out the largest, the most powerful, and the best built vessels in the world. Such, however, is the case."

A NEW TELEGRAPH LANTERN.

ON Monday evening, Jan. 31, 1887, we witnessed a successful trial of the Oatman Signal Telegraph Lantern, intended for military and naval use. This lantern is of a convenient size, strong and simple in construction, and can easily be carried around. A blow-pipe flame is used which so intensifies the light that it resembles an electric light, and can be easily seen with the naked eye for 10½ miles, and with a glass for 15 miles. The messages are exchanged by the continental code or Morse system, the dot being signified by a quick flash and the dash by a flash of longer duration. Ordinary mineral oil is used, and the light will burn for about five hours with the one filling. Rain or wind has no effect on it. On the evening above stated Naval Cadet H. A. Bispham, Fleet Signal Officer of the North Atlantic Squadron, and party, provided with the Oatman Signal Lantern, stationed themselves in the observatory of Prospect Park, Brooklyn, while a second party, consisting of Mr. C. D. Oatman, the inventor of the lantern, Mr. C. Powers, of the U. S. S. *Richmond*, assistant to the signal officer, and a representative of the JOURNAL, proceeded to the residence of Mr. F. W. Houghton, at Greenville, N. J., who is superintendent of the N. Y. Maritime Exchange. From there messages were successfully exchanged with the party in Prospect Park without the slightest hitch. The distance between the two parties, over the broad expanse of New York Bay and the city of Brooklyn, was about 7½ miles. Glasses had been carried but they were not required, for the signal flashes were plainly understood with the naked eye.

Looking from Greenville, N. J., to the left of the signal lantern in Prospect Park, the group of powerful electric lights on the park reservoir could be seen, but the flame from the signal lantern at that distance showed up with nearly equal brilliancy. The night was starlight, with a young moon, and the flame on a clear dark night would show to even better advantage. The Army and Navy officers who have witnessed its efficiency receive it with great favor, and its advantages over the old-fashioned, sputtering, dripping torch are plainly apparent. The lantern has been experimented with from Fort Hamilton to Sandy Hook, and from the tower of the Produce Exchange to Fort Hamilton, in the presence of officers of the Army, Navy, Signal Service and others. It has also undergone trial at the Brooklyn Navy-yard in all winds and weather, and it is highly recommended for its efficiency. In a letter of endorsement from the Chief Signal Officer, War Department, with whom lanterns were given for trial, it is stated that messages were exchanged between Sugar Loaf and Camp Biddle, a distance of 20 miles. A Board of Officers appointed by the Navy Department to examine the lantern also attest its value.

BOYCOTTING in a mild form seems to have broken out simultaneously at the Military and Naval Academies. The different classes are boycotting each others entertainments, but no harm is done so long as the young ladies patronize the entertainments of all parties to the dispute, as they do with charming impartiality. But suppose they should declare a boycott of their own! The contingency is one too horrible for contemplation.

THE STATE TROOPS.

NATIONAL GUARD ASSOCIATION.

THE Convention recommended an increase in the annual allowance for brigade headquarters to $1,000, allowing mounted officers $50, and to all other officers $30, to aid them in procuring uniforms, arms and equipments; increasing the pay when on active duty, under State orders, of adjutants, sergeants, majors and first sergeants; allowing companies $50 per year for clerk hire, and at present a single payment only of $50 or $30 is granted to commissioned officers "at the time of their original election or appointment as commissioned officers;" which debars any officer from re-entering the service. The annual allowance to an officer would, at the end of five years, if mounted, give him $250, and if dismounted $150; sufficient to reimburse him for his original outlay.

The most important change proposed by the association is that recommending a change in the law governing the election of non-commissioned officers. Formerly all non-commissioned officers were elected by the members of their own troops, batteries or companies. Exception was then made as concerning first sergeants, who are now appointed by captains of companies, subject in the infantry arm to the approval of colonels of regiments. The elective system is all wrong and should be abolished. The popularity of officers and of non-commissioned officers has very little to do with their qualification for command. Indeed, it is frequently the case that the traits and characteristics of men that render them certain of election, are the very qualities that render them useless as maintainers of discipline and worse than useless as commanders of men in time of peril.

The vast labor agitations and strikes of enormous magnitude of the present day force the subject of peace maintenance upon the minds of all classes of the people. It was Sir Francis Bacon, Lord High Chancellor of England, who said: "When discords and quarrels and factions are carried openly and audaciously, it is a sign that reverence of government is lost." It seems that his words are as true in our own times and in our own country as they were when they were uttered in England more than 300 years ago.

But, if "reverence of government" be lost in military organizations themselves, what hope is there that they will prove effective if called upon for actual service? The entire efficacy of the military system is based upon unquestioning obedience to orders and observance of discipline. If officers and non-commissioned officers fill their positions because they are "good fellows," without regard to knowledge of their duties and executive ability, the organizations to which they belong must suffer.

In the volunteer service, governors of States appointed all the commissioned officers. They were frequently governed in these appointments by the recommendations of superior officers, and they selected those who were, in their opinions, best qualified for the positions. Only in the case of Sickles' regiment and brigade was exception made to this rule in New York, and his "United States" Volunteers were commissioned by President Lincoln.

The necessity for a change in the law governing the election of non-commissioned officers in the militia is equally apparent, if not more so, as applying to officers. As the militia has many obstacles with which to contend unknown in the Army, and as from the very nature of such service these obstacles cannot wholly be removed, much latitude should be given and great allowance made for breaches of discipline that would be inexcusable among regular troops. But because of these very difficulties; of infrequent assemblies for drills and ceremonies, anything tending to lessen respect for superiors should be discountenanced. The recent reports of inspecting officers show too great a lack in discipline throughout the militia organizations of the various States. No one doubts that the vast majority of the men in these organizations would be glad to have the defect remedied. Let the elective system be relegated to the past with "training days," "train band captains," and let officers who have some soldierly qualities be appointed by the governors, and let them answer all questions put by examining boards, in writing, with some *nom de plume* attached to prevent all "partiality, favor or affection."

The opposition to the proposition to select instead of appoint non-commissioned officers at the State Convention last week came chiefly from the Seventh, Ninth, Thirteenth, Twenty-third, Seventy-first and Seventy-fourth Regiments, about two-thirds of the regiments, three-fourths of the separate companies, and five-sixths of the batteries being in favor of the proposed change.

Since the stormy debates about the adoption of State uniforms, State camps, etc., half a dozen years ago, the National Guard Convention of New York has lost much of its interest, and meetings of late have been but scantily attended. For some years several regiments did not send any representatives at all, while some others openly acknowledged that they only kept up representation so as to be on hand to combat any measure not favored by them. The knowledge, however, that recommendations and suggestions coming from the Convention would meet with fair consideration at the hands of the Adjutant General created increased interest in the subject, and the present meeting was unusually well attended, although neither the commander of the 1st Brigade was present in person or represented by any member of his staff, nor was the 12th New York represented at all. Col. Clark of the 7th was prevented by illness, and Col. Fincke of the 23d by the sudden death of his father, from attending the Convention, which this year directed its attention mainly towards legislative matters.

In regard to the question of a permanent Adjutant General, Col. Scott said in his opening address:

> The Association has already put itself measurably on record through the action taken at the Convention of 1885, two years ago, in favorably considering certain modifications of the Military Code looking to that end, proposed by Gen. Brownell. It is suggested, in submitting this matter to the Convention, that in view of the greatly enlarged discretionary powers conferred upon the Executive by recent legislation, the Association, before taking definite action, should make itself conversant, by a conference committee or otherwise, with the views and wishes of the Commander-in-Chief in relation thereto.

The Governor is known to be opposed to the selection of a permanent Major General or of a permanent Adjutant General.

MILITIA FORCES OF THE UNITED STATES.

THE annual abstract of the militia forces of the United States, organized and unorganized, for this year according to latest returns, shows a very substantial increase over the returns of last year, as the figures below will illustrate. It is fair to state, however, that the large increase does not represent an actual addition to the forces during the year, as it is partly due to the fact that returns were received from some of the States not heretofore heard from, and whose organization has previously been underestimated in the Adjutant-General's Office:

AGGREGATE STATE MILITIA.	1885	1886.
Total commissioned	6,535	7,236
Total non-commissioned officers, musicians and privates	75,175	82,261
Number of men available for military duty, unorganized	6,786,995	7,460,592
AGGREGATE TERRITORIAL MILITIA.		
Total commissioned	277	279
Non-commissioned officers and enlisted men	2,752	2,958
Number of men available for military duty, not organized	187,000	195,000
GRAND AGGREGATE.		
Total commissioned	6,812	7,515
Non-commissioned officers and enlisted men	77,937	85,219
Number of men available for military duty, not organized	6,973,995	7,655,592

THE TROUBLES IN THE THIRTEENTH NEW YORK.

The G. C. M. in the case of 2d Lieut. Wm. K. Smith, found him guilty on all the charges (four) and the specifications (nine), and therefore sentences him "to be cashiered and incapacitated from holding any military commission. The Commander-in-Chief approves the proceedings, findings and sentence of the court, except the following of the findings: First.—On specifications two and four of charge one, inasmuch as neither the specifications nor the evidence given in support thereof sustain in law the charge. Second—On specification one of the supplemental charge one; on the supplemental charge one, and on specification one of supplemental charge two, for the reason that the evidence adduced does not sustain such findings as a matter of law."

The findings in the case of Major Ackerman, of the 13th, for alleged insubordination towards Col. Fackner have been sent to Albany.

The trial of Lieut. Russell Benedict, of Co. H, was ordered on Wednesday night. The accused submitted a statement, in which he said that he certainly would have been present at the first session had he known it was not necessary for him to appear in uniform. Lieut. Benedict conducted his own case. After having stated his grade, the date he entered the 13th, and the various positions he had filled, he said he resigned the office of 1st lieutenant shortly before the regiment went to the State camp in the summer of 1885. His resignation was accepted and published in orders. Col. Alfred C. Barnes, then in command of the regiment, held back the certificate of discharge until after the tour of duty at the State camp. It was subsequently handed to him by Col. Barnes and he passed it back.

His defence was, in brief, that the telegram sent from Dallas to Edward Fackner, was sent in his capacity as counsel for Lieutenant William K. Smith. He did not send it to Edward Fackner as Lieut. Col. of the 13th, but as to a comrade. The reason he declined the colonel's order to leave the room on one occasion was that he was a member of the Council, which was a society incorporated under the Benevolent Societies act, State of New York. He voted for the resignation of Captain Kretschmar, believing at the time it was the captain's desire to receive an expression from the company. That was one reason why he voted. Another reason was he believed the interests of the company would be advanced by the captain's attention to the request. He (Benedict) did not make any remarks on the resolution, and was only in the room while the question was under discussion and the vote being taken. At no time had he in any wise done any act inciting members to insubordination, but the reverse whenever occasion offered. On Oct. 4 he received a paper by mail purporting to come from Lieut. John T. Jennings, then acting adjutant. The letter was not in the form of an official order. It asked him (Benedict) to meet the colonel at Regimental Headquarters at 8.30 that night. Had a business engagement that evening and addressed a letter to the colonel, which was sent the same day. At about 10 o'clock that night he (Benedict) went to the armory, but did not find the colonel there. Sent another letter to the colonel on October 5, which was not answered.

NEW YORK.

G. O. 3, of Feb. 1, announces a few changes which occurred in January among the non-commissioned officers of the National Guard; G. O. 4, of same date refers to improvement in the Guard as shown by the reports of the Insp.-General. To maintain this standard it directs that schools of instruction in tactics and regulations be established by brigade, regimental and battalion commanders and by commanders of companies, and batteries for N. C. officers. These are to be continued during the drill season and delinquent or incompetent non-commissioned officers reported. It is directed that organizations which do not go into camp shall, during the season, devote as much time as possible to outdoor practice, and when this is undesirable, to theoretical instruction, sighting and aiming and, when possible, to gallery practice.

In order that the troops to be ordered to the State camp this season may derive the fullest benefit of their tour of duty, officers and enlisted men are reminded that, as has been frequently stated before, the camp has been established for instruction only; that anything calculated to interfere with this object cannot be tolerated, and that discipline and decorum must at all times be observed, and it is ordered:

"1. That the military exercises to be executed and practiced in camp, shall consist of such tactical movements as cannot be carried out in armories, of the skirmish drill, and of schools of theoretical instruction for officers and non-commissioned officers.

"2. That no men shall be taken to camp who are not already sufficiently well drilled to take part in those exercises, nor any men (those re-enlisted or taken up from dropped, excepted,) who have been enlisted within sixty days of the beginning of the camp tour of their respective companies.

"3. Theoretical instruction in guard duty should be imparted to non-commissioned officers and privates by their respective company commanders, before entering the camp. Instruction as to the general routine and duties of soldiers in camp should also be imparted in the same manner.

"4. The Paymaster-General is directed not to pay any officer or enlisted man for services, if such cover only the day of arrival, the Sunday following, the day of leaving, or only one day, in camp."

G. O. 5, of Feb. 4, publishes for general guidance, instructions in sighting drill and aiming drill, prepared by the General Inspector of Rifle Practice.

Seventh New York.—Col. Emmons Clark.

The eleventh series of games (handicap) of the 7th Regt., N. Y., Athletic Association will be held in the armory on Saturday evening, April 9, 1887, at 8 P. M. The following events will be contested: 93 yards run (handicap); 1,000 yards run (handicap); 440 yards run (handicap); 1 mile bicycle (handicap); 75 yards dash (championship); sack race (50 yards); 220 yards run (handicap); potato race (20 yards); 1 mile walk (handicap); ½ mile walk (for those who have never won a prize in any walking race); 3 mile bicycle (handicap); putting 16-lb. shot (handicap); wheelbarrow race, 2 laps, (handicap for distance); 1 mile run (handicap); 220 yards hurdle (handicap); 3-legged race, 1 lap, (handicap); running high jump (handicap); ½ mile run (for those who have never won a prize in any running race); ½ mile roller skate (handicap); exhibition bicycle drill; obstacle race (2 laps); inter-collegiate tug-of-war, teams of 4 men, (600 lbs. limit). Entries close March 29.

2d Lieut. Harry C. Duval was elected 1st lieutenant of Co. I, 7th Regt., on Thursday evening, Feb. 10.

Col. Emmons Clark, 7th Regt., who has been confined to his residence on account of illness for some time, is recovering, and has issued orders for a series of wing drills to commence about Feb. 15 next.

Co. G, 7th Regt., Capt. James C. Abrams, is making preparations for a grand entertainment at the armory on Washington's Birthday, Feb. 22. The plans of the affair are on a scale which will eclipse everything of this kind ever undertaken in the regiment.

Thirteenth N. Y.—Colonel Edward Fackner.

SURG. CHARLES E. DE LA VERGNE, of the 13th N. Y., on Feb. 4, delivered his first lecture to the Ambulance Class of the regiment. He had an articulated skeleton of a male adult suspended from one of the chandeliers in the Council of Officers' room. Every bone and its use was explained to the class.

An invitation has been received from Lieut.-Col. Caverhill and officers of the Royal Scots of Canada for Col. Fackner and officers of the 13th N. Y. to attend a ball at the Windsor Hotel, Montreal, on Feb. 18.

Capt. Willoughby Powell, of Co. B, 13th Regt., presided on Feb. 4 at an election for Captain of Co. F, in place of Capt. Wm. H. Courtney, deceased. Thirty ballots were cast, all of which were for J. Frank Dillont. The Captain-elect saw his first service in the 7th Regt. and was an officer in the 13th several years ago. He was elected Captain of this same company, F, in December, 1876; was promoted Major in March, 1880, and Lieutenant-Colonel in July, 1880. In April, 1881, he resigned.

Co. C, 13th Regt., has in view an entertainment to be given at their armory, April 1 next.

Forty-seventh New York.—Col. E. F. Gaylor.

Two battalion drills of the 47th New York, on Jan. 25 and 28, were omitted from our last week's issue for want of space. Col. Gaylor commanded at the former and Major W. H. Eddy at the latter. The movements at both drills were identical, and there was so much similarity in their execution that one report will cover both. They comprised the following: Centre forward fours left and right, right and left front into line, fours right left companies on right into line, wheels from line into column of companies and *vice versa*, right of companies rear into column, companies break from the right to march to the left, and the loadings and firings. Generally there was a decided improvement over what was done at the previously reported drills. There were certainly fewer errors, but those committed occurred in the simplest of movements, and, what is worse, they were chargeable, as usual, to the officers oldest in commission, for whom there was no excuse. At both drills the movement right and left front into line from double column of fours was rendered ragged in both wings by the faulty action of the captains of the right and left centre companies, due to downright ignorance, because the movement is as simple and plain as day. Knowing what usually becomes of the movement right of companies rear into column the instructors in both instances explained it in a thorough and perfectly intelligible manner before giving the command of execution, and yet it went to pieces, as is generally the case. There were captains who seemed to lack the slightest idea as to its proper execution. They neglected to place themselves in front of the marching flank of the leading four, as well as to give the cautionary command for the first four to wheel right about; nor did they halt on the line formerly occupied by the front rank and give the command fours left at the time when the rear four was approaching the position when this command was in order, and the result was an irregular column with no alignment of guides. In the movement, companies break from the right to march to the left, little attention was paid to the marching of company distance to the front and the necessity of promptness of taking up the march when preceding companies reach a point opposite the left, consequently distances were very irregular.

The firings showed the same lack of instruction in the essential parts as we have been compelled to point out in numerous other cases. In attempting to bring the men up to an almost unreasonable point of proficiency in delivering volleys for nothing else than show purposes, the details and principles laid down for an effective delivery, with a view to inflict the maximum of damage upon the enemy, with the minimum of danger to the firing party, are neglected. Under present circumstances, if our State troops were called into active service particularly in narrow streets, the slaughter inflicted upon their own comrades would be simply appalling. The necessity of teaching men when, how, and where to fire, the reason why certain positions of the pieces, of the feet, and of the men themselves are laid down, and the necessity of strictly adhering to them, are of prime importance in all drills. Proper attention to these points are lacking in almost every instance, and yet they are more important than the finest and straightest alignments and the strictest marching.

While these two drills, as stated, showed considerable improvement, yet this was not of the kind desired. The mistakes were due to a disinclination to study and improvement on the part of those who made them. Our firm belief is that the only way to bring about steady improvement is to rid the regiment of that "fossil" element spoken of in our previous report. No other remedy can be proposed.

On Friday evening, Feb. 4, the final drill of the series took place, Col. Gaylor in command. The regiment formed eight commands of sixteen files each. After the manual of arms in open ranks, which, by the way, was a decided improvement on any exhibition this season, the following movements were executed: On right into line by wing, to the right and on the right close column of divisions, to the left and on the left close column of divisions, continue the march, on the left column of companies and divisions, followed by loading and firing. The drill was very smooth throughout, the officers appearing to understand their duties to a greater extent than at any of the previous wing drills. The friends of the organization were out in full force and applause was frequent. We understand that for years the regiment has never had so large a formation for regimental drill as that of last Friday night, the result, no doubt, of pruning the organization of the deadwood in the rank and file, and filling their places with a new, young, and active element. A similar change in the officers is just what is needed.

ON the evening of January 28, Maj. S. Ovenshine, 23d Infantry, commanding Fort Porter, N. Y., was complimented by a review of the 74th Regt. N. G., S. N. Y., at their armory. Col. Bloomer commanded the regiment, and it presented a good, steady, soldierly appearance. Battalion drill followed the review.

MILITIA ITEMS.

The corporative strength of the New York National Guard for several years is shown in the report, as follows:

Year.	Brigades	Infantry Regiments	Separate Companies	Batteries	Other organizations	Total	Aggregate Strength
1879	13	23	31	10	27	104	20,208
1880	13	23	33	10	25	104	18,116
1881	11	21	36	10	18	96	16,046
1882	8	15	40	7	5	75	11,608
1883	8	15	40	7	5	75	11,568
1884	8	15	40	7	5	75	11,687
1885	8	15	39	7	5	74	12,520
1886	8	15	41	7	5	76	12,580
1887	4	15	42	6	1	68	12,480

Its present strength is now what it was thirty years ago.

Co. F, 47th N. Y., will hold a silver reception on March 21 next.

The return rifle match between a team from Co. F, 47th N. Y., and a team from Co. F, 23d N. Y., was decided at the 23d Regiment Armory, Feb. 3. The team from the 23d won the match by nine points, their total score being 417 points out of a possible 500, against 408 points made by the team from the 47th. The teams consisted of ten men each. The previous match was also won by the 23d Regiment team, their score being 378 points, against 363 made by Co. F, 47th. After the match both teams passed the remainder of the evening in "social style."

The Choral Society of the 23d N. Y. has met with great success. The applications for membership are unexpectedly large. An entertainment will be given in due time.

Co. I, 23d N. Y., will receive their marksman's badges on Feb. 12.

Major Morris B. Farr was unanimously elected the first honorary member of the National Guard Association at the late meeting in Albany, as a recognition of his long services as secretary of the Association, a position which he was compelled to resign when Gen. Brownell's staff officers were rendered supernumarary.

A series of promenade concerts will be given by the 9th N. Y., beginning the latter part of this month.

The 2d Battery, Capt. F. P. Earle, has now 92 men on the roll. During the past week a guard has been kept at the armory. The arrangements for the reception on Feb. 22 are progressing favorably.

Co. G, 8th Regiment, will give a ball at Caledonian Hall Feb. 28.

The regimental ball of the 69th Regiment will be held at Tammany Hall March 17.

In Orders 3 of Feb. 7, Capt. H. S. Rasquin, commanding 3d Battery, 2d Brigade, prescribes the course of battery drill for February and March. 1st section—Feb. 14, 28, March 14, 21 and 28. 2d section—Feb. 16, 23, March 2, 16, 23 and 30. 3d section—Feb. 15, March 1, 15, 22 and 29. 4th section—Feb. 18, 25, March 11, 18 and 25. Chiefs of sections will drill their respective sections. 1st Lieut. Wm. W. Hanold will supervise the drills of the 1st and 2d sections.

The returns from the competitors for the Belknap trophy have been received at Headquarters, 1st Brigade, Co. A, 12th New York. Capt. Howland Pell made the best score, and will hold the trophy for the coming year. This company has worked up in a remarkable manner under its present captain.

Capt. Louis Wendel, of the 1st N. Y. Battery, orders instruction in the manual of the piece, the preparation of ammunition, care of horses, pointing and ranges, and field service and battles on Tuesday of each week. The first drill was held Tuesday, Feb. 8.

Col. Geo. D. Scott, of the 8th N. Y., orders drills as follows: Cos. F, G, H and I, Feb. 21; B, C, D and E, Feb. 24. Marksman's badges will be presented Feb. 21 and 24. Officers will report for drill Feb. 14, and non-commissioned officers for the same purpose Feb. 18. The officers have been ordered to wear mourning badges for one month in commemoration of the late Capt. G. W. Gustow, deceased. Geo. C. Heilner was elected 2d lieutenant, Co. D, on Saturday, Feb. 6. 2d Lieut. John McCauley, Co. G, has resigned.

1st Lieut. Robert A. Serrell, Co. I, 71st Regiment, has resigned.

It is stated that Capt. Kretchmar, of the 13th Regiment, Brooklyn, desiring to keep certain objectionable persons from his company quarters, changed the lock on the door. The "persons" broke it in and carried the lock away. The captain now says that he will court-martial all of the enlisted men concerned in the matter, and that he has the evidence necessary to convict. That being the case he would do well to go before the Grand Jury and indict them.

The reception of Co. I, 22d Regiment, will take place at their armory on Feb. 11.

The athletic games of the 12th Regiment have been postponed until further notice, owing to the failure of the contractors to complete the new armory.

Co. I, 11th N. Y. regt., gave an exhibition drill and reception Tuesday evening, Feb. 8, at Everitt Hall,

Governor Hill is to review the 23d, Brooklyn, at their armory on the evening of Feb. 21.

The plans and specifications for the new 8th regiment armory to conform to the altered state of affairs due to the conditions of the appropriations as passed, were finally adopted by the Armory Board on Wednesday, Feb. 9, and nothing remains to be done now but to break ground and commence work. There is some hitch in the proceedings looking towards the acquirement of the skating rink at Harlem as a temporary armory, and the regiment may not have an opportunity to go there as early as expected. Under all circumstances, however, Col. Scott has determined to leave the present armory as soon as the lease expires, and to take either the 12th or 71st armory as temporary quarters, even if he has to do without shelter at all.

The following passed the 1st Brigade Examining Board on Wednesday, Feb. 9: Capt. John Macaulay, 12th regt.; 1st Lieut. Edw. C. O'Brien, A, and Chas. E. Brown, Q. M., 71st regt.; 2d Lieut. John Lamb, Co. A, 22d regt., and 2d Lieut. Emile Bangs, Co. G, 71st regt. Commissions for Captains: James Thorne Harper, 7th regt., and A. W. Belknap, 71st regt., have been received.

NEW JERSEY.

THE following promotions and appointments in the commissioned officers of the National Guard have occurred since Oct. 31, 1886:

1st Regiment.—Private John J. Green, Co. A, to be 2d lieut.; Private James M. McDougall, Co. D, to be 2d lieutenant.

2d Regiment.—2d Lieut. Joseph F. Givernaud, Co. A, to be 1st lieutenant; Private Frank A. LaPointe, Co. A, to be 2d lieutenant; 1st Sergt. Theodore Buttenbaum, Co. B, to be 1st lieutenant; Private Henry Lohman, Jr., Co. D, to be 1st lieutenant; 1st Sergt. John A. Greten, Co. D, to be 2d lieutenant.

3d Regiment.—Major Benjamin A. Lee, to be lieut.-colonel; Capt. John H. Stroud, Co. D, to be Major; 1st Lieut. Jacob R. Boden, Co. A, to be captain; 2d Lieut. Albert D McCabe, Co. A, to be 1st lieutenant; Corpl. Jerome R. Muddell, Co. A, to be 2d lieutenant; 1st Lieut. Charles R. Dey, Co. D, to be captain; 2d Lieut. Robert W. Watson, Co. D, to be 1st lieutenant; Private Joseph Kay, Co. D, to be 2d lieutenant.

4th Regiment.—1st Sergt. Emilie A. Noltemeyer, Co. A, to be 2d lieutenant; Private John Graham, Co. C, to be 1st lieutenant; 1st Sergt. Arthur L. Steele, Co. E, to be 1st lieutenant.

5th Regiment.—1st Lieut. Robert L. Smith, Co. E, to be captain; 1st Sergt. William H. Kelly, Co. E, to be 1st lieutenant; Sergt. Major Edwin R. Westervelt, to be 1st lieutenant, Co. H.

A strong guard composed of details from the 1st and 5th Regiments, National Guard of New Jersey, has been placed in the armory of the two regiments in Newark, and will remain on duty until the strike troubles are settled. All the armories of the State are similarly guarded as a matter of precaution, and the State Arsenal, at Trenton, is well protected against any sudden attack. Newark is the headquarters city of the New Jersey National Guard, Gen. Joseph W. Plume being the division commander, and orders are sent from there. During the strike troubles of 1877 Jersey City, where Gov. Bedle lived, was the headquarters and operations were directed by Gen. Mott, then division commander. Many of the members of the regiments belong to the Knights of Labor, but no importance is attached to the fact. In 1877 the large number of workingmen in the regiments sympathized with the strikers, but when called to serve with the colors they responded with alacrity and performed promptly every duty assigned them. Officers of the Guard say that a brigade ready for duty could be concentrated at a given point in three hours after the order was given.

CONNECTICUT NATIONAL GUARD.

WE give here the essential points in the proposed changes in the military law of Connecticut. The hearing before the Legislative Committee has not yet taken place:

1. That the Adjutant General shall be a graduate of the U. S. Military or Naval Academy.
2. That in times of peace he shall be the Quartermaster and Commissary General and give his entire time thereto.
3. That he shall encamp with the troops, prescribe the "routine," and appoint a "Post Adjutant" if he deems best.
4. That he shall *personally* muster and inspect every company annually, as Major McCray did in '82, and no other shall be required.
5. That the brigade organization be abolished, since it is of no practical value in time of peace.
6. That regimental bands be abolished and regiments permitted to employ musicians at $4 per man per day at all parades and encampments.
7. That armories *owned* by the State shall not be let for any purpose whatever.
8. That this act take effect Jan. 1, 1889.

MASSACHUSETTS MILITIA.

"IF I am Governor eight or ten years longer, I will take my staff wholly from the militia."—[Gov. Ames at Lawrence Feb 4.] There should be a law making it impossible for a Governor of Massachusetts to appoint any but militia or ex-officers of the Army or Navy to his staff.—*Boston Herald.*

An effort is to be made this spring to secure for Boston's militia a rifle range within the city limits. It is understood that ground sufficient for a large range can be secured at Ashmont, near steam and horse cars.

Arrangements are nearly perfected for the proposed rifle match between teams from Co. L, 8th Regt., Malden Rifles, and Co. G, 1st Regt., of New Bedford, which is to take place at the former company's range at Malden, Feb. 22. These companies contain some of the best marksmen in the State militia, and an exciting and interesting contest is expected. The New Bedford company will be entertained by a dinner at the Revere House by the Malden company after the shoot.

Co. E, 9th Inf., M. V. M., was inspected at its armory, Essex street, Boston, Feb. 3, by Col. Sampson, of Gov. Ames' staff. Col. Strachan, Paymr. Hogan, Majs. Bogan and Grady, Lieuts. O'Donnell and O'Sullivan, 9th Inf., and Capt. Brady, 6th Inf., were present. The company paraded three officers and 43 men. The armory of this command for a year has been in such a condition as to be almost uninhabitable. The building is to be torn down shortly, and the company is now looking for better quarters.

The Montgomery Light Guard are to attend a meeting of the National Veterans Association to be held at Hartford, Conn., on June 17.

The National Lancers have issued invitations to their Military Levee, Thursday, Feb. 24, at the Company Armory. Committee, Capt. I. H. Allard, Lieut. E. B. Wadsworth, Lt. A. D. Nichols. The reception committee are Majors T. J. Pierce, A. Dearborn, L. Slade, and H. G. Kemp; Captains H. D. Andrews, C. A. Kimball, B. W. Deal, A. L. Sanborn, G. E. Richardson, C. C. Emery, G. S. Holt, C. F. Thurston

PENNSYLVANIA.

BRIG.-GEN. JOHN A. WILEY has been assigned to the command of the 2d Brigade, N. G. P.

The bill authorizing Councils to appropriate $500 per annum to each company within the city limits, known as Senate bill No. 18, has passed through the Senate and been sent to the House of Representatives for action.

In G. O. 26, of 1887, Col. F. F. Hitchcock promulgates to his regiment, 13th Infantry, the report of the Inspector of Rifle Practice for the season of 1886. Col. Hitchcock congratulates his troops for their excellent work, and says: "In numbers of qualified marksmen, as well as in the quality of the shooting done, a higher point has been attained than in any previous year of the regiment. Co. A again, and for the seventh successive year, qualified its entire membership of 58 officers and enlisted men, continuing a record that is remarkable, and which has no parallel in the history of marksmanship.

CALIFORNIA NATIONAL GUARD.

THE S. F. *Report*, referring to the recent inspection of the militia by a legislative committee, says: "We hope their report will be favorable. The militia need armories, clothing, accoutrements, arms, drill, and discipline. Should the Legislature meet some of these requirements the militia might take heart and meet the others."

Washington's Birthday in San Francisco will be observed by a brigade drill, conjointly by the regular troops and the National Guard. The *Call*, referring to the occasion, says: "The experience will be of great value to both. There will be five battalions of eight companies, in twelve files, double rank, these battalions being formed respectively from the 1st U. S. Infantry, Col Shatter; the 1st U. S. Artillery, Lieut.-Col. Piper, and 1st and 3d Infantry and the 2d Artillery of the National Guard. The drill of this brigade under Gen. Dimond will be preceded by a drill of Light Battery K, 1st U. S. Artillery, and will be followed by a brigade dress parade, commanded by Col. Shatter, and by a review of the entire force, which, for this purpose, will be formed as a division under Gen. Dimond, and consisting of two brigades—the first, under Col. Shafter, and the second, under Col. Dickinson. The affair will constitute the largest and most imposing parade ever seen at the Presidio. The review, it is presumed, will be accepted by Major-General Howard, the Division and Department commander, who has already evinced great interest in the drill."

The following changes occurred among the commissioned officers of the National Guard of California during the months of December, 1886, and January, 1887: 2d Artillery Regiment—Thos. S. Taylor, captain and adjutant; Wm. E. Cunningham, 1st lieutenant; John H. Leo, 2d lieutenant; Edward J. Casey, resigned.

5th Infantry Regiment—James J. O'Reilly, captain.

Unattached—James Eaton, 1st lieutenant, and Robert W. Reynolds, 2d lieutenant.

1st Artillery Regiment—Geo. W. Safford, captain; H. I. Seymour, 1st lieutenant; P. B. Johnson, 2d lieutenant.

RHODE ISLAND,

BRIG.-GEN. ELISHA DYER, JR., Adjt.-General, having been re-elected by the General Assembly for the term of five years from Feb. 7, 1887, is announced as Adjt.-General of Rhode Island. Lieut.-Col. Hunter C. White, of Providence, is appointed Asst. Adjt.-General.

DAKOTA.

A DESPATCH of Feb. 4 from Bismarck says: "There will be a meeting at the Capitol to-morrow of officers of the territorial militia to talk over the question of the legislation desired in the interest of the militia organization of Dakota. Among those expected to be present are Brig.-Gen. Dennis,

Adjt.-Gen Tyner, Col. William A Bentley, Col. Sheof, Capt. Burns, Capt. Call and others. A subject which will be discussed is that of the participation by Dakota companies at the national drill and encampment to be held in the city of Washington, commencing May 23. Col. Bentley is anxious that the Dakota militia shall have an opportunity to benefit by this national encampment.

GATE CITY GUARD.

THE London *Daily Telegraph* of Feb. 9 contains a very pleasant editorial on the visit of the Atlanta City Guard to Europe this summer. Reference is first made to the fact that Gen. Boulanger was so much impressed with the Atlanta City Guard when he was present at the Yorktown celebration with the French delegation in 1881 that he secured for them an invitation to take part in the grand military review in Paris on July 14. The article then goes on to say that after these wandering warriors have crossed the Alps and gone through Italy they will return to England, and that they should receive the warmest welcome, and that their presence on Continental parade grounds and at the American Exposition in London cannot fail to excite the liveliest interest.

Military Order of the Loyal Legion.

At a stated meeting of the Wisconsin Commandery held at their rooms in the Light Squadron Armory, Milwaukee, Feb. 2, the following candidates were duly elected to membership of the first class: Surg. Joseph Bellamy Whiting, Surg. Hugo Philler, and Bvt. Brig.-Gen. George Clay Ginty. U. S. Vols. Lieut. Henry A. Reed, U. S. A., was transferred to the New York Commandery. Col. John S. Mosby, the eminent partisan leader of Virginian troopers in the war days, was present as a guest of the Legion; also Captain W. P. O'Connor, whose first acquaintance with Milwaukee soldiers was when captured at Murfreesboro' by the 24th Wisconsin. The occasion was one of unusual interest and hilarity, and a big attendance of companions from all over the State was observable.

Among those recently elected to the California Commandery, details given in a previous number, were Col. W. R. Shafter, 1st Inf.; Capt. M. Wesendorff, 1st Cav.; 2d Lieut. A. B. Shattuck, 6th Inf.; Capt. C. Augur, 2d Cav., and Lieut. J. A. Perry, 10th U. S. Inf. At a meeting to be held Feb. 16 the following will be balloted for: Gen. T. T. Crittenden, Col. M. R. Vernon, Col. H. G. Otis, and Lieut. Gladding, U. S. Vols.; Capt. G. C. Doane, 2d Cav.; Rev. Jas. Schofield, formerly hospital chaplain, and Dr. J. C. Short, formerly Asst. Surgeon, U. S. A.; P. A. Engineer A. E. Engard, U. S. N., and Lieut. C. B. Thompson, 5th U. S. Inf. The California Commandery numbered 513 members, Dec. 31, 1886, and is in flourishing condition. It gained 53 members in that year.

COUNTERPOISE BATTERIES.

BEVERLY KENNON sends to the *Herald* a description of a counterpoise battery built by him when colonel of Coast Defences in Egypt at a cost of $5,350, his salary included. He says:

This was entirely sunk below the surface of the earth, its guns, magazine, garrison, etc., being always out of harm's way excepting during the few seconds when the gun was elevated above the ground to be pointed and fired. In November, 1870, I finished my fort at the Ras-el-tin, Alexandria, Egypt, and as this was the only one uninjured when the English fleet bombarded that city Chakin Pacha, Minister of War, congratulated me on the success of my experiment for thoroughly protecting guns in coast batteries. In 1872, Mr. Rendell, a partner of Sir Wm. Armstrong, the great gunmaker at Newcastle-on-Tyne, wrote me also congratulating me "on the successful working of the counterpoise, the first he had seen." When Gen. Wright became Chief of Engineers he intimated to me that, as I could not counterpoise a 120 ton gun, he had opposed my plan before Congress. To this I replied, that I proposed to protect such guns as the country had, and if he gave me the means I could counterpoise the State of Rhode Island or Delaware before we had a 120-ton gun; for it would take years to awaken Congress to the fact that we needed them, and as many more years to obtain the plant and learn the business of constructing them.

I can construct this battery on a reef by making it waterproof and supplying it with pumps as one would a vessel. For river and harbor defences they can be mounted on vessels, when having the guns just clear of the water every advantage for ricochetting shot will be acquired, which in smooth water, at night or in a fog, when the direction only and not the precise distance is known from the enemy, will be invaluable. These vessels need not be steamers.

ARMY FIRE INSURANCE.

THE Kansas City *Times* says: "A meeting of officers was held Wednesday for the purpose of organizing an 'Army co-operative fire association.' The object is to establish a fund from which a benefit not to exceed $2,000 shall be paid for the relief of members sustaining loss by fire. Any commissioned officer of the Army or acting assistant surgeon residing on a military reservation is to be eligible. The plan is to divide the benefit certificates into five classes, which, together with the assessment in each class, is to be according to the following table:

	Benefit.	Assessment.
First class	$400 00	$1 50
Second class	800 00	3 00
Third class	1,200 00	4 50
Fourth class	1,600 00	6 00
Fifth class	2,000 00	7 50

"The sums mentioned above in the benefit column are the highest amounts paid in each class; provided, however, that should a loss occur when one full assessment on each member would not amount to $2,000, then the sum paid is to be in proportion to the actual loss as the sum of one full assessment on each member is to $2,000."

A SOCIETY HERD BOOK.

THE Washington *Critic* publishes the circular of a "Society Herd Book," the character of which appears from the following extracts:

Captain ——. Army. Married. Has been an Indian fighter. Bald from a scalping experiment. Tells exciting stories of adventure. Will flirt in a quiet way.

Ensign ——. Navy. Unmarried. Been to China and the Pacific stations. Also in the West Indies. Young and unreliable, but interesting. Salary insignificant.

Mr. ——. Millionaire. Unmarried.

Lieutenant ——. Army. Unmarried. Graduated last year. Dances divinely. Will learn more as he grows older.

Mr. ——. Newspaper man. Dangerous, but delightful. Has been everywhere and seen everything. Knows everybody and everything. Can lie, but won't. Immensely poor. May be trusted.

Count ——. A titled foreigner. Particulars unknown, but not necessary.

Mr. ——. An Englishman. Same as above.

"IT strikes me," said a City and County Hall man yesterday, "that we do not want any war with Canada. When we were drafted in 1861–4 we knew where to go, but in case of trouble with Canada, where could we go?"—*Buffalo Courier.*

NEW PUBLICATIONS.

House painting has risen to the dignity of an art in late years, and it is difficult to select colors which will prove most effective in combination upon a building of given style. Great assistance will be derived in accomplishing this by making use of a work on "Exterior Decoration: a Treatise on the Artistic Use of Color in the Ornamentation of Buildings, and a Series of Designs Illustrating the Effects of Different Combinations of Colors in Connection with Various Styles of Architecture." Its purpose is to illustrate the true principles of correct and tasteful coloring as applied to house work. It is a large folio volume containing twenty plates of houses of different style, showing the effective and harmonious combination and contrast of colors under different conditions as to landscape, architecture, etc., and some practical illustrations of the application of the principles laid down. The work is published at the price of four dollars by F. W. Devoe and Co., New York, and Coffin, Devoe and Co., Chicago. At the end of the volume are given specimens of fifty different tints selected from the mixed paints manufactured by Messrs. Devoe and Co., and which have a reputation second to none. The character of this house is sufficient guarantee of the excellence of the material they furnish and the variety of tints, is apparent from the specimens given.

The romance of American history is largely identified with the territory of Mexico; the story of the Aztec empire, of Cortez and the Montezumas, and of the later conquest by Scott and Taylor, are all unusual in adventurous interest and dramatic suggestion. The tragedy of Maximilian and his short-lived empire is a fitting sequel to what precedes. As an officer on board the U. S. gunboat *Tacony*, Lieut. Seaton Schroeder had an opportunity of forming an intimate acquaintance with the closing scenes in Maximilian's career, and he has described it in a narrative published by G. P. Putnam's Sons, and entitled "The Fate of Maximilian's Empire as Seen from a U. S. Gunboat." It is an interesting story, and one that will lose none of its interest with time.

It is announced that Bedford, Clarke and Co. are about to bring out a war book by Col. Donn Piatt, called "Memories of the Men Who Saved the Union." These, he maintains, were Lincoln, Stanton, Chase, Seward, and Gen. George Thomas.

George Francis Dawson's "Life of General John A. Logan" will be published by Belford, Clark and Co., of Chicago, by subscription. Mr. Dawson was the friend and associate of General Logan for many years.

ANSWERS TO CORRESPONDENTS.

Enquirer.—The information as to addresses of candidates at large is not available.

Nurse.—There is no appropriation for extra duty pay for cooks and nurses during the current fiscal year.

Americus.—Enlisted candidates for commissions under par. 27 of the Army Regulations must be unmarried.

Blue Jacket.—The information you desire cannot be furnished unless date of enlistment and other particulars are given.

Vet.—Col. McCawley, commandant of the Marine Corps, will be retired for age Jan. 29, 1893, his 64th birthday. Officers of the Marine Corps come under the Army retirement for age law—64.

J. W. H.—Soldiers discharged for disability incurred *in the line of duty* are entitled to pension and to admission to the Soldiers' Home. The outdoor allowance from the Home is a matter within the discretion of the Board of Commissioners.

S. A.—The extreme length of the 10-inch B. L. naval gun is 329.10 in.; length of chamber, 54.5 in; diameter of chamber, 12.5 in.; bore, 10 in.; length of tube, 312.84; powder charge, 250 lbs.; weight of projectile, loaded, 5,000 lbs.; length of projectile, 35 in.

J. D.—The counsel in the cadet service longevity pay case of Capt. M. F. Watson, U. S. A., have abandoned all hope of getting a decision at this term of the U. S. Supreme Court. It cannot possibly be heard before the coming October term, and even then the case will have to be advanced for out of its order.

We desire to supplement our answer No. 2 to Sergeant in JOURNAL of July 5, by stating that in forming single rank (par. 527) it is proposed to face one half of the battalion about. This point was, however, evidently not the intent of his question. Tactics do not state whether company officers change their position during this movement.

Ignorance asks: Can a U. S. soldier, in uniform, returning from a trip to Fort Leavenworth with prisoners, be arrested for carrying concealed deadly weapons, when such weapon consists of a revolver which has been used by him to prevent his prisoners from escaping? ANS.—He might be arrested by the civil authority, but there can be no doubt that release would speedily follow a presentation of the case.

N. S. S. asks: A sentinel on an outside post, (during challenging time), the commanding officer and officer of the day approaching his post, would it be proper to advance the commanding officer first, or the officer of the day? ANS. —Lieut.-Gen. Sheridan has decided that "when the officer of the guard and the officer of the day approach the guard house from different directions, at the same time, the officer of the day should be advanced first and should not be made to wait for his junior." This principle holds good in your case.

R. F. H. V. asks: 1. Of what age should a person be in order to gain admittance to West Point? ANS.—Between 17 and 22.

2. What examination will he be required to pass? ANS.—Physical and mental, the latter covering reading, writing, orthography, arithmetic, grammar, composition, geography history, etc.

3. If admitted, does the Government support the cadet while at the Academy? ANS.——The pay of a cadet is $540 a year and is sufficient, with proper economy, for his support.

Berkeley.—Section 4 of the Act approved March 3, 1865, for the support of the Army for the fiscal year 1865-6, (G. O. 45, A. G. O., March 21, 1865,) provides "that all officers of Volunteers now in commission below the rank of Brig.-General who shall continue in the military service to the close of the war, shall be entitled to receive, upon being mustered out of said Service, three months pay proper." The Act approved July 13, 1866, (G. O. 48, A. G. O., 1866,) provides that Section 4, just quoted, (2) "be so construed as to entitle to the three months pay proper, provided for therein, all officers of Volunteers below the rank of Brig.-General, who were in Service on the 3d day of March, 1865, and whose resignations were presented and accepted, or who were mustered out at their own request, or otherwise honorably discharged from the Service after the 9th day of April, 1865."

S. G. asks: Was there a military organization known as the 69th Regiment, N. G., S. N. Y., prior to 1861, and if so, please tell all about it? ANS.—The 69th N. Y. Militia (now National Guard) was organized Oct. 12, 1851. In 1858 it was re-organized as an artillery regiment, doing duty as infantry. It was mustered in the United States service May 9, 1861, at Washington, D. C., to serve three months. In August, 1861, about 800 men of this regiment joined the 69th New York vols., to serve three years. The regiment was again recruited and re-entered the service of the United States May 26, 1862, to serve three months. On the return from this service again the major part of the regiment entered the service of the United States for three years as the 69th National Guard Artillery or 182d New York vols. The regiment having been re-organized was mustered in the service of the United States for thirty days from June 25 to July 25, 1863. July 6, 1864, it was again mustered in the United States service for three months, and mustered out Oct. 6, 1864. The regiment has rendered the State service during the Quarantine riots in 1858, and the Draft riots, 1863. The 69th regt., N. Y. Volunteers (called also 1st regt., Irish Brigade), was organized at New York City from Sept. 7 to Nov. 17, 1861, to serve for three years. On the expiration of its term of service the original members (except veterans) were mustered out and the regiment composed of recruits and veterans reentered the service until June 30, 1865. At the date of the muster out the present Colonel, James Cavanagh, was major.

CUBAN DEFENCES.

A CORRESPONDENT of the New York *Times*, writing from Havana, says: "The forts here are old and mounted with antiquated guns, and could not stand a bombardment by the steel ordnance of to-day. During the late controversy between Spain and Germany over the Caroline Islands, the patriotic citizens of Havana subscribed $60,000 for a new fort to be built by the army engineers. The strategical location is excellent, and the work, exterior and interior, as far as completed, in every detail evinces the care and skill of the Spanish engineer. The enlisted men of the army do not compare in size, neatness, or soldierly appearance with the men of our own little army, but even they should not be spoken of in the same breath with an organization called the volunteers, for a more wretched, villainous-looking class of scoundrels than these latter I have never seen. The General Government has established in the city an arms manufactory. It is in charge of a major of artillery. The Spanish Army has no ordnance corps, and the artillery does that work in addition to its own. The work done there is excellent; the Remington rifle is made. Most of the machines are of American manufacture, but there are some from England. There is a foundry for heavy castings connected with this establishment. Here are also the artillery storehouses for equipments and many rooms for storage of small arms. In it were many trophies.

ORDNANCE NOTES.

THE "Moniteur de l'Armée" (Paris) states that the Small Arms Factory at Amberg, in Bavaria, recently sent to Metz a number of wagons loaded with repeating rifles. These rifles have been distributed among the Bavarian troops in garrison at Metz.

Exhaustive experiments are still being continued with "melenite" charged shells at Bourges, under the directions of Gen. de Lajaille, President of the French Artillery Commission, and Gen. des Essarts, commanding the same arm in the 8th Army Corps. The Minister of War, in order not to awaken public curiosity, as the result of the trials are to be kept a profound secret, has signified his intention not to attend any of the experiments.

It is announced in the French papers that before the spring of next year all the frontier forts will be supplied with "melenite" shells. Orders for them appear to have been given to all the French manufacturers. For the Bange gun, 220,000 shells have been ordered; they are to be loaded at Bourges, and fitted with percussion fuses. The steel envelopes will be manufactured at Brive-en-Giers. Each one, before being loaded, will weigh 26 kilogrammes.

Messrs. Thomas Frith and Sons, of Sheffield, have purchased the special processes required for the manufacture of the Firminy shell, and will soon be able to turn out about four or five thousand a year at a cost of $175 a piece. Russia is reported to have 15,000 in stock, France nearly 10,000, and a large order for them is reported to have been given by the British Admiralty.

It is stated that recent experiments at Otsugawa, Japan, with a 7-ton 19-centimetre gun for coast defence, manufactured at the Osaka Arsenal, gave excellent results, which precisely corresponded with the data upon which the gun had been constructed. Everything in connection with this new pattern ordnance worked well, though heavily tested, the carriage, projectile, etc., giving the highest satisfaction to the authorities. On the contrary, the Japanese journal "Mai Nichi Chimbonm" (Yokohama) states that the Government of the Mikado has decided to use in the future only Krupp guns for the Japanese Army and Navy. Hitherto the Japanese Government has constructed bronze guns in the factory of Osaka. Italian models were used, but the factory was unable to manufacture guns of more than 12 centimetres. An attempt to cast a 17-centimetre gun was unsuccessful. The Government, in consequence of this failure, determined to employ guns of iron and steel only. Krupp has consented to found a factory at Jamashimor for the manufacture, under the supervision of native officers, of all the guns the Japanese Government may require.

It is stated that Russia possesses at present 14,000 steel projectiles, France has 8,000, Germany about 4,000, while the number in English magazines is too insignificant to mention.

At the Royal United Service Institution Jan. 21, an interesting paper by Major A. D. Anderson, R. H. A., entitled "Suggestions as to the Use of Machine-guns in the Field, in combination with Infantry," was read. In winding up the discussion Sir E. Hamley, who presided, said: "As foreign armies were beginning to introduce machine-guns, he thought it would be imperative that England should in the near future follow the same course."

According to the *Esercito Italiano* (Rome), a new repeating-rifle has been invented by Signor Pieri, of the well-known metallurgical works of Cav. Francesco Gilsenti. The initial velocity with Rottweil powder is said to have reached 630 metres per second. The penetrative power at 300 metres is thrice as great as that of the Vetterli, Mauser or Gras. The total weight of the rifle, when loaded, is 4.3 kilogrammes. The *Esercito* reports that the repeating-rifle Vitali has been adopted by the Italian Government. The War Minister has sent a telegram of congratulation to Capt. Vitali, the inventor. Gen. Ricotti has, moreover, informed the Chamber that the first line of the Italian Army will be armed with a repeating-rifle in the shortest possible time.

The *Militar Zeitung fur die Reserve und Landwehr Officere des deutschen Heeres* (Berlin), writing on the subject of the new German magazine rifle, says: "At the present time the manufacture of the new rifle is so far advanced that sufficient weapons are forthcoming to arm almost the whole German Line on a war footing. As 26 years ago the Prussian infantry was the first to fully adopt the breech-loading system, so to-day the German infantry is first in the field with the magazine. By this step we have obtained an advantage over other European armies which it will require many years to equalize. That the Kropatschek rifle of the French Marines has not answered expectation is apparent from the fact that it has not been issued to the French infantry at large."

FOREIGN ITEMS.

THE Belgian War Department has decided to put the artillery reserve in readiness for active service.

THE Germans have introduced the use of tricycles for orderlies in their towns.

GENERAL HORVATOVICH has resigned the command of the Servian army because of the rejection of the Army bill by the Skuptchina.

THE French Chamber of Deputies passed Feb. 8, without debate or scrutiny, the extra budgets asked for the War and Naval Departments. They amount to $17,200,000 for the army and $6,000,000 for the navy.

HER MAJESTY has directed letters patent to be passed, under the Great Seal of the United Kingdom, for the annexation of certain islands known as the Kermadec Group, to the Colony of New Zealand.

THE German Military Commission has completed its examination of the new Infantry equipment, which facilitates the carrying of the soldier's baggage and enables the men to breathe more freely. The rifle also is more easily slung. A number of army corps commanders have unanimously approved the new equipment, which will be adopted immediately upon receiving the sanction of the Emperor.

IT is stated that the Abyssinians lost 5,000 men in the battles in which the Italian forces were defeated near Massowah, in the Soudan, on Jan. 26 and 27.

THE *Times*, of India, tells of a soldier at Lucknow who doubled up his English bayonet by running it into a bale of socks in charging on an escaping thief.

IT is reported from Montreal that orders have been received from England forbidding the militia companies to visit England during the coming season, as they intended to do. This action is a matter of precaution.

THE Pekin Government have ordered two captive balloons from Paris, and have provided all the necessary funds for several practiced aeronauts to take over the latest inventions in this branch of science, including a special machine to manufacture hydrogen gas.

A COLD shiver has been sent along the English naval vertebræ by the announcement that the *Euphrates* and thirteen steamers have been blocked in the Suez canal by a storm. It gives a premonition of what might possibly occur under disquieting circumstances.

THE Japanese Government having fortified the islands commanding the entrance to the Straits of Corea, the Prime Minister, accompanied by the Minister of War, proceeded last month, by order of the Mikado, on board a Japanese man of-war to inspect the works.

ACCORDING to the *Avenir Militaire* (Paris), the municipal council of Milan has voted the erection of a monument to the memory of Napoleon III. and the French Army. It has been decided that the names of all French officers and soldiers who died during the campaign in Italy in 1859 shall be inscribed on bronze tablets around the pedstal.

M. DE CASSAGNAC, in his paper, *L'Autorite*, appeals to General Boulanger, who, he says, has "dreamt" too openly of his country's greatness, to resign, in order to preserve France from the horrors of war. The appeal continues: "Your spontaneous departure will show that we are determined to do everything possible for peace. If, then, it is seen that your name was merely a pretext for this gratuitous and dishonest quarrel, we will not be the last to acclaim you our leader against our implacable enemy."

THE standard for English Royal Marines was lowered Jan. 17th: Under 20 years of age, from 5 ft. 7¼ in. to 5 ft. 7 in.; above 20 years, from 5 ft. 8 in. to 5 ft. 7½ in.

IT is stated that the Germans, in view of a possible pending war with France, are prepared to command the services of 312,000 horses for cavalry, artillery and transport.

GENERAL SIR FREDERICK ROBERTS, Commander-in-Chief of the forces in India, who assumed command of the British army of occupation in Burmah on the death of General Sir A. T. Macpherson, will shortly return to Calcutta.

THERE are reports of negotiations between Germany and Belgium for the crossing of Belgian territory in the event of an attack on France. Belgium has no frontier defences, but Antwerp is said to afford an impregnable fortification into which the little Belgian army could withdraw like a snail into its shell and await events.

IN GERMANY lofts for military pigeons were constructed immediately after the war, and the system has there become the most complete in Europe. The large fortresses have each 400 to 600 trained birds, capable of being sent out to convey messages back in case of investment, the commandant of the fortress being responsible for the care and training of the birds.

EXTREMES meet: The military authorities of India are sending to Iceland for ponies for mountain batteries. The island produces so many that they have often to be killed for want of fodder. They are as sure-footed as mules, can easily traverse 30 miles a day without fatigue, carrying a load on their back, are procurable at $25 and $30 each, and are as easily fed as asses.

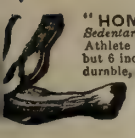
A DESPATCH from Cairo to the *Daily News* says: "The American Colonel Long, who was chief of staff to the late General Gordon, writes to the Khedival Geographical Society that Henry M. Stanley's expedition to relieve Emin Bey is a mere pretence to enable Great Britain to seize the equatorial provinces. He violently protests against Egypt paying for this, which he declares is the sole object of the expedition. He maintains that Emin Bey is perfectly safe." Mr. Stanley ridicules the letter.

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.



NEW ENGLAND MUTUAL
Life Insurance Company,
OF BOSTON, Mass.

Assets, ------ $17,846,546.65
Liabilities, --- 15,238,761.16
Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on application at Compy's Office,
POST OFFICE SQUARE.

NEW YORK

MR. H. M. STANLEY has consented or decided to add a Maxim gun to his light field equipment for the "Emin Pasha Relief Expedition."

ADMIRAL COUNT SAIGO, of the Japanese Navy, has been in Kiel inspecting the naval establishments. The Japanese Government is said to have ordered all its torpedoes of German manufacturers.

IT has been computed that about 35,000 newspapers are published in the whole world, or one for 28,000 inhabitants. Of this number 16,500 are in English, 7,800 are in German, 6,850 in French, 1,600 in Spanish, and 1,450 in Italian.

IT is proposed that fifteen obsolete English ironclads be distributed among the same number of coaling-stations, moored in the harbor, provided with a few of the new guns, both long-range and quick-firing, and made the depot and rallying point for a flotilla of gun and torpedo boats.

ANTWERP is rapidly being put in a state of siege. Two points in the province of Liege have been selected for the site of intrenched camps to be surrounded with earthworks. Instead of the usual grand manœuvres, the experiment of a general mobilization will be made this year.

ANOTHER new route to Australia will soon be available. The completion of the new Transandine Railway, now in progress, will, it is expected, enable the time occupied in travelling from England to Australia to be shortened by at least fourteen days; the route being to Buenos Ayres by steamer, thence by rail to Valparaiso, and thence, by steamer again, to Australia.

THE ten largest cities of the world, according to the latest estimates, are London, which, with its suburbs, has a population of 4,762,312; Paris, 2,269,023; Canton (China), 1,500,000: New York, 1 449,000; Aitchi (Japan), 1,332,050; Berlin, 1,122,330; Tokio, (Japan), 987,887; Philadelphia, 875,000; Calcutta, 766,298, and Vienna, 726,101. There are several cities in China which claim a population of 10,000,000, but as the claim is not based on any systematic enumeration they are not included in this list.

SIXTY-EIGHT thousand two hundred men belonging to the infantry and 4,800 men belonging to the jäger, or riflemen, regiments of the German reserves, together with such a number of non-commissioned officers as the War Department shall decide upon, have been summoned to a twelve days' service for the purpose of being drilled in the use of the repeating rifle, with which the whole army is being equipped. The oldest section of the reserves, which passes into the landwehr April 1, is exempted from the summons.

THE English Admiral Lang, of the Chinese Navy, is about to return home to engage some English naval officers for the vessels which are being built in England and in Germany.

THE reduction of the death-rate from consumption in the English Army in 1880-84 is a very striking one, and is equally remarkable in civil life as in the army. In the former the death-rate from all causes was 9.74 per 1,000 in 1870-74, and it fell to 8.11 in 1880-84, consumption forming about 35 per cent. of the total death-rate each quinquenniad. Among the troops in 1865-69, the death-rate from all causes was 9.41 per 1,000, and in 1880-84 it had fallen to 7.25, the consumption forming about 44 per cent. of it each successive quinquenniad.

THE first cost of an English 100-gun line-of-battle ship at the beginning of the century was about $325,000 to $350,000, armament and ordnance stores being excluded. The corresponding outlay on the 110-gun sailing three-deckers of 1840 was about $550,000; and that of the 121-gun three-deckers of 1859 about $1,150,000, machinery of course included. The *Warrior*, completed in 1861, cost over $1,875,000; and the *Minotaur* class, laid down in that year, cost about $2,400,000. The *Hercules* of 1866 cost about the same amount as the *Warrior*, and the *Devastation* of 1869 about $75,000 less. With the increase in size of the *Dreadnought*, and the introduction of hydraulic mechanism, came an increase of cost to $3,310,000; while the *Inflexible* cost no less than $4,150,000.

THE Kinney Tobacco Company, successors to the well known firm of Kinney Bros., still maintain with vigor the national reputation long ago established by the firm. Their cigarettes of standard brands made from carefully selected tobacco of the finest quality, can be safely used, for their freedom from flavoring or impurities has been satisfactorily demonstrated. The Services will not regret any dealings with this company, whether in person or by orders from a distance. Honesty, integrity, and reasonable prices for a first class article are the watchwords of the Kinney Tobacco Company, a fact well to know in these days when so many spurious articles are foisted upon the market.

THE Carmel Soap, made at the foot of Mount Carmel by the Mission Society there from the pure olive oil produced in Palestine and shipped direct to this country, is advertised in our columns. It is pressed in cakes, and its unquestioned genuineness renders it a most desirable article for the toilet, the nursery and invalids. If your grocer or druggist does not keep it, a sample cake can be had by sending fifteen cents to the importer, Mr. A. Klipstein, of 52 Cedar St. Try it.

A GALLOPING CONSUMPTION may be avoided by the timely use of HALE'S HONEY OF HOREHOUND AND TAR.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

ACCIDENTS from mowing machines, threshers and other farming implements, *will* happen to the careless and unwary. No matter how severe the injury, Phenol Sodique is the dressing, *above all others* for affording relief from pain and a rapid healing of the wounds.
"It acts like Magic," said a farmer who used Phenol Sodique. "I drove my mowing machine into a bees' nest, and was stung, but by the use of the Phenol, I was relieved of pain instantly. For sale by drug and general stores.

Have you tried the famous "Tansill's Punch" 5c. Cigar? They have stood the test of time: "Tansill's Punch," the Havana-filled 5c. Cigar.
Nothing succeeds like success, but no success is permanent without real merit. "Tansill's Punch," America's finest 5c. Cigar, proves this.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

HOW TO SECURE A GOOD ROOF.

READ why we were obliged to stamp every sheet of our Guaranteed Brands, every box of which we are importing under a positive guarantee.

OWING to the many cases in which our brands had been estimated upon, and inferior brands substituted, we were induced to bring out the sheets stamped, not only with the NAME OF THE BRAND, but also the THICKNESS.

OUR action in STAMPING and -GUARANTEEING Roofing Plates exhausts our own means of insuring the use of first class materials when required. It now therefore rests with the Architect and Builder to protect the Owner and Roofer by seeing that the sheets on the roof are stamped.

FIRST-CLASS Roofing Plates if properly laid upon the roof should last thirty to forty years; while the cost of same would be but little more than that of the inferior tin, which has caused so much trouble and expense to all concerned.

SHEETS that are GUARANTEED and STAMPED are the only protection to the Roofer, Owner, Architect, against dishonest competition, and the use of inferior material.

It will cost NOTHING however to obtain FULL FACTS and SAMPLES, which may be had by addressing

ARMY AND NAVY JOURNAL

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 30. WHOLE NUMBER 1226. | NEW YORK, SATURDAY, FEBRUARY 19, 1887. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

MR. WHITTHORNE'S bill, introduced on Thursday, making the merchant marine an auxiliary to the Navy, is well received by most naval officers. It is to be regretted that it could not have appeared earlier in the session, when it might have stood some chance of becoming a law.

THE bill conferring brevet rank on Army officers for meritorious service in Indian campaigns, which passed the House about a fortnight ago, has been smothered in the Senate Military Committee, to which it was recently referred. They have determined not to report it back to the Senate, and so ends this most meritorious measure for this Congress.

WE are informed that the Ordnance Department are proposing to so alter the Springfield Rifle as to avoid if possible the necessity for adopting a quicker firing gun in the shape of a magazine arm. Just what changes are in contemplation we do not learn. As soon as Colonel BUFFINGTON, of the Springfield Armory, has completed some experiments he is conducting they will be announced. It is not expected that the gun can be made a self-loader, but the idea seems to be to have the breech block so arranged as to admit of the most rapid loading with the hand. General KELTON has also an improvement on the Springfield gun which it is thought possesses considerable merit. He is now in consultation with the Ordnance Department with regard to it.

CAPTAIN POPE, in the interesting letter on the subject of the Leavenworth Prison, which appears elsewhere, quotes what a committee of Congress has to say on the subject of prison competition with honest labor. This is one of the cheapest and most demagogic of criticisms. By careful competition it has been shown that the production of convict labor is only one-fifth of one per cent. of the total product of the country. The proportion of convicts to honest day laborers in the United States is 60,000 to 9,000,000, and their earnings at an average of forty cents a day a little over seven millions as compared with five thousand millions, that is as seven to five thousand, or .004. The total number engaged in gainful occupations is estimated at 17,250,000, nine millions constituting the actual working class, seven millions being farmers, and 1,050,000 being employed in labor not manual.

THE Board on the Revision of the Army Regulations has made such progress with its work as to warrant the belief that it will be ready for the printer by the end of the fiscal year, six months earlier than originally anticipated. It is also expected that the book will be reduced considerably below the size at first proposed. General BENÉT says it can be brought down to at least one-fourth its present dimensions. The full Board meets three times a week now. Colonel OTIS and Lieutenant DAVIS, the recorder, are constantly at work. The board will shortly be called upon to consider the advisability of revising the paragraph prohibiting inspections, boards, etc., on Sundays, the Presbyterian Ministerial Association, of Baltimore, having recently appointed a committee to ask all similar organizations to urge the President to take this action. General WASHINGTON, ABRAHAM LINCOLN, and many others are quoted as favoring the observance of the Sabbath in the military services. When the papers have reached the President they will, no doubt, be referred to the board for action.

THE Senate, Feb. 9, passed the bill, H. R. 633, allowing Major G. W. CANDEE, Paymaster, U. S. A., $2,650 for money stolen from him at Fort Arbuckle, I. T., in 1869, provided the Court of Claims finds that the loss was without fault or negligence on the part of the officer. Why would it not be well to make this principle of general application and pass a law authorizing the Court of Claims to relieve from responsibility any officer of the Army or Navy who can show that he has suffered the loss of public money without neglect or negligence on his part? As it will be necessary even then to go to Congress for an appropriation to pay the judgment that body will have an opportunity to review the case, if it thinks proper. If it should refuse or neglect to vote the money it will not be the first time a creditor of the Government has been unable to collect a judgment of the Court of Claims, because of the laches of Congress.

THE appointment of Captain A. W. GREELY as Chief Signal Officer, with the rank of Brigadier General, is some compensation for the hardships he has undergone in the Arctic seas. His long experience in the Signal Service makes him familiar with his new duties, and his intelligence and amiability will restore to the Signal Service the popularity it has lost of late years, and lessen the pressure upon Congress to transfer it from the War Department to some civil branch of administration. General GREELY entered the military service as private in the 19th Mass. in 1861, so that he will share with General DRUM the honor of having risen from that rank to the grade of general officer in the Regular Service. He is still a comparatively young man, but the exposure and hardship which he has undergone have so affected him physically that his long continuance on active duty is problematic. His appointment, even with the possibility of speedy retirement, will give satisfaction to all but those who have other plans with reference to the Signal Corps. It has been received in a way that indicates popular approval of the President's action, which was unexpected.

THE bill to establish the order of promotion in the Medical Department of the Army, was passed by the Senate on Thursday, and only requires the President's signature now to become a law. When it has been signed, the Medical nominations, which have been pending in the Military Committee since the beginning of the session, will be withdrawn and the list rearranged to conform to the new law. The bill provides: "That assistant surgeons of the Army appointed under the act approved July 28, 1866, who have served 20 years, shall be nominated and, by and with the advice and consent of the Senate, appointed to the office of surgeon with the rank of major, to date from the completion of such service; and said service shall be estimated as is now done in computing service for longevity pay, except that service under present commission shall be counted from the date of said commission: *Provided*, That no such assistant surgeon shall be promoted unless he has been examined and found qualified for promotion by a duly constituted examining board, in accordance with existing law: *And provided further*, That the whole number of officers in the Medical Department shall not be increased by this act."

THE action of President CLEVELAND in vetoing the Dependent Pension Bill will meet with the approval of the self-respecting members of the class of Union soldiers and sailors for whose benefit it was supposed to be intended. This bill undertakes to establish the vicious principle of granting a pension to every one who can show three months' service and subsequent disability, without requiring him to establish any relationship between the service and the disability. It thus deprives the pension of its honorable character and gives the "coffee-coolers" of the war, the bounty jumpers and the Army frauds of every kind and condition a great advantage over honest men in obtaining pensions. $808,624,811 was expended for pensions from 1861 to July 1, 1886, and $75,000,000 is appropriated for this year; 365,763 pensioners were on the roll July 1, 1886, the whole number of pensions granted being 561,576, ranging from $1 to $100 a month, 131 different rates having been established. These facts are cited in the President's message to show that the country has not been neglectful of the claims for war service. Whatever further legislation is required, it is going too far to provide, as the vetoed bill does, for enlisted men who have not suffered the least injury, disability, loss or damage of any kind incurred in or in any degree referable to their military service, including those who never reached the front at all and those discharged from rendezvous at the close of the war if discharged three months after enlistment.

THE Committee on Naval Affairs has introduced a measure into the Naval Appropriation Bill which will commend it to every right-thinking observer of our immediate past in naval matters, and its passage will tend to undo a wrong which was slowly wrecking the efficiency of the U. S. Navy. The measure referred to is that changing the course of study at the Naval Academy from six to four years, and abrogating that part of the law of 1882 which proposed to instil into the adolescent cadet the knowledge sufficient to make him a "jack-of-all-trades." The present First Class of the Academy when graduating in June will be appointed to vacancies occurring during the present fiscal year, and those for whom there is no vacancy at that time will be discharged with one year's sea pay. Such of the present Second Class as pass the June examination will be divided into two divisions before the opening of the next Academic year. The first division will pursue a course of studies to fit them for the line, and the second will study for the engineer corps, the class being divided according to the vacancies in the two branches of the Service. The present First Class and the two classes now at sea will in June compete for the vacancies of this year, so that the Academy may open next year under the new law making the course but four years long. The reduction of the course to four years will increase the chances for appointment, and will give an opportunity to a greater number of young men to receive a good education, though they do not succeed in winning commissions. The change will cause an annual saving of $20,000, because, under the clause, the course at sea will not continue, and the payment to discharged graduates of one year's sea pay will cease.

PERSONAL ITEMS.

SURGEON W. C. SPENCER, U. S. A., has rejoined at Fort Trumbull, Conn., from a short leave.

CAPTAIN A. H. YOUNG, U. S. A., left Columbus, O., this week to be absent about a fortnight.

CAPTAIN J. G. BALLANCE, U. S. A., has returned to San Antonio from a visit to El Paso and Fort Bliss.

COLONEL C. M. TERRELL, U. S. A., of Omaha, Neb., will prolong his absence on leave until early in May next.

LIEUTENANT-COLONEL J. S. CONRAD, 22d U. S. Inf., is East from Fort Lyon, Col., on a few months' leave.

GENERAL C. H. TOMPKINS, U. S. A., of Governor's Island, paid a visit this week to Buffalo and Fort Porter.

CAPTAIN W. A. THOMPSON, 4th U. S. Cav., and family, are coming East on a few months' visit to relatives.

CHAPLAIN M. N. ADAMS, U. S. A., of St. Paul, celebrated his sixty-fifth birthday on Monday of this week, Feb. 14.

ASSISTANT SURGEON H. S. T. HARRIS, U. S. A., lately at Fort Clark, has joined at Fort Ringgold, Tex., for duty.

LIEUTENANT H. L. HARRIS, 1st U. S. Art., lately on duty at Fort Mason, Cal., has joined at the Presidio of San Francisco.

THE whereabouts of Lieut. J. J. Shaw, 6th U. S. Infantry, whose misdoings we referred to last week, seems still to be unknown.

MRS. I. VOGDES and Miss Vogdes spent several days last week at Fort Schuyler as the guests of General and Mrs. Jackson.

ASSISTANT SURGEON E. R. MORRIS, U. S. A., now on duty at Fort Thomas, Ariz., will leave there in March to be absent about six weeks.

LIEUTENANT H. C. CARBAUGH, 5th U. S. Art., and Mrs. Carbaugh, left Governor's Island early in the week to spend some time in the West.

LIEUTENANT J. S. PETTIT, 1st U. S. Inf., and Mrs. Pettit, now at Leavenworth, Kansas, will join at Benicia Barracks, Cal., early in March.

COLONEL R. S. LA MOTTE, 13th U. S Infantry, will continue on leave for some weeks longer and then join his regiment at Fort Wingate, N. M.

COLONEL E. B. BEAUMONT, U. S. A., and Mrs. Beaumont, who are paying a round of visits in the East, were at Philadelphia a few days ago.

LIEUTENANT R. H. YOUNG, 4th U. S. Infantry, who has been spending a portion of the winter at Jacksonville, Fla., has had his sick leave extended eight months.

LIEUTENANT R. K. EVANS, 12th U. S. Infantry, who has been visiting at Washington for some time past, returned to Madison Barracks, Sackett's Harbor, this week.

THE will of the late General W. B. Hazen, U. S. A., directs that $200 be paid annually to his sister, E. L. Hazen, of Horbin, Portage county, Ohio. The remainder of the estate goes to the widow.

LIEUTENANT JOHN CONKLIN, Jr., 2d U. S. Artillery, has taken charge of the Indian prisoners at Fort Marion, Fla., in succession to Lieut. S. C. Mills, 12th U. S. Infantry, who is in the North on leave.

BRIGADIER-GENERAL ROBERT E. PATTERSON will, at the request of the Board of Managers, relate at the United Service Club, Philadelphia, on Wednesday, Feb. 16, 1887, at 8 P. M., "Memories of West Point Forty Years Ago."

POST CHAPLAIN J. O. RAYNOR, U. S. A., retires this week, Feb. 19, having reached the age of sixty-four. The next retirement for age is that of Major Chas. J. Sprague, Paymaster (San Francisco), on April 12, and then comes that of Brigadier-General O. B. Willcox, April 16. The successor to the latter is as yet a matter of speculation.

COLONEL M. M. BLUNT, 16th U. S. Infantry, is reported to be quite well satisfied with the change of his headquarters from Fort Concho to Fort Bliss. The commissioned *personnel* of Bliss is now: Col. Blunt, Adjutant L. C. Allen, Quartermaster W. Lassiter, Captains G. H. Palmer and Clayton Hale, and Lieutenants W. H. Cowles, S. W. Dunning, and G. I. Putnam, all of the 16th U. S. Infantry, and Captain S. G. Cowdrey, Assistant Surgeon.

J. D. IMBODEN gives the Philadelphia *Press*, of Feb. 13, an interesting account of Stonewall Jackson's campaign in Northwestern Virginia early in the war. The writer says: "During Jackson's lifetime, and in ignorance of facts that are now accessible to all men, there are thousands of people in the South, including many of his own devoted soldiers, who would have answered the query: 'Did Stonewall Jackson ever commit a military blunder?' thus: Never but once. That was when he made the terrible march from Winchester to Bath, Hancock and Romney, on the Upper Potomac frontier in Virginia, and completed this false movement by ordering General Loring's command into winter quarters at Romney."

MAJOR W. C. CARROLL, of Baltimore, has received the following letter from Col. Fred. Grant, in acknowledgment of an article furnished by him to the *Baltimore American*, answering the assertions of Boynton concerning the drinking habits of Gen. Grant:

NEW YORK, February 8.

DEAR CARROLL: I have just read your article in the *Baltimore American*, and write to thank you for your kind defence of the good name of my dear dead father. I was 35 years old when he died. I spent 26 of those years by his side and never saw any signs of the weakness of which Boynton speaks. There are several persons assassins of the reputations of others in the United States. They have for years been trying to ruin the fair name of the purest man and the best father that ever lived. They have succeeded in making the hearts of those who loved him bleed. God forgive them and make their burden lighter in the next world than they have endeavored to place upon the hearts of the family of Gen. Grant in this. Your friend, F. D. GRANT.

CHAPLAIN O. J. NAVE, U. S. A., lately at Delaware, Ohio, has received a six months' extension of sick leave.

LIEUTENANT A. S. MCNUTT, 9th Inf., has taken charge of recruiting matters at Fort Thomas, Arizona.

QUARTERMASTER G. S. HOYT, 18th U. S. Infantry, has rejoined at Fort Hays from a trip to Forts Leavenworth and Riley.

LIEUTENANT J. B. MCDONALD, 10th U. S. Cavalry, on sick leave from Arizona, is spending a portion of it at Columbus, Ga.

JUDGE HENRY CLAY DALLAM, of Baltimore, Md., father-in-law of Lieut. John Bigelow, U. S. Army, is reported to be very ill.

CAPTAIN J. W. MARTIN, 4th U. S. Cavalry, lately visiting at Geneva, N. Y., started this week to join his troop at Fort Huachuca, Arizona.

QUARTERMASTER W. W. WOTHERSPOON, 12th U. S. Inf., rejoined at Madison Barracks, Sackett's Harbor, early in the week, from a short leave.

CAPTAIN J. C. THOMPSON, 3d U. S. Cavalry, of Fort Davis, Texas, is to undergo a course of treatment at the General Hospital at Hot Springs, Ark.

ASSISTANT SURGEON W. J. WAKEMAN, U. S. A., at present visiting in New York City, will start in a few days for Fort Walla Walla, Washington Territory.

GENERAL O. B. WILLCOX, U. S. A., has returned to Fort Leavenworth, Kas., from an agreeable visit to Denver, to attend a banquet given there by veterans of the 9th Army Corps.

THE detail of 1st Lieut. Lewis H. Strother, 1st Infantry, as military professor at the Virginia State Agricultural and Mechanical College, has been revoked at the request of the officer concerned.

THE engagement is announced of Lieut. E. V. Smith, 3d U. S. Infantry, to Miss Young, daughter of Capt. D. J. Young, U. S. A., of Watervliet Arsenal, and sister of Lieut. G. S. Young. The wedding will take place shortly after Easter.

CAPTAIN KLINE, 18th Infantry, has received a letter from a brother of the late Lieut. Peter Campbell, 18th Inf. He resides in Cincinnati. Full particulars have been sent him by Gen. McCook, and also to his parents, who reside in Canada.—*Kansas City Times.*

COLONEL P. T. SWAINE, 22d U. S. Infantry, has appointed 1st Lieut. W. H. Kell regimental adjutant, in succession to Lieut. E. W. Casey, who has held the position since Sept. 1, 1884. Lt. Kell served through the War in the Volunteer Service and was appointed to the 22d Infantry in December, 1872.

THE House on Feb. 11 re-committed to the Committee of the Whole the bill to restore to the 10th Cavalry, as 1st Lieutenant, Edward Byrne, late Captain of that regiment, to rank from July 1, 1875. The bill, in a thin House, got as far on its passage as the adoption of amendments to it. Capt. Byrne was mustered out Jan. 1, 1871.

THE San Francisco *News-Letter* says: "Germans are all the go at present, and the next one will be given at the Presidio on Saturday. The Hager german is named for the 21st, and Dame Rumor says it will be given for the purpose of announcing Miss Emily's engagement to a very recently returned officer from West Point."

CAPTAIN WILLIAM FRANCIS SEGRAVE, recently appointed British Consul at Baltimore, entered the British Army as ensign in the 71st Highlanders Aug. 8, 1845. He served in the Crimea during the Russian war; in India during the mutiny in 1858-9, and in the campaign against the hill tribes on the Northwest frontier of India in 1863. He retired Aug. 8, 1865. Capt. Segrave is a fellow of the Royal Geographical Society.

MR. HENRY COPE WHITEHOUSE has, according to Austrian reports, actually succeeded in enlisting the Egyptian Ministry of Public Works in his project for restoring Lake Mœris, excavated about 1350 B. C. It was over 400 miles in circumference and in parts 300 feet deep, and served as a storage reservoir for the overflow of the Nile in periods of high water, and gave back this reserve in time of low Nile to irrigate the land and increase the flow in the river.

EMPEROR WILLIAM, of Germany, Field Marshal von Moltke, Gen. W. S. Harney, U. S. Army, and Col. E. G. W. Butler, of St. Louis, are believed to be the four oldest military officers in the world. Between the last two there is some rivalry as to precedence. Harney was commissioned 2d Lieutenant from civil life Feb. 13, 1818. Colonel Butler entered West Point September 14, 1816, but was not appointed 2d Lieutenant until July 1, 1820.

A CORRESPONDENT writes: "A brief account of the work of Chaplain Simpson, U. S. A., Fort Bridger, Wyo., during the fall and winter thus far, not taking into account the time before this since he has been stationed at Fort Bridger: He has held 23 religious services, not including Saturday night rehearsals; delivered 22 sermons, 17 lectures in history, and 3 other lectures; visited the post schools 340 times and the post hospital 125 times, and the guard house frequently, besides performing the duties of post treasurer. There have been bought during the past year about 100 books for the post library."

THE Senate will soon be given another opportunity to express its opinion of the nomination of 2d Lieut. John F. McBlain, 9th Cavalry, who was nominated to a 1st lieutenancy last year, and rejected because of alleged dishonorable conduct toward his wife. Congressman Kelly was the chief influence which brought about his rejection before, and, it is said, is ready to renew the attack whenever the nomination may come in. It is now due, the retirement of Capt. Valois this week having opened the way. The nomination of Lieut. Conline vice Valois was sent to the Senate on Tuesday, and Lieut. McBlain's vice Conline will probably follow in a few days, it having been held up to await a decision by the Secretary of War, as to whether or not he is eligible for promotion. If any attention is paid to precedents the decision is certain to be in the affirmative.

COLONEL THOS. F. BARR, U. S. A., visited Omaha, Neb., last week.

CAPTAIN G. VALOIS, U. S. Army, retired Feb. 11, is at Berlin, Germany.

COLONEL FRANK BRIDGMAN, U. S. A., of Chicago, is visiting in Washington.

CAPTAIN G. D. WALLACE, 7th U. S. Cavalry, is still recuperating at Sumter, S. C.

LIEUTENANT J. F. KREPS, 22d U. S. Infantry, is visiting relatives at Allegheny City, Pa.

MR. A. G. RUGGLES, brother of Gen. Geo. D. Ruggles, U. S. A., is visiting at Franklin, La.

COLONEL C. L. BEST, 4th U. S. Artillery, left Fort Adams, R. I., early in the week on a short vacation.

ASSISTANT SURGEON C. C. BARROWS, U. S. A., lately at Jackson, Miss., will, it is understood, soon leave the Service to engage in civil practice.

MAJOR GENERAL JOHN NEWTON, U. S. A., responded for "The Army and Navy," at the banquet of the Xavier Union at Delmonico's, New York, on Wednesday evening.

CAPTAINS T. C. LEBO and H. W. Lawton and Lieut. G. L. Scott, of the Cavalry, met at Los Angeles, Cal., this week and organized as a Board to purchase cavalry horses for Gen. Miles's command.

GENERAL W. T. SHERMAN, U. S. A., and the Misses Sherman, were among those present at the marriage on Tuesday, of Mr. A. E. Dorman to Miss E. E. Talmage, daughter of the Rev. T. DeWitt Talmage.

GENERAL STEWART VAN VLIET, U. S. A., and Mrs. Van Vliet, are soon to go to Jacksonville, Fla., for a few weeks, when the General will take the opportunity to revisit scenes familiar to him during the days of the Seminole War.

GENERAL MARTIN T. MCMAHON, U. S. Marshal for New York, has had a return of his old complaint of bleeding at the lungs, which attacked him sixteen years ago as the result of exposure when Adjutant-General of the Sixth Army Corps during the war.

THE House on Feb. 10 passed a bill which provides for the payment to Remington and Sons of some $5.000, to which they are entitled as drawback on account of duties paid on imported materials used in the manufacture of arms, which were afterwards exported.

THE Tennessee Legislature adopted, Feb. 15, the resolution tendering to the U. S. as a home for disabled American soldiers the Hermitage, the old home and burial place of Andrew Jackson. Mrs. Sarah Jackson will, under the resolution, reside at the Hermitage during the rest of her natural life.

THE following notice appeared in the death advertisements of the London *Times* of Jan. 26: "In affectionate and enduring remembrance of Charles George Gordon, Major General Royal Engineers; born 28th January, 1833; slain at Khartoum 26th January, 1885. England's disregard of duty and honor cost the life of her noblest son."

THE "Union Veteran Army of Rhode Island" has disbanded and "Gen." B. B. Manchester, the commander-in-chief of all its forces in the United States, was arrested at Providence Friday, charged with conducting a lottery. He is, it appears, an ex-convict, having been sentenced for housebreaking after a brief term of service in Caleb Cushing's command during the Mexican War.

CAPTAIN A. E. WOODSON, 5th U. S. Cavalry, is in New Orleans for the benefit of his health and will remain there for some time. Last week he was visited by Barons Starch, Eschbach and Eisenhart, of the German Army, who have been travelling through the country, and have now gone to San Francisco via the Indian Territory. They are going there to get a glimpse of the life, habits customs and government of the Indians, and to become acquainted with the system of military reservations.

ON a lecture tour in Kentucky recently Gen. Jno. S. Mosby—the ex-guerrilla chieftain—fell asleep in a railroad car and was robbed of a travelling bag containing his dress suit and manuscript lecture. It hurt his feelings, and when he next visited Washington he told Senator Beck that he didn't expect such treatment in Kentucky, and felt as though he had been wounded in the house of his friends. "Why," he added, "I didn't suppose that there was a single thief in Kentucky!" "There isn't," replied the blue-grass Congressman, "but you see you were right in John Morgan's track; and I must say he rather demoralized our people!"

GENERAL R. C. SCHENCK, in a recent article on the late Major-General David Hunter, U. S. A., says: "No juster, truer picture could be drawn than that which came from the pen of Halpine, who served long on Hunter's staff, in close and confidential daily intercourse with him: 'In my whole experience of human nature—and it has been exceedingly varied—the purest, gentlest, bravest and most honest gentleman I have ever had the means of knowing thoroughly, is the officer in question. * * * David Hunter lives in my memory, and must while memory lasts, as a character free from any vice, so incapable of any baseness, that I have often thought four years of life not wasted if only for making me by that experience to realize that such a manhood as his was yet possible in this soiled and dusty world.'"

THERE are about 170 engineers of all grades in the employ of the city of New York; 72 on the Croton Aqueduct. In annual salaries paid engineers, the Department of Public Works expends about $97,500, not counting assistance paid for by the day; the Park Department, $40,000; the Dock Department, $15,100, and the Aqueduct Commission, $148,000. To this should be added nearly $80,000 for its staff of inspectors, now numbering 58, and to be increased by 40. There are 111 officers in the Engineer Corps of the Army, and there were in addition 104 civilian engineers employed last year under the appropriation for rivers and harbors at salaries varying from $100 to $350 a month. There is one salary of the latter amount, one of $300, four of $250, and 21 of $200. The annual salary of the Chief of Engineers is $5,500, that of Mr. Church, Chief Engineer of the new Croton Aqueduct, $10,000. Gen. Newton's salary as Commissioner of Public Works is $8,000

LIEUTENANT L. M. BRETT, 2d U. S. Cavalry, is visiting at Malden, Mass.

GENERAL R. B. AYRES, U. S. A., paid a short visit to Asheville, N. C., this week.

COLONEL W. B. ROYALL, 4th U. S. Cavalry, is located for the present at 1,627 H street, Washington, D. C.

LIEUTENANT S. C. MILLS, 12th U. S. Infantry, is spending a portion of his leave from the South in Philadelphia.

CAPTAIN M. C. WILKINSON, 3d U. S. Infantry, on leave from Montana, is spending a portion of it at Elmira, N. Y.

LIEUTENANT C. B. GATEWOOD, 6th Cavalry, A. D. C. to Gen. Miles, on leave in the East, is visiting at Frostburg, Md.

CAPTAIN C. M. CALLAHAN, U. S. Army, retired from active service a few years ago, is located at 1,025 8th street, Washington, D. C.

LIEUTENANT W. W. GIBSON, late of the 3d U. S. Artillery, and now of the Ordnance Corps, remains for the present on duty at West Point.

MAJOR W. P. CHAMBLISS, U. S. Army, retired, will continue to reside at Cobourg, Canada, with occasional visits to friends on this side of the line.

LIEUTENANT HARRY D. HUMPHREY, 20th U. S. Infantry, recently appointed from civil life, will likely join Capt. Lloyd Wheaton's Co. I, at Camp Poplar River, Mont.

GENERAL W. T. SHERMAN, U. S. A., attended, on Wednesday evening, a reception by Abel Smith Post, G. A. R., of Brooklyn, and made one of his vigorous speeches to the large number of assembled veterans.

THE Marquis Vincenzo Peresca, of the Fourth Bersagliere Regiment, Italian Army, was married Feb. 17 at the Windsor Hotel, New York City, to Miss Lillian de Chambrun Gesner, daughter of the late Surgeon Brower Gesner.

COLONEL J. R. SMITH, surgeon, U. S. A., having been appointed president of the Army Medical Board in New York City, it is expected there will be soon several examinations of candidates for the position of assistant surgeon, U. S. A.

COLONEL J. P. NICHOLSON read a paper on "Gettysburg—The Pinch of the Fight"—before the Young Men's Guild Church of the Saviour, Philadelphia, on Friday evening of this week. Few men are as able as Col. Nicholson to describe Gettysburg as it was fought.

LIEUTENANT H. S. BISHOP, 5th Cav., Fort Supply, was presented recently with a handsome sabre and belt by the enlisted men of Troop A as a mark of respect and esteem. 1st Sergt. H. Newman made the presentation and Lieut. Bishop expressed his appreciation in a few well-timed remarks.

THE first person to receive the benefit of the Mexican Pension law was "Cerro Gordo" Williams, of Kentucky. Gen. Williams filed his application on Feb. 16, and next day was given his certificate, which he will present at the Louisville agency and receive in return $8, the amount of his monthly pension.

THE remains of the late Gen. W. B. Hazen, U. S. Army, were interred, Feb. 15, at Arlington Cemetery. Among those present were Mrs. Hazen and her son, John, Mrs. Washington McLean, Captain Thomson, Lieut. Swift and others. The funeral services were conducted by Dr. Leonard. The interment was made in one of the most beautiful portions of the cemetery.

AMONG those attending the meeting of the Canteen at Martinelli's last Saturday, were Major Jas. Jackson and Lieut. John Bigelow, Jr., of the Cavalry; Capt. W. E. Van Reed, Lieut. E. L. Zalinski, Lieut. Adams, and Lieut. A. C. Blunt, of the Artillery, and Lieut. S. Dana Greene, of the U. S. S. *Atlanta*. With one exception all of these gentlemen were called upon for speeches and charmed and instructed the company with their eloquence.

THE following officers of the Army are registered at the War Department: 1st Lieut. E. L. Zalinski, 5th Art.; Col. S. K. Dawson, retired; 2d Lieut. W. E. Shipp, 10th Cav.; 1st Lieut. J. H. Philbrick, 11th Inf.; Lieut.-Col. W. E. Merrill, Engs.; Lieut.-Col. M. I. Ludington, Q. M. Dept.; 2d Lieut. J. B. Bellinger, 5th Cav.; 2d Lieut. H. C. Cabell, 14th Inf.; 2d Lieut. B. D. Spilman, 7th Cav.; Lieut.-Col. A. W. Evans, retired; Brig.-Gen. Francis Fessenden, retired; 2d Lieut. G. W. Ruthers, 8th Inf.; 1st Lieut. O. I. Converse, retired; Capt. H. Biggs, retired; Col. J. C. Tidball, 1st Art.; Capt. W. A. Thompson, 4th Cav.; 2d Lieut. S. H. Slocum, 8th Cav.; 1st Lieut. L. H. Strother, 1st Inf.; 2d Lieut. L. D. Greene, 7th Inf.

A LONG-EXPECTED mounted sword contest between Jaguarine and Sergeant Owen Davis, of the 2d Cav., took place in the Mechanics' Pavilion, San Francisco, on the evening of Feb. 8, in the presence of a large crowd, including several officers from the Presidio and ladies. Jaguarine won by 11 to 7, according to the referee's decision, though she fell from her horse in the first attack, and would never have wielded sword more had the fighting been in earnest. Davis accused Capt. Marshall, the referee, of deciding wrongfully in Jaguarine's favor, and he lost his temper, in consequence of which he was somewhat at a disadvantage. At the close of the encounter he recovered his good nature and congratulated Jaguarine on her victory.

THE N. Y. *Star* says: "General Horatio C. King, who is urged by many Brooklyn Democrats for the position of United States Marshal of the Eastern District of New York, is a gentleman whose services deserve the recognition of an appointment to a post for which he is eminently qualified. To the President his abilities are intimately known from long personal association, including that during the time General King was Judge-Advocate-General on his staff as Governor of New York. There is only one thing that the *Star* can add to the knowledge the President already has of General King, which is that no appointment could be more satisfactory to thousands of Democrats hereabouts than that of the accomplished son of the Postmaster-General of President Buchanan's Administration."

SECOND LIEUTENANT JOSEPH S. POWELL, Signal Corps, has tendered his resignation to take effect Feb. 28. Pending its acceptance he has been detached from duty at Omaha and ordered to Washington.

REPRESENTATIVE GIBSON, of Maryland, called upon the Secretary of War this week and asked that an Army officer be detailed as military instructor at St. John's College, Annapolis, and one at the Military and Naval Academy at Oxford, Md. The officers suggested were Lieut. Noble, 1st Inf., to go to St. John's College, and Lieut. M. F. Jamar, 13th Inf., now at Baton Rouge, La., for duty at Oxford. The Secretary looked into the subject, and found that Lieut. Noble has not been in the Service long enough to render him eligible for such a detail. Lieut. Jamar, it is understood, will be ordered to St. John's College, but no provision will be made for Oxford at present.

PAY INSPECTOR J. HAY, U. S. N., who is abroad on leave, has received an extension of six months.

ASST. ENGR. J. W. ANNAN, U. S. N., has been detached from the Portsmouth Navy-yard and ordered to the *Richmond*. Mr. Annan's last cruise was on the *Ranger*, and ended in August, 1885. Mrs. Annan is a native of Vallejo, Cal.

LIEUT. WEBSTER DOTY, U. S. N., recently ordered before the Retiring Board, has been on the sick list for a long time, and it is quite probable that he will be retired. Lieut. Doty's last service was on the *Kearsarge* in the latter part of 1884. His two years of suspension on furlough pay expired on October 25 last.

THE following officers registered at the Navy Department this week: Cadet Engrs. Gustav Kaemmerling and W. W. White, Ensign B. C. Dent and Paymr. John A. Lovell, Rear Admiral S. B. Luce, Ensign Harry Kimmell, Surg. Jas. Hugg, Chief Engr. Jos. Trilley, Chaplain A. A. McAlister, Lieut. Fred. Coffey and P. A. Surg. J. C. Byrnes.

CHIEF ENGR. W. S. SMITH, U. S. N., of Washington, has been assigned to the superintendency of the new cruiser to be built at San Francisco, the *Charleston*. Mr. Smith's last cruise was on the *Kearsarge*, European Station, from which he returned home in June of 1885. It is probable that Mrs. and Miss Smith will accompany the chief to the Pacific Slope.

LIEUT. COMDR. J. N. HEMPHILL, U. S. N., has not yet received his commission for which he was recently examined, but expects to get it in a short time. There are one or more doubtful cases to be finally disposed of by the Secretary before the stream of promotion will once more flow smoothly, but action on them cannot be much longer deferred.

NAVAL CONSTRUCTOR GEO. R. BOUSH, U. S. N., has been granted a six months' leave of absence from Feb. 8. Inasmuch as he reaches the retiring age of sixty two years on October 22 next, it is not likely that Mr. Boush will be assigned to any further duty on the active list. His record has been an honorable one, and his disappearance to the shades of the retired will be a loss to his corps.

LIEUT. COMDR. W. P. RANDALL, U. S. N., who was retired Feb. 15, 1882, as a lieutenant, has received his commission, promoting him to his present grade on the retired list a short time since. He is spending a period of recuperation from the cold blasts of Boston in Washington, being located at Wormley's. Lieut. Comdr. Randall was retired from physical incapacity, the result of an incident of the Service.

THE continued ill health of Mrs. Winslow, wife of Lieut. Herbert Winslow, U. S. N., is a source of grave anxiety to her friends who had hoped that the Washington climate might have proved beneficial. Lieut. Winslow has recently been transferred from equipment duty to ordnance at the Washington Ordnance Yard. The number of officers now on duty connected with ordnance at this yard is quite large, and is being constantly augmented.

CHIEF ENGR. JOS. TRILLEY, of the Navy, has been spending a few days at the Capital, presumably on the lookout for duty. Mr. Trilley's recent return from sea in the *Trenton* precludes his assignment afloat, but it is probable that his eyes are cast towards Annapolis as the relief of Chief Engr. Farmer, whose sixth year of shore duty will be well advanced by the date of the completion of the present academic year. Mr. Trilley is making his home at No. 35 Mt. Vernon street, Charlestown, Mass.

THE *Tribune* in "Personal Notes" says: "Lieut. Emory, of the Navy, who as commander of the *Bear* first discovered Lieut. Greely's camp at Cape Sabine, was seen on the elevated road a few days ago. He looked and appeared much as he did when a midshipman in 1867, except that he has grown much heavier. As a 'Middy' he was the life of his mess, and was ever playing practical jokes upon his messmates. Socially he is the same big-hearted fellow and as ready for a jolly time as twenty years ago. Lieut. Emory was recently ordered to command the *Thetis*. Said he: 'We shall not get away for a couple of weeks yet We shall probably go directly from here to Montevideo, thence through the Straits of Magellan to Valparaiso and then to San Francisco. Refitting with supplies and coal there, we will push north to the Alaskan waters, where we are to cruise.'"

EX-PAY CLERK MYERS, whose desertion from the *Iroquois* on the Pacific Station created a stir several months ago, is now supposed to be in China. Secretary Whitney has received several letters from him, in all of which he requests a compromise. Myers greatly desires to return to his home in Washington. His financial condition is good, as he possesses a neat bank account, besides several pieces of property. The only charge against him at present is desertion. He borrowed considerable money from sailors on the *Iroquois*, but the promissory notes he gave to each creditor have since been honored. Secretary Whitney has refused to come to any agreement with Myers as to the treatment he will receive upon surrendering to the Navy Department. The Secretary has, however, intimated that under the circumstances, if Myers were to give himself up and stand trial by Court-martial, he would be leniently dealt with.

ENSIGN RICHARD HENDERSON, U. S. N., is at his home at Salisbury, N. C.

COMMANDER C. S. COTTON, U. S. N., returned to Norfolk, Va., early in the week from a visit to Washington.

LIEUTENANT-COMMANDER F. W. CROCKER, U. S. Navy, has left the hospital at Chelsea, Mass., and gone South for further recuperation.

P. A. ENGINEER ARTHUR PRICE, U. S. N., lately visiting relatives at Woodside, Long Island, has gone to duty at the Navy-yard at Portsmouth, N. H.

COMMANDER F. E. CHADWICK and Lieutenant B. H. Buckingham, U. S. N., Naval Attachés, were at Kiel, Germany, this week, inspecting the dockyards there.

MRS. HINMAN, wife of Paymr. F. H. Hinman, U. S. N., of the *Vandalia*, visiting her mother in Los Angeles, Cal., will soon go to Europe to join her husband.

REAR ADMIRAL HUGHES, U. S. N., retired, is negotiating for the purchase of a residence on 19th street, near Dupont Circle, in Washington, and expects soon to take up his residence there.

MRS. GOODRICH, wife of the commanding officer at the Torpedo Station, Newport, R. I., had charge of the subscription entertainment Feb. 17. The play entitled "The Two Buzzards" was presented.

CHIEF CLERK WALDECKER, of the Bureau of Navigation, Navy Department, was recently presented by the officers of the compass department with a handsome cane. The presentation was made by Lieut. Schuetze, and Mr. Waldecker responded with a few well-chosen remarks.

ACCORDING to the Boston *Traveller*, Secretary Whitney recently had the Marine Band to play at his house and afterwards gave them a luncheon. When he invited them to the table he asked their nationalities, and said, "I have hog and hominy for the Americans, macaroni for the Italians and sauerkraut for the Germans." Then he ordered out terrapin and champagne for them all.

ON Feb. 11 Senator McPherson attempted, without success, to secure consideration for the joint resolution restoring certain cadet-engineers named therein to their legal rights and to their proper office and rank in the U. S. Navy, authorizing and directing the President to appoint such cadet-engineers (graduates) assistant engineers, to commission them as such, and to antedate their commissions.

EX-SECRETARY OF THE NAVY CHANDLER is much interested in perfecting the details of the cold storage system about ready for installation at the Washington Market, D. C. He has fortunately secured the services of Mr. G. R. Wilson, late superintendent of machinery under the Bureau of Steam Engineering at the Washington Navy-yard. Mr. Chandler is sanguine that the venture will be a financial success, as it is sure to be a mechanical one.

RECENT DEATHS.

COLONEL JAMES WALLACE, a distinguished citizen of Maryland and father-in-law of Lieut. Samuel A. Graham, U. S. Navy, died in Baltimore, Feb. 12. He was a close friend of the late Governor Hicks, of Maryland, and at his solicitation accepted a commission and raised the 1st Regiment, U. S. Volunteers, of Maryland, in the late war. He was engaged in military duty on the eastern shore of Maryland and Virginia from the organization of the regiment to 1863, and also participated in the battle of Gettysburg. In 1863 Colonel Wallace resigned and resumed the practice of law. Colonel Wallace was married Dec. 12, 1843, to Annie E., daughter of the late Dr. Francis P. Phelps, who survives her husband. He also leaves four children, James Wallace, Jr., of Cambridge, a daughter, who is the wife of Lieut. Samuel A. Graham, U. S. N., another daughter, the wife of D'Arcy P. Bryan, of Baltimore, and Miss Myra Wallace, unmarried.

DR. THOS. GREEN SEARS HEROD, who died recently at Shawneetown, Ill., aged 76, seems to have had a remarkable career. In 1839 he settled in Shawneetown, where seven years later he organized a company for the Mexican service. In 1861 he raised a company, which became attached to the 18th Regt., and a second one, which joined the 6th Illinois Cavalry. He served as Captain and subsequently Major, and distinguished himself by reckless bravery. In 1863 he had a dispute with Lieut.-Col. Loomis, who had been promoted over him. He demanded an apology from Loomis, and this being refused, shot him several times, inflicting fatal injuries. For this he was arrested and imprisoned at Memphis, and was sentenced to death, but President Lincoln commuted the sentence to ten years' imprisonment, and after he had served a year President Johnson pardoned him.

MR. WM. THOMSON, father of Paymaster W. J. Thomson, U. S. N., who died at Washington, D. C., Feb. 5, aged 70, was for many years a member of the journalistic profession, and rendered good service in that connection during the Mexican War. He leaves a widow, two sons and two daughters.

CADET R. C. WORTHINGTON, class of 1887, U. S. Military Academy, who died at his mother's home at Carlisle, Pa., Feb. 4, was the only son of the late Dr. Charles M. Worthington, surgeon, 14th Pennsylvania Cavalry, and nephew of Lieut. Daniel Cornman, adjutant, 21st U. S. Infantry.

ASSISTANT ENGINEER JAMES A. DEAVER, U. S. N., died at his home in Baltimore, Md., Feb. 4, 1887, aged forty-nine. He was born in Baltimore, entered the Service Feb. 19, 1863, as Third Assistant Engineer, was promoted to Second Assistant July 25, 1866, and was retired Feb. 28, 1874. Interment was made in London Park Cemetery. The pallbearers, all relatives of the deceased, were James Towson, W. W. Towson, Harry Ward, James Ward and Robert Ward. There were present Rev. Mr. Booth, of Wilmington, Del.; Asst. Engr. F. M. Bennett, U. S. N., (retired), and P. A. Engr. John W. Saville, U. S. N., (retired).

NAPOLEON LOUIS JOSEPH BERTHIER, Prince of Wagram, who died a few days ago at Paris, aged 76, was the only son of Napoleon's famous General, Alexander Berthier, who received the title of Prince

of Wagram for his services at the battle of Wagram in 1809.

COL. MCKEAN, 90th Regiment Canadian Volunteers, which routed the rebels under Louis Riel and captured the latter, died at Winnipeg, Manitoba, Feb. 13, of heart disease.

CAPT. F. S. LILLY, a hero of three wars, Florida, Mexico, and the Rebellion, was instantly killed at Dayton, O., Feb. 10, by a street car running over him.

MR. E. C. MALOY, foreman of the Brooklyn Navy-yard during Pierce's and Buchanan's administrations, died Feb. 10 in New York City.

THE FORTY-NINTH CONGRESS.

House bills granting right of way for military purposes through the Fort Meade and Whipple Barracks military reservation, returning captured property now stored in the vaults of the Treasury to the proper owners, and settling with the Territory of Dakota for ordnance stores were passed by the Senate on Thursday.

A large number of House bills for relief of volunteer officers and soldiers received favorable action by the Senate Military Committee on Tuesday. A favorable report was also made on the House bill returning to the proper owners the "Twigg swords."

The Senate on Friday passed the House bill correcting the status of Capt. Edward G. Fechet, 8th Cavalry.

A majority and minority report were presented on Friday by the House Naval Committee on the Senate bill to increase the pay of Ensigns. The majority favor the House measure, which allows $1,700 per annum when on sea duty, and the minority the bill as passed by the Senate, fixing Ensigns' sea-pay at $1,600.

Senator Hale, from the Committee on Naval Affairs, has reported favorably a bill providing that any officer who, after having been twenty years in the Naval Service, may be placed on the retired list of the Navy by reason of physical defect, not a disqualification at the time of entry into the Service, but subsequently made so, shall be held to be retired for disability incident to the Service.

The bill authorizing the United States to accept the sword of Captain Samuel Chester Reed, tendered as a gift by his son, has passed the Senate and received a favorable report from the House Naval Committee. The sword referred to is now with the Chairman of the House Naval Committee.

The House Naval Committee has adopted an amendment to the bill for relief of cadet engineers, now on the calendar, requiring that five vacancies, which existed on June 13 last, shall be given to surplus graduates of that date.

The House Military Committee has reported adversely the resolution calling on the War Department for information in relation to the U. S. cavalry troops firing upon certain persons in the Indian Territory.

The New York delegation has been made aware within a day or two that, while the conference committee in charge of the Fortification Bill of last year has been trying to reach an agreement and put the measure in shape for approval by both houses, Mr. Randall managed to have it amended so that Frankford, Penn., shall have one of the gun factories instead of Watervliet, N. Y. The War Department had approved of Watervliet, and no one had supposed that there would be any dispute over the choice.

The House Committee on Appropriations has referred to the sub-Committee on Fortifications, composed of Messrs. Forney, Randall, Holman, Butterworth, and Ryan, the two bills which have passed the Senate providing for war ships and guns. It concurred in Mr. Sherman's amendment to the Sundry Civil bill appropriating $2,000 for fencing and marking Confederate soldiers' graves at Columbus, O., and elsewhere, and adds an instruction to the Secretary of War to ascertain and report to Congress at its next session whether the graves of any soldiers—Union or Confederates, who were killed in battle, or who died in prisons or hospital not embraced in any national, city, town or village cemetery—are unprotected by inclosures or unmarked by headstones, and if there be any such graves, what amount of money would be necessary to properly fence and permanently mark the same.

The House Committee on Military Affairs met Feb. 17 for the purpose of considering the McAdoo bill appropriating $20,000,000 for the construction of heavy ordnance and seacoast defences. The preliminary discussion covered the entire subject of seacoast defence, and the following resolutions, offered by Mr. Cutcheon, of Michigan, were adopted without a division:

Resolved, That it is the judgment of this committee that the time has arrived when the Government of the United States should enter at once upon the work of protecting our great commercial seaboard cities and our northern frontier by a system of defences adapted to the exigencies of modern warfare, and capable of repelling the attacks of modern armored ships.

Resolved, That the United States should develop within itself all the necessary materials for the fabrication of the heaviest modern ordnance and a most perfect armor for the fortification and for the construction of armored ships.

Resolved, That, considering the time necessary for the erection of a plant for the production of ordnance and armor, the Government should either at once proceed to create such plant itself or offer such inducements as will secure the establishment of such plant by private parties.

The McAdoo bill was then taken up on motion of Mr. Viele, who offered some amendments to it, and moved that the bill be favorably reported to the House; but the hour of 12 having arrived, the meeting adjourned until Friday.

BILLS INTRODUCED.

S. 3286. Amendment intended to be proposed by Mr. Call to the bill (S. 3286) to increase the naval establishment: Sec. —. That the President of the United States shall establish at Pensacola, Florida, and at Norfolk, Virginia, and at the Brooklyn Navy yard, and at the Mare Island Navy-yard, in California, plants of the requisite machinery and implements for the construction of the steel cruisers provided for in this act, which shall be leased, on reasonable terms to be fixed by the President of the United States, to persons whose contracts shall be approved by the President of the United States for the construction of such vessels. That one or more of the ships provided for in this act shall be constructed at each of the Navy-yards provided for in this act. That one million of dollars be, and the same is hereby, appropriated for the purchase and erection of the plants and implements for the construction of such vessels.

S. 3293, Mr. Stanford. That the Secretary of War and the Secretary of the Navy, jointly, are hereby authorized and directed to select and designate the associations, firms, or individuals who, at their own cost and expense, and for the purpose of constructing mortars and heavy guns for the use of the United States, shall be authorized to establish four several ordnance plants, to be located respectively at the cities of South Boston, Massachusetts; Pittsburgh, Pennsylvania; Birmingham, Alabama, and San Francisco, California. And said Secretaries, for the information of the parties invited to establish ordnance plants, shall accompany each designation with a memorandum containing the following particulars, to wit:

First. The character and value of the plant required, including steam-hammers, furnaces, compressors, machinery, and all the appliances requisite for the effective execution of the work contemplated, the aggregate value of each plant to be not less than one million dollars.

Second. The character of material to be used in construction, whether iron, open-hearth, hammered steel, pressed steel, or gun-metal.

Third. The character, number, and dimensions of mortars and guns required (the minimum gun to be six inches in diameter of bore, the maximum gun to weigh one hundred tons), and the time of completion and order of delivery.

Fourth. All the material used in the construction of plant, mortars, and guns must be of domestic production.

Fifth. For work done, remunerative and reasonable compensation, to be agreed upon by the contracting parties, shall be paid; and to induce the investment of private capital in said ordnance plants, and to protect the investors against loss in any such investment, the said Secretaries of War and the Navy will, in behalf of the United States, for the period of ten years from the date of the contracts hereinafter provided, guarantee the parties owning said ordnance plants orders of the United States for mortars and guns that shall amount in value in each case to the sum annually of one million dollars.

Sixth. The public defence and interest may render it desirable that one or all of the contemplated ordnance establishments should become the property of the Government, and in that contingency the private owners must agree to convey and deliver their property and other rights in said establishments to the United States, for a just and sufficient consideration, including the cost of premises and plant, and interest thereon at seven per centum per annum, and must concede such option of purchase to the United States in the contracts provided for in this act. The parties designated as herein provided shall be residents of the cities named for the location of the several ordnance establishments; and if any one of them should decline to contract on the basis prescribed in the foregoing memorandum, or for the period of thirty days fail to respond to the proposition submitted, then the said Secretaries shall, in the manner prescribed, make new designations, that the purposes herein set forth may be carried into effect.

Sec. 2. That when parties of satisfactory financial standing and conditions shall accept the designations made and the conditions set forth in the accompanying memorandum, and shall so inform the Secretaries of War and the Navy, said Secretaries shall thereafter jointly enter into contracts with them for the construction of the mortars and guns herein provided for, and upon the conditions herein specified. Said work of construction shall proceed under the supervision of such boards of inspecting officers as the said Secretaries may appoint, with the view of securing good faith in the contractors, both in the quality of the material used and character of the work done. The mortars and guns should be subjected to such tests as the ordnance regulations require and as said Secretaries may prescribe; and no work shall be accepted except done in strict accordance with the provisions of the contracts relative thereto, and upon the favorable report of the board appointed to examine and test them. Currently with the signing of the contracts provided for herein, the contractors severally shall enter into a bond with good and sufficient securities, and penal provision embraced therein to have all the required plant in readiness for actual work within twenty-four months from date of their respective contracts, and shall, at the same time execute a bond to the United States, similarly conditioned, for the faithful execution of the work undertaken by them according to the provisions of their several contracts.

Sec. 3. That the expenses of the work herein provided for shall be defrayed from moneys to be hereafter appropriated by Congress; that said mortars and guns, when tested and accepted, shall be delivered on the premises—when required for the armament of the forts and coast defences, to the order of the Secretary of War; when required for the armament of vessels, to the order of the Secretary of the Navy; and they shall be paid for as they are completed and accepted.

S. 3320, Whitthorne.

Sec. 1. That annual bounties, based on tonnage, indicated horse-power, steaming distance, or weight of boilers, shall be paid to the owners of such steam vessels now built, or which may hereafter be constructed, and which shall be engaged in the coasting or foreign trade and sailing under the flag of the U. S. of America, provided that they shall be constructed according to the requirements of the Secretary of the Navy, to be pronounced suitable for armed auxiliary steam cruisers by a board of naval officers to be appointed by the Secretary of the Navy.

Sec. 2. That steamers so selected or constructed shall be capable of mounting not less than two high-powered rifled guns of modern construction, shall be designated auxiliary cruisers of the first class or second class, and as such shall be specified in the Naval Register.

Sec. 3. That the amount of bounty to be paid for the prospective use of such auxiliary cruiser shall be determined by a commission composed of representatives selected by the owners of ships of American construction and an equal number of naval officers, provided that the Secretary of the Navy shall be an additional member and president of the commission, and may be modified from time to time, provided that the recommendation of such commission shall be inoperative without the approval of the President; and provided that steamers engaged in the coasting trade of the U. S. shall not be allotted more than one-third the annual bounty recommended for steamers of corresponding class engaged in foreign commerce; and provided further that the bounties allotted shall not exceed thirty cents per ton; and provided further that payment in accordance with the terms recommended by the commission before mentioned shall be made monthly and that in no case shall payments be for a period less than three months.

Sec. 4. That vessels so classed, the owners of which shall accept bounties, shall at all times be at the disposition of the Government, and may be transferred temporarily or permanently to the Naval Service whenever the president may consider it necessary, with or without the officers and crews, and compensation for such use and transfer shall be determined by a commission to be agreed upon by the Secretary of the Navy and the owners of such vessels so transferred.

Sec. 5. That such of the officers and men who are citizens of the U. S., serving in the merchant marine of the U. S. between the ages of 20 and 22, or who served in the Navy during the civil war, who shall so select, and who shall be found physically and professionally qualified by a board of Navy officers, to be appointed by the Secretary of the Navy, shall be enrolled in the naval reserve for periods not exceeding five years, and in grades and ratings for which they shall be found qualified and which shall be established by the president, corresponding to grades and ratings now established by the Navy; provided that when so enrolled and called out for active service by the President, they shall be subject to the laws and regulations which may govern the Naval Service.

Sec. 6. That all officers and men of the naval reserve may be required to present themselves each year at a naval rendezvous for drill and instruction at such times and places as the President may determine, such drill and instructions to continue four weeks, provided that during the time under instruction they shall receive from the Government the pay and emoluments of their rank or grade in the Navy for one month, in addition to the pay they would have received in their several positions in the merchant marine; these amounts, with the expenses due to necessary travel, to be paid them annually upon the completion of their instruction, and provided that in computing their pay they shall have credit for the time actually enrolled in the naval reserve, as though such service had been performed in the Navy; provided further that for continuous service of five years each seaman so serving in the naval reserve shall at the end of said period receive an additional bounty of $100.

Sec. 7. That when called out by executive order, such officers and men of the naval reserve as shall be accepted for active service shall be entitled to all the benefits accruing to length of service in that organization as though said service had been performed in the regular Navy.

Sec. 8. That when a merchant vessel shall be commanded by an officer of the naval reserve, and shall have five other officers or men in the complement of officers and crew belonging to the said naval reserve, that ship shall have the right to fly from the mainmast-head a narrow pennant having in lieu of the stars prescribed for naval pennants the letters U. S. N. R. in white, provided that all such pennants shall be supplied by the Secretary of the Navy.

PROVIDING FOR OUR NEW NAVY.

FOLLOWING are the texts of the Cameron and Hale bills to increase the Naval Establishment, passed by the Senate on Wednesday and Thursday:

S. 3286, Mr. Cameron. That the President is hereby authorized to have constructed, by contract, ten protected steel cruisers, with such armament for each as the Navy Department may deem suitable, each of said vessels to have a maximum speed of not less than 20 knots over the measured mile, such speed to be exhibited under such test or tests and conditions as the Navy Department may impose. The cost of all of said cruisers, in the aggregate, complete, exclusive of armament, shall not be more than $16,000,000, which sum is hereby appropriated out of any money in the Treasury not otherwise appropriated, to be available during five years from March 4, 1887.

Sec. 2. That in the construction of the aforesaid vessels all of the provisions of the act of August 3, 1886, entitled "An act to increase the Naval establishment," as to material for said vessels, their engines, boilers and machinery, the contracts under which they are built, the notice of and proposals for the same, the plans, drawings and specifications therefor, and the method of executing said contracts, shall be observed and followed, and said vessels shall be built in compliance with the terms of said act, so far as the same relate to vessels constructed under contract, save that in all their parts they shall be of domestic manufactute.

Sec. 3. The contracts for the construction of said vessels shall contain the provisions to the effect that the contractor guarantees that when completed and tested for speed, under conditions to be presented by the Navy Department, the vessel exhibit a maximum speed of at least 20 knots per hour; and for every quarter knot of speed exhibited above said guarantee, the contractor shall receive a premium over and above his contract price, of $50,000, and for every quarter knot that said vessel fails of making said guaranteed speed there shall be deducted from the contract price the sum of $50,000, and for the purposes provided in this section the sum of $2,000,000, or so much of the same as may be necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated.

Sec. 4. That for the armament of the vessels hereinbefore provided for the sum of $4,800,000 is hereby appropriated out of any money in the Treasury not otherwise appropriated, to be available during five years from March 4, 1887.

Sec. 5. In making proposals for contracts for building the vessels authorized to be constructed under this act, it should be required that three of said vessels shall be built on or near the coast of the Pacific Ocean, or the waters connected therewith; three of them on or near the coast of the Gulf of Mexico or the waters connecting therewith, and four of them on or near the coast of the Atlantic Ocean, or the waters connected therewith, and at such places on or near such coasts or waters as the Secretary of the Navy shall approve. If it shall appear to the satisfaction of the President of the United States from the biddings for said contracts when the same are opened and examined by him, that said vessels cannot be constructed at a fair cost on or near the coast of the Pacific Ocean or the Gulf of Mexico, he shall suspend the construction of the vessels herein required to be built on or near said coast or either of them, until the further return of Congress, and shall report the reasons for such suspension to Congress with all convenient despatch.

S. 3288, Hale. That for the purpose of increasing the Naval establishment of the United States, the sums of money hereinafter named are hereby appropriated, out of any money in the Treasury not otherwise appropriated, to be expended by the President, in the exercise of his discretion, upon plans and specifications to be furnished by the Navy Department. For the construction of heavily armored vessels or armored floating batteries or rams, to be used for coast and harbor defence, $10,000,000. For the construction of light-draught gunboats, suitable for interior water-ways and canal service, $1,200,000; said gunboats to be completed and tested within 12 months from the date of the signing of any contract for their construction. For the construction of torpedo-boats of the highest attainable speed and efficiency, $600,000; said torpedo-boats to be completed and tested within 12 months from the signing of any contract for their construction. For torpedoes and torpedo appliances, to be operated from Naval vessels, floating batteries or rams, $600,000.

Sec. 2. That for the armament of the vessels hereinbefore provided for the sum of $3,000,000 is hereby appropriated out of any money in the Treasury not otherwise appropriated.

Sec. 3. That the material used in all naval structures provided for in this bill, and the armament for the same, shall be furnished and manufactured in the U. S., and all contracts made for their construction shall be under the provisions of the Act of August 3, 1886, entitled "An act to increase the Naval Establishment."

Sec. 4. That the appropriations made by this act shall be available during five years from March 4, 1887.

The bill for the increase of the Navy, which was adopted by the House Naval Committee about two weeks ago as a substitute for all the measures on the subject referred to it, was reported to the House by Mr. Thomas on Tuesday last, and an effort will be made to have it considered as soon as the Naval Appropriation bill is out of the way. The text of the bill has already appeared in the JOURNAL. It provides for two 4,000-ton steel cruisers of the *Newark* type, to cost $1,300,000 each; four steel gunboats of the type of gunboat No. 1, to cost $550,000 each; one cruising steel torpedo-boat to have a speed of 20 knots, to cost $100,000. The sum of $2,450,000 is appropriated to commence the construction of the said vessels. The following is the report of the committee on this occasion:

Recognizing the necessity for a speedy increase in the number of vessels of war capable of being used effectively and economically, both in peace and war, it has adopted those types of vessels represented by the swift, partially protected, and heavily armed cruiser *Newark* and gunboat No. 1. The *Newark* is the latest and best type of a modern man-of-war of the 4,000 tons displacement class, and if supplied with triple expansion engines and the best modern boilers and machinery, will undoubtedly be the best and swiftest vessel of her class in the world. Two of this type to cost not exceeding $1,300,000 each are recommended.

The vessels of the 1,700 tons displacement class, known as gunboat No. 1, is the heaviest armed gunboat in the world, and will probably have a speed of nearly nineteen knots per hour, and the ability to overtake or escape from ninety-nine per cent. of all the vessels of the navies or merchant marines of the world. Four of this type to cost not exceeding $550,000 each are recommended.

As torpedo-boats can be speedily built when needed, the

committee have thought best to recommend the building of only one at this time to serve as a pattern, in case a large number should be needed hereafter.

The pneumatic-dynamite gun torpedo-boat, now being constructed by the Government, promises to be a most terrible and effective engine of modern warfare, and will probably supersede all other types of the larger torpedo-boat, in case the expectations of the inventor and the Navy Department are realized when the vessel is completed and tested.

At least a year must elapse after the close of this Congress before a bill can be properly considered and passed authorizing the construction of war vessels, therefore your committee urges upon the House with the greatest possible earnestness the necessity for providing at once for building the vessels suggested in the substitute.

The bills which this is intended to supersede are H. R. 3249, for a Lundborg cruiser; 9890, for steel-clad rams; 10393, for two training service vessels; 10546, for the purchase of Ericsson's *Destroyer*; 10760, for the construction of a 20-knot cruiser; 10810, to further increase the Naval Establishment. Mr. Thomas's substitute is H. R. 11193. It will be found on page 549 of the JOURNAL of Feb. 5.

THE OLD, OLD STORY.

IN the book published by Col. Seaton, of the English Army, appears a story of a captain in the East India Company's service which will be a sad reminder to many of experiences nearer home. He entered the East India Company's service at the age of 17; he was a fine, tall, handsome youth, with a cheerful, lively temperament, a kind heart, and an amiable disposition. His society was much sought after, and at a time when excessive drinking was considered a mark of sociability, he drank as hard as any to merit the reputation of being a good fellow. His genial and generous disposition led him to give parties in return and, once launched into the career of extravagance and pleasure, he quickly became involved in a labyrinth of debt. From bad he got to worse, lost his self-respect, drank to drown care, and rapidly became a regular toper. Being ordered into action, he sat down and cried; his animal courage was gone, drink had destroyed his nerve, and so debasing is the influence of habitual intoxication that all sense of shame even had departed also. He was invalided and an old attached servant when his pay became due received it, paid all his master's small expenses, and with the balance bought some cheap country arrack, which he used to serve out to his master in certain proportions, but the unfortunate man would drink his two days' allowance at once, get drunk, go into his tent, lie down and sleep it off. One day, having got a little extra grog, he soon became drunk as usual, and went into his tent, which was carefully closed. As he did not appear again after 43 hours had elapsed, his servant went in, and found his unhappy master not only dead and cold, but covered with thousands of ants which were literally eating him up.

CLAIMS UNDER THE GRAHAM DECISION.

THE following claims of Navy officers for mileage under the Graham decision have been certified by the accounting officer of the Treasury to Congress for payment, and an appropriation for the purpose will, in all probability, be made in the general deficiency bill now under consideration by the House Appropriation Committee. This list about winds up the claims arising under the decision referred to:

David Harlan, $489.64; William M. Mott, $358.59; executor of Enoch G. Parrott, $248.76; administrator of Jeremiah Potts, $265.37; administrator of Alonzo B. Davis, $1,068.40; administrator of William Mervine, $368.60; administrator of Samuel L. Wilson, $319.72; administrator of Thomas Petigru, $1,080.27; Robert L. Harris, $119.70; Albert K. Jones, $418.43; executrix of K. R. Breese, $363; administrator of Robert L. Tattem, $476,55; W. L. Bridgman, $441.80; John Dennett, $256.51; Amos M. Lyon, $242.95; R. F. Baker, $522.67; administrator of James W. Shirk, $220; administrator of William Nelson, $295.10; M. R. Kintzing, $1,346.21; Thomas C. Walton, $287.67; Theodore P. Greene, $823.46; R. B. Bradford, $34.13; Albert S. Barker, $284.67; J. W. Elliott, $515.72; George A. Lyon, $244.48; Anna E. Smith, daughter and only heir of Joseph Smith, deceased, $276.10; Heirs of H. S. Stellwagen, deceased, $113.97; committee for John C. Grayson, $249.83; Moberly and Rutherford, attorneys, $23.67; J. B. Murdock, $64.30; Francis Winslow, $105; John A. Lockwood, $354.37; administrator of William Jamerson, $174.88; Conway H. Arnold, $143.10; J. W. Stryker, $15.90.

SOLDIERS IN CIVIL OFFICE.

IN a letter dated Sept. 1, 1885, to J. C. Derby, and just published, Jefferson Davis says of remarks by Robert Toombs in a reported interview:

The logic of Gen. Toombs's remarks will hardly commend itself to a severe analysis. The conclusion to be drawn from his view would be that a military education unfitted a man for military command, but qualified him for civil administration, and hence it would follow that graduates of the Military Academy should only be employed as civil magistrates, and that Generals for the Army should be sought for in the literary colleges, or perhaps in the theological seminaries. We had many distinguished Generals whose previous life had been passed, as we have some eminent Bishops who were bred as soldiers, but not, therefore, in either one case or the other.

With characteristic consistency he finds the two men fitted to be President of the Confederacy among the graduates of West Point. So far very good for his theory, but then he finds Gen. U. S. Grant the greatest soldier produced by the war. He was also a graduate of our Military Academy. I might retort on Mr. Toombs's criticism of myself as a civil executive by reciting his career as a soldier, but I forbear.

LATE ARMY ORDERS.

A. G.-C.-M. will meet at Fort Columbus, N. Y. H., Feb. 21. Detail: Capts. William B. Beck, Charles Morris, 5th Art., Henry P. Birmingham, Asst. Surg.; 1st Lieuts. William B. McCallum, William R. Hamilton, Samuel E. Allen, 2d Lieut. Warren P. Newcomb, 5th Art., and 1st Lieut. David D. Johnson, 5th Art., J. A. (S. O. 36, Div. A, Feb. 18.)

Leave for one month, on surgeon's certificate, is granted 2d Lieut. Avery D. Andrews, 5th Art., Fort Columbus, N. Y. H. (S. O. 36, Div. A., Feb. 18.)

A DURANGO despatch of Feb. 18 says: "The Jicarilla Apaches have become dissatisfied and are leaving their reservation in southern New Mexico in large numbers for their old reservation in southwestern Colorado. Two companies of cavalry have been sent from Fort Lewis to Amargo to intercept them. Trouble between the Indians and settlers is anticipated."

(Correspondence of the Army and Navy Journal.)

TAMPA, FLA.

FEBRUARY 5.

I FIND the old U. S. reservation here a remarkably interesting spot. It was named Fort Brooke, for Gen. Brooke, whose acquaintance I first made at Mackinac in 1831. In 1834, visiting Fort Howard, I found Gen. Brooke in command there. An infant of his died, and it was my privilege to officiate at its burial. It was my pleasure also to christen the daughters of Lieut. Marcy, one of which became Mrs. Gen. Geo. B. McClellan.

I find now also that that three of the officers that commanded at Fort Dearborn during my minority in the First Church in Chicago in the years 1833-4-5 lost their lives in connection with the Seminole war. The wives of these officers were members of that First Presbyterian Church. The officers were Majors John Fowle, De Lafayette Wilcox, and John Green. Major Fowle on his way from West Point to Florida died through the explosion of a steamboat boiler at Cincinnati, Ohio, in 1835. Major Wilcox, an elder of that church at its origin, died of disease at Palatka, Florida, in 1842, and Major Green at Tallahassee in 1840, also from sickness; showing an oft-asserted fact, that many more persons in war die of disease than are slain in battle. The widow of Major Fowle, I think, is still living, and his only child, who accompanied her parents and myself from Fort Brady to Chicago in 1833 is Mrs. Henry F. Durant, who, with her honored husband, planned for, founded, and supported the Wellesley Female College fifteen years ago, which she still plans for and aids as at first, in its grand, almost unrivalled Christian educational work. Gratefully yours, JEREMIAH PORTER,

Post Chaplain, U. S. A., retired.

MEXICAN PENSION BILL.

THE following is the text of the Mexican Pension Bill:

Be it enacted, etc., That the Secretary of the Interior be, and he is hereby, authorized and directed to place on the pension roll the names of the surviving officers and enlisted men, including marines, militia and volunteers, of the Military and Naval Services of the United States, who being duly enlisted, actually served sixty days with the Army or Navy of the United States in Mexico, or on the coasts or frontier thereof, or en route thereto, in the war with that nation, or were actually engaged in a battle in said war, and were honorably discharged, and to such other officers and soldiers and sailors as may have been personally named in any resolution of Congress for any specific service in said war, and the surviving widow of such officers and enlisted men: *Provided*, That such widows have not remarried: *Provided*, That every such officer, enlisted man, or widow who is or may become sixty-two years of age, or who is or may become subject to any disability or dependency equivalent to some cause prescribed or recognized by the pension laws of the United States as a sufficient reason for the allowance of a pension, shall be entitled to the benefits of this act; but it shall not be held to include any person not within the rule of age or disability or dependence herein defined, or who incurred such disability while in any manner voluntarily engaged in or aiding or abetting the late rebellion against the authority of the United States.

Sec. 2. That pensions under section one of this act shall be at the rate of eight dollars per month, and payable only from and after the passage of this act, for and during the natural lives of the persons entitled thereto, or during the continuance of the disability for which the same shall be granted: *Provided*, That section one of this act shall not apply to any person who is receiving a pension at the rate of eight dollars per month or more, nor to any person receiving a pension of less than eight dollars per month, except for the difference between the pension now received (if less than eight dollars per month) and eight dollars per month.

Sec. 3. That before the name of any person shall be placed on the pension roll under this act, proof shall be made, under such rules and regulations as the Secretary of the Interior may prescribe, of the right of the applicant to a pension; and any person who shall falsely and corruptly take any oath required under this act shall be deemed guilty of perjury; and the Secretary of the Interior shall cause to be stricken from the pension roll the name of any person whenever it shall be made to appear by proof satisfactory to him that such name was put upon such roll through false and fraudulent representations, and that such person is not entitled to a pension under this act. The loss of the certificate of discharge shall not deprive any person of the benefits of this act, but other record evidence of enlistment and service and of an honorable discharge may be deemed sufficient: *Provided*, That when any person has been granted a land-warrant, under any act of Congress, for and on account of service in the said war with Mexico, such grant shall be *prima facie* evidence of his service and honorable discharge; but such evidence shall not be conclusive, and may be rebutted by evidence that such land-warrant was improperly granted.

Sec. 4. That the pension laws now in force which are not inconsistent or in conflict with this act are hereby made a part of this act, so far as they may be applicable thereto.

Sec. 5. That section 4716 of the Revised Statutes is hereby repealed so far as the same relates to this act or to pensioners under this act.

Sec. 6. That the provisions of this act shall not apply to any person while under the political disabilities imposed by the fourteenth amendment to the Constitution of the United States.

Approved January 29, 1887.

(Correspondence of the Army and Navy Journal.)

U. S. ARTILLERY SCHOOL.

FORT MONROE, VA., Feb. 15, 1887.

Two theatrical performances by the officers and their ladies came off here on Thursday and Friday last. The former was given gratuitously for the use of the enlisted men, the latter to raise a fund for a very benevolent purpose, which succeeded beyond the expectations of its worthy and humane promoters.

The following is the programme: "Everybody's Friend," a comedy in three acts. Characters: Mr. Felix Featherley, Major Babbitt; Mr. Icebrook, Lieut. Foote; Major Wellington De Boots, Lieut. Wood; Gardner, Lieut. Rodman; Trap, Lieut. Brooks; Mrs. Featherley, Miss Edith Pennington; Mrs. Wellington De Boots, Mrs. Booth; Mrs. Swansdown, Mrs. Rodman; Fanny, Mrs. Nye; Cook, Miss Lockwood. Major Babbitt, Manager.

When all concerned acted not only intelligently, but with almost professional tact and ability, individual criticism would but prove invidious, yet Lieut. Wood acted his difficult part with such conspicuous cleverness that prominence to his name will be envied by no one. Friday's performance was not only enjoyed by a large number of resident citizens, but by many of the visitors now crowding to the Hygeia Hotel, as in no other part of the country can they find such a healthy resort. Various excursionists have already come and gone, all regretting to leave the blooming spring behind.

To-day, while the rain comes down the grass comes up; the rose trees are beginning to bud, and in chorus with to-morrow morning's "reveille" may be heard the musical warbling of the busy feathered tribe. B. B.

THE ARMY

ARMY NOMINATIONS TO THE SENATE.

February 15, 1887.

To be Chief Signal Officer with the rank of Brig. General—Captain Adolphus W. Greely, 5th Cavalry, vice Hazen, deceased.

1st Cavalry—1st Lieut. Frederick K. Ward to be Captain, Feb. 11, 1887, vice Parnell, retired.

2d Lieut. J. F. Reynolds Landis to be 1st Lieut., Feb. 11, 1887, vice Ward, promoted.

4th Cavalry—1st Lieut. Alex. Rodgers to be Captain, Feb. 11, 1887, vice Callahan, retired.

2d Lieut. Alex. T. Dean to be 1st Lieut., Feb. 11, 1887, vice Rodgers, promoted.

9th Cavalry—1st Lieut. John Conline to be Captain, Feb. 11, 1887, vice Valois, retired.

G. O. 10, H. Q. A., Feb. 12, 1887.

Publishes the act of Congress, approved Feb. 3, 1887, amending the act of June 3, 1884, providing for the muster and pay of certain officers and enlisted men of the volunteer forces.

Also the act for the relief of Myron E. Dunlap, late 1st Lieut. Co. E, 14th New York Heavy Artillery.

CIRCULAR, H. Q. A., Feb. 9, 1887.

By direction of the Secretary of War, the following is published for the information and guidance of all concerned:

TREASURY DEPT., SECOND COMPTROLLER'S OFFICE,
WASHINGTON, D. C., Jan. 15, 1887.

S. B. Holabird, Quartermaster General:

SIR: Referring to your letter of the 13th instant, relative to contracts transmitted to this office for file, wherein it is stated that all contracts received at your office are carefully examined in connection with the advertisements and proposals under which they are made, and that said contracts are based upon proposals giving not less than thirty days' notice to bidders, except in cases where urgent need for the articles or services require that this time limit of thirty days be curtailed, I would say that as to contracts now on file, the above certificate will be accepted as satisfactory, and further evidence upon the subject will not be called for; but, in case of contracts hereafter filed, it is desired that a copy of the advertisement, with a certificate of the officer making the contract of the time and manner of publication and a certified abstract of the proposals received by him, should be filed with each contract, and if, for any reason, the contract is not let to the lowest bidder, such reason should be noted. If this proof accompanies the contract when filed it will expedite the settlement of public accounts, inasmuch as in case of its omission the accounts must be held up until it is produced. Very respectfully,

I. H. MAYNARD, Comptroller.

In cases where more than one contract is awarded on an abstract only one copy each of the abstract and advertisement is required, which copies should accompany the first contract transmitted under the abstract; and when transmitting the subsequent contracts pertaining to said abstract reference should be made to the contract with which such copies are filed.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 1, DEPT. OF TEXAS, Jan. 3, 1887.

Publishes report of the Inspector of Rifle Practice, showing the classification and final determination in target practice of the troops, companies, regiments and posts at the close of the practice season in the target year of 1886.

(The General Figure of Merit of the Department is 61.20 against 50.18 in 1885.)

By command of Brig. Gen. Stanley:
GEO. D. RUGGLES, Asst. Adjt.-Gen.

G. O. 2, DEPT. OF TEXAS, Jan. 29, 1887.

The Target Practice Seasons are announced as follows:

Fort Bliss—From April 1 to June 30.
Fort Brown—From April 1 to June 30.
Fort Clark—From March 1 to May 31.
Fort Concho—From March 1 to May 31.
Fort Davis—From May 1 to July 31.
Camp Del Rio—From March 1 to May 31.
Fort Hancock—From March 1 to May 31.
Fort McIntosh—From March 1 to May 31.
Camp Pena Colorado—From April 1 to June 30.
Fort Ringgold—From January 1 to March 31.
Post of San Antonio—From May 1 to July 31.
Camp Eagle Pass—From January 1 to March 31.

CIR. 3, OFFICE OF CHIEF OF ENGRS., Jan. 29, 1887.

When a report is rendered to this office by an officer in charge of works, it should be accompanied by the reports of assistants whenever, in the judgment of the officer, the latter are necessary to a clear and complete understanding of the subject considered. Officers in charge, should, however, endeavor to make their own reports as complete as possible, and should include therein all points of importance in the sub-reports, together with their own personal views and recommendations. . . . .

By command of Brig. Gen. Duane:
CHAS. W. RAYMOND, Major of Engineers.

STAFF CORPS AND DEPARTMENTS.

Quartermasters and Subsistence Departments.

Leave of absence for two days is granted Captain C. A. H. McCauley, A. Q. M., Omaha, Neb. (S. O. 13, Feb. 9, D. Platte.)

Leave of absence for 12 days is granted Capt. Andrew H. Young, Asst. Q. M. (S. O. Feb. 14, H. Q. A.)

Pay Department.

HDQRS. 1ST CAVALRY, FORT CUSTER, Feb. 5, 1887.

Orders 9.

The Colonel commanding takes the present occasion to congratulate the officers and enlisted men of the 1st Cavalry on the great improvement made and high standing acquired in target practice during the past season. G. O. 97, A. G. O., series 1886, shows the standing of the regiment for the target season of 1886 to be as follows: In the cavalry arm, 1; order in the Army, 11. The Regimental Commander trusts that the interest and zeal displayed in the past, throughout the regiment, will be kept up, and that a still higher degree of efficiency may be attained during the present year.

By order of Colonel Dudley:

R. P. PAGE WAINWRIGHT,
1st Lieut. and Adjt., 1st Cavalry.

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Coeur d'Alene, Idaho.

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex.; G, Camp at Eagle Pass, Tex.; E, Camp Rice, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill Ind. T.; I and K, Ft. Elliott, Tex.

Hdqrs., F, H, I, and K, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; E, San Diego Bks., Cal.; A and G, Ft. Apache, A. T.; C, Ft. Mojave, A. T.

2d Lieut. A. S. McNutt is appointed R. O. at Fort Thomas, A. T. (S. O. 14, Feb. 5, D. Ariz.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, F, H, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

1st Lieut. T. J. Clay, Inspector of Rifle Practice, will take charge of the office of inspector during the absence of the A. I. G. (S. O. 14, Feb. 5, D. Ariz.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., A, B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.

Leave for ten days is granted Capt. David J. Craigie, Madison Barracks, N. Y. (S. O. 32, Feb. 14, DIV. A.)

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Ks.

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

Official notification having been received from the A. G. O. of the promotion of 1st Lieut. Chas. A. Vernou, to be Captain, Co. A, vice Wharton, retired, he will be dropped from the rolls of Co. D, as of his former rank, and will be taken up, as of his present rank, on the rolls of the company to which he has been promoted (S. O. 20, Feb. 12, D. T.)

Official notification having been received from the A. G. O., of the promotion of 2d Lieut. Edward B. Ives, to be 1st Lieut. Co. D, vice Vernou, promoted, he will be dropped from the rolls of Co. B, as of his former rank, and will be taken up, as of his present rank, on the rolls of the company to which he has been promoted. He will proceed to join his company at Fort McIntosh, Texas, on completion of the special service upon which he is now engaged at Fort Clark (S. O. 20, Feb. 12 D. P.)

R. Q. M. Sergt. Reinhard, 19th Inf., committed suicide recently at Fort Clark, Tex.

The Brackett *News* says: "Sergt. Wiley Pumphrey, Co. C. of Fort Clark, was married Jan. 25. Sergt. Pumphrey served in the war when a mere boy and has served in the 28th and 19th Infantry ever since, and is universally respected by officers and men. He has served as sergeant in Co. C since 1876, and is a charter member of the Fort Clark G. A. R. Post. That his path may be smooth through life is the wish of every man in his company."

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

1st Lieut. John S. Parke, Jr., Fort Sidney, Neb., will proceed to Fort Du Chesne, Utah, and report, as witness, to Capt. Allan H. Jackson, 7th Inf., J.-A. of the G. C.-M. now in session at that place (S. O. 14, Feb. 12, D. Platte.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

1st Lieut. E. W. Casey is relieved as recruiting officer at Fort Lewis, and 1st Lieut. W. H. Kell, Adjt., is appointed in his stead (S. O. 16, Feb. 7, Dept. M.)

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

Leave for one month, with permission to apply for an extension of twenty days, is granted Capt. A. C. Markley (S. O. 16, Feb. 7, Dept. M.)

1st Lieut. A. A. Augur is detailed J.-A. of G. C.-M., vice 1st Lieut. B. W. Leavell, relieved (S. O. 17, Feb. 9, Dept. M.)

A furlough for four months is granted 1st Sergt. James Holden, Co. H (S. O. 19, Feb. 15, Div. M.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, February 12, 1887.

APPOINTMENTS.

William P. Chambliss, late Major, 4th Cavalry, to be Major of Cavalry, December 21, 1886 (act of Congress approved December 21, 1886).

2d Lieutenant William W. Gibson, 3d Artillery, to be 1st Lieutenant in the Ordnance Department, January 10, 1887, to fill a vacancy.

Additional 2d Lieutenant Thomas H. Rees, Corps of Engineers, to be 2d Lieutenant, December 31, 1886, vice Chittenden, promoted.

Harry D. Humphrey, of Idaho, to be 2d Lieutenant in the 20th Infantry, January 10, 1887, vice Greene, promoted.

PROMOTIONS.

Captain Henry M. Adams, Corps of Engineers, to be Major, January 10, 1887, vice Suter, promoted.

1st Lieutenant William M. Black, Corps of Engineers, to be Captain, December 31, 1886, vice Greene, resigned.

2d Lieutenant Hiram M. Chittenden, Corps of Engineers, to be 1st Lieutenant, December 31, 1886, vice Black, promoted.

RETIREMENTS.

Major William P. Chambliss, December 21, 1886 (act December 21, 1886).

Captain Charles M. Callahan, 4th Cavalry, February 11, 1887 (section 1251, Revised Statutes).

Captain William R. Parnell, 1st Cavalry, February 11, 1887 (section 1251, Revised Statutes).

Captain Gustavus Valois, 9th Cavalry, February 11, 1887 (section 1251, Revised Statutes).

CASUALTY.

Chaplain James C. Laverty (retired), died January 20, 1887, at Philadelphia, Pennsylvania.

Retired Officers.

William P. Chambliss, having been reappointed a major of cavalry under the provisions of an act of Congress for his relief, approved Dec. 21, 1886, is, by direction of the President, under the authority conferred by the said act, placed on the retired list of the Army, as major of cavalry, to date from Dec. 21, 1886 (S. O., Feb. 11, H. Q. A.)

Courts-martial.

The following courts have been ordered:

At St. Francis Barracks, Fla., Feb. 18. Detail: Major Passmore Middleton, Surg.; Capts. Henry G. Litchfield and George Mitchell, 1st Lieuts. Charles E. Kilbourne, Ephraim T. C. Richmond, and Edward H. Catlin, 2d Art., and 2d Lieut. Cornelis DeW. Willcox, 2d Art., J.-A. (S. O. 32, Feb. 14, Div. A.)

Army Boards.

Capts. T. C. Lebo, 10th Cav., and H. W. Lawton, 4th Cav., and 1st Lieut. G. L. Scott, 6th Cav., will constitute a Board to assemble at Los Angeles, Cal., Feb. 14, for the purpose of inspecting and purchasing cavalry horses for the service of regiments in this Dept. Capt. J. W. Pullman, A. Q. M., is designated for the transaction of all business pertaining to the Q. M. Dept., under these orders (S. O. 15, Feb. 7, D. Ariz.)

A Board of Survey, to consist of 2d Lieuts. William D. Wright, Frank Greene, and John C. Walshe, Signal Corps, will assemble, Feb. 9, to recommend what disposition shall be made of certain public property at New River Inlet, N. C. (S. O. 11, Feb. 7, Sig. Office.)

A Board of Officers of the Corps of Engineers, to consist of Lieut.-Cols. Orlando M. Poe and William E. Merrill and Major Amos Stickney, with Lieut. Lansing H. Beach as Recorder, will assemble at Cincinnati, Ohio, to report upon the project for Lock and Dam No. 6, Kentucky River, submitted by Major James C. Post, C. E. (S. O. 23, Feb. 10, C. E.)

A board of officers, to consist of Major Samuel S. Sumner, 8th Cav.; Capt. Henry W. Wessels, Jr., 3d Cav.; Capt. John Q. Adams, 1st Cav.; 1st Lieut. Wm. Baird, 6th Cav., recorder; will assemble at the Cavalry Depot, Jefferson Bks., Missouri, on Feb. 21, for the purpose of considering and reporting upon the subject of horseshoeing in the Army (S. O. Feb. 16, H. Q. A.)

A Board of Survey, to consist of Major Samuel S. Sumner, 8th Cav.; Capt. John A. Kress, Ord. Dept.; 1st Lieut. Thos. S. Mumford, 13th Inf., will assemble at the general depot of the Q. M. Dept., St. Louis, Mo., Feb. 21, or as soon thereafter as practicable, for the purpose of examining into the loss of four boxes of clothing consigned to Capt. Forrest H. Hathaway, A. Q. M., St. Louis Clothing Depot, en route from the general depot of the Q. M. Dept. Philadelphia, Pa. (S. O. Feb. 14, H. Q. A.)

Retirements of Enlisted Men.

Private William McBeth, Bat. L, 2d Art., Feb. 11, 1887.

Willet's Point.—In Orders 23, c. s., General C. B. Comstock publishes instructions for the guidance of the Fire Department organized at the post.

Artillery School.—In G. O. 4, of Feb. 14, General Tidball announces that the course in Engineering will close Feb. 15 with the usual examination, and that the course in Artillery, commencing with Ballistics, under Capt. J. M. Ingalls, 1st Artillery, will commence Feb. 16.

Springfield Carbine.—The final reports upon the new model Springfield carbine will include statements as to the approximate allowance, if any, as compared with the rifle, that these carbines should receive in target practice. Scores that may be made with them at target practice will be considered in the soldier's classification under the present rules, as to regular and additional practice, and the arm for this purpose will be considered during the target year of 1887 as a service carbine. (S. O. 10, D. Dakota, Feb. 8.)

DEPARTMENT NEWS.

Dept. of Texas.—Brig. Gen. D. S. Stanley.

A despatch says: "The report telegraphed Jan. 24, from Dallas, of a train robbery where four U. S. colored soldiers refused to aid the sheriff, who was also aboard the train, has been thoroughly investigated by the military authorities. From statements received from commanding officers at all posts in the territory where colored troops are stationed, it is proven conclusively that no colored troops were on detached service of any kind requiring their travel on trains at that period.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

Col. Grierson, 10th Cavalry, in a report dated Navajo Springs, Feb. 12, concerning the recent Indian troubles near Mannelito, says: "Kerr's troop, 6th Cavalry, has been ordered to the scene to preserve order."

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Feb. 16, 1887.

ONE of the most enjoyable, and certainly the most beautiful, of our season's dancing parties was given in Schofield Hall last Thursday evening by Prof. and Mrs. Bass. The atmosphere of the ball room was delightfully informal—the music was excellent, and not a lull in the dancing until the announcement of supper, served in the officers' dining room. The favors were very handsome, and on every side were heard expressions of admiration and pleasure. At half-past one mundane affairs were forgotten, the gayety went on, and a "we-won't-go-home-till-morning" air pervaded the room. When one lady remarked that she would like to stay till breakfast there were many supporters. The ladies' costumes were very elegant, many worn for the first time on this occasion. Want of space prevents more than brief mention of three that were especially noticeable—an exquisite ivory satin, with a finish of costly lace and court train, worn by Mrs. Goethals; a beautiful rich green robe of *faille*, by Mrs. Kimball, and a trained dress, royal in its beauty of blue satin, *en train*, and front of brocade—a poem of lovely hues; this was the most admired and was worn by Mrs. Rodgers. Some of the dancing bachelors were missed, they having gone to Governor's Island to attend Miss Schofield's german. Throughout the evening Prof. and Mrs. Bass were ever thoughtful of the comfort and pleasure of their guests.

Last Friday night we were treated to a sample of old Boreas' best. During the day it rained, towards evening it cleared off cold, and all night long the wind fairly howled. In the morning the whole post was covered with branches blown from the trees.

On Monday night the toboggan slide was again lighted up and an immense throng occupied every available place from which a view could be had. The ice and snow have disappeared from the end of the run, and several toboggans have been broken in going over bare rock.

The last of the series of officers' hops, to be given to-morrow evening, promises to be the grandest of the lot; about forty young ladies are expected, also a delegation of bachelors from the New York harbor posts and Willet's Point. On Saturday evening the cadets will have another hop, so that the week preceding Lent will be a gay one.

Lieut. Rodgers was smilingly happy to-day, for another bar will be added to his shoulder straps. Lieut. Landis also received the congratulations of his friends over his long-delayed promotion from a nearly nine years apprenticeship as second lieutenant. Of the officers now on duty here, no less than seventeen have received promotion since entering upon their present tour of duty. One has become a major, three have reached a captaincy, and the others have received their first promotion.

The 2nd and 3rd class men celebrated their Hundred Nights to June by giving a hop last Saturday evening in the Mess Hall. The large attendance might be termed a rosebud party—there being so many young and charming faces. The dresses were all beautiful, and in nearly every instance white, surrahs, tulle, embroidered lace, etc., mixed with the bright uniforms, made a pretty picture. There were many strange faces in the room, and a few who have attended previous cadet parties. Among those whose names we learned were the two Misses Cameron, Miss Schofield, Miss Roebling the two Misses Cole, Miss Griffith, Miss Spencer, Miss Nolan, Miss Keeler, Miss Woodcock, Miss Codman, Miss Beach.

Supper was served during the entire evening in the ante-room of the mess, and it was not till eleven o'clock that the drummer sounded the recall.

On Tuesday evening Dr. Kimball finished his course of interesting lectures to the enlisted men. His last lecture was given on unconsciousness from all causes and the proper remedies to be applied in the different cases.

The little son of Lieut. L. L. Bruff, at Cold Spring, has been very low with diphtheria, but we are glad to say is now recovering.

Lieut. Shipp, 10th Cav., spent a few days here last week.

On Tuesday next, Feb. 22, Gen. E. G. W. Butler, the oldest living graduate of the Military Academy, will celebrate the 87th anniversary of his birth, he having been born on Washington's Birthday in 1800.

Melville Shinn Jarvis, Clarksburg, W. Va.; Emsley E. Griffin, Fowlstown, Ga.; Austin Hart Burr (Alt.), Wilmington, N. C., and William Headley Osborne, Wilkesbarre, Penn., have been designated for examination for admission to the United States Military Academy.

(Correspondence of the Army and Navy Journal.)

FORT DU CHESNE, UTAH.

FEBRUARY 9, 1887.

THE General Court-martial for the trial of Major F. W. Benteen, 9th Cav., convened this date. It is presumed that the trial will last at least two weeks. The number of witnesses to be called, both for the prosecution and defence, is about twenty-five. The capital charges against Major Benteen are "Conduct unbecoming an officer and a gentleman" and "Conduct to the prejudice," etc. No idea of what the outcome of the trial will be can as yet be formed, but Major Benteen, together with his counsel, Lt. H. L. Bailey, 21st Inf., will no doubt make an excellent defence.

The origin of this trial was mainly due to the fact that Maj. Benteen failed to erect shelter for the troops in time, but for which not "he" is to blame, but may have to suffer. An immense amount of sympathy was awarded the troops here while suffering from cold (thermometer, 15 degs.) in tents, with scarcely fuel enough to cook their "beans," but no nails or tentage was shipped here, though repeatedly asked for.

When Gen. Hatch took command of the post the stores and material began coming in rapidly, and by this time there is quite a town here. Though no regular quarters have been built the troops are sheltered—the Infantry in stables, the Cavalry in stockade quarters.

The commissary, quartermaster, ordnance storehouse, adjutant's office and non-commissioned officers' quarters are completed, some of the officers' quarters are up, and one "L," for the cavalry barracks, at present used for court-martial room, library and hospital! is finished. The post-trader's store is nearly completed and it is believed that by next April Fort DuChesne will be worthy of its name.

There is but one question here, asked by everybody, why this post was established? No one knows. Insp.-Gen. Baird says "it is 80 miles away from nowhere." There is not even a post-office here. It requires a letter from the East about two weeks to get here.

But I suppose we have all got our cross to bear.

A GENTILE.

(Correspondence of the Army and Navy Journal.)

WASHINGTON BARRACKS, D. C.

February 16, 1887.

THIS evening the Recreation Hall will present a scene of unusual brightness and gayety, the occasion being the grand reception and ball of the officers of this post. A large number of officers from various posts are expected to be present, and the President and Cabinet are also among the invited guests. On visiting the hall I find it tastefully arranged, banners hang from the vaulted roof, decorating the walls, and producing a rich effect. From every nook and corner gleam and glisten in quaint design, guns, bayonets, swords and trappings, the finest in that line; while under the gleam of brilliant lights it really promises to make a dazzling scene. A sumptuous supper will be served in the dining halls of Battery E (Lancaster's) and L (Hess), which has been undergoing alterations and renovations, producing a most delightful appearance, and promising to be the largest and most successful one ever held at this post. The orchestra will be under the direction of Professor Shuenfeldt. Captain Lancaster is chairman of arrangements.

The Gibson Social Club gives a hop on Friday, the 18th, and like its predecessors, will no doubt be successful.

The duties and discipline of the post go on in systematic, but varied order.

AULD LANG SYNE.

FORT LEAVENWORTH, KAS.

THE Kansas City *Times* says:

Capt. Moore, 9th Cavalry, will entertain a number of his friends this evening at progressive euchre....Mrs. Woodruff will give a progressive euchre party to-morrow night at her residence on Main parade....The family of Lieut. Wagner, 6th Inf., is expected to arrive at Fort Leavenworth some time during next week from Pittsburg....Lieut. and Mrs. Alvord, 20th Int., will give a tea next Friday afternoon at their residence on Riverside....A number of intimate friends were entertained by Mrs. Dr. Woodhull, at "English tea," Monday afternoon, who enjoyed a most delightful time....A new rifle shot has made his appearance in the family of Lieut. Torrey, 6th Inf., stationed at Fort Douglas, and in consequence great happiness prevails in that household....The progressive euchre party given by Lieut. and Mrs. Barnhart, 18th Inf., on Monday night was a most enjoyable affair and the prizes awarded very handsome. The first prize was carried off by Lieut. Scott, 1st Cav., consisting of a beautiful embroidered smoking cap. Mrs. Schindel won second prize, which was a "party bag." The ladies' progressive prize was obtained by Mrs. Carr, hand-painted doilies. Lieut. Wetherell obtained the second progressive prize, consisting of a handsome paper knife. The booby prizes were won by Mrs. Margarette Wilson and Lieut. McCarthy. Supper was served at 11 o'clock, which was heartily enjoyed by the guests.

The reception tendered by General and Mrs. McCook, Feb. 9, to Brigadier-General Willcox, commanding this Department, was the most brilliant affair in a social way that has taken place during the season. Every officer and the ladies residing in the garrison were present and the large residence of General McCook on dress parade was taxed to its capacity to hold all who came to pay their respects. The parlors and rooms were tastefully decorated with the national emblems and regimental colors. Beautiful and fragrant flowers did their share of duty in making the reception rooms pleasant. The 6th Infantry band orchestra, led by Prof. Kinney, discoursed sweet music from the upper hall in the entry, the baluster and stairs of which were artistically decorated with bunting. The presentation of visitors to the distinguished guest of the evening took place in the west parlor or on the left of the entrance. General Willcox was in the full dress uniform of his rank with sabre; on his left was General McCook, who presented the guests to the General; on the latter's right was Mrs. General McCook, who in turn presented the guest to Lieut. Willcox, 6th Cavalry, son of General Willcox and Aide-de-Camp, and his bride; then came the Misses McCook and Randolph. An elegant luncheon was served in the east wing, to which justice was done by those who had the pleasure of being present. By 11 o'clock the guests had all left, delighted in the opportunity of meeting the distinguished soldier under such pleasant circumstances. The officers were all in full dress uniform and side arms and their ladies were costumed, as a matter of course, in a manner befitting such an occasion. The evening will long be remembered.

Col. and Mrs. J. P. Martin have issued cards for a progressive euchre party to take place Feb. 17.....The pink tea given by Lieut. and Mrs. Alvord Friday night is acknowledged by all who had the pleasure of being present to have been the most successful of these kind of socials given at the post this winter.. .....The progressive euchre given by Col. and Mrs. C. A. Woodruff at their residence on Main parade Thursday evening was attended by a large number of guests, despite the stormy night. Mrs. Pettit, Mrs. Rucker and Mrs. Babcock won the ladies' prize, while Lieuts. Paddock, 8th Cav., Cheever and Townsend carried off the honors for the gentlemen's side of the house. The prizes were handsome and tasteful. A splendid supper was served.....The german Friday night was well attended. Upon its conclusion Mrs. Maj. Kline gave an excellent luncheon in honor of the Misses Ward and Anderson now visiting the post.....Lieut. Wagner, 6th Inf., returned with his family from St. Louis, at which point he met them en route from Pittsburg, Pa.

FORT BLISS, TEX.

A RECENT lady visitor to Fort Bliss writes:

There are Mexican troops stationed across the river in Paso del Norte, consequently the officers exchange civilities quite frequently. At the first of a series of hops given at Fort Bliss all the Mexican officers were invited. But no one under the rank of major was allowed to attend. One poor little senorita who was present was very pensive, for a hop-room, and when I asked the cause I was told that she was engaged to the captain on her father's staff and he was not of sufficient rank to come. I was particularly impressed with the charming manners of the Mexican officers and grandees of Paso del Norte that night. There is no entertainment which can compare to that of an Army post. No hop-room can be so fascinating as one draped in the long, heavy flags which always form the chief decoration. There is no music as delightful as that of a trained military band, and no citizen's dress-suit ever made could hold its own against the blue uniform and white stripes of the officers' full dress. No woman in the Army is ever a wall-flower. No matter how old she is, whether married or single, she always has the best dancers in the room ask her for one dance at least, and if she is pretty and attractive she is as much of a belle as in the palmiest days of her girlhood. I looked around the pretty parlor of one of the most charming women I have ever met, the wife of the adjutant, at her card-party last week, and I wondered how a room could be made any more delightful in civil life. To be sure, taste goes a long way, and all may not have it in such a degree; but her dainty little cabinets, her rugs, her pictures and books, her guitar, her exquisite vases and bric-a-brac, made that room a most attractive background for the gay, home-like company assembled there, with herself for a fascinating centrepiece.

(Correspondence of the Army and Navy Journal.)

FORT DAVIS, TEX.

On the evening of Feb. 10 the ladies and officers of the garrison were present at a reception given in honor of Mrs. Brackett's guest, Mrs. Steever, of Eagle Pass. Without exception the ladies were elegantly dressed—several in white silks and satins, pale pinks and blues; others in handsome black costumes. The officers' full dress uniforms made, as usual, a glittering addition to the ladies' toilets. There were present Maj. Clapp, Lieut. and Mrs. McFarland and Lieut. Hackney, of the 16th Inf; Chaplain and Mrs. Hammond, Miss Waite of Iowa; Miss Kate Murphy, Miss Landram, of Kentucky; Miss Bronson, of Omaha; Dr. and Mrs. Appel; Dr. and Mrs. Buffington; Miss Godfroy. The 3d Cavalry was represented by Lieut. and Mrs. Ducat, Lieut. and Mrs. Morgan, Adjt. Dickman, Lieuts. Dugan, Heard and Hay.

Mrs. Steever and Master Zell will make an extended visit at Col. Brackett's, to the gratification of their many friends.

The Presidio Co. *News* says:

The instrumental concerts on each Friday evening are well attended....Dr. D. M. Appel was called to Marfa three times last week to render professional services....Dr. Buffington is to come to Fort Davis and Dr. Paul Clendenin goes to Pena Colorado on Wednesday. He has many friends in Fort Davis whose latch strings are out and who will hope to see him often....The officers' hop, which took place on Tuesday evening was quite a "swell" affair....The Good Templar Lodge had an addition of ten to its number on Monday evening, and has now a membership of sixty.....Mrs. Capt. E. Z. Steever, of Eagle Pass, is the guest of Mr. Col. A. G. Brackett, and will spend some time at Fort Davis .....Dr. L. A. Buffington and family reached here last Saturday.....A reception in honor of Mrs. Capt. E. Z. Steever was given on Thursday by Mrs. Col. A. G. Brackett .....The members of the Good Templar Lodge greatly appreciate the kindly interest manifested in their success by Col. A. G. Brackett.. .....A note from Col. D. R. Clendenin says the daily thermometer at Zellwood, Fla., is 80 to 85 degrees. Strawberries are ripe, new potatoes plenty, as well as many other things. The Col. and Mrs. Clendenin "will be in Texas early in March."

FORT CLARK, TEXAS.

THE Brackett *News* says:

The Mikado was acted for the first time on Tuesday evening, Feb. 8, by the officers and ladies of the garrison to a large number of invited guests. This opera has been in preparation about three weeks under the management of Lt. Ives and the success, for it was a success, is due almost entirely to his training, ably seconded by Mrs. Guard. The song (Yum-Yum) Mrs. Guard, "The sun whose rays are all ablaze," was most exquitely sung in this favorite lady's most charming voice. Mr. Guard is an accomplished actor and would be accepted as such before any audience. Miss Coleman, as Katisha, possesses a voice of sweetness, compass and power under perfect control and cultured. Lieut. French, who had a very difficult part, made a most excellent minstrel. The leading soprano of the chorus was Mrs. Williams, assisted by Miss Kauffman; and the leading alto Mrs. Taylor. Miss Jordan is the possessor of a remarkably fine voice and sang the solos sweetly. Among the gentlemen Dr. Black and Lieut. Hammond sustained their characters in a manner that could not have been excelled by professionals. Lieut. Guard made some good local hits. It was the finest performance we ever witnessed at Fort Clark.

FORT SIDNEY, NEB.

THE *Excelsior* says:

The infant son of Lieut. and Mrs. J. N. Parke, died Jan. 29 .....Mrs. Lieut. Cornman has gone to Lowell, Mass., called there by the illness of relatives. She was tendered a complimentary serenade before her departure.....The daily recitations of officers in tactics continues..... Miss McClintock, who has been the guest of Maj. and Mrs. Downey for several weeks past, departed for Omaha on Wednesday. On Tuesday afternoon a very pleasant farewell party was given in her honor at the Post Theatre, which was attended by the officers and ladies of the garrison. She was also tendered a complimentary serenade by the 21st Infantry band.

FORT MASON, CAL.

"OLD SAM," a mule of long and faithful service, died at Fort Mason, Feb. 3, and was buried with honors. He came here in 1863, but no one knows how long before that he had served his country. According to the Army register for mules he was ten years old when ordered to Fort Mason. He served under various Department Commanders during the administrations of Generals McDowell, Schofield, Pope and Howard. The old mule, whose faithfulness made "drudgery divine," has done little work in the past three years, enjoying the happy lot of a public pensioner. A year ago he was condemned as useless by an unsympathetic Army Inspector and was ordered sold. The Army Regulations require that a condemned animal which is not sold in ten days after condemnation must, on the eleventh day, be shot. But "Old Sam" was not shot, for the kind heart of Maj. Darling, Post Commander, saved him. The Major bought him and had him cared for until helpless, through the infirmities of age, and unable to eat, his life career of 34 years was ended.

FORT NIOBRARA, NEB.

THE *Excelsior* says:

Lieuts. Bingham and Smiley are visiting at Fort Robinson. ....Capt. Hughes and bride have arrived, also Lieut. Stevens. A social dance was given by the post officers last Wednesday evening....Gen. Kautz went to Fort Du Chesne last week on Court-martial duty....Mrs. Mary Burt, of Fort Robinson, has been visiting at the post for a few days....From a letter recently received from the Rev. Dr. Lewis, who is East soliciting funds for the completion of the Episcopal church here, it is announced that sufficient money has been secured to complete the structure.

COURT-MARTIAL CASES.

Pvt. Frank Hook, Troop K, 2d Cav., seems from G. C.-M. O. 4, D. Cal., 1887, to have indulged in an irregular epistolary correspondence with his regimental commander, reflecting upon his troop commander, which resulted in a sentence to forfeiture of $30 and confinement at hard labor for three months. Maj.-Gen. Howard, however, says: "The reviewing officer is, however, not satisfied concerning the intent of the accused in this case. The evidence adduced shows that his statements were exaggerated and in some particulars, calculated to give to the regimental commander an unfavorable opinion of his troop commander, and further, his second communication, as it contained new matter, should have been sent through the proper channels, yet the specifications in their severity do not seem to be fully sustained; therefore, believing that the accused has already undergone sufficient punishment for the offences actually committed, the sentence is remitted, and Pvt. Hook will be restored to duty."

In a recent case at Fort Davis, Tex., the reviewing authority, Gen. D. S. Stanley, says: The sentence does not comply with the requirements of the 17th Article of War. This article is mandatory on a Court-martial, in so far as to require it to sentence a soldier who is found guilty of violating it, to "suffer such stoppages, not exceeding one-half of his current pay, as a Court-martial may deem sufficient for repairing the loss or damage." The part of the sentence relating to a stoppage, is not given as a punishment, but as a reimbursement to the United States. R. S. Sec. 4818, states that, "all stoppages or fines adjudged against soldiers by sentence of Courts-martial, over and above any amount that may be due for the reimbursement of Government or of individuals," are set apart for the support of the Soldier's Home.

This statute is in accord with the provisions of the 17th Article of War, and under it, all fines inflicted by sentence of a Court-martial, and all stoppages in excess of the amount necessary for reimbursement, inure to the benefit of the Home.

Stoppages inflicted by sentence of a Court-martial, under the 17th Article of War, inure to the benefit of some department of the Government.

As far as the prisoner himself is concerned, it is immaterial whether his pay is taken from him as a fine or a stoppage; but a Court-martial is not justified in disobeying the provisions of the 17th Article of War, when it has found a prisoner guilty of a violation of it, by sentencing him to forfeit all his pay by fine, and thus prevent a reimbursement to the Government.

After the Court-martial had provided for the proper stoppages, etc., for losing or selling the Government property, it should have proceeded to inflict such punishment as it deemed proper, for the other offences of which it has found this man guilty.

Corporal punishment may still be legally inflicted as a *punishment* for a violation of the 17th Article of War, but in view of the form of sentence recommended by the Lieutenant-General, in Circular 2, Adjutant-General's Office, 1884, it ought not to be inflicted.

The same sentence may involve a stoppage, a fine, an imprisonment, and a dishonorable discharge. The tenor of the argument of the court, when its attention was called to the error that had been made, was, that if the sentence inflicted a stoppage of one-half the monthly pay, that the other half would go to the prisoner, is fallacious, unless the court failed to inflict a fine. Nor does the fact pointed out by the court, that another Court-martial had also made the same mistake, do away with the requirements of law.

When the attention of a Court-martial is called to an omission of a matter required by law and regulations and orders made in pursuance of law, and which is not left to the judgment and conscience of the members, it should proceed at once to supply the omission and not try to excuse it by foolish arguments. (G. C.-M. O. 7, D. Texas, 1887.)

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at St. Thomas Jan. 18.

The prospective cruise is given as follows: Bermuda, Martinique, St. Lucia, Barbadoes, Trinidad, Curacoa, Cartagena, Aspinwall, Port Cortez Cienfuegos, Kingston, Santiago, Nipa, Neuvitas, Matanzas, Havana, Key West, returning to Fortress Monroe about May 1. All mail must be addressed to the *Galena*, care of Navy Pay Office, 29 State St., N. Y.

RICHMOND, 3d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. At New York Navy-yard.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Sailed from Key West, Fla., Feb. 7, for a cruise to the West Indies, arrived at Havana, Cuba, Feb. 8.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. At Aden, Arabia, Jan. 26.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Reported by cable to have arrived at Montevideo, Uruguay, Feb. 5, all well, and will probably sail, March 1, for St. Helena. Expects to reach Rio about June 1, 1887.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Montevideo Nov. 13.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. At Alexandria, Egypt, Jan. 7, 1887. To sail early in April for Leghorn, touching at Messina en route.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Reported by cable to have arrived at St. Vincent, C. V., Feb. 4. Expects to be at Gibraltar during March, and at Leghorn by April 15, from whence she will cruise to Africa and Coast of Syria.

Pacific Station—Capt. J. H. Gillis
(in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham, went into commission at Mare Island, Cal., Jan. 15, 1887.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 14.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Montevideo Nov. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Reported by cable to have arrived at Valparaiso, Chili, Dec. 16.

MONONGAHELA, 2d rate, 9 guns, Comdr. S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Is en route for Panama from Valparaiso, and will probably arrive about the 25th of the present month.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. At Sitka, where she will winter. Address care of Navy Pay Agent, San Francisco, Cal.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. Commissioned at Navy-yard, New York, Jan. 15, 1887. It has not been decided when she will be ordered to sail for the Pacific Coast.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Valparaiso, Chili, Dec. 16.

Asiatic Station—Rear-Adml. Ralph Chandler.

Vessel with (†), address, Mail, General Post Office Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Bombay, Dec. 6.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Arrived at Yokohama, Japan, Feb. 8.

MARION, † 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Jan. 7.

MONOCACY, † 3d rate, 6 guns, Comdr. Henry Glass. Was at Canton, China, Jan. 7, and in about a month intended to visit Hong Kong, to give liberty to crew.

OMAHA, † 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. At Yokohama, Japan, Jan. 10.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Arrived at Sandy Hook, N. J., on the night of Feb. 15, thirty-one days from Gibraltar, via St. Thomas. She left Nagasaki, Japan, Oct. 9, 1886. Unusually strong trade winds were experienced on her voyage. The officers and crew are all well, excepting an apprentice boy, left at St. Thomas, sick with bronchitis. The officers were much amused at the *Ossipee* being taken for the new cruiser *Chicago* by the signal men at Sandy Hook. Her officers are: Commander John F. McGlensey, commanding; Lieut. Comdr. W. B. Newman, Executive; Lieut. J. A. Rodgers, Navigator; Lieuts. W. E. Sewell and W. B. Caperton; Ens. V. S. Nelson, B. W. Hodges and P. V. Lansdale; Chief Engr. L. W. Robinson; P. A. Engrs. W. S. Moore and W. L. Cathcart; Asst. Engr. C. G. Talcott; Surg. A. F. Price; P. A. Surg. A. C. H. Russell; Paymr. L. A. Frailey; 2d Lieut. C. H. Laucheimer, U. S. M. C.; Pay Clerk C. A. Gibson; Carpenter W. H. Barrett. The ship is now at Tompkinsville, S. I., where it is expected she will be inspected this week, and will then go to the Brooklyn Navy-yard, where it is likely she will receive a slight overhauling, and be retained in commission.

PALOS, † 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. At Tientsin, China, Jan. 7.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown, Saratoga,* and *Portsmouth,* should be sent as follows: Between Feb. 10 and March 1, address care U. S. Consul, Basse-Terre, St. Kitts. After March 1, per U. S., and including Brazil Co.'s steamer, leaving New York about March 24. Care U. S. Consul, at St. Thomas, W. I. After March 24, address Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived at Bridgetown, Barbadoes, Jan. 18.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Arrived at Bridgetown, Barbadoes, Jan. 18.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Arrived at Bridgetown, Barbadoes, Jan. 18.

On Special Service.

DESPATCH, 4th rate, Lieut. W. S. Cowles. At New York Navy-yard, having her machinery overhauled.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York. Will remain for several weeks, undergoing slight repairs, and when ready she will proceed on a cruise to the Spanish main, surveying the Lake and Port of Maracaibo, Venezuela, with their approaches.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. At San Diego, Cal., Jan. 3.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard. Expects to go on a trial trip shortly, after receiving all her armament.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. The construction work will be completed about March 30. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. Will be ready in a few months, and in all probability be assigned to the North Atlantic Squadron.

Trenton—Undergoing repairs at Norfolk, Va. Expects to be ready for commission about March 1. It is not known at present where she will be ordered.

VARIOUS NAVAL ITEMS.

SECRETARY WHITNEY has appointed William J. Cochran, Sr., of Baltimore, a master molder of ordnance, and has assigned him to duty at the Washington Navy-yard.

THE crew of the U. S. S. *Atlanta*, now at the Navy-yard, New York, gave a ball in Webster Hall, East Eleventh Street, near Third Avenue, N. Y. City, Friday, Feb. 11. The hall was profusely decorated, and was filled with the gallant man-of-wars men and their relations and friends. The entertainment was a great success. Many prominent officers were present.

A HEARING will be given by the House Committee on Naval Affairs in a few days on the subject of the Naval War College. No appropriation for this institution was included in the Naval Appropriation bill as reported to the House, owing to a belief entertained by the members of the committee that the college, so far from fulfilling its purpose as a school of advanced instruction for officers, is nothing more than a social attachment of Newport. This hearing is intended to give the friends of the college an opportunity to demonstrate its usefulness.

MR. BOUTELLE'S resolution calling upon the Secretary of the Navy for a list of employees in the several Navy yards, rates of compensation, number discharged, etc., during the year ending Jan. 1, 1887, was reported back from the House Naval Committee on Monday with an amendment requiring copies of orders issued from the Navy Department for the transfer of plants and materials of Navy-yards from one bureau to another, and information as to whether it is designed to permanently discontinue the operations of any of the bureaus of the Navy-yards. The resolution being put to a vote, it was defeated by a vote of 124 to 114.

SECRETARY WHITNEY will issue a circular letter in a few days, to take effect March 1, notifying the clerks of the Navy Department that they are to be at their desks from 9 to 4 each day, with the exception of a half hour for lunch, and that all infringements of the rules shall be reported. Extra work will be required when the Service demands it. The rule will apply to principal clerks as well as others.

THE Chief of the Navy Ordnance Bureau is preparing instructions for the guidance of the Torpedo Board, which has done nothing as yet except to organize. As soon as the instructions are out it will begin the tests of inventions. The object of the instructions will be to prevent waste of time in listening to cranks and semi-cranks. They will be submitted to Secretary Whitney, and if they meet with his approval will give the board considerable latitude in the matter of selecting torpedoes for the prescribed test.

THE report of the Meade Inventory Board is now in the hands of the Secretary of the Navy. The sale of nearly $4,000,000 worth of obsolete material, now in the Navy-yards, is recommended. The board did not make an itemized appraisal of the material, and therefore boards will be appointed at each of the yards to make the legal appraisement, after which the old material be sold at auction. Some of the most valuable articles will be advertised and awarded to the person submitting the highest written bid.

THE Inspection Board will inspect the *Ossipee* at New York on Monday next.

COMMANDER SCHLEY is not discouraged by the defeat in Congress this week of his bill for the construction of two composite screw vessels. He will repeat the recommendation in his next annual report, and in the meantime he will endeavor to secure for the training service, a vessel now in the Navy having high power engines.

THE circular prescribing the tests for the steel of the hulls of the new cruisers has been finished by Comdr. Evans, but will not be made public until the contractors have accepted the conditions. A copy has been sent to each of the contractors with a request that it be returned without delay with any modifications they may deem proper to recommend.

THE annual Naval Register was received from the Public Printer this week, but will not be issued until it has been carefully reviewed by the Chief of the Office of Detail. Several notable changes appear on the first page. Heretofore the Judge-Advocate General's name appeared as "Col. Wm. B. Remey, Judge-Advocate General," and was printed immediately after the names of the Secretary and Chief Clerk; now it is placed at the bottom of the list and his rank given as Captain. Chief Constructor Wilson is designated simply as Naval Constructor and Paymaster General Fulton as Pay Director.

LIEUTENANT S. SEABURY, U. S. N., has designed a new type of sloop yacht, which is a compromise between the "skimming-dish" and "cutter." The vessel submitted has been given a load line as fine aft as it is forward, while the smaller angles of the cross sections with the centre line insure a smaller change in the flotation plane by inclination. Naturally, a loss of initial stability results, but then the greater draught enables ballast to be carried where it will do the most good. The proposed vessel has her greatest draught at the middle of her length, which is also her greatest cross-section. The N. Y. *Herald*, which publishes plans of Lieut. Seabury's yacht, says: "As an interesting experiment her plans are worthy of close study, and her performance when built will be watched with eager curiosity by nautical men. Her designer believes in her, and if she accomplishes half what is claimed for her she is perhaps destined to make a great revolution in the present methods of yacht construction in both the United States and Great Britain."

NAVY GAZETTE.

Ordered.

FEB. 15.—Ensign John A. Dougherty, to Torpedo Station, Newport, March 5.

Surgeon T. Woolverton, to Navy-yard, Washington, D. C., March 1.

Detached.

FEB. 17.—Surgeon A. M. Moore, from duty at Marine Corps Headquarters, March 1, and granted leave for one year, with permission to leave the United States.

Surgeon M. L. Ruth, from Navy-yard, Washington, D. C., and ordered to duty at Marine Corps Headquarters.

Dismissed.

Naval Cadets James W. Clinton and George B. Fife, for hazing.

FEB. 17.—Chief Engineer John A. Scott, to special duty in the Bureau of Steam Engineering, connected with his report; and upon its completion he will be detached from duty at Miller Forge Company's works, at Pittsburg, and placed on waiting orders.

Recommended for Retirement.

Lieutenant Webster Doty has been found by the Naval Retiring Board physically disqualified for active service and will be recommended for retirement by the President.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending February 16, 1887:

John C. Gallagher, beneficiary, Feb. 7, 1887, at Naval Hospital, Philadelphia, Pa.

James A. Deaver, Assistant Engineer, retired, died Feb. 10, 1887, at Washington, D. C.

William Donagan, beneficiary, died Feb. 11, 1887, at Naval Hospital, Philadelphia, Pa.

Richard H. Gibbs, beneficiary, died Feb. 15, 1887, at Naval Hospital, Philadelphia, Pa.

FROM THE EUROPEAN STATION.

REAR ADMIRAL FRANKLIN, commanding the European Squadron, reports to the Navy Department, under date of Alexandria, Egypt, Jan. 17, that he proposes to leave the East in the flagship *Pensacola* early in April for Leghorn, expecting to reach there by April 15, for supplies. He will touch at Messina and place the ship in dock for the purpose of examining and cleaning her bottom. He expects the *Quinnebaug* to reach Gibraltar during March, and Leghorn by April 15. She ought, he thinks, to be serviceable as a cruiser at least one year from the date of her repairs in November last. After receiving her supplies the *Quinnebaug* will be sent to Constantinople and placed in communication with the Minister there. After a reasonable stay she will be sent on a cruise on the coast of Syria. The *Quinnebaug* arrived at Gaboon Jan. 3. The *Pensacola* was then being thoroughly caulked inside and out upon the recommendation of a Board of Survey. The health of the officers and crew was generally good.

FROM THE SOUTH ATLANTIC STATION.

IN a letter dated Maldonado, Uraguay, Dec. 20, 1886, Rear Admiral Braine says he has moved the *Lancaster* and *Tallapoosa* to that port. The *Tallapoosa* may go to Santa Catharina, and in that event the *Lancaster* will cruise south as far as Possession Bay and visit Ponta Arena and afterwards will call at Falkland Islands and return to Maldonado about April. Both vessels will then probably return to Montevideo. *Juniata* was also at Maldonado.

NAVY DEPT., WASHINGTON, Feb. 14, 1887.

G. O. No. 357.

A pothecaries at shore stations will be appointed by the Chief of the Bureau of Medicine and Surgery, with the approval of the Secretary of the Navy.

WM. C. WHITNEY, Secretary of the Navy.

NAVY DEPT., WASHINGTON, Feb. 14, 1887.

G. C. M. O. No. 2.

I. Before a general court-martial, which convened at the Navy-yard, Norfolk, Va., Nov. 23, 1886, and of which Capt. Frederick V. McNair, U. S. N., was president, was arraigned and tried Capt. John H. Higbee, U. S. Marine Corps. Charge —Drunkenness on duty. Specification—In this, that the said John H. Higbee, a captain in the U. S. Marine Corps, attached to and serving as such at the Marine Barracks, Navy-yard, Norfolk, Va., was, while on duty as Officer of the Day and on battalion drill at said Navy-yard, on or about Nov. 4, 1886, so much under the influence of intoxicating liquor as to be unable properly to perform his duty. To which charge and specification the accused, Capt. John H. Higbee, U. S. Marine Corps, pleaded "not guilty." Finding—The court having maturely considered the evidence adduced, found as follows: The specification of the charge proved. And that the accused, Capt. John H. Higbee, U. S. Marine Corps, is, of the charge, guilty. Sentence—The court thereupon sentenced the said Capt. John H. Higbee, U. S. Marine Corps, "to be suspended from rank and duty, on half pay, for three years, and to retain his present number on the list during that period."

II. The proceedings, finding and sentence of the general court-martial in the foregoing case of Capt. John H. Higbee, U. S. Marine Corps, are approved; but in consideration of the recommendation to clemency by a majority of the members of the court, the term of suspension from rank and duty, on half pay, and the period during which Capt. Higbee is to retain his present number in his grade, is reduced to 18 months. The sentence, as mitigated, in the case of Capt. John H. Higbee, U. S. Marine Corps, will take effect from this date. WM. C. WHITNEY, Secretary of the Navy.

NAVAL ACADEMY.

ANNAPOLIS, MD., Feb. 16, 1887.

SUDDEN changes in the weather, involving hasty and repeated shiftings of cadet uniform, have been the rule at the Academy this week. Except for the departure of the "bilgers" nothing has occurred to break the regular routine and mental equilibrium of the cadet corps. All the week mysterious boxes and numerous trunks have issued from the cadet quarters, notifying the well informed that those who had failed at the recent examinations, in studies or in conduct record, were about to sever their connections with the Academy.

As a rule those badly deficient are anxious to get away from study and drill and resign as soon as they can obtain permission from their parents or guardians. Of this class a large number have already left. A surprise to the cadet corps came on Saturday when the order dismissing Cadets Clinton and Fife for "hazing" was published before the battalion. They entered in May and September, 1885, as members of the present third class; Fife was found deficient in his studies at the semi-annual examinations in '86, Clinton at the same time being unsatisfactory in studies and conduct. Both were allowed to resign and, obtaining reappointments, re-entered in May, 1886. It is customary for the members of the fourth class entering in May to "haze" and "run" their junior classmates who enter in September. Being caught at this offence they were court-martialled and dismissed by the superintendent. There being some doubt about the legality of their trial, since it is a question if cadets can haze a classmate, they were put in confinement until their affair was settled. A few months ago an order came restoring them to duty and it was believed that they would be allowed to proceed with their class.

The cadet's hop given on Saturday evening was among the most enjoyable of the season. A large number of visitors were present, mostly society people of Washington and Baltimore. The superintendent granted the hop committee an extension of half an hour, much to the delight of all present. The senior officers present were Capt. Sampson, Comdrs. Huntington, Harrington, Schouler, Terry. Nearly all the junior officers and the usual number of cadets were in attendance. Among the visitors were Miss Kingsford, a cousin of Mrs. Cleveland, visiting the Misses Sampson; Miss Kernochen, of Massachusetts, visiting with Mrs. Leutze; Miss Snowden, of New York; Miss Price of Baltimore; the Misses Claytor, of West River, Md.; Miss Taylor, of Washington; Miss Brooks, of Plainfield, N. J.; Miss Boush, of Washington; Miss Brooks of Washington, and Miss Boone of Baltimore. This is the last cadet hop of the season, excepting the hop on the eve of Washington's Birthday.

Mrs. Lieut. Miller, who has been confined to her bed for several weeks with a badly sprained knee, is now able to sit up, and is improving rapidly.

Cadet Miller, of the second class, has just recovered from an attack of the chicken pox. Cadet Hurlbut, of the first class, and Cadet Mendell, of the third class, are in the hospital with the measles.

The pleasant weather on Wednesday last enabled the cadets not having steam drill to take advantage of the superintendent's offer, regarding out door exercise. A large number were on the parade ground, amusing themselves with base ball and foot ball games.

The departure on Tuesday of Ensign Almy, accompanied by his wife and her mother, Mrs. Cogswell, for Washington, where he was recently ordered, was a source of regret to the many friends they had made during their residence in Annapolis.

Preparations are being made for the second of the series of theatricals to be given in the gymnasium.

An entertainment will be given in the Opera House, in Annapolis, on the 22d, for the benefit of St. Anne's Church; a large number of naval officers are comprised in the cast. A great deal of feeling is occasioned among the cadets of the first and second classes by the letters recently published in several papers, purporting to be written by cadets, and bearing upon the bill before Congress to change the system of selection for the Navy. It is thought that a large majority of cadets wish the bill to pass, the principal objection being the removal of the year's sea pay from those who are discharged. Many wish to take the two years' cruise, as is now allowable, but were the present scheme—by which a cadet, who is dropped after graduation, receives $1,000—retained, it is safe to say that a large number, now opposing the bill would be anxious to see it passed.

REVENUE MARINE.

The revenue steamer *Dallas*, Capt. Barr, arrived at Portland on Sunday, Feb. 13th, from a cruise to the Eastward, where she had been doing vigilant and efficient duty on this most dangerous part of the coast, and inspecting the various Life Saving Stations, drilling the crews, etc. The *Dallas* has taken in a fresh supply of fuel, and also a large quantity of supplies to be delivered to the various Life Saving Stations to the Eastward of Portland, and will sail immediately on that and her regular duty.

The rev. steamer *Rush*, while steering down the Santa Barbara channel recently, broke the crank pin of the low pressure engine, which, being the after engine, of course disabled the machine entirely. Captain Hooper, of Arctic fame, who is nothing if not a sailor, promptly put sail on her and proceeded to San Francisco, making a very creditable passage. The *Rush* will be repaired at an early day.

(Correspondence of the Army and Navy Journal.)

ON BOARD THE WABASH.

BOSTON, Feb. 17, 1887.

THROUGH the efforts of Chaplain Royce, U. S. N., attached to the yard, the well-known choir of the Church of the Advent, under the leadership of Mr. S. B. Whitney, gave a very enjoyable concert on board the receiving ship *Wabash* Tuesday evening, Feb. 14. The concert was about equally divided between secular and sacred music, and was very greatly enjoyed by the entire ship's company of nearly four hundred men, as well as by the officers and their families. The choir consists of about thirty men and boys. They were given a collation in the wardroom before the concert and some ice cream and cake after it was over. The boys enjoyed themselves immensely, and had a concert all of their own forward, in which several of the men exhibited their powers of vocalization. The "goat" also came in for a share of the boys' attention, as well as some old "shellbacks," who were besought to tell sea yarns. With three hearty cheers and a tiger, the boys at a late hour returned to the city. Thanks are due to Capt. Miller and his officers for courtesies received.

On Sunday evening, Feb. 13, the Rev. Edward Osborne, S. S. J. E., a clergyman well known in the Episcopal Church for his self-denying labors among the poor in Boston, gave an illustrated lecture on board the *Wabash*, consisting of fifty views of scenes in the life of our Lord. Nothing could be devised to better impress those scenes and their import upon the hearts of man-of-warsmen, and the close attention given to the words of the speaker and smothered exclamations of admiration or pity as scene after scene was unfolded before them showed the deep impression made. This was the third visit of Father Osborne to the ship. On each occasion he has made a deep impression.

BEACON STREET.

THE report compiled in the office of the Chief of Ordnance, showing the result of the trials of the three magazine guns furnished some of the troops about two years since, will form a part of General Benét annual report, which is now being put in type at the Government Printing Office. Separate copies, in pamphlet form, of the report will probably be stricken off for the use of parties interested, who have no use for the full volume of the Chief's report.

BIDS will be opened at the office of the Army Chief of Ordnance on Feb. 19 for supplying twenty-five sets of steel forgings and twelve sets of additional gas check forgings, of American manufacture, for 3.2-in. guns. The jacket forging for the all American 10-inch steel gun for the Army has been reported by the Midvale Steel Works as about completed. It may be some time, however, before it is shrunken on, as there is some doubt about there being money enough available to complete the manufacture of the gun.

A WASHINGTON despatch, referring to the detail of Lieutenant H. R. Lemly, 3d U. S. Artillery, as Military Attaché at Bogota, says: "It is believed a naval officer will also be designated for similar service. The progress of the Panama Canal is enhancing the importance of the Legation in Colombia as a point from which American interests on the Isthmus may be watched. It is not unlikely, also, that the alleged intrigue of Count de Lesseps and his canal people, operating through the revolutionary Venezuelan General, Guzman Blanco, to overthrow the Colombian authority and re-establish the Republic of Simon Bolivar, covering the present territory of the United States of Colombia, Venezuela, and Ecuador, has had something to do with the decision of the Administration to station military and naval observers at the Colombian capital."

SPEAKING of the discussion on steel before the Naval Institute the *Engineering News* says: "Those who endorsed Mr. Dorsey were engineers of practical experience in working steel, and include among them Theodore N. Ely, Superintendent of Motive Power, Pennsylvania R. R.; Thomas C. Clarke, of the Union Bridge Co., which is now building the Poughkeepsie Bridge, and the Hawkesbury Bridge in New South Wales; Thomas F. Rowland, Vice Prest. Am. Soc. C. E., and the proprietor of the Continental Works, Greenpoint, who has been largely engaged in the working of iron and steel by improved processes, and Wm. Metcalf, of Miller, Metcalf and Parkin, steel makers of Pittsburg, and an acknowledged authority in the qualities of steel and a successful maker of heavy guns in the late war."

GENERAL EGBERT L. VIELE, of the House Military Committee, is quoted as saying: "The harbor of Portsmouth, England, has six steel clad turrets, costing, with guns, over $6,000,000. For less than $2,000,000 six depressed batteries could be constructed, equally effective, that would secure an almost impregnable defence for the harbor of New York. Each of these two gun depressed batteries would cost but $250,000 completely equipped, and they could be constructed in less than two years. The plans have been perfected, and there need be no delay in commencing the work."

Established 1811.
CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION; otherwise to be returned at our expense. Correspondence solicited.

Cable address: ARMYNAVY. 240 Broadway, New York.

THE MODERN SYSTEM OF COAST DEFENCE.

THERE is reason in the claim of the House Committee that the expenditures for harbor defence should be entrusted to a mixed board. The defence of a seaport involves questions of engineering and ordnance, of submarine mining and torpedo attack and of mixed military and Naval operations, which forbid that it should be controlled by a specialist in any one of these lines. The ideal administration would be that of a single man, thoroughly experienced in the art of war, and with sufficient judgment and open-mindedness to be able to avail himself of the knowledge of all specialists in developing a system which shall co-ordinate their various efforts. In default of this, such a board as is proposed by the House Committee would seem to be the next best thing. In England they have a Director of Works for Fortification, a position which has been held until lately by Sir ANDREW CLARKE, whose advanced views on the subject of coast defence are presented in a lecture delivered before the Royal United Service Institute on Dec. 8, by one of his assistants, Colonel SCHAW, R. E., and published in the last number of the "Journal" of the Institute. As stated by himself in the debate on the lecture, the policy which has guided Sir ANDREW for four years "is to think first of all of the power of offence given in the gun, and then afterwards to make the best and simplest arrangements possible to protect the gun and the men who fight the gun." In view of the impossibility of obtaining finality with reference to the question of armor he urged "that not one single farthing should be spent on ironclad forts until we have got the guns necessary to arm the existing defences of the Empire." The balance of opinion at the present time, we are told by Colonel SCHAW, is in favor of retiring the guns from the coast-line and placing them widely—about 200 feet—apart, and concealing their positions as much as possible by assimilating them to their surroundings, selecting, if possible, positions which have backgrounds against which the guns and works will not show up from the sea. On this principle most of England's new defences have been designed under the direction of Sir ANDREW, who has consistently advocated the principle of dispersion and concealment of guns, as against concentration and protection by iron or masonry.

"The late advances in artillery," says Colonel SCHAW, "have now rendered masonry altogether inadmissible, and we are driven to cover our guns either by iron or by earth, using concrete in some cases to a limited extent. Earth is the favorite whenever it can be used on account of its cheapness." Colonel SCHAW lays stress upon the importance of high angle fire and the heavy rifled howitzer as an important weapon for coast defence. If the penetrating power of howitzer shells fired at high angles and with comparatively low velocity is small, so is the defensive resistance of the ships' decks against which this fire is directed. It is expected that 9 in. or 10-in. shells will pierce the three or four inches of steel, which is the practical limit of deck defence, and produce a most destructive effect by bursting in the ship among the men and guns. Experiments to determine this question are now being made. The submarine mine is another effective weapon for the defence as "no modern fleet would risk the terrible danger of running through a channel defended by submarine mines until those mines had been in some way rendered harmless. The experiences at Milford Haven are analyzed to show the elements of unreality which so favored the attack as to make them altogether misleading. The general deduction drawn from these experiments is that the naval organization for attack is excellent, while there is no corresponding military organization for defence." A general who can handle infantry, cavalry and artillery with ease and skill must inevitably be quite at sea when suddenly placed in command of a semi-naval attack.

The results of the system of position finding, and the concentration of fire by electric orders from observing stations, are described by Colonel SCHAW. "This system," he says, "is no longer a project, but an accomplished fact, which I have witnessed in successful operation, and which I hope may soon be applied to every important battery we possess. The result of such firing as compared with the old independent firing, at ranges estimated by guessing, and at swiftly moving objects, is as different as light from darkness, and the percentage of hits will be probably increased tenfold. The reduced number of guns now adopted for coast defence purposes is thus fully justified by the increased efficiency resulting from this system of position firing." As to the use of iron, Sir ANDREW CLARKE and his late assistant did not quite agree, and the former criticized what he regarded as a departure from the principles laid down by Colonel SCHAW in the recommendation, in a description given of an ideal defence of Plymouth, that recourse should be again had to iron. Colonel S. explained that his estimate for an ideal defence "were based upon the supposition happily, far from the truth, that no defences were in existence there." "We must be prepared," he said, "to mount guns not only in earthen batteries, but also behind iron when such protection was needed," which was when earth could not be had. In summing up the discussion, General NICHOLSON, I. G. of Fortification, who presided, said: "We cannot find sites which are always adapted to hydro-pneumatic guns. Sites and places and fixtures for guns must always depend upon station and condition." Admiral Sir COOPER KEY said: "I have long been of the opinion that by separating or isolating guns, instead of blocking them together in forts, as we were formerly in the habit of doing, and as we have done somewhat of late years, we have the very best possible defence against attack by ships, such guns being in earthworks mounted *en barbette* at heights from 100 to 300 feet above the sea, and placed where no two guns can be aimed at by the same gun.

THE EADS SHIP RAILWAY.

THE Senate have thoroughly debated this week the scheme of Mr. Eads for a ship railway across the Isthmus of Tehuantepec, passing on Thursday the bill authorizing its construction. Mr. Hoar said of it: "If it be practicable it solves a difficult international problem; it shakes off all the fetters of the Clayton-Bulwer treaty; it brings Asia and South America close to our own Atlantic ports; it brings California and Oregon closer to Europe; it makes a vast saving, and gives a vast advantage to American commerce; it gives us a short sea passage, and with a ship canal across Florida, a passage in large part inside and land-locked around our whole coast from the Saint Johns to Puget Sound; and it cannot fail to draw closely the bonds of intercourse with the neighboring Republic of Mexico. The route will be under the protection of a strong and substantial power, upon whose neutrality no government can intrude without flagrant violation of the law of nations and shocking the opinion of mankind; we can move troops to its protection when called upon by Mexico over a land route with abund-

ant railroad service, by lines easy to be defended (it is within 200 miles of Vera Cruz and 300 of the City of Mexico itself); the forces that defend it will be stationed in a healthful climate; and it will complete the control of the Gulf of Mexico by these two allied and friendly republics." As to its practicability Mr. Hoar cited eminent authorities, both practical and scientific, who approve the plan of the ship railway. "At their head is the distinguished name of Sir Edward J. Reed, K. C. B., late chief constructor of the British Navy. He is supported by Mr. Barnaby, the present chief constructor of the British Navy; by Mr. John, for many years scientific adviser of Lloyds; by Mr. Fowler, lately president of the Institute of Engineers in England; by Mr. Luyster, engineer-in-chief of the Liverpool docks; by Mr. Williams, an eminent civil engineer; by Mr. Clark, chief assistant of Stevenson in building the bridge at the Menai Straits; by Emmerson, Murgatroyd and Co., constructors of the great hydraulic docks at Malta and Bombay; by William Pearce, builder of many of the largest and finest steamers afloat; and by numerous American engineers and constructors, including Hartt, Fernald, Suter, Fuertes, Gillmore, Beauregard, Whitcomb, Barkley, and Corttell. Of all these the testimony is quoted or reported in full by the committee. With the exception of the construction of the *Monitor* and the famous naval engagement which saved our Atlantic cities from the *Merrimac* in the late war, I am not aware that any military or naval or national triumph has been accomplished which has been due purely to the genius of the inventors of America; and I confess I hail with peculiar pleasure the fact that from the South, from the West, from the valley of the Mississippi, there comes up this scheme, due to a genius which has already achieved the two greatest engineering triumphs of the age, which promises to confer a new glory on the American character by a triumph on a still larger scale." The bill as passed incorporates Captain Eads and eighty others as a body politic, under the title of the Atlantic and Pacific Ship Railway Company; the stock is not to exceed $100,000,000, and when 10 per cent. of it is subscribed and paid for a meeting of stockholders is to be held in New York and Washington to elect directors. If this not accomplished in two years the charter is to expire by limitation.

No one seems to know what Mr. RANDALL'S intentions are concerning the Fortification bill now in conference, and it is assumed that its fate is in his hands. It is probable that an appropriation of eight or ten millions will be allowed in some form. The Naval Committee of the House has reported as a substitute for sundry bills the Thomas bill, which authorizes the building of two steel cruisers, four steel gunboats and one steel torpedo boat, at a total cost of $4,900,000, not including armament, and makes an appropriation of $2,450,000. As the Senate is favorably disposed towards such measures it will doubtless pass this bill perhaps with amendments. The Naval Appropriation bill, already reported, provides for the completion of the five double-turreted monitors, the four vessels authorized by the act of March 3, 1885, and their armament, and for procuring and testing the armor for the vessels authorized by the act of August 3, 1886, making a total of $8,628,362 to be expended in the completion and armament of vessels now authorized. It is probable that the purchase of the ERICSSON *Destroyer* will be authorized, and we already have ZALINSKI'S dynamite boat under way. It is expected that the House Committee on Military Affairs will report with amendments Mr. MCADOO'S bill appropriating $20,000,000 for the manufacture of "modern first class ordnance for seacoast and other defences." This Committee has also before it S. S. Cox's resolution instructing it to report "some suitable plan" for coast defences, "with such sufficient appropriations, not less than $30,000,000," as may be necessary, and providing for the appointment of a commission to carry out the plan and disburse the money. The Senate has passed the "twin" bills, which make a total appropriation of $21,000,000, available for six years, to provide a Naval gun foundry, an Army gun foundry, for the purchase of steel gun forgings and armor, and for fortifications. The Senate has also passed this week the CAMERON bill and the HALE bill, the texts of which appear elsewhere. Among the bills not acted upon are those providing for a Lundborg vessel of twenty knots speed, Mr. STANFORD'S bill, which we publish this week, providing for the establishment of four heavy ordnance plants, at South Boston, Birmingham, Ala., Pittsburg and San Francisco, with an annual expenditure at each of not less than $1,000,000 for ten years; Mr. KING'S bill for the construction of twenty steel rams; Mr. MORROW'S bill for two Ammen rams, and Mr. WHITTHORNE'S bill for a naval reserve, which appears elsewhere.

OUR attention has been called to a variety of plans and projects for memorials to General GRANT, but we have seen nothing that strikes us so favorably as the proposed memorial bridge from Washington to Arlington. It is submitted by Captain T. W. SYMONS and Messrs. SMITHMEYER and PELZ, architects, and does great credit to their good taste and skill as designers. Its striking features are the towers, of which there are fourteen, two large ones guarding the central span of the bridge and bearing the memorial figures and inscription. The following bill has been introduced into Congress providing for the bridge:

For the Erection of a National Memorial Bridge over the Potomac from Washington to Arlington.

Whereas it is the desire of the people of the United States that there should be erected in honor of its greatest soldier, Gen. U. S. Grant, a monument of imperishable material and of a design suitable to commemorate his distinguished services; and whereas the design most appropriate is a grand monumental bridge, symbolical of the restored Union, across the Potomac River, which divided the North from the South during the tremendous struggle in which the services of Gen. Grant were so conspicuously valuable, leading from the national capital to the sacred grounds of Arlington, where lie buried 15,000 men who died for the Union, and to scatter flowers on whose graves thousands go from year to year; therefore,

Be it enacted, etc., That a bridge, as a monument to Gen. Ulysses S. Grant, shall be erected across the Potomac River from Observatory Hill, near the foot of New York and New Hampshire avenues, to such a point upon the Virginia shore near Arlington as may be ultimately determined upon by the commission hereinafter provided; and the construction of said bridge, substantially according to the plans submitted to Congress by Capt. T. W. Symonds, engineer, and Smithmeyer and Pelz, architects, with such modifications and details as may be found necessary or advantageous, shall be in charge of a commission composed of the Secretary of War, the Chief Justice of the United States, the Chief of Engineers United States Army, a member of the Senate to be designated by the President of the Senate, and a member of the House of Representatives to be designated by the Speaker of the House, which commission shall be authorized to proceed with the construction thereof; and the sum of $500,000 is hereby appropriated, out of any money in the Treasury not otherwise appropriated, to commence the construction of said bridge; and the moneys appropriated for said bridge shall be disbursed by the Secretary of War.

Sec. 2. That the Secretary of War shall annually report to Congress, at the commencement of each session, a detailed statement of all the proceedings under the provisions of this act.

The conception of this memorial is a most happy one, and we trust that Congress will authorize the erection of some such memorial. A bridge which is to stand for all time ought not, however, to have iron arches. Stone should be substituted for iron, and it is an open question whether the design may not be otherwise improved upon. We have a magnificent example of a memorial bridge in Spain, which it would be well to look at before deciding upon this.

A MEMORANDUM has been issued enlarging the powers of officers of the English Army in dealing with minor offences. In connection with it H. R. H. the Duke of Cambridge has expressed some opinions upon the subject of the duties of officers in reference to discipline which are as applicable to our own service as to that over which he presides. Ignorance, thoughtlessness, temper, inexperience of the restraints of discipline, provocation, real or fancied, or indulgence in liquor, may, he says, betray a young soldier into the commission of an offence which, though technically serious, is in effect trivial. It is proposed to deal with such cases without the intervention of a Court-martial, and commanding officers are urged to consider their responsibility toward young soldiers. They should see that they are gradually instructed and initiated into the new habits of life which are consequent on their voluntary selection of a military career, until they learn to control themselves and become amenable to discipline. It is generally the case that a young soldier who has escaped trial during the earlier part of his career will afterwards do his best to avoid the disgrace of being brought before a Court-martial; a commanding officer should, therefore, impress upon officers commanding troops and companies, and all others under him, that every consideration should be shown at first to young soldiers. They should be made to feel that their officers in dealing with them are actuated solely "by their love of the Army, and the deep interest they take in the reputation of a their comrades of every rank. Nothing tends more to impress soldiers with this conviction than the maintenance of a healthy, manly discipline with the minimum of punishment."

THE Lieutenant-General of the Army has already begun to arrange the preliminaries for carrying out the recent act of Congress authorizing and appropriating money for the establishment of a cavalry and artillery school at Fort Riley, Kansas. The survey of the grounds and the preparation of plans for buildings is the first work to be done. This is now in progress, the Lieutenant-General having directed the Department commander General WILLCOX, to take the matter in charge. Captain POND, of the Q. M. Department, who superintended the construction of the buildings already put up there, will have direct charge of the new work. It will, of course, take some time to get the detailed drawings in shape for the approval of the authorities at Washington, but it is the purpose to have all the preliminaries arranged in time to have the actual work of construction in progress in the early part of the building season. A year or two will necessarily elapse before the post will be in a condition to warrant the opening of the new school. It is therefore too early to be talking about the troops that will be stationed there. There will, of course, be a full regiment of cavalry, and the colonel of the regiment will, presumably, be at the head of the school as well as the post commander. The plan is also to have a light battery from each of the five artillery regiments stationed there, the two sets of batteries alternating every few years. When the school is in full operation all recruits for the cavalry will be drilled at this post before being sent to their regiments and drilling now done at Jefferson Barracks will be abolished. The following is the text of the law creating the new school:

That the Secretary of War be, and he is hereby, authorized and directed to establish upon the military reservation at Fort Riley a permanent school of instruction for drill and practice for the cavalry and light artillery service of the Army of the United States and which shall be the depot to which all recruits for such service shall be sent; and for the purpose of construction of such quarters, barracks, and stables as may be required to carry into effect the purposes of this act the sum of $200,000, or so much thereof as may be necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated.

IN the debate on the bill to increase the naval establishment on Wednesday, Senator INGALLS spoke of "the 110-ton gun which is now mounted on the English ship." No English ship yet carries a gun of that size. The first 110-ton gun was on the 1st of this month carried to the proof butts at Woolwich on the carriage from which it will be fired, which weighs nearly 100 tons independently of the gun. The bore of the gun is 16¼ in., and it will fire a projectile of 1,800 lb. weight, but the charge of powder cannot be determined until after full trial. The proof will begin with a small quantity, and be gradually increased as the powers of the gun are developed. A new powder, specially manufactured for very large guns at the Government works, Waltham Abbey, will be employed in the experiments. The 68-ton gun was made at the Royal Gun Factories; the 110-ton gun was supplied under contract by the Elswick firm, being one of four ordered. After the preliminary trials, the great gun will be conveyed to Shoeburyness for sighting experiments at the long ranges.

IT has been suggested that the name applied to the type of engine which it has been determined to adopt in one or more of the new cruisers now under contract is somewhat misleading to the non-professional reader. The term "triple expansion engine" does not express a right condition. Not only are there three cylinders through which the steam passes en route from the boiler to the condenser, but its cycle of effort is completed in a particular manner. The *Atlanta* possesses a three cylinder engine, but it is not a so-called triple-expansion engine, for the steam, entering the single high pressure cylinder from the boilers is exhausted into two low pressure cylinders, (a low pressure cylinder being one which exhausts its steam into the condenser,) placed on either side of the high pressure one. The difference between the two types of en-

gines lies in the arrangement whereby the high pressure cylinder (in the triple-expansion type) receiving its steam in the same manner as before from the boilers exhausts into what is called the "intermediate cylinder," and this in turn into the low pressure cylinder, from which the steam enters the condenser as before. Now if this type of engine could be renamed as the "Intermediate Expansion Engine" a step towards a fit nomenclature will be the result. The application of this change will be shown thus: a *single intermediate expansion engine* indicates three cylinders, a *double intermediate expansion* would be a four cylinder engine arranged in this way, and so on for any number of cylinders. We make this suggestion with due diffidence, to that august body the Bureau of Steam Engineering at the Navy Department.

COLONEL E. C. MASON, U. S. A., Inspector General of the Dept. of Dakota, expresses the sentiments of not a few, in his recent annual report, when he says: "That the Army is obtaining a fair paper record as marksmen is doubtless true. It may be fairly questioned whether we are making well set-up, drilled and disciplined soldiers at the same time. The remark frequently made: 'If a man is a good shot I want him in my company,' indicates that the other soldierly qualities are not held in as high esteem as heretofore. I think the opinion is gaining ground that target practice, as now conducted in these northern latitudes, where the period for outdoor exercises is short, occupies more than its fair share in the military instruction of the soldier. It is equally as important that a cavalryman should know how to ride and take care of his horse, and that the Infantryman should be well drilled, and hardened by frequent marches for active service, as that he should be able to make a good score for his company record under the most favorable circumstances of wind, weather, light, rest, a well filled stomach and coaching that does for him all but pull the trigger."

THE War Department authorities are still on the lookout for 2d Lt. Jno. J. Shaw, 6th Inf., who has disappeared from Fort Douglas leaving a trail of fraudulent pay accounts behind him. Last week we announced that four of his accounts had been paid for December and expressed the belief that returns for January would show another set of duplications. Such has proved to be the case. No less than four more, coming through exactly the same channels as the December accounts, have turned up at the War Department, making eight in all, representing $1120, of his accounts presented and paid for the months of December and January. Six of these, amounting to $840 are, of course, fraudulent. Two of the accounts were presented and the money drawn upon them by Shaw in person from Major Tucker, the post paymaster at Washington, the one for December being paid on Feb. 5, and the January account on Jan. 28. The other accounts came through banks and claim agents with whom he, presumably, hypothecated them. There is no telling how many more accounts he may have sold to agents, since he seems to have gone into the businesss. It can hardly be expected, however, that any more of them will be paid by paymasters in view of the wide publicity given to his fraudulent operations. There are no new developments as to his whereabouts.

COLONEL THOS. F. BARR, Judge-Advocate, U. S. A., in his last annual report to the Commanding General, Dept. of Dakota, gives the accounting officers of the Treasury Department some hard raps which are well deserved. Colonel Barr says:

Comment may be permitted me upon the anomalous state of affairs now existing in the Army through the assumption by those officers of supreme powers of decisions in all matters pertaining to disbursements of Army appropriations. The Regulations for the Army are prescribed by the President, its constitutional Commander-in-Chief, through the Secretary of War, and a disregard of their mandates renders officers liable to be brought to trial before a military court. They can have no other guide in the performance of their duties, and yet, after having strictly complied with them, disbursing officers have had their disbursements disallowed by subordinate officials in the Treasury Department. As law officer at these Headquarters, I have been frequently consulted as to the force of the Army Regulations under these circumstances, and have invariably counselled the officers interested that for them the Regulations and the authority of the Secretary of War were paramount. To officers, however, who are bonded the embarrassment caused by the existing conditions is nearly insupportable. Payments made by them under the specific instructions of the Secretary of War have been disallowed, and they have apparently no redress save through litigation. The Supreme Court has decided in express terms that the ground asserted and maintained by the accounting officers is not tenable, and there can be no question as to the result of a recourse to the courts. Officers who have strictly kept within the lines of their instructions in the performance of their duties should not, however, be forced into litigation for a proper settlement of their accounts and the establishment of their rights. It is believed that the attention of Congress should be invited to this question to the end that a due restriction be placed upon the accounting officers of the Treasury to keep them to the exercise of their legitimate functions.

THE picking up of an extra cipher made it appear that the amount of steel armor required for the new vessels of the Navy is 66,900 tons. The correct figure is 6,690 tons, including steel armor and accessories.

A *Tribune* writer says: "Mr. Wm. H. Sweet, of Syracuse, the head of an iron manufactory which bears his name, while in conversation on the subject of Government armament, said: 'I have contended for twenty five years that the proper material for making cannon is cast steel. As long ago as 1864 I cast a steel ingot of 96,000 pounds weight and sent it to Washington, where it was tested, and I then gave my opinion that this was the material for cannon. The proper method of treating it is to cool the steel after manufacture to a point of 40 degrees below zero and then gradually heat it until it is medium red hot, and keep it in that condition for a week or ten days, and then gradually allow it to cool. When that has been done it has merely to be bored out for a cannon. It will be wholly superior to anything that has been hammered. It will have the necessary elasticity and strength. There is no necessity to do anything with the outside except to paint it over. Even if it is a little rough it is not the outside that counts in a cannon; it is the bore.'"

THE London correspondent of the N. Y. *Sun* says of the fisheries dispute: "The average Englishman has only a misty idea of what it is all about, and does not care to find out. The English do not particularly want to fight us, any more than an old-time knight errant would have wanted to fight a corner grocer. They do not consider us as being in the fighting line. Their opinion of us is not flattering; in fact, it is quite a scornful one. They consider us as useful and harmless producers of corn, pork, and codfish aristocracy, and they laugh at the idea of our fighting anybody, a laugh which is a very pardonable one. It is casually remarked, at the same time, that we ought to be grateful for the gentle treatment which we receive, inasmuch as if they chose they could come over and wallop us several times before we could begin to get ready for the fuss." Another paper says: "We don't want to fight, but, by jingo, if we do, we've got our own Ingalls, we've got our own Frye, and we've 'Richelieu' Robinson, too."

IT is a matter of arithmetical calculation to show that the New York Life Insurance Co., if it continues on, will in time possess the earth and be reaching out for outlying worlds to conquer. Its income has increased the last year three millions of dollars and is now nearly twenty millions a year, and the portion of it received from its investment of $75,421,453.37 is alone nearly a million in excess of losses by death, which last year amounted to $2,757,035.97. The premium receipts for the year were $15,507,906.04, and $85,178,294 of new insurance was written on 22,027 policies. It has nearly one hundred thousand policies in force, insuring over three hundred millions, with a surplus, according to the State standard, of more than fifteen and a-half millions. These are large figures, and they show how well the affairs of this company are managed and how excellent is the guarantee it offers for the full protection of insurers.

EXECUTIVE DOCUMENT, No. 49, second session, 49th Congress, contains a list of claims allowed by the accounting officers of the Treasury, and awaiting appropriation by Congress, aggregating nearly a million of dollars. Of this amount $772,276.90 cover War Department claims representing pay for loss of horses and other property during the war, for transportation of the Army and its supplies, commutation of rations, bounty, etc. The Navy Department claims contained in the document amounted to $20,752.42, over $12,000 of which is for the payment of Graham mileage claims. A list of this class of claims will be found elsewhere.

IT would be one of the wisest acts for the present Congress to enact a law creating the office of Assistant Secretary of the Navy, that the Secretary may be relieved of some of his arduous and multifarious duties. During the day the Secretary is compelled to consider a great variety of subjects, many of which are very important, and demand more thought and consideration than he has time to give them. The Assistant Secretary could relieve him in many ways, taking charge, among other things, of technical questions that demand more attention than a cabinet officer can give to them.

"NOTICE TO THE OLD REGULARS."—Wanted, the present address, date of enlistment, discharge and reason, of all the old Regulars who were in the Army at the commencement of the Rebellion in 1861. Address, E. J. Davis, Chief Clerk, Department Platte, Omaha, Neb.

MR. LAWLER introduced on Monday a resolution requesting the Secretary of State to inform the House whether the terms of the treaty of Ghent are construed to inhibit the United States from maintaining an effective navy on the Northern lakes bordering the Dominion of Canada; and also whether the construction of the Welland canal is not in effect a violation of the treaty.

READERS of the frequent discussions on steel guns will be interested to learn just what the American Ordnance material is. Captain Rogers Birnie, in speaking upon Mr. Dorsey's recent essay, said: "We have no need to discuss the wide range of the so-called hard steel mentioned. The metal which we use for guns is a relatively low steel, such as the French denominate *acier doux*, seldom containing more than 0.45 per cent. of carbon. It gives, before treatment, an ultimate resistance of from 70,000 to 90,000 pounds per square inch, and by judicious treatment, annealing before and after oil-tempering, its qualities are improved for the purpose of gun construction. It is not capricious or unreliable when properly treated, and I can exhibit specimen bars which were taken in the ordinary course of tests from the interior of forgings and have been bent nearly double when cold without fracture. Besides which, examination of the fractures of the many tensile specimens that have been taken plainly indicates a tough and ductile metal."

LIEUTENANT O. M. SMITH, 22d U. S. Infantry, Inspector of Rifle Practice, Dept. of Texas, in summing up results for the target year 1886 recommends that double sand glasses be issued for use in skirmish firing, one to be six and one to be twenty-one seconds, which would prevent too much time being taken in adjusting sights, estimating distances and assuming positions for firing; that all distinguished marksmen and all officers who have qualified as sharpshooters, or who have won a marksman's pin, be allowed to have limited practice, and that the scores previously made by them be used in computing the figure of merit; that a badge of some kind be given to distinguished marksmen, some of them may never have won a badge at a competition, and that hereafter each year every troop of cavalry be required to have two months pistol firing in the manner laid down in Appendix A, Instructions in Rifle and Carbine Firing.

IN a letter on another subject an officer who has had experience with colored troops says: "In the nearly quarter of a century's life of the JOURNAL, it has always been just to, and always a friend of, the colored regiments, and this meant infinitely more twenty years ago than it does now. It seems to me that this is something that deserves acknowledgment. Speaking for myself I feel it very deeply, and I believe all who have given the matter a thought feel the same. Apart from other considerations (I might correctly say, sentimental considerations) it shows pretty good management of a newspaper, as management, when it need not fear the digging up of any pestiferous paragraph of years gone by, which it 'would rather not have said.' I am no admirer of the African, believing he will *ultimately destroy the white race.* I am not thinskinned at all, as a "colored officer;" taking all prejudices, remarks, slurs, etc., good humoredly, believing that if I had always been an officer of white troops, I would have been worse, perhaps, than the most prejudiced of them. I think the world of the men of my company. When I look at them I do not see their black faces, I see only something beyond. For the comfort and pleasant life of the officer on the frontier they are far ahead of white troops. They are more like a lot of devoted servants and retainers, *faithful and trustworthy in every respect*, and *brave* and *gallant*. In the light of recent accusations and of things that have happened, you may not think so, but it is so. The exceptions occur, of course, and seem to be important articles of news. Once a century or so, a clergyman goes wrong, so I have heard."

THE Cavalry arm receives a lift this week by the retirement of three invalid Captains, Callahan, of the 4th, Parnell, of the 1st, and Valois, of the 9th. The contingent promotions are: 4th Cavalry—1st Lieut. Alex. Rodgers to Captain; 2d Lieut. A. T. Dean, 2d, to 1st Lieutenant. 1st Cavalry—1st Lieut. F. K. Ward to Captain, and 2d Lieut. J. F. R. Landis to 1st Lieutenant. 9th Cavalry—1st Lieut. John Conline to Captain, and 2d Lieut. J. F. McBlain to 1st Lieutenant.

IT is suggested that for the designation "hospital steward" in the Army be substituted "hospital sergeant." Others favor the title of "apothecary," which is used in the Navy. This last designation conveys more clearly the nature of the principal duty required of hospital stewards, especially at large posts, that of dispensing medicines.

THE eighteenth annual meeting of the Army of the Potomac will be held at Saratoga Springs in June next. General W. B. French is the corresponding secretary from there. A meeting of the officers is to be called soon to arrange necessary details.

SECRETARY WHITNEY, in a letter to the House Naval Committee, urges an appropriation of $200,000 to be expended by June 30, for repairs to the *Hartford*, *Kearsarge*, *Trenton*, *Swatara*, *Thetis*, *Richmond*, *Nipsic* and *Enterprise*.

MAJOR-GENERALS AND REAR-ADMIRALS.

SINCE the 4th of March, 1861, fifteen officers have been commissioned Major-Generals of the U. S. Army, in the following order: *McClellan*, Fremont, *Halleck*, *Wool*, *Grant*, Sherman, *Meade*, Sheridan, *Thomas*, *Hancock*, Schofield, *McDowell*, Pope, Terry, and Howard. Of these, the eight whose names are italicized have died. All of these were previously Major-Generals of Volunteers, except McClellan, Fremont, Halleck, and Wool. Besides these, 116 officers were appointed Major-Generals of Volunteers. Of these last, six were killed in battle—Kearney, Stevens, Berry, Reynolds, Sedgwick, and McPherson; five died of wounds received in battle, viz.—J. L. Reno, J. K. F. Mansfield, J. B. Richardson, A. W. Whipple, and G. C. Strong. Six others died during the war—C. F. Smith, Wm. Nelson, O. M. Mitchel, E. V. Sumner, John Buford, and D. R. Birney. Thirty-nine others have died since the war, Generals Logan and Hazen being the last of these. This leaves seven Major-Generals of the Army and sixty Major-Generals of Volunteers still living, in the order of their appointment, as follows:

Nathaniel P. Banks	Chas. S. Hamilton	Wm. F. Smith
Benjamin F. Butler	Benj. M. Prentiss	Horatio G. Wright
Wm. S. Rosecrans	George Stoneman	Andrew J. Smith
Don Carlos Buell	Daniel E. Sickles	Granville M. Dodge
Samuel R. Curtis	Robert H. Milroy	John Gibbon
Franz Sigel	Daniel Butterfield	Peter J. Osterhaus
John A. McClernand	David S. Stanley	George Crook
Lewis Wallace	James S. Negley	Jacob D. Cox
Cassius M. Clay	John M. Palmer	Thos. J. Wood
Erasmus D. Keyes	Abner Doubleday	Wesley Merritt
Fitz John Porter	Napoleon J. F. Dana	Henry E. Davies
Wm. B. Franklin	Richard J. Oglesby	James H. Wilson
Darius N. Couch	James G. Blunt	Francis C. Barlow
Henry W. Slocum	Francis J. Herron	Benj. H. Grierson
Alex. McD. McCook	Jos. J. Reynolds	Wagner Swayne
Thos. L. Crittenden	Julius H. Stahel	Mortim'r D. Leggett
John G. Parke	Carl Schurz	Wm. H. Emory
Christo'er C. Augur	John Newton	Robert B. Potter
Robert C. Schenck	Alfred Pleasonton	Nelson A. Miles
Schuyler Hamilton	Quincy A. Gillmore	Francis Fessenden

Of the 128 officers promoted to Rear-Admiral in the Navy since the establishment of that grade, July 16, 1862, sixty are living, viz.:

David D. Porter	J. R. M. Mullaney	Robert W. Shufeldt
Wm. Radford	Chris'r R. P. Rodgers	Alex. C. Rhind
Stephen C. Rowan	Theodore P. Greene	Thos. Pattison
Thos. T. Cravens	Edward Donaldson	Edward Simpson
Samuel P. Lee	Thos. H. Patterson	Wm. G. Temple
Oliver S. Glisson	John C. Howell	Samuel P. Carter
Melancton Smith	Daniel Ammen	Thos. S. Phelps
Charles S. Boggs	Roger N. Stembel	Clark H. Wells
Henry Walke	George B. Balch	S. P. Quackenbush
Thorn'n A. Jenkins	Thos. H. Stevens	Edw. Y. McCauley
Wm. Rogers Taylor	John M. B. Clitz	Earl English
Chas. Steedman	Andrew Bryson	John H. Upshur
Thos. O. Selfridge	Don'd McN. Fairfax	Francis A. Roe
Alfred Taylor	Jas. W. A. Nicholson	Sam'l R. Franklin
Jos. F. Green	George H. Cooper	Stephen B. Luce
Augustus L. Case	John C. Febriger	John Lee Davis
John L. Worden	Peirce Crosby	James E. Jouett
John J. Almy	Aaron K. Hughes	John H. Russell
Fabius Stanly	Edmund R. Calhoun	Walter W. Queen
Wm. E. Le Roy	Chas. H. Baldwin	Ralph Chandler

THE BEST GUN MATERIAL.

WASHINGTON, D. C., Feb. 13, 1887.

To the Editor of the Herald:

SENATOR HAWLEY, in an interview published in the *Herald* of Saturday last, becomes quite excited at the idea of anything else than steel being thought of as a material for heavy guns. He cites the action of several boards, but characterizes the report of the Fortification Board as "the ablest professional report that has been made in many years," and says that he based his conclusions upon that report. The main question for this Board to pass upon was, Is a steel forging the best material of which to construct a heavy power gun? Gen. Hawley says the Board "took for granted" that it was. This is quite right. The Board did take it for granted, naturally, for the Board was composed of Army and Navy officers, every one of whom, with the exception of Secretary Endicott, had expressed himself in favor of steel, in official papers, before his appointment; and to this ring of steel men was added two of the largest steel manufacturers in the country to give emphasis to the complexion of the Board. This Board travelled far and near and took testimony. They neither found any broken steel guns, nor any witness that had seen any. Naturally they took for granted that it was all right.

Upon this result Gen. Hawley proposes to contract for $16,000,000 worth of steel forging, and waxes warm in protesting that whoever says there are five ordnance officers in the world who are worth their salt who will recommend this nation to build cast-iron guns is hopelessly behind the times, etc. "Not a single European nation thinks for a moment of making its modern guns of anything else" but steel, etc.

Although this is opinion and not evidence, and although opinion, as to what European nations are not thinking of, must necessarily be questionable, yet I am willing to grant it all (allowing me only to say that the only two ordnance officers on the Getty Board advocated the testing of a twelve-inch cast-iron breech-loading Rodman rifle, and that one of the Senators of his own committee told me within a week that he thought our fortifications should be armed with heavy cast-iron rifles,) and still assert that it would be the height of rashness to contract to the extent of millions for steel forgings with no more evidence of their fitness than we now have. How reliable are the acts of European nations as evidence upon this question? Situated as they are, can they afford to show distrust of their guns? It is possible they have reason to distrust them, and if they had it would be all the more necessary to keep it from the knowledge of others. So, as far as this feature influences us, we must remember that the feature would be the same were the guns good or bad. It may be good policy at this juncture for them to continue making steel guns, even knowing them to be dangerous.

We happen to know that six twelve inch rifles have failed within a year, or two of the best ships in the British Navy. Is not this alone enough to make us question the conclusions of the Board, and ask if they found in their investigation any one steel gun of large calibre that had shown satisfactory endurance—such endurance as cast iron guns have been safely subjected to—and if nay, shall we contract for $16,000,000 worth nevertheless?

Gen. Hawley says that no critic worth mentioning has ever attacked the conclusions of his Board. I beg to say that I had advocated the fitness of cast iron as a material for heavy rifled guns before his Board was formed, and have demonstrated it since. No twelve inch rifle in the British Navy to day is the peer of the cast iron rifle at Sandy Hook. No one has been fired as many rounds, nor is there any one that is to-day fired with as heavy charges. I have been continuously engaged in the manufacture of heavy ordnance since Gen. Hawley first entered upon his business career. And I have offered to furnish high power guns of cast iron to the Government for trial at my own cost, and whether or not my criticism is worth mentioning is a question I am content to leave to the judgment of fair minded men.

WILLIAM P. HUNT,
President South Boston Iron Works.

(Special Telegram to the Pittsburg Dispatch.)

THE GUN CONTEST.

WASHINGTON, Feb. 13.

NEXT thing to obtaining any special appropriation at all this season for seacoast defences the trouble will be upon the particular plan and the particular kind of guns. There is likely to be a combination of outside speculative influences as against the Ordnance Department, and it will be a remarkable departure from the ordinary course of events if the boodlers do not get their fingers into the appropriation pie.

It is stated that this combination has organized a powerful lobby, and it has begun work on the Committee on Appropriations. The views and plans of the Ordnance Department and the reports of ordnance boards furnish the target for their attack. The inclination to criticise the officers of the Government is always pretty strong in Congress. Yet it may properly be presumed that the ordnance and other officers having in charge the experimental tests of guns, torpedoes, etc., have a greater interest in securing the highest results than a corresponding number of outside parties personally interested in various inventions.

In the midst of all this pulling and hauling there will be a square division on two lines of policy with regard to schemes of seacoast defence. It will be the naval battle over again. One policy is to contract with private individuals to do the work, as proposed by the Stanford bill; the other is to have the Government do the work. The latter is the Government plan and contemplates the establishment of but two national gun foundries—one at Watervliet for army and seacoast guns, the other at Washington for the navy. These are designed to assemble and finish guns, the forgings and rough boring of which are to be furnished elsewhere by private firms. The other and antagonistic plan is to divide up the business and give it to four private firms exclusively, located in Pittsburg, South Boston, Birmingham and San Francisco, these firms to have a 10-years' monopoly and to make guns and gun carriages complete.

The same issue arose between the Government Navy-yards and private ship builders, and has never been satisfactorily decided. To get rid of it Congress authorized both systems so far as it related to the Navy, and then gradually drifted towards private contracts. There is no question in the minds of many members who have considered the matter at all that quite as good a 6 or 15-inch gun can be built at Pittsburg by private parties as can be built by the Government. At the same price it would cost the Government a private firm would realize a handsome profit. When private plants were once established these profits would be greatly increased, and the expenses of the Government diminished, especially in case of war. Whatever line of policy is laid down the greater amount of the appropriations for guns, steel plates, etc., will go into Pennsylvania, to the stimulation of all her industries.

AN ENGLISH CRITICISM ON WEST POINT.

WEST POINT is described in the London *Army and Navy Magazine* for February, by Henry Naidley, Secretary of the Oxford Military College, who visited it in the summer of 1881, and was shown around by "no less a personage than the eldest son of His Excellency, the late Brigham Young." West Point, he tells us, "is a small island in the Hudson River, fringed by several estuaries."

"*Rich semi-tropical vegetation and flora*, neat and flourishing villages, country residences with park-like gardens and grounds, numerous yachts, boats and steamers met the eye at every turn, and brought home to the mind the fact, that in the midst of this comparative solitude, one was surrounded by a busy, if not the busiest and most enterprising race on earth."

The Academic building were neither handsome nor imposing yet very comfortable. The mode of selecting cadets is pronounced superior to that of England. It dispenses with the harassing uncertainty of a competitive examination; it constitutes, at least theoretically, "a surer guarantee for the social status and respectability of the candidates." "But there is a shady side to this picture; the system may, and perhaps has already, developed serious vices. A body of men, indebted for their official status and maintenance to a political body, cannot fail to become permeated with, and in time greatly influenced by politics." (*Sic?*) Mr. Naidley says here:

Some men are born commanders and organizers, others become so through gradual training, but, in either case, early surroundings have great influence upon the development of these special qualities. For instance, to the son of a country gentleman, living in affluent circumstances, and employing a large staff of servants and laborers, or to the son of an officer, coming into frequent contact with barrack life, it comes natural to give orders to subordinates, or even to equals, and be obeyed, and to receive in his turn orders and obey them. He knows neither the fear of being disobeyed, or of compromising his dignity by an honorable obedience. Men born and bred under worldly circumstances less favorable, although intellectually the equals, and even the superiors of their more fortunate competitors, are, as a rule, lacking in the qualities above alluded to as among the most valuable to an officer; they may, besides, possess all the social graces and gentlemanly instincts of the former, but, in many instances, the deficiencies so unconsciously, and so unavoidably, contracted, through early associations, are never remedied. This is constantly illustrated by officers risen from the ranks. (It is well here to distinguish between officers risen *from* the ranks, and those who obtain a commission *through* the ranks.) Although they may know their profession thoroughly, and be able and conscientious soldiers, some never succeed in shaking off the influence of their early training and surroundings. They feel ill at ease, are morbidly jealous of their authority and dignity, fussy and interfering in matters of detail, and never command that cheerful obedience so readily accorded to really superior officers, as much on account of their personal moral influence and weight, as because of the official power which they wield. (To this general rule there are, of course, many brilliant exceptions.) For these, and other reasons, it will ever remain desirable to draw the officers of a standing army—where such exists—from the most influential classes in the State and this can only be done effectually by selection. That there are many and serious objections to this method must at once be admitted. But then no system, or laws, ever created by human intellect were perfect. It behooves men to aim at the framing of laws that shall be open to the least objection, and secure the greatest benefits to the largest numbers.

"The age for admission is a sensible one," but there is a radically vicious defect in the system, "namely, the abnormally long working hours." This is "injurious to the physique, and productive, in many instances, of mental deformity."

"What are your favorite sports?" Mr. Young was asked. "Do you play football, tennis, cricket, or row?" "No! we don't go in for those sort of things; occasionally we go on the river, but as often as not we have a man to row us. You see, we are generally much too tired to care for such exercises; we prefer to rest on the lawn and smoke!"

Mr. Naidley's guide even refused to go into the hotel and take a glass of wine with him.

But the refusal was accompanied by this explanation: "It is against the rules to frequent the hotel, and we are on our honor not to do it."

"Not even in company of visitors and strangers like myself?"

"I am afraid even that would not absolve us from our pledge. I should like it above all things; but must nevertheless ask you to excuse me."

I expressed my surprise that in a country so rich, offering so many promising fields of enterprise to an intelligent and energetic youth, candidates were to be found willing to undergo so severe a training for an army in which promotion must at best be but slow, and the prospects of distinction remote. I was informed that there was always a plethora of candidates for vacancies.

At West Point, we are further told, the examinations are made subservient to teaching instead of the reverse, as in England, and the teaching staff forms part of the examining body instead of being excluded, as it is there.

(From the Washington Post.)

HE HARDLY REQUIRED ASSISTANCE.

A LADY was sitting in a herdic next the box for fares, when a gentleman got in and took a seat opposite. In selecting a piece of money to pay his fare he took a handful of silver from his pocket and laid it on the seat beside him while he picked out a nickel. Then the lady noticed that he had but one arm. Her tender heart was all sympathy instantly, and she pictured to herself that gallant man on the field of battle, giving his arm in the defence of his country. "Poor fellow," thought she, "I will put his fare in for him." So suiting the action to the thought, she extended her hand for the nickel. The gentleman dropped the same into her extended palm, and with a dexterity that would have done credit to a man with half a dozen arms, managed to squeeze her hand at the same time.

And now that lady declares that henceforth and forever, as far as she is concerned, every son of Adam may deposit his own fare, even if he had no arms and had to pass it up with his teeth.

REGIMENTAL STAFF DETAILS.

To the Editor of the Army and Navy Journal:

YOUR editorial in last week's issue on the "Regimental Staff" coincides so nearly with my own ideas on the subject that I am impelled to write the following reason—heretofore not touched upon—why the Regimental Staff should be changed occasionally.

The Artillery School, Cavalry and Infantry School, and the various light batteries (Schools of Instruction) are maintained at considerable expense because they are considered important and necessary for the good of the Service. For this reason, then, every lieutenant of the line—according to his arm of Service—is obliged to serve a tour at one or two of these schools, the lieutenants on the regimental staff being excepted. The exception is a very inconsistent one, because it practically makes the schools important for only a certain class of lieutenants, which was certainly not the intention when the schools were organized.

It cannot be possible that when the exception was made the authorities contemplated that lieutenants would be retained sixteen years on regimental staff duty and that certain lieutenants would be required to serve two tours at one or more of these schools before some of the regimental staff had served at all. And yet this has actually happened. There are some lieutenants who have completed two tours in the light batteries and two at the Artillery School, while some of the regimental staff have never served at *any* of the "Schools of Instruction."

Of course there are other reasons—important ones too—why the staff lieutenants should be changed periodically, but it is not necessary to give them in this connection. I will merely state that the exception referred to has established a very bad precedent, and it is to be hoped, for the good of the Service, that it will soon be withdrawn. DILLCOTT.

POST SCHOOLS.

To the Editor of the Army and Navy Journal:

IN placing chaplains in charge of the schools at their posts Mr. Bragg proposes simply to require a duty which has hitherto almost invariably been performed voluntarily by them. As one of those whose children have been for a considerable time in attendance upon the post school here, I wish to say that the hand of the Post Chaplain, the Rev. J. H. Macomber, has been felt in the school from his arrival at the post to the present time and that in consequence we have one of the best post schools in the Army. The debt of the parents and children, as well as the enlisted men in attendance upon the school, is one that can never be paid to him. During his seven years' service at the post, Chaplain Macomber has proven himself abundant in good works, not only in religious but in secular matters; for in addition to his faithful ministrations as a clergyman, we owe to him the foundation of our flourishing lodge of Good Templars, and our equally flourishing post of the G. A. R., and many other good works. VERITAS.

FORT CUSTER, MONTANA, Jan. 25, 1887.

THE STATE TROOPS.

COMPANY DRILLS.

THE best standard by which to judge the efficiency, reliability and general usefulness of an organization is the instruction and discipline of the individual companies. In view of this, we have in recent issues presented the results of visits to several of the New York armories to witness company drills. As the companies inspected were selected at random, the result doubtless affords the material for a fair average estimate of the condition of the New York Guard. With some exceptions, we have not found the attendance at these drills what it should be, nor is the instruction and supervision as full and strict as is required to bring a command up to the proper standard. This accounts for much of the raggedness of execution at battalion drills. As the importance of company drills seems not to be recognized by either field or company officers, we bring this matter specially to their attention. Some regimental commanders evidently allow their company commanders too much latitude in the matter. In some regiments company drills are omitted and "company meetings" substituted. With the limited time at the disposal of the men for instruction, such a custom can have only pernicious results, and the matter should be put an end to wherever it exists. "Meetings," under any circumstances, are destructive of discipline, but, admitting that they are a necessary evil, they should at least be so regulated as not to interfere with what little opportunity there is for military work. That such a condition of things should be tolerated in a regiment commanded by a West Point graduate is still more surprising.

If the city is to give costly armories, organizations should give some recompense, and this they can only do by increasing their efficiency and value as a force to be relied upon in the hour of peril. Without thorough individual instruction this cannot be accomplished, and it is important that officers should make every effort to accustom their men to a regular attendance at company drills by making these drills progressive and instructive, and establishing a system under which the men will take interest in their work. Regimental commanders should look closely into this matter, and see that skirmishing and other practical exercises form a regular feature of the drill programme. Improvement is needed.

NATIONAL RIFLE ASSOCIATION.

THE directors of the National Rifle Association met in Temple Court Feb. 15 and elected Gen. G. W. Wingate president, and John B. Woodruff vice-president for the coming year. The report of the Committee on Range consisted of the introduction of a resolution that in view of the difficulty of raising the funds required to fit up a new range it was inexpedient to discuss the matter at present. This called forth a general discussion. Finally Col. J. G. Story, who objected to the shelving of the Wiman range, said that if the idea of a change was abandoned they would be treated worse than ever, and he believed in keeping one defensive weapon at least. He moved that the resolution be laid on the table, and his motion was carried.

The committees appointed were those on prizes, consisting of Col. John Ward, Major Duffy, and Major Fox; on finance, Col. Bridge, Capt. L. C. Bruce and Mr. Duane; on range, Gen. Robbins, Major Shorkley, and Lieut. Zalinski, and on the annual programme, Mr. Shepherd, Mr. Duane, Major Bell, and Lieut. Zaliuski. Capt. Louis Wendel, of the 1st Battery, was elected a life member.

COOKING FOR TROOPS.

THE members of "The Canteen" supped together at Martinelli's last Saturday and discussed the subject of cooking for troops, which was introduced by a valuable paper read by Lieut. E. L. Zalinski, 5th Artillery, U. S. A. In the course of the discussion the fact was stated that the New York Armory Board are proceeding upon the mistaken supposition that no occasion will ever arise for providing for city regiments in their armories, and accordingly refuse to permit other regiments to copy the example of the Seventh in setting up armory ranges. The question was raised as to the process of reasoning, by which Col. Clark, who is a member of the board, reaches the conclusion that preparations for cooking are needed in the 7th Armory and not elsewhere. The opinion of those listening to the discussion seemed to be unanimously in favor of providing cooking apparatus for all the armories. Among those participating in the discussion were Gen. Molineux, Col. J. H. Jones, Capts. Brady, Burns, Murphy, Aspinwall, of the National Guard: Capts. Jas. Jackson and W. E. Van Reed, and Lieuts. Granger, Adams, A. C. Blunt and John Bigelow, Jr., of the Army, and Lieut. S. D. Greene, of the Navy.

MILITIA TABLE IN THE ARMY REGISTER.

IT is conceded by everyone that the U. S. depends for its defence upon the militia from the various States. That the Regular Army forms but a nucleus about which any other military force would be gathered, organized and officered. It is seen how important it is that the accurate number of the active militia should be known before we can calculate in what degree of security we are living.

Now the only consolidated report of the strength of our militia that is largely circulated, is the abstract report in the Army Register. What information does this abstract convey? That there are about 81,000 active militia in the U. S. Six States make no returns at all. Five States have made no return since 1884 and not a Territory has its force represented, though several are known to have a military establishment.

The great States of Virginia and Georgia do not *appear* to have a soldier, although we hear of the Gate City Guards as coming from the latter State. It seems proper that one of two things should be done; either the Secretary of War should order the Adjt.-General to detail officers to obtain the requisite information from the various States and Territories not reporting, and print an abstract of the same, which would have a real value, in place of the useless page in the Army Register of this year, or issue a separate pamphlet containing only statistics appertaining to our militia force, giving, at least, a page of information concerning organization in each State or Territory.

MASS. VOL. MILITIA.

FEBRUARY 11, 1887.

NATIONAL DRILL AND ENCAMPMENT.

IN answer to inquiries we continue to receive with reference to the National Drill and Encampment, we would state that the Committee on Rules, judges, prizes, are Gen. Albert Ordway (chairman), Capt. Geo. E. Lemon, Maj. H. L. Cranford, Hon. Jeff. Chandler, Dr. Smith Townshend, Capt. Thomas J. Luttrell.

The prizes are a stand of colors and medals for the officers of the best infantry regiment, judged by inspection and review, $3,000 for the best, and $1,500 for the second best battalion of infantry, judged by inspection and drill. Prizes of $5,000, $2,500, $1,500, $1,000 and $500 for the best infantry company; $2,000 and $1,000 for the best cavalry company; $1,500 and $1,000 for the best platoon of artillery; $750 and $500 for the best drill with machine guns; $1,000 and $750 for zouave companies; $1,000 and $750 for cadet corps; $100, $75 and $50 for the best individual drill in the manual; $100 and a gold medal, three prizes of $75 and a silver medal, four prizes of $50 and a bronze medal for rifle practice. In all, $26,500. Congress has been petitioned to authorize the striking by the United States Mint of one grand medal of honor, and not to exceed 19 lesser medals; the same to be designed under direction of the War Department, and to be presented to the competitors adjudged most worthy of the same by the President of the United States, as Commander-in-Chief, or by such representatives as he may delegate.

The drills will be judged and the programmes prepared by officers of the Regular Army, detailed by the War Department for this service. Applications for entry must be made prior to April 1. All organizations will drill in their regular full dress uniform and without music. Communications as to entry have thus been received from the following commands:

Alabama—Mobile Rifles, Lomax Rifles, Montgomery Greys, True Blues, Platoon Light Artillery, State University Cadets.

Arizona—Co. F, 1st Regt., A. N. G.; Tubac Scouts.

Connecticut—2d Regiment C. N. G., Co. K, 1st Regt., Sarsfield Guards, New Haven Greys, Hillyer Guards, Co. E, 4th C. N. G.; 2d Gat. Gun Platoon, 2d Platoon, Bat. A.

Colorado—Chaffee Light Artillery.

District of Columbia—Battalion W. L. Inf., Co. B, W. L. I.; National Rifles, Washington Continentals, High School Cadets, Corcoran Cadet Corps.

Dakota—Co. B, 2d Regt.; Co. A, 1st Regt.

Florida—Escambia Rifles, Perry Guards.

Georgia—1st Regiment, 1st Battalion, Savannah Cadets, Atlanta Rifles, Georgia Military College Cadets.

Illinois—1st Regiment, Co. H, 6th Regt.; Rockford Rifles, Battery D, Battery A, 1st Battalion (cavalry), Chicago Zouaves.

Indiana—Light Infantry, Logansport Greys, Light Guard, Richardson Rifles, Light Artillery (Indianapolis), Light Artillery (Rockville), Rich. Zouaves.

Iowa—3d Regiment, Governor's Greys, Muscatine Rifles, Governor's Guards, Co. B, 2d Regt.; Co. C, 2d Regt.; Co. E, Co. D, 2d Regt.; Co. D, 1st Regt.; Co. —, 3d Regt.; Co. F, 3d Regt.; Co. C, 5th Regt.; Co. E, 5th Regt.; 2d Brigade Band, State University Band, 6th Regiment Band, Decorah Drum Corps, Dubuque Drum Corps.

Kansas—Co. F, 3d Regt.; Light Battery B.

Kentucky—Battalion 1st Regiment, Co. D, 3d Regt.; Co. —, Co. A, 3d Regt.; Light Battery A.

Louisiana—Louisiana Rifles, Crescent Light Guard, Battalion Washington Artillery, Battery B (field artillery), Louisiana Military School Cadets.

Maine—Montgomery Guards, Cadets, Co. D, 2d Regt.

Massachusetts—Emmet Guards, Montgomery Greys, 5th Regiment.

Michigan—4th Regiment, Jackson Guards, Grand Rapids Guards, Custer Guards, Detroit City Greys, Co. D, 2d Regt.; Co. B, 4th Regt.; Co. D, 1st Regt.; State University Cadets.

Minnesota—Light Infantry, 1st Regiment, Co. D, 1st Regt.; Co. K, 1st Regt.; Co. A, 1st Regt.; Co. E, 2d Regt.; 1st City Troop.

Mississippi—Vicksburg Southrons, Vicksburg Rifles, Natchez Rifles, Capital City Guard, Winona Rifles.

Missouri—Co. A, 5th Regt.; Co. B, 5th Regt.; Co. D, 7th Regt.; Co. C, 7th Regt.; Co. D, 2d Regt.; Co. A, 7th Regt.; Co. G, 1st Regt.; Co. A (cavalry), Busch Zouaves, Chevaliers Zouaves.

New Hampshire—Sheridan Guards.

New Jersey—Gatling Gun, Co. A; Gatling Gun, Co. B.

New York—69th Regt., 8th Sep. Co., Achelles Corps, 11th Sep. Co., 27th Sep. Co., Rochester Cadets, 26th Sep. Co., 22d Sep. Co., Troy Citizens' Corps, Co. D, 22d Regt.; Buffalo Cadets, Vet. Corps, 22d Regt.; 2d Battery 1st Brig, Johnstown (Zouaves).

North Carolina—2d Regt., N. C. S. G.; Fayetteville Lt. Inf., Co. F, 3d Regt.; Co. E, 4th Regt.; Governor's Guard.

Ohio—1st Regt., O. N. G.; 2d Regt., O. N. G.; 5th Regt., O. N. G.; Cleveland Greys, Co. K, 7th Regt.; Governor's Guards, Toledo Cadets, Co. H, 2d Regt.; Co. D, 8th Regt.; Co. G, 2d Regt.; Battery B, 1st Regt.; Gatling G Platoon, State University (Cadets), 5th Regt. Drum Corps.

Oregon—Co. G, O. S. M.

Pennsylvania—1st Regt. and 1st Batt'n, 10th Regt., N. G. Pa.; Co. C, 18th Regt.; Co. H, 9th Regt.; Co. B, Fencibles: Cadet Corps.

Rhode Island—1st Batt'n R. I. M., Kentish Guards, Co. C, 1st Batt'n; Co. A, 4th Batt'n; Batt'y A, 1st Machine G. Plat., C. F. T. Cadets, Co. B, 1st Cav.

South Carolina—R. Vol. Rifle Co., German Fusiliers.

Tennessee—Chickasaw Guards, Porter Rifles, Hermitage Guards, Merchants' Zouaves, University Corps (Cadets).

Texas—Houston Lt. Guard, Seally Rifles, San Antonio Rifles, Washington Guard, 4th Regt. Band.

Virginia—Walker Guards, Light Infantry, Fredericksburg Guards, Richmond Greys, St. John's Academy (Cadets), Cadet Corps.

Washington Territory—Seattle Rifles.

Wisconsin—1st Regt. W. N. G.; Co. F, 3d Regt.; Co. E, 2d Regt.: Co. A, 1st Regt.; Co. G, 3d Regt.; Co. H, 1st Regt.; Lt. Horse Squadron, 1st Light Battery, American Cadet Band.

THE MILITIA BILL A LAW.

THE President has allowed the act appropriating $400,000 a year to provide arms and equipments for the militia to become a law without his signature. The constitutional limitation of ten days within which he should have acted on this bill expired on Saturday. His failure to sign the bill was an oversight, as he did not object to any of its provisions.

Seventh New York.—Col. Emmons Clark.

THIS regiment will parade in fatigue uniform (white belts) on Friday evening, Feb. 18, for battalion drill, and in full uniform on Wednesday, Feb. 23, for review by the Commander-in-Chief, Governor Hill. Assembly at 8 o'clock P. M. The Marksmen's Badges for 1886 will be presented after the review. Admission (except for officers and members of the regiment in uniform) will be by ticket only.

The companies of this regiment will assemble in fatigue uniform (white belts) for drill in the School of the Battalion as follows: Cos. E and F, Tuesday, March 1; Cos. A and H, Friday, March 4; Cos. D and G, Monday, March 7; Cos. B and I, Thursday, March 10; Cos. C and K, Wednesday, March 16. Assembly at 8 o'clock P. M. Each battalion of two companies will be divided for instruction into six commands, and sergeants will therefore be prepared to act as officers, and corporals as company guides.

The following named, having been examined, have been granted warrants as non-commissioned officers: 1st Sergeant Horace C. DuVal; Sergeants Clarence Freeman, A. E. White, and F. G. Landon; Corporals C. O. Toussaint, E. C. Denison, and W. H. Journeay.

Twelfth New York.—Col. J. H. Jones.

LIEUT.-COL. HEMAN DOWD commanded the battalion of four companies of 12 files, made up of G, H and F, on Tuesday evening, Feb. 15, during the first half of the drill. Co. G was on the right, F had the colors, H the left and the made-up company the left centre. The battalion presented the appearance of a neat, steady and soldierly body of men to a remarkable degree. A decided improvement has taken place in this regiment for the past three or four years. The manual was full of snap and life, with an unusual degree of regularity. The 1st sergeant on the right of the battalion executed the present in violation of Par. 189, and as he was the only exception his error was very conspicuous. By the command companies column left, the battalion made an advance by the flank of subdivisions, the same command brought it into column of fours, which formed line on the right in good shape. The command column of fours, break from the right to march to the left, was then given, and the two first companies managed to dovetail in properly, but the third was so much behind time that it lost almost company distance, and, with the fourth, it had to take up the double time to catch up. After this followed a march in company fronts, column of fours, and on left into line, all well-executed, and then the command was given for the firings. Two officers here failed to retire at the first command, evidently relying for their guidance upon what their neighbors should do, delaying the action of the commander and spoiling the appearance of the whole. As in active service it would be important to all concerned to clear the field for rapid action without hesitation, it would be well for all to post themselves thoroughly on the principles governing these points. The execution on the part of the men, although not as perfect as is necessary, showed vast improvement. Some of the volleys delivered deserve commendation. During the fire by company some commanders again appeared to exhibit signs of basing their action upon the example of their neighbors instead of relying upon their own knowledge in the matter. When, at the conclusion of the firings, the command right forward, fours right, was given, the third company went fours right and created temporary confusion, but was rescued in time to save the movement, and then, when line had been reformed, column of companies was formed to the rear in fair shape. Having again broken into column of fours line was established on the right with the firings. This was well done. In executing close column of companies on first company right in front, the two centre companies went too far out of their latitude and failed to cover. Why? The movement was simple, and no reason for an error of any kind. The deployment on fourth company was ragged in several instances, because some of the junior company commanders did not understand exactly when the proper time and place for them to halt, and the wheel into line of their commands had been reached. The ployment was then repeated with a deployment on fourth company, but it did not turn out as smooth as should have been the case. On right close column of companies with deployment, companies left front into line and on right into line closed the first half of the drill, and a rest was given.

Col. Jones then took command of the drill, relieving 1st Lieut. Parsons from command of the spare company, in order to give another subaltern, 2d Lieut. Girard, of Co. F, a chance as company commander. The Colonel was somewhat hoarse, but as full of vivacity as ever. He gave the command column of fours break from the right to march to the left, and then after breaking the companies again into column of fours formed line in excellent shape without loss of distances and an almost perfect alignment. The battalion, although it had been handled in excellent style by the Lieutenant Colonel, evidently became freshly inspired by the rapid, spirited commands of the Colonel, and officers and men seemed to be put on their mettle. Having performed an excellent on right into line, companies broke from right to march to the left, with exact distances, and then were reformed into line in order to execute double column of fours. While marching around the hall in this formation the battalion presented an exceedingly compact appearance, and the formation of line by the command fours right left companies on right into line was very well executed. Double column of companies was then formed and deployed in fair manner, after which the battalion went into column of fours and again formed double column, this time to deploy by two movements, which was spoiled to a great extent by ruggedness of execution in the first company, but repeated with better result. Then right of companies rear into column was again taken up, and while we cannot find any fault with its execution on principle, yet that perfection for which we have reasonably been looking for years was by no means obtained, and the men straggled to a considerable extent. The double column movements and deployments were then again taken up with success, after which on the right into line from column of companies was spoiled by the commander of the first company, because instead of giving the command right turn he wheeled his company into line, which delayed those who were in his rear. It was repeated in proper manner. Some more close column movements, with deployments on 1st, 4th, and interior companies, deployments faced to the rear, and changes of direction by the flank then brought the drill to a close, and as these movements were executed with a high degree of perfection there is no reason to comment on them further.

There is hardly a drill during which no mistakes are committed. We have called attention on this occasion to such as we noticed, but, nevertheless, it is only fair to say that especially during its latter half, it turned out one of the best working affairs we have been called on to witness. The officers were generally well posted and on the alert, and it gives us special satisfaction to state that the guides exhibited great improvement in the rapidity and correctness of their movements. The drill was executed in a most rapid manner, nobody knew what movement was coming, the file closers were constantly changed from one flank to the other, and the officers had to keep a very sharp lookout as to whether the right or left was in front. The manner in which they evaded difficulties on this score was remarkable, and deserves special commendation. The 12th is on the road to success.

The prospects of moving into the new armory are still as near and yet as far as ever. The building is nearly finished, but inferiority of workmanship and omission of small but important details on the part of the contractors, with which the city authorities and Col. Jones are not willing to put up, will delay the final acceptance of the building for some time to come. Of course, the contractors try to crawl out of obligations of this sort by all means in their power. It is, therefore, extremely doubtful that the regiment will move into its new quarters before May 1.

Col. Jones has ordered battalion drills for Cos. C, G, H and K, March 1; A, F and I, March 3; B, D and H, March 4, officers instruction under the recent orders of the Commander-in-Chief, Feb. 24 and 28, and instructions of non-com., staff and sergeants of Cos. A, C, D, H and K, Feb. 25, and B, E, F, G and I, March. 9.

Twenty-second New York—Col. John T. Camp.

The 22d New York opened the battalion drill season on Wednesday evening, Feb. 9, Cos. C, E, F, G and H, presenting an aggregate of 92 files, 72 files of which were organized into six commands of 12 for a drill, while 44 men were turned off for guard duty. This is rather a large guard, but a larger command for drill would overlap the sides of the hall, and be of but little use. Four companies of 16 files each would afford still better facilities for instruction. For the first drill of the season it was a remarkably good one, officers, guides and men acquitting themselves in a very creditable manner. Bugle calls were used whenever the movement permitted. A number of junior officers were in command of companies, but thanks to the efficient theoretical instruction given, they were well up in other duties, and the drill passed off as one of the best working drills that has come under our notice for some time.

Cos. A, B, D, I and K, formed a battalion of similar size on Friday, Feb. 11, the entire turnout being 86 files, 28 men thrown out for guard. Col. Camp was again in command. The movements [illegible] from those at the previous drill. The formation of column was [illegible] as is always the case in

a well instructed regiment. The command was first marched around for some time in column of fours to test the dressing and distances. Their correctness was well proven by an almost instantaneous alignment on wheeling into line. The step was good and the even slope of the pieces gave the column a very regular, military appearance, without too much waste of time and attention in cultivating too fine an execution on these points. The column looked business-like without anything like *salon drill* about it. Advances in line in an armory do not amount to much unless there is plenty of room for their execution, which is not the case in the 22d Regiment armory; still so far as they went they were very well done. General alignments, obliquely to the original line tested the understanding of officers and guides, but they came out creditably from the ordeal. The four ugly and ungainly pillars which deface the drill room, at least gave the battalion an opportunity to illustrate, how, why or wherefore provision for passing obstacles has been made in Tactics, without any aid of the imagination. The battalion did its work well in both wings, first one, and afterwards two companies falling to the rear in each case.

After this the battalion again formed into fours and executed on the right and left into line with the firings, and then went into double column of fours movements, first forming line to the front by the commands right and left front into line, and afterwards coming into line by two movements. Next came right and left of companies rear into column, which, with the small company fronts, did not turn out very handsomely, although executed on correct principles. The remainder of the movements consisted of marches in company front and wheels into line from the halt and on the march and formations front into line from column of fours faced to the rear. As a general thing the drill was a very handsome one, but not as good as the one two days before. Col. Camp handled the battalion well and with rapidity. Practice, no doubt, has its decided effect upon him, and he holds his command under perfect control at all times, giving his commands in excellent time and with ease on all occasions. At the previous drill, the movements wherever the bugle call could be applied were executed by that means. This developed the rather curious fact that the men understood the calls better than the officers. This, however, seems quite natural when it is considered that the bugle has before been used only at company drills where the officers indicate the calls without paying attention to their sound, while the men take their cue from the latter, are constantly on the alert, and soon become expert in executing their movements according to the signal. In many instances during the formations of line facing to the rear company commanders halted their commands fully six, instead of three yards beyond the alignment, and then before dressing moved them back by the command forward march. This is wrong and should be discontinued at future drills. The guides were as a general thing prompt and well instructed, but they seemed to annoy the lieutenant colonel during the formations faced to the rear by inverting their pieces prematurely, it being the principle taught in the regiment that pieces should not be inverted until the companies have passed the guides and the latter have taken their positions for the final establishment of the line. This seems very reasonable.

Both drills were exceptionally good working drills at the beginning of the season, and show the wisdom of the officer's and guides' schools now maintained in the 22d for several years.

Seventy-first New York.—Col. E. A. McAlpin.

ANOTHER drill under command of Lieut.-Col. Appleton D. Palmer took place in the armory of the 71st on Thursday, Feb. 10. There was less marching and double timing than at the one previously described, and consequently less aimless rushing and waste of muscle and time. The larger portion of the drill hour was occupied by the loadings and firings, in which it fell to the lot of the instructor to attend to much matter of detail which properly belongs to the squad and company instructors. There are many reasons why the 71st should receive lenient judgment for falling short in its marching drill, but we fail to see any reason why it should not be as well up as the average organization in set-up, steadiness, individual bearing, the manual and the loadings and firings. Dissatisfaction and apathy created by a lack of proper quarters, internal discord for many years past, have, doubtless, had much to do with bringing about this unsatisfactory state of affairs, but they are, after all, only lame excuses, because the material of which the regiment is composed could easily be brought to a much higher standard of perfection by proper attention and the application of a regular progressive system. The manual was very irregular and ragged, a large number of men demonstrating at the first glance that the recruit squad and not the battalion was their proper place. Still even under the existing unsatisfactory conditions, a very marked improvement developed in its general appearance before the manual was superseded by the firings, which shows that within a brief period competent handling could easily bring the men up to a standard of perfection, by which this regiment would obviate all unfavorable remarks on the subject. The firings took a long time and, with exception of lying down, comprised all the various phases of the subject as required by the Tactics. While the instruction was not very elaborate, yet no such breaches of tactical rules as described in our previous report of a drill in this regiment were committed. There was too much for one man to oversee, however, and under any circumstances but little in the way of improvement could have been accomplished with so large a number of men with so limited preliminary instruction. The degree of attention paid by the officers and file-closers in rear of the line to individual mistakes we could not determine from our position, but they were kept very busy, as occasion for correction abounded on all sides. The men need company instruction. The marching consisted of advances by subdivision by the flank, formation of battalion column of fours, wheels by fours into line, and advances and retreats in battalion front. The men kept their distances fairly, much better than at the preceding drill, and the wheels by fours into line were consequently much better than on that occasion. This armory is hardly the place in which to practice marches in battalion front and it would, therefore, not be fair to say anything unfavorable about them, no matter how executed.

Since the drill took place Lieut. Col. A. D. Palmer, Capt. Thos. A. McBain, of Co. F, and Lieut. James A. Wright, of Co. B, have resigned. Whether this will bring improvement in the affairs of the regiment remains to be seen. Lt. Col. Palmer is a graduate of West Point of the class of 1865, and resigned from the Army as a captain of the 4th Artillery in 1873. On Sept. 12, 1881, he was elected lieutenant colonel of the 71st N. Y., during the regime of Col. Richard Vose. While, no doubt, a competent officer, he evidently did not pay that attention to the affairs of his regiment which was essential to usefulness among State troops, and consequently did not meet with success. In fact in view of the manifest lack of interest exhibited by him in his organization it has been a matter of surprise among National Guardsmen why he held on to his position for so long a time. Capt. McBain joined the 71st as a private July 6, 1883, was elected 2d lieutenant Jan. 18, 1884, and captain of Co. F June 23 of the same year. Lieut. Wright served during the war in various organizations from 1861 to 1863, enlisted as a private in Co. B, 71st Regt., March 17, 1885, was appointed company quartermaster sergeant May 12, 1885, and elected 2d lieutenant June 16, 1885.

At 8.15 P. M., Tuesday, Feb. 15, Cos. F, H, I and K were promptly turned over by the adjutant to Maj. F. Kopper, with Ordnance Sergeant Rockafeller as acting sergeant major. The adjutant disappeared at once, which left the battalion commander with an efficient, but very inexperienced, non-commissioned staff officer as his only assistant. The first exercise was the manual, which showed great improvement in regularity, steadiness and attention on the part of the men. The plain, decisive commands of the instructors, no doubt, had their effect on the men, which only shows what company commanders could accomplish with proper attention. At the conclusion of the manual, the command was put into column of fours with a decidedly short step, lack of life and spirit, and slow execution on the right. It took quite a long time before the cadence step was reached through the entire battalion. When this had been accomplished ployments in close column, right and left in front and corresponding deployments, were executed with decided disadvantages on account of limited space.

The battalion then closed in mass on 4th company, took wheeling distance, advanced in line of battle, broke by fours from both flanks to march to the right and left and wheeled into line by fours. At first the marchings were somewhat ragged, but the command steadied down gradually and came into line handsomely, without any need for dressing. These movements were all repeated several times, and occupied about one hour and twenty-five minutes, and at their conclusion the drill was wound up with another manual, which was about as good as we have seen it done by the four companies engaged. Various slight errors occurred. The Major in facing the command about did so with arms at support, which is scarcely customary. The general guides are hardly properly posted in their duties in all movements. They came out in deployments where markers had been placed to fix the alignments. In fact it did not seem to be understood that whenever markers are placed in front of a command it is wrong for guides to come out. In advancing in line of battle the general guides did not come out on line with the colors; in marching to the rear the colors remained in rear, instead of taking their proper position. When forming on right or left into line markers should be posted in front of the leading company, which was omitted. In executing the break from the flanks to march to the right or left by company or column of fours, the first captain marched invariably double his distance to the front and caused much trouble to those who had to follow him, while in many instances captains failed to give the numerical designations to their company during the ployments into close column. The bearing of the men was good; they attempted to be military, silent, and attentive. General guides and file closers need instruction. The latter at all times kept themselves hardly more than one yard distant from the line and were badly aligned. The instructor, on account of lack of assistance and limited space, was compelled to skip over many small mistakes, the correction of which would have fallen to the lot of his assistants, if he had had any. Hereafter we advise him, in the absence of any other field officer, to keep the Adjutant on duty with the battalion.

MILITIA ITEMS.

Co. I, 8th N. Y., will hold another reception in April next

Co. A, 22d N. Y., will give a reception at their armory on Feb. 21.

Governor Gordon, of Georgia, is to review the twelve companies of Savannah on Tuesday next, Feb. 22, Washington's birthday.

Co. A, 23d N. Y., is to hold spring athletic games at the armory on Saturday, April 2.

The surgeons of the 2d Brigade met on Friday evening, Feb. 11, and formed an association "to advance medical military science and to promote free discussion and debate upon such topics as will conduce to the health and comfort of the National Guard."

Co. I, 7th N. Y., will give a burlesque entertainment on "William Tell" on April 14, at the Academy of Music. The proceeds will be devoted to the endowment of beds for the unfortunate members of the 1st Brigade in Hahneman Hospital.

The militia of Vermont will shortly receive new arms, in the shape of the latest style of the Springfield rifle.

The 8th N. Y., Col. Scott, will assemble for drill in State service uniform as follows: Cos. F, H, G, and I, Monday, Feb. 21; Cos. B, C, D, and E, Thursday, Feb. 24. Marksmen's badges will be presented on these evenings.

The repairs to the large drill room of the 11th N. Y. progress so slowly that no battalion drills can be ordered this month, and the proposed review and ball which were to have been held on the 22d cannot take place.

A school for theoretical and practical instruction, in compliance with G. O. No. 4, C. S., General Headquarters, has been organized in the 2d Battery, N. Y., and will meet every Thursday night.

The silver reception of the 47th N. Y. will take place in the armory on the evening of March 29. On this occasion the Cross of Honor will be presented to all members and ex-members of the regiment who have served ten or more years.

It is expected that the 3d Battery, Capt. Henry S. Rasquin, will go into camp at Roa Hook the coming summer, in company with the 22d N. Y., fully horsed for instruction in mounted manœuvres.

A Delinquency Court for the trial of commissioned officers of the 2d Brigade, N. Y., who have been reported as delinquent will convene at Brigade Headquarters Feb. 23. Detail: Col. Louis Finkelmeier, 32d Regiment; Col. Wm. J. Denslow, Inspector, 2d Brigade; Lieut.-Col. Seldon C. Clobridge, 14th Regiment.

The first official appearance of the 23d N. Y. in its new dress uniform will be on Feb. 21, the occasion of the review at its armory by Gov. Hill.

Capt. Thos. Miller, of the 17th Separate Company Flushing, L. I., who had recently some intention of resigning, has decided to remain with the company. The 17th has every reason to be thankful.

The Philadelphia City Troop, the oldest military organization in the U. S., was the first company to celebrate Washington's Birthday by parading on Feb. 22, 1805, and has kept up its observance ever since, regardless of the weather. The Troop will have the usual inspection, parade and banquet, on Tuesday next.

2d Lieut. Edgar E. Sage, of Co. I, 7th N. Y., has resigned, no doubt, on account of being overslaughed by the election of the 1st sergeant of the company, H. C. Du Val, to the position of 1st lieutenant. Lieut. Sage joined the company as a private, Oct. 7, 1875; was made corporal, Dec. 4, 1876; sergeant, May 10, 1881, and 2d lieutenant, Jan. 10, 1884.

The State Examining Board will hold a session at the State Arsenal, New York City, Saturday evening, Feb. 19. So far as known only one candidate, Lieut. H. de V. Parker, of the 11th New York, will be sent before it. Application to have him sent there was made by Col. Stewart and approved by Brig.-Gen. Louis Fitzgerald early in the week.

The balance of the fund of the 11th New York, dating from the Unbekant administration, about which so much trouble has existed for several years, and which was claimed by the widow of Colonel Unbekant some time ago, has at last been secured by the present Colonel, A. P. Stewart, who now has taken definite charge of it and appointed a Board of Trustees consisting of officers of the regiment to dispose of its proper disbursement.

Brig.-Gen. Louis Fitzgerald has issued orders as follows: "Co. A, 12th Regt., Capt. Howland Pell commanding, having won the 'Belknap Trophy,' in accordance with the provisions of Circular dated Headquarters 1st Brigade, 1st Division, N. G., S. N. Y., New York, Dec. 26, 1883, it is hereby awarded to said company. Co. B, 22d Regt., Capt. William V. King commanding, the present holder of the trophy, will turn it over to the custody of Capt. Pell."

The competitive bayonet and skirmish drill between Cos. C, 11th, and D, 12th N. Y., has been fixed for March 2, at the 12th Regiment Armory. Competent judges are in demand.

The 47th New York had battalion wing drill on Tuesday, Feb. 15, and Friday, Feb. 18.

Col. Chas. E. Bridge, late Asst. Q. M. Gen., on the staff of Gov. Cleveland, and Treasurer of the National Guard Association, has been presented with a handsome testimonial on behalf of that body on account of "his efficient services as Treasurer of the Association from 1881 to 1886." The testimonial consists of a well-executed and handsomely framed set of Resolutions, particularly valuable on account of their terseness and the absence of all fulsomeness, which usually characterize such affairs. The colonel certainly deserved it very highly, not only on account of his services to the New York Convention, but also to the National Convention—all of which he has strictly performed as a labor of love.

Cos. B, D, G, H and I, of the 13th Regt., will drill on Wednesday evening, Feb. 23, at the armory, and Cos. A, C, E, F and K on Friday evening, Feb. 25, assembling at 7.45 P. M.

Tax Commissioner Coleman, of the Armory Board, is now advocating a plan to utilize a portion of Bryant Park at 42d street for armories, and thereby save the city a million and a half of dollars. A bill authorizing the removal of the ponderous granite reservoir and the utilization of its materials for the new armories will presently be sent to the Legislature. The plan is approved by Mr. Crimmins, President of the Park Board.

The field officers of the regiments, the commanding officers of the batteries and the staff of the 1st Brigade will assemble in undress uniform at the 7th Regiment armory, at 8 P. M., March 12 and April 16, 1887, to receive instruction under the direction of the Brigadier-General commanding.

MISSOURI NATIONAL GUARD.

THE defeat in the Legislature, Feb. 15, of the Militia Appropriation bill has caused a disturbance. All the officers of the 1st and 2d Regiments have tendered their resignations. The privates are demoralized, and the State is entirely defenceless. For six years the militia has rendered the State great service in the disorders arising from strikes, and for ten days the two city regiments were camped out at Sedalia, and Gov. Marmaduke promised to see that the men were reimbursed. He worked for the present bill, but it was defeated. When the news reached St. Louis a meeting of the officers was called and all resigned. Col. Bull, Inspector General of the State; Col. C. C. Rainwater, and about 20 sub-officers, including captains, lieutenants, and sergeants, sent their resignations to the Governor.

MASSACHUSETTS MILITIA.

G. O. No. 3, A. G. O., announces that Col. Daniel P. Crocker, assistant adjutant general on the staff of the Commander-in-chief, died at his residence in Springfield, February 10.

The Commander-in-chief, with his staff, in citizens' dress, will attend the funeral, which will take place at Springfield, on Sunday, Feb. 13, at 9.30 o'clock A. M. The staff of the Commander-in-chief will wear the usual badge of mourning for thirty days.

LOUISIANA.

THE report of the Adjt.-General of Louisiana, Gen. G. T. Beauregard, for the year ending Dec. 31, 1886, shows that there are 960 Springfield rifles distributed among the troops, 240 of them of .50 calibre and the others of .45 calibre. Beside stored in the State Armory there are 331 Springfields of the .45 calibre, 464 of calibre .50, 20 Sharps carbines and 221 Sharps rifles, calibre .45 and 318 Enfield rifles of calibre .58. Total small arms, State property, 2,344. The Artillery consists of two Gatlings, six Napoleon 12-pdrs., four 12-pounder howitzers and three 3-inch wrought iron rifled guns. There are also four 10 pound Parrotts belonging to the Washington Artillery. The organized forces of the State number 1,633, viz.: 40 general and staff officers, 137 Cavalry, 637 Artillery, and 1,057 Infantry. The Governor, S. D. McEnery, is the Lieut.-General of this force, with Brig.-Gens. G. T. Beauregard, W. M. Owen, W. Pierce, G. W. Dupree, E. S. Lewis and J. B. Vinet, and Cols. T. A. Faries, of the General staff, and the following Colonels and A. D. C.s': G. A. Lanaux, F. Kennedy, W. G. Vincent, C. A. Larendon, T. Generally, E. A. Ducros, J. B. Lallande, R. T. Beauregard, J. Clegg, P. A. Tabray, H. P. Kernochan, W. H. Byrnes, J. H. H. Hedges, S. M. Robertson, H. B. Richardson, H. C. Brown, S. F. Lewis, H. B. Thompson, G. C. Phillips, R. E. Wyche, T. S. Jones, G. A. Kelly, H. W. Fairchild, R. W. Gillespie, R. Sinnott, W. P. Curtis, H. H. Baker, E. T. Leche, A. S. Blanchard.

Majors and A. D. C.'s: N. C. Blanchard, I. D. Moore, S. P. Colvin, H. P. Luckett, P. Lanaux, C. Delassons, P. J. Trezevant, E. E. Wood, E. Flood, J. Shaw, C. W. Phillips, John Glynn, Jr., is Maj.-General, Ad. Myer, J. S. Billin, L. Jastremski, J. R. Pacherson, W. A. Strong, J. Floyd King, W. T. Theobold, S. J. Ware, Brig.-Generals. The number of men in the State available for military duty is returned at 138,439. The State has appropriated $16,000 to supply disabled Confederate soldiers with artificial limbs and 181 persons have taken the benefit of the act. Blunt's Rifle Firing has been adopted and "in practice," says Col. E. C. Fenner, I. R. P., "this work has proved of incalculable value, and the rules and regulations as published, do much to simplify the instructions usually necessary to develop any degree of proficiency in the individual soldier."

CALIFORNIA NATIONAL GUARD.

THE caustic San Francisco *Report* says: "The California National Guard consists of 229 officers and 3,000 men, or one officer to every thirteen men. The German Army has only one officer to every eighty men. If California had one officer to every thirty-nine men, instead of every thirteen, it would have more than military efficiency called for. The N. G. C. is top-heavy with officers."

MISSISSIPPI.

IT is expected that in a few days the two 10-inch Rodman guns and several mortars to be transferred from Fort Jackson to the Mississippi State military camp at Pass Christian will be placed in position ready for use. Capt. J. Rockwell, U. S. Army, will superintend the transfer to Pass Christian.

NEW PUBLICATIONS.

During the war with Mexico Raphael Semmes served as Flag Lieutenant of the Home Squadron and A.-D.-C. to Major-General Worth in the battles in the Valley of Mexico. At the close of that war he published a narrative of his experiences in a volume we have before us, entitled "Service Afloat and Ashore during the Mexican War." Semmes has chosen the same title, "Service Afloat and Ashore," for a volume just issued, with the addition of this sub-title, "The remarkable career of the Confederate cruisers *Sumter* and *Alabama* during the war between the States, by Admiral Raphael Semmes, of the late Confederate States Navy." Such a volume could not fail to be interesting, but it is evident that age and reflection failed to accomplish their wonted work in sweetening its author's temper and disposing him to take a philosophical view of life. It was not for the sailor who was whipped in the first fair fight he made during the war to abuse his antagonist in that contest and to raise the question whether Admiral Winslow continued to be the "humane and Christian gentleman" he was before the war. Nor was it in good taste to indulge in such talk as this volume contains about "northern savages," or to describe President Lincoln as conducting, "without any warrant for his conduct," "a war of rapine and lust against eleven sovereign States." To this malicious misrepresentation is added the addenda: "As a Christian, it was my duty to say, 'Lord, have mercy upon his soul!' but the d—l will surely take care of his memory." Booth's infamous deed is described by this retired corsair—whose spirit is naturally sympathetic with it—as "a just retribution." This is the man who has the effrontery to lecture "the officers of the old Navy, many of whom belonged to the gentle families of the land, and all of whom had been bred in a school of honor," for taking "to the slang expressions of the day" and falling "pell-mell into the ranks of the vulgar and fanatical rabble that was hounding on the war." It was doubtless a very "vulgar and fanatical" act that Winslow indulged in when he sunk the *Alabama*, but it pricked the bubble of Semmes's reputation as a fighting officer, and left him to gather such laurels as he could from the long series of depredations on unarmed merchantmen which are described in this volume. It is those whose own careers furnish the most occasion for excuse and qualification who are the most disposed to censure, and Semmes furnishes no exception to the rule. The destruction of the property of non-combatants is justified by the laws of war, but it is not one of the incidents in which the self-respecting officer should find special occasion for congratulation and self-glorification. Naturally one who was willing to boast himself free of the laurels won in this field was equally disposed to re-

duce others to his own level by criticism and misrepresentation. The author of "The Cruise of the Alabama," who served with Semmes, tells us how, when he returned to his home in Cumberland, his father, an old naval officer, received him "with deep disgust and strong language. He spoke of the *Alabama* as a 'sneaking pirate,' and hoped that I wouldn't take to housebreaking next." He describes Semmes as "addressing his crew as Englishmen, and urging them to "do their best to injure and disgrace his own countrymen." "No English officer," he adds, "would do that, I think, under any circumstances." If Semmes did not fly a pirate's flag he shipped a pirate's crew; "they were mostly English, with a few Irish, Danes, and one Russian or Finn," and "after taking some fifty-five vessels and destroying the greater part of them, inflicting incredible loss on private individuals, what good," asks this truthful narrator, a Southerner by birth, "had we done for the Southern Confederacy? When I look back at the incidents inevitable to the service I am not over-proud of my share in it." Possibliy it would have been better for Admiral Semmes had he been equally searching with self-criticism, and he should at least remember the adage concerning those who live in glass houses. The seventy pages of historical review and discussion of "the Nature of the American Compact," with which Semmes's volume opens, might as well have been condensed into these three words, "vide American Constitution." It is a subject that has been exhausted by much abler writers on such topics. This work was originally published by the Baltimore Publishing Company, but the plates have been transferred to Messrs. Wilson and Ellis, of New York, who will publish it by subscription. It is illustrated with steel engravings and portraits and six engravings from original designs printed in chromo tints.

The third instalment of ex-Minister Washburne's "Reminiscences of the Siege and Commune of Paris," in the March number of *Scribner's Magazine*, describes the evacuation of Paris by the Germans, the insurrection of the 18th of March, 1871, and the establishment of the Commune, the assassination of Generals Lecomte and Thomas, the burning of the guillotine by the mob before the statue of Voltaire, and many other striking incidents which occurred during the brief but terrible reign of the Commune. Descriptions are given of the leaders of the Commune and of others who were prominent in Paris at the time.

Vol. 17, Series 1, Part 2, "Official Records of the War of the Rebellion," prepared by Colonel R. M. Scott, U. S. A., contains correspondence, orders and returns relating to operations in West Tennessee and Northern Mississippi, from June 10, 1862, to January 20, 1863. It is an interesting number.

The interesting article on the "Founding and Development of the U. S. Hydrographic Office," by Lieut. W. S. Hughes, U. S. N., has been issued in book form from the Government Printing Office.

Military Order of the Loyal Legion.

A St. Paul correspondent, referring to the paper on the battle of Mine Run by Gen. E. C. Mason, U. S. A., read recently before the Minnesota Commandery, says: "The paper was a scholarly criticism of the plans and working of the Wilderness campaign, recounting the great difficulties with which the Union Army had to contend, and detailing minutely the movement of the speaker's own command previous to and during the engagement of Mine Run. Gen. Mason has, in an eminent degree, the power of making descriptions so realistic that the scene he talks of is presented like a picture to the mind, and the deeply interested listeners seemed, for the time, again on bloody fields in the old war days. A vote of thanks rewarded the gallant soldier's effort."

ANSWERS TO CORRESPONDENTS.

A. B. C.—You stand No. 8 on Commissary Sergeant list.

Geo. See.—You stand No. 41 on Commissary Sergeant list.

Retro.—Major-General Hancock had he lived would have reached the age of 64 Feb. 14, 1888.

W. H.—For the particulars you desire write to the Adjutant U. S. Marine Corps, Washington, D. C.

Idaho.—The Court of Inquiry meets at Fort Cœur d'Alene March 14. Col. H. M. Black, 23d U. S. Inf., of Fort Wayne, Mich., is the President of the Court.

Cannon.—The Senior Captain of Artillery is H. C. Hasbrouck, 4th Regiment. He will be promoted Major in August next, when Colonel John Hamilton, 5th Artillery, retires.

H. G. H.—Write to the Adjutant, Military Academy, West Point, for a copy of the Cadet Register, 1886. In it you will find a fund of useful information, in regard to admission, qualifications, etc.

Inquirer.—Get, if you can, the member of Congress of the district in which you reside to recommend you to the Secretary of War for a cadetship at West Point. Your own application to the Secretary would be of no avail.

J. K.—We see nothing in the Mexican Pension bill, approved Jan. 29, 1887, to prevent a retired enlisted man of the Army from drawing a pension thereunder, always providing that he served as specified in the act which we publish elsewhere.

H. C. G. asks: Will the cartridge belt, as used by U. S. Army on the plains, be permitted in competitive drill at Washington, in place of cartridge box? ANS.—No. All organizations will be required to drill in their regular full dress uniform.

Cannon asks: Can an application for position of commissary sergeant be withdrawn and placed on file for position of ordnance sergeant? ANS.—No; the requirements for each position are somewhat different. See paragraphs 259 and 260 Army Regulations, 1881.

H. W. asks: "Who are the present incumbents at West Point, and when do they graduate, representing the 2d, 3d, 4th, 5th, 6th and 9th Massachusetts districts?" ANS.—2d, Charles Grant French, 1888; 3d, Ebon E. Winslow, 1889; 4th, now vacant; 5th, M. W. Rowell, 1890; 6th, Thos. M. Corcoran, 1890; 9th, M. J. Lenihan, 87 candidates already graduated for this vacancy.

Querist asks: A company is in double rank at a halt in column of platoons; the command is given "fours right" (or left) followed by the command "halt" the instant that the fours have completed the wheel. Does, or does not, the rear rank of each set of fours upon halting, fall back to thirty-two inches and dress to the left (or right)? ANS.—The distance in column of fours, double rank, is 32 inches in all cases like this.

Gaston.—Prior to the War of the Rebellion the ration of bread or flour was 18 oz. By sec. 13 of the act approved Aug. 3, 1861, it was increased to 22 oz., and so continued until the act approved June 20, 1864, which reduced it to what it was in 1861, 18 oz. So it still remains, but under the authority conveyed by par. 526 of the Regulations as amended in G. O. 4, of 1882, A. G. O., "at posts where fresh vegetables cannot be raised the ration of bread may be increased at the discretion of the department commander not to exceed twenty-two ounces."

Union Soldier asks: Can an enlisted man of proper age, upon the recommendation of his post or battery commander, gain admittance to West Point if he is able to pass the required examinations? ANS.—No; appointments are made by the Secretary of War at the request of the Representative or Delegate in Congress from the District or Territory; and the person appointed must be an actual resident of the District or Territory from which the appointment is made. The appointments at large are specially conferred by the President of the United States.

G. M. S.—There seems to be nothing positive laid down in Tactics with regard to the manner in which field officers take their places in front when the ranks are opened on dress parade. The thing must therefore be reasoned out by analogy. In paragraph 810, page 348, it is stated that the adjutant in marching to the front passes *in rear* of the line of company officers. In paragraph 383, describing the method of opening ranks the colonel in placing himself in front of the battalion passes *in front* of the line of company officers. While not all the company officers, the captains at least, are superior to the adjutant in rank, and he therefore passes in rear of their line. On the same basis the colonel being their superior passes in front of their line. Judging from this it would be reasonable to assume that it is a principle of Tactics that officers higher in rank than captains pass in front of the line of company officers, and those inferior in rank in its rear. Accordingly, field officers should pass in front of the line of company officers.

LEGAL STATUS OF THE MARINE CORPS.

IN the case of the U. S. vs. Susanna E. Dunn, administratrix, the Supreme Court affirms the decision of the Court of Claims, to the effect that under the act of 1883 service in the Marine Corps is to be counted in computing longevity pay. Justice Miller in delivering the opinion of the court on Monday, Feb. 7, said:

"It must be conceded that the Marine Corps, a military body in the Regular Service of the United States, occupies something of an anomalous position, and is often spoken of in statutes which enumerate 'the Army, the Navy and the Marine Corps,' or 'the Army and the Marine Corps,' or 'the Navy and the Marine Corps,' in a manner calculated and intended to point out that it is not identical with either the Army or the Navy. And this argument is the one very much pressed to show that service in the Marine Corps is not service in the Army or in the Navy. On the other hand, the services rendered by that corps are always of a military character, and are rendered as part of the duties to be performed by either the Army or the Navy. If there are services prescribed for that corps by the statutes of the United States, or the regulations of either the Army or the Navy, which are not performed in immediate connection with the Army or the Navy, and under the control of the heads of the Army or Navy, either civil or military, we have not been made aware of it. The military establishment of this country is divided by the general laws of the United States into the Army and the Navy, and over each of these one of the great heads of departments, called Secretaries, is appointed to preside, to manage and to administer its affairs. The administrative functions of the executive are mostly under the President, distributed and allotted among the seven great departments, at the head of each of which is a minister for that department. Such is the theory of the distribution of executive administration established by the statutes of the United States.

"The Marine Corps is a military body, designed to perform military services; and while they are not necessarily performed on board ships, their active service in time of war is chiefly in the Navy, and accompanying or aiding naval expeditions. In time of peace they are located in Navy-yards mainly, although occasionally they may be used in forts and arsenals belonging more immediately to the Army. The statutes of the United States, in prescribing the duties which they may be required to perform, have not been very clear in any expression which goes to show how far these services are to be rendered under the control of the officers of the Navy or of the Army. It is clear that they may be ordered to service in either branch; but we are of opinion that, taking all these statutes and the practice of the Government together, they are a military body, primarily belonging to the Navy, and under the control of the head of the naval department, with liability to be ordered to service in connection with the Army, and in that case under the command of army officers.

"It seems to us that these provisions of the Revised Statutes, bringing together the enactments of Congress on the subject of the Marine Corps, show that the primary position of that body in the military service is that of a part of the Navy, and its chief control is placed under the Secretary of the Navy, there being exceptions, when it may, by order of the President, or some one having proper authority, be placed more immediately, for temporary duty, with the Army, and under the command of the superior army officers.

"Whatever view may be taken it cannot be considered as a distinct military organization, independent of the departments of the Army and Navy, and under the supervision and control of neither of them, having no superior outside of its own officers, except the President. Such a position is at war with the whole policy of the distribution of power among the executive departments, as we have already shown; and while it may be true that it is not so exclusively a part of the Navy as ships and Navy-yards are, yet its general supervision and control remain with the Navy Department."

A PRESS despatch from Louisville, Ky., Feb. 15, says: "The Damascus Edged Tool Corporation organized this morning under their charter and elected a board of officers, with Charles Godshaw as President. The capital stock is $1,500,000. President Godshaw will leave Saturday for Washington to offer the exclusive right of using the steel for navy and war ordnance purposes of the Government. A number of specimens have been prepared for such tests as the Secretary of the Navy may desire to have made. The company is organized to introduce a new process of hardening steel.

IT is announced that all the forts in Belgium along the frontier of France has received a complete war armament. The preparations have been even carried to the extent of mobilizing the troops. King Leopold will be commander-in-chief of the Belgian forces, with General Brialmont as chief of staff. The Count of Flanders, brother of the King, will command the first army corps, and Gen. Vandersmissen the second.

FRANCE AND GERMANY.

THE relative strength of the German, French, and Russian cavalry was incorrectly given in the table we published Feb. 5, owing to an error made in correcting it. The figures for Russia were a war estimate and included Cossacks and irregulars of all sorts; those for France and Germany were found in the statement which followed just below. Another estimate of the military strength of the various foreign states is contained in a report made to the German Reichstag by Major Huberding, as follows:

	Peace.	War.
Germany	442,824	1,425,027
France	469,067	1,392,500
Russia	612,096	2,782,668
Austria	276,496	1,043,630
Italy	533,817	2,330,980
Turkey	326,119	1,093,229
Great Britain	141,284	839,517
Spain	83,808	734,679
Roumania	18,532	204,000
Greece	32,416	180,000
Sweden and Norway	36,790	190,452
Holland	65,568	180,858
Belgium	44,610	165,564
Portugal	32,005	125,057
Servia	13,213	134,415
Bulgaria	28,913	165,220
Denmark	36,469	50,481
Totals	3,194,176	12,488,276

The peace and war establishments are thus classified:

	Infantry.		Cavalry.		Artillery.		Guns.	
	Peace.	War.	Peace.	War.	Peace.	War.	P.	War.
Germany	307,293	1,084,013	67,921	111,339	51,166	132,531	2,232	3,680
France	293.013	.....	74,834	.....	76,700	.....	3,072	3,836
Russia	466.277	2,525,825	53,897	132,853	71,644	101,600	2,352	3,876
Austria	187,897	802,023	46,227	78,339	28,471	82,690	1,200	1,720
Italy	368,174	2,118,012	34,001	34,393	97,923	127,190	984	3,100
Turkey	289,400	934,421	37,800	76,413	21,000	57,290	1,120	2,740

It is estimated that a *levée en masse* would give France 3,750,000 men. The peace effective of the French Army, according to last year's budget, is 523,283, comprising 31,140 officers, and 492,143 enlisted men. This was the estimate we gave last week, and possibly that of Major Huberding is of a different date. It is announced this week that 68,200 infantry and 4,800 riflemen, making a total of 73,000 men, of the German reserves, have been summoned to drill during the present week. Major Huberding declared to the Reichstag that the French batteries now contain 452 mounted pieces more than the German, the latter having 1,404 to the 1,856 of France. On the other hand, the Germans are very much stronger than the French in cavalry.

Prince Bismarck, in the speech from which we quoted last week, said further: "Gentlemen: I think that no Chief of a State would voluntarily undertake the great responsibility of throwing a firebrand into the tinder which is amassed more or less in all countries. Strong Governments are guarantees of peace, but the passions of the people, the ambition of party leaders, the excitement of public opinion—these are elements which may become stronger than Governments. Germany must be strong and well prepared for war. The army is the very first institution of all in the country, for it alone renders the existence of all other institutions possible. All political and civil liberty, all the results of culture, the finances, the State, all stand or fall with the army. After the peace of Frankfort it was above all imperative to maintain peace and utilize it as long as possible in order to consolidate the German realm. We recognized it to be our paramount duty to conciliate the States with whom we had waged war. We have succeeded completely in the case of Austria. Our relations with Austria are more cordial and stable than they ever were in the German Confederation, in spite of all written conventions, or in the time of the Holy Roman Empire. The questions which were in dispute for centuries have been settled in mutual trust and with mutual good will. Our relations with Russia are at present of as cordial a character as they were under the late Czar, and our relations as far as we are concerned will in no way be disturbed. But when it comes to France it is a very different matter. The establishment of peaceful relations with her is rendered especially difficult by the fact that the estrangement is the result of a long-continued litigation regarding the settlement of the frontier, which has been in dispute ever since the time when France achieved her complete national unity and became a consolidated monarchy. The contest began, if we view the matter in its purely historical aspect, with the seizure of the three bishoprics of Toul, Metz, and Verdun. This is a forgotten fact, and I mention it merely on account of the historical connection. We do not intend to conquer either Toul or Verdun, and as for Metz, we possess it. But since that time there has hardly been a generation which has not been forced to draw the sword against France, and is this period of boundary disputes with France definitively terminated, or is it not? You can know that as little as I. I can but express my opinion that it is not terminated; that it cannot be without a complete change in the character of the French and in the location of the frontier. We on our part have done everything to make the French forget the past. France in all her endeavors has had our assistance and sympathy, except in that which has had for its object the acquisition of a portion of the Rhine frontier. We can consent to this neither in Alsace nor further down the river. But we have earnestly sought to be complaisant towards France in everything else and to satisfy her where possible. We not only have no reason to attack France, but positively not even the intention.

"If the French will only remain at peace until we attack her, then peace will be secured to eternity. [Loud applause.] What indeed should we seek to obtain from France? Should we annex still more French territory? I was, I must candidly confess, not inclined, in 1871, to annex Metz. I was then in favor of a lingual frontier. But I sought advice from the military authorities before reaching a final decision. I consulted our military authorities, especially my friend now sitting before me (Von Moltke) Could we consent to forego taking one or the other? I received the answer: 'Belfort, yes; Metz is worth 100,000 men; the question is whether we want to be 100,000 men weaker when a new war breaks out with France.' I thereupon replied: 'We must take Metz.' Those who desire a war with us only seek to be in a

position to enter upon it with the greatest strength possible. Their task is to keep up the *feu sacré de la revanche*, a duty thus defined by Gambetta: *ne parlez jamais de la guerre, mais pensez-y toujours!* This at the present day expresses the situation in France. They do not now talk of war, but of the danger of a German attack. Their fear is false, and whoever gives utterance to it in France knows that it is false. The continual feeding and fanning of the sacred fire is to me a very serious matter. It may happen anyday that a French Administration comes into power whose sole policy it will be to live by the *feu sacré*, which is now so carefully kept smouldering under the ashes. Public opinion in France in a measure resembles an engine supercharged with steam to the point of explosion, where a mere spark, an awkward motion suffices to blow up the engine, or, in other words, to bring about a war. The moment the French think they can conquer, they will begin the war. This is my firm, unshakable conviction. You may have more experience in politics and better judgment than I; I can only act according to my convictions. I say, then, we must be prepared for the eventuality of being vanquished in such a war; I am not timid enough to anticipate this, but no one can dispute its possibility. . . . France is a great and powerful country just as powerful as ourselves. France has a powerful and a valiant people and has always had skillful commanders. It was a mere accident that they succumbed to us. . . . I desire to place before you the possibility of having to face the issue of an unsuccessful war. We are unable to foresee what would be the course of action of a French victor. If we were to be once more attacked by France and were again to enter Paris as victors, convinced that we should never enjoy peace, we should have to act just as we did. We should endeavor to incapacitate France from attacking us for thirty years, and to place ourselves in a position in which we should feel secure for at least a generation from the assaults of our enemy. The war of 1870 would be child's play in its results for France in comparison with that of 1890—or, I do not know when. [Cheers.]"

THE FAIR GOD.

A Tale of the Conquest of Mexico.

By Maj.-Gen. LEW WALLACE. 600 pages, $1.50.

We do not hesitate to say that the "Fair God" is one of the most powerful historical novels we have ever read. The scene where in the sunrise Montezuma reads his fate, the dance-scene, and the entry of the Spaniards to the capital, are drawn in a style of which we think few living writers capable; and the battles are Homeric in their grandeur.—*London Athenæum.*

In all the accessories to a complete historical romance, the author has perfected himself down to minutest details. Every feature of Aztec civilization necessary to render his task complete has been carefully studied and grandly set forth.—*New York Times.*

Take the poems of Ossian, the "Tales of the Thousand and One Nights," the novels of Kingsley and Bulwer, the historical romances of Scott, with the songs of Byron and Moore, blend them all in one, and the reader may form some idea of this really great novel.—*Chicago Inter-Ocean.*

having disturbed and disorganized every branch of the Service. It says: "The announcement of Gen. Boulanger's plans has already had for effect the increase of the German Army by 40,000 men. The voting of Gen. Boulanger's plans will have for result to place face to face with this army, more numerous and better organized than our own, the forces of France plunged in a state of incertitude and the difficulties attending a new experiment. And should, which God forbid, war break out, we would be surprised not only, as in 1870, *in flagrante delicto* of concentration, but also *in flagrante delicto* of organization."

The *Revista Cientifico Militar* (Barcelona), contains the commencement of an important study on the European frontiers by Major D. Leopoldo Barrios. The first paper is devoted to the Franco-German frontier, which, as at present defined, gives the Germans, in the opinion of the author, an almost crushing advantage. The French do not mean to repeat their experience in the capitulation of Paris, however. A new line of 24 forts far outside of the old ones has been erected, containing all the improvements of modern warfare. Their barracks and magazines are all below the ground, and they form such a wide circle about the city that it will hardly be possible to besiege it in future, as it took 300,000 Germans to encircle the old line. The walls of Paris have been demonstrated to be useless, and the French do not rely on them in any way as a means of defence.

M. Ricard says: "The Empire had only sufficient money to oppose 154 batteries to the enemy; to-day we can harness 437." As to the tremendous effectives which are the order of the day, the writer has little faith in them. He observes that "in August, 1870, the Germans marched only 780,723 men into France. It was in February, 1871, that they had the largest force—936,915 men. More would have greatly embarrassed them. An army of 2,000,000 men is an absurdity. Large effectives mean war during peace, war waged with millions of money. We have had this war for the last 15 years."

A recent writer says: "Where is the lowest birth-rate and the smallest increase of population for furnishing new enlistments of conscripts? That nation is entering upon a period of military decline. Every decade it becomes weaker. The census tables reveal the hollowness of its war budget and standing armies."

THE *Great Eastern* was, Feb. 17, sold at auction for $130,000.

A ST. PETERSBURG despatch, of Feb. 13, says: "Twenty-five cadets and officers have been arrested for connection with the recently discovered conspiracy against the government. A grand general of the staff of the academy is implicated. Nearly all the prisoners are connected with the naval and military schools."

SENOR CASTILLO, Minister of the Interior, replying, Feb. 9, to an inquiry as to whether Spain was making any preparations in view of a possible European war, said that steps had been taken to augment the defences of Spain and her colonies, and that other measures would be adopted, but that at present it was inexpedient to explain more fully the extent of the Government's preparations.

AN order from the German War Office instructs men who are being drilled in the use of the repeating rifle to rigorously watch that their munitions are not squandered through the facile discharge of the weapon. The order further says that the repeating magazine rifle is only to be used when the enemy is at a distance from 300 to 800 metres (in the case of cavalry at 300 metres), and officers drilling reserves are instructed to bring the men to close quarters before permitting them to use the repeating rifle.

ENGLAND, says a London paper, may be considered safe for the present from any attacks by land on her gigantic American, African and Australian Colonies; but even there we find considerable neglect of necessary precautionary measures. The Canadian Pacific Railway, running almost parallel to the frontier line of the United States, and in a great measure exposed to destruction from that quarter, is as destitute of fortifications as the interior of the British North American possessions, and but little better is the condition of Vancouver's Island, which represents the starting point of the sea route to China and Australia, and (until the completion of the Panama Canal) to South America; it may also be regarded to a certain extent as the starting point of the Canadian Pacific Railway.

A 10c. Cigar for 5c.—"Tansill's Punch."
That husband of mine still insists that he can find no brand to equal "Tansill's Punch" the Havana-filled 5c. Cigar.

BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

BIRTHS.

CLARKE.—At Fort Selden, N. M., February 4, to the wife of Lieut. C. J. T. Clarke, 10th U. S. Infantry, a daughter.

MARRIED.

MICHIE-BEACHY.—In San Francisco, Cal., January 19, at Trinity Church, 8.30 P. M., by the Rev. Dr. Bears, Rector, Miss GRAY BEACHY, of San Francisco, and Lieut. H. E. L. MICHIE, 2d U. S. Cav.

DIED.

AMATEUR OUTFITS. Patent Detective, Novel Fairy and Bijou Cameras, Illust'd Catalogues Free.

E. & H. T. ANTHONY & CO., 591 BROADWAY, N. Y.

NEW ENGLAND MUTUAL Life Insurance Company, OF BOSTON, Mass.

Assets, - - - - - - $17,846,546.65
Liabilities, - - - 15,238,761.16
Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy*, but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on application at Compy's Office,
POST OFFICE SQUARE.
BENJ. F. STEVENS, President
JOS M. GIBBENS, Secretary.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 31.
WHOLE NUMBER 1227.

NEW YORK, SATURDAY, FEBRUARY 26, 1887.

SIX DOLLARS PER YEAR.
SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE 155th anniversary of the birthday of General GEORGE WASHINGTON was observed by the Services in the customary manner, on Tuesday of this week. At home and abroad the occasion was duly and patriotically remembered.

THE rifle practice season for 1887, will commence next week at many of our military posts and continue with intervals until the time for the annual competitions. It is needless to speak as to results, for each year shows a higher rate of progress than its predecessor.

BISMARCK has gained his point, and the Septennate is a certainty. Whether there will be war, however, between Germany and France is still a matter of uncertainty. The present indications point to peace. The French are wild with delight because the Alsatians have sent to the Reichstag a delegation nearly unanimous in opposition to BISMARCK.

THE prospect for promotion in the line of the Navy for sometime to come is rather discouraging. Only two retirements for age will occur during the next twenty-five months. Rear Admirals DAVIS and FRANKLIN will retire in August and September next, and unless death or disability helps along promotions the personnel of the Navy will remain at a standstill for an extended period.

THE act establishing a cavalry and artillery school at Fort Riley, Kas., puts an end, we infer, to the purpose at one time entertained of converting the excellent located and equipped post of Fort Myer, Va., into a drill ground for our light artillery. Still although the War Department may have no occasion at present for using Fort Myer, Va., the post is close to the Capital and always available for occupancy by troops should occasion require it.

THROUGH the efforts of some of the officers interested the House bill to confer brevet rank on all officers of the Army who have been commended for gallant service in Indian campaigns, has been resurrected from the Senate Military Committee, and we are now happy to say that there is a fair prospect of its becoming a law. Senator COCKRELL is about the only one of the Senate who seems to be opposed to the measure. It was through his opposition that the committee at first proposed to smother the bill.

A FRENCH commission has adopted for military purposes a tricycle on which it has been found that a rider can cover 250 leagues in six days without any injury to the machine. The Italian Government, on the contrary, exclude the tricycle on the ground that it can be used only on broad and well kept roads. The Engineer Director at Milan has accordingly been charged with the selection of a bicycle adapted for field service, and it has been decided to introduce two or three into each regiment of the Italian Army. These statements we make on the authority of the *Progrès Militaire* and *Revue Militaire* (Paris.)

THE Austrian Colonel MATHES VON BILABRUCK, in a lecture delivered at Vienna before the Archduke ALBRECHT and several hundred officers of all grades and arms, spoke about the influence which the introduction of the new repeating rifle will have on the tactics of Infantry. The changes which Colonel VON BILABRUCK considers as necessary are—a greater density of the troops, especially at that point where the decision is expected or sought for; the abandonment of the principle that superiority of fire should be established from the beginning, and instead of this a concentration of fire for single moments, taking advantage of the confusion caused thereby in the ranks of the enemy.

THE annual report of the Board of Visitors to the Military Academy, just issued from the Government Printing Office, presents a novel feature in a series of photographic views of West Point: one looking north, with siege battery and foreground, others of the cadet barracks and mess hall; the plain, with encampment, in the distance; pictures of the cadets at field, artillery and cavalry drill, and a view of the Academic building. There is a large map of the post folded in with the report. This Board seems to have acted upon the advice given by MARK TWAIN to the Secretary of the Navy when he suggested he should enliven his report by accompanying his statistics with a few first class jokes. The profound wisdom of the Board of Visitors to the Academy seldom secures the attention it deserves, but their pictures are certain to be received with marked favor.

COLONEL T. F. BARR, Judge-Advocate, U. S. A., in a recent report, says: "The necessity for a revision of the Articles of War has heretofore been referred to by me. It cannot be too strongly emphasized. Many of the articles have no relation to the system of administration prevailing in our Service, and many others are vague and defective. The adoption of a code clearly defining offences and providing so far as practicable specific penalties would be of incalculable value. The inequality of punishments adjudged by different military courts for offences identical in character, can but be detrimental and tend to create a feeling that such tribunals are not impartial." Few will dispute the proposition and possibly very few are sanguine of speedy results. Congress, we are sorry to say, shows little inclination to help the Army out of the old ruts, and ignores the fact that "the old things have passed away."

CAPTAIN HENRY B. BIRMINGHAM, Assistant Surgeon, U. S. A., inaugurated at Governor's Island on Wednesday under the auspices of Major General SCHOFIELD, a series of medical lectures as contemplated by General Orders 86, of Nov. 20, 1886, from the A. G. O., to the excellent design of which we have heretofore referred. Dr. BIRMINGHAM'S first lecture had for its subject "The Temporary Dressing and Transportation of Wounded and Injured" and was listened to by a large number of the officers and enlisted men of the garrison. Captain BIRMINGHAM described in a practical manner how to apply bandages in cases of wounds and in that connection referred to the system of temporary dressing and bandaging introduced by ESMEICH, the Surgeon General of the German Army, which was part of an essay which took the prize offered by the Emperor of Germany for the best treatise on the treatment of wounds in war, in which was advocated the carrying by each soldier of a small pocket containing balls of cotton, wool or jute, impregnated with salacylic acid and other adjuncts. Valuable information was given concerning the improvised treatment of gunshot wounds, and at the close of the lecture Dr. BIRMINGHAM gave a practical illustration of how to use the musket as a splint in the case of fractures of the hip. The second lecture of the series will be delivered on Wednesday, March 2, the subject fixed upon being "Hemorrhages." We presume that at other military posts similar lectures have been commenced and shall look forward with interest to the official reports to be rendered June 30 next, "of the results which may have attended them."

THE Senate Committee on Military Affairs have reported adversely on the Senate bill increasing the number of details of Army officers to State colleges and universities from 40 to 80, and making the number of post chaplains 31 instead of 30. The action on these bills was based upon recommendations from the officials of the War Department. The Secretary of War, Lieutenant-General, and Adjutant General were in favor of increasing the number of college details to 50, but considered the existing law in regard to the manner of detail preferable to that proposed in the new bill. Following the adverse report the Senate Military Committee adopted a favorable report on the bill, S. No. 3100, increasing the number to 50. This bill has the approval of the War Department. It provides for the detail of an officer to any college or university having capacity to educate at the same time not less than 150 male students, to act as president or superintendent thereof, the detail not to exceed 50 at any time; this number to be apportioned throughout the United States to those institutions that are required to provide instructions in military tactics according to act of July 2, 1662, and according to population. It also provides for the issue of small arms or pieces of artillery to such schools. The War Department is also opposed to any further increase in the number of chaplains. If any legislation on the subject is to be enacted they recommend that it be in the direction of securing younger men for the places. No one over 40 years, they think, should be eligible.

LORD WOLSELEY objects most decidedly to the "spit and polish" system, which, in his opinion, retards to no inconsiderable extent the instruction of the British Cavalry. He thinks that bits, chains, stirrups, and other iron work (*i. e.*, sword scabbards, helmets, spurs, etc.), over which hours are now uselessly spent in burnishing, should be either nickelled or lacquered, and says: "The dragoon has now too much to learn to afford the time required to produce this theatrical effect. The time squandered daily in this folly would suffice to teach him much that he is ignorant of, but which is essential to his efficiency." Commenting upon this opinion the *Army and Navy Gazette* says: "We have a small force in comparison to some of our neighbors, but the little we have should be good. It will never be that as long as time is wasted in burnishing up unnecessary steel work, and the energies of a dozen or two officers are devoted to trying to do imperfectly that which could be much better and much less expensively done by one man." When at Woolwich, many years ago, we well remember looking with amazement at the hours and hours the poor drivers in the field batteries had to devote to "spit and polish" to keep their bits, snaffles, chains, etc., in the bright condition necessary to pass inspection, and the envious glances they cast upon their more fortunate brethren of the foot batteries whose daily labors terminated at about 3 P. M., and who could then go to town, while the unfortunate horsemen had to labor on until nearly 6 P. M. Neatness and cleanliness in military matters are essential, but they can be overdone as LORD WOLSELEY shows.

PERSONAL ITEMS.

CAPTAIN C. F. ROE, 11th U. S. Infantry, is visiting friends at Newark, N. J.

CHAPLAIN J. V. LEWIS, U. S. A., of Fort Niobrara, was in Washington this week.

LIEUT. J. A. PERRY, 10th U. S. Infantry, has been visiting recently at Los Angeles and San Francisco.

COLONEL ANSON MILLS, U. S. A., was in New York this week, with headquarters at the Sturtevant House.

GENERAL W. D. WHIPPLE, U. S. A., was expected to leave Florida this week for the North, by way of Savannah.

MAJOR CHAS. H. WHIPPLE, Paymaster, U. S. A., returns to Fort Keogh, Montana, next week, from a short leave.

LIEUTENANT J. D. BARRETTE, 3d U. S. Artillery, left Washington Barracks, D. C., on Monday on a week's leave.

ADJUTANT A. B. DYER, 4th U. S. Artillery, rejoined at Fort Adams, R. I., this week, from a short leave of absence.

CAPTAIN D. J. CRAIGIE, 12th U. S. Infantry, of Madison Barracks, N. Y., visited friends in Washington, this week.

GENERAL R. B. AYRES, U. S. A., returned to St. Augustine, Fla., this week, from a visit to his family at Asheville, N. C.

GENERAL C. C. GILBERT, U. S. A., retired, who is spending the winter in Baltimore, attains his 65th birthday on Tuesday next.

CAPTAIN JOHN M. HAMILTON, 5th U. S. Cavalry, left Fort Riley, Kansas, this week, to be absent until the latter part of April.

LIEUTENANT R. E. L. MICHIE, 2d U. S. Cavalry, and bride, have joined at Boise Barracks, Idaho, and received a hearty welcome.

LIEUTENANT T. R. ADAMS, 5th U. S. Art., will leave Fort Schuyler, N. Y. H., next week, to be absent until about the middle of April.

LIEUTENANT W. W. FORSYTH, 6th U. S. Cav., visiting at Atlanta, Ga., for some time past, will rejoin at Fort Wingate, N. M., in a few weeks.

GENERAL HORATIO C. KING has been chosen by the G. A. R. Memorial Committee, of Brooklyn, N. Y., Grand Marshal for Decoration Day.

LIEUTENANT J. S. PARKE, 21st Inf., has returned to Fort Sidney, Neb., from a trip to Fort DuChesne, Utah, as witness in the case of Col. Benteen.

LIEUTENANT A. D. ANDREWS, 5th U. S. Artillery, of Fort Columbus, who has been on the sick list lately, has gone to Massena, N. Y., for a few weeks' recuperation.

COLONEL SAMUEL WETHERILL will read on Wednesday next, before the United Service Club, Philadelphia, "Reminiscences of a Field Officer of the 11th Pa. Cavalry."

LIEUTENANT J. R. WILLIAMS, 3d U. S. Art., now in Europe on his wedding tour will remain abroad for some time yet, having received an extension of his leave until Aug. 1 next.

LIEUTENANT E. H. CATLIN, 2d U. S. Art., was expected to leave St. Augustine, Fla., this week for the North to enter upon his duties at the Norwich University, Northfield, Vermont.

CAPTAIN W. A. THOMPSON, 4th U. S. Cav., and Mrs. Thompson, are visiting in Washington, to remain for some time. Mrs. Thompson is the daughter of Surgeon-General John Moore, U. S. A.

COLONEL GEORGE H. ELLIOT, Corps of Engineers, U. S. A, will go abroad in a few days to be absent several months. His health has been indifferent of late and it is hoped the trip will do him much good.

CAPTAIN M C. WYETH, Assistant Surgeon, U. S. Army, after a pleasant tour of duty at Fort Wayne, Mich., left Detroit this week and will arrive about March 10 at Pensacola to report to Col. L. L. Langdon, U. S. A., for duty at Fort Barrancas.

LIEUTENANT JOSEPH S. POWELL, Signal Corps, who has resigned from the Service, to take effect Feb. 28, has, says the Washington *Critic*, some intention of going on the stage as a singer, and has been contemplating this action for some time.

"MAJOR GREELY, the Arctic hero," says the *Critic* of Feb. 19, "seems to be in big luck this week: a nomination on Tuesday from promotion to Brigadier-General, and a bouncing daughter that arrived yesterday. No signals out for squalls, but slight ones expected as usual."

THE Veterans of the War of 1812, resident in New York, celebrated Washington's Birthday in their usual manner. Adjt. J. Gould Warner hoisted the flag on the old fort at the upper end of Central Park at sunrise, and at 11 A. M. dinner was served to the veterans at Military Hall. Alas! there were but three.

LIEUTENANT E. S. FARROW, 21st U. S. Inf., lately visiting in New York and vicinity, will remain East a few weeks longer and then start for Fort Bridger, Wyo., to rejoin after a long absence on sick leave, which has been partially occupied in the establishment of a company for the publication of his Military Cyclopædia.

JOHNSON WHITTAKER, formerly a cadet at West Point, and whose trial for self-mutilation a few years ago will be remembered, is now in Charleston, S. C. An exchange says: "After coming to Charleston he taught for some time in a military institute, studying law in his spare moments. He was soon admitted to the South Carolina bar, and is now junior member of a leading law firm of Charleston. Personally, he is slight in build, is of a quiet, taciturn disposition, and is not so dark in color but that he is often mistaken for a pure Saxon. He does a good deal of newspaper work, is a sharp and vigorous writer, a close thinker, a devoted friend of his race, and is quite likely to be heard from in the world of affairs."

CAPTAIN E. J. STRANG, U. S. A., retired, is spending the winter at Iselin, N. J.

MRS. MCCOOK, wife of General A. McD. McCook, U. S. A., of Fort Leavenworth, is visiting friends in Wisconsin.

LIEUT. C. D. PARKHURST, 4th U. S. Artillery, left Fort Trumbull, New London, early in the week on a short leave.

ASSISTANT SURGEON C. C. BARROWS, U. S. A., leaves the Service on Monday next to engage in civil practice at Jackson, Miss.

CHAPLAIN T. W. BARRY, U. S. A., of Fort Leavenworth, has been elected Grand Chaplain of the Masonic order in Kansas.

LIEUTENANT W. E. SHIPP and A. Hasbrouck, Jr., U. S. A., sailed for France on Saturday last on the steamer *La Champagne*.

COLONEL C. A. WOODRUFF and Lieut. H. L. Ripley, U. S. A., of Fort Leavenworth, visited Fort Riley, Kas., this week on Board duty.

MAJOR GUY V. HENRY and Lieut. L. W. V. Kennon, of Gen. Crook's staff, are getting the Bellevue Rifle Range near Omaha in order for work this target season.

SURGEON W. S. TREMAINE, U. S. A., who has been residing at 449 Washington St., Buffalo, N. Y., for several months past, is still in poor health and unable to resume duty.

GENERAL FRANCIS FESSENDEN, U. S. A., returned to Portland, Me., this week from a trip to Washington. He visited New York on Tuesday, registering at the Victoria Hotel.

ASSISTANT SURGEON A. W. TAYLOR, U. S. A., has taken charge of medical matters at Fort Laramie, Wyo., relieving Asst. Surg. Louis Biechemin, U. S. A., who goes abroad for the summer.

COLONEL H. M. BLACK, 23d U. S. Infantry, was expected to leave Detroit, Mich., this week for Idaho to set on a Court of Inquiry at Fort Cœur d'Alene. During his absence Capt. G. M. Randall, 23d Infantry, will command the post of Fort Wayne.

CHARLES D. CLARK, administrator of Lieut. Kislingbury, is, says a Detroit despatch, endeavoring to arouse opposition to the confirmation of Capt. A. W. Greely to be Chief of the Signal Service. The reason given is Capt. Greely's reported ill-treatment of Lieut. Kislingbury in the Arctic regions.

THE New York *World* publishes an interview with an unnamed ex-Union General in Washington, who asserts that the famous despatch sent by Gen. Grant in 1864, "We will fight it out on this line if it takes all summer," was sent at Secretary Stanton's dictation for the purpose of reviving confidence in the Union cause and the Administration.

A LONDON correspondent writes: "The character of Lord Wolseley's article on Gen. Robert E. Lee in the March 'Macmillan's' can be predicted with certainty. His admiration of that Southern leader amounts to idolatry. Gen. Lee fascinated Gen. Wolseley when, early in the war and when on duty in Canada, the latter crossed the American lines, reached the rebel camp after some adventures and spent a considerable time with Gen. Lee as his guest."

THE New York *Tribune*, taking "Glances at Men in Passing," says: "A prosperous manufacturer whose bolt and nut works are located at Newport, Ky., is Col. L. M. Dayton, who was a staff officer of the Army of the Cumberland and accompanied Sherman on his march to the sea. In appearance Col. Dayton resembles Louis Napoleon of France with his heavy French face and large black mustache and goatee. He has been a guest at the Gilsey House for several days."

THE widow of Gen. John A. Logan has taken out letters of administration on the estate of her late husband, which consists of household furniture, books, notes, accounts, live stock, and two contracts for royalties on books, besides real estate in Cook and Jackson counties. The value of the real property was not given, but the personal property was valued at $10,000. The heirs are Mrs. Logan, her daughter, Mrs. William F. Tucker, aged 28 years, and John A. Logan, Jr., aged 21.

THE San Francisco *News Letter* says: "The last Presidio hop of the season on Tuesday night proved, as usual, a most delightful one; the attendance from town was, in spite of the bad state of the roads and unpromising skies, a very large one, and everything passed off to the satisfaction of all concerned. The Shafter afternoon reception and the Shafter musicale were both enjoyable affairs. On Saturday the army matinee german at the Presidio is looked forward to with the most delightful anticipations."

THE Cleveland (O.) *News and Herald* has a glowing eulogy of the conduct of the Governor of Washington Territory for the part taken by him in protecting the Chinese from outrage last fall. It says: "Throughout he was patient, firm for law and right, eager to avoid extreme measures, and vigilant and energetic. His conduct called forth emphatic praise from his superiors at Washington and deserves wide recognition as a shining example of good and faithful service. Gov. Watson C. Squire is an honor to Washington Territory and to the country, and his experience in the anti-Chinese outbreaks is worth studying as an illustration of the difficulties attending the administration of affairs in the newer sections of the country."

SECRETARY OF WAR ENDICOTT, says a recent number of the *U. S. Gazette*, "is a man of middle stature and somewhat gray. He has a classic expression about his face which is peculiarly striking. In conversation, while reserved, possibly the result of the judicial habit, he is still affable and satisfying. Mrs. Endicott is a tall, stately lady, and a little younger than the Secretary. She reminds one of the high-born ladies of the old days. Her daughter, Mary C. Endicott, assists in the social entertainments of the War Secretary's home. She is the embodiment of New England feminine culture. Her figure is of a distinguished mould and her manners the same. The mother of Secretary Endicott was a niece of Jacob Crowninshields, of Massachusetts, President Jefferson's Secretary of the Navy, 1805-9."

SURG. B. E. FRYER, U. S. A., recently ordered to Fort Lowell, Arizona, has been bidding good-bye to old friends at Fort Leavenworth and Leavenworth City.

EX-SPEAKER J. WARREN KEIFER is to be the orator on the occasion of the unveiling of the Garfield statue before the Army of the Cumberland in Washington.

LIEUT. JAMES RUSSELL RICHARDS, Jr., of Fort Huachuca, Arizona, is to be married March 8 at Springfield, Mo., to Miss Bessie Russell, daughter of Mr. and Mrs. John G. Russell of that city.

GEN. C. C. CARROLL, U. S. A., has been ordered by the Circuit Court of Montgomery County, Md., to pay Mrs. Carroll, who has sued him for divorce, $100 for attorney's fee and $100 per month alimony until the case is decided.

MAJOR C. B. THROCKMORTON, 2d U. S. Artillery, and the troops of the regiment at Jackson Barracks, La., took part in the recent Mardi Gras parade at New Orleans, and were much admired for their fine appearance and soldierly bearing.

THROUGH the efforts of Lieut. Philip Reade, U. S. A., Inspector of Rifle Practice, Division of the Missouri, one copy of Blunt's Rifle and Carbine Firing is to be furnished, at the expense of the State, to each company and troop of the Wisconsin National Guard.

MR. M. W. EDWARDY, who has, says the El Paso *Times*, come to stay, was Capt. Lawton's chief scout during the pursuit of Geronimo and had some thrilling experiences. He once rode the same horse 450 miles in less than seven days and nights on the savage trail.

MAJOR W. MCK. DUNN, 2d U. S. Artillery, and Mrs. Dunn; Col. D. W. Flagler, Ord. Corps, and Mrs. Flagler; Capt. E. B. Rheem, 21st U. S. Infantry, and Miss Rheem; and 1st Lt. L. H. Strother, 1st U. S. Infantry, are at Hot Springs, Ark., in addition to those who have the General Hospital there for treatment.

THE suit of John H. Lester against Gen. Benjamin F. Butler, in the United States Circuit Court, before Judge Coxe, for $100,000 as damages for alleged false imprisonment, was ended by the court directing a verdict in favor of the defendant. Lester was arrested by Gen. Butler during the war as a Southern sympathizer. The case will probably be appealed.

THERE is an attempt to start another "Bourbon among us" sensation, "Col. James H. Rion, one of the most distinguished lawyers of South Carolina," who died Dec. 12, being this time presented as the heir to the throne of France. He is declared to have been a son of the last Dauphin, who would have been Louis XVII. but for the revolution, and who entered the English Army, according to the story, as "De Rion." "De Rion died in Col. Rion's infancy and the latter and his mother were placed under the charge of John C. Calhoun, then Secretary of State, by the Austrian Ambassador at Washington, with a statement of the facts, and upon certain conditions, one of which was that Rion should never go to Europe unless in charge of the Austrian authorities and on an Austrian man-of-war, and further that he should never accept civil office in this country. These conditions were faithfully observed. The secret of his birth was told three years ago to Col. Rion's eldest daughter, who went to Europe to find out what she could about the Dauphin. Col. Rion had in his possession a very valuable gold snuff box set with diamonds, on the top of which there is a monogram of the Orleans family wrought in diamonds. The snuffbox was never exhibited to any of the colonel's family until he was on his deathbed." It is a very pretty story, as a story.

MAJ. D. L. HUNTINGTON, surgeon general, U. S. A., having been relieved from duty in the office of the Surgeon General of the Army, and Maj. C. R. Greenleaf, surgeon, now at Chicago, detailed in his stead, a Washington correspondent thus gossips: "This has caused great excitement in medical circles. Dr. Huntington has been in the Surg.-Gen.'s office for many years. He is very familiar with all the detail work of the office, and has been practically the Surgeon General for a long time. It was he who gave the President the information which led to the appointment of Dr. Moore to the Surgeon Generalship. Dr. Baxter, who has been an ardent candidate for the Surgeon Generalship, had the backing of Adjt.-Gen. Drum, and this order is understood to be a punishment of Huntington for his indirect opposition to Dr. Baxter. Surg. Gen. Moore was asked by the Secretary of War to relieve Dr. Huntington. This he refused to do, as he said he could not get along without him. He was not familiar enough with the duties of the office. Then Mr. Endicott made the order directly over his head. An Army doctor said recently he understood that Dr. Baxter was going to have all of the Army surgeons at Washington who had opposed him in his ambition to become Surgeon General ordered away from here. The Surgeon General expects to make an appeal to the President in the interests of Dr. Huntington."

THE Vancouver *Independent* says:

The wife of Lieut. H. L. Bailey, 21st Inf., Fort Du Chesne, is at Port Townsend, visiting relatives.....Lieut. Frank Taylor was on board a Northern Pacific train which went off the track into the Yellowstone River, but escaped injury .....Capt. Thos. F. Quinn, 4th Inf., has arrived down from Spokane Falls in charge of 15 soldiers, two of whom are to be court-martialled.....Gen. Gibbon and staff went to Olympia Friday, to attend before Judge Hoyt in the injunction case concerning the vacation of the portion of the military reservation of Vancouver Barracks, held by the Catholic mission.

THE Omaha *Excelsior* of Feb. 19 says:

Dr. Ives, of Fort Russell, was in the city this week on leave....Captain Hughes, 9th Cav., was in the city Monday, with his bride, en route to Fort Niobrara....Miss Breckenridge of Chicago, daughter of Col. Breckenridge, is visiting Miss Summers, of Omaha...The appointment of Captain Greely to the office of Chief Signal Officer creates a lively interest in this city. Lieut. Greely was stationed at Fort Omaha from 1869 to 1871. While somewhat of a society man, he was more like a student and dreamed of Arctic explorations. Omaha people who remember him describe him as tall, slender and dark, wearing eye-glasses, and having the air of a college professor....Ensign Edward W. Sutphen, U. S. N., writes to friends in Omaha that he is spending the winter in Egypt, in the U. S. S. *Alliance*, and will be gone two years.

LIEUTENANT F. D. HOLTON, 2d U. S. Cavalry, under his recent promotion, has joined at Fort Cœur d'Alene, I. T.

GENERAL STEWART VAN VLIET, U. S. A., and MRS. Van Vliet, registered at the Windsor Hotel, Jacksonville, Fla., this week.

COLONEL THOS. L. CASEY, C. E., U. S. A., and Mrs. Casey are living at the Normandie, corner Broadway and 39th st., New York.

GENERAL B. H. GRIERSON and Lieut. S. L. Woodward, Adjutant, 10th Cavalry, have returned to Santa Fe from a trip to the Navajo Indian Agency

LIEUTENANT JOHN BIGELOW, JR., leaves New York, on Monday, with his family, for a brief visit to Baltimore, en route to join his command in Arizona.

SINCE the death of their child from diphtheria Capt. J. S. Loud, 9th Cavalry, and family have moved from Detroit to Dearborn, Mich., and are at the home of the captain's uncle, Hon. W. C. Sutton.

AN ENGAGEMENT has been recently announced between Miss Helen Webb, daughter of Gen. Alexander Webb, and Mr. John Alexandre. Mr. Alexandre's and Miss Webb's will be one of the post-Easter weddings, and soon after the couple will sail for Europe.

CAPTAIN J. LAFFERTY, U. S. A., retired, says a San Francisco paper, has just lost his white pointer "Jeff," which accompanied him through two Indian campaigns in New Mexico, and will be remembered by all of the Army officers who served in New Mexico in 1873-76.

THE following Mexican War claims were allowed by the Second Comptroller this week: Israel Moses, assistant surgeon, $190; Thomas Jordan, captain and A. Q. M., $150; Hugh Beirne, corporal, Co L, 1st Art., $6; Samuel K. Dawson, 1st lieutenant and A. Q. M., 1st Art., $120; Wm. H. Gordon, captain, Co. H, 3d Inf., $120.

THE Senate Military Committee has reported adversely the bill which recently passed the House confirming the status of 2d Lt. Stephen O'Connor, 23d Infantry, under which he would be enabled to draw longevity pay under the Morton decision. The bill has been placed on the calendar, however, so that there is yet a possibility of its passage.

GENERAL S. W. CRAWFORD, U. S. A., and Lieut. John Bigelow, Jr., 10th Cavalry, attended at the Hotel Brunswick, New York, on Tuesday evening, the first annual dinner of the New York Southern Society. "The Old South, with its hallowed memory; the New South, with its glorious future; the Union, all comprehended and forever enduring," was the sentiment of the occasion.

THE Secretary of War on Feb. 12 transmitted to the House letters from Capt. E. J. Conway and Maj. Albert Tracy, U. S. A., calling attention to the fact that section 8 of the bill, providing that "the pay of officers on the retired list shall be 75 per cent. of the full pay the officer was entitled to receive when retired, and no more," discriminates inequitably against retired officers whose longevity pay has accrued since retirement.

THE attention of the Secretary of State has been called to the arrest by the German Government of Richard Reabecker, a citizen of Strasburg, Shelby Co., Ill. Reabecker is a naturalized citizen of the U. S., and has resided in Shelby County for some years. In December he started for Germany on a visit, arriving in that country Jan. 6, 1887. Three days later he was arrested and compelled to enter the German Army, and is still held a prisoner subject to military service.

ON February 19, the Secretary of War sent to the Senate, in response to a resolution of Feb. 11, the report of Col. Henry B. Carrington, U. S. A., of the massacre of Dec. 21, 1866, near Fort Philip Kearny, Dakota Territory, with accompanying list of casualties, together with a transcript from the return of that post for the month of December, 1866, giving a list of the officers and enlisted men killed in action with Indians Dec. 21, 1866.

CAPT. AND MRS. KETCHUM entertained the garrison of Fort Lewis, Col., consisting of 40 ladies and gentlemen, on St. Valentine's Day, the captain's birthday, by giving a "Drive Whist" party. It was an elegant affair, and the party separated in the "wee sma' hours," wishing the captain and his companion many returns of the day. The supper was elegant and wine flowed in great abundance, and the party returned to their homes in high spirits, to the strain of a gallop by the fine orchestra of the 22d Infantry Band.

MR. FRYE, in reporting back adversely from the Senate Committee on Foreign Relations the bill for the relief of the heirs of the late Emmet Crawford, said: "The committee instruct me to say that they have made no examination into the merits of this case, and that they have formed no judgment whatever in relation to it; that the action which they have adopted they have been led to by the request of the claimants themselves, the matter being now presented as it is understood, to the Government of Mexico through the State Department."

WITH reference to Capt. Greely's promotion to the head of the Signal Corps a correspondent of the N. Y. *Herald* says: "Similar promotions have occasionally occurred in the Army, notably Wm. A. Hammond, who was promoted from assistant surgeon, with the rank of lieutenant, to surgeon general, with the rank of brigadier general, in 1861. Howard, in 1864, was made brigadier general without having served in a higher grade than that of 1st lieutenant in the Regular Army. Rosseau, in 1867, was made brigadier general without any service in the Regular Army. Sheridan's promotion from captain to brigadier general is well known. Meigs, in 1861, was promoted from captain of engineers to quartermaster general, with the rank of brigadier general, having been nominally a colonel for one day between the two grades. Macfeely, the Commissary General of Subsistence, was promoted from major, while Swain went from the bottom to the top of his corps as judge advocate general." Fremont was appointed a major general of the Army from civil life, and McClellan after three weeks' service as major general of Volunteers.

THE following officers registered at the War Department this week: Chaplain J. V. Lewis, Capt. E. B. Rheem, 21st Inf.; Capt. L. S. Tesson, assistant surgeon; Lieut. Frederic V. Abbot, Corps of Engineers, and 1st Lieut. Edward S. Farrow, 21st Inf.

LIEUTENANT CARROLL H. DEVOL, 25th U. S. Infantry, was married, February 17, at New Orleans, to Miss Dora Dean Scott, daughter of Doctor Jos. T. Scott, of that city. The married couple go to Fort Snelling, Minn., the station of the lieutenant's company.

CAPTAIN J. H. HIGBEE was detached, Feb. 17, from the Marine Barracks, Norfolk, Va., to date from Feb. 14.

LIEUT. U. R. HARRIS, U. S. N., and Mrs. Harris, have returned to Mare Island, Cal., from a few weeks' sojourn at Los Angeles.

CAPTAIN ROBERT P. DENNISTOUN, British Navy, visited New York, this week, registering at the Hotel Brunswick.

ON Feb. 22 the Society of the Cincinnati dined at Delmonico's. Admiral Nicholson responded to "The Army and Navy," and Professor H. Crosby to "The State of New York."

CAPTAIN G. C. WILTSE, U. S. Navy, is doing even better than St. Paul, who lived in his own hired house. He is living in his own purchased house at No. 62 East 53d st., New York City.

ASST. ENGR. JULIUS A. KAISER, U. S. N., retired, is living on Laçourt Avenue, Germantown, Philadelphia and in spite of the, at times, painful condition of his arm, is enjoying better health than for some years past.

FROM the records of the Navy Department it appears that Edward Unger, who has just been sentenced for twenty years for killing his room mate, was discharged from the Navy for theft, and was also accused of being the aggressor in a fight with a fellow mate.

PASSED ASST. ENGR. J. C. KAFER, U. S. N., is still at Thomasville, Ga., but at last accounts his health was far from satisfactory. His present intention is to remain south until the cold weather breaks up at the north, and then gradually travel towards New England, following the blue birds and swallows.

LIEUTENANT G. A. STARKWEATHER, of the Revenue Marine Service, was married Feb. 17, at Long Hill, Conn., to Miss Mary Gordon Waller, a granddaughter of the late Surg. David S. Edwards, U. S. Navy, and eldest daughter of Mr. W. G. Waller, of Baton Rouge, La. The groom is the son of Gen. J. C. Starkweather, of Washington.

THE Ambler Memorial Tablet has been on exhibition in the office of Medical Director T. J. Turner, U. S. N., Museum of Hygiene, where it has been much admired, and several photographs of it have been taken. The tablet is of a dark bronze, and is admirably executed. Its cost was borne by the members of the Medical Corps of the Navy.

SURGEON THEORON WOOLVERTON, U. S. N., ordered to duty at the Washington Ordnance Yard March 1, will not bring his family on until spring. In the meantime, it is his intention to reside at the Naval Hospital. Dr. Woolverton has long been known at the capital, and has a wide circle of friends who will welcome his assignment here with pleasure.

CAPTAIN and Mrs. Harrington, at the Marine Barracks, can surely flatter themselves that the pleasure of the Monday morning concerts by the string part of the Marine Band, has been largely added to by the care and attention bestowed by them upon the numerous concourse which finds time fly so swiftly at this pleasant morning entertainment.

THE following officers registered at the Navy Department this week: Lieut. Comdr. H. E. Nichols, Ensign C. N. Atwater, Paymr. Arthur Burtis, Lieut. N. J. K. Patch, P. A. Paymr. John Corwine, Lieut. Comdr. Geo. C. Reiter, Lieut. C. G. Bowman, Lieut. A. P. Osborn, Lieut. John F. Parker, Lieut. R. Mitchell, Lieut. J. H. C. Coffin, Lieut. J. A. H. Nickels, Lieut. W. C. Babcock, Paymr. G. H. Read, Capt. J. H. Gillis and Cadet Engineer G. Kammerling.

PASSED ASSISTANT ENGINEER ABSALOM KIRBY, U. S. N., concluded a successful examination for Chief Engineer on Saturday last, Feb. 19. The examination lasted no less than 22½ days. Other casualties aside, Mr. Kirby will receive a commission on Dec. 2, 1887, by the retirement of Chief Engr. William S. Stamm. George E. Tower, P. A. Engr., now stands at the head of the list of his grade, but will not be ordered to examination until two vacancies occur.

SURGEON A. M. MOORE, of the Navy, has received leave of absence for a year, with permission to go beyond sea, but it is not his intention to leave the U. S. for some time to come. The Dr. and his wife will soon pay an extended visit to Tennessee, her native State, accompanied by Miss Evans, Mrs. Moore's sister. The young lady has created quite a sensation in the society of the capital during her stay by her grace and beauty, and will, it is said, return before Christmas as Mrs. ——, U. S. N.

THE Japan *Daily Mail*, referring to the appearance of Miss C. Chandler, daughter of Rear Admiral Chandler as Lady Sangazure, in Gilbert and Sullivan's opera "The Sorcerer," at the public hall in Yokohama, Japan, Jan. 12, says: "The Lady Sangazure, who made a first appearance in Yokohama, and is a decided acquisition to the society, scored a great success. Possessing a sympathetic though not powerful voice, this lady will probably be seen to greater advantage in a more congenial role."

MRS. PAVY, widow of Dr. Pavy, who died on the Greely Expedition, appeared before the Senate Military Committee on Monday and asked permission to file charges against Capt. Greely's confirmation. One of the members of the committee is reported as saying: "Our committee will make a unanimous report in Capt. Greely's favor. He will be confirmed before Congress adjourns, without the shadow of a doubt." The cases are very rare indeed in which the Senate has interfered with the President's constitutional prerogative.

CAPT. GEO. BROWN, U. S. N., visited relatives in Indianapolis, Ind., this week

LIEUTENANT J. F. PARKER, U. S. N., is visiting at 814 12th street, Washington, D. C.

LIEUTENANT ALEXANDER T. DEAN, 4th Cavalry, who was promoted last week to first lieutenant, is the son of Medical Director Richard C. Dean, U. S. Navy.

CHIEF ENGINEER ROBERT B. HINE, U. S. N., is still unassigned, and is in Washington awaiting orders at his residence, 1316 G St., where he is perfecting himself in the art of amateur photography.

LIEUTENANT-COMMANDER REISINGER, U. S. N., of the *Yantic*, is still an invalid, and is under the care of the medical officers at the Naval Hospital at Washington, D. C. His trouble is said to be a form of gastric catarrh, and recovery is extremely slow.

THE classmates of the late Asst. Engr. Harry S. Elseffer, U. S. N., are preparing to erect a suitable monument to his memory in Oak Hill Cemetery, Georgetown, D. C., to which his remains are to be transferred from their present location. Mr. Elseffer died at Wakefield, Neb., March 21, 1886.

THE Portsmouth (N. Y.) *Gazette*, referring to the assignment of Commo. R. F. Bradford, U. S. N., to the command of the Portsmouth Navy-yard, says: "Commo. Bradford has long been a resident of this city, and, as an able, energetic and efficient officer of the Navy, has the respect and esteem of our citizens."

AMONG the transfers of real estate noted in a recent Washington paper is the sale to Rear Admiral Aaron K. Hughes of a piece of unimproved property on 19th Street, between Q and R Streets. The former owner was Mrs. Susan P. Okie. The Admiral contemplates building, it is said. The price paid was over $10,000.

REV. DR. C. W. WARD, rector of St. Paul's Episcopal Church at Englewood, N. J., who, in a fit of temporary insanity, shot himself and his wife on Tuesday last, is a son of Comdr. James H. Ward, U. S. N., who was killed June 27, 1861, while trying to run by the Confederate batteries in the James River. He is also a brother-in-law of Mr. Aaron J. Vanderpoel of New York.

ALTHOUGH the papers in the case of Lieut. C. C. Todd for promotion to the next grade have been before the President for some time, no decision has been arrived at, and, as a consequence, commissions cannot be issued to Lieuts. Harris, Parker, Hemphill and Lillie, because until Mr. Todd's case is disposed of the relative number of commissions cannot be fixed in the cases of the officers named.

NEW YORKERS AT GETTYSBURG.

SENATOR RAINES introduced a bill last week in the New York Legislature authorizing General Daniel E. Sickles and other commissioners appointed a year ago by the State authorities to erect at the State's expense suitable monuments marking the positions held by the New York troops at the battle of Gettysburg. The cost of each monument is to be $1,500, and for this purpose the sum of $130,500 is appropriated. The bill also appropriates $50,000 for the erection of a memorial building in honor of the New York soldiers; $10,000 for the purchase of sites for the monuments, and $10,000 for the payment of the engineers who survey the battlefield and supervise the construction of the monuments. The total appropriation is $200,500.

REGIMENTAL STAFF DETAILS.

To the Editor of the Army and Navy Journal:

WOULD it not be well to embody in the new Regulations a paragraph to the effect that, in time of peace no lieutenant shall serve on the regimental staff for more than four years at any one time? It seems to me that a regulation of this kind would be a positive benefit to the Service. Those lieutenants who, for 20 years or more, have been doing monotonous company duty, are tired of it, and, I venture to say, perform their duties in a perfunctory manner, and you cannot expect anything else. They have no hope of promotion and no change to look forward to. Their life is the same day after day. Experience in the position of subaltern has satisfied most of us that an exchange of duties would carry with it renewed energy and interest; two things necessary to fill any position well. DILLCOTT.

[A General Order issued this week establishes the regulation advocated by our correspondent, the adoption of which the JOURNAL has been urging for some time.—ED. JOURNAL.]

HISTORY OF THE NINETEENTH CORPS.

To the Editor of the Army and Navy Journal:

HAVING waited so long for the task to be undertaken by some one wielding an abler pen with a freer hand, I am now engaged in writing a history of the 19th Army Corps which shall attempt to render tardy justice to its achievements and its sacrifices.

The absence of official reports, on the Confederate side as well as ours, will make this almost impossible, unless the officers engaged will kindly co-operate by lending the aid of their memories and their materials. For these I should be grateful and would duly acknowledge and carefully return all documents.

As these gentlemen are scattered and their addresses for the most part unknown to me, would you kindly make these requests public through the JOURNAL? Yours faithfully,

RICHARD B. IRWIN,
Formerly Lieut.-Col., Asst Adjt.-General, of the Department of the Gulf.

THE 16th annual masque, civic and military ball of J. L. Riker Post 62, G. A. R., took place at Everett Hall, New York, on Monday evening, and like its predecessors was a most enjoyable occasion. The comrades did their utmost to entertain their guests and were extremely successful in their endeavors.

RECENT DEATHS.

THE restoration of William P. Chambliss to the Army, with the rank of major, has been speedily followed by his death, which occurred at his residence in Cobourg, C. W., Feb. 22. During the war with Mexico he served as 2d lieutenant, 10th Mounted Volunteers, and his subsequent service in the Regular Army extended from March 5, 1855, when he was appointed 1st lieutenant, 2d Cavalry, until Nov. 1, 1867, when he resigned as major, 4th Cavalry. He received the brevets of major and lieutenant colonel for gallant service in the war, his record in which has been recently set forth in connection with his restoration to the Army. Colonel Chambliss will long be remembered by his old comrades for his admirable qualities as a man and a soldier.

—

LIEUTENANT W. N. BRADY, U. S. Navy, retired, who died at Darien, Conn., Feb. 20, in the 78th year of his age, entered the Navy as boatswain Sept. 7, 1836, was promoted master in 1843, and retired in 1855. The funeral took place Feb. 23 at Darien and was attended by many friends of the old veteran.

—

MAJOR-GENERAL ROBERT B. POTTER, U. S. V., who died Feb. 19 at Newport, R. I., served with much distinction during the War of the Rebellion. In 1861 he was appointed Major of the Shepard Rifles, 51st Regiment, N. Y. V., and went to the front. His first engagement was at Roanoke Island, where he was shot through the body. He returned to his regiment as soon as he recovered, and soon after was promoted to lieutenant-colonel, and soon to that of colonel. At Antietam he was again wounded, and in the assault on Petersburg he received what was at the time supposed to be a mortal wound. For several weeks he lay in the hospital, the doctors having little hope of his recovery. He took a prominent part in the battles of Cedar Mountain, Manassas, Chantilly, and Fredericksburg. He was made brigadier-general March 13, 1863, and later commander of the Second Division, Ninth Corps, at Vicksburg, and then commander of the corps against Longstreet in Tennessee. He was made brevet Major-General in 1864 for "gallantry in several actions since crossing the Rapidan." At the close of the war General Potter returned to New York, and was appointed commander of the Department of the East, with headquarters at Newport. He was offered a position in the Regular Army, but declined. He was a brother of Bishop Potter of New York. The burial service at Newport took place Feb. 21, in the presence of several members of the family and friends, after which the remains were taken to New York, service there being held at Trinity Church on Wednesday, and the remains then taken to Greenwood for interment. The pallbearers were Major General John F. Hartranft; Major Gen. John G. Parke, colonel of Engineers; Judge C. C. Nott; James M. Brown, Thomas Tileston, Colonel George E. Waring, General McKibbin, James Lowndes, General Edward Ferrero and William B. Rice.

HIRAM MARSHALL, who died at Lyons, N. Y., recently, was at the time of his death one of the three last survivors of the famous Walker expedition to Nicaragua in 1855. Soon after arriving in New Orleans he was inveigled on board a frigate and then told that he had been made one of an expedition to Nicaragua, where it was the purpose of Walker to drive the Government out of power, put to death the influential Nicaraguan leaders, and place the members of the expedition in control of the country. How the expedition progressed and ended is matter of history. After being driven from the city of Granada to the Central American forests yellow fever broke out among Walker's men, Marshall being one of those attacked. After recovering, Marshall and a few others made their way to Realejo through almost incredible hardships and thence were sent by the U. S. Consul to New York on a Government sloop. Marshall arrived at his home in Lyons in 1856.

GENERAL JAMES L. GEDDES, who died at Ames, Iowa, Feb. 21, served with great credit during the War, being promoted in 1862 Colonel of the 8th Iowa Infantry. He served under Fremont, Hunter and Pope in Missouri in the winter of 1861-2; was wounded at the battle of Shiloh, April 6, 1862; was taken prisoner and held for over six months at Madison, Ga., and Libby Prison in the spring of 1863. He was with Grant's Army through the siege and capture of Vicksburg, Jackson and Brandon, Miss.; served as Provost Marshal in Western Tennessee, with Gen. Canby in the operations against Mobile; with the brigade in the assault and capture of Spanish Fort, April 8, 1865; and resigned on account of sickness June 30, 1865. He received the brevet of Brigadier-General for his gallant and meritorious services.

CHRISTOPHER T. HALL, a graduate of West Point, class of 1868, died, Jan. 31, at Shreveport, Louisiana, of congestion of the lungs. He was born in Kentucky and appointed cadet from Illinois in 1864; graduated No. 25 in 1868 and assigned to the 2d Cavalry as 2d lieutenant and received his promotion to a 1st lieutenancy in July, 1869. His service was on the plains with his regiment until November, 1880, when he resigned. He was afterwards employed by the U. S. Engineer in charge of the Mississippi River improvement at Cairo and later by the officer in charge of the Vicksburg section.

MRS. HARRIET B. DUNN, wife of Major T. S. Dunn, U. S. A., retired, and mother of Mrs. F. K. Ward, died at Santa Monica, Cal., Feb. 10, after a short illness. She was the daughter of Gen. John Tipton, of Indiana, formerly U. S. Senator.

A WIDE circle of friends in Washington and elsewhere will read with sincere regret of the death, Feb. 22, at Colorado Springs, of Mrs. Rachel A. Slack, the wife of Major W. B. Slack, of the U. S. Marine Corps, retired.

WE regret to learn of the death at Key West, Fla., Feb. 17, of Miss Alice F. Wood, daughter of Comdr. G. W. Wood, U. S. N., a young lady between 16 and 17 years of age. The remains were interred at Key West.

MRS. SLACK, wife of Major W. B. Slack, U. S. Marine Corps, retired, died at Colorado Springs, Feb. 22. The remains were brought to Washington for interment.

MRS. PEACO, the venerable widow of Surg. Jno. W. Peaco, U. S. Navy, died at Salem, N. J., Feb. 12. Her husband entered the Navy in 1814 and died in 1827.

MRS. LYDIA MCLANE JOHNSTON, wife of Gen. Jos. E. Johnston, died at Washington, Feb. 22, of paralysis. She had been an invalid for many years.

THE FORTY-NINTH CONGRESS.

The session is nearing its close with the calendars, as usual, loaded down with important measures that must die with the session, and with the usual number of appropriation bills to occupy the last few days to the exclusion of all other measures. From the present condition of the appropriation bills it will be seen that very little other work can be accomplished during the remaining five days of the session. The army bills is the only one that has become a law. The Legislative is pending in House; Sundry Civil, Post Office, Pension, in conference; Naval, under consideration in the House: Fortifications and Deficiency, not reported; Military Academy, before the President; Agricultural, in the Senate; Diplomatic, in Senate Committee on Appropriations; River and Harbor, D. of Columbia; Indian, in House committee, with Senate amendments.

There is a fair prospect, however, of some legislation on the subject of sea coast defences. The conferees on the old fortification have been in session nearly all the week and have made such progress toward the adjustment of the points at issue as to warrant the belief that an agreement will be reached in time to have the bill acted upon. It is believed that about $10,000,000 will be the amount agreed upon, and that the bill will contain such provisions as to place the control of the new work into other hands than those of the ordnance bureaus. The Senate conferees, it is said, have been willing to concede this point in order to obtain the House Committees consent to liberal appropriations. In the event of the passage of the bill referred to, it is hardly probable that the House Appropriation Committee will report the regular fortification bill for the coming fiscal year.

In regard to appropriations for new ships of war, there is not believed to be a ghost of a show for the Cameron, Hale, or any other bill this session. The Naval Committee will not report either of them as long as the Herbert-Thomas increase bill is on the calendar, and it is pretty certain that the House will not have the time to pass their measures. Of the few bills of interest to the Army and Navy that have just a bare chance of becoming laws by reason of their advanced places, may be mentioned the following: Senate bill No. 1,119, with House amendments, to create a Hospital Steward's corps; H. R., 8,331, to regulate the pay of Army and Navy officers who refuse or neglect to provide for their families; H. R., 6,758 to confer brevet rank on Army officers for meritorious service in Indian campaigns. These bills are on the Senate calendar and only require the action of that body and the President's signature to become laws. There are also a number of senate bills of a Military and Naval nature on the House calender, but the condition of business in that body is such that there is not the slightest prospect of any one of them passing.

Committee work is, of course, ended for this session. The House Military Committee has been the most industrious of the Four Service Committee during the 49th Congress; of the eleven hundred and odd measures referred to it, about six hundred received reports. The House Naval Committee had 242 measures before it and reported sixty. The measures referred to the Senate Military Committee numbered 550, of which about 250 were reported upon.

The Military Academy Appropriation bill was passed by the Senate on Tuesday with the Committee amendment appropriating $35,000 for a gymnasium building, and on the following day was re-considered and the additional amendments adopted increasing the pay of clerk to quartermaster and clerk to adjutant in charge of cadet records from $1,200 to $1,500 per annum. These amendments have been agreed to by the House and the bill reaches the President without going to conference.

The nomination of Surg. Jos. C. Bailey, to be Asst. Medical Purveyor with the rank of Lieut.-Colonel, was the only nomination acted upon at the meeting of the Senate Military Committee on Tuesday. Action on the several cavalry promotions was deferred in consequence of the opposition to Capt. Greely. No action will be taken on the nominations of the assistant surgeons, which have been pending during the entire session, as the committee expect that the President will withdraw them in order to rearrange the list in accordance with the act of Congress in regard to promotion in the Medical Department, which is now in the hands of the President for signature. It is not altogether certain that the President will sign the bill. A statement has been compiled at the War Department showing that it will have a somewhat different effect from what was represented to the Committees of Congress, which, contrary to custom, did not send to the War Department for the views of the officials upon it.

The Senate has authorized the printing of 3,000 additional copies of the "Flags of all Nations," prepared by order of the Secretary of the Navy, and 3,500 copies of Lieut Henry T. Allen's report on his explorations in Alaska.

The Senate Committee on Military Affairs at its meeting on Tuesday, adopted favorable reports on House bill No. 666, providing for the sale of certain portions of the Newport, Ky., military barracks; H. R. 831, to regulate the pay of officers of the Army and Navy who fail to provide for their families, and a large number of private bills of an unimportant nature.

From the Committee on Military Affairs Senator Hawley, Feb. 18, reported favorably a bill to present suitable medals to the survivors of the forlorn hope who stormed the works at Port Hudson, June 15, 1863.

BILLS INTRODUCED.

The House Committee on Military Affairs at a meeting on Tuesday adopted the following as a substitute for the McAdoo $15,000,000 ordnance bill:

A bill to provide for public defence. *Be it enacted, etc.*, That the sums of money herein provided for be, and the same are hereby, appropriated, out of any moneys in the Treasury not otherwise appropriated, namely: For the purchase of rough-finished, oil-tempered, and annealed steel forgings for high-power, coast-defence guns of eight, ten, and twelve inch calibre, in quality and dimensions conforming to specifications, subject to inspection, and including all the parts of each calibre, $2,500,000: *Provided*, That no money shall be expended except for steel accepted and delivered.

Sec. 2. For the purchase, manufacture, and erection of the necessary buildings, machinery, tools, and fixtures for a gun factory for finishing and assembling of heavy ordnance, to be erected as such arsenal as the board hereinafter provided for may select, $680,000.

Sec. 3. For the construction of twelve inch rifled mortars, either of steel or of cast iron, steel hooped, and either muzzle loading or breech loading, as the board hereinafter provided for shall determine, to fire a projectile not less than 615 lbs. weight, to have a maximum range and an accuracy of fire at least equal to the best existing similar piece, $500,000.

Sec. 4. For the purchase or construction of torpedo boats, torpedoes, and submarine mines, suitable for coast defence, subject to specifications approved by the board hereinafter provided for, $600,000.

Sec. 5. For service and experimental seacoast gun carriages and testing the same, and for alterations of existing seacoast gun carriages to adapt them for service with guns on hand or such as may be hereafter manufactured, $250,000.

Sec. 6. For the purchase of the material and manufacture of breech-loading steel field guns, metal carriages, limbers, cassions, forges, battery wagons, and equipments for batteries of field artillery, $250,000.

Sec. 7. The contracts for all material under this act, except such as may be furnished from Government workshops, shall be awarded to the lowest responsible bidder, after proper advertisement, and under such conditions, specifications, details, and terms as the advisory board may determine; and the board shall certify that the prices under which contracts are awarded are reasonable and just: *Provided, however*, That all material entering into the construction of the defence herein provided for shall be of American material and manufacture. The board shall determine the order and time of delivery of the steel forgings and all other material and defensive appliances, under such checks, safeguards, and rules as it may decide, and have general supervision of all tests necessary to carry out the provisions of this act. (Section two of an act making appropriations for fortifications and other works of defence, and for the armament thereof, approved July 5, 1884, is hereby repealed.) For the purpose of the payment of all necessary expenses of the advisory board in carrying out the provisions of this act, including compensation for draughtsmen on gun construction while employed in the Ordnance Bureau, $30,000, or so much thereof as may be necessary.

Sec. 8. An advisory board, consisting of one brigadier-general of the line, one officer of engineers not above the rank of lieutenant-colonel, one officer of artillery, and one officer of the ordnance service, neither of which last-named officers shall be above the rank of captain, shall be appointed by the President of the United States, which board shall supervise the making of all contracts and all expenditures provided for by this act. The lieutenant-general commanding the Army shall be ex-officio president of the board, and shall have a voice and vote in all the proceedings. The President shall add to the board one officer of the Navy not above the rank of captain, to act as a member thereof in the testing and consideration of the purchase and construction of torpedo boats, torpedoes, and submarine mines suitable for coast defence: *Provided*, That no person shall be eligible as a member of this board who has any pecuniary interest, either directly or indirectly, in the material, manufacture, or inventions to be employed in the construction or operation of the defences or defensive measures herein provided for.

Sec. 9. To enable the advisory board hereinbefore provided for to make such proofs and tests of guns, mortars, torpedoes, torpedo boats, and other appliances provided for in this act, as in his judgment may be necessary for the public interest and welfare, including the test of a twelve-inch mortar now in process of construction by the Government, $200,000.

Sec. 10. The advisory board shall annually report its operations to the Secretary of War, for the submission to Congress at the beginning of each session. And the appropriations herein provided for shall be available for five years.

S. 3332, Whitthorne. That for the purpose of establishing an arsenal at Columbia, Tennessee, for the manufacture of ordnance or ordnance stores the sum of $200,000 is hereby appropriated out of any money in the Treasury not otherwise appropriated; and the construction and control of said arsenal shall be under the direction of the Secretary of War

Amendment reported from the Committee on Military Affairs, and intended to be proposed to the legislative bill. That the Secretary of War be, and he is hereby, authorized to provide suitable medals which are to be presented to the competitors in the national drill which is to take place next May; and that the sum of $1,500, or so much thereof as may be necessary, is hereby appropriated to enable the Secretary of War to procure such medals as in his judgment may be appropriate for the purposes indicated, said medals, when made, to be turned over to the committee of national drill having their disposition in charge.

H. R. 11202. Reported from the Committee on Appropriations. That there is hereby appropriated, out of any money in the Treasury not otherwise appropriated, the sum of $4,663,104 for the payment of the pensions provided for under the act entitled "An act granting pensions to the soldiers and sailors of the Mexican War, and for other purposes," approved Jan. 29, 1887.

H. R. 11219. Same as S. 3233, published last week.

LATE ARMY ORDERS.

Battery M, 5th Art., (Day's) will relieve Battery H, 5th Art., (Fessenden's) at Bedlow's Island, N. Y. H., March 1. Battery H will then return to Fort Hamilton, N. Y. H. (S. O. 40, Div. A., Feb. 25.)

The resignation of Lieut. B. D. Spillman, 7th Cav., is accepted, to take effect Sept. 1, 1887, and leave granted him until that time. Major D. L. Huntington, Surgeon, on being relieved from duty at Washington, will proceed to San Diego Barracks, Cal., and relieve Capt. R. H. White, Assistant Surgeon, who will take station at Angel Island, Cal. (S. O. Feb. 25, H. Q. A.)

REVENUE MARINE.

Confirmations, Feb. 14, 1887.—2d Assistant Engineer James Fitzpatrick to be 1st Assistant Engineer, vice Laws, deceased: James L. Brereton to be 2d Assistant Engineer, vice Fitzpatrick, promoted; William H. Culver to be 3d Lieutenant to fill a vacancy.

Lieut. Howard M. Broadbent, attached to *Forward*, stationed at Mobile, has been commissioned Second Lieutenant.

ANOTHER pay account of 2d Lieut. Shaw, of the 6th Infantry, for December, has turned up, making nine in all paid him for the month of December and January. The last account was paid by Maj. Candee. Unless heard from he will in three months from Feb. 8, the date of the expiration of his leave, be dropped as a deserter.

FORT LEAVENWORTH PRISON.*

OFFICE A. Q. M., U. S. MILITARY PRISON, FORT LEAVENWORTH, KAN., Feb. 9.

To the Editor of the Army and Navy Journal:

ATTENTION having been again directed to the Leavenworth Military Prison by the report of the Military Committee of the House of Representatives of Congress, I desire to submit certain facts which may not be generally known and present views which may escape the notice of the public, and which tend to show that the facts stated by that committee may bear an entirely different interpretation from that which would naturally be drawn from reading the report. The sympathetic character of the American people is demonstrated by periodical movements in favor of the amelioration of the condition of certain classes, such as the Indians, the insane, the criminals. These demonstrations often stamp their effects on the feelings and on the legislation of the people; yet at times the emotions so suddenly disappear that the reasons for the legislation are forgotten. Especially does the awakened public sympathy cease to act when its influences seem to clash with the interests of other classes which in turn absorb the public interest.

In the narrow and conservative sphere of the Army, we may see one illustration of this phenomenon exhibited in the brief history of the Leavenworth Military Prison. Some years ago there arose in favor of the imprisoned classes a strong movement, of which one of the distinct results was the establishment of the U. S. Military Prison. It was observed by the prison reformers that deserters and other purely military offenders were confined in penitentiaries along with the worst class of civil criminals, murderers, thieves, and other felons. It is impossible to impress upon such a non-military nation as this a conviction that a very great degree of guilt can in times of peace pertain to a purely military offence, and the prison reformers were earnest in the belief that soldiers guilty of violating military law should not be subjected to the stigma degrading them to the level of States' Prison convicts. The result was that they secured the enactment of the law for the establishment of a U. S. Military Prison.

Decidedly the most prominent feature of that law is the manner in which it provides for securing kind treatment of the prisoners confined in the prison. Sec. 5 prescribes that one of the inspectors-general of the Army shall be required to visit the institution every three months to see that the prisoners are "properly employed and governed, at the same time treated with kindness and humanity."

Sec. 6. "In no case is a prisoner to be subjected to whipping, branding or the carrying of weights for the purposes of discipline or for producing penitence. . . Every prisoner upon being discharged from prison shall be furnished with decent clothing."

Sec. 7. "The use of newspapers and books shall not be denied the prisoners at times when not employed." "The prisoners shall not be denied the privilege of communicating with their friends by letter, and from receiving like communications from them," under proper inspection.

Sec. 8. "The prisoners shall be supplied with ample and clean bedding and with wholesome and sufficient food." "The prison shall be suitably ventilated and each prisoner shall have a weekly bath of cold or tepid water, which shall be applied to the whole surface of the body unless the surgeon shall direct otherwise for the health of the prisoner."

All these provisions for the benefit of the prisoners are inserted in the brief act of establishment. Congress has also made provision by regular annual appropriations for five dollars and transportation to their homes to be furnished all prisoners on their discharge from the prison.

All these careful provisions show the extreme anxiety of the law-makers that kindness of treatment should be the rule of the institution. That it was the further intention of Congress that the prisoners should be employed in manufactures is shown by the fact that the prison was by the first act located at Rock Island in order that they should engage in the manufacture of articles by the Ordnance Department at the arsenal, where articles similar to those made at the Military Prison are manufactured for the Army.

A reason for the great care taken that the rights of the prisoners should be secured may be the peculiar fact that Army officers who must necessarily have charge of such an institution are the only class in the country who regard desertion in time of peace as a crime which would devolve upon the perpetrator the stigma ordinarily conveyed by the word "convict." Whatever should be the right view, that neither civilians nor soldiers so regard the deserter, I have abundant evidence.

To officers of the Army, therefore, the sole class deeming desertion as a high crime, and thence naturally inclining to severity of discipline, was confided the execution of the law so passed, and the resulting institution has been under such management since 1875. That the law has been carried out in its true spirit is clearly proved by the report of the House Military Committee, which says:

"It is, however, the belief of the committee that the sentence to the Leavenworth Military Prison for desertion followed by an education as a shoemaker, harness-maker, a chair-maker, or a broom-maker, good living, good quarters, a suit of clothes at the expiration of the term of sentence, transportation to his home and $5 to refresh himself with, has no such terror in it as to tend to suppress the crime. In a humanitarian point of view much can be said in favor of it, but as an aid to military discipline the committee think it too weak."

This can only constitute a criticism on the law instituting the prison for the reason that the above extracts from the law clearly prove that all the privileges named were distinctly designed to be granted by Congress in its passage. The other portion of the Committee's report indicates that the change in the opinion of its members, is only part of the change of the public sentiment in favor of the labor element, which has absorbed the attention of the public to the exclusion of sympathy for the imprisoned class. The report states:

"The committee, moreover, cannot forbear from expressing their conviction that the United States Government should not build up a manufactory to be run by convict labor in competition with the honest artisan who supports his family by the products of his labor."

This change of sentiment toward military offenders indicated by this use of the term convict, can only be made logical by a decided increase in the heinousness of the criminality generally attached to desertion. That the committee is logical is proved by the fact that it has since reported a bill providing for the branding of deserters. If the honest artisan so regards the deserter, Army officers have gained very numerous converts to their view. But there is no assurance that they do not regard the deserter as a convict in the sense above used and such was certainly not the view of those who enacted the law governing the prison.

If the term "convict" in the ordinary degraded sense would not, with the general public, be applicable to military prisoners, still less could the class of work done by them be properly called competition with free labor. To constitute competition the prisoner should be employed in one of two ways which alone are condemned on that ground: first, in the manufacture of articles for sale, or second, under some kind of a lease to private individuals. The method adopted at the prison bears no resemblance to either of these, but is more nearly allied to that adopted by those States wherein competition between convict and free labor has been abolished; the employment of the convicts on public works.

The military prisoners are employed solely in labor for the Government either in manufacturing articles for the Military Service or in common public work. Not one product of their labor finds its way into the market, nor is designed for private use. All goes to the Government or inures to the benefit of the soldier. As the law gives the Army charge of its criminals it could scarcely be objected that the soldiers should get the benefit of their labor product. Recurring to the expression by the committee of the conviction that the discipline of the prison is too weak to tend to suppress desertion, though the reasoning may seem well founded *à-priori*, still the facts are clearly against its conclusion. If the history of crime and criminal legislation has demonstrated anything, it has decisively proved that severity of punishment has not had the effect of diminishing crime. So far as desertion in the American Army relates to this, the statistics emphatically show that while severity of punishment has steadily lessened the proportion of desertions has almost uniformly decreased. Though it is not pretended that the military prison is entitled to all the credit for this diminution, the figures settle the fact that neither the prison nor the reduction in the amount of punishment inflicted has tended to increase the crime. From 1873 to 1879 there was very little legislation for the improvement of the condition of the soldier, and during those years the penalty was reduced to two years' confinement for simple desertion, yet the figures stand as follows:

1873.	Strength of the Army,		32,602;	desertions.	7,271
1874.	"	"	"	"	4,606
1875.	"	"	27,489	"	2,521
1876.	"	"	"	"	1,844
1877.	"	"	"	"	2,516
1878.	"	"	"	"	1,678
1879.	"	"	26,289	"	1,935

I have not the figures for recent years, but last year the number of desertions had become so reduced that the number of prisoners in confinement has been sensibly declined. As the prison was established in 1875, and the effects of the war had ceased to operate, these figures prove that a considerable reduction in the number of desertions took place after its establishment instead of an increase, as the reasoning of the committee would require to be the case.

It seems almost impossible to eradicate the fallacy that severe penalties deter from crime, though all history proves the belief erroneous.

It is undoubtedly true that penalties graduated to the offence and inflicted with celerity and certainty have all the deterrent effects that can be attained by the punishment of crime.

J. W. POPE, Capt. and A. Q. M., U. S. Army.

* This is the article referred to on the first page of the JOURNAL of Feb. 19, and which was unavoidably omitted from that number.

SOLDIERS' HOME AT FORT SNELLING.

THE House Committee on Military Affairs have reported adversely Mr. Gilfillan's bill ceding to the State of Minnesota 200 acres of the Fort Snelling military reservation for the establishment of a soldiers' home. The committee makes no comment on the bill, but submits with the report a letter from Gen. Sheridan in whose views it concurs. In this letter Gen. Sheridan say: When the proposition to establish a soldiers' home on the Fort Leavenworth reservation was pending two years ago, I remarked that its location on the reservation would not make a very homogeneous mixture, and would make the administration on the post difficult and, perhaps, impossible. The old soldier at the home cannot be subjected to the strict laws of discipline on account of his age, etc. Then there would be beside a divided authority upon the reservation and I think that the establishment of the home on it would be injurious if not disastrous to the interests we now have there These remarks apply with even greater force to Fort Snelling. Its location is such that, wherever the proposed home might be established, access could be had to it from the city of St. Paul only by passing through the post, and in all probability the approach from Minneapolis would be subject to the same condition—circumstances which, by making a public thoroughfare of the post, could not but have a demoralizing influence upon its discipline. For these reasons I earnestly hope that this measure will not become a law.

WILLET'S POINT, N. Y. H.

THE winter torpor of Whitestone, says a local paper, has been broken by the loves of Private Samuel E. Taylor, of the engineer battalion, and Miss Ella Hipple, a sweet young maiden of 16. The brothers Hipple did not relish the attentions of the gallant soldier and assaulted and beat him on Sunday night. Taylor then went before a justice and swore to the assault. The "local" says:

Taylor was the first lover that 16-year-old Ella had ever had, and she was delighted with the idea of fervid admiration from a grown up man. He was an educated fellow, too, and he made her restless and dissatisfied by the glowing pictures he drew of a possible future. "Taylor obtained an influence over my sister," says one of the brothers, "and, though he could not come into the house, he established a code of signals, by means of which he enticed her from home at various times last summer. He filled her mind with high ideas. He forbade her to wash dishes, because it would spoil her hands, and at one time he wrote her a 22-page love letter."

THE ARMY

ARMY CONFIRMATIONS BY THE SENATE.

February 14, 1887.

Ordnance Department—Lieut. Col. James M. Whittemore to be colonel.
Major Francis H. Parker to be lieutenant colonel.
Capt. John A. Kress to be major.
Corps of Engineers—1st Lieut. Walter L. Fisk to be captain.
2d Lieut. Cassius E. Gillette to be first lieutenant.
2d Lieut. Charles L. Potter, 5th Cavalry, to be second lieutenant.
1st Infantry—Capt. Edward Moale, 3d Inf., to be major.
3d Infantry—1st Lieut. John W. Hannay to be captain.
2d Lieut. Frank B. McCoy to be first lieutenant.
7th Infantry—Major Edward Collins, 1st Infantry, to be lieutenant colonel.
Post Chaplains—Rev. William F. Hubbard, of New York.
Rev. Henry Swift, of Dakota.

G. O. 12, H. Q. A., Feb 18, 1887.

Publishes the act, approved Feb. 9, 1887, "making appropriations for the support of the Army for the fiscal year ending June 30, 1888, and for other purposes."

(The full text of the act has already appeared in the JOURNAL.)

G. O. 13, H. Q. A., Feb. 21, 1887.

It is hereby announced to the Army, that Private Charles W. Forsyth, Co C, 19th Infantry, having sold the department gold medal and silver skirmish medal, which he had won in the rifle competition of 1886 of the Department of Texas, is prohibited from participating in any future department competitions.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 14, H. Q. A., Feb. 23, 1887.

By direction of the Secretary of War, the following regulation is published to the Army, and will be numbered par. 155½ of the Regulations:

155½. Regimental adjutants and regimental quartermasters may hold office for four years and no longer, and will not be eligible for a second tour of such duty; nor shall an officer who has served in either of these positions be eligible for appointment in the other, except to serve an unexpired term of four years.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 5, DEPT. OF THE COLUMBIA, Feb. 8, 1887.

Circular 22, series of 1881, from these Headquarters, is revoked. Hereafter abatement of confinement of military prisoners undergoing sentence in this Department will be in accordance with par. 925, A. R.

G. O. 5, DEPT. OF ARIZONA, Feb. 10, 1887.

The Target Practice Season for 1887 is announced as follows:

Fort Selden, N. M.—January 16 to February 15, April and September 16 to October 15.
Fort McDowell, A. T.—Feb. 16 to April 15 and October.
Fort Lowell, A. T.—March, April and October.
Fort Verde, A. T.—April, May and September.
Fort Thomas, A. T.—April, May and October.
Fort Mojave, A. T.—April 1 to May 15 and Sept. 16 to Oct. 31.
Fort Apache, A. T.—April, May and June.
Fort Huachuca, A. T.—April, May and September.
Fort Bowie, A. T.—April 16 to May 31, and Sept. 16 to Oct. 31.
Fort Bayard, N. M.—May, June and September.
Fort Grant, A. T.—May, September and October.
Whipple Barracks, A. T.—May 16 to June 15 and Sept. and October.
Fort Union, N. M.—June, September and October,
Fort Stanton and Fort Marcy, N. M.—July, Aug. and Sept.
San Diego Barracks, Cal.—July, September and October.
Fort Wingate, N. M.—July 16 to October 15.

STAFF CORPS AND DEPARTMENTS.

Quartermasters and Subsistence Departments.

The leave for twenty days granted Capt. L. E. Campbell, A. Q. M., is extended seven days (S. O. 20, Feb. 16, Dept. Mo.)

Capt. Charles A. Woodruff, Chief C. of Sub., will proceed on public business to Portland, Ore. (S. O. 19, Feb. 1, D. Columbia.)

Pay Department.

Leave for ten days is granted Major Charles H. Whipple, Paymr., Fort Keogh, M. T. (S. O. 11, Feb. 11, D. Dakota.)

Payments of troops in Div. Atlantic, on muster of Feb. 28, will be made as follows: Col. Daniel McClure, Asst. Paymr. Gen., Frankford Arsenal, and Forts McHenry and Fort Monroe. Major Albert S. Towar, Paymr., Forts Wayne, Mackinac and Brady. Major Joseph W. Wham, Paymr., Forts Columbus, Trumbull and Adams. Major Culver C. Sniffen, Paymr., David's Island, West Point, Watervliet Arsenal, Plattsburg Barracks and Sandy Hook. Major George W. Baird, Paymr., National Armory, Watertown Arsenal, Fort Warren, Fort Preble and Kennebec Arsenal. Major Francis S. Dodge, Paymr., Willet's Point and Forts Schuyler, Hamilton, Wadsworth and Wood. Major Charles McClure, Paymr., Newport Barracks, Columbus Barracks, Allegheny Arsenal and Indianapolis Arsenal. Major William H. Comegys, Paymr., Little Rock Barracks, Jackson Barracks, Mount Vernon Barracks, St. Francis Barracks, Fort Barrancas and Augusta Arsenal. Major Henry Clayton Paymr., Forts Porter, Buffalo, Niagara, Ontario and Madison Barracks (S. O. 39, Feb. 23, Div. Atlantic).

Major Culver C. Sniffen, Paymr., will proceed, not later than March 1, to West Point, N. Y., on public business (S. O. 39, Feb. 23, Div. Atlantic).

Majors Wm. Smith and George W. Candee, Paymasters, will exchange payments for the muster of Feb. 28. Major Smith will proceed to Saint Louis, and report thence for orders to the Comdg. Gen., Dept. of the Missouri. Major Candee will proceed to Chicago and make local payments (S. O. 21, Feb. 21, Div. Missouri).

Leave for four days is granted Col. Daniel McClure, asst. paymaster general, New York City (S. O. 38, Feb. 21, Div. Atlantic).

Medical Department.

During temporary illness of the medical director, Asst. Surg. Leonard Wood is placed on duty as attending surgeon at Dept. Headquarters (S. O. 18, Feb. 15, D. Ariz.)

Leave for fourteen days is granted Asst. Surg. John D. Hall, Fort Townsend (S. O. 24, Feb. 10, D. Columbia).

A. A. Surg. M. M. Walker will proceed to Fort Townsend, W. T., and report for temporary duty (S. O. 24, Feb. 10, D. Columbia).

The resignation of 1st Lieut. Charles C. Barrows, asst. surg., has been accepted by the President, to take effect Feb. 17, 1887 (S. O., Feb. 19, H. Q. A.)

A. A. Surg. S. H. Knowles is relieved from duty at Fort D. A. Russell, and will proceed to Fort Du Chesne, and report for duty (S. O. 16, Feb. 16, D. Platte).

Major David L. Huntington, surgeon, will be relieved from duty in the office of the Surgeon General, to take effect March 1, 1887 (S. O., Feb. 18, H. Q. A.)

Major Charles R. Greenleaf, surgeon, is relieved from duty at Chicago, and will report to the Surgeon General of the Army for duty in his office (S. O., Feb. 18, H. Q. A.)

The resignation of 1st Lieut. Chas. F. Mason, Asst. Surgeon, has been accepted (S. O. Feb. 24, H. Q. A.)

Capt. Louis J. Tesson, Asst. Surgeon, is relieved from duty in the Dept. of the East and ordered as attending surgeon, Hdqrs. Div. Missouri. (S. O., H. Q. A., Feb. 25.)

Hospital Steward Henry Winkelmann, will proceeed to Frankford Arsenal, Pa., for duty (S. O., Feb. 18, H. Q. A.)

Engineers and Ordnance Departments.

Capt. Richard L. Hoxie, C. E., will proceed to Albany, Ga., on duty connected with works under his charge (S. O. 29, Feb. 19, C. E.)

Lieut. Col. John W. Barlow, C. E., will proceed to Paducah, Ky., on duty connected with works under his charge (S. O. 30, Feb. 21, C. E.)

Major Alexander Mackenzie, C. E., will proceed to St. Paul, Minn., on duty connected with works under his charge (S. O. 27, Feb. 17, C. E.)

Capt. Ernest H. Ruffner, C. E., will proceed to Cincinnati, O., on duty connected with works under his charge (S. O. 27, Feb. 17, C. E.)

Capt. Henry S. Taber, C. E., will proceed to Batesville and Fort Smith, Ark., on duty connected with works under his charge (S. O. 28 and 31, Feb. 18 and 23, C. E.)

Capt. Wm. M. Black, C. E., will proceed to the mouth of the Saint John's River, Volusia Bar and Suwanee River above New Branford, Fla., on duty connected with works under his charge (S. O. 31, Feb. 23, C. E.)

Chaplains.

The retirement from active service, by operation of law, of Post Chaplain James O. Rayner, under the provisions of the act of Congress approved June 30, 1882, is announced (S. O., Feb. 19, H. Q. A.)

Signal Corps.

The resignation of 2d Lieut. Joseph S. Powell, S. C., has been accepted by the President, to take effect Feb. 28, 1887 (S. O., Feb. 19, H. Q. A.)

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., B, D, E, G, and K, Ft. Custer, Mont.; A and C, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; F, H, and L, Ft. Assinniboine, Mont.; M, Camp Sheridan, Wyo.

The leave for one month granted 2d Lieut. Willard A. Holbrook is extended two days (S. O. 21, Feb. 21, Div. M.)

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho.

1st Lieut. E. J. McClernand, A. D. C., will accompany Gen. Gibbon, Department Commander, to Olympia, W. T. (S. O. 20, Feb. 4, D. Columbia.)

Lieut.-Col. John Green will inspect C. and E. and Q. M. stores at Boise Barracks, for which 2d Lieut. Frank B. Andrus, A. A. Q. M., is accountable (S. O. 21, Feb. 5, D. Columbia.)

Col. Nelson B. Sweitzer will inspect C. and G. E., Q. M. stores, and O. and O. stores at Fort Walla Walla, for which Capt. James N. Wheelan is accountable (S. O. 24, Feb. 10, D. Columbia.)

Official information having been received of the promotion of 2d Lieut. Frederick D. Holton, Fort Walla Walla, to be 1st Lieutenant, vice O'Brien, deceased, which carries him to Troop L, Fort Cœur d'Alene, Lieut. Holton will join his troop (S. O. 25, Feb. 11, D. Columbia.)

Lieut.-Col. John Green will inspect medical property, cavalry horses, Q. M. stores, and O. and O. stores at Boise Bks. (S. O. 26, Feb. 12, D. Columbia.)

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex.; G, Camp at Eagle Pass, Tex.; E, Camp Rice, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill Ind. T.; I and K, Ft. Elliott, Tex.

Leave for one month, on Surgeon's certificate, is granted Capt. John C. Thompson, Fort Davis, Tex. (S. O. 22, Feb. 16, D. Tex.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, F, H, and K, Ft. Huachuca, Ariz.; A and E, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; L, Ft. Stanton, N. M.; M, Ft. McDowell Ariz.

The extension of leave granted 1st Lieut. J. R. Richards, Jr., in S. O. 90, Oct. 25, 1886, is further extended two months (S. O. Feb. 24, H. Q. A.)

A furlough for six months, with permission to go beyond sea, is granted Sergt. John Hayday, Troop F (S. O. 16, Feb. 9, D. Ariz.)

A furlough for three months is granted Sergt. D. C. Tobin, Troop H (S. O. 18, Feb. 15, D. Ariz.)

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

Sergt. Charles Kennedy, Troop B, will proceed to Fort Reno, I. T., and report for duty with his troop (S. O. 19, Feb. 14, Dept. M.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

The leave granted 2d Lieut. William W. Forsyth is extended one month (S. O., Feb. 17, H. Q. A.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; D, Camp Del Rio, Tex.; E, F, G, K, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

The C. O. Jefferson Barracks will prepare 92 recruits and forward them, under charge of two commissioned officers, to San Antonio, for assignment to 8th Cav. (S. O. 26, Feb. 17, R. S.)

9th Cavalry, Colonel Edward Hatch.

Hdqrs., D, and H, Ft. McKinney, Wyo.; C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

2d Lieut. Philip A. Bettens, Jr., Fort Robinson, is relieved from the duties assigned him in S. O. 142, series 1886 (S. O. 16, Feb. 16, D. Platte.)

Major Guy V. Henry, 1. R. P., will proceed to the Bellevue Rifle Range on public business (S. O. 16, Feb. 16, D. Platte.)

The leave for one month granted 2d Lieut. Philip A. Bettens, Jr., is extended one month (S. O. 21, Feb. 21, Div. M.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T.; G, San Carlos, A. T.; A and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B, C, and D, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

A furlough for six months is granted Sergt. Charles Key, Troop E, to take effect about Sept. 1 (S. O. 16, Feb. 9, D. Ariz.)

The following will report to the Board of Officers at Fort Grant for examination for appointment as post quartermaster sergeants: Q. M. Sergt. J. H. Hill and 1st Sergt. David Haskins, Troop F (S. O. 18, Feb. 15, D. Ariz.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.
* Light battery.

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Atlanta, Ga.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.
* Light battery.

The leave for seven days taken by Col. Romeyn B. Ayres, St. Francis Barracks, Fla., is extended ten days (S. O. 38, Feb. 21, Div. A.)

Leave for one month, on surgeon's certificate, is granted Capt. William McK. Dunn, Jr., Little Rock Barracks, Ark. (S. O. 40, Div. Atl., Feb. 25.)

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.
* Light battery.

The leave granted 1st Lieut. John R. Williams is extended four months (S. O., Feb. 18, H. Q. A.)

Sergt. John Ryan is placed on the retired list. (S. O., H. Q. A., Feb. 25.)

John A. Porter, a member of Bat. A, 3d Art., was complainant in the Police Court, Feb. 21, against his wife, Georgie A. Porter, whom he charged with making threats of violence. He stated they had been married only seven months, and Mr. Cahill asked him if he thought a soldier could conscienciously swear he was afraid of a woman. He said he was afraid of her when he was asleep. The Judge dismissed the case.—*Washington Critic.*

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.
* Light battery.

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

The Montana *Sun* says: "The 3d Infantry Band at Fort Shaw has been remodelled and is now under the leadership of Prof. D. Appollo Zanichetti. Under his direction and instruction this already celebrated band promises to be one of the finest in the country."

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Cœur d'Alene, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

Col. William P. Carlin will inspect C., C. and G. E., and Q. M. stores at Fort Cœur d'Alene, for which 1st Lieut. Henry E. Robinson, A. A. Q. M., is accountable (S. O. 21, Feb. 5, D. Columbia.)

Major J. Ford Kent will inspect C. and G. E., Q. M. stores, and O. and O. stores at Fort Spokane, for which Capt. Henry Seton is accountable (S. O. 21, Feb. 5, D. Columbia.)

Col. William P. Carlin will inspect C., C. and G. E. and O. and O. stores at Fort Cœur d'Alene, for which Capt. Butler D. Price is accountable (S. O. 24, Feb. 10, D. Columbia.)

1st Lieut. John J. O'Brien is relieved from further attendance before the G. C.-M. at Vancouver Barracks and will take charge of certain enlisted men and conduct them to Fort Spokane (S. O. 25, Feb. 11, D. Columbia.)

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, D, F, G, and K, Ft. Douglas, Utah; E, Salt Lake City, Utah.

2d Lieut. L. W. V. Kennon, A. D. C., will proceed to the Bellevue Rifle Range on public business (S. O. 16, Feb. 16, D. Platte.)

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, D, F, and H, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.; C and K, Ft. McKinney, Wyo.

The leave granted 2d Lieut. Lewis D. Greene is extended fifteen days (S. O., Feb. 19, H. Q. A.)

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C and I, Ft. Robinson, Neb.; D and K, Ft. Bridger, Wyo.

The leave granted 2d Lieut. George W. Ruthers is extended one month (S. O., Feb. 18, H. Q. A.)

9th Infantry, Colonel John S. Mason.

Hdqrs., F, H, I, and K, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; E, San Diego Bks., Cal.; A and G, Ft. Apache, A. T., C, Ft. Mojave, A. T.

Capts. M. C. Foote and W. B. Pease, 1st Lieut. C. M. Rockefeller, and 2d Lieut. G. B. Duncan are detailed members of the G. C.-M. at Whipple Barracks, A. T., and 2d Lieut. C. R. Noyes is relieved as member (S. O. 18, Feb. 15, D. Ariz.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, F, H, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

2d Lieut. J. A. Perry will proceed to Los Angeles, Cal., and report to the Chief Quartermaster in connection with his recent duties as Post Q. M. at Fort Bliss, Tex. (S. O. 17, Feb. 11, D. Ariz.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

The leave for one month granted 1st Lieut. Robert J. C. Irvine, Adjt., is extended one month (S. O. 22, Feb. 23, Div. M.)

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., A, B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.

Leave of 1st Lieut. Stephen C. Mills in S. O. 16, Jan. 25, Div. A., is extended two months (S. O. Feb. 24, H. Q. A.)

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T. A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

Capt. Gilbert S. Carpenter will inspect hospital property at Fort Klamath, for which Asst. Surg. James C. Merrill, Post Surg., is accountable (S. O. 21, Feb. 5, D. Columbia.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, and H, Ft. Bliss, Tex.; C and F, Ft. Concho, Tex. E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, B, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; H, Ft. Bridger, Wyo.

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assinniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

Leave for four months, to take effect about April 25, is granted Capt. John H. Patterson (S. O., Feb. 23, H. Q. A.)

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

Leave for twenty days, to take effect about Feb. 20, is granted Lieut.-Col. John S. Poland, Fort Bridger, Wyo. (S. O. 15, Feb. 14, D. Platte.)

The leave granted 1st Lieut. Edward S. Farrow is extended twenty days (S. O., Feb. 17, H. Q. A.)

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

The ration of bread at Fort Brady, Mich., is increased to twenty ounces until further orders (S. O. 37, Feb. 19, Div. A.)

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

The leave for one month granted Capt. Alfred C. Markley is extended twenty days (S. O. 22, Feb. 23, Div. M.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, February 19, 1887.

RETIREMENT.

Post Chaplain James O. Rayner, February 19, 1887 (act June 30, 1882).

CASUALTY.

1st Lieutenant Charles C. Barrows, Assistant Surgeon, resigned, February 17, 1887.

Courts-martial.

The following courts have been ordered:

At Fort Lowell, A. T., Feb. 17. Detail: Major H. E. Noyes, Capts. Allen Smith and S. A. Mason, 4th Cav.; 1st Lieut. W. B. Banister, Asst. Surg.; 2d Lieuts. Samuel Reber and F. W. Harris, 4th Cav., and 1st Lieut. Fred Wheeler, 4th Cav., J.-A. (S. O. 17, Feb. 11, D. Ariz.)

At Fort Leavenworth, Kas., Feb. 21. Detail: Major G. B. Sanford, 1st Cav.; Capt. W. A. Rafferty, 6th Cav.; Capt. T. J. Lloyd, 18th Inf.; 1st Lieut. R. M. Rogers, 2d Art.; 1st Lieut. F. H. Barnhart, 18th Inf.; 1st Lieut. C. H. Watts, 5th Cav.; 1st Lieut. W. L. Finley, 9th Cav.; 2d Lieut. W. N. Hughes, 13th Inf.; 2d Lieut. G. F. Barney, 2d Art.; 2d Lieut. C. L. Beckurts, 6th Inf.; 2d Lieut. G. W. Martin, 18th Inf., and 1st Lieut. Hamilton Rowan, 2d Art., J.-A. (S. O. 20, Feb. 16, Dept. M.)

At Little Rock Barracks, Ark., Feb. 24. Detail: Major Francis L. Guenther, Capt. Frank B. Hamilton, 1st Lieuts. George S. Grimes, Asher C. Taylor, and John H. Gifford, and 2d Lieut. John T. Thompson, 2d Art., and 1st Lieut. Louis V. Caziarc, 2d Art., J.-A. (S. O. 38, Feb. 21, Div. A.)

At Fort Wayne, Mich., March 1. Detail: Capts. Charles Wheaton and Richard I. Eskridge, 1st Lieuts. Frederick L. Dodge, Orlando L. Wieting and Stephen O'Connor, and 2d Lieuts. Daniel B. Devore and George D. De Shon, 23d Inf. 2d Lieut. W. H. Allaire, 23d Inf., J. A. (S. O. 40, Div. Atl., Feb. 25.)

—o—

Army Boards.

S. O. 141, series 1886, reconvening a Board to inspect and purchase cavalry horses is so amended as to direct the Board to convene at Phœnix, A. T., instead of Fort Verde and Whipple Barracks, March 14 (S. O. 16, Feb. 9, D. Ariz.)

A Board of Officers is appointed to meet at Fort Grant, Feb. 24, to examine enlisted men for appointment as post quartermaster sergeants. Detail: Major Frederick Van Vliet, Capt. W. B. Kennedy, and 1st Lieut. M. M. Maxon, R. Q. M., 10th Cav. (S. O. 18, Feb. 15, D. Ariz.)

—o—

Recruits.

The Superintendent of the Recruiting Service will cause twenty colored recruits to be forwarded to the Dept. of Missouri for the 24th Inf.; twenty-two recruits to Mount Vernon Barracks, Ala., for Bats. C and D, 2d Art.; forty-nine recruits to the Dept. of Arizona for the 4th Cav.; twenty-eight recruits to the Dept. of Missouri for the 6th Cav., and twenty-three colored cavalry recruits to the Dept. of Platte for the 9th Cav. (S. O., Feb. 23, H. Q. A.)

—o—

The Superintendent of the Recruiting Service forwarded from Columbus Barracks, Ohio, 19 recruits to 9th Cavalry, and 16 recruits to 18th Infantry. (S. O., H. Q. A., Feb. 25.)

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., Feb. 23, 1887.

The last of the series of officers' hops last Thursday was a handsome affair. The manager, Lieut. Totten, had taken the precaution to send a circular around asking the number expected from each family. It was seen that Schofield Hall would be too small to hold all, so the cadet mess hall was used for dancing. Two large American flags were draped across the north third, leaving a large square space, which was decorated with flags of all nations. There were a large number of strangers present, among whom were Miss Schofield, Miss Abbott, Miss Townsend, Miss Buckmaster, Miss Thurbur, Miss Beach, Miss Griffith, Miss Happersett, Miss Vogdes, two Misses Woodcock, Miss Spencer, Miss Bonesteel, Miss Hargous, the fiancé of Lieut. Price; Miss Huntington, Miss Pell and Mrs. Stephenson. A delegation of bachelors consisted of Lieuts. Coffin, Gillette, Craighill, Taylor, Rees and Patrick. Supper was served about 12 o'clock in Schofield Hall, which had been beautifully decorated for the occasion. Along the sides of the room little bowers of evergreen had been built, in each of which was placed a table for four. In the centre was a large table loaded with every delicacy, each dish a beauty to the eye and a joy to the taste, all prepared by the chief of the officers' mess. The orchestra, concealed from view by a screen of evergreens and flags, played dreamy serenades and other delightful music during supper. It was 2 o'clock before the last dance on the card was reached, and all went home well satisfied with the end of the season's gayety, and ready to do penance for the coming six weeks.

The ice in the river is about to break up. Walking on it has been dangerous since Saturday, but no accidents have been reported as yet.

On Saturday evening the cadets had a hop in room No. 1. It was well attended, a number of ladies having remained over from the officers' party of the preceding Thursday.

The collection of portraits at the Academy has been increased by two large and handsome paintings by Carroll Beckwith, of New York—one a profile of Gen. Merritt, which has been hung in the mess hall, and the other a full face painting of Prof. Andrews, which stands on an easel in the Library. Only four superintendents of West Point are not represented in oil. They are Gen. Robert E. Lee, who was superintendent from September, 1852, to September, 1855, and again for three weeks in 1861; Gen. Beauregard, who was superintendent for only five days in 1861; Col. Bowman, who was superintendent from 1861 to 1864, and Gen. Howard superintendent from 1881 to 1882.

Mrs. Knight, from Willet's Point, is visiting Miss Newlands.

Mr. Zogbaum, the artist, was here for a day last week and took in the officers' hop. Lieut. Stevens, of last year's class, was at the cadet hop on Saturday evening.

The usual salute was fired on Washington's Birthday, and at reveille the band made the circuit of the post, playing patriotic airs, but otherwise no notice was taken of the day, everything going along as on any other day of the week.

The following designations of candidates for admission to the Military Academy were announced this week:

Hugh Stuart Taylor, Bellefonte, Penn.
William Benjamin Jackson (Alt.), State College, Penn.
Zebulon Pheatt, Toledo, Ohio.
Fred. P. Wilson, Creston, Iowa.
Clare Whittemore, (Alt.), Kniffen, Iowa.

(Correspondence of the Army and Navy Journal.)

FORT LEWIS, COLORADO.

FEBRUARY 12, 1887.

OUR post has been unusually lively this winter. Considering that it is situated in the mountains, 8,500 feet above sea level, the weather has been very mild, hardly any snow falling so far. And our pleasure-seekers find no reason for staying at home from the many entertainments given at the post hall.

The "Mikado" was performed here by amateur talent headed by Mrs. Williams, the accomplished wife of the banker from Durango. The officers have given several pleasant dances at the hall, the best and most enjoyable being the last, which was called a Domino Party. And many funny blunders were made before unmasking. The enlisted men have a "Big Four" Minstrels who make their bow to an audience largely sprinkled with officers and their ladies, all bent on having a jolly time. The "Merry Young Bachelors" club give dances about twice a month. And at all of the entertainments the Regimental String Band furnish excellent music, and then the weekly Band concerts bring out all the lovers of fine music; our commanding officer (Colonel Swaine) giving every assistance and encouragement in making life at this place pleasant, and last, but not least, our little folks gave this week, an entertainment, starting with a nonsensical piece called "School," characters by the children of the post school. Among the recitations, etc., at which all did so well, may be specially mentioned the violin solo by Capt. Ketcham's son, Frank, "Way down upon the Swanee River," and the appropriate selections by Capt. Conway's daughter, and Lieut. Martin's two bright little boys. We have a great addition to our garrison this winter in Miss Lizzie Martin, a sister of Lieut. Martin, who has won the hearts of all by her winning ways.

We all regret the action of Lieut. Casey in resigning his position of Regimental Adjutant. He was always the leader of all the entertainments here, and by his forethought and enterprise, made each a success. Lieut. Kell is now our adjutant.

Capt. Perrine, 6th Cav., is expected here early in March from leave of absence. Capt. Hooton, 22d Inf., is away enjoying a much needed rest. So also are Lieuts. Getty and Kreps. By Lieut. Getty's recent promotion to the vacancy caused by the death of Lieut. Campbell, we will still be able to keep him among us.

The troops are better fed this winter than ever before, each company having raised more vegetables in their gardens than can be consumed before the next season's supply is ready.

Our genial quartermaster, Lieut. Webster, has had an additional ice-house built. Both are now filled, giving us plenty of that article for the coming summer.

Co. A, 22d Inf., started a company Library and Literary Club, which example was instantly followed by all the other companies here, the company commanders giving every encouragement and help, by adding suitable tables and extra light in the quarters. A noticeable result is that the men stay more at home and spend less time in the saloon, winding up in the guardhouse. We have less men in confinement now than for several years, hardly enough to perform the necessary police duty. E. QUALITY.

FORT LARAMIE, WYO.

A CORRESPONDENT of the *Leader* writes: "On the night of Feb. 8 we had a splendid representation of 'Confusion,' Mr. and Mrs. Howell excelling all their previous attempts and gaining loud applause. Mr. Woodbridge and wife pleased every one, while Dr. and Mrs. Brechemin, as the butler and housemaid respectively, were excellent. Among the large audience were Maj. Comba and wife, Maj. Freeman and wife, Lieut. Fredericks and wife, and Mr. Hall.

FORT SIDNEY, NEB.

THE *Excelsior* says:

Capt. Conline celebrated his thirty-fifth birthday on Tuesday ... The Fort Sidney Social Club gave a dance Wednesday evening... Major Downey, who visited here during the week, returned to Laramie Saturday.... Concerts are now given every Wednesday and Saturday evening.... The officers are very much excited over the Court-martial at Fort Du Chesne trying Major Benteen, of the 9th Cav. Major Benteen is well known here and universally liked. His record as a soldier is as untarnished as his sword.

U. S. INFANTRY AND CAVALRY SCHOOL.

ORDERS No. 2 announce that the school staff, with the approval of the commanding officer, have recommended that the members of the respective classes be classified in groups (arranged alphabetically), as follows: The "Excellent," the "Highly Proficient," the "Proficient, the "Fairly Proficient," upon the following basis: Those having final average marks in the subjects examined upon from 3 to 2.90, inclusive, constitute the first group; those below 2.90 to 2.70, inclusive, the second group; those below 2.70 to 2.50, inclusive, the third group; those below 2.50 to 2, inclusive, the fourth group; those below 2 in any subject, deficient and not classified. The classification of student-officers in the different departments and in classes is announced, and their names are given in a tabulated statement, showing the individual figure of merit attained during the first term of the second school year as follows:

Roll of the First Class alphabetically arranged, and grouped upon the basis announced in Orders No. 2, c. s., School.	Subjects. Military Science and Art.	Law.	Infantry Tactics.	Cavalry Tactics.	Military Topog'aphy.	General Merit.

Deficient.—2d Lieut. Robert H. Anderson, Jr., 9th Inf., and 1st Lieut. Harry Reade, 25th Inf.

1st Lieut. Harry Reade, 25th Inf.; 2d Lieut. Joseph P. O'Neil, 14th Inf., and 2d Lieut. Robert H. Anderson, Jr., 9th Inf., are assigned for recitations to the same sections as during the first term.

Recitations will be resumed on Thursday, Feb. 10, 1887. The assignment of student-officers to sections for instruction in the second term of the second year will continue as published in Orders Nos. 17 and 20, post, series 1886.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

FEBRUARY 15.

MY budget is small, but such as it is I will unfold. Adjutant Hickey, 8th Cav., has rejoined from leave and Lieut. E. C. Brooks, same regiment, left last Wednesday for Chicago, where he will take unto himself a wife—Miss Gray, a charming young lady, I am told. The married couple are expected here about the end of February and are sure of a cordial reception. We have a great *penchant* here in San Antonio for brides. On Saturday evening the clerks of Capt. John Simpson, of the Quartermaster's Department, gave an invitation hop at Muth's Hall, Government Hill, which was an enjoyable occasion. Capt. and Mrs. Simpson led the grand march, and many others of the military were present. The gentlemen of the Q. M. D. did their utmost to make the affair a success and the general opinion is that they fully succeeded. Things are beginning to look cheerful here now. General Stanley and Majors Cushing and McGonnigle are at Arkansas Pass taking a trip over the bay, and are expected back Thursday. Colonel Heyl has returned from Ringgold, Captain Ballance from Bliss and Lieutenant Rumbough from Fort Hancock. Paymaster Bash expects to leave next week for his new station at Cheyenne Depot. Good luck attends him wherever he goes. A large number of the officers and ladies of the garrison went to see the Carleton Opera Co. in "Nanon," the "Mikado" and "Erminie" recently, and were well pleased. The ladies, almost to a woman, attended without hats, a proceeding which has elicited well-deserved encomiums. JOEY BAGSTOCK.

FORT LEAVENWORTH, KAS.

THE Kansas City *Times* says:

The tea given by Mrs. Gillis Tuesday evening was a most enjoyable affair. The Misses Margaret Wilson, Randolph and Gillis presided over the tables in a manner that made them great favorites during the evening ... Mrs. Almy, wife of Lieut. Almy, 5th Cav., is visiting Major and Mrs. Gillis. Lieut. Almy is expected here in a few days from Arizona, to which point he conducted a detachment of recruits.... Mrs. Colonel Woodruff gave a keno party Feb. 17 to the young folks of the garrison in honor of her guest, Miss Huntington, of Cincinnati. This lady is a sister of Mrs. Rice, wife of Captain Rice, 5th Inf., and visited here about two years ago.... The Misses Ward and Anderson, after an extended visit to Lieut. and Mrs. Barnhart, 18th Inf., have returned to Fort Riley. The visit of the young ladies to this post has been made very pleasant to them and they regretted exceedingly to depart from here. Miss Ward is a daughter of Captain Ward, 16th Inf. and Miss Anderson of Lieut Anderson, 18th Inf.... Lieut. Martin, 18th Inf., has returned from Chicago.... Col. and Mrs. Martin gave their progressive euchre party Feb 17. It was a most delightful and enjoyable affair. Among those who carried off the honors were Mesdames Hamner, Cheever, and Rowood, winning the first, second, and third prizes, respectively. Of the gentlemen's prizes, Lieut. Cheever, Gen. Willcox, and Lieut. Hein were the lucky winners. An excellent supper was enjoyed after the completion of the game.

The reception to be given next Tuesday night by Gen. Willcox and Lieut. Willcox, 6th Cav., and Mrs. W., promises to eclipse all former events of the kind held at the post this season..

COURT-MARTIAL CASES.

In the case of a soldier recently tried at Fort Buford for absence from inspection and guard mount, the reviewing authority, General T. H. Ruger, U. S. A., says: "In imposing the sentence, the court considered evidence of former convictions. While this now well established rule of procedure makes it practicable through judicial inquiry, to dishonorably discharge from the Service men of vicious habits who persistently defy the requirements of discipline, it yet becomes a serious question for general courts-martial to consider, whether an additional penalty of confinement at hard labor should not uniformly be imposed; and for sufficient time to deter the few who might enter upon a course of bad conduct with the intent to escape from the Service by provoking the penalty of dishonorable discharge. In the opinion of the reviewing authority the administration of the law should be such as to guard against the evil here suspected.

In another case before the same court Gen. Ruger says: "It appears that after the findings of the court the judge advocate laid before it a record of former convictions which was defective in that the source and date of the orders publishing such convictions had been omitted; whereupon the court wholly rejected the offered evidence. In this the court erred. The simple and effective remedy was to direct that the omissions in the record be supplied. In failing to do this the court failed to consider the whole case as referred to it by the department commander." (G. C.-M. O., No. 2, D. Dakota, 1887.)

CAMP OF INSTRUCTION FOR REGULARS.

To the Editor of the Army and Navy Journal:

LET us have a change this season to vary the constant pounding away at target practice. I believe there is a growing impression in the Army, that for the past few years, interest in target practice has been allowed to crowd out other equally important features in a soldier's education. This fact is recognized by those in authority, as evinced by the Annual Reports of the Department Inspectors, and the shortening of the target season, by the Lieutenant-General.

Now let a "camp of instruction" be established in every Department, to be composed of the majority of the troops from each of the organizations in the Department and commanded by one of the senior officers of recognized ability. This camp can be located at some point in the Department readily reached by all, and where there will be ample room for the manœuvres of a large body of troops, including suitable ground for target practice.

It is not presumed that the entire season's target practice will take place here, but it would be a splendid opportunity to have the skirmish firing under conditions of actual warfare. It would not then be the farce that it is now, where at many posts they are obliged to fire over the same ground used for known distance firing, and the different ranges are perfectly familiar to the men, and are sometimes accurately marked by telephone poles, etc. Under these conditions that faculty sought to be trained by this particular practice—that of estimating distance at a glance—is not exercised at all, and the value of the skirmish firing is almost entirely lost.

Under the energetic management of the commanding officer of such a camp the soldier (including the officers, of course,) would have opportunity for exercise in other duties, which are probably as necessary to his becoming a *perfect* soldier, as a thorough knowledge of his gun. Included in these duties, would be those in connection with the laying out of camps and the sanitary conduct of them—practice marches, outpost picket and vidette duty, patrols, etc. The younger officers would have the benefit of the experience of the older officers, who have been drilled in these things in actual campaigning, where the value of such knowledge was recognized. Let us officers who came in at a later date, have the benefit of coming together and practising these things which we know only from books, and let the practice have the benefit of the experience of those who have been there.

There could be battalion and brigade drills, and the evolutions of a division and even of a corps, could be illustrated when the number of troops was great enough. In this Department (Platte) we have the 9th Cavalry and Light Battery and the 2d, 6th, 7th, 8th, 17th and the 21st Infantry, probably over 3,500.

Now, if thought best, send just what can be spared—say 60 per cent. or 70 per cent.—to the camp for a month or six weeks, the full time for that season; or send 50 per cent. for a month and replace them at the end of that time by the other contingent to remain a month, thus giving all practice in one season. In this department we would have a camp then of from 1,700 to 2,400, comprising all arms of the service. I am of the opinion that this would be the means of improving the *morale* of the Army and inciting to professional study more than any other which could be inaugurated. The success of the camp would of course depend almost solely upon the selection of a commanding officer who should not be selected merely for his rank, but peculiar fitness for the position should govern. It would be an excellent opportunity for the department commanders to see in person the troops in actual service, and he could determine from personal contact and observation the value of his officers. His staff officers, or some of them, as inspector general and inspector of rifle practice, should spend much time in the camp and report to their chief the results of their observations on the discipline, proficiency, etc., of the officers and men.

Let us have these "camps of instruction" wherever it is all practicable, and let target practice be in a measure an auxiliary. The troops in this Department are distributed in such a manner that with the railroad system they could be assembled at some central point with little difficulty.

If those who favor such a scheme as this will agitate the matter well the thing may be accomplished. I believe that there are enough of the officers of the Army who have ambition above merely drawing

their pay who will be glad of an opportunity of this kind for improving themselves professionally.

ABNER PICKERING, 2d Lieut., 2d Inf.
FORT OMAHA, Neb., Feb. 14, 1887.

ARMY HORSE-SHOEING.

FORT YATES, D. T., Jan. 23, 1887.

To the Editor of the Army and Navy Journal:

YOUR readers, particularly of the mounted arms of the Service, will, no doubt, be agreeably surprised on hearing that the authorities at Washington, at the suggestion of several Cavalry commanders, contemplate a change of "tactics" on the above subject, "a consummation devoutly to be wished for." The veriest tyro in the art of horse-shoeing, on reading the rules for shoeing in the English and United States Service, respectively, which I give hereafter, cannot but be surprised that a better system has not been instituted long ago with us. That the reform is needed can be seen at a glance, the directions for our cavalry shoeing being considered "foot mutilation and hoof butchery" for the past decade in European armies. A few months' instruction of blacksmiths and farriers by a graduated veterinarian at the Cavalry Depot, would repay ten thousand times the outlay and trouble, in the increased efficiency of those men who are now detailed to their regiments, either utterly ignorant, or worse still, as they are now instructed in all the obsolete carrings and distortions of the equine foot, calculated to destroy it and render it useless.

English Army Horse shoeing.—(Queen's Regulations).—Section XII.—Shoeing.

The kind of shoe to be used in all branches of the Service, is the "concave shoe," that is, concave on the ground surface, and flat on its foot surface. The inner margin of the web, in contact with the foot, should be brought to a thin edge.

The nail holes will be either five or six in number, according to the size of the foot, and weight of the shoe, and counter sunk. The three nail holes on one side will be opposite the three nail holes on the opposite side. When five nails only are used, the inside heel nail will be left out.

The outside thickness of the web of the shoe will range from half an inch in the small hussar trooper, to eleven-sixteenths in the transport and artillery horse. The thickness and breadth of the web of the shoe will be uniform all round. The heels of the shoe will be well rounded and sloped.

One toe-clip will be used with the fore-shoe and two toe-clips in the hind shoe. In case of draught horses one toe-clip only will be allowed in the hind shoe. A quarter clip may be used when required in the case of "kickers." The inside edge of the toe of the hind-shoes are to be rounded. Calkins may be used at the discretion of a veterinary officer. Tips, or half-shoes, in cases of contraction, chronic thrush, sandcrack, corns, and other diseases or defects, also shoes with turned up toes, or other shoes for special purposes, may be used, by permission of the veterinary officer. Veterinarians will be held personally responsible for the proper performance of all regulations regarding shoeing, and the condition and health and surroundings of the horses generally.

How to Prepare the Foot and Fit the Shoe.

When preparing the foot for the shoe the ground surface of the crust will be lowered with the rasp only. *The Drawing knife will not be used. The sole and frog will be left untouched.* When necessary, the toes of the feet will be shortened by rasping the ground surface of the fore part of the hoof. The toes will not be shortened after the shoes are on.

The shoe will not be fitted when too hot. The shoe will be made to fit accurately, the outer edge of the crust, or wall, round to, and including the heels. It will not project beyond the crust at any point. The outer edge of the crust will be well-rounded with the rasp before the shoe is fitted or affixed, *but no rasping of any kind will be permitted after the shoe is on.*

The nails will not be driven too high in the crust, and the "clenches are to be evenly laid." Sergeant-farriers and shoeing-smiths should be able to shoe horses without the aid of fire, by means of ready-made shoes, and they will be practiced in fitting shoes cold as often as practicable.

Every horse is to be shod with new shoes, at least, once a month. In cases, however, where shoes are very little worn, from a horse being sick or only used in riding school, "removes" are allowed, at the discretion of the veterinarian.

The practice of using grease, tar, or other dressing to horses' feet will not be allowed.

The sergeant farrier's shoeing book will be kept with great care, and all entries made in ink. The veterinarian will inspect those books daily and check the dates.

At out-stations the officer should daily see the newly-shod horses, and ascertain personally: 1. That the horse is shod at the proper date. 2. That the shoe is made and fitted according to regulations. 3. That the sole and frog are untouched with the knife. 4. That the outside of the crust has not been rasped. 5. That the nails are not driven too high up. 6. That the shoe has not been fitted too hot, as would be seen, by the burnt condition of the sole. 7. That the toes are properly shortened. 8. He will frequently inspect the shoeing of the detachment, generally. A. To see the "clenches" are not up. B. To see any horses with thrushes are properly attended to. C. To see that broken nails are replaced.

Such instructions, as above, are in keeping with common sense, and calculated to retain the horse's feet in perfect health and strength.

U. S. Cavalry Tactics, Page 468.—Directions for Shoeing Horses.

Par. 1183. Horses should be shod once a month. The length of the hoof indicates when a horse needs shoeing rather than the wear of the shoe. In removing shoes, raise the clinchers first, lest the crust be torn or stubs be left in the horse. *Pare the sole, until it yields under the pressure of the thumb.* Cut the walls down until they are very little higher than the contiguous sole, taking care to shorten the toe, if necessary, it being frequently left too long. *Cut away the bars, so as to make a gradual slope, from the walls, to the bottom of the commissures, which must be deepened. Lower, and open the heels, and take the bearing off them, for at least one inch, on each side of the frog, so that the walls, at those parts, will not be in immediate contact with the shoes when first put on. Pay special attention to the removal of the "pegs,"* (the hard, horny substance which *grows down at the heel on each side of the frog and contiguous to it.) These pegs are apt to contract the foot or make a "thrusy" by pinching and narrowing the frog.* The frog may be pared to stimulate its growth, etc., etc.

The italicized sentences are considered as foot mutilation in every European army and by all veterinarians. Such instructions, as the above, can only have emanated from some persons ignorant, alike of the anatomy, physiology, pathology, and natural uses, of each structure of the various parts of that beautiful and perfect piece of nature's mechanism—the horse's foot—and are calculated to beget irreparable mischief. When army horse-shoeing and all other matters appertaining to veterinary science are left to the management and supervision of those who understand them, those duties will be performed properly; not before.

M. J. TREACY, Junr. veterinarian, 7th Cavalry.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at St. Thomas Jan. 18.

The prospective cruise is given as follows: Bermuda, Martinique, St. Lucia, Barbadoes, Trinidad, Curacoa, Cartagena, Aspinwall, Port Cortez Cienfuegos, Kingston, Santiago, Nipa, Neuvitas, Matanzas, Havana, Key West, returning to Fortress Monroe about May 1. All mail must be addressed to the *Galena*, care of Navy Pay Office, 29 State St., N. Y.

RICHMOND, 3d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. At New York Navy-yard.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Sailed from Key West, Fla., Feb. 7, for a cruise to the West Indies, arrived at St. Thomas, W. I., Feb. 24. Letters will reach the vessel if sent not later than March 1 to St. Thomas; not later than March 18 to Port au Prince, and not later than March 28 to Santiago de Cuba.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Arrived at Zanzibar Feb. 23.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Reported by cable to have arrived at Montevideo, Uruguay, Feb. 5, all well, and will probably sail, March 1, for St. Helena. Expects to reach Rio about June 1, 1887. In a letter dated Maldonado, December 25, Rear Admiral Braine says he does not think it necessary to visit Sandy Point and Faulkland Islands to look after American commercial interests, in view of the fact that the *Juniata* will touch at those places.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Maldonado, Uruguay, Dec. 20.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. At Alexandria, Egypt, Jan. 7, 1887. To sail early in April for Leghorn, touching at Messina en route.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Reported by cable to have arrived at St. Vincent, C. V., Feb. 4. Expects to be at Gibraltar during March, and at Leghorn by April 15, from whence she will cruise to Africa and Coast of Syria.

Pacific Station—Capt. J. H. Gillis
(in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham, Left Mare Island, Cal., Feb. 23, for Mazatlan, Mexico.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Panama Nov. 14. Will sail northward from Colon, in compliance with Department instructions, as soon as stores arrive from New York, which were expected Feb. 8.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Left Montevideo Dec. 18. Arrived at Maldonado, Uruguay, next morning, from whence intended to sail Dec. 26. It may be necessary to stop at the Faulkland Islands for coal, as Sandy Point is a Chilian port.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Reported by cable to have arrived at Valparaiso, Chili, Dec. 16.

MONONGAHELA, 2d rate, 9 guns, Comdr S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Is en route for Panama from Valparaiso, and will probably arrive about the 25th of the present month.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. At Sitka, where she will winter. Address care of Navy Pay Agent, San Francisco, Cal.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. Commissioned at Navy-yard, New York, Jan. 15, 1887. It has not been decided when she will be ordered to sail for the Pacific Coast.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Valparaiso, Chili, Dec. 16.

Asiatic Station—Rear-Adml. Ralph Chandler.

Vessel with (†), address, Mail, General Post Office Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Bombay, Dec. 6.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Arrived at Yokohama, Japan, Feb. 8.

MARION, † 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Jan. 7.

MONOCACY, † 3d rate, 6 guns, Comdr. Henry Glass. Was at Canton, China, Jan. 7, and in about a month intended to visit Hong Kong, to give liberty to crew.

OMAHA, † 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. At Yokohama, Japan, Jan. 10.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. At New York, off Tompkinsville, S. I. At last accounts expected to go to the Brooklyn Navy-yard. A later despatch of Feb. 24 says she will be ordered to Norfolk, Va.

The Inspection Board returned from New York on Thursday. The board reports the *Ossipee* to be in excellent condition, and recommends that she be continued in commission. The board estimates that $20,000 will be ample to put her in condition for a three years' cruise.

PALOS, † 4th rate, 6 howitzers, Lieut.-Commander T. Nelson. At Tientsin, China, Jan. 7.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent as follows: Between Feb. 10 and March 1, address care U. S. Consul, Basse-Terre, St. Kitts. After March 1, per U. S., and including Brazil Co.'s steamer, leaving New York about March 24. Care U. S. Consul, at St. Thomas, W. I. After March 24, address Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived at Trinidad Feb. 21. After target practice in gulf of Paria will probably go to St. Kitts.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Arrived at Trinidad Feb. 21. After target practice in Gulf of Paria will probably go to St. Kitts.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Arrived at Trinidad Feb. 21. After target practice in Gulf of Paria will go to St. Kitts.

On Special Service.

DESPATCH, 4th rate, Lieut. W. S. Cowles. At New York Navy-yard, having her machinery overhauled.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York. Will remain for several weeks, undergoing slight repairs, and when ready she will proceed on a cruise to the Spanish main, surveying the Lake and Port of Maracaibo, Venezuela, with their approaches.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. At San Diego, Cal., Jan. 3.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard. Expects to go on a trial trip shortly, after receiving all her armament.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 26 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Commander H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York.

DALE, 8 guns. Commander Yates Stirling. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate Kuhl, commanding. At Norfolk.

The iron-clads *Ajax*, *Catskill*, *Lehigh*, *Mahopac*, *Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. The construction work will be completed about March 30. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. Will be ready in a few months, and in all probability be assigned to the North Atlantic Squadron.

Trenton—Undergoing repairs at Norfolk, Va. Expects to be ready for commission about March 1. It is not known at present where she will be ordered.

VARIOUS NAVAL ITEMS.

CASTRIES, in St. Lucia, is to be made an English coaling station, and $350,000 has been voted by the Legislature of the island for the improvement of the harbor. The troops hitherto stationed at Barbados will be removed to St. Lucia.

IT is reported from Constantinople that as a submarine boat the Nordenfeldt type has been successful in the eyes of the Supreme Military Committee. Successful runs were made both at the surface and beneath it. The boat passed in one direction at the surface with only its cupola showing, and returned in the other completely submerged, the only indication of her movements being a slight disturbance of the surface from the ensign staff, purposely placed so as to enable the committee to watch her course. During the trial the boat remained hermetically closed, the fires being extinguished, and the only steam power used was drawn from the reservoir.

4,122 INDICATED h. p. and 17.8 knots speed were obtained on an experimental trial of H. M. S. *Archer*, 6, torpedo cruiser, with forced draught. The *Cossack*, 6, torpedo cruiser, indicated 4,003 h. p. and 18 knots. The *Rattlesnake* gave a collective indicated h. p. of 2,718.27, which is slightly beyond the contract. The mean of six runs upon the measured mile gave a speed of 18.779 knots. On the conclusion of the steam trial the steam steering gear was tested, when it was found that the helm could be put hard over from hard over in twenty seconds. The craft behaved very well in spite of rough weather. The *Rattlesnake* is of 450 tons displacement, and is the first of her class. The others are the *Spider*, *Grasshopper*, and *Sandfly*, which are being constructed at the royal yards.

THE *Miantonomoh* was taken out of dry dock at the New York Navy-yard, Feb. 23.

AS A result of the recent visit of the Japanese Minister of Marine to the works of the Compagnie des Forges at Chantiers of La Seyne, the company has been commissioned to construct two steel coast defence armorclads of about 100 metres in length and of 4,150 tons displacement.

THE U. S. S. *Galena* will proceed to Aspinwall, to remain until the arrival of the *Mohican* at Panama, which has on board the colossal statue and other archæological relics obtained at Easter Island. The *Galena* is to take those precious relics on board and bring them to Washington, where they will be turned over to the Smithsonian Institution.

IT is quite probable that the *Ossipee*, which so recently arrived in New York from a full China cruise, will be found to require more extensive repairs to put her in first-class condition than will be covered by the statutory twenty per cent., although she is not looked upon as a candidate for rotten row yet awhile. Her machinery is in fair condition, but boilers and hull show marks of long and continuous service.

THE U. S. S. *Mohican* will probably be reported from Panama before very long, whither she is bound for the purpose of transferring to this side the stone image which was successfully removed from Easter Island, and will be exhibited in the National Museum, Washington, in due time. This is believed to be the second of these remarkable monuments removed from the island, and much interest will attach to it as being the work of a long forgotten people, about whom even tradition is silent. The *Mohican* will not remain long at Panama, but will return south, probably as far as Coquimbo.

IN the Senate, Mr. Mitchell, of Oregon, from the Committee on Claims, to whom was referred the petition of George N. Quintard and Geo. E. Weed, assignees of John Roach, praying compensation for work done by order of the Navy Department under a public exigency requiring an increase of dimensions of the iron frame or hull of the monitor *Puritan*, and for the care, towage, wharfage, etc., of the *Roanoke*, submitted a report thereon, accompanied by a bill (S. 3318) for the relief of Geo. N. Quintard and Geo. E. Weed, assignees of John Roach, which was read twice by its title. Mr. Whitthorne said: "I do not concur as a member of the Committee on Claims in that report."

SOME time ago the Bureau of Naval Intelligence sent out a circular asking information as to number, capacity, and speed of lake and ocean going steamships and the ability of railroads to transport supplies and ordnance from point to point. The object is to ascertain what the carrying capacity of our merchant marine would be in case of immediate necessity for their service, and what service also the railroads of the country could render in the despatch of quartermaster and commissary stores and munitions of war generally. That is all there is to the periodical appearance of statements that the information sought looks very peculiar.

IT is a satisfaction to learn that the *Chicago*, at the very beginning of her official career, is performing satisfactorily and demonstrating the unwisdom of being too sure of an event before it comes to pass. Should the next preliminary trial at the dock prove as satisfactory as the last one, it is likely that she will be steamed around to the New York yard for completion and commission. The *Atlanta* is nearly ready for another trial trip, and to judge from the talk of her officers there is a deadly determination on the part of her engineers to get out of her all there is in her. It is full speed this time "or bust." Passed Asst. Engr. J. A. B. Smith, U. S. N., has been acting as the chief engineer of the *Atlanta* since the detachment of Mr. Melville, but it is expected that before very long a relief for him will be found, and one of the chiefs now waiting orders will soon be assigned to this fine ship.

THE *Sun* quotes an old Navy officer as saying: "We continue to have a great many conventionalities in our naval and Army service, and to cling to much of that which is old and useless in teachings and practices. We continue to instruct our naval cadets and marines in boarding ships, when there is not the least particle of sense or utility in it. It is as senseless to talk about boarding a modern man of war as it is to take a trip to the moon. I remember that during one of the last engagements in European waters a man-of-war belonging to some country ran alongside a British vessel, and all hands were ordered to board her. The crew got out on to the Britisher, but after pounding around with cutlasses, axes, etc., were wholly unable to enter the ship, and had to go back and continue the fight at long range. We will have to do our fighting with ships by means of dynamite rams, steel projectiles, and the big guns. We have no use for the barbarous side arms and other relics of antiquity."

THE Arrow Steamship and Shipbuilding Company of New York promise us a revolution in the transatlantic trade, since they are about to construct twelve vessels upon a new principle and with an estimated speed to make the voyage from New York to Liverpool in a little more than four days, carrying no freight, excepting, possibly, a few express packages. The first vessel the *Pocahontas* is to be an iron and steel ship and instead of being built on lateral lines, she will be built upon 68 transverse steel walls or bulkheads, seven and one-half feet apart, each of the full size and accurate shape of a cross section of the vessel. These walls will have openings cut in them for the saloons, passage ways, tunnels, etc., with vertical longitudinal walls through them, thus making 1,060 watertight compartments, of which 500 are to be below the water line. She will be provided with compound engines of 27,986 horse power, capable of giving a speed of 22 knots an hour. There will be 20 boilers to furnish steam to the main engines, placed fore and aft of the vessel, with three smokepipes on each side of the ship next to the rail. Her dimensions are to be 540 feet by 40 feet, draught, 25¼ feet.

NEWPORT, R. I., NOTES.

ODD FELLOWS' HALL was crowded on the evening of Feb. 17, to witness "The Two Buzzards," by several distinguished amateurs. The stage effects, arranged by Lieut. W. McCarty Little, were excellent, and the cast, all from the Torpedo Station, was admirably adapted to the play.

NAVY GAZETTE.

Ordered.

FEB. 18.—Paymaster Joseph Foster, to special duty at the Navy-yard, Portsmouth, N. H.

FEB. 19.—Commander Chas. E. Clark, as Inspector of the 9th Lighthouse District.

Detached.

FEB. 18.—Paymasters H. T. B. Harris and Chas. W. Slamm, from special duty at the New York Navy-yard and ordered to special duty with Captain A. P. Cooke.

FEB. 19.—Ensign M. L. Read, from duty in Bureau of Navigation and placed on waiting orders.

Chaplain Thomas A. Gill, from the receiving ship St. Louis and placed on waiting orders.

FEB. 21.—Ensign Wm. A. Gill, from the naval ordnance proving ground and ordered to the Ranger.

Ensign Lewis J. Clark, from the Franklin and ordered to the Ranger.

FEB. 23.—Ensign Albert Gleaves, from the Washington Navy yard and ordered to ordnance proving ground, Annapolis.

Commodore L. A. Kimberly, from Boston Navy-yard March 25 and to hold himself in readiness for sea service.

Paymaster Geo. H. Read, from New York Navy-yard and ordered to settle accounts and wait orders.

Placed on Waiting Orders.

Lieutenant F. P. Gilmore, having reported his return home from the Asiatic Station, is placed on waiting orders.

Dismissed.

Passed Assistant Paymaster L. A. Yorke, from March 24, with one year's pay.

Confirmations.

FEB. 14.—Comdr. Henry B. Seely, to be a captain.

Lieut.-Comdr. Thos. Nelson, to be a commander.

Medical Inspector David Kindleberger, to be medical director.

Surg. Benj. H. Kidder, to be a medical inspector.

Pass. Asst. Surg. Benj. F. Rogers, to be a surgeon.

MARINE CORPS.

Capt. Wm. R. Brown, U. S. M. C., tried by Court-martial on Pacific Station last October, was sentenced to be dismissed. Upon the recommendation of the court, concurred in by the Secretary, the President has mitigated the sentence to one year's suspension from rank and duty, on half pay, he retaining present number in his grade during that period. Sentence to take effect from Oct. 23, 1886.

First Lieut. Jessup Nicholson, marine corps, is placed on retired list, having been found incapacitated for active service.

GENERAL COURT-MARTIAL.

A Court-martial convened at the Washington Navy-yard, Friday, Feb. 25, for the trial of Private John E. Goff, Marine Corps. Detail: Commanders A. G. Kellogg and Yates Stirling, Lieuts. R. E. Carmody, Herbert Winslow, Edward J. Dorn, and Robt. Platt, U. S. N., and 1st Lieut. F. L. Denny, U.S.M.C., members, with Capt. F. H. Harrington, U. S. M. C., Judge Advocate.

COURT OF INQUIRY.

A Court of Inquiry has been ordered to convene at Portsmouth, N. H., March 1, to investigate the circumstances attending the loss of certain clothing at that yard. Detail: Lieut.-Col. John L. Broome and Capts. McLane Tilton and Percival C. Pope, of the Marine Corps, and Lieut. Adolph Marix, U. S. N., Judge Advocate.

THE REWARD OF GALLANTRY.

NAVY DEPT., WASHINGTON, February 15, 1887.

G. O. No. 358.

The attention of the Department has been called to the gallant conduct of Thomas Reynolds, quartermaster, serving on board the U. S. Coast and Geodetic Surveying steamer *McArthur*, who jumped overboard, while that vessel was steaming through Haro strait at the rate of eight and a half knots, and rescued from drowning a seaman who had fallen overboard and could not swim. The report of this occurrence was referred to a Board, of which Commodore James A. Greer, U. S. Navy, was President, for consideration and recommendation, and the Board recommended that the Secretary of the Treasury be requested to confer upon Thomas Reynolds the second class medal provided for in section 7, chapter 344, Supplement to the Revised Statutes, and that he be complimented in a General Order. In accordance with the recommendation of the Board, and at the request of the Navy Department, the Secretary of the Treasury has awarded to Thomas Reynolds the second class medal for saving life.

The Department also takes pleasure in announcing to the Service the gallant conduct of E. J. Bourke, F. J. Reardon and H. Dahis, second class apprentices serving on board the U. S. Training Ship *Portsmouth*, who jumped overboard in the harbor of Lisbon on August 30, 1886, and rescued from drowning A. La Grill, first class apprentice serving in that vessel, who had fallen overboard, and in falling had struck his neck, and was so stunned as not to be able to swim. The report was referred to the Board of Officers above mentioned, who recommended that E. J. Bourke, F. J. Reardon and H. Dahis be commended for their gallantry by the Secretary of the Navy in a General Order.

It is also with gratification that the Department announces to the Naval Service the gallant act performed by Wm. B. Smith, coxswain of the steam launch *Billow*, attached to the Torpedo Station at Newport, Rhode Island, who, on the evening of December 28, 1886, jumped overboard in the harbor of Newport and saved a woman from drowning. The same Board of Officers recommend that a commendatory letter be addressed to Wm. B. Smith by the Secretary of the Navy.

The Department has also been advised of the gallant conduct of Joseph H. Spear, captain of the forecastle, U. S. S. *Omaha*, who, on December, 27, 1886, jumped overboard in the harbor of Yokohama, Japan, and rescued from drowning Henry Marshall, captain of the top, who had fallen overboard and could not swim. The Board of Officers, to whom was referred the report of this occurrence, recommended that Joseph H. Spear should be commended by the Secretary of the Navy in a General Order.

In carrying out the recommendations of the Board of Officers, it is a source of pleasure to the Department to be able to call the attention of the officers and men of the Naval Service to the coolness and courage of Thomas Reynolds, E. J. Bourke, F. J. Reardon, H. Dahis, Wm. B. Smith and Joseph H. Spear, who risked their own lives in their gallant and successful attempts to save the lives of others.

WILLIAM C. WHITNEY, Secretary of the Navy.

NAVAL ACADEMY.

ANNAPOLIS, MD., Feb. 23, 1887.

THE last week before the opening of the Lenten season has been a lively one at the Naval Academy. Every pleasant afternoon the grounds have been filled with visitors enjoying the band concerts and viewing the points of interest about the yard.

On Saturday evening from 8 to 11 the officers gave the last of their hops before Lent. As was expected, a large number were present, and among the number were many strangers to Annapolis. Mrs. Paymaster Loomis received, assisted by Ensign Capehart. Refreshments were served under care of Young, as usual. Nearly all the officers attached to the Academy were present, and a large number of cadets of the first and second classes. In spite of the stormy weather a large congregation attended service at the chapel on Sunday and listened to an excellent sermon by Chaplain Rawson.

On Monday the monthly examinations for February commenced and will be continued throughout this week and a part of the next. The first class will be examined in Seamanship, Navigation and Gunnery; the second class in International Law, Mechanics, Electricity, and Steam; the third class in Mathematics and in Physics, and the fourth class in Mathematics, English studies, and French.

Although the weather was uncertain on Monday morning, a pleasanter evening for a large hop could not have been desired than Monday evening. At an early hour parties began to flock toward the gymnasium and carriages rolled down the stone pavement. The hop was by far the best managed and most successful of all hops given by the first class this season; the hop committee are to be congratulated upon their taste in decorations and for their good management.

The guests were received by Mrs. Capt. Huntington, assisted by Cadet Long. The floor, corridors, and dressing rooms were filled with visitors from Washington, Baltimore, and other cities. Among those present from the yard and the city of Annapolis were Gov. Lloyd and Mrs. Lloyd, Capt. Sampson and wife, Miss Sampson, and Miss Kate Sampson; Capt. Huntington and wife, Comdr. Harrington and wife, Comdr. Schouler, and wife, Comdr. Terry and wife, Chief Engr. Farmer, wife, and Miss Farmer, Paymaster Loomis and wife, Miss Loomis and Miss Alice Loomis; Capt. Harrington, of the Marine Corps, and wife, Lieut. Todd and wife, Lieut. Leutze and wife, and Miss Kernochan, of Conn.; Lieut. Miles and wife, and Miss Woods, of N. Y.; Lieut. McCrea and wife, Lieut. Colahan and wife. Lieut. Bartlett and wife, Lieut. Barnett and wife, Lieut. Gheen and wife, Lieut. Doyle and wife, Lieutenant Smith and wife, Lieut. Fullam and wife, Lieut. Nicholson and wife, Ensign Huse and wife, Ensign Capehart and wife, Ensign Eyre and wife, Ensign Haeseler and wife, Ensigns Knapp, Atwater, Blish, Krepper, Hill; Asst. Engrs. Gow, Schell, and Scribner, and Surgeons Percy and Biddle, Prof. Brown and Mrs. Brown, Prof. Fay, Mrs. Fay, Mrs. Dr. Rush, and Mrs. Lieut. Pendleton. Paymr. Murray and Miss Murray, Drs. Kennedy, Walton, and Claude, of Annapolis; the Misses Claude, Miss McGruder, Miss Beck, Miss Merritt, Miss Pinckney, and the Misses Walton, of Annapolis.

Among the visitors were Miss Snowden, of New York; Miss Seaman, of Staten Island; Miss Greer and Miss Jones, of Washington; Miss Heap, of Washington; Miss Price, of Baltimore; Miss Boush, of Washington; Miss Young, of Baltimore; the Misses Roane, of Baltimore; Miss Smith, of Washington; the Misses Meade, of Washington; the Misses Hull, of Baltimore; Miss Sterling, of Washington; Miss Royer, of Kansas City; Miss Abbott, of Philadelphia; Miss Dutton, of Washington; Miss Brooks, of Washington; Miss Wilson, of Philadelphia; Miss Blackburn, Miss Clay and Miss Thompson, of Kentucky; Miss Burritt and Miss Calhoun, of Washington; the Misses Claytor, of West River, Md., and Miss Russell, of Washington. The supper was served in the rooms adjoining the gymnasium, and these rooms were also tastefully decorated. A new set of hop crockery and a silver service had been purchased by the cadets and were in use.

An order from the Superintendent to the cadets suspended all study hours and exercises from 4 P. M. on Monday, Feb. 21, to 6 P. M. on Tuesday, Feb. 22. All cadets not under punishment were allowed liberty to visit the city of Annapolis.

Mrs. Leutze gave a very pleasant afternoon tea on Tuesday afternoon which was well attended.

An informal hop was given in the gymnasium from 3 to 5.30 on Tuesday afternoon: those visitors who had not left were present, and so were a large number of officers and cadets.

The resignations of Cadets Gould, Rowan, Melson and Selfridge, of the Second Class, Seeley, of the Third Class, Berkeley, Chappell, Chandler, Demarest, Green and Mason, of the Fourth Class, were accepted during the past week.

Miss Woods, of Vassar College, is visiting with Lieut. and Mrs. C. R. Miles.

The Misses Clay, Blackburn and Thompson, of Kentucky, who have been the guests of Lieut. and Mrs. C. C. Todd, have returned to their homes.

Miss Baker, of Washington, and Miss Seaman, of Staten Island, spent Saturday, Sunday and Monday with Engineer and Mrs. Baxter, in Annapolis.

Miss Kernochan, of Conn., is the guest of Lieut. and Mrs. Leutze. Miss Dutton, of Georgetown, is visiting with Mrs. Chief Engr. Farmer.

BOAT RACE AT MONTE VIDEO.

THE *United Service Gazette* says: A valued correspondent at Buenos Ayres sends us particulars of an exciting boat race which took place at Monte Video on November 3 last, between the men of Her Majesty's ships *Ready* and *Frolic* and the American man-of-war *Vandalia*. The race was for eight dols. a side, in fourteen-oared barges, and the Americans were the challenging party. As neither the *Ready* nor *Frolic* possessed a boat fit to race with, the captain of the port lent his—a splendid looking craft, which, manned with a crew of fourteen taken from both ships, went to practice for a week previous. The people of the town, who naturally were greatly interested in the race, were much taken up with the fine, swinging, clockwork stroke which the coxswain kept them to, and each evening the pier and walls were lined with spectators. At last the eventful day arrived: the weather was all that could be desired, and all Monte Video and his wife turned out, there being thousands of people on shore and afloat to witness the contest. The distance was five nautical miles (seven and a half), and 1.30 p.m. the time allotted for the start. As the time drew near, the starting point was crowded around with boats and steam-launches, and one could scarcely see the buoy from which the start was to be made. The Americans were the first in the field, but both boats were at the starting point and all was ready at the appointed time. The course was cleared, and almost amid perfect silence the gun was fired. "They're off!"—one, two, three, and the Englishmen spring to the front amidst deafening cheers. A signal from the flag-ship, about a mile away, went up as they passed, the English boat being one length ahead. The boats were now out of sight, owing to the amount of shipping, so we had to wait patiently for a time. At length the boats were again in sight, the Americans being slightly in front. Both boats were pulling splendidly, and as they drew nearer the excitement was intense, but the result of the race from now was a foregone conclusion, as the Americans, still increasing their lead, continued in front for the remainder of the race, and came home the winners of one of the best contested races that has taken place on the station.

CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865,	**$21.00**
Old Reserve Whiskey,	**18.00**
Unrivalled Upper-Ten Whiskey,	**15.00**
Brunswick Club Whiskey,	**12.00**

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

ARMYNAVY.

ABUSING THE SENATORIAL PRIVILEGE.

SENATOR MITCHELL, of Oregon, has availed himself of the immunities of his position to make a bitter personal assault upon Colonel John G. Parke, Corps of Engineers, Brevet Major-General, U. S. A., because of his action while in charge of the Engineer Office with reference to the control of the improvements of the Columbia River. In the river and harbor bill which became a law August 5, 1886, Congress appropriated $187,500 to continue the improvements on the Columbia, this sum to be immediately available. Mr. Mitchell's complaint is that General Parke delayed this work because of his hostility to the officer having charge of it—Major W. A. Jones, Corps of Engineers. Major Jones, on the 21st of August, submitted a plan for the improvement of the river and Senator Mitchell, in his speech to the Senate on Monday last, gave a series of letters and telegrams to show that General Parke would neither approve nor disapprove this plan. Finally, in October, the following telegrams were exchanged:

WASHINGTON, D. C., October 4, 1886.

Captain Chas. F. Powell, Engineers:

Can you take charge of Cascades Canal in addition to your other duties? PARKE, In Charge of Office.

WASHINGTON, D. C., October 5, 1886.

Captain Powell, Engineers:

No answer to telegram of yesterday. It is desired here to make the change. Hope you can take charge at once.
PARKE, In Charge of Office.

PORTLAND, OREG., October 5, 1886.

The Chief of Engineers, Army:

I can take charge of Cascades Canal in addition to my other duties. CAPTAIN POWELL.

PORTLAND, OREG., October 8, 1886.

Chief of Engineers:

May I inquire why I am removed from charge of the Cascade locks? JONES, Major Engineers.

On the 11th of October General Duane was appointed Chief of Engineers, and the following letter was addressed to him:

UNITED STATES ENGINEER OFFICE,
PORTLAND, OREG., October 17, 1886.

General James C. Duane, Chief of Engineers:

SIR: The circumstances connected with my removal from charge of the Cascade Locks are, from my point of view, extraordinary. I was removed summarily by telegraph, without previous warning whatever, and the work was placed in charge of my junior on duty at this station, who had previously been consulted on the matter. This leaves the relative situation here as follows:

[Here follows a statement showing that while improvements involving an expenditure of over six millions are entrusted to Captain Powell, those committed to Maj. Jones amount to but $541 000.]

The inference from these circumstances is absolutely rigorous that this change resulted from grave fault on my part. Nothing else could justify placing me in such a humiliating position.

It is my right, in order that I may intelligently defend my rank and honor, to be fully informed as to the reasons for this change, so far as they involve me personally. And, reiterating the request in my despatch of October 8, I hereby respectfully request to be so informed.

It is my great wrong to have been placed in such a position, on any grounds whatever, without previous opportunity for defence or explanation.

I appeal to you, sir, to protect and uphold my rank.

Very respectfully, your obedient servant,
W. A. JONES, Major of Engineers.

On Dec. 7, 1886, the U. S. Senate passed a resolution calling for information as to the reason for the change made in the engineer in charge of the Columbia River work. In a letter of Dec. 11 in reply, addressed to Gen. Duane, Gen. Parke said:

While I was Acting Chief of Engineers, in temporary charge of the office, I preferred not to make a decision on Major Jones's project, for I was not willing to assume the responsibility of recommending or authorizing the approval of a project for a work of this character of an officer whose *admi nistrative skill, capacity, and ability were not satisfac ory to me;* but in order that there should be no further delay in the work, I was perfectly ready to make a recommendation in the case, and that was for Capt. Powell to relieve Major Jones of the charge of the improvement. This was authorized by the Secretary of War and the transfer was thereupon effected.

In response to a demand for information by a local board of trade Secretary Endicott telegraphed:

The charge of officers was made after due consideration and will not be changed. That is a matter of administration, and as the responsibility for this work is upon this Department, it must act upon its own judgment.
WILLIAM C. ENDICOTT, Secretary of War.

In some way the boards of trade and other local organizations seem to have been aroused to a white heat of indignation which found expression through their Senator, and in resolutions and letters commending in the highest terms Major Jones for his ability and criticising General Parke with corresponding rigor for delaying his work and finally removing him. The most important of these resolutions are the following, which have been passed by the Oregon House of Representatives and are now before the Oregon Senate for approval:

Whereas the river and harbor matter placed under the Bureau of Engineers in Washington, has, for a great many years, been under the direction of one John G. Parke, a colonel of the Engineer Corps, U. S. Army; and,

Whereas the office thus occupied is one of great importance to the people of the Pacific Northwest, as the appropriations for the improvement of their great rivers and harbors are controlled and directed therein; and,

Whereas the officer in charge of said office should be one of wide experience in engineering construction; and,

Whereas the great railroad corporations who seek to paralyze the efforts of the people in the improvement of their water ways could not do so more effectually than by keeping in this office one whose lack of experience renders him incompetent for the management and direction of engineering construction; and,

Whereas the records show that Col. John G. Parke has never had any practical experience in engineering construction; that at least 35 years of his service have been spent in Washington, D. C., bureau service; that he has recently allowed a personal spite toward a brother officer to cause a needless delay in the prosecution of the Cascade Canal, a great public work, upon the progress of which a suffering people are waiting with painful interest; therefore, be it

Resolved, That the Senators of the State of Oregon be instructed, and the Representatives of said State be requested, to use every effort to secure the removal of the said John G. Parke from the position he now occupies as chief engineer in charge of the river and harbor business of the Bureau of U. S. Engineers.

These resolutions were passed on the 5th of the present month, and Senator Mitchell has acted promptly in response to this loud call from the body to which he owes his election. He has certainly shown no lack of zeal or energy in enforcing its demands. In his speech to the Senate he accuses General Parke of "gross and inexcusable usurpation of executive power before an outraged and justly indignant people whose rights and interests have been in a material measure sacrified by him to the end that he might, while exercising a little brief authority, either gratify an intolerant and reprehensible spirit of personal spleen towards a brother officer of his corps, or truckle to the selfish interests and sordid will of a transportation monopoly, whose iron heel is grinding the very life-blood out

of the producers and shippers of the Pacific Northwest." He declared that "no military satrap or imperial dictator, subject to no law, or restraint, or regulating power save his own arbitrary will, was ever more unreasonable, defiant, or unjust than the record shows Colonel Parke to have been in reference to this very matter." Mr. Mitchell further accused the Secretary of War of allowing himself "to be overreached by the cunning and plausible diplomacy of a Chesterfieldian officer, such as we all know Colonel Parke to be," and allowing him to secure from the Secretary "through his representations his aid in plunging a poisoned dagger into the heart of Major Jones under pretence of performing a great public duty." He said also:

If it were true that Maj. Jones's adminstrative skill, capacity and ability were deficient, and this fact was known to Col. Parke, why did he not remove him without delay from charge of this important work? For *some* cause the full and complete plan of Major Jones was, as I am advised, practically adopted in the work as now progressing under the direction of Capt. Powell and Col. Parke, chief of the division of rivers and harbors, and it is satisfactory, as it seems, to the very exacting and punctilious Col. Parke * * * Chiefs of Engineers come and go. They reach this position as a rule in the line of promotion, old, tired and unskilled in bureau administration; and hence it is a matter of common notoriety that the officer in charge of the river and harbor division practically conducts and controls the most of the business. Obviously, then, such an officer should be much more than a mere polite and polished gentleman eminently fitted for the fashionable *salons* and gay and festive drawing-rooms of an aristocratic and fashionable capital. He should not only be a man of great engineering experience and ability, but a man who has knowledge of, and is in a great measure identified with, the great public interests of the people in the various sections of the country. Obviously, also, if the great railroad organizations should wish to paralyze and cripple the business of improving the harbors and water ways, they would naturally endeavor to place an officer in this important position, or retain such a one, if already there, who had little or no practical engineering experience, and who had no identification, association, or sympathy with the great masses of the people or their material interests. Orders and circulars have been fulminated from time to time, and the crop of lieutenants and captains has been tolerably good; but to-day all Washington, and the entire Army with few exceptions, stand agog over the hidden power, the secret influence, the magic wand that can hold a military officer of the Engineer Corps in Washington on desirable bureau duty for a period of *thirty-seven years*. Secretaries may and do come and go, but Col. Parke, genial, pleasant gentleman that he is, promises to stay forever.

As soon as Mr. Mitchell had concluded Senators Conger and Hawley sprang to the defence of General Parke. Mr. Conger said: "Of all the public men with whom my business in the House and Senate has made me necessarily connected, I have never found a man who impressed me more strongly with the idea of his candor, his sincerity, his gentlemanly behavior and conduct, his wonderful familiarity with all the questions with which Congress has been interested connected with rivers and harbors, his good judgment, his fine appreciation of men, his ability to decide which man was best for the particular place and position than General Parke." He alluded to "his long experience, his intimate knowledge, his wonderful memory, which he has acquired through these long years of service," and said: "No man has ever had the temerity, whatever his superior position, from President down to the Chief of Engineers, to assume that General Parke could be replaced by any other, however great, officer in the Army and in the Corps of Engineers, however great his engineering abilities may be."

Of Major Jones Mr. Conger said: "I do not know why, or how, or what influence got him into the place of Captain Powell. He held it two years. It came his turn to go. A soldier would have obeyed orders and gone; a soldier would not have growled and complained. I do not know what instigates these town meetings along the Columbia River and amidst the rocks of the cascades and in the back places of the little islands at the mouth of the Willamette."

Senator Hawley said: "On this floor General Parke can not be heard except through his personal friends, and the Senator from Oregon is the first man I ever heard of who knew Parke who was not his personal friend and admirer. He has been attacked here concerning a matter which belongs to military administration. If he made a serious mistake in judgment, or if he were guilty of something worse in the discharge of his duty as a soldier, the remedy is in the War Department, either by removal or rebuke, or if it be serious, by a demand for a court-martial. To all that General Parke will be glad to respond. If I ever knew a man of whom I could say in the familiar phrase of the profession, 'He is a gentleman and a soldier and incapable of dishonor,' it is John G. Parke."

WE should scarcely have imagined that any soldier would have been found mean enough to sell the medals—badges of honor—won by him in the official rifle competitions, but such a one has been found in Texas—as will be seen from G. O. 13, A. G. O., which we publish this week. The punishment awarded—prohibition from participating in any future department competitions—is, in our opinion, mild considering the nature of the offence.

NAVAL ORDNANCE WORK.

THE work of assembling the material, purchased abroad and at home, into high powered guns for the Navy is making fair progress at the Washington Ordnance Yard, although as an evidence of the difficulty in the work may be mentioned the fact that there is a gun still being worked on there which has been underway in various lathes and other tools for more than a year, and is not yet ready for proof. The one point which handicaps the production of guns at this yard lies in the slight value assigned to time, which in a private shop would be regarded as money. The actual cost of the guns turned out at the Washington Ordnance Yard is very difficult of ascertainment; in fact, it is not known that even an approximation has been arrived at, but it is well known that the expense of turning out finished ordnance of considerable size there is invariably in excess of the same productions from other shops wherein strict business methods are the rule and not the exception. The plan of manufacturing steel guns by "assembling" in a Government shop parts which are made separately in private shops will have one good effect. It will give the United States in time the best ordnance corps in the world. Such an undertaking cannot succeed unless promptness and thoroughness in business matters are made the rule of that organization, as they never have been before. Such failures to act as produced the suspension of the South Boston Foundry will have to be overcome once and for all time. This is not the only instance in which dilatoriness in official quarters is reported.

The talk about making our own guns out of American steel grew out of the absolute needs of the country in the way of national defence, and also out of the long continued depression in trade which led our steel makers to inquire whether there was not a field for them in gun making. The former cause for action continues, and we are glad to see Congress disposed to meet it. The latter incentive has rapidly disappeared with the improvement of business during 1886, and now manufacturers are looking dubiously at the tangle of red tape which they say envelopes and chokes enterprise whenever it is directed toward Government work.

We have spoken before now with approval of the arsenal system of gun making, but we are not blind to the difficulties that beset it. Steel of a given tensile strength and the hardness, elasticity and toughness that correspond can be, and will be, supplied readily by makers, but what the destructive test of a gun built up of parts selected by these physical characters may be is quite another question. We are confident that no manufacturer will be bound by anything that happens to his tubes or coils if they answer the tests prescribed.

When we had cast iron guns the manufacturer submitted to a destructive test. The proving ground was near his foundry, and a specified proportion of the guns were tested, to 1,000 rounds, we believe. Probably something of this kind can be done with steel guns. Failures in built-up guns are due to two causes, the quality of metal and the mode of building up. When both of these are prescribed by the Ordnance Corps, it is not to be expected that the makers will be responsible for the results, but if the Government will authorize the Chief of Ordnance to name a fair price for a gun to stand a suitable destructive test we have no doubt that makers will come forward eventually with weapons for test. Let them be of what make they may, the country cannot fail to be the gainer.

By the end of 1887 the steel-making capacity of this country will be probably 3,500,000 tons a year, to meet a market of perhaps 2,500,000 tons. Makers will be glad to work for the Government if they can do so on some plan like that under which the Rodman guns were made, and there is no reason why something of the kind should not be considered and prepared for the action of Congress.

AMERICAN HISTORY REVISED.

MR. PERCY GREG has undertaken to write the history of the United States from an English point of view and to rob us of the glory of Bunker Hill, besides subjecting us to similar historical deprivations. The incident in which the Adjutant of the British forces figured to his equal discomfort and discredit is described as "ANDRE'S Murder," Mr. GREG possibly forgetting the fact that ANDRE at the last moment said: "While I acknowledge the propriety of my sentence you will bear me witness that I die like a brave man." May it not be assumed that he was quite as familiar with the circumstances leading to his execution as this latter day historian, and that he did not without reason describe himself as "betrayed into the vile condition of an enemy in disguise within your posts?" Again, we are told that "the accusations of aggression and oppression are lifted off the shoulders of English statesmen on to those of the Colonial leaders, who are charged, in addition, with the most flagrant ingratitude to the mother country;" that "the Colonies waited only until England had expended her best energies in driving the French from North America—until she had exhausted herself in a series of wars undertaken solely with the object of ensuring the safety of her American provinces—when they seized the first opportunity of combining with her enemies to break a connection which was no longer of vital importance to them. Mr. GREG's version of Bunker's Hill will, the *United Service Gazette* assures us, be read with relief by Englishmen, to whom the frequent repetition by Americans of their own account has been hitherto somewhat wearisome. "American writers," he says, "all drawing practically from the same source, the report of the inexperienced officers in the camp, afterwards accepted by WASHINGTON—whose military arithmetic was avowedly controlled by political prudence—rate the actual number entrenched on Breed's (Bunker's) Hill at 1,500. GAGE estimated it as outnumbering the assailants by three to one. Two to one would probably be a more trustworthy calculation." Three times, the British, "relying solely on the bayonet," assaulted entrenchments defended by a superior number of sheltered marksmen.

"The third assault, delivered by weary and shattered troops, who had already lost a third of their number, was a signal effort of courage and endurance; an exploit more brilliant than would have been the defence of such a position under such conditions for weeks instead of hours. Hitherto the well-trained marksmen of New England, securely sheltered, except for the moment when they showed their heads and arms to deliver their fire, had shot down the advancing enemy as deliberately as so many buffaloes, with characteristic coolness and tenacity. As soon as the British bayonets glittered above the parapet, the fresh and untouched defenders broke and fled from a smaller number of assailants, too utterly exhausted to pursue them. Of 2,300 British soldiers, more than 1,000 lay dead or wounded on the slope; before the 1,200 survivors, the moment they appeared on equal ground, the Americans gave way. It is said that their cartridges were falling short and they had few bayonets; from whatever cause, they showed no desire to try conclusions with the panting, weary, worn-out soldiers of Britain. Such was the 'Bunker's Hill' of which New England so vaunts in stone and prose and verse that the name suggests an American Waterloo or Thermopylæ, an English Flodden or Bull Run."

From an American point of view it would appear that Mr. GREG passes somewhat too lightly over the statement that "their cartridges were falling short." The value for either defence or attack of "well-trained marksmen" who have exhausted their cartridges is only apparent to a defeated enemy seeking excuse for his own discomfiture by an antagonist whose ability he has underestimated. At New Orleans, later on, in 1815, the British regulars, fresh from the battlefields of WELLINGTON, encountered raw troops, under similar circumstances, and, as the American ammunition on that occasion did not fall short, they left twenty-six hundred on the field—seven hundred killed, fourteen hundred wounded and five hundred prisoners. The Americans lost only eight killed and thirteen wounded.

THE Senate, on motion of Mr. MORGAN, has adopted the following resolution:

Resolved, That the Committee on Ordnance and War Ships be continued under the former orders of the Senate, with the powers heretofore given them, with leave to sit at Washington in the vacation of the Senate, and to further examine and report upon any plans for war ships, engines, and armor that they may consider useful for the naval establishment of the United States, and that they may associate in their investigation any officers of the Navy, not exceeding three, on the active or retired list that the Secretary of the Navy may detail for the purpos .

From this it would appear that no hope is entertained that action will be taken by the House on the two ordnance and two naval increase bills already passed by the Senate.

FACTS AS TO ARMOR-PLATES.

THE recent circular of the Secretary of the Navy to the steel manufacturers of the United States, calling for bids for the armor plates required for the protection of the two new armored vessels authorized by the Act of August 3, 1886, and for the completion of the four monitors, has—we have reason to know—occasioned much surprise in the minds of experts and producers, The act which carried the appropriation for the construction of the two ships, and for the monitors, was passed after three elaborate reports by special commissions had been made to Congress on the subject of guns and armor, and was very thoroughly debated both in the Senate and House of Representatives. In its phraseology we find no dictation to the Navy Department as to the type of armor to be provided for the vessels; its single instruction to the Secretary is that everything used shall be of domestic production—a clause authorizing the purchase of armor abroad in the possible event of our own manufacturers being unable to furnish it at reasonable cost and in reasonable time, having been stricken out. At no stage of the discussion preceding the passage of the act was there even a suggestion that the steel-faced or compound type of armor, selected after careful and thorough study of the subject by the previous administration of the Navy Department for the *Miantonomoh*, would be discarded and American rolling mills and forges ordered to produce plates of steel on the Creusot principle. On the contrary, whenever reference to the capacity of domestic mills to produce armor was made during the debate, and we recall several statements in that direction by Mr. CURTIN and others the compound type was named.

The change from the steel faced to the soft steel systems having been made, notwithstanding a precedent supposed to have been established, let us see how far the Naval Ordnance Bureau has followed the example and is justified by the experience of the principal maritime powers of Europe. We propose simply to state facts as they come to us on reliable authority, without committing the JOURNAL to either system on its merits; and we believe that a statement of facts will be of timely service now that a *claque* seems to be organized to promote the interests of one system through a suppression or perversion of the truth as to its competitor.

It is well enough known by our readers that the production of solid steel plate at Creusot and of compound plate at Sheffield dates from about the same time. The actual introduction of compound armor in England was a result of exhaustive competitive tests conducted in 1877-8 at Portsmouth. In the series of trials which lasted, if we are not mistaken, over a twelvemonth, a variety of plates were subjected to test, including both solid steel and compound types. The result was conspicuously in favor of the compound armor, and, after a supplementary trial of a considerable number of plates expressly made to the Admiralty's order, that system was adopted by the government. The first compound armor placed upon an English war ship, it is worthy of notice, was that for the *Inflexible*.

The English experiments in the direction of the best protection for war vessels were very jealously regarded by the French naval authorities, as well as by the great iron and steel industries of France, and in a comparatively short time a series of competitive tests were ordered to be conducted by a commission of experts. A result not less favorable than that secured in England was won for the compound system in the French trial, its significance being emphasized by the placing of the order for the armor of the *Indomptable* with the Sheffield firm of CHARLES CAMMELL and Co. This official endorsement was within a brief interval confirmed by the action of three great French firms, MARREL FRERES, of Rive de Guire, Loire; La Compagnie Anonyme des Forges, at Paris, and La Compagnie des Hauts Fourneaux, at St. CHAMOND, which each secured the right to manufacture compound armor in France on the patents of ALEX. WILSON, of CAMMELL and Co. As a recognition of the enterprise of the three companies the government awarded to each a contract for the armor of a vessel of the first class.

As England and France are the two most conspicuous European nations in their degree of naval development, the relative patronage conferred by each on the two types of armor possesses a significance which, it seems to us, cannot be safely disregarded. Our contemporary, *Engineering*, which has for some months been contending for the introduction of solid steel in England as a substitute for the Sheffield production, on December 31, published a table claiming to show correctly the aggregate amount in tons of solid steel, or Creusot armor, and of compound armor, manufactured in France for the French and foreign navies, from 1880 to 1886, inclusive. From this exhibit it appears that SCHNEIDER AND CO. have produced a total of 19,304 tons, of which 8951 tons were for foreign orders; while the three companies working under WILSON'S patents report an output of 14,487 tons, which has been exclusively taken by the French Navy. We fail to see the purpose of *Engineering* in publishing this table in an article asserting the superiority of the Creusot plate, since the preference of the French naval constructors for the compound system is strongly impressed by its own figures. Bad as is the exhibit our contemporary makes for the solid steel system, however, the following table, reproduced from the *Engineer*, of the same date of issue, which, in its precision of detail, carries an assurance of reliability, and leaves the Creusot case in an even worse relative position:

Quantities of Compound and Solid Steel Armor Employed in French Ships in Course of Construction.

As we have aimed to make the present article simply an exhibit of the extent to which each of the competing types of productive armor is used by maritime nations, the following summary of the powers using either the compound or the steel, or both, will afford a fitting conclusion: England, Germany, Austria, Russia, China, Brazil, Denmark, Holland and the Argentine Republic have adopted compound exclusively; France and Sweden both compound and steel; Italy, with the exception of the armor of the *Italia*, steel, though, it is said, her naval authorities are contemplating a change to compound; Spain, steel recently ordered for one ship, compound talked of for another. The English Government has purchased altogether 45,000 tons of compound plates, Germany and Russia over 11,000 tons, so that with the 14,487 tons taken by France, according to *Engineering*, there is a grand total of 70,487 tons to the credit of Sheffield against 19,304 tons to the credit of Creusot.

THE Naval Appropriation Bill was taken up in the House on Thursday afternoon and the several sections read and adopted in the form reported by the committee until the paragraph making provision for the Bureau of Navigation was reached. An amendment appropriating $12,000 for the maintenance of the Naval War College was offered to this part of the bill, and, provoking some debate, and on Friday it was rejected. The appropriation for two dry docks also caused considerable discussion.

THE new regulation established this week limiting the term of regimental adjutants and quartermasters to four years, with no second term of such duty, will, we judge from what was said last year on this subject, and again more recently, be generally acceptable to the Army, and beneficial in its results. It is in harmony with the regulations in regard to other details of somewhat similar nature, and will, we feel sure, offer an excellent opportunity to the young officers of the line anxious to perfect their military education. As showing the operation of the new regulations we append the following list of present incumbents with dates of entry upon their offices. It will be seen that twenty regimental quartermasters and eleven adjutants are subject to being relieved immediately, and that three more quartermasters and five adjutants will be relieved during the present year.

THE accident from the explosion of a shell at the Ordnance Proving Ground, Sandy Hook, on October last, by which Lieutenant MEDCALFE and Private KING were killed, is still fresh in recollection. Eight others who were present escaped with their lives, but three of these were sent to the hospital suffering from shock and contusions, and all with one exception had their hearing impaired. A careful investigation as to the exact injuries received by their ears has been made by the well-known aurist, Dr. SAMUEL SEXTON, of New York, and the result of his inquiries is given in the "Medical Record" of Feb. 19. To the results of this special study Dr. SEXTON adds information obtained from other sources, and presents some interesting conclusions as to the effect of artillery discharges upon the internal organization of the ear. He believes that rupture of the drum or other injuries to the ear are much more common than is usually supposed, and expresses his regret "that more attention has not been given to this matter, since there must be a large number of persons who have suffered injury to the ears from the concussion of explosives, who are as much entitled to be pensioned by the Government from this cause, as from others which happen to be more easily diagnosed." "Soldiers," he says, "are, as a rule, accustomed to endure hardship without complaint, and, in fact, all insensitive persons are liable to overlook ear disease until incapacitated to perform their work. A very disagreeable jar is imparted to the tempero-maxillary articulation when the individual is near a great gun being fired off. This is lessened, it is believed, by standing on the toes and leaning forward." Some simple precaution, to be employed by officers and men during artillery practice, is, the doctor suggests, "very much needed, since aural shock is not

only painful and distressing, but orders cannot be well heard while the confusion lasts. There is probably no better protection than a firm wad of cotton wool well advanced into the external auditory canal." In the case of the men injured at Sandy Hook, Dr. SEXTON found that partial or entire reproduction of the drumheads of the ear took place spontaneously, and without leaving any discharge. This, he thinks, affords a valuable suggestion in the treatment of inflammation of the ear, as well as in operations on the organs in healthy persons. In conclusion a request is made that other observers having experience in aural injuries during explosion communicate with Dr. SEXTON (No. 12 West 35th street), as an accumulation of knowledge on this subject would be of service to military surgeons, otologists and others.

PROFESSOR PETER S. MICHIE, U. S. A., of West Point, contributes Monograph 5 of the Military Service Institution, his subject being one of urgent present interest: "The Personnel of Seacoast Defence." He reviews what Congress did between 1816 ane 1865 to construct a system of land fortifications for the protection of our seaboard, and shows that the progress of science within the past twenty-five years has been such that the system which was once a strong protection, has not only become weak, "but absolutely more dangerous to the defenders than to the enemy." Colonel MICHIE shows that there are two co-ordinate factors in coast defence, first, the forts, guns, etc., and next the troops to serve them or personnel. Both are at present inadequate and inefficient, but as so much attention has already been given to *materiel*, he devotes himself to the consideration of the personnel. This should be the most important factor in our peace establishment, as upon it depends the defence of the seacoast and frontiers. Yet it forms but one-tenth of the whole Army, is widely scattered and has been so neglected, it "is a lamentable but well known fact that the Artillery personnel has steadily deteriorated since the close of the Civil War." He compares what it was then and what it is now, and continues: "The Artillery personnel cannot be held responsible for this lack of skill and the consequent inefficiency, for the very good reason that the Government has never supplied the means by which alone these defects could have been remedied. Parsimony has compelled the Artillery to practically abandon its special arm—the heavy seacoast gun, the infantry musket has usurped its place; the Artillery is now in reality Infantry, with red instead of white facings, and in consequence of its divided organization has naturallly become infected with the recent excessive craze of musketry practice which, however intrinsically valuable, does not constitute the whole of the art of war and which certainly should have but little, if any, foothold in the Artillery." Colonel MICHIE then considers the defects of regimental organization, the slowness of promotion, and gives his views as to the necessity for an immediate and radical reorganization. The subject is an important one, and is well considered in Colonel MICHIE's paper which is worthy of careful reading, especially at this time when public opinion is so strongly in favor of the immediate establishment of a system of national defence fully up to the requirements of the present day. We can only briefly allude to this important paper this week, but propose to pursue the subject, to see if reform is not possible as well as desirable.

THE friends of Captain GREELY are much relieved over the action of the Senate on Wednesday last in adopting, by a vote of 37 to 15, an amendment to the bill making the Agriculture Bureau an Executive Department, by which the Weather Bureau is transferred to that Department and the Signal branch of it left under the control of the War Department, without change in the status of the commissioned officers. The debate on the amendment demonstrated the sense of the Senate to be in favor of retaining the Signal Corps with the Army, thus precluding all idea of opposition to the nomination of Captain GREELY from those who it was at first supposed were in favor of abolishing the Signal Bureau altogether. The bill, which is now in conference, will no doubt become a law in some shape. It provides that the Chief Signal Officer and two Army officers shall form a board to inventory and turn over to the Department of Agriculture such Signal property as they consider suitable for the work of the Weather Bureau, leaving the rest under the control of the Secretary of War.

CONGRESS made speedy work with the bill to effect a rearrangement of grades of office in the Adjutant-General's Department. Less than a month ago the bill was first introduced in the two Houses. In a very few days it received favorable reports from the two committees, and not long afterward passed the House. On Thursday last it passed the Senate, and now only needs the approval of the President to become a law. The bill will give promotion immediately to Lieutenant-Colonels Whipple and McKeever, who become Colonels, and Majors Greene, Breck, Wood and Martin, who, after a long wait, became Lieutenant-Colonels. The following is the text of the new law: "That the Adjutant-General's Department of the Army shall consist of one Adjutant-General, with the rank, pay and emoluments of brigadier-general; four assistant adjutants-general, with the rank, pay and emoluments of colonel; six assistant adjutants-general, with the rank, pay and emoluments of lieutenant-colonel; and six assistant adjutants-general, with the rank, pay and emoluments of major: *Provided*, That the vacancies in the grades of colonel and lieutenant-colonel created by this act shall be filled by the promotion by seniority of the officers now in the Adjutant-General's Department."

THE New York *Sun* says: "Nothing more completely demonstrates the inefficiency of our military administration or the ignorance of the line officers of our Regular Army than the fact that they favor the Springfield breech loading rifle for general service instead of a magazine gun, because the latter wastes ammunition! Every first-class European power has adopted one form or another of magazine guns, of which we have about twenty different patterns, all of which are excellent and several of which have almost reached the limit of perfection. It is quite within the range of possibility that we may get into a war with a European nation at any time, and it is dead certain that we shall be caught totally unprepared for it unless our Government adopts and purchases a supply of magazine guns."

IN answer to an inquiry as to the construction placed by the War Department on the Act passed February 3 last, to amend the act to provide for the muster and pay of certain officers and enlisted men of the volunteer forces, the Secretary of War has replied that section 3 of the original act provides that all claims arising under the act shall be presented within three years or be forever barred. As the act of February last is amendatory only of the first section of the original act, this limitation remains in full force and effect, and all claimants under it must file their claims before June 1 next.

A GENERAL ORDER will shortly be issued from the War Department prohibiting military bands from competing with local bands. They will only be permitted to accept outside work at places where there are no civil bands.

AFTER years of application to the deaf ears of Congress, after almost innumerable tests and experiments in demonstration of its value and power, the celebrated Emery Testing Machine at the Watertown, Mass., Arsenal has received the consideration of an appropriation of re-imbursement to its inventor and builder, Mr. A. H. Emery. It is hoped that this tireless inventor and scientist may now receive promptly the money allowed by the bill which recently passed the House, for it is conceded that this testing machine is at once the most delicate, the most valuable, yet constructed, being in every way a credit to American talent.

IT appears that the call upon some of the clerks of the War Department for double duty was due to the fact that that Department was behindhand 50,000 calls from the Pension Office for information. The matter was explained in a letter from the Secretary of War to the Senate. Mr. Cullom said: "But it was a manifest injustice to call upon clerks in one or two bureaus to work without extra pay for extra hours, and he desired action to provide that clerks in one bureau should not be required to perform more arduous labors than those in other bureaus."

THE passage of the bill organizing a Hospital Stewards Corps of the Army may be looked for during the remaining few days of the session. It was reported unanimously by the Senate Committee in the same shape as it came from the House, and there is not likely to be any opposition, to speak of, in the Senate when it comes up. It will be reached during one of the morning hours when House bills are taken up for consideration.

A CORRESPONDENT writes: "I note Senator Manderson favors the appropriation by Congress of $1,500 to be expended in medals and prizes at the National Drill at Washington in May. I wish half of it might be awarded for execution with the piece, rather than the mere display *of* it and drill with it."

"EXCELSIOR," writing from Fort Lewis, Col., expresses a hope that some one at the post will start a movement for a Post Canteen, and follow in the steps of Colonels Morrow and Royall. What a boon, says he, such an establishment would be to Fort Lewis.

COMMODORE WILLIAM T. TRUXTUN, U. S. Navy, retired, died suddenly at Norfolk, Va., Feb. 25. He was born in Pennsylvania, March 11, 1824, and was appointed to the Navy from that State in 1841. He entered the Naval School in 1846 and was promoted Passed Midshipmen, Aug. 10, 1847. During the war he commanded the sloop *Dale*, the gunboats *Chocura* and *Tacony*, participated in the capture of Plymouth, N. C., in two attacks at Fort Fisher, and in various attacks along the coast of North Carolina. He was commissioned Commodore, March 10, 1882, and was retired for age, March 11, 1886.

COMMODORE L. A. KIMBERLY, U. S. A., has received his preparatory orders to command the Pacific Squadron.

THE case of P. A. Paymaster L. A. Yorke has been settled by his dismissal from the Navy.

LIEUTENANT COMMANDER R. E. IMPEY, U. S. N., registered at Asineres, Paris, France, on Thursday.

COMMANDER C. M. SCHOOMAKER, U. S. N., registered at the Everett House, New York, on Thursday.

GENERAL SHERMAN and Miss Sherman attended a dinner given in their honor, on Friday evening, by Dr. and Mrs. Hammond.

MR. GOODALE, who died at Bangor, Feb. 22, will be remembered by many, as the guest of his son, Capt. G. A. Goodale, 23d Infantry, at several posts in the Dept. of the Mo., in the years from '78 to '83.

GEN. JOHN G. PARKE, Corps of Engineers, made a brief visit to New York during the past week.

LORD WOLSELEY'S article on General Lee in *Macmillan's Magazine* for March is, from beginning, an unmeasured panegyric on the man whom Lord Wolseley calls the greatest soldier of his age and the most perfect man he ever met. Antietam is described as a rebel victory; Gettysburg a drawn battle; and General Sherman's march as splendid but almost unopposed. The proportion of Federals to Confederates in each action throughout the war, he says, was two or three to one, and General Lee's ultimate failure was due to his mistaken obedience to "President" Davis, he was too soft-hearted and too subservient to the civil authorities; whereas he ought to have made himself a dictator.

GENERAL JOHN M. PALMER, ex-Governor of Illinois, in his eulogy over Gen. Logan, at the State Capitol, Feb. 22, revived the incident of the superseding of Logan in the command of the Army of the Tennessee, by Gen. Sherman, after the capture of Atlanta, and in speaking of it Gen. Palmer severely criticized Gen. Sherman. He said: "It is probable that this mistake of Gen. Sherman resulted from the often observed fact that men educated at West Point, who have attempted the pursuits of civil life and have failed, are apt in war to overestimate the value of special military training. They are unable to imagine a versatility of capacity which makes it possible for some men, without the formal training of the school, to succeed by force of qualities which adapt them to military command."

ONE of the prettiest weddings that have taken place in Army circles for some time, was that of Lieutenant Philip A. Bettens, of the Cavalry and Miss Louise Laramie Dewees, only child of the late Major Thomas B. Dewees, 9th Cavalry, U. S. A., which took place Feb. 22, at Sunnyside, the home of the bride's grandmother, near Hagerstown, Md. Owing to the deep mourning of her family, only the immediate relatives of the bride and the neighbors from the College of St. James, near by, were present. The ceremony was performed by Rev. Henry E. Edwards, Pastor of St. Mark's Episcopal Church, who married Miss Dewees's parents. The bride was given away by her uncle, Hon. Richard Randolph McMahon, Deputy Second Comptroller of the Treasury. Lieutenant Bettens, and his best man, Lieutenant John D. Barrette, of the 3d Artillery, wore full dress uniform. The young couple left for a tour to New York, West Point, Philadelphia and Washington.

The last quarterly issue of "The U. S. Military List" contains a portrait of Brevet Major-General Wesley Merritt, Colonel of the 5th U. S. Cavalry and Superintendent of the U. S. Military Academy. The portrait is accompanied by a short biographical sketch and record of Gen. Merritt's military services. This publication will be found of much interest by officers of the National Guard as well as those connected with the Regular Army. Its contents show skill and care in their arrangement, and the printing is unusually good.

Mr. Joel Chandler Harris's "Aunt Fountain's Prisoner," in the March *Scribner's*, is the story of a Union soldier who, being wounded and cared for on a Southern plantation, is drawn into closer relations with its owners, and allying his interests with theirs, by his energy and ability transforms the old place into a profitable estate, has a peculiar interest as portraying one phase of the "New South."

Mr. Charles F. Benjamin, who was formerly a clerk in the War Department, under Edwin M. Stanton, will contribute to the March *Century* his personal recollections of the Secretary, with much anecdote setting forth his characteristics, his relations with Lincoln and others, etc., etc. A frontispiece portrait of Stanton will be given.

In "The Coinage of the Greeks," Mr. W. J. Stillman, the art critic, contrasts the highly artistic sculpturing of the Greek coins with the wretched art of our own—a topic which is also treated editorially in the same number of the *Century*. The article is one of the most profusely illustrated papers ever appearing in the *Century*.

AS RETICENT AS CAPT. BILL SWASEY.

To the Editor of the Army and Navy Journal:

YOUR correspondent "U. M.'s" opinion that our ancient friend, John C. Cremony, was more "reticent than verbose" will make the old California Volunteers, who knew him well, smile. Cremony had an eventful career. Born in Portland, Me., of Cuban parents, he was essentially a cosmopolitan. According to his own account he went to California as interpreter to the Boundary Commission which established this line between Mexico and California, and arrived at San Francisco in "'49 or the spring of '50." For many years he was connected with the press of San Francisco as reporter and editor. If my recollection serves me he was connected with the San Francisco *Herald* in its palmy days under John Nugent.

Cremony raised Co. B, of the 2d Cal. Cavalry, (not the 1st,) which regiment was organized at "Camp Alert" on Geo. Treat's old race track on the old San Jose road beyond Mission Dolores. A. J. Smith was the original Colonel, and afterwards became famous as Major-General in Banks's Red River Campaign and in Sherman's Army. Cremony's company was the only one of the 2d Cav. that went out to the Rio Grande with the California "Column" under Col. J. H. Carleton. He came back to the Presidio of San Francisco in the fall of '64, and was promoted shortly after Major of the Battalion of National Cal. Art. Several of the old officers of the old regiment are still living who can vouch for the "Lion Story," among them Capt. Ropes, 8th Cav., and Moses McLoughlin. That first Luff's name was Decourtes by the way. Cremony told a remarkable "frigid" story which I have never seen in print. During the "late unpleasantness" the late Col. Wallen was Inspector General of the District of Mexico. Meeting Cremony one morning in the streets of Santa Fe he remarked:

"This is a cold morning, Capt. Cremony."

"Cold," said Cremony, "if you call this cold you should been with me on my scout in the Raton Mountains after the Navajoes. You know how I make my coffee, Major Wallen, by pouring boiling water on the coffee in a conical bag. Well, sir, yesterday morning it was so cold that when I poured the boiling water through the bag the coffee was an icicle when it struck the tin cup below."

When dear old "Blinkey" Smith was organizing the 2d California Cavalry, as aforesaid, Cremony was one day narrating his adventures by field and flood (mostly by flood, for Captain C. was of a droughty nature) some one held a pencil on him, and at the conclusion of his period of reticence exclaimed: "Why, Cremony, you are 137 years old, and here are the figures," but Cremony replied: "I don't care a blank blank for your figures, I was there all the same." If Cremony was a reticent man why then Capt. Bill Swasey was as dumb as an oyster. A. M.

LOSSES BY DISBURSING OFFICERS.

To the Editor of the Army and Navy Journal:

IN your article on the first page of your issue of this date, in commenting on the bill lately passed by Congress for the relief of Major Geo. W. Candee by allowing him to bring suit in the Court of Claims for money stolen from him, you say: "Why would it not be well to make this principle of general application and pass a law authorizing the Court of Claims to relieve from responsibility any officer of the Army or Navy who can show that he has suffered the loss of public money without neglect on his part." The fact is that there is such a general law, although its existence appears not to be very well known. By the act of May 9, 1866, Revised Statutes, U. S., p. 196, sections 1059–1062, it is provided that:

Whenever the Court of Claims ascertains the facts of any loss by any paymasters, commissary of subsistence, or other disbursing officers, in the cases hereinbefore provided, to have been without fault or negligence on the part of such officer, it shall make a decree setting forth the amount thereof, and upon such decree the proper accounting officers of the Treasury shall allow to such officer the amount so decreed as a credit in the settlement of his accounts.

I have been the counsel and attorney before the Court of Claims in most of the cases for relief under this law. See John Scott v. The United States, 18th Court of Claims Reports, p. 1; J. A. Broadhead v. The United States, 19th Court of Claims Reports, p. 125; Geo. S. Hoyle v. The United States, 21st Court of Claims Reports, p. 300.

I am the attorney of Major Candee also. The difficulty in Major Candee's case, which made it necessary to get this act passed to permit him to bring suit, was, that immediately on being robbed he made good the loss from his private funds, and thus deprived himself of his right to bring suit, as was decided by the Supreme Court of the U. S. in the case of Smith, on appeal from the Court of Claims.

ALLAN RUTHERFORD.

WASHINGTON, D. C., Feb. 19, 1887.

HORSES FOR THE ARMY.

A ST. LOUIS correspondent writes: Col. C. W. Foster, U. S. A., Chief Quartermaster here, opened bids, Feb. 17, to furnish the Government with 840 head of cavalry and artillery horses. Proposals were opened simultaneously at Louisville, Ky., and notwithstanding the great amount of talk about the scarcity of cavalry horses, and higher prices resulting from the European demand, Uncle Sam will be able to secure all the animals he wants for the next 12 months at an average of nearly $10 a head less than was paid last year, and Kentucky will get the contract to supply the Government with the 62 artillery horses and 278 head for the cavalry service, while the remaining 500 head of cavalry horses are to be supplied by St. Louis.

Last year Kentucky failed to procure a single contract, notwithstanding the breeders of that State were very anxious to get their horses into Government service, as they claim the better breeding of the animals should commend them for this particular class of work. Col. Foster, however, expresses the belief that it is very doubtful whether these fine blooded animals are best to endure the fatigue and rough usage incidental to cavalry service. The best horse ever purchased for this work, he says, was purchased by him in Southern California, a production from a cross of the thoroughbred and mustang.

THE STATE TROOPS.

ARMORIES FOR THE NATIONAL GUARD.

MR. JOHN B. MEYENBORG, counsel to the Brooklyn, N. Y., Board of Supervisors, objects to the multiplication of armories for the National Guard of that city, saying: "There are to day six armories of the National Guard in Kings County, including that of the Gatling Battery. I hold that between the amount of taxation lost to the city of Brooklyn through the occupancy of buildings, the interest on the amount of money invested in the purchase of the property by the county, and the expense of running the armories every year, it costs the taxpayers annually not less than $100.000 per annum for the armories alone. I hold that the present system of dividing up the militia commands in separate armories is both extravagant, unnecessary and mistaken, so far as effective results are concerned. If that system were pursued with local military organizations in Berlin or Paris to-day it would require a large fraction of the real estate of these cities to house them. In other words, of the 2,300 national guardsmen upon whom the city of Brooklyn would have to rely in case of a great riot, it would take over 1,000 men to guard the six armories. The new armory of the 14th Regiment is large enough to comfortably accommodate all the National Guard organizations of Kings County to-day, and by thus centralizing the force the whole of it, but the 200 necessary to protect the building from the mob, could be utilized to suppress a riot."

REVIEW OF THE SEVENTH NEW YORK BY GOV. HILL.

THE review by the Governor of New York on Wednesday, Feb. 23, gave the 7th the first opportunity to show themselves in full dress and all their glory since the parade last fall. As the regiment never undertakes anything that is not carried out to the full extent of its resources, the parade was simply gorgeous. No matter how often witnessed, a review here always presents new interest, and the spectator never tires of the view. The drill hall, although the largest in the country, is gradually becoming too small to hold the organization, which is now comparatively as much hampered for lack of manœuvring space at a regimental turnout as other regiments with smaller armories. Many men could therefore find no spaces in the ranks, which accounts for the large number of soldiers in the building with their military occupation temporarily gone. As it was, the battalion formed nearly a complete square, the flanks on the east and west sides having no room to properly open ranks. Col. Emmons Clark, who only very recently recovered from a quite severe illness, had command. Dress parade was held with unequalized fronts. Co. B, which since the resignation of Capt. Casey has fallen heir to the colors, and G, which now holds the left of the line, were out in their new positions for the first time. The other changes in positions of companies were less conspicuous, and with the two exceptions noted the regiment presented the same immense, steadfast, and imposing front for which it is celebrated in every portion of the country, and which it is the desire of the State soldiery from Maine to California to imitate. The manual was very good; indeed the dress parade could not have been executed more successfully. Its only inharmonious feature was the music, not on account of any defect in the band, but due to the faulty acoustics of the building, so that the music sounded as if bands in all four corners and in the galleries were playing at the same time. This destroyed all its effect and became a source of difficulty, particularly when the regiment afterwards was marching. Apropos of the band, a little drill to teach several of the members to preserve a soldierly attitude while on parade could be applied with good effect. Several of the minor musicians took privileges in this respect which Oappa himself never thinks of assuming. A new uniform for the band also seems appropriate, the present one having lost all its bright appearance and the facings being considerably soiled.

To prepare the battalion for review took some time because the company fronts were not equalized. A new formation was, however, not deemed necessary by Adjt. Rand, who accomplished his purpose by simply ordering the necessary number of men to fall out from each company, which left an equalization of 10 of 32 files, and when the intervals created had been closed and the command aligned, the Governor, accompanied by a dozen of his staff, prominent among whom were Adjt.-Gen. Josiah Porter, Surg.-Gen. Jos. D. Bryant, Insp.-Gen. Emil Schaefer, Chief of Artillery Daniel D. Wylie, and Chief of Ordnance Joshua M. Varian, and Inspector of Rifle Practice Charles F. Robbins, took his position. They formed a detachment of considerable size and in their gold and bullion might have been taken for the band just as they were by the keeper of the grand stand at the Newburgh celebration a few years ago. Having been on a continual reviewing trip since the beginning of the week they apparently relished the long walk along the front of the regiment and return no better than the men did the strain of the carry arms. The latter, however, seemed the least fatigued when the distinguished party resumed its post. Of course the battalion was then massed, as usual, on 5th company, and having taken wheeling distance they swept by in a grand succession of ten immense lines, moving under one impulse, and straight, as if every individual was linked to his neighbor. The wavering step, more or less conspicuous in every subdivision in the beginning of the march was due to the defect in the music already mentioned, but was overcome in all instances before the review point was reached, and when the band had wheeled out and taken its position in the centre the discord disappeared sufficiently to allow the left wing companies to accomplish the entire distance with a firm, solid step. The review ended the complimentary part of the ceremonies of the evening, to make room for the presentation of marksman's badges by Brig.-Gen. Chas. F. Robbins. This is by no means an interesting nor entertaining performance, but it has to be done and the presence of the Commander-in-Chief, although he had no active part to perform, certainly gave it additional effect. As it was, the presentation was completed in the least circumlocutionary manner possible. Line after line of marksmen, commencing with those whose first qualification dates back 12 years and who have won the decoration every year since, formed in succession from front to rear in advance of the battalion, and when the one year marksmen had taken position the original battalion front was marked by isolated groups of men scattered here and there, consisting mainly of those who have but recently been transferred from the recruit squad to the body of the regiment. 640 marksmen out of a total of 1,009. These facts speak more eloquently for the standard of marksmanship reached by the regiment than the longest peroration, and we let them tell their own tale. Gen. Robbins made no speech, and with the help of an experienced corps of assistants who have often officiated on previous occasions, every man had his decoration pinned on and resumed his place in ranks in a remarkably brief time. The regimental team then stepped to the front to receive their decoration and then Co. B, Capt. Henry S. Steele, marched to the front to receive the State bronze trophy for having made the second highest percentage in marksmanship during the season of 1886, which ended all ceremonies with regard to rifle shooting.

The command then re-formed for battalion drill, consisting of a dozen or so manœuvres, all executed from the right, and certainly not requiring any severe exercise of vigilance and skill on the part of the company commanders, but what they lacked in intricacy was made up by elegance of execution. In a working drill they would have made no feature worth mentioning, but here they served admirably to show off the regiment's precision in marching in line, forming single and double rank, and their execution drew from the non-military portion of the spectators tumultuous applause. They consisted of formation of close columns of divisions and of companies on the right, breaking into fours, forming single rank in column of divisions, and marching in division front in single rank. The regiment during the last-mentioned movement, and while massed, presented an exceedingly regular, compact appearance. In column of fours, however, the step was slow and mincing, the slope of the muskets not always regular and the set-up of the men in a number of cases defective. Taking the performance as a whole, however, it was a handsome military spectacle.

Colonel Clark entertained the Governor and his party at his residence after the performance at the armory.

REVIEW OF TWENTY-THIRD N. Y. BY GOV. HILL.

GOVERNOR HILL reviewed the 23d at the armory on Monday evening, Feb. 21. The regiment, which turned out en masse, looked positively gorgeous in the new uniform. As a dress affair the new uniform is certainly a success. The accoutrements were nicely and trimly adjusted, and in connection with the well-known steadiness of the organization, the line presented a solid, soldierly appearance. Col. Charles L. Fincke had command, and for the review, which opened the ceremonies, the command formed with 10 companies of 16 files, in a rapid, precise manner. While the formation was in progress the Governor, with his full staff, entered and took position. Every man in line tried to do his best, and the bearing of every individual gave evidence of careful training in the school of the company. The present was one simultaneous ring of 350 muskets, handled with skill and precision; at the carry 350 hands dropped like a flash. The most fastidious critic of the manual could find no fault. The march past was well done, but had to be cut short before the column could fairly develop itself. The hall is small, but its size was still further reduced by the immense mass of spectators, for whom room could not be found on the galleries, but who had to be accommodated in the best possible manner. The review was as complete a success as could be had under the circumstances, and those of the Governor's party who understand the matter were extremely well pleased.

The review over, the companies broke ranks to form for dress parade, as is customary on such occasions. As many men as possible were crowded into the ranks until both flanks nearly met and the band scarcely had room to troop the line. A large number, however, could not be so accommodated. The parade afforded a striking spectacle of military precision; the manual was regular, snappy and prompt, and the entire performance can take rank with the best affairs of its kind given by the Twenty-third.

Nearly every military man of note in the 2d Brigade, many from New York City and a large number of Regular officers from the forts in the harbor and from the navy-yard were present. The regiment had evidently made its preparations with great care, and no detail which could contribute to its brilliancy had been overlooked.

The entertainments of the Twenty-third are so brilliant, and guests are so well taken care of, that any affair of this kind draws to the armory a large number of swallow-tailed young dudes, who, while the soldiers are at work, manage to monopolize the handsomest and most desirable ladies, and the best positions at the ball which follows. Young men who are so fond of the military that they never neglect an opportunity to show their martial ardor by their presence at every first-class, but comparatively inexpensive, entertainment provided by their soldier friends should be taught that the only proper way to show their appreciation is to don the uniform and shoulder the musket. By giving the ladies a few hints in this matter, the Twenty-third can establish a recruiting party which will excel in efficiency the most gorgeous recruiting trophies ever offered, and soon swell the organization to the desired standard of ten companies of 103 members each.

THE ABEEL TROPHY CONTEST.

THE 20th competition for the "Abeel" Trophy, was shot in the 7th Regiment Armory range on Thursday evening, Feb. 17, and was won by the second company (B), for the eleventh time, on a score of 614. (previous record, 606, made by Co. B, Jan. 13, 1886.) The following is the score:

Co. B.	200 Yds.								500 Yds.								Tot.
Corpl. C. P. Gately..	5	4	5	4	5	4	5	—32	5	5	5	5	5	4	5	—34	—66
Lieut. D. A. Nesbitt.	5	4	5	5	5	5	3	—32	5	4	5	5	5	5	4	—33	—65
Corpl. B. W. Anderson.	5	4	4	4	4	4	5	—30	5	5	5	5	5	4	5	—34	—64
Pvt. G. W. Happy	5	4	4	4	4	4	5	—30	5	5	5	5	5	4	5	—34	—64
Corpl. G. H. Crawford.	5	4	3	5	5	4	4	—30	5	5	5	5	4	5	4	—33	—63
Sgt. S. W. Merritt	4	4	4	5	4	4	4	—29	5	5	5	5	5	4	5	—34	—63
Pvt. A. E. Hoyt	5	4	5	4	4	4	5	—31	5	5	4	3	5	4	5	—31	—62
Corpl. J. A. Jenkins	4	4	4	4	4	5	4	—29	4	4	5	4	5	4	4	—30	—59
Sgt. D. Valentine, Jr.	4	4	4	4	4	3	4	—27	4	4	4	5	4	5	5	—31	—58
Corpl. J. V. Black	3	4	4	3	4	4	4	—26	3	4	4	3	3	4	3	—24	—50
								296								318	614

The second and final competition for the "Teams of Five" match for this season was shot in the 7th Regiment Armory range on Saturday, 19, and was won by the second company also, on a score of 319, (previous record, 317, made by Co. B, Feb. 20, 1886.) I enclose the score in this match.

	200 Yds.								500 Yds.								Tot.
Lieut. D. A. Nesbitt.	5	4	5	4	5	5	5	—33	4	5	4	5	5	5	5	—33	—66
Corpl. B. W. Anderson.	4	5	5	4	4	4	4	—30	5	5	5	5	5	5	5	—35	—65
Pvt. G. W. Happy	3	5	4	4	4	5	5	—30	5	5	5	5	5	5	5	—35	—65
Corpl. C. P. Gately	4	3	4	5	3	5	4	—28	5	5	4	5	5	5	5	—34	—62
Sergt. S. W. Merritt.	5	5	4	4	4	4	4	—30	5	4	3	5	5	5	4	—31	—61
								151								168	319

The match was won by Co. K on a score of 619, with Co. F second 617, and Co. B third 613.

Twelfth New York.—Col. J. H. Jones.

COMPANIES B, I, and E on Friday evening, Feb. 18, showed that the rapid progress of the 12th is no illusion. The previous performance of this battalion was rather indifferent; the present drill, in point of general excellence, was above anything held during the season, although some very good drills have taken place here. The company commanders gave proof of careful study, and the general work of the men showed that the previous lessons had fallen on fruitful, appreciative soil. Considering the small space for manœuvring, the constant changes of direction, the prompt, rapid, and intelligent manner in which the evolutions were executed is worthy of special commendation. It should be stated here, however, that many movements would have produced much better effect if more attention had been paid to correct distances between fours and the dress of the men. Both these were decidedly defective, and their correction should be attended to in the school of the company before another battalion drill takes place. The fault was very conspicuous, and was noticed by officers of the regiment not engaged in the drill. The 12th has now reached a stage where particular attention to such details can and should be given without detriment to the other points.

Lieut.-Col. Dowd began the drill with the manual, which was well done, but we would recommend that captains look more particularly after individual execution. Many men spread their fingers, are irregular in the motions, the positions of the forearms, etc., are careless. We should suggest that the 12th follow the example of the 71st and wear white gloves at drill. It improves the soldierly appearance of the whole, is military, enables a better execution of the manual, and saves the muskets from rusting, due to handling with bare hands. With two Regular Army officers at the head of the organization, it is strange that this matter has never received any attention. After a brisk spin around the room, the column of fours, when a partial change of direction had been made, formed line by the command fours left rear companies left front into line. This was well done, and followed by formation of companies to the rear and a march in company fronts at full distance, with handsome alignment and distances, particularly in the first and fourth companies. Companies fours right and companies left front into line brought the command into battalion front, from which close column on fourth company left in front was executed, and followed by a change of direction by the right flank. In this movement the captain of Co. B, on this occasion the rear company, executed a rectangular instead of an oblique movement in taking his new position. This was wrong according to par. 495 of the Tactics.

During the deployment on first company the left guide of the second company took and kept his position in line, and he should be instructed that this was wrong and that his place is in the line of file closers. The battalion was then ployed same as before and brought into column of fours, again ployed on first company and deployed on fourth, with decided loss of distance by the 2d company. After several repetitions the battalion went into double column in good style, deployed by two movements, formed close column on first company, deployed, broke into fours, and came on right into line without halt or break. A number of men, however, appeared at this point somewhat excited on account of the rapidity of the commands and during the firings executed the aim at the command ready.

It took some time before they steadied down to a regular execution of the firings. A wheel into column of companies and a march around the hall was followed by the command Left into line, wheel, during which the 2d sergeant of Co. B kept his position in line. A march in column of fours, which followed, was characterized by bad distances and bad dress without any effort by the file closers to make correction. In referring to the file closers we include the officers as well as the sergeants and call the attention of the former to the fact that it is their duty, as well as that of the sergeants to attend to all errors of this kind.

The wheel into line by fours which followed was good, and the double column of fours excellent, with great improvements in the distances and dress, the Colonel having taken command at this juncture. He promptly called attention to several small defects which the officer in command of the drill could not notice, but which were plain to the spectator, and a decided improvement in the general appearance of the drill followed at once. The double column of fours movements and deployments being satisfactory he resumed the double column of companies with the different deployments, which were all executed with a high degree of perfection and need no detailed mention. The remaining movements consisted of breaking from the right and left by fours and by companies, closing in mass, taking wheeling distance, formations on right and left into line by companies, and they were all rapidly and carefully performed, thus bringing to a satisfactory close a very comprehensive and ably handled series of movements. With the exception of changes of front, single rank distance formations, and formations of divisions by oblique movements about the entire school of the battalion was gone through with. The commands were very rapid, without regard to the position of the colors or whether the right or left was in front, which demanded constant close attention on the part of all engaged and rapid judgment on the part of the company commanders. The drill was very instructive.

Seventy-first New York.—Col. E. A. McAlpin.

LIEUT.-COL. A. D. PALMER, whose resignation was accepted at Albany on Saturday, Feb. 19, commanded at his last battalion drill on Friday evening, Feb. 18. As on the occasion before, when the major was in command, the adjutant, as soon as the battalion had been formed left the hall and was seen no more. The formation was not a happy one. Instead of equalizing beforehand, the companies formed in their original shape and on being divided, the one on the right had 16 files while the three others had only 12. The division further brought the tallest men in the left wing from the left of the third to the right of the fourth company, and this the commander rectified by changing a set of fours from one flank to the other, all of which caused an unnecessary waste of time.

The instructor began with a double column of fours, but before the column had made company distance to the front the opposite wall was reached, which necessitated the command mark time, and, in order to come in line with one of the archways to pass into the next room, the command, side step to the left, was given, which was an improper movement, as stated in a report of a previous drill here under the same officer.

The battalion did not present a very regular appearance after it had been put again in motion. Officers and men were both confused, and the fours marched raggedly and without regularity. This was quite natural under the circumstances, as well as the fact that the deployment by two movements did turn out a failure. The same evolutions were attempted several times without success. Various ployments on and to the right into close column of companies with corresponding deployments were attempted with equal lack of success. During one of the deployments three companies in some mysterious way became inverted, and the instructor assumed the responsibility by acknowledging that it was his fault. He then repeated the movement and had the satisfaction of seeing it performed with something like correctness. These were about the kind of evolutions which comprised the drill, and with their various repetitions the time passed away. There appeared to be a general lack of interest on the part of all concerned, and everybody seemed relieved when the hour for dismissal had arrived. The general guides showed some improvement since last drill. The commander at the close expressed his satisfaction at the bearing of the battalion, and was greeted with a vigorous rattle of musket butts when he had finished. We believe that the 71st is the only organization where this impropriety is permitted.

From drills like this one and others noticed by us in this armory it is impossible to derive instruction or satisfaction. They are apt to disgust officers and men with their work, and for this reason it would be best for this regiment to discontinue battalion drills until a proper place to hold them can be procured. Time and energy can be much more profitably expended by introducing a strict system of company drills with minute supervision by a competent officer. Bring up the men to a proper state of military knowledge, and post them thoroughly in the school of the company, establish schools for sergeants and guides, and keep the officers theoretically posted in school of the battalion. Under such a system at the proper time and place battalion drills could be had from which the regiment would derive profit, which is impossible under circumstances as at present existing.

An election for a lieutenant colonel has been ordered for Saturday, Feb. 26. Major Fred. Kopper will be the unanimous choice.

MILITIA ITEMS.

A Delinquency Court for the trial of the enlisted men of the regiment, will convene at the armory of the 22d, N. Y., Monday, March 7, at 7.30 P. M. Detail: Major George A. Miller. The regiment will assemble in fatigue uniform, for battalion drill, as follows: Cos. C, E, F, G and H, Wednesday, March 2, 9, and 16 proximo; Cos. A, B, D, I and K, Friday, March 4, 11, and 18, at 8 o'clock P. M.

Co. F, 14th, Brooklyn, Capt. W. V. Peacon, assembled at Prospect Park Feb. 22, for out-door skirmish drill with blank cartridges, and held a reunion of active and ex-members at Saengerbund Hall in the afternoon.

The First Hussars, a recently organized company of infantry, uniformed in gorgeous fac-simile of the 10th Hussars of England, the Prince of Wales's Own, are to apply for admission to the Guard. Sixteen of the Hussars, mounted on thoroughbreds, took part in a drill, under the command of Capt. Thos. Manning and Lieuts. Balch and Green last week.

Cos. D and I, 47th Regt., accepted an invitation to visit Co. C, 2d Regt., N. G., S. N. J., last Wednesday night. They assembled in full force at the armory, but having failed to secure a permit to leave the State in uniform they were not permitted to go.

1st Sergt. E. J. Kraft has been nominated for the 2d lieutenancy of Co. D, 23d Regt. Three prizes of $50, $30 and $20 have been offered by this company to the members securing the most recruits by May 1 of next year. The events for the spring games of Co. A are open until March 25, with A. H. Muller, Co. A, 23d Regt.

On Feb. 10 Gen. Louis Fitzgerald with his staff made an inspection of the 1st Battery, N. Y., Capt. L. Wendell. After a dismounted battery drill, standing gun drill and mechanical manœuvres, the General addressed the officers and members of the battery, saying that he was not only satisfied with what he saw, but that he was indeed surprised with the efficiency of the drills and the appearance of the battery, and expressed his opinion that the battery was equal to a Regular battery, and that he could say this with the greatest satisfaction, as he was positive that his visit was entirely unexpected.

It is the intention of the newly-organized Association of Surgeons, 2d Brigade, to provide a good hospital outfit for each command. Maj. Fowler, brigade surgeon, has appointed the following committees: Edwin A. Lewis, member of Executive Committee; Charles E. De la Vergne and Wm. E. Spencer, Committee on Organization and Instruction of Medical Corps; John F. Valentine and F. LeRoy Tetamore, Committee on Hospital Organization and Supplies. The first named member of each committee is a member of the Executive Committee, of which Maj. Fowler is ex-officio chairman. F. G. Winter is the secretary of the association.

The last quarterly return of the 1st Brigade are announced as follows: General and staff, 17; 7th Regt., 1,010; 69th Regt., 921; 12th Regt., 682; 22d Regt., 582; 9th Regt., 556; 71st Regt., 536; 11th Regt., 468; 8th Regt., 465; 1st Battery, 96; 2d Battery, 90; total, 5,419. The returns of the 2d Brigade are: General and staff, 12; 23d Regt., 699; 13th Regt., 606; 14th Regt., 560; 47th Regt., 458; 32d Regt., 438; 3d Battery, 65; 17th Sep. Co., 56; total, 2,894.

Cos. A and D, 32d N. Y., engaged in a rifle match on Feb. 18—12 men on a side. The match was won by Co. D—431 to 417 points.

Co. K, 13th N. Y., will hold athletic games at their armory on Wednesday evening, April 13. Gold medals to first and silver to second and third in each event. Programme will be duly announced.

Col. H. W. Michell, President of the N. Y. S. N. G. Association, has appointed as a committee to urge legislative action toward procuring a new arm: Gen. Charles F. Robbins, G. I. R. P.; Gen. Amasa J. Parker, 3d Brigade; Col. Emmons Clark, 7th Regiment; Major S. H. Olin, J.-A., 1st Brigade; Capt. Charles A. Hess, I. R. P., 71st Regiment.

CALIFORNIA NATIONAL GUARD.

THE reappointment of Gen. W. H. Dimond as commander of the 2d Brigade seems to give general satisfaction. The *Ata* says: "The appointment of Gen. Dimond is regarded by all as a just recognition of that popular officer's faithful discharge of his duties for so many years, during which time he has not only given cheerfully of his time and means to promote the efficiency of his command, but by a just and conservative course toward all under him he has gained the warm personal friendship of all with whom his official duties have brought him in contact. Governor Bartlett has made a most excellent selection of officers to comprise his staff. Col. G. G. Tyrrell of Sacramento as Surgeon-General, Col. A. A. Andrews of San Francisco as Paymaster-General, and Lieut.-Col. Harry W. Carroll of Sacramento as Aide-de-Camp, are reappointments, and their fidelity to duty is well known to all in the service. The new appointments are as follows: George E. Raum, Chief Engineer; C. L. Ackerman, Judge-Advocate-General, and Herman Bendel, Inspector of Rifle Practice, all with the full rank of Colonel; W. W. Lyman, James D. Phelan, Daniel L. Rudolph, John Q. Brown, Jr., Chas. F. Hanlon, and W. J. Younger as Aides-de-Camp, with rank of Lieutenant-Colonel. Major James W. B. Montgomery of Chico has been appointed to the command of the 5th Brigade, with rank of Brigadier-General, to succeed Gen. Cadwalader, and J. W. Freese of Eureka has been appointed to the command of the 6th Brigade, with rank of Brigadier-General, to succeed Gen. John G. Wall."

STATE OF CONNECTICUT.

CHANGES as follows in the commissioned officers of the Connecticut National Guard have occurred since Jan. 17, 1887: Capt. Alexander Allen, appointed Brigade Inspector, with rank of Major.

1st Regt.—2d Lieut. George B. Newton, appointed Captain Co. F; 1st Sergt. Louis B. Hubbard, appointed 2d Lieutenant Co. F.

2d Regt.—Major John B. Doherty, appointed Lieutenant-Colonel; Capt. Frank T. Lee, Co. F, appointed Major; 2d Lieut. Charles C. Ford, appointed 1st Lieutenant Co. F; 1st Sergt. Harvey S. Munson, appointed 2d Lieutenant Co. F.

3d Regt.—1st Sergt. William E. Pendleton, Co. D, appointed Quartermaster, with rank of 1st Lieutenant; Commissary-Sergt. George M. Cole, appointed Paymaster, with rank of 1st Lieutenant; James Moran, appointed Captain Co. A; Pvt. John F. Murray, appointed 1st Lieutenant Co. A, and Pvt. Edward R. May, 2d Lieutenant Co. A; Sergt. Fred. A. Fox, appointed 2d Lieutenant Co. C.

5th Battalion.—1st Sergt Charles E. Fuller, appointed 2d Lieutenant Co. A.

NEW HAMPSHIRE.

IN G. O. 2 it is directed that Brig.-Gen. Albert Wheeler, Inspector-General, make the annual armory inspection of the New Hampshire National Guard. Major Frank W. Russell, Asst. Inspector-General, is detailed as assistant to the Inspector-General.

PENNSYLVANIA NATIONAL GUARD.

THE new code prepared by the Board of Officers, convened for that purpose a short time ago, has been presented to the Pennsylvania Legislature and is now known as House bill No. 85. Some of the provisions of this bill are quite radical in their change from the existing laws, for instance: The troops are to encamp annually for a period of *fourteen days*. Another section provides that assistant surgeons after five years' service shall rank as captains, while adjutants and quartermasters whose positions are extremely onerous are still to rank as 1st lieutenants.

(Correspondence of the Army and Navy Journal.)

OHIO NATIONAL GUARD.

THE fourth annual convention of the National Guard Association of Ohio assembled in the armory of the 14th Infantry at Columbus, O., Feb. 15. Adjt. Gen. Axline presided, and extended congratulations to the officers present (at least 160 in number) at the interest shown by them and the desire to improve the force. The report of Treasurer Maj. A. B. Coit showed that the finances are well cared for. The report of the Committee on Legislation, submitted a report through Lieut. Col. Shellenberger, 3d Inf., was unanimously adopted; the recommendation presented urged united support in favor of Senator Cobb's bill for fixing the limit at 100 companies of infantry.

The election of officers resulted as follows: President, Gen. H. A. Axline; 1st vice-president, Lieut. Col. James E. Shellenberger, 3d Inf.; 2d vice-president, Col. Louis Smithnight, 1st Art.; recording secretary, Lieut. A. C. Caine, Q. M., 1st Art.; corresponding secretary, Lieut. Herman Mayer, adjutant, 5th Inf.; treasurer, Maj. A. B. Coit, 14th Inf.; members of Executive Committee, Col. Geo. D. Freeman, 14th Inf., and Col. Edgar J. Pocock, 17th Inf.; chaplain, P. S. Stevin, 16th Inf. At 5 o'clock the convention adjourned to a reception in the offices of the Commander-in-chief. Gov. Foraker was presented and made a brief address, in which he said:

"It was a great gratification to me during the summer in visiting the several encampments to find that we had so good an organization, one in every way so creditable to the men and to the officers, and so worthy of our State. Very recently we were called upon officially to make a report to the National Government concerning the character and the officers of the National Guard of Ohio, and to make some remarks as to its efficiency and as to the extent to which it could be relied upon should this country have any need to call for its services. From the remarks which it was my pleasure to make you will learn that I took an estimate of you which I know you will not be ashamed of—an estimate which I know that the people of Ohio will not be ashamed of, and an estimate which I know was in no sense an exaggeration; for I have seen enough of the Ohio National Guard to know that it is well, organized and made up of earnest sincere men, who are anxious to make it a credit to the State; and if they should be called upon to defend the country against any enemy will do it with valor and with the highest honor to the flag that has already been so highly honored by those who have defended it before."

A banquet was held in the evening at which Col. John C. Entreken, of the 6th Inf., presided. He stated that he was present at the birth of the Ohio National Guard in 1870, when there were but four companies. In 1876 $10,000 was voted for its support. The appropriation now reaches $100,000 annually, and it is the best expenditure the State makes. It was of vast importance that the Ohio National Guard be well cared for, as owing to its central position it was the safeguard of the republic.

Col. Freeman Thorp, in the absence of the Governor, responded for Ohio.

Adjt.-Gen. Axline responded to "The Ohio National Guard." He described its birth, but said it was not fully grown until that gallant Governor sent word to Washington that Ohio had no need of the Regular Army so long as she had an able-bodied man within her borders. The average age of the companies was nine years. The present system of examination of officers made the National Guard of Ohio the peer of any other State organization. The State is beginning to realize that we are an important factor in its police power and an adequate return is made for every dollar expended. It has been made at Cincinnati, at Corning, at Silver Creek, at Coalton and at Ashland. All that was asked was two hours' notice and a train to take the Guard to the place of rendezvous. The names of Hancock and Sherman were cheered again and again, and the Adjt.-General's speech was received with warm applause.

By invitation, ex-Adjt.-Gen. S. B. Smith delivered an address on the necessity of the National Guard and its growth and improvement without legislation. He contrasted the insufficiency of the appropriation of $200,000 when divided among 13 States to the present division of 38. He claimed that a national appropriation of $4,000,000 annually would give a National Guard superior to any standing army the world has ever seen.

Capt. A. H. Young, A. Q. M., U. S. Army, responded for "The Regular Army" in a humorous speech; his declaration that his only hope was that the Regular Army would one day attain the efficiency of the Ohio National Guard, was received with great applause and enthusastic cheering.

In responding to "Encampments," Col. Geo. D. Freeman, of the 14th Regt., dwelt upon the difficulties of campaigning, giving some of the experiences of his regiment in Michigan. He favored the abolition of company and squad drills in camp and asserted that he believed the opinion of individual members was in favor of regimental encampments on a camp-ground provided by the State, with a general encampment every five or six years. He rather favored the inculcation of more army life in the shape of marching, and every suggestion he made was applauded.

Capt. H. C. Jones, of the 6th Regt., responded to "Reciprocal obligations—The State—The Guard."

Lieut. A. P. Blocksom, of the 6th Cav., U. S. A., in responding to "From what you have seen of us, how do you like us?" gave the impressions gathered from his inspection of the troops in the various State encampments last summer.

Col. A. E. Jones, Surgeon, 1st Inf., in the absence of Gen. Moore, responded to loud calls from the tables and selecting for his subject "The Needs of the Medical Department of the National Guard," made an earnest appeal for recognition and support of medical officers in his duties.

The convention resumed its session at the 14th Regiment Armory, at 9 A. M., Feb. 16.

Lieut.-Col. Shellenberger, 3d Inf.; Capt. William G. Smith, 1st Art., and Capt. Edmund B. King, 16th Inf., were elected a legislative committee, and at once retired to prepare a report upon questions presented to them. Lieut.-Col. Shellenberger resigned the position of first vice president of the association on account of his election on the legislative committee, and Col. J. D. Norton, 16th Inf., was elected to the vacancy.

The resolution of Asst. Surg. A. H. Vance, Bat. E, 1st Art., in which it was declared that the convention urge that recruits be subjected to rigid physical examination before enlistment, was adopted.

Lieut.-Col. Keyes, 16th Inf., moved, as the sense of the convention, that regimental and battery encampments are preferable to encampments by brigade, Lieut.-Col. Thorp, 5th Inf., amended by saying, the commander-in-chief is requested, if he shall deem it for the best interests of the force, to order encampments by regiment. This resolution was adopted.

Capt. Rodgers, 16th Inf., and Lieut.-Cols. Thorp and Shellenberger were ordered to submit plans or instruction for movement of troops in streets and street firing.

Capts. Hopkins and Kennon and Lieut. Elwell were requested to submit tactics for Gatling gun batteries.

Gen. Axline outlined plans for the coming year, and said, 1st, an order would soon be issued prohibiting enlistments at least thirty days before going into camp. 2d, A new Code of Regulations would be prepared and published that would excel any book of regulations now in use. The Board would begin their labors soon, and he hoped to have the book in their hands in a few weeks.

The Legislative Committee presented a report. The recommendations adopted were as follows: 1. That the laws be amended so as to allow the enlistment of contributing members of any age above 21. (Judges of courts require that enlistments be counted to the age for military service.) 2. The amendment of the militia laws so as to allow the collection of fines from officers and the arrest and confinement of enlisted men for disobedience of orders or absence from the

duty required by law. 3. That members of the House be urged to vote for the bill that fixes the limit at 100 companies of infantry. (This bill was defeated on Friday, 18th.)

The Committee on Legislation submitted plans to Senator Cable just after the adjournment at noon of Feb. 16, and the same day he introduced a bill to amend Section 3067, providing that commanding officers may order the arrest and confinement of enlisted men for disobedience of orders for any period not exceeding five days to be followed by trial, etc.

This report would be lacking without a word of praise for the Board of 1st Inf., from Cincinnati. After the passage of the "Armory Bill" the week before, the officers of the command felt like rejoicing, and they did rejoice. The band added a great deal to the enjoyment of the officers present, and confirmed again the statement made that this is one of the best both in music and knowledge of duties in the military service.

The organizations were well represented in the convention. The 1st Inf. sent all with the exception of Capt. Carroll; 14th Inf. was represented by 20 officers; 3d and 16th, fifteen officers each, and so down to 13th Inf., represented by three officers.

On Feb. 15 the surgeons and assistant surgeons attending the convention met in the committee room of the Neil house at 7.30 to consider the wants of their department. Surgeon General Herrick presided. After a full discussion it was decided to petition for more surgical instruments and better medical supplies.

The Cleveland Grays celebrated, Feb. 22, their fiftieth anniversary on a grand scale. In the parade in the morning 90 rank and file and 130 ex-members were in line. At the re-union in the afternoon about 300 attended, and a veteran corps was formed of ex-members, 95 names being signed to the roll, of which seven were on the original roster fifty years ago.

DECISION IN THE CASE OF MAJOR ACKERMAN.

GENERAL HEADQUARTERS, STATE OF NEW YORK,
ADJUTANT GENERAL'S OFFICE, ALBANY, Feb. 23, 1887.

You are hereby notified that the record of the proceedings of the trial of Maj. J. Fred. Ackerman, 13th Regiment, N.G., S. N. Y., by the General Court-martial appointed by Special Order No. 92, Dec. 1, 1886, from General Headquarters, and of which Lieut.-Col. Heman Dowd, 12th Regiment, is president, was received at these Headquarters Jan. 26, 1887.

The court finds the accused not guilty on specifications 1, 2, 4, 5 and 6; guilty in part on the third specification, and not guilty as to the residue of the same, and not guilty on the charge.

The Commander-in-Chief approves the proceedings and findings of the court on the 1st, 2d, 4th, 5th and 6th specifications. The finding on the 3d specification is approved so far as it finds the accused guilty, and disapproved so far as it finds him not guilty; and the finding of not guilty on the charge is disapproved, for the reason that the entire 2d specification is fully proved by the evidence produced by the prosecution, which is not met, but finds support in the testimony of the accused, whose conduct was plainly to the prejudice of good order and military discipline as is charged.

By order of the Commander-in-Chief.

JOSIAH PORTER, Major-Gen. and Adjt.-Gen.

The third specification alleged that Major J. Frederick Ackerman did say to and advise 1st Lieut. Henry C. Clark that he should not accept any office or position upon the staff of said regiment, because it was a question of a short time only whether Col. Edward Fackner would be forced out of the regiment or the regiment disbanded.

The other specifications were in brief: That the Major spoke of Col. Fackner as "that thing"; that the Colonel "had to go"; that he (Ackerman) endeavored to induce junior officers of the regiment to oppose the Colonel; that he combined with other officers of the regiment to compel the retirement of the Colonel, and that he encouraged insubordinate demonstrations of the enlisted men.

THE SEVENTH N. Y. VETERANS.

ADJUTANT-GENERAL JOSIAH PORTER, of New York, concurs in the following opinion of Judge-Advocate General Ivins, rendered February 12, with regard to the 7th Regiment Veterans: "That the Veterans of the 7th Regiment are not an 'Independent Military Organization,' and cannot legally be recognized as such, they are not liable for military service in case of riot; that under the Mil. Code, 59, the members of said organization have not the right to wear 'any uniform or designation of grade similar to those in use in the National Guard issued under the provisions of the Mil. Code"; that said organization has not the power to confer legal military rank or authority on its members."

Second Battery.—Captain F. P. Earle.

THE 54th anniversary of the 2d Battery, N. Y., Capt. F. P. Earle, was celebrated by a reception on Feb. 22, at Cosmopolitan Hall. Prominent officers of the Army, Navy and National Guard, a large delegation of the Old Guard and a host of prominent citizens were present and a very enjoyable evening was spent. Captain Earle opened the grand march at 10 P. M., and a more beautiful spectacle could not be imagined. The white dress of the Twenty-second and the Old Guard, the handsome natty uniform of the Battery, the bright scarlet of the Brooklyn gatling battery, the blue State service-uniform, glittering gold insignia of major and brigadier-generals and field officers, and picturesque uniforms of veterans of all descriptions, mingled with an array of beauty the like of which is seldom met at entertainments of this kind. Every National Guard organization, as well as the Regular Army, was represented.

MISSOURI.

SEVERAL prominent citizens of St. Louis went to Jefferson City this week to urge on the Legislature the passage of the Militia bill. The Governor still holds the resignations of 50 or 60 officers, and is working to have the measure recalled and passed. It is doubtful, however, if the Legislature will recall the bill, as the body feels piqued at the severe castigation it has received through the press.

The Governor has signed the bill providing $100,000 to enlarge the armory of the 32d N. Y., Brooklyn.

Battalion drills in the 22d N. Y. are ordered for C, E, F, G and H, March 2, 9 and 16; A, B, D, I and K, March 4, 11 and 18.

Lieut.-Col. F. A. Schelling and Major H. Chauncey are appointed instructors for officers of the 8th N. Y. on the first Fridays in March, April and May, and for N. C. officers on the second and fourth Fridays.

The full dress reception of the non-commissioned officers of the 13th Regiment at their armory in Brooklyn, N. Y., on Monday evening, Feb. 21, was a very successful affair. The attendance of guests was exceptionably large. Refreshments were served in the gymnasium, thus obviating the necessity of guests leaving the armory for supper. The work of the Executive Committee was efficiently done. The invitations were of excellent design, and the regulations governing the reception were well conceived.

A committee consisting of Adjt.-Gen. Hastings, Qm.-Gen. Hill, Inspector Hepburn, Asst. Adjt.-Gen. Hassinger, and Superintendent Mahoney, representing the National Guard of Pennsylvania, visited the War Department Feb. 24 for the purpose of securing a change in the militia arms from calibre 50 to calibre 45, so as to correspond with the arms used by the regular troops. They also advocated an increase in the appropriation for arming the militia from $400,000 to $600,000. They were received by Lieut.-Gen. Sheridan and Adjt.-Gen. Drum.

TEN millions of dollars are reported to have been saved by the use of the Palliser projectile in England.

ANSWERS TO CORRESPONDENTS.

L.—Strube's "Drum and Fife Instructor," containing (by authority) the Army drum calls. Price, $1.50.

J. McD.—There is but one U. S. Military Academy, that at West Point. Write there for a copy of the regulations as to the appointment of cadets.

H. S.—Zachary Taylor was Colonel of the 6th Infantry from July 7, 1843, to June 29, 1846, and Newman S. Clarke from June 29, 1846, to his death, Oct. 17, 1860.

Toby asks: Is Fort Wayne, Mich., authorized to have a post trader? ANS.—Yes. Appointments are made by the Secretary of War on recommendation of the post council of administration.

H. H. B.—Write to the Navy Department, Washington, D. C., for a copy of the circular of Jan. 1, 1884, relating to the enlistment of boys in the U. S. Naval Service. It will give you full information.

Patent.—Write to Colonel J. G. Chandler, U. S. Army, Washington, D. C., who is President of the Equipment Board, Quartermaster General's Office. That Board takes cognizance of such matters as you describe.

G. H. W.—Gardens at posts maintained in pursuance of Regulations are either post or company gardens. It is not customary to lay them out in plots for individuals. General Orders 18, of 1868, from the A. G. O., will give you information on the subject.

Curious.—The late Brower Gesner, whose daughter was married last week to an officer of the Italian Army, never belonged to our Regular Army, except as a contract surgeon after the war. He served first as Assistant Surgeon of the 38th New York Volunteers, resigning in 1862, then was appointed Surgeon of the 10th New York Volunteers, from which he resigned Feb. 10, 1865.

Ignoramus.—Length of service, or of service as N. C. O., does not usually count in selections from approved candidates for position of Hospital Steward. It is more a question of fitness for the position. 2. There is no objection that we know of to a retired enlisted man living in a foreign country, and his pay would be sent him through the U. S. Consul on certificate from that officer as to his being alive, the identical person entitled to the pay, etc.

N. N.—The use of the words "company commander," in par. 168, A. R. 1881, and of "captain," in par. 169 has never occasioned any difficulty in the matter of appointments of 1st sergeants, sergeants and corporals. Captains, of course, when on duty with their companies, appoint 1st sergeants, and possibly the word "captain" is used in par. 169 in pursuance of the true military idea that captains should always be with their companies. But if a captain is on detached service of a "permanent" nature, or on a long leave, or absent in any way so as to make the command of the company by the 1st lieutenant of a permanent character then we see nothing in par. 169 to prevent such lieutenant selecting his 1st sergeant under the provisions of that paragraph.

T. M. asks: 1. Can an enlisted man on retired list enter the Soldiers' Home, and will he have to pay his board there? ANS.—He can enter the Home and receive its benefits free of cost.

2. Does a pensioner entering the Home receive his pension while there? ANS.—The act approved March 3, 1883, provides that the pensions of inmates of the Home, except assigned, shall be paid to the Treasurer of the Home, to be held in trust for the pensioner until he leaves. The act further provides that "the Board of Commissioners may, from time to time, pay over to any inmate such part of his pension money as they think best for his interest and consistent with the discipline and good order of the Home, but such pensioner shall not be entitled to demand or have the same as long as he remains an inmate of the Home."

FOREIGN ITEMS.

IN the late Franco-German war the Germans lost only 212 men wounded and 6 killed by the sword.

THE calling out of Russian Reservists for a short period of drill will take place for the first time this year.

IT is rather more than eight years since Mr. Kinglake gave us his last volume of the "History of the Crimean War," and we are at last promised the final instalment of that work.

IN 1870 the German forces on the march covered 570 square miles, and by a calculation recently made it was estimated that the present German Army would cover 800 square miles when all on the march.

H. M. STANLEY is reported at Zanzibar, en route to the relief of Emir Bey. Mr. Stanley's estimate of the time for his journey thence, assuming an average of six miles a day, is, Zanzibar to Congo, twenty days; Lower Congo, three; Upper Congo, thirty-five (by steamer)—total, 157 days' voyage.

HERR VON SCHAFFLE, formerly the Austrian Cabinet Minister, says war between France and Germany would cost $3,200,000,000. If four countries, Austria, Russia, France and Germany fought, the bill would be $6,000,000,000, and he also thinks European war would bring universal bankruptcy.

LORD ELPHINSTONE, replying for the Admiralty in the House of Commons, to the question whether the Admiralty had received any complaints of untrustworthy weapons supplied to them for the use of the fleet, said "it was not the custom at the Admiralty to keep any record of complaints made by officers of the fleet."

SEARCH has recently been made at Tunis for a subterranean water supply. Near Toser, which is famous for its palm groves, ancient Roman wells have been found; and an artesian bore giving 9,000 litres of water per minute was completed. The discovery of this vast supply of water confirms the assertions of Strabo which have hitherto been disregarded. The water from the new well rose to a height of 4 metres and formed an artificial pond round the orifice 10 metres deep. The well now yields 2,200 gallons per minute.

THE *National Zeitung* (Berlin), commenting on the German elections, says: "Foreigners will now see how mistaken they were in regarding the vote on the Army bill in the Reichstag last January as expressing German public opinion. Not only is the Septennate bill safe, but probably the assistance of the Centre members who support the Septennate will not be needed to secure its adoption. Germany, through the elections, has intimated to foreign countries that she does not cherish an impatient hope that after from one to three years she will be able to cast off the burden of the armaments forced upon her, but is firmly resolved not to haggle at unavoidable sacrifices."

THE Russian war vessels at present stationed in the Mediterranean have, it is said, received orders to leave for Japanese waters, where it is intended to assemble a considerable squadron.

THE English Navy has distinguished itself at Malta by giving the grandest ball on record. Flowers and fruits came from Naples, game from other quarters, and some of the delicacies from England. Royalty was represented by the Duke and Duchess of Edinburgh, the Princess Louise, and Prince George of Wales.

THE first of the fifty-one torpedo vessels ordered to be added to the French Navy this year has been launched near Toulon. No. 99, the official number, is of a new type, somewhat smaller than her consorts already on the active list. She is 116 feet long by 10 feet 10 inches beam and draws 8 feet, with a register of 54 tons, with crew and stores aboard. The estimated speed is 20 knots an hour.

KING HUMBERT in a recent order of the day says that the troops who displayed such gallantry and steadiness in the recent battles with the Abyssinians shed honor upon the Italian Army, and that the memory of Dogali will be imperishable in Italy's military history. He concludes: "I am proud to be your chief, and am more than ever assured that the country's destinies are safe in your hands."

AS A result of the committee, presided over by Sir Evelyn Wood, which recently met at the English War Office to report upon a new repeating rifle which had been submitted to the military authorities, orders have been given for experiments to be made with the weapon at as early a date as possible, by selecting men of 18 infantry battalions at home stations. It is understood that the gun to be tested is the Lee.

A GREAT fuss was recently made in France about the arrest of some German spies at Lyons, who offered a soldier called Pecherie 20,000 fr. for his rifle. Pecherie was proclaimed a hero; there was some talk of a sword of honor, a public subscription and a commission. The affair appears to have been a mare's nest, and the probability is that Pecherie is now in the cells instead of strutting about with a sword of honor by his side and patriotic offerings in his pockets.

THE discovery as to the defective state of a number of sword bayonets supplied to H. M. S. *Indus* for the use of the ship's company has created an alarm in English naval circles. It was found that they would bend into the form of the letter C without deflecting back again into their original form. It is stated that the *Mariner*, in the West Indies, and the *Racer* and *Icarus*, on the West Coast of Africa, have been supplied with weapons of the same description.

THE Italian War Department has been unexampledly reticent with regard to the re-armament of its forces with repeater rifles, and it is surmised that the army beyond the Alps is more forward in this respect than is generally suspected. It is, however, certain that there are extraordinary numbers of workmen employed night and day, at present, in turning out doubled stores of cartridges on a new system, for which rifles of another pattern to those in ordinary usage will be needed.

A LARGE ironclad, named the *Pelayo*, constructed for the Spanish Government by a French company, was launched at Toulon recently, having been commenced in April, 1885. The vessel is 105 metres long by 20 wide, and of 9,900 tons. The two engines are of 6,800 horse power, which can be increased to 8,000, and the two screws, each weighing 7,500 kilogrammes, give a maximum speed of 16 knots an hour. The cost is 14,500,000f., exclusive of that of the hydraulic apparatus and artillery, and the ship will be completely equipped in another year.

HITHERTO the engines for the Italian battle-ships have been manufactured by Messrs. John Penn and Sons and Messrs. Maudslay, Sons and Field, but the Italian Government have now determined to construct the machinery required for the naval service in Italy, and arrangements have been made with a native firm at Genoa for supplying propelling engines of the force of 12,000, 20,000 and 25,000 horse-power respectively for vessels now in course of construction at Spezia and Castellamare. The manufacture of the engines will be under the supervision of three English engineers, who have been expressly engaged for the purpose.

SIR FREDERICK ROBERTS, says the London *Daily Telegraph*, in an article on Burmah, has now put matters fairly straight. Flying up and down the river with his wonted activity, he has brought home to the disaffected Burmese a full conviction of our strength; he has made his way to the Ruby Mines, and planted a protecting garrison there; and has indicated a course of action for the future which will enable the Government of India to reduce the occupying force very considerably, the duties of keeping order in the land being largely discharged for the future by Indian native police, recruited in Bombay and in the Punjaub, and supported by only three military brigades. All Burmah is British now from Rangoon to Bhamo, and in nothing has the good judgment of Sir Frederick Roberts been more plainly evinced than in his cordial co-operation with the heads of the Buddhist Church in Burmah.

THE graving dock at Esquimalt, British Columbia, is now substantially completed, and will be open for use this spring. Its dimensions are: Length on coping inside, from gate to head of dock, 450 ft.; length on floor, 430 ft.; width on coping inside, 90 ft.; width on floor, 41 ft.; width on coping inside of outer invert entrance, 69 ft.; width on coping inside of inner invert entrance, 65 ft.; depth from coping to inverts, 33 ft. 6 in.; depth from coping to floor, 36 ft. 6 in.; depth from coping to floor of caisson berth, 36 ft. 10½ in.; depth from high water level, spring tide, to inverts, 26 ft. 6 in.; inclination of floor, 1 ft. in 400 ft. The cost of the whole structure is £160,000. The *Army and Navy Gazette* reports that when the guns are mounted on the works, Esquimalt will be one of the most heavily-armed places on the Pacific Coast, if not in North America. No other Canadian port will at all approach it, unless it be Halifax. Quebec has but three modern guns of efficiency, while St. John has not more than one or two, the minor places along the Atlantic and Gulf Coast being either practically undefended or possessing only a few antiquated pieces that would be incapable of replying to an ordinarily equipped modern ironclad.

THE German Imperial line of steamers to Australia will not touch any more at the Chagos Islands, but will call at Colombo. This will establish a direct fortnightly communication between Germany and India.

THE Spanish Chamber has voted a credit of 250,000,000 francs for improvements in the Spanish Navy. The existing stock of torpedoes being considered sufficient, it has been decided to purchase three large ironclads. They have been ordered at Toulon, where the *Numancia*, one of the largest ships of the Spanish fleet, was constructed.

COL. W. LUCKHARDT, C. B., (a German) contributes a paper to the "Journal of the United Service Institute of India" advocating the introduction of repeating-rifles into India, as the "foremost military question" of the day. "When," he says, "the great trial of breech-loader versus muzzle-loader took place in the war of 1866, the results showed that the expenditure of ammunition was considerably less in the case of the breechloader than of the muzzle-loader. It is only logical that it should happen thus; for while the perfect confidence in his rifle must animate a man to take careful aim and obtain the full benefits of its advantages, an inferior weapon must always tempt a man to a reckless use of it in the vain attempt to place it on a par with the superior one."

THE St. Petersburg papers have been forbidden to publish intelligence concerning the movements of troops or military armaments other than that which is officially communicated to them.

PLANS and drawings have been received at Chatham Dockyard for the first of a new class of ocean cruisers ordered to be built at that yard. The new vessel, which, it is stated, will be named the *Jubilee*, will be a protected vessel somewhat similar to the *Mersey* class, but will be smaller, and fitted with machinery giving her a speed of over 20 knots per hour. The new vessel will be 225 feet long, and will have a displacement of 2,800 tons.

BENT AND CO.'s water crackers are the oldest and best brand made. They are sent to all parts of the world, and their continued success through a long series of years and uniform excellence has caused a general recognition of their claim to be the best cracker made.—*Providence Daily Journal.*

RICH! fragrant! fine! are the expressions of those who smoke "Tansill's Punch" 5c. Cigar.

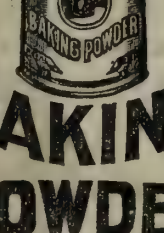
It takes the cake—does Tansill's 5c. "Punch" Cigar. "So say we all."

Beware of imitations of "Tansill's Punch" 5c. Cigar.

TO THE RESCUE WITH HALE'S HONEY OF HOREHOUND AND TAR before the baby struggles with croup.

PIKE'S TOOTHACHE DROPS Cure in one Minute.

T. H. NEVIN AND CO., Pioneer Paint Works, Pittsburgh, write about "Phenol Sodique": "It has been of great use in our mill. Has been used for burns, cuts, etc., and has given *instant relief*."



BENSON'S CAPCINE PLASTERS are well known in the Army and Navy as the most convenient and effective external remedy. For sprains, coughs, rheumatism, sciatica, and all ailments arising from exposure they excel every other application, giving relief and cure in a few hours. Avoid worthless imitations under similar names. Seabury and Johnson, Chemists, New York.

BIRTHS.

GREELY.—At Washington, D. C., Feb. 18, 1887, to the wife of Captain A. W. Greely, Acting Chief Signal Officer, U. S. Army, a daughter.

DUNN.—At Fort Monroe, Va., February 17, to the wife of 2d Lieut. B. W. Dunn, 3d Artillery, a son.

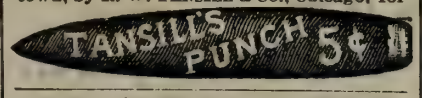
Proposals for Quartermaster's Stores.

NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, HOUSTON ST., COR. GREENE, NEW YORK CITY, Feb. 17, 1887.

SEALED PROPOSALS in triplicate, subject to the usual conditions, will be received at this office until 11 o'clock A. M. March 19, 1887, at which time and place they will be opened in the presence of attending bidders for furnishing and delivering at this depot the lumber, gasoline, office desks, &c., specified on schedule to be seen and had at this office.



The Government reserves the right to reject any or all proposals, or to accept, as may be most advantageous to the department.

A preference will be given to articles of domestic production and manufacture, conditions of price and quality being equal.

Envelopes containing proposals should be marked "Proposals for Quartermaster's Stores, to be opened March 19, 1887," and to be addressed to the undersigned.

HOW TO SECURE A GOOD ROOF.

ROOFS

READ why we were obliged to stamp every sheet of our Guaranteed Brands, every box of which we are importing under a positive guarantee.

OWING to the many cases in which our brands had been estimated upon, and inferior brands substituted, we were induced to bring out the sheets stamped, not only with the NAME OF THE BRAND, but also the THICKNESS.

OUR action in STAMPING and GUARANTEEING Roofing Plates exhausts our own means of insuring the use of first class materials when required. It now therefore rests with the Architect and Builder to protect the Owner and Roofer by seeing that the sheets on the roof are stamped.

FIRST-CLASS Roofing Plates if properly laid upon the roof should last thirty to forty years; while the cost of same would be but little more than that of the inferior tin, which has caused so much trouble and expense to all concerned.

SHEETS that are GUARANTEED and STAMPED are the only protection to the Roofer, Owner, Architect, against dishonest competition, and the use of inferior material.

It will cost NOTHING however to obtain FULL FACTS and SAMPLES, which may be had by addressing

NEW ENGLAND MUTUAL Life Insurance Company, OF BOSTON, Mass.

Assets, - - - - - - $17,846,546.65
Liabilities, - - - 15,238,761.16
Total Surplus, - $2,607,785.49

This Company insures the lives of Officers of the Army and Navy without extra premium, except when actually engaged in warfare, which premium if not paid at the assumption of the extra risk *will not invalidate the policy,* but will be a lien upon it, and also gives liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Special attention is called to the LIFE RATE ENDOWMENT policy, which combines insurance at low cost with an investment at a fair rate of interest, and at the same rate of premium formerly charged for life policies. Every policy participates in the *annual* distribution of surplus, and has endorsed upon it the cash surrender and paid up insurance values provided by Massachusetts laws.

Pamphlets explanatory of the New Feature may be had on application at Compy's Office, *POST OFFICE SQUARE.*

THE GATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun.
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.
For prices and other information please address

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 32. WHOLE NUMBER 1228. | NEW YORK, SATURDAY, MARCH 5, 1887. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

"PRACTICAL Instruction in Minor Tactics" is the title of a paper to be read by Lieutenant JOHN P. WISSER, U. S. Army, of West Point, before the Military Service Institution at Governor's Island, N. Y. H., on Thursday March 10, at 1.45 P. M.

CAPTAIN H. P. BIRMINGHAM, assistant surgeon, U. S. A., delivered the second of his series of medical lectures at Governor's Island on Wednesday, his subject being "Hemorrhages." There was a good attendance of officers and enlisted men, who displayed much interest in the Doctor's remarks and illustrations.

OF the 108 officers now composing the Corps of Engineers, exactly one half were appointed from the four States of New York, Pennsylvania, Massachusetts, and Ohio, as follows: New York, 23; Pennsylvania, 12; Massachusetts, 10; Ohio, 9—total 54. Of these 29 are field officers, namely: General Duane; Colonels Gillmore, Parke, Mendell, Abbot; Lieut.-Colonels Comstock, Poe, Houston, Elliot, Robert, McFarland, and Suter, and 17 Majors.

Now that the pay of hospital stewards has been raised to correspond in some degree with their duties we trust to see a corresponding elevation in their position and the selection of a class of very competent men. We look forward also to a change in their designation. With military brevity the functionary in question is generally hailed as "steward." This brings up visions of the useful gentleman on board ship who hands you your toddy, stands behind your chair at meals, and who is a general factotum in all matters relating to personal comfort and convenience. The designation "apothecary" would seem to be more appropriate.

A FURTHER postponement of the date for the opening of bids for furnishing the Navy with steel armor plates and gun forgings will probably be granted by the Secretary of the Navy. According to the terms of the original advertisement Dec. 15 last was the day set for the bids to be opened, but as there were some unexpected delays in getting out the specifications the date was postponed until March 15. The steel manufacturers have just received the specifications and drawings, and they say that it is absolutely impossible for them to prepare their estimates in the short time remaining, and they have asked for an extension of time, which the Secretary will, no doubt, feel compelled to grant, as he undoubtedly should do.

GENERAL O. B. WILLCOX, in a recent order, says it has been observed that the provisions of pars. 13 and 14, BLUNT'S "Rifle and Carbine Firing," have received little or no attention, and he announces that the non-observance will in future be regarded as a neglect of duty. These paragraphs impose upon post commanders great responsibility in the matter of direct supervision of the instruction of the troops in target practice, especially company skirmish firing, and we therefore give prominence to the matter for the reason that it is and always has been our unshaken opinion that with active, energetic, and painstaking post commanders, there can be little fear of want of efficiency in any particular on the part of the troops. The delegation of authority is apt to descend, one putting it off upon another down the scale, and this plan of shifting responsibility if carried too far becomes a pernicious evil.

AN interesting discussion was had on Wednesday evening before the American Society of Civil Engineers, at their rooms, 127 East 23d street, New York City. It was prompted by a paper read by Mr. William Metcalf in favor of Steel Cast-Guns. The discussion which followed was participated in by Lieutenant J. W. Danenhower, U. S. N.; Commander H. B. Robeson, U. S. N.; Captain O. E. Michaelis, Ordnance Corps, U. S. A.; Major M. P. Miller, and Lieutenant A. W. Vogdes, 5th U. S. Art.; Captain F. V. Greene, late Engineer Corps, U. S. A., and William C. Church. We expect to be able to publish a synopsis of the paper under discussion next week, March 12. We shall accompany it with a very valuable paper by Commander G. W. Sumner, U. S. N., on "The Whitworth System of Casting Guns." This last will be found to be one of the most valuable contributions yet made to the current discussion on the subject of providing our Army and Navy with heavy guns.

GENERAL BRECK, Adjutant-General Department of the Platte, who has always taken so much interest in target practice, has issued a valuable letter of instruction explaining in detail the duties of officers and enlisted men at a Department competition—this in addition to those laid down in "Instructions in Rifle and Carbine Firing," with which they must all be familiar. As to competitors, he says: "Upon their behavior and attention to duty the credit of the Department rests. It should be the object of each man, no matter how small his chances are of obtaining a place on the team, to do his best to obtain a high total for his regiment and the Department, both in known distance and skirmish firings. While every privilege possible will be allowed, competitors should remember that the training and abstinence of the athlete are of the greatest benefit to the rifleman. While not firing on the range, aiming at a small target, in the different positions, and going through the motion of skirmishing, being careful not to use loaded shells, will bring the best of results." The information given is excellent, and intended for those at Department competition.

THE Secretary of War has decided that the new mileage law contained in the Army Appropriation bill does not go into effect until the beginning of the next fiscal year. This view will hardly be sustained by the accounting officers of the Treasury if they adhere to their former rulings on similar questions. It has been held by them in a number of cases that special items of legislation in appropriation bills, not involving salaries, are to take effect upon the date of the passage of the bill in which they are incorporated, in the same manner as if the legislation had been enacted in a special bill. The officers who would be benefited by the new mileage law taking effect immediately are those travelling over land grant roads. Under the old law they are only furnished transportation over these roads, while the new law grants them transportation and four cents per mile in addition. Although the disbursement for mileage will be made during the remainder of the present fiscal year under the old law, the Secretary having so ordered it, the officers referred to will, it is believed, be granted mileage under the new law should they put in a claim for it after the travel has been performed.

THE nomination of Capt. Greely to be Chief Signal Officer, with the rank of Brigadier-General, received a favorable, though not unanimous, report from the Military Committee on Tuesday, and was confirmed on the 3d inst. General Greely was before the Committee on Tuesday and exonerated himself, to the satisfaction of the members, from all charges made against him by Mrs. Dr. Pavy. It is understood, however, that he was opposed by several members who object to the policy of promoting young officers to the prejudice of older ones. There was no opposition in the Senate, and he was confirmed as soon as his name was reached. The bill containing the provisions for the transfer of the Weather Bureau to the Agricultural Bureau having failed to become a law, General Greely will have the same duties to perform as his predecessor for at least another year, during which time he will no doubt be able to put Congress in the way of arriving at an intelligent conclusion as to the best method of reorganizing the corps. Whatever may be thought as to the wisdom or the justice of passing over officers of long service to select their juniors for promotion to high places, it should be remembered that the Senate is not the tribunal before which to argue the question. Attempts to defeat nominations by that body on such grounds uniformly fail, and of necessity must fail. So long as the President keeps strictly within his constitutional prerogatives, not even a Senate of hostile politics is likely to overrule him in the matter of promotions in the Army or Navy. The only ground on which that body can properly be asked to interfere is that the appointment is in itself an unfit one.

WE have heretofore commented on the frequency with which dishonorable discharges are awarded by sentence of Court-martial, often without the usual accompaniment, confinement at hard labor. Courts-martial at garrisoned posts are mostly composed of company officers, who cannot well be blamed for using their best endeavors, through a legal medium, to get rid of worthless material. But is it not a danger to the Service in making the commission of crime the means of escape from the contract of enlistment? We are believers in discipline, and have always held that upon company commanders devolve an important duty in that respect and that the "easy" way of getting rid of an incorrigible—discharge by Court-martial—should only be resorted to when it had been clearly demonstrated that discipline was powerless. We are glad to note, therefore, that so experienced and able an officer as Colonel THOS. F. BARR, of the Bureau of Military Justice, takes up this subject in a recent report, and expresses the opinion that the practice of dishonorably discharging men from the Service should be reduced to the minimum. At present, he says, Courts-martial sentence an enlisted man to be dishonorably discharged for all sorts of offences, and never seem to consider that they are in all probability awarding a boon to a discontented soldier. There are many men who commit offences for the purpose of securing dismissal from the Service, and Colonel BARR suggests that instead of discharging these men they be imprisoned at hard labor for a number of months. This treatment, he thinks, would induce most of them to remain in the Service and refrain from the commission of offences against the Army Regulations.

PERSONAL ITEMS.

CAPTAIN A. C. MARKLEY, 24th U. S. Infantry, of Fort Sill, is East on a six weeks' leave.

GENERAL H. G. WRIGHT, U. S. A., attains his sixty-seventh birthday on Sunday next, March 6.

CAPTAIN J. E. WILSON, 2d U. S. Artillery, left Pensacola, Fla., this week for a few weeks' visit North.

LIEUTENANT L. H. WALKER, 4th U. S. Artillery, rejoined at Fort Monroe, Va., early in the week, from a short leave.

LIEUTENANT E. B. IVES, 19th U. S. Infantry, lately at Fort Clark, has joined at Fort McIntosh, Tex., on promotion.

LIEUTENANT P. A. BETTENS, Jr., 9th U. S. Cavalry, and bride were in New York this week on their way to Fort Robinson, Neb.

COLONEL C. L. BEST, 4th U. S. Artillery, rejoined at Fort Adams, R. I., early in the week from a short visit to New York City.

LIEUTENANT B. H. RANDOLPH, 3d U. S. Artillery, rejoined at Washington Barracks, D. C., on Thursday from a week's leave.

THE following Mexican War claim was allowed by the Second Comptroller this week: Schuyler Hamilton, 1st Lieut., 1st Inf., $90.

CAPTAIN R. G. SMITHER, 10th U. S. Cavalry, who has lately been visiting at Indianapolis, has had his leave extended one month.

ASSISTANT SURGEON C. F. MASON, U. S. A., who only entered the Army in May last, leaves it on the 25th of this month for civil life.

LIEUTENANT S. C. MILLS, 12th U. S. Infantry, now visiting in the North, lately at Philadelphia, expects to return to St. Augustine, Fla., early in May.

SAYS the society column of a Western paper: "The wedding was strictly private, owing to the bridegroom being still in mourning for his first wife."

CAPTAIN ALBERT BARNITZ, U. S. A., retired, and family, who have been visiting relatives at San Antonio, Tex., have returned to their home in Cleveland, O.

MAJOR W. McK. DUNN, 2d U. S. Artillery, and Mrs. Dunn, of Little Rock Barracks, at Hot Springs for the past few weeks, will remain there until the latter part of March.

MRS. BRECK, wife of Gen. Samuel Breck, U. S. A., has returned to Omaha from a visit to Boston, where she was summoned by the illness of her son, at school there, who is now better.

UNDER recent orders Captain E. A. Godwin, 8th Cavalry, moves with his troop from Camp Del Rio to Fort Clark, Tex., and Capt. H. W. Sprole with his troop from Fort Clark to Camp Del Rio.

LIEUTENANT J. R. RICHARDS, Jr., 4th U. S. Cavalry, who is to be married on Tuesday next at Springfield, Mo., to Miss Bessie Russell, will spend his wedding tour in the East and return to Arizona in May or June.

THE "Reminiscences of a Field Officer of the 11th Pa. Cavalry," by Colonel Samuel Wetherill, were related to a large audience at the United Service Club, Philadelphia, on Wednesday evening of this week.

GENERAL W. D. WHIPPLE, U. S. A., arrived at Governor's Island on Wednesday from Florida, and has since been the recipient of many congratulations on his promotion to colonel in the Adjutant-General's Department.

COLONEL H. M. BLACK, 23d U. S. Infantry, left Detroit this week for Fort Cœur d'Alene, Idaho, to preside over the Court of Inquiry convoked there. Capt. G. M. Randall, 23d Inf., will command Fort Wayne, Mich., during his absence.

LIEUTENANT B. D. SPILMAN, 7th U. S. Cavalry, who was married a few months ago to the daughter of Senator Camden, of West Virginia, has engaged in mining business at Parkersburg, and will leave the Service in September next, being now on leave until that time.

SURGEON D. L. HUNTINGTON, U. S. A. for a long time past on duty in the office of the Surg.-General, has selected for duty that pleasant station, Benicia Bks., Cal., and will join there early in April, taking a month's leave from March 1, before starting for the Pacific Coast.

COLONEL JOHN J. HARDIN, 1st Illinois Volunteers, who fell at Buena Vista Feb. 23, 1847, while heading his regiment in a charge, is not forgotten by his old comrades, for on Wednesday of last week, the 40th anniversary of the battle, a delegation of them appeared before the Illinois Legislature and asked that a monument be erected to the memory of the old hero.

LIEUTENANT E. C. BROOKS, 8th U. S. Cavalry, was married Feb. 17, at Chicago, to Miss Margaret Anna Gray, daughter of Mr. Theodore Gray of that city. The ceremony, which took place at the residence of the bride's parents, was performed by Bishop Cheney, of Christ Church. The married couple shortly afterwards left on their wedding tour, their destination being San Antonio, where the groom's troop is stationed.

AT the last diplomatic reception at the White House, says an exchange, General Daniel E. Sickles, U. S. A., was present in uniform, wearing his famous gold-hilted sword. After the reception was over he took the three ladies whom he escorted to Chamberlin's for supper. They had a mighty good time and a mighty good supper. When the bill came General Sickles dived down into his pocket for his purse, but, with a disgusted air, withdrew his hand without any pocketbook in it. In vain he searched every place in his uniform in which a purse could hide itself. He had evidently forgotten it; but, being fertile in expedients, he pulled off his gold-hilted sword and left it with the proprietor as security for his bill until he could get around to the hotel and get some money.

COLONEL JOHN HAMILTON, 5th U. S. Artillery, made a short visit to Washington, D. C., this week.

LIEUT. T. S. MUMFORD, 13th U. S. Inf., recruiting officer of St. Louis, left there this week on a short leave.

COL. A. H. YOUNG, Captain Q. M. Dept., U. S. A., visited New York this week, registering at the Albemarle Hotel.

THE son of Lieutenant C. B. Hinton, 18th U. S. Infantry, a boy of nine years of age, died recently at Fort Gibson, I. T., of diphtheria.

J. C. CONDON, formerly of Battery C, 5th U. S. Artillery, contributes to the Springfield *Republican* "An Artilleryman's Note of Bull Run and Antietam."

CAPTAIN A. A. DE LOFFRE, Assistant Surgeon, U. S. A., of Fort Totten, Dakota, has, by the death of an uncle in France, fallen heir to a considerable property.

LIEUT. L. H. STROTHER, 1st U. S. Inf., goes, after all, to the Virginia Agricultural College for duty, the previous orders cancelling the detail having been revoked.

LIEUTENANT T. W. LORD, 2d U. S. Inf., lately a guest at the Ebbitt House, Washington, D. C., has received an indefinite extension of his leave on account of sickness.

CHAPLAIN J. B. McCLEERY, U. S. A., of Fort Leavenworth, was at Wichita, Kansas, this week, attending a meeting of the Board of Regents of Garfield University, of which he is a member.

MAJOR-GENERAL O. O. HOWARD, U. S. A., is to write a series of papers for the *Overland Monthly* on the Indian wars. The first will be issued in April and will relate to the Piute and Bannock wars of 1878.

IT is to be regretted that, owing to the health of Mrs. Lemly, Lieut. H. R. Lemly, 3d U. S. Artillery, has been obliged to relinquish the detail as Military Attaché to the Legation of the U. S. at Bogota, Colombia.

CAPTAIN L. S. TESSON, Assistant Surgeon, U. S. A., on leave for some time past in the North, goes to Chicago as attending surgeon, in place of Major C. R. Greenleaf, who goes to duty in the office of the Surgeon-General.

THE death of Major D. M. Vance, 13th U. S. Inf., promotes Capt. H. C. Cook, 2d U. S. Inf., to Major of the 13th; 1st Lieut. L. S. Ames, 2d Inf., to Captain of Co. E, and 2d Lieut. Abner Pickering, of Co. F, to 1st Lieutenant of Co. A.

MAJOR S. S. SUMNER, 8th Cav., is presiding over a Board of officers at Jefferson Barracks called to consider the subject of horseshoeing in the Army. It is understood there have been numerous complaints of late against the present system.

CAPTAIN J. A. FESSENDEN, 5th U. S. Art., after a three months' tour at Bedlow's Island, N. Y. H., returned with his battery to Fort Hamilton on Wednesday, and was replaced by Captain S. A. Day, same regiment. The duty at Bedlow's Island is regarded as a pleasant detail.

MAJOR-GENERAL D. E. SICKLES, U. S. A., fell in front of the Grand Central Railway Station, New York City, during the storm of Saturday last, breaking his thumb, spraining a wrist, and receiving other painful though not dangerous injuries. Carl Schurz fell and broke his thigh, and Benj. F. Butler dislocated his shoulder.

THE remains of General Loring, who died in New York last December, are to be removed to St. Augustine in a few days, for interment there in the cemetery of the Loring family. The body will be escorted to its last resting place by several friends. General Loring was a native of Florida, and it is expected a monument will be erected over his grave.

GENERAL SIR OWEN LANYON, K. C. B., says a despatch from Jacksonville, Fla., has gone to Thomasville. He is the gallant British officer who won fame and distinction at Tel-el-Ketir, in Egypt, where he was severely wounded and has never recovered his health. He is low now from blood-poisoning, caused by drinking the bad water of those inhospitable lands.

MRS. FLETCHER, wife of Captain W. Fletcher, 29th Inf., writes from Fort Assinniboine, Montana, to a friend in Dayton, O., that the reports of the recent fearful cold out there are only too true. The Signal Service reported 60 degs. below zero. Mrs. Fletcher says they managed to keep comfortable by the help of four large wood fires in the house, the officers paying for the fuel.

MRS. LOGAN has decided that the remains of her deceased husband shall be permanently interred in Jackson Park, on the west side of Chicago. In communicating her wishes in that respect she says: "In so deciding it is with the express understanding that the remains of General John A. Logan shall be placed in the base of the monument erected thereon to his memory; and that when I shall be no more my own remains shall be laid beside his, in a suitable receptacle provided for both."

BY order of the Russian Minister of War every regiment in the Russian Army will have its detachment of sportsmen, who will wage war against the wolf, the bear and all kinds of game. Besides gaining considerable knowledge of the topography of the different districts by hunting, the sportsmen, the government believes, will be better prepared to undertake perilous and difficult missions in times of war if the soldiers have been accustomed to the dangers they will have to encounter in their sport in the immense forests of the interior of Russia.

CAPTAIN S. T. CUSHING, Subsistence Department, U. S. A., affords a striking instance of the slowness of promotion in that department. He was promoted Captain 2d Infantry Feb. 15, 1862, and soon afterwards transferred to the staff. John S. Poland, who was promoted Captain 2d Infantry four months after Cushing, has been a Lieutenant-Colonel for more than a year. W. F. Drum, who was a 1st Lieutenant in the 2d Infantry when Cushing was a Captain, attained a Lieutenant-Colonelcy a few months ago. And so the instances might be multiplied.

LIEUTENANT CLARENCE DEEMS, 4th U. S. Artillery, left Fort Adams, R. I., on Wednesday on a short leave.

MAJORS HUTTON and Purcell, of the British Army, arrived in New York from Liverpool this week and quartered at the Victoria Hotel.

MAJOR GEO. H. TREADWELL, of Albany, has been elected Department Commander of the G. A. R., State of New York, for the ensuing year.

ONE of the most delightful card parties of the season, says the Omaha *Excelsior*, was that given by Colonel and Mrs. Guy V. Henry, Monday evening.

CAPTAIN R. P. STRONG, 4th U. S. Artillery, on leave from Fort Adams, R. I., spent a few days in New York this week, quartering at the Albemarle Hotel.

LIEUTENANT-COLONEL J. S. CONRAD, 22d U. S. Infantry, was expected to rejoin at Fort Lyon, Col. early this week from leave, and resume command of the post.

A LARGE party went down to Jefferson Barracks from St. Louis, February 25, among whom were the Misses Lucy and Ann Carter Wickham, Edith and Janet January, Lulu Mason, Hildegarde Sterling, Milnie Alexander, Mamie Clark, Mrs. John R. Triplett, Miss Triplett, and Mrs. Wm. Mason.

A WASHINGTON despatch says: "General Bragg, M. C., will retire to private life next Friday. It is known that Mr. Vilas will be glad to have General Bragg placed in some place which would withdraw him from active politics, and it is asserted that Bragg would be glad to receive an appointment as United States Judge."

THE President on Wednesday transmitted to Congress the papers in the case of Count Pulaski, showing his services and pay during the War of the Revolution. The Secretaries of the State, Treasury and Interior Departments ransacked their archives to furnish the information, which was called for by a granddaughter of the late Count.

CAPT. O. E. MICHAELIS, Ordnance Corps, U. S. A., is to lecture on Friday evening of next week before the Franklin Institute of Philadelphia, on "The Army of Kukuana Land." The subject will be an interesting one, especially to those who may have read about the army in question in H. Rider Haggard's much read novel, "King Solomon's Mines."

MRS. PAVY'S charges, briefly, before the Senate Military Committee on Tuesday, were that General Greely had treated her husband unjustly; that he had attempted to rob him of the scientific honor he had won, and in other ways showed his jealousy and dislike of him. General Greely was then heard in his own defence. He denied Mrs. Pavy's charges in toto, and apparently satisfied the committee that they possessed no foundation whatever in fact.

THE death of Major W. P. Chambliss, U. S. A., at Cobourg, Feb. 22, was most unexpected. He had been looking unusually well, and on the evening before his death had made a political speech. He returned home in excellent spirits and retired for the night. Not appearing at his usual hour in the morning his room was visited and he was found dead in his bed from heart disease. Mrs. Chambliss at the time of her husband's death was so ill that her life was despaired of.

GEN. SHERMAN, Major-Gen. Schofield, Gen. Butterfield, and many others, attended the first banquet of the First Hussars of New York, at Delmonico's, on Tuesday evening. General Sherman responded for "Our Guests," and at the conclusion of his speech the inevitable "Marching through Georgia" was sung. General Schofield responded for "The U. S. Army;" General Butterfield for "The necessity of the military in support of the civil authority," and General Fitzgerald for "The National Guard."

MARSHAL MACMAHON is generally supposed not to be endowed with many mental accomplishments. When he was President of the Republic, and he heard that Henri Rochefort had made his escape from New Caledonia and had landed at Melbourne, he said: "We must write at once to Washington!" On his Aide-de-Camp informing him that Melbourne was not in the United States, but in Australia, he exclaimed: "Ce b—— d'Harcourt connait tout!" Glancing over the *livre d'or* of St. Cyr, we find that Cadet MacMahon, when he obtained his commission in 1825, came out No. 13; Canrobert No. 18, in 1826; whereas in 1855 the present hero of the day and War Minister, Boulanger, came out 138th.

"LIEUTENANT C. A. L. TOTTEN, 4th U. S. Artillery," says a New London paper, "delivered Feb. 18, at Allyn Hall, one of the most scholarly and finished lectures ever delivered before a New London audience. The subject was 'The Sacred Cubit' and to do it justice required an Oriental scholar, a deep student of ancient history, a thorough mathematician as well as one with a mind capable of receiving, retaining, contrasting and comparing the facts and the fictions of profane history, the truths and the parables of scripture history; winnowing the chaff from the grain and utilizing the grain in working out the problem sought to be demonstrated. That Lieut. Totten fulfilled these conditions is the highest praise that can be given him."

EX-SECRETARY RICHARD W. THOMPSON, of Indiana, has been in Washington for two or three days. His erect and slender figure and gray hair make him noticeable. It is understood that the company which is engaged in promoting the enterprise of Count De Lesseps pays Mr. Thompson $25,000 a year. It is virtually a bonus for the use of his name, and has recently come to be regarded as such by the French directors of the company, who have been raising vigorous opposition to the cost of the American adjunct to the canal scheme. At a recent meeting of the board, it is said, the question was seriously raised whether the entire American machine might not be dispensed with, including the ex-Secretary, and it is possible that in the near future the French will decide to "go it alone" on the Isthmus. There has been a meeting here within a day or two of the American directors of this enterprise, in which there were some discussions which have not been permitted to reach the ear of the public, but which indicate a lively internal dissension.—*N. Y. Tribune.*

LIEUT. J. L. BARBOUR, 7th U. S. Inf., has left Fort Laramie and proceeded to Fort McKinney, Wyo., for duty.

CAPT. HENRY B. ROMEYN, 5th U. S. Inf., has been elected Inspector-General of the Department of Montana, G. A. R.

LIEUTENANTS H. C. CABELL, W. E. Shipp and Alfred Hasbrouck, U. S. Army, registered at the Grand Hotel, Paris, France, on Thursday.

WE are glad to learn that Dr. Breck, eldest son of Gen. Samuel Breck, U. S. A., 150 Commonwealth avenue, in Boston, has entirely recovered from his recent severe illness.

CAPTAIN LOUIS S. TESSON, Assistant Surgeon, U. S. Army, has entered upon duty at Maj.-Gen. Terry's headquarters at Chicago, and finds his new station quite an agreeable one.

COLONEL C. L. BEST, 4th U. S. Artillery, it is understood, has selected 1st Lieut. S. W. Taylor for regimental adjutant in succession to Lieut. A. B. Dyer. The latter will, however, remain on duty at Fort Adams.

GENERAL ROBERT NUGENT, U. S. A., who commanded the renowned Irish Brigade during the war, has been confined to his room for several weeks, by a painful illness resulting from a wound received at Fredericksburg.

ORDERS had been issued to prepare charges against Lieut. Joseph S. Powell, of the Signal Corps, but they were revoked upon recommendation of Surg. Reilly, who reports that the unfortunate officer is a complete mental and physical wreck. He was not capable of understanding an order of arrest and he was, therefore, released.

GENERAL GEORGE CROOK, U. S. A., who has been visiting in Boston, has, says a despatch of Feb. 27 from that city, "succumbed to the invidious east winds of Massachusetts Bay. He was taken sick Saturday night, and was too ill to-night to speak at a meeting arranged by the Massachusetts Indian Citizenship Committee. His illness is but temporary, however, and a few days will set him to rights."

THE following Army officers are registered at the War Department this week: 1st Lieut. E. P. Andrus, 5th Cav.; 1st Lieut. F. E. Hobbs, Ord.; Capt. Geo. D. Wallace, 7th Cav.; Maj. Anson Mills, 10th Cav.; 1st Lieut. Crosby P. Miller, 4th Art.; 2d Lieut. H. C. Carbaugh, 5th Art.; 1st Lieut. R. P. Strong, 4th Art.; 1st Lieut. Geo. L. Turner, 18th Inf.; Col. John Hamilton, 5th Art.; 2d Lieut. P. H. Bettens, Jr., 9th Cav.; Lieut.-Col. Orlando H. Moore, retired; Major C. R. Greenleaf, Med. Dept.; Capt. L. Brechemin, Med. Dept., and Maj. J. A. Smith, Engr.

THE motion to suspend the rules and pass the bill granting a pension to the widow of Gen. Logan, was lost in the House on Thursday—yeas, 145; nays, 113—not the necessary two-thirds in the affirmative. Mr. Randall, of Pennsylvania, said that he had voted to give the widows of Gens. Thomas and Hancock $2,000 a year. They had been exceptional cases, and he was ready to make an exceptional case on behalf of the widow of John A. Logan. [Applause.] Mr. Matson, of Indiana, believed that in the granting of large pensions there was danger to the American people and to the American Government. To give a pension of $2,000 to those who did not need it tended to the building up of an aristocracy with money wrung out of the sweat of the people.

CHAPLAIN R. R. HOES, U. S. N., of Lambertsville, N. J., has been visiting in Washington.

ASSISTANT SURGEON H. B. SCOTT and Assistant Paymaster Leeds C. Kerr were examined for promotion this week.

CIVIL ENGINEER A. G. MENOCAL, U. S. N., registered at the Fifth Avenue Hotel, New York city, on Wednesday.

ASSISTANT ENGINEER W. S. SMITH, U. S. N., is in San Francisco, inspecting the construction of the steel cruiser *Charleston*.

CHAPLAIN A. L. ROYCE, U. S. N., is giving efficient aid during Lent in a series of Lenten services and lectures at St. Paul's Church, Boston.

NICOLL LUDLOW, JR., son of Comdr. Nicoll Ludlow, U. S. Navy, a bright youth of sixteen, died near Concord, N. H., Feb. 28. The remains were taken to Oakdale, L. I., for interment.

THE illness of Commander George W. Coffin, who has been detached from command of the *Quinnebaug* on medical survey, is the African fever, which he caught on the recent cruise down the West Coast.

OF the Department of Steam Engineering at the Naval Academy there are but two officers who have not graduated from that institution. These two are Chief Engr. Farmer and Passed Asst. Engr. Milligan.

AN assessment is being called by the members of the Navy Mutual Aid Association to cover the death of Lieut.-Comdr. T. M. Gardner, retired. Ensign C. N. Atwater has been admitted to membership in the Association.

MR. JARVIS B. EDSON, who was formerly an officer of the Engineer Corps of the Navy, is to deliver a lecture before the Naval Institute at Annapolis on Friday, March 4, his subject being "Pressure Recording Instruments."

LIEUTENANT-COMMANDER HEMPHILL, U. S. N., is living in one of the houses lately vacated near the gateway at the Ordnance Yard, and it is supposed that most of the officers assigned to ordnance work will eventually reside inside the walls.

AMONG the guests recently at the Occidental, San Francisco, were: Asst. Engrs. R. I. Reid, I. N. Hollis and W. S. Smith, and Ensign A. P. Niblack, U. S. N., and Lieut. L. P. Brant, 1st U. S. Inf.; Lieut. J. A. Turner, U. S. Marine Corps, at the Palace.

THE remains of the late Wm. A. Christian, of New Kent County, Va., purser U. S. Navy, who died in the Service at Gibraltar, Spain, on Aug. 29, 1852, have been recently received in this country, and were interred in Ivy Hill Cemetery, at Alexandia, Va., on March 2.

ENSIGN L. D. CLARK, U. S. N., lately detached from the *Franklin* at Norfolk, Va., has gone to California.

CAPTAIN GEORGE BROWN, U. S. N., returned to Norfolk, Va., early in the week from a visit to Indianapolis.

LIEUTENANT RICHARDSON CLOVER, U. S. N., and Mrs. Clover, now in Washington, contemplate a visit to San Francisco in the spring.

REAR ADMIRAL CHANDLER, Mrs. Chandler and the Misses Chandler, now at Yokohama, in recent letters express their delight with that city.

PAY DIRECTOR W. W. WILLIAMS, U. S. N., lately relieved from duty at San Francisco, will spend some time at his home in Columbus, Ohio.

COMMANDER J. R. BARTLETT, U. S. N., will read a paper on "The Physical Geography of the Sea," on Monday next before the Franklin Institute of Philadelphia.

LIEUTENANT H. M. HODGES, U. S. N., attached to the *Michigan*, arrived in Washington on Sunday last for a brief visit to the Department and to friends in the city.

MEDICAL DIRECTOR KINDLEBERGER has returned from a short business trip to the country, and having been confirmed in his new grade, is quite well satisfied with the outlook.

ENSIGN GILL having been detached from duty at the Ordnance Proving Ground at Annapolis, and ordered to the *Ranger*, his place has been taken by Ensign Albert Gleaves, U. S. N., detached from the Washington Ordnance Yard.

LIEUTENANT F. P. GILMORE, U. S. N., has reported his arrival in the United States, having been detached from the *Omaha* in December last. This officer has richly earned a full tour of shore duty, inasmuch as his orders to the China Station were dated in December, 1883. He will probably take advantage of the usual three months' leave allowed after a full cruise of three years or more.

THE dismissal of Passed Asst. Paymaster Yorke creates a vacancy for Passed Asst. Paymaster W. W. Barry, at present attached to the Receiving Ship *Independence*, Mare Island, and also promotes Asst. Paymaster Leeds C. Kerr to Passed Assistant. Mr. Kerr is attached to the *Dolphin* at New York, and will probably be examined for promotion in the near future.

NOW THAT Mr. Gowing and Mr. Kirby have passed successful examinations for promotion to Chief Engineers, leaving Mr. Entwistle nearly at the head of his grade, the latter officer is busily preparing for that ordeal which looms up in such huge proportion before the vision of the man in the sere and yellow leaf of middle age, following a quarter of a century's service afloat and ashore.

THE following officers registered at the Navy Department this week: Lieut. Comdr. H. E. Nichols, Ensign C. N. Atwater, Paymr. Arthur Burtis, Lieut. N. J. K. Patch, P. A. Paymaster John Corwine, Lieut. Comdr. Geo. C. Reiter, Lieut. C. G. Bowman, Lieut. A. P. Osborn, Lieut. John F. Parker, Lieut. R. Mitchell, Lieut. J. H. C. Coffin, Lieut. J. A. H. Nickels, Lieut. W. C. Babcock, Paymr. G. H. Read, Capt. J. H. Gillis, Cadet Engr. Gustav Kaemmerling and Lieut. W. H. Emory, Jr.

LIEUTENANT ANDREW DUNLAP, JR., U. S. N., is on duty in the Washington Ordnance Yard, but, so far, has no quarters assigned in the Yard. Lieut. Dunlap, having put in a full cruise on the Brazil Station, can expect a tour of shore duty which shall bring him pretty well up toward the head of his grade, although, as has been pointed out, promotion in the line of the Navy is going to be very slow for several years, there being but 23 retirements for age during the next seven years.

THE *Scientific American* in an article on Tin Roofing Plates refers to the well known house of Merchant and Co., No. 525 Arch street, Philadelphia, who also have branch offices in New York and Chicago. The *American* says they have long been identified with the best quality of tin plates, and no better proof could be had of the justice of this than the fact that their goods were chosen, after undergoing the most thorough and severe tests, for the White House at Washington, and this at a price higher than that of their competitors. Mr. Clarke Merchant, of that firm, was formerly in the U. S. Naval Service, resigning in 1865, while ranking as Commander. He entered the Service as Acting Midshipman in 1852.

SURGEON M. L. RUTH, U. S. N., is having built a fine house on I street, near Twentieth, Washington, D. C., to be completed in the early summer, and which, from an inspection of the plans, gives promise of comparing more than favorably with the many beautiful residences for which the capital is rapidly becoming noted. The doctor's well-known taste is being displayed in the interior arrangements, which will be of the simple, comfortable type, and this, combined with the skill of the architect, Mr. W. B. Gray, will render this one of the neatest establishments on the street. Dr. Ruth reported to Medical Director Kindleberger on March 1 for duty at the U. S. Hospital, giving place at the yard to Surgeon T. Woolverton, who reported the same day. Until the arrival of his family, it is probable that Dr. Woolverton will live at the hospital.

GENERAL EDWARD F. BEALE, says a Washington correspondent of the Philadelphia *Times*, is a grandson of that old naval hero, Commodore Thomas Truxtun, of the *Constellation*, captor of the French frigate *L'Insurgente*, 1799; destroyer of the *L'Avengance*, 1800, and High Sheriff of Philadelphia 1816-9, through the Commodore's beautiful daughter, Emily Truxtun. He is a son of Paymaster Beale, United States Navy, and himself entered the Navy in 1842 from the Naval Academy. During the war he served as a soldier. The Beale mansion is one of the most interesting in Washington. Among the objects of historic interest in it is a massive silver urn presented by the underwriters and merchants of London to Captain Thomas Truxtun, of the U. S. frigate *Constellation*, for the capture of the French frigate *Insurgente*, 44 guns, in the West Indies, 1799. Also medals voted by Congress to Commodore Truxtun and Paymaster Beale, and the epaulettes and sword and other badges and weapons donated to himself for various distinguished services.

COMMANDER J. R. BARTLETT, U. S. N., will, on Monday next, read a paper on "The Physical Geography of the Sea," before the Franklin Institute of Philadelphia.

PAYMASTER GEORGE H. READ, U. S. N., late of the Brooklyn Yard, who has been so long in charge of the clothing factory, has been paying a brief visit to Washington, with a view to finding out what ship and station is going to welcome him for a three years' cruise.

COMMANDER C. M. CHESTER, U. S. N., of the U. S. S. *Vandalia*, has lately sold a large lot of ground on T street, between New Hampshire avenue and 18th street, Washington, D. C., to Lawrence Sands, who intends filling it with fine residences in the early summer. The price paid was a trifle over $23,000.

QUITE a party of ladies were shown through the various departments of the Naval Ordnance Factory at Washington on Monday last by the officers on duty there. The party was chaperoned by Mrs. J. H. Blount of Georgia, wife of Hon. J. H. Blount, and among others composing the party was the daughter of the Hon. Hilary A. Herbert of Alabama, Miss Leary of Richmond, and various others, who expressed much pleasure at the various interesting processes going on, and all carried away the usual souvenirs of steel chips from the guns undergoing completion. Mrs. Blount was accompanied by her daughter, Miss Blount, and by Miss Marilu Bacon, from Macon, Ga., who has been spending the season there with the Blounts.

THE SUNDRY CIVIL BILL.

THE Sundry Civil bill as finally enacted into a law, contains the following items of interest to the two Services:

Armories and Arsenals.—For improvement of buildings, repairs, machinery, etc., for Rock Island, Ill., arsenal, $24,250; Springfield, Mass., arsenal, including $20,439.88 for milling shop; machinery for Benicia arsenal, Cal., $3,000; Frankford Arsenal, Phil., $1,000; new buildings of Pecoapiny powder depot, N. J., $35,000; improvements at Sandy Hook proving grounds, $3,000; testing machine at Watertown arsenal, $10,000; general repairs to all arsenals, $50,000; new testing machine for test of small specimens at Watertown arsenal, $15 000.

For the construction of buildings and the enlargement of such military posts as in the judgment of the Secretary of War may be necessary, $200,000.

Signal Corps.—For meteorological instruments, reports of storms, rent of buildings, maintenance of telegraph lines, hire of civilian employees, etc., $169,000. Pay of officers, non-commissioned officers and privates, $5,140; mileage to officers, $4,000 (amount to be disbursed according to new mileage law contained in Army Appropriation bill); commutation of quarters to commissioned officers, $23,680; commutation of rations to 450 Signal Service enlisted men, $48,000; regular supplies, $6,000; commutation of fuel to enlisted men, $47,260; forage, $3,391; incidental expenses, $760; transportation, $22,300; commutation of quarters to enlisted men, $85,440; medicine and medical attendance, $2,000. Provided, That no part of the appropriations made for the Signal Service by this act shall be used for the maintenance or support of a school of instruction nor of the military post at Fort Myer, Va.

National Cemeteries.—For maintaining and improving National Cemeteries, including fuel to superintendents, pay of laborers, etc., $100,000; pay of 73 superintendents, $60,000; headstones for graves, $20,000; repairs to roadways, $3,000; for iron fence to Fort Winnebago Cemetery, Wis., $2,500; for the erection of monuments or memorial tablets for the proper marking of the position of each of the commands of the Regular Army engaged at Gettysburg, $15,000.
